Table of Contents

- (1) This Registration Statement shall also cover any additional shares of Common Stock which become issuable under the 2000 Stock Option Plan by reason of any stock dividend, stock split, recapitalization or any other similar transaction effected without the receipt of consideration that results in an increase in the number of the Registrant's outstanding shares of Common Stock.
 - (2) The proposed maximum offering price per share has been estimated in accordance with Rule 457(c) under the Securities Act of 1933, as amended (the "Securities Act") as to the 1,531,140 additional shares of Common Stock authorized for issuance pursuant to the 2000 Stock Option Plan, solely for the purpose of calculating the registration fee. No options have been granted with respect to such shares. The computation is based upon the average of the high and low price of the Common Stock as reported on the Nasdaq National Market on March 9, 2005, because the price at which the options to be granted in the future may be exercised is not currently determinable.
