Adoption of Executive Incentive Plan Performance Goals for the First Half of Calendar Year 2007

On January 15, 2007, based upon the recommendation of its Compensation Committee (the Committee), the Board of Directors of the Company (the Board) established performance goals under Lam's 2004 Executive Incentive Plan for the first half of calendar year 2007 for Stephen G. Newberry, the Company's Chief Executive Officer. The performance goals included financial, operating and marketing objectives. Financial goals included revenue, gross margin and operating profit targets. Non-financial targets included certain market position objectives. Mr. Newberry's target incentive amount is 100% of his salary. Actual incentive awards may range from zero to 2.55 times the target amount based on both corporate and individual performance factors. To the extent that the actual performance (whether corporate or individual) falls below predetermined performance targets, incentive awards are determined as a declining percentage of the target incentive amount. No incentive awards are paid under the incentive plan if predetermined minimum financial performance targets are not met.

On January 15, 2007, the Committee also established corporate performance goals for the first half of its calendar year 2007 incentive plan for its named executive officers other than the Chief Executive Officer and Executive Chairman, including Martin B. Anstice, Nicolas J. Bright and Ernest E. Maddock. The 2007 incentive plan provides for the payment of incentive bonuses upon achievement of certain corporate, organizational and individual performance objectives. The corporate performance objective is based on the Company's operating profit. Each officer was assigned a target percentage of his or her base salary for the period, and the calculated incentive amounts may range from zero to 2.55 times the target amounts based on the achievement of the specified performance objectives. The calculated bonus amounts will vary to the extent that the actual performance exceeds or falls below performance targets. The amount of the final incentive payments is subject to the discretion of the Committee and may vary from the calculated incentive amount. The performance goals established for the first half of the year shall continue for the second half of the year unless the Committee determines to revise the goals for the second half of 2007.

Adoption of Multi-Year Cash Incentive Plan Performance Goals

On January 15, 2007, based on the recommendations of the Committee, the Board established performance goals and award amounts for 2007, the second calendar year of its 2006/2007 Multi-Year Incentive Plan (2006/2007 MYIP) and the first calendar year of its 2007/2008 Multi-Year Incentive Plan (2007/2008 MYIP) for Mr. Newberry. The Committee also established performance goals and award amounts for the second calendar year of the 2006/2007 MYIP and the first calendar year of the 2007/2008 MYIP for the Company's named executive officers listed above.

The 2006/2007 MYIP is based on company performance during calendar years 2006 and 2007, and awards will vest and be paid in 2008. The 2007/2008 MYIP is based on company performance during calendar years 2007 and 2008, and awards will vest and be paid in 2009.

Award amounts will be calculated quarterly based on Lam's operating profits and the amounts so calculated may be enhanced based upon a stock price performance factor.

Individual target amounts based upon revenue targets were established for each participant. Actual award accruals may vary from 0 to approximately 2.5 times the target amounts depending upon the operating profit and stock performance metrics, as applicable. The Committee also retains discretion to reduce amounts that would otherwise be accrued under the programs.
