INFORMATION TO BE INCLUDED IN THE REPORT

Item 1.01. Entry into a Material Definitive Agreement.

On January 22, 2007, Ormat Technologies, Inc. (the Registrant) announced that its subsidiary, OrPower 4, Inc., entered into an Amended and Restated Power Purchase Agreement with Kenya Power & Lighting Company (KPLC), the Kenyan parastatal electricity transmission and distribution company, and a Project Security Agreement (collectively with the Amended and Restated Power Purchase Agreement referred to herein as the "Agreements"), also with KPLC, both with respect to the Registrant's Olkaria III geothermal power project. The Olkaria III geothermal power project (the "Project") is owned and developed by the Registrant's subsidiary, OrPower 4, Inc. The Agreements were executed on January 19, 2007, after receipt of appropriate regulatory approvals from the Kenyan authorities.

The Agreements provide for the construction of the second phase of the Project (Phase Two) which is expected, upon completion, to add approximately 35MW to the existing facility, bringing the Project's total capacity to approximately 48MW. Following completion of Phase Two, total anticipated annual revenues from the Project will be approximately US\$ 32 million.

Under the Amended and Restated Power Purchase Agreement, the parties agreed to (i) shorten the construction period for Phase Two to approximately twenty one months commencing from the deposit of agreed collateral by KPLC (previously under the original power purchase agreement this period was approximately twenty six months); (ii) change the technical configuration of Phase Two such that the plant will use Ormat Energy Converters (OECs) to generate electricity; and (iii) reduce the tariff payable by KPLC on the total capacity of the plant upon completion of Phase Two, as follows: With respect to 75% of the capacity, the tariff will be reduced from a base rate of US\$ 561.6 per kW per year by US\$ 76.6 per kW per year, and with respect to 25% of the capacity, the tariff will be reduced from the base rate of US\$ 561.6 per kW per year by US\$ 25.5 per kW per year. The tariff is linked by certain indexation formulas to changes in the U.S. consumer price index (CPI) since March 2005, with respect to the base rate and to the amount of the reduction applicable to 75% of the capacity, and since July 2003, with respect to the amount of the reduction applicable to 25% of the capacity.

Under the Project Security Agreement, KPLC agreed to provide a letter of credit in an amount equal to the value of four (4) months of anticipated revenues from the Project under the Amended and Restated Power Purchase Agreement (which is currently approximately equal to US\$ 8 million).

Item 8.01. Other Events.
