**PROXY STATEMENT**

For Annual Meeting of Stockholders

To be Held on May 1, 2007

**GENERAL**

The accompanying proxy is solicited by the Board of Directors (the Board or the Board of Directors ) of Encore Wire Corporation (the Company or Encore Wire or Encore ) for use at the annual meeting of stockholders of the Company to be held at the time and place and for the purposes set forth in the foregoing notice. The approximate date on which this proxy statement and the accompanying proxy are first being sent to stockholders is March 31, 2007.

The cost of soliciting proxies will be borne by the Company. The Company may use certain of its officers and employees (who will receive no special compensation therefore) to solicit proxies in person or by telephone, facsimile, telegraph or similar means.

**Proxies**

Shares entitled to vote and represented by a proxy in the accompanying form duly signed, dated and returned to the Company and not revoked, will be voted at the meeting in accordance with the directions given. If no direction is given, such shares will be voted for the election of the nominees for directors named in the accompanying form of proxy and in favor of the other proposals set forth in the notice. Any stockholder returning a proxy may revoke it at any time before it has been exercised by giving written notice of such revocation to the Secretary of the Company, by filing with the Company a proxy bearing a subsequent date or by voting in person at the meeting.

**Voting Procedures and Tabulation**

The Company will appoint one or more inspectors of election to conduct the voting at the meeting. Prior to the meeting, the inspectors will sign an oath to perform their duties in an impartial manner and to the best of their abilities. The inspectors will ascertain the number of shares outstanding and the voting power of each share, determine the shares represented at the meeting and the validity of proxies and ballots, count all votes and ballots and perform certain other duties as required by law.

The inspectors will tabulate the number of votes cast for or withheld as to the vote on each nominee for director and the number of votes cast for, against or withheld, as well as the number of abstentions and broker non-votes, as to the proposal to ratify the appointment of the auditors. A majority of the Common Stock outstanding and entitled to vote at the meeting must be present in person or represented by proxy in order to constitute a quorum. Directors are elected by a plurality of the shares of Common Stock present in person or by proxy at the meeting and

---

**Table of Contents**

entitled to vote thereat. Under Delaware law and the Company's Certificate of Incorporation and Bylaws, abstentions and broker non-votes will have no effect on voting on the election of directors, provided a quorum is present. The proposal to ratify the appointment of auditors will be approved by a vote of a majority of the holders of shares of Common Stock having voting power present in person or represented by proxy. An abstention with respect to such proposal will therefore effectively count as a vote against such proposal. A broker non-vote or other limited proxy as to the proposal to ratify the auditors will be counted towards a meeting quorum, but such broker non-vote cannot be voted on such proposal and therefore will not be considered a part of the voting power with respect to the proposal. This has the effect of reducing the number of stockholder votes required to approve that proposal.

**Voting Securities**

The only voting security of the Company outstanding is its Common Stock, par value \$0.01 per share. Only the holders of record of Common Stock at the close of business on March 2, 2007, the record date for the meeting, are entitled to notice of, and to vote at, the meeting. On the record date, there were 23,318,352 shares of Common Stock outstanding and entitled to be voted at the meeting. A majority of such shares, present in person or by proxy, is necessary to constitute a quorum. Each share of Common Stock is entitled to one vote.

**PROPOSAL ONE  
ELECTION OF DIRECTORS**

The business and affairs of the Company are managed by the Board of Directors, which exercises all corporate powers of the Company and establishes broad corporate policies. The Bylaws of the Company provide for a minimum of five directors, and the Board of Directors has fixed at seven the number of directors that will constitute the full Board of Directors at the time of the 2007 annual meeting of stockholders. At the meeting, seven directors will be elected. William R. Thomas will not stand for re-election as a director of the Company at the 2007 annual meeting of stockholders. Mr. Thomas, age 78, is retiring from several boards on which he presently serves, one of which is Encore Wire. The Board of Directors has selected William R. Thomas III, the son of William R. Thomas, as the replacement nominee. Mr. Thomas III was recommended to the Board by the Company's Nominating and Corporate Governance Committee. Mr. Thomas III is assuming an increased role at Capital Southwest Corporation, a publicly-traded venture capital investment company, that owns over 17.5% of Encore Wire Corporation stock. Directors are elected by plurality vote, and cumulative voting is not permitted. All duly submitted and unrevoked proxies will be voted for the nominee for director selected by the Board of Directors, except where authorization to vote is withheld. If any nominee should become unavailable for election for any presently unforeseen reason, the persons designated as proxies will have full discretion to vote for another person designated by the Board. Directors are elected to serve until the next annual meeting of stockholders and until their successors have been elected and qualified.

The nominees of the Board for directors of the Company are named below. Each of the nominees has consented to serve as a director if elected. The table below sets forth certain

**Report of the Audit Committee**

To the Stockholders of Encore Wire Corporation:

The Audit Committee of the Board of Directors oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial reporting process including the Company's system of internal controls, and the preparation of the Company's consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. The Audit Committee's responsibility is to monitor and review these processes. It is not the Audit Committee's duty or responsibility to conduct auditing or accounting reviews or procedures. Members of the Audit Committee are not employees of the Company and may not represent themselves to be or to serve as accountants or auditors by profession or experts in the fields of accounting or auditing. As a result, the Audit Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States and on the representations of the independent auditors included in their report on the Company's financial statements.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited financial statements in the Company's Annual Report referred to below, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

**Table of Contents**

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. The Audit Committee has discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, as amended. The Audit Committee has also discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures and letter received from the independent auditors as required by the Independence Standards Board Standard No. 1, and has discussed the independent accountant's independence and considered the compatibility of non-audit services with the auditors' independence.

The Audit Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations.

Furthermore, the considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audits. The Audit Committee has met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. In addition, the Audit Committee met with management during the year to review the Company's Sarbanes-Oxley Section 404 compliance efforts related to internal controls over financial reporting. The Audit Committee held six meetings during fiscal year 2006.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission. The Audit Committee and the Board have also recommended the selection of Ernst & Young LLP as the Company's independent auditors.

The above report of the Audit Committee and the information disclosed above related to Audit Committee independence under the heading "Board Independence" shall not be deemed to be soliciting material or to be filed with the SEC or subject to the SEC's proxy rules or to the liabilities of Section 18 of the Securities Exchange Act of 1934 (the "Exchange Act"), and such information shall not be deemed to be incorporated by reference into any filing made by the Company under the Exchange Act or under the Securities Act of 1933 (the "Securities Act").

**EXECUTIVE COMPENSATION**  
**Compensation Discussion & Analysis**

This Compensation Discussion and Analysis section addresses the following topics: (i) the members and role of the compensation committee (the Compensation Committee); (ii) our compensation-setting process; (iii) our compensation philosophy; (iv) the components of our executive compensation program; and (v) our compensation decisions for fiscal year 2006.

Throughout this proxy statement the individuals whose compensation is reported in the Summary Compensation Table are referred to as the named executive officers. In this Compensation Discussion and Analysis section, the terms, we, our, us, and the Committee refer to the Compensation Committee.

**The Compensation Committee**

**Committee Members and Independence**

William R. Thomas, Joseph M. Brito, John H. Wilson, Thomas L. Cunningham, and Scott D. Weaver are the current members of the Compensation Committee. Mr. Thomas, who has served on the Board of Directors since 1989, is the Committee Chairman. Each member of the Committee qualifies as an independent director under NASDAQ listing standards.

**Role of the Committee**

The Compensation Committee administers the compensation program for the named executive officers and certain key employees of the Company and makes all related decisions. The Committee also administers the Company's employee stock option plan. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. The Compensation Committee did not retain compensation advisors during 2006, nor has it done so in the past. We operate under a written charter adopted by the Board. The charter is attached as Annex B and is available at [www.encorewire.com](http://www.encorewire.com). The fundamental responsibilities of our Committee are:

to review at least annually the goals and objectives and the structure of the Company's plans for executive compensation, incentive compensation, equity-based compensation, and its general compensation plans and employee benefit plans (including retirement and health insurance plans);

**Table of Contents**

to evaluate annually the performance of the Chief Executive Officer in light of the goals and objectives of the Company's executive compensation plans, and to determine his or her compensation level based on this evaluation;

to review annually and determine the compensation level of all other executive officers of the Company, in light of the goals and objectives of the Company's executive compensation plans;

in consultation with the Chief Executive Officer, to oversee the annual evaluation of management of the Company, including other executive officers and key employees of the Company;

periodically, as the Committee deems necessary or desirable and pursuant to the applicable equity-based compensation plan, to grant, or recommend that the Board grant, equity-based compensation awards to any officer or employee of the Company for such number of shares of common stock as the Committee, in its sole discretion, shall deem to be in the best interest of the Company; and

to review and recommend to the Board all equity-based compensation plans.

**Committee Meetings**

The Compensation Committee meets as often as necessary to perform its duties and responsibilities. We held two meetings during fiscal 2006 and have held two meetings so far during fiscal 2007. We typically meet with the Chief Executive Officer. We also meet in executive session without management.

**The Compensation-Setting Process**

We meet in executive session each year to evaluate the performance of the named executive officers and certain key employees, to determine their incentive bonuses for the prior fiscal year, to set their base salaries for the next calendar year, and to consider and approve any grants to them of equity incentive compensation.

Although many compensation decisions are made in the fourth quarter, our compensation planning process continues throughout the year. Compensation decisions are designed to promote our fundamental business objectives and strategy. Business and succession planning, evaluation of management performance and consideration of the business environment are year-round processes.

Management plays a significant role in the compensation-setting process. The most significant aspects of management's role are:

evaluating employee performance; and

recommending salary levels and option awards.

**Table of Contents**

The Chief Executive Officer also participates in Compensation Committee meetings at the Compensation Committee's request to provide:

background information regarding the Company's strategic objectives;

his evaluation of the performance of the named executive officers and other key employees; and

compensation recommendations as to the named executive officers (other than himself).

**Executive Compensation Philosophy**

The Company believes in rewarding executives based on individual performance as well as aligning the executives' interests with those of the stockholders with the ultimate objective of improving stockholder value. To that end, the Committee believes executive compensation packages provided by the Company to its executives should include both cash and stock-based compensation that reward performance.

The Compensation Committee seeks to achieve the following goals with the Company's executive compensation programs: to attract, retain and motivate key executives and to reward executives for value creation. The individual judgments made by the Compensation Committee are subjective and are based largely on the Compensation Committee's perception of each executive's contribution to both past performance and the long-term growth potential of the Company.

At the core of our compensation philosophy is our guiding belief that pay should be linked to performance, and several factors underscore that philosophy. First, a substantial portion of executive officer compensation is determined by each executive officer's contribution to the Company's profitability. Next, we do not have any employment, severance or change-in-control agreements with any of our executive officers. Finally, we do not believe in discounted stock options, reload stock options or re-pricing of stock options.

The Committee believes that total compensation and accountability should increase with position and responsibility. Consistent with this philosophy, total compensation is higher for individuals with greater responsibility and greater ability to influence the Company's targeted results and strategic initiatives. As position and responsibility increases, a greater portion of the named executive officer's total compensation is performance-based pay.

In addition, our compensation methods focus management on achieving strong annual performance in a manner that supports and ensures the Company's long-term success and profitability. We believe that stock options issued under the Company's stock option plans create long-term incentives that align the interests of management with the interests of long-term stockholders.

Finally, while the Company's overall compensation levels must be sufficiently competitive to attract talented leaders, we believe that compensation should be set at responsible levels. Our executive compensation programs are intended to be consistent with the Company's cost control strategies.

**2006 Compensation**

This section describes the compensation decisions that were made with respect to the named executive officers for fiscal 2006.

**Executive Summary**

In fiscal 2006 and the first quarter of fiscal 2007, we continued to apply the compensation principles described above in determining the compensation of our named executive officers. Our decisions were made in the context of the Company achieving record-breaking earnings for the third consecutive year. In summary, the compensation decisions made for fiscal 2006 for the named executive officers were as follows:

We did not increase base salaries for the named executive officers.

We substantially increased cash incentive (bonus) payments to named executive officers.

In fiscal 2006, only one option grant was made to a named executive officer.

The primary components of total compensation for the Company's named executive officers during fiscal year 2006 were as follows:

Base Salary;

Cash Incentive (Bonus); and

Equity Incentive

**Base Salary**

In determining base salaries, we consider the executive's qualifications and experience, scope of responsibilities, the goals and objectives established for the executive, the executive's past performance, internal pay equity, the tax deductibility of base salary and cash incentive payments and the extent to which the company's earnings were affected by the executive's actions. The relative amounts of the base salary and bonus of our Chief Executive Officer and Chief Financial Officer are set at levels so that a significant portion of the total compensation that such executive can earn is performance-based pay.

Base salary is largely determined based on the subjective judgment of the Committee without the use of a formula, taking into account the factors described above. In determining the base salary of the named executive officers, the Committee may periodically determine the applicable peer group and refer to surveys of compensation data for similar positions with similar companies. However, no such study was performed that affected any element of the total compensation paid to the named executive officers in fiscal 2006.

Applying the criteria set forth above, the Chief Executive Officer's base salary for Fiscal 2006 was set at \$400,000, and the Chief Financial Officer's base salary for Fiscal 2006 was set at \$180,000. Neither the CEO nor the CFO has received a base salary increase since January 1, 2004.

**Table of Contents**

**Cash Incentive**

Cash incentive bonus payments are discretionary, based primarily on each executive officers contribution to the Company's profitability over the applicable performance measurement periods. The Committee believes that profitability is the most useful measure of management's effectiveness in creating value for the stockholders of the Company. No specific formula is used in making such bonus determinations.

In tandem with the Company's third consecutive year of records earnings, the Chief Executive Officer received a cash incentive payment for fiscal 2006 totaling \$450,000, and the Chief Financial Officer received a cash incentive payment for fiscal 2006 totaling \$150,000. The bonuses of the Chief Executive Officer and Chief Financial Officer, respectively, increased from \$250,000 and \$100,000 in 2005.

**Equity Incentive**

The Company's executive officers are eligible to receive performance-based stock options granted under the Encore Wire Corporation 1999 Stock Option Plan, as amended and restated (as more fully described in Note 6 to the Consolidated Financial Statements of the Company's Annual Report on Form 10-K for the year ended December 31, 2006 and incorporated herein by reference). The Company grants all stock options based on the fair market value as of the date of grant. The exercise price for stock option grants is determined by reference to the closing price per share on the NASDAQ Stock Market at the close of business on the date of grant. Other than stock option plan described above, the Company does not have any other equity incentive plans currently in place.

Option awards under the compensation programs discussed above are made at regular or special Compensation Committee meetings. The effective date for such grants is the date of such meeting. The Company may also make grants of equity incentive awards at the discretion of the Compensation Committee or the board of directors in connection with the hiring of new executive officers and other employees.

On December 31, 2006, unexercised options covering 592,126 shares were outstanding under the 1989 Stock Option Plan and the amended 1999 Stock Option Plan combined, and 299,300 shares remained available for future stock option grants under the Company's 1999 Stock Option Plan. At December 31, 2006, the Chief Executive Officer held vested stock options to purchase 289,500 shares having a market value of \$6,371,895 at a cost of \$1,666,190, for a potential gain of \$4,705,705. On the same date, the Chief Financial Officer held vested stock options to purchase 72,000 shares having a market value of \$1,584,720 at a cost of \$403,750, for a potential gain of \$1,126,970.

During the 2006 fiscal year, the only named executive officer to receive an equity incentive award was Kevin Kieffer, who received options to purchase 50,000 shares under the Company's 1999 Stock Option Plan as part of his incentive to join the Company. For a more complete description of Mr. Kieffer's option award, see the Grants of Plan Based Awards table contained herein.

**Table of Contents**

In determining the number of options to be granted to executives and the frequency of option grants, we take into account the individual's position, scope of responsibility, ability to affect profitability, the individual's performance and the value of stock options in relation to other elements of total compensation. In addition, since the Company believes that profitability is the most useful measure of management's effectiveness in creating value for the stockholders, the Company's profitability in its industry and over the applicable performance measurement periods is also taken into account when determining the number of options to be granted to executives.

**Perquisites and Other Personal Benefits Compensation**

The Company provides named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers. The amounts shown in the Summary Compensation Table under the heading "Other Compensation" represent the value of Company matching contributions to the executive officers' 401(k) account, the value of certain life insurance benefits and the incremental cost of vehicle leases and country club memberships to the Company. Executive officers did not receive any other perquisites or other personal benefits or property.

**Accounting for Stock-Based Compensation**

Beginning on January 1, 2006, the Company began accounting for stock-based payments, including its 1989 Stock Option Plan, in accordance with the requirements of FASB Statement 123(R).

**Reasonableness of Compensation**

After considering the aggregate compensation paid to the named executive officers in fiscal 2006, the Committee has determined that the compensation is reasonable and not excessive. In making this determination, we considered many factors, including the following:

Including base salaries, cash incentive bonuses and stock options, the total compensation levels for the named executive officers are reasonable in relation to executives in similar positions with similar companies.

Management has led the Company to record levels of performance in recent years.

The executive officers have no severance or change-in-control agreements with the Company.
