ITEM 1. BUSINESS.

GENERAL

This Annual Report on Form 10-K (this "Form 10-K") contains forward-looking statements that are based on current management expectations, forecasts and assumptions. These include, without limitation, statements containing the words "believes," "anticipates," "estimates," "expects," "plans," "intends," "projects," "future" and similar expressions, references to plans, strategies, objectives and anticipated future performance, and other statements that are not strictly historical in nature. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by the forward-looking statements. Such risks, uncertainties and other factors that might cause such a difference include, without limitation, those noted under Factors That May Affect Future Results or Market Price of Stock included in Item 7, Part II of this Form 10-K. Readers should also carefully review the risk factors described in other documents that eLoyalty Corporation files from time to time with the SEC.

Readers are cautioned not to place undue reliance on forward-looking statements. They reflect opinions, assumptions and estimates only as of the date they are made, and eLoyalty Corporation undertakes no obligation to publicly update or revise any forward-looking statements in this report, whether as a result of new information, future events or circumstances or otherwise.

INTRODUCTION

eLoyalty Corporation (together with its subsidiaries "eLoyalty," "we" or the "Company") was incorporated in Delaware in May 1999 as a wholly-owned subsidiary of Technology Solutions Company ("TSC"). The Company's business was initiated in May 1994 as a call center business unit within TSC. This unit within TSC was subsequently renamed the Enterprise Customer Management ("ECM") business unit, and later the eLoyalty division. Since its inception and under its various names, this business unit has developed management consulting and technology capabilities in an effort to lead the development of, and stay at the forefront of, the customer relationship management or "CRM" market, with the specific focus on incorporating new technologies into CRM solutions.

While the growth of the Company's business primarily was organic during its ownership by TSC, in 1997 TSC acquired and incorporated into its ECM unit The Bentley Group, a business and operations consulting firm, for total consideration of \$17.5 million, and Geising International, a German-based business consulting firm, for \$1.4 million. Further, in 1996, TSC acquired Aspen Consultancy Ltd., a privately owned consulting firm based in the United Kingdom for \$3.4 million. The purpose of each of these acquisitions was to expand the range of the business's competencies in the CRM space in order to more effectively serve its clients' needs.

In May 1999, TSC's ECM business unit was renamed eLoyalty and a new subsidiary by the same name was formed in anticipation of a spin-off of eLoyalty. In February 2000, TSC transferred the businesses of its eLoyalty division to the Company and declared a dividend, payable to the stockholders of record of TSC, based upon a ratio of one share of the Company's common stock,

Edgar Filing: ELOYALTY CORP - Form 10-K405

par value of \$.01 per share (the "Common Stock"), for every one share of TSC Common Stock held. Effective February 15, 2000, all of the outstanding shares of Common Stock were distributed to TSC's stockholders. eLoyalty became a separate publicly traded company as of the same date.

On December 19, 2001, eLoyalty sold approximately 4.6 million shares of a new class of 7% Series B Convertible Preferred Stock ("Series B stock"), par value \$.01 per share, in a private placement to funds managed by Technology Crossover Ventures ("TCV") and Sutter Hill Ventures ("Sutter Hill") and in a concurrent rights offering to eLoyalty stockholders. Immediately prior to the closing of these transactions, (i) eLoyalty amended its certificate of

Page 1

incorporation to increase the number of its authorized shares of common stock from 100 million to 500 million and its authorized shares of preferred stock from 10 million to 40 million, and (ii) effected a one-for-ten reverse stock split of its outstanding common stock (with a corresponding reduction in its authorized shares of common stock, to 50 million). The private placement, authorized share increase and reverse stock split were approved by eLoyalty's stockholders on December 18, 2001 at a special meeting held for such purpose.

The Series B stock will accrue dividends at a rate of 7% per annum, will be entitled to a preference upon liquidation and will be convertible into shares of common stock on a one for one basis (subject to adjustment in the future to give effect to certain actions) at the option of the holder beginning June 19, 2002. In addition, the Series B stock generally votes with the Company's common stock as a single class (subject to specified matters as to which the Series B stock is entitled to a separate class vote) on the basis of one vote per share (subject to adjustment in the future to give effect to certain actions).

Approximately 1.9 million shares of Series B stock were sold to TCV for gross proceeds of approximately \$9.6 million. Approximately 1.3 million shares of Series B stock sold to Sutter Hill for gross proceeds of approximately \$6.4 million. Approximately 1.4 million shares of Series B stock were sold in the rights offering to approximately 350 eLoyalty stockholders for gross proceeds of approximately \$7.3 million.

TCV and Sutter Hill were eLoyalty stockholders prior to these transactions. In addition, Jay Hoag and Tench Coxe, eLoyalty directors, are (and were prior to these transactions) affiliated with TCV and Sutter Hill, respectively. The terms of the transactions were negotiated between TCV and Sutter Hill, on the one hand, and the members of eLoyalty's board of directors (other than Messrs. Hoag and Coxe) and its representatives, on the other hand. As a result of these transactions, TCV and Sutter Hill own approximately 41% and 28%, respectively, of the outstanding Series B stock and approximately 26% and 14%, respectively, of the aggregate voting power of the Series B stock and common stock.

In connection with the closing of the private placement, eLoyalty, TCV and Sutter Hill entered into an Amended and Restated Investor Rights Agreement. Under that agreement, eLoyalty must use its best efforts to have a Registration Statement on Form S-3 for the shares of common stock issuable upon the conversion of the Series B stock issued in the private placement, plus certain previously owned TCV shares, declared effective within 180 days after closing. eLoyalty will be required to maintain the effectiveness of the Registration Statement until all of the common stock underlying the Series B stock issued in the private placement can be sold in any and all three month periods under Rule 144 under the Securities Act of 1933 (without giving effect to Rule 144(k)). The

Edgar Filing: ELOYALTY CORP - Form 10-K405

agreement also provides TCV and Sutter Hill with certain piggyback registration rights.

Our executive offices are located at 150 North Field Drive, Suite 250, Lake Forest, Illinois 60045 (telephone number 847-582-7000).

OVERVIEW

eLoyalty is a global management consulting and systems integration organization focused exclusively on building customer loyalty solutions for our clients. We offer a range of CRM-related services including evaluating and developing business strategy, designing and implementing technical architecture, selecting, implementing and integrating appropriate CRM software applications and providing ongoing support for multi-vendor systems. We refer to the solutions that we provide our clients to enhance their customer relations as "loyalty solutions," in that they are designed to create long-term customer loyalty measured by factors including an increase in repeat sales, reduction of the cost of sales and increase in customer referrals. We help companies identify and measure the impact of improved customer relationships on profitability. Our customized solutions align many isolated customer contact channels, including the Internet, e-mail, call centers, field sales and field service. The solutions we design and implement enable our clients to sustain higher levels of success with their customers.

Our revenues are generated primarily from professional services, which are billed principally on a time and materials basis and, occasionally, on a fixed fee basis. These services generally include the following:

- Evaluating our clients' efficiency and effectiveness in handling customer interactions. We capture and analyze the

Page 2

performance measures of each customer interaction, including the number of legacy systems used to handle the situation, interaction time, reason for interaction and actions taken to resolve any customer issues.

- Assisting our clients in identifying their most valuable customers through detailed segmentation of their customer base. This allows our clients to target high-value customers to receive special offers or service levels.
- Performing detailed financial analysis to calculate the expected return on investment for the implementation of our various loyalty solutions. This process helps our clients establish goals, alternatives and priorities and assigns client accountability throughout resulting projects.
- Selecting the appropriate loyalty solution for our client. The implementation of our loyalty solutions can lead to significant organizational, structural, operational and staffing changes and we assist our clients in determining the steps they need to take in this regard.
- Implementing the technical aspects of our loyalty solutions, including the integration of a variety of software applications from third-party vendors and our own software.

In addition, we generate revenues from licensing of our proprietary

Edgar Filing: ELOYALTY CORP - Form 10-K405

Loyalty Suite(TM) software, which ties together the critical components of the loyalty solution. This software provides sophisticated real-time information regarding a customer's various contacts with the client's organization, allowing the client to handle each customer interaction in a consistent manner throughout the enterprise. Other sources of revenue include maintenance and support of our solutions, the provision of purpose-built hosting solutions and services relating to e-PROFILE(TM) Internet banking products. These licensing and "managed loyalty services" offerings, in the aggregate, accounted for less than 10% of our revenues in each of the last three years. Licensing revenues are expected to decrease going forward based on our decision in 2002 to cease new development of the Loyalty Suite(TM) software.

We operate in two primary business segments: North America (consisting of the US and Canada) and International. In 2001, we globalized and centralized our delivery, business development and infrastructure organizations and processes. Accordingly, there are no material distinctions between the character and nature of the two segments, other than financial results as discussed herein.

For information regarding domestic and foreign revenues, operating income and total assets, see Note Fifteen to the Consolidated Financial Statements of eLoyalty, appearing under Item 8, Part II of this Form 10-K.

INTELLECTUAL PROPERTY RIGHTS

A majority of our clients require that we grant to them some or all proprietary and intellectual property rights with respect to the original work product resulting from our services, including the intellectual property rights to any custom software developed for them. While each grant of proprietary and intellectual property rights limits our ability to reuse work product components with other clients, it is our practice to retain the rights in the underlying core intellectual property on which it is based, including methodologies, workplans and software. We regard these software and methodologies as proprietary and intend to protect our rights, where appropriate, with registered copyrights, patents, and trademarks, applicable trade secret laws and contractual restrictions on disclosure and transferring title. Further, we attempt to obtain from our clients an ownership interest or a license to permit us to market custom software and other original materials to other clients. These arrangements may be nonexclusive or exclusive, and licensors to us may retain the right to sell products and services that compete with those of eLoyalty. In addition, to protect our proprietary information, we rely upon a combination of trade secret and common law, employee nondisclosure policies and third-party confidentiality agreements.

Page 3

SEASONALITY

The Company typically experiences seasonal revenue and earnings fluctuations globally in the fourth quarter, as the total number of billing days is reduced due to holidays. Additionally, our European operations historically have experienced decreased revenues and earnings in the third quarter because of extended summer vacation periods.

CLIENTS

During fiscal 2001, our five and twenty largest clients accounted for 49% and 82%, respectively, of our revenues. Two clients accounted for more than

Edgar Filing: ELOYALTY CORP - Form 10-K405

10% of our total revenues during the year, with each of Agilent Technologies and UnitedHealth Group contributing 13% of total revenues for 2001. In June 2001, Agilent Technologies notified us of the cancellation of the project on which we and other third parties were engaged. For the fiscal year ended December 29, 2001, 31 clients each accounted for over \$1 million of revenues. While our focus, consistent with the focus of our services, is on developing long-term relationships with our clients, the nature of its business is such that its activities with specific clients will fluctuate periodically as individual projects are initiated and progress through their life span. As a result, the percentage of revenue contributed by any particular client can be expected to vary, perhaps significantly, among periods.

COMPETITION

We operate in a highly competitive and rapidly changing market and compete with a variety of organizations that offer services similar to ours. The market includes a variety of participants that compete with us at various levels of our business, including strategic consulting firms, systems integrators, web-consulting firms, online agencies and firms that provide both consulting and systems integration services. In our opinion, few competitors offer the full range of CRM services that we can provide. We believe that our principal competitors are the "Big 5" consultancies: Accenture, Cap Gemini Ernst & Young, Deloitte Consulting, KPMG Consulting and PricewaterhouseCoopers.

Many of our competitors have longer operating histories, more clients, longer relationships with their clients, greater brand or name recognition and significantly greater financial, technical, marketing and public relations resources than we do. As a result, our competitors may be in a better position to respond quickly to new or emerging technologies and changes in client requirements. They may also develop and promote their products and services more effectively than we do. New market entrants also pose a threat to our business. Existing or future competitors may develop or offer solutions that are comparable or superior to ours at a lower price. In addition, several competitors have announced their intention to offer a broader range of services than they currently provide.

RESEARCH AND DEVELOPMENT

The market in which we operate is constantly evolving and we believe that it is necessary to invest in research and development to remain competitive. In 1998, we formally established our Loyalty Lab in Austin, Texas as a center for our research and development group. Its activities include the research and evaluation of emerging technologies, working with technology partners to decrease the time and difficulty of integrating various CRM software products, acting as a center for demonstrating loyalty solutions to our current and prospective clients and training our employees on our solutions.

Our research and development expenditures for the years ended December 29, 2001, December 30, 2000, and December 31, 1999 were approximately \$5.1 million, \$8.8 million and \$5.5 million, respectively.

EMPLOYEES

As of December 29, 2001, we employed 494 persons. Of the 494 employees, 358 were located in North America, with the balance in Europe and Australia. As our business consists primarily of the provision of professional services, it is inherently people intensive. We believe we have a satisfactory relationship with our employees. Our average

Edgar Filing: ELOYALTY CORP - Form 10-K405

annualized voluntary turnover of field employees was 14% in 2001. None of our employees are represented by a union. Most of our Vice Presidents and European employees generally have employment agreements requiring three months' notice of termination by us. In addition, the laws and regulations of the foreign countries in which we operate may increase the cost of terminating employees in those countries. We maintain various programs and strategies to retain and recruit employees.

ITEM 2. PROPERTIES

Our principal physical properties consist of our leased headquarters in Lake Forest, Illinois (north of Chicago), and additional leased office facilities in other locations throughout the United States, including Atlanta, GA; Dallas and Austin, TX; New York, NY; San Francisco, CA; and Washington, D.C.; and in various international locations, including Toronto, (Ontario), Canada; Frankfurt, Germany; Dublin, Ireland; and London, England. Our total leased square footage is 42,000. We believe that our leased facilities are appropriate for our current and anticipated business requirements.

ITEM 3. LEGAL PROCEEDINGS

As of the date of this report, we are not a party to any pending legal proceedings, other than ordinary routine litigation or other legal proceedings incidental to our business, none of which we believe would constitute material legal proceedings for which disclosure is required under this item.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On December 18, 2001, we held a Special Meeting of Stockholders (the "Special Meeting"). 36,241,116 shares of eLoyalty common stock were represented at the Special Meeting, in person or by proxy. This represented more than a majority of the shares of eLoyalty common stock outstanding on the record date for the Special Meeting and therefore constituted a quorum. Each share present was entitled to one vote.

The following actions were taken at the Special Meeting:

- (1) Stockholders approved the sale of shares of eLoyalty's 7% Series B Convertible Preferred Stock (the "Series B stock") in a private placement to affiliates of TCV and Sutter Hill. 32,465,085 shares, or nearly 90% of the shares voted, were voted in favor of the sale, 3,762,785 shares were voted against it and 13,246 shares abstained from voting. In addition, taking into account only the 26,687,672 shares that were represented at the meeting and held by persons not affiliated with the purchasers (such affiliation determined in accordance with the requirements set forth in the Stock Purchase Agreement for the private placement), 22,911,641 shares, or nearly 86%, voted in favor of the sale, 3,762,785 shares voted against and 13,246 shares abstained from voting. As a result, our unaffiliated stockholders approved the Series B stock sale as well.

Edgar Filing: ELOYALTY CORP - Form 10-K405

- (2) Stockholders approved an amendment to eLoyalty's Certificate of Incorporation to increase the number of authorized shares of eLoyalty common stock from 100,000,000 shares to 500,000,000 shares and to increase the number of authorized shares of eLoyalty preferred stock from 10,000,000 shares to 40,000,000 shares. 28,438,122 shares, or approximately 55% of the shares outstanding, voted in favor of the amendment, 7,789,788 shares voted against it and 13,206 shares abstained from voting.
- (3) Stockholders approved an amendment to eLoyalty's Certificate of Incorporation to effect a one-for-ten stock combination, or reverse stock split, of eLoyalty common stock and a corresponding reduction in the number of authorized shares of eLoyalty common stock. 35,002,954 shares, or nearly 68% of the shares outstanding, voted for the reverse stock split, 1,226,759 shares voted against, and 11,403 shares abstained from voting.

Page 5

ITEM 4A. EXECUTIVE OFFICERS OF THE COMPANY

The following table includes the name, age (as of March 15, 2002), current position and term of office of each of our executive officers.

Name	Age	Current Position
Kelly D. Conway*	44	President and Chief Executive Officer
Timothy J. Cunningham	48	Vice President, Chief Financial Officer and Corporate Secretary
Jackie L. Hilt	45	Vice President, Employee Loyalty
Jay A. Istvan	42	Vice President, Strategy and Marketing
Mark D. Kuchel	47	Vice President, Demand
Steven C. Pollema	42	Vice President, Delivery and Operations
Robert S. Wert	37	Vice President and General Counsel

* Member of the Board of Directors

Except as required by individual employment agreements between executive officers and the Company, there exists no arrangement or understanding between any executive officer and any other person pursuant to which such executive officer was elected. Each executive officer serves until his or her successor is elected and qualified or until his or her earlier removal or resignation.

Edgar Filing: ELOYALTY CORP - Form 10-K405

The principal business experience of the executive officers for at least the last five years is as follows:

Kelly D. Conway has been the President and Chief Executive Officer and a Director of eLoyalty since its incorporation in May 1999. Mr. Conway joined TSC in November 1993 as Senior Vice President, assumed the position of Executive Vice President in July 1995 and became Group President in October 1998. From 1991 until joining TSC, Mr. Conway served as a Partner in the management consulting firm of Spencer, Shenk and Capers. Prior thereto, he held various management positions with Telcom Technologies, a manufacturer of automatic call distribution equipment, including President and Chief Executive Officer from 1989 to 1991, and Vice President of Finance and Marketing from 1984 to 1989.

Timothy J. Cunningham has served as eLoyalty's Vice President, Chief Financial Officer and Corporate Secretary since November 1999. From October 1998 until November 1999, he was the Vice President-Finance and Chief Financial Officer of CTS Corporation, a publicly traded electronics and communications company. Mr. Cunningham was Vice President-Finance of the Moore Document Solutions division of Moore Corporation from July 1996 until September 1998, and Group Controller for the ConAgra Refrigerated Foods group of ConAgra, Inc. from 1995 to 1996.

Jackie L. Hilt has been eLoyalty's Vice President of Employee Loyalty since May 1999, with responsibility for recruiting and human resources functions with a specific focus on employee relationships. Previously, Ms. Hilt had been with TSC for more than ten years, most recently as the Senior Vice President in charge of its international recruiting organization, a role she assumed in 1994. Ms. Hilt currently is on a voluntary leave of absence from eLoyalty.

Jay A. Istvan has been the Vice President, Strategy and Marketing, of eLoyalty since February 2001. Mr. Istvan was affiliated with The Boston Consulting Group, Inc., a global strategic consulting firm, for more than fourteen years

Page 6

prior to joining eLoyalty. He was a Vice President of Boston Consulting Group from 1993 and was Midwest Regional Leader of its Healthcare practice from 1997 until joining eLoyalty and Regional Leader of its High Technology and Convergence Practice from 1993 to 1997.

Mark D. Kuchel has been a Vice President of eLoyalty since February 2000, was the Area Practice Leader for the Eastern Region of North America from November 2000 to August 2001 and has been Vice President, Demand since that date. Prior to such time, Mr. Kuchel had been a Senior Vice President of TSC since March 1996.

Steven C. Pollema has been Vice President, Delivery and Operations of eLoyalty since August 2001, after joining eLoyalty in June 2001 as Senior Vice President, Operations. Prior to joining eLoyalty, Mr. Pollema had been with MarchFirst, Inc. and its predecessor, Whittman-Hart, Inc., since June 1997, most recently as its President from March 2001 to May 2001. Prior to assuming the office of President, Mr. Pollema was Executive Vice President-Global Operations of MarchFirst from October 2000 through March 2001, Managing Executive -- Chicago Office/Region from October 1998 to October 2000, Solution Director -- Business Development from October 1997 to October 1998 and Partner -- Enterprise Account Manager from July 1997 to October 1997. Prior to MarchFirst/Whittman-Hart, Mr. Pollema was with Andersen Consulting, LLC, most recently as an Associate Partner.

Edgar Filing: ELOYALTY CORP - Form 10-K405

Robert S. Wert has been Vice President and General Counsel of eLoyalty since October 2001. He joined eLoyalty in January 2001 as Vice President and Senior Counsel. Prior to joining the Company, Mr. Wert was Associate General Counsel and Assistant Secretary of Katy Industries, Inc., a publicly-held, diversified holding company since August 1998. From 1989 to 1998, Mr. Wert was with the Chicago law firm of Holleb & Coff, most recently as a Partner in its Business Department from January 1997.

Please note that in February 2002, we ceased using the title Senior Vice President for any of our officers. All persons previously holding that title currently hold the title of Vice President. For simplicity, the current office of each of the executive officers, other than Mr. Conway, is characterized as that of Vice President with respect to his or her current role in the organization. Certain of the executive officers were Senior Vice Presidents at the time they assumed those roles.

PART II.

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

Our Common Stock is traded on the National Market System under the NASDAQ symbol ELOY. The following table sets forth, for the periods indicated, the quarterly high and low prices of the common stock on the NASDAQ Stock Market.

PRICE RANGE(1):	High	

Fiscal Year 2001		
First Quarter	\$ 120.00	\$ 22
Second Quarter	45.00	6
Third Quarter	10.20	4
Fourth Quarter	6.90	4
Fiscal Year 2000(2)		
First Quarter (beginning February 16, 2000)	\$ 405.00	\$ 184
Second Quarter	240.00	105
Third Quarter	181.30	98
Fourth Quarter	128.80	31

- (1) Adjusted as necessary, to give effect to the one-for-ten reverse stock split effected before the opening of business on December 19, 2001.
- (2) We completed our 100% spin-off from TSC and began public trading on February 16, 2000.

There were approximately 467 owners of record of our Common Stock, par value \$0.01 per share, as of March 15, 2002.

On December 19, 2001, we raised an aggregate of \$23.3 million of gross cash proceeds in connection with the sale, pursuant to a private placement and

Edgar Filing: ELOYALTY CORP - Form 10-K405

related rights offering, of shares of our Series B stock, par value \$0.01 per share. See "Introduction" in Item 1 Part I of this 10-K for more information regarding the private placement. Each share of Series B stock is convertible into one share of our common stock, at the option of the holder thereof, beginning June 19, 2002. This conversion ratio is subject to adjustment in the future in the event of certain transactions. The Series B stock will automatically convert into our common stock at any time beginning June 19, 2002 if the last sale price of our common stock is at least five times the original sale price per share of Series B stock (\$5.10) for 30 consecutive trading days, subject to certain limitations.

The private placement was made in reliance on the exemption from registration under the Securities Act of 1933, as amended, afforded by Section 4(2) thereof and the rules promulgated under Regulation D thereunder. Prior to the private placement, TCV and Sutter Hill were stockholders in our company and the transaction was negotiated on a private basis between us and TCV and Sutter Hill. In addition, in connection with the private placement, TCV and Sutter Hill made certain representations to us regarding, among other things, their status as "accredited investors" for purposes of the rules under Regulation D.

DIVIDENDS

Historically, we have not paid cash dividends on our common stock, and do not expect to do so in the future. However, a cash dividend of approximately \$0.9 million is expected to be paid in July 2002 on the Company's redeemable Series B stock. In addition, two semi-annual dividend payments of approximately \$0.8 million each are expected to be paid in 2003 on the Series B stock. The amount of the dividend would be affected by any conversions of the Series B stock into common stock, which is permitted at the option of the holder beginning June 19, 2002.

ITEM 6. SELECTED FINANCIAL DATA.

The following tables summarize our selected financial data. This information should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, and the financial statements and notes thereto, which are included elsewhere in this Form 10-K. The statements of operations data for the years ended December 29, 2001, December 30, 2000 and December 31, 1999, for the seven month period ended December 31, 1998 and for each of the years ended May 31, 1998 and 1997, and the balance sheet data as of December 29, 2001, December 30, 2000, December 31, 1999 and 1998, and May 31, 1998 and 1997, below are derived from the audited financial statements. The statements of operations data for the year ended December 31, 1998 and for the seven month period ended December 31, 1997 are derived from the unaudited financial statements. In the opinion of management, the unaudited financial statements referred to above reflect all adjustments, consisting of normal adjustments, necessary for a fair presentation of eLoyalty's results of operations for the year ended December 31, 1998, and for the seven month period ended December 31, 1997.

Certain reclassifications have been made in the statements of operations for the years ended December 30, 2000, December 31, 1999 and 1998, the seven month periods ended December 31, 1998 and 1997, and the fiscal years ended May 31, 1998 and 1997 to conform to the 2001 presentation. In December 2000, we changed our fiscal year from a calendar year to a fiscal year ending on the Saturday closest to the end of December. The fiscal year-end for 2001 was December 29. We had previously changed our fiscal year-end from May 31 to December 31, effective December 31, 1998. For comparative purposes, we have included the statements of operations data for the year ended December 31, 1998,

Edgar Filing: ELOYALTY CORP - Form 10-K405

and the seven month period ended December 31, 1997, which have been derived from unaudited financial statements. In the opinion of management, the unaudited financial statements for these periods reflect all adjustments, consisting of normal adjustments, necessary for a fair presentation of eLoyalty's results of operations for the year ended December 31, 1998 and the seven month period ended December 31, 1997.

Page 8

The financial information for periods prior to February 15, 2000 reflect our results of operations and financial position as we operated within TSC, and the financial information for periods subsequent to February 15, 2000 reflect our results of operations and financial position as we operated as a separate, stand-alone, publicly-traded company. The financial information for periods prior to February 15, 2000 may not necessarily reflect what the financial position and results of operations would have been had we operated as a separate, stand-alone, publicly-traded entity during such periods.

- (1) All share amounts have been adjusted to give effect to the one-for-ten reverse stock split effected by the Company prior to the opening of business on December 19, 2001.
- (2) All periods presented have been adjusted to reflect adoption of EITF D-103 requiring billable expenses to be classified as revenue.
- (3) All periods presented have been adjusted to reflect the reclassification of other costs of engageable project personnel from Selling, General and Administrative to Cost of Services.
- (4) In December 1999, eLoyalty issued 4.14 million shares to TSC. For periods prior to February 15, 2000, basic earnings per share has been computed based on the 4.14 million shares and diluted earnings per share has been computed based on the 4.14 million shares plus the estimated dilutive effect of common stock equivalents using the "treasury stock" method. For periods subsequent to February 15, 2000, basic earnings per share has been computed based on actual weighted shares outstanding and dilutive earnings per share has been computed based on the actual weighted shares outstanding plus the dilutive effect of common stock equivalents using the "treasury stock" method.
- (5) In periods of a loss, common stock equivalents were not included in the calculation as they are antidilutive.
- (6) Common stock equivalent information was not previously calculated for this period when eLoyalty was part of TSC as they were antidilutive. Subsequent to the spin-off eLoyalty does not maintain the information

Edgar Filing: ELOYALTY CORP - Form 10-K405

(7) to calculate common stock equivalents for this period.
 Not applicable for previous periods.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

The following Management's Discussion and Analysis and other parts of this Form 10-K contain forward-looking statements that are based on current management expectations, forecasts and assumptions. These include, without limitation, statements containing the words "believes," "anticipates," "estimates," "expects," "plans," "intends," "projects," "future" and similar expressions, references to plans, strategies, objectives and anticipated future performance, and other statements that are not strictly historical in nature. These forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by the forward-looking statements. Such risks, uncertainties and other associated factors that might cause such a difference include, without limitation, those noted under "Factors That May Affect Future Results or Market Price of Stock" included elsewhere in Item 7.

Readers are cautioned not to place undue reliance on forward-looking statements. They reflect opinions, assumptions and estimations only as of the date they are made, and we undertake no obligation to publicly update or revise any forward-looking statements in this Form 10-K, whether as a result of new information, future events or circumstances, or otherwise.

BACKGROUND

We are a global management consulting and systems integration organization focused exclusively on building customer loyalty solutions for our

Edgar Filing: ELOYALTY CORP - Form 10-K405

clients. We offer a broad range of customer relationship management ("CRM") related services including business strategy, technical architecture, selecting, implementing and integrating appropriate CRM software applications and providing ongoing support for multi-vendor systems.

We spun off from Technology Solutions Company ("TSC") into a separate, publicly-traded company on February 15, 2000 (the "spin-off"). Accordingly, the statements of operations for periods subsequent to the spin-off reflect our results as a stand-alone company. The statements of operations for periods prior to the spin-off are presented as if eLoyalty operated as a separate entity, and include a cost allocation of certain TSC general corporate expenses that were not directly related to our operations. These costs were allocated proportionately to us based on revenues and headcount.

PERFORMANCE OVERVIEW AND GENERAL OUTLOOK

Our consolidated revenues were \$146.7 million in 2001. This represents an approximate 38% decline as compared to 2000. Average revenues per billable day for 2001 were \$585,000, down from \$938,000 for 2000. The decrease in revenues is primarily due to a general economic slowdown that has contributed to decreased spending on information technology. Beginning with this report, revenue reflects adoption of Financial Accounting Standards Board (FASB) Emerging Issues Task Force (EITF) D-103, requiring billable expenses to be reported as revenue. Prior to the adoption of EITF D-103 billable expenses had been recorded net of recoveries from customers as a component of cost of services. All periods presented have been revised to reflect this change.

We have experienced declines during 2001 in the utilization rate of our engageable field consultants, partially mitigated by our cost reduction activities throughout this year. Utilization is defined as billed time as a percentage of total available time. Average utilization was at 54% in the fourth quarter 2001 versus 63% in the fourth quarter of 2000. Average utilization for the year was 55% in 2001 versus 66% in 2000. We continue to experience pricing pressures that have resulted in a decline of our average hourly billing rate from \$234 in the fourth quarter of 2000 to \$202 in the fourth quarter of 2001.

We presently expect the current economic slowdown and related uncertain client expenditure commitments and extended decision time frames to persist in 2002. Our revenue is expected to remain fairly constant for the first quarter of 2002 compared to the fourth quarter of 2001. We expect both our North American segment (which has historically accounted for more than 80% of our consolidated revenues) and our International segment to continue to suffer from a difficult business environment.

Page 11

In response to this economic environment and demand slowdown, we have undertaken a number of cost reduction activities, including headcount reductions and office closures and downsizing. Annual savings resulting from these actions are expected to be about \$65 million and will substantially be realized in 2002. These actions were taken in connection with a substantial reorganization of our business and business operating processes. As a result of these activities, we recognized a special pre-tax charge of \$33.4 million (approximately \$22.7 million after tax) in 2001. As a result of these combined 2001 actions, we reduced our overall headcount by approximately 51%, from 1,018 total employees at the end of fiscal 2000 to approximately 494 employees at December 29, 2001. We expect substantially all severance and related costs to be paid out by the end of 2002 pursuant to agreements entered into with affected employees, and facility costs related to the office closures to be paid pursuant to contractual

Edgar Filing: ELOYALTY CORP - Form 10-K405

lease terms through 2007. In addition we expect an estimated \$1 million to \$2 million pre-tax charge to be taken in the first quarter of 2002, relating primarily to severance benefits associated with reductions in headcount. This additional severance related charge is expected to be substantially paid out by the end of 2002.

During the second quarter of 2001, we established a valuation allowance against the benefit of certain international operating unit tax losses previously recognized, and ceased recognizing the benefit of losses incurred by these operating units. This decision was made following a company-wide review of expected financial results by geography under various alternative scenarios and the related assessments of recoverability of these net deferred tax assets in light of the period over which they arose and the predictability of a near-term return of international operating units to acceptable, continuing levels of profitability. As of December 29, 2001, we had a valuation allowance of \$14.1 million relating to these international operating unit tax losses.

Primarily as a result of the above-described business conditions and the responsive cost reduction actions, we experienced a 2001 operating loss of \$74.4 million, compared to an operating loss of \$3.8 million for fiscal 2000.

During 2001, we entered into a share purchase agreement with affiliates of Technology Crossover Ventures and Sutter Hill Ventures, already stockholders of our Company, under which these investors purchased \$16.0 million of a new series of preferred stock, a redeemable 7% Series B Convertible Preferred Stock (the "Series B stock"), in a private placement. See the section titled "Introduction" in Item 1, Part I of this Form 10-K for more information about the private placement. In addition, we closed concurrently on a rights offering pursuant to which our existing common stockholders purchased \$7.3 million of the Series B stock. We also effected a one-for-ten reverse split of our common stock shortly before the closing of the private placement and rights offering. The private placement, the reverse stock split and related changes to our capital structure were approved by stockholders in a special meeting of stockholders held December 18, 2001.

During the fourth quarter 2001, we offered our US employees the opportunity to exchange certain of their options to purchase Common Stock for restricted Common Stock on a one for one basis. For non-US employees, we offered the opportunity to exchange certain of their options to purchase Common Stock for the right to receive shares of our Common Stock, on a one for one basis, subject to the terms and conditions of an installment stock award. See Note Thirteen to our consolidated financial statements. Furthermore, in connection with a new compensation program for our Vice Presidents, on February 28, 2002, we issued additional shares of restricted Common Stock to our US Vice Presidents and granted our non-US Vice Presidents the right to receive additional shares of our Common Stock subject to the terms of an installment stock award. See Note Eighteen to our consolidated financial statements.

Our revenues are generated primarily from professional services, which are billed principally on a time and materials basis. We have on occasion, contracted projects on a fixed fee basis. Revenues are recognized for time and material engagements as services are rendered utilizing the percentage-of-completion method.

Other revenue contributors include fees generated from Managed Loyalty Services (including Loyalty Support(TM) services, purpose-built hosted solutions and e-PROFILE(TM)). These revenues comprised 5% and 3% of revenues in 2001 and 2000, respectively. Revenues from sales of our Loyalty Suite(TM) software decreased to 1% from 2% of revenues in 2001 and 2000, respectively, and are expected to decrease further due to our decision in 2002 to cease new development of this software.

Our revenues from international operations primarily represent revenues in Europe and Australia. International operations represented 18% and 12% of revenues for the years ended December 29, 2001 and December 30, 2000, respectively. While certain of our professionals remain in Australia to perform services for an existing client, we have closed our Australia office and do not anticipate near term additional projects in that country.

We typically experience seasonal fluctuations in our revenues and earnings on a global basis in the fourth quarter because of the reduced number of billing days due to holidays. In addition, we have historically experienced decreases in revenues from our European operations in the third quarter because of extended summer vacation periods. Although those decreases in revenues have not been significant in the past, they may increase in the future.

Our most significant operating cost is cost of services associated with projects, which are primarily comprised of labor costs including salaries, fringe benefits and incentive compensation of engageable consultants. Cost of services also includes employee costs for training, travel expenses, laptop computer leases and other expenses of a billable and non-billable nature.

Selling, general and administrative expenses consist primarily of salaries, incentive compensation and employee benefits for business development, marketing, administrative personnel, plus a provision for uncollectible amounts. Selling, general and administrative also includes expenses relating to administrative and technical support services provided by TSC, which continued to be provided after the spin-off in 2000 as part of a shared services agreement. None of these services were provided by TSC in 2001.

Research and development expenses consist primarily of salaries, incentive compensation and employee benefits for dedicated personnel, staff recruiting costs, administrative costs, travel expenses and depreciation expenses. Our Loyalty Lab(TM) is the center for our research and development activities, and we believe it improves the effectiveness of our loyalty solutions, allows us to work closely with emerging technology and serves as a demonstration center for our clients' senior executives.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our management discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to the costs and timing of completion of client projects, collectibility of customer accounts receivable, the timing and amounts of expected payments associated with cost reduction activities, the realizability of net deferred tax assets and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect more significant judgments and estimates used in the preparation of our consolidated financial statements.

Edgar Filing: ELOYALTY CORP - Form 10-K405

We recognize revenue and profit from professional services performed for clients as work progresses using the percentage-of-completion method. Percentage of completion estimates are based on the ratio of actual hours incurred to total estimated hours. We follow this method because we believe that reasonably dependable estimates of the revenue and costs applicable to various stages of a client project can be made. Revisions in profit estimates are recorded in the period in which the facts that give rise to the revision become known. We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments and customers indicating their intention to dispute their obligation to pay for contractual services provided by us. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

We have recorded an income tax valuation allowance to reduce our international net deferred tax assets to zero representing the amount that is considered more likely than not to be realized and have ceased recognizing any future

Page 13

benefits. The decision to establish a valuation allowance was made following an assessment of the recoverability of these net deferred tax assets in light of current estimates of a near-term return of international operating units to acceptable, continuing level of profitability. No valuation allowance has been recorded at December 29, 2001 for US net deferred tax assets of \$22.5 million as it is considered more likely than not that these net assets will be realized over the carryforward period. This conclusion was based on forecasts of future financial results which indicate that we will return to profitability in fiscal 2002 and that the net deferred tax asset will be fully realized by 2004. The amount of the US net deferred tax asset that is considered realizable could be reduced in the near term through the recording of valuation allowances if current estimates of the timing and amount of future taxable income during the carryforward period are significantly revised or if we undergo an ownership change for purposes of Section 382 of the Internal Revenue Code. In the event we were to determine that we would be able to more likely than not realize deferred tax assets for which valuation allowances had previously been provided, an adjustment to the deferred tax asset would be required increasing income in the period such determination was made.

We have recorded accruals for severance and related costs associated with the cost reduction efforts undertaken during 2001. A substantial portion of the accruals represents contractual severance for identified employees and is not subject to significant revision. That portion of the accruals relating to office closures and associated contractual lease obligations is based in part on assumptions and estimates of the timing and amount of sublease rentals that are affected by overall economic and local market conditions. To the extent estimates of the success of our sublease efforts change in the future, adjustments increasing or decreasing the related accruals will be recorded.

YEAR ENDED DECEMBER 29, 2001 COMPARED WITH THE YEAR ENDED DECEMBER 30, 2000

REVENUES

Our revenues decreased \$89.8 million, or 38%, to \$146.7 million in 2001 from \$236.5 million in 2000. Revenues from professional fees decreased \$84.6

Edgar Filing: ELOYALTY CORP - Form 10-K405

million, or 38%, to \$138.6 million in 2001 from \$223.2 million in 2000. The decrease in revenues is due to a weak economic environment that led to decreased demand for the CRM services provided by us.

Revenues from Managed Loyalty Services decreased \$0.5 million to \$7.3 million in 2001 from \$7.8 million in 2000. Managed Loyalty Services revenues represented 5% and 3% of total revenues for the years ended December 29, 2001 and December 30, 2000, respectively. Revenues from software decreased \$4.7 million to \$0.8 million in 2001 from \$5.5 million in 2000. Revenues from international operations increased to approximately 18% of total revenues in 2001, compared to 12% in 2000.

COST OF SERVICES

Cost of services decreased \$37.4 million, or 25%, to \$113.3 million in 2001 from \$150.7 million in 2000. This is due to a decrease in the number of our engageable consultants to 387 as of December 29, 2001, for a decrease of 50%, from 768 as of December 30, 2000. Cost of services as a percentage of revenues increased to 77% in 2001 compared to 64% in 2000. This increase was primarily due to lower utilization in 2001 versus 2000.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses decreased \$14.6 million, or 20%, to \$58.8 million in 2001 from \$73.4 million in 2000. This decrease is primarily the result of the reduction of headcount and office closures in response to the decline of revenue.

SEVERANCE AND RELATED COSTS

Severance and related costs increased to \$33.4 million in 2001 compared to none in 2000. This was the result of workforce reductions and facilities closures in response to a decline in revenue and expected activity. Annual savings resulting from these actions are expected to be \$65 million.

Page 14

RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses decreased \$3.7 million, or 42%, to \$5.1 million in 2001 from \$8.8 million in 2000. This decrease is primarily due to lower investment in the Loyalty Lab, including headcount reductions.

DEPRECIATION

Depreciation expense increased to \$5.7 million for 2001 compared to \$2.4 million in 2000. The \$3.3 million increase is due to investments in computer hardware and software that were established in North American and International locations. The bulk of this system implementation occurred in 2000 when we built out our own infrastructure as a stand-alone company for US operations, following the February 2000 spin-off from TSC.

GOODWILL AMORTIZATION

Goodwill amortization expense decreased slightly to \$4.8 million in 2001 compared to \$5.0 million in 2000. Goodwill amortization is primarily attributable to the acquisition of The Bentley Group in 1997. Effective January 2002, we adopted SFAS 142 "Goodwill and Other Intangible Assets" which requires that goodwill no longer be amortized effective January 2002.

Edgar Filing: ELOYALTY CORP - Form 10-K405

OTHER INCOME (EXPENSE)

We recognized non-operating other income of \$1.7 million in 2001 compared to \$2.9 million in 2000. The \$1.2 million decrease in non-operating other income is primarily due to lower average invested cash balances and yields, and increased interest expense on short-term borrowings.

INCOME TAX (BENEFIT) PROVISION

The effective tax rate declined year-over-year due to a \$14.1 million valuation allowance established for non-US net deferred tax assets. During the second quarter of 2001, we established a valuation allowance against the benefit of certain international operating unit tax losses previously recognized and ceased recognizing the benefit of losses incurred by these operating units. We continue to record the income tax benefit of US operating losses using applicable statutory rates.

NET (LOSS) INCOME

We reported a net loss of \$63.7 million for 2001 as compared with a net loss of \$0.4 million in 2000. We reported a net loss of \$13.42 per share on a diluted basis in 2001 versus a net loss of \$0.09 per share in 2000.

YEAR ENDED DECEMBER 30, 2000 COMPARED WITH THE YEAR ENDED DECEMBER 31, 1999

REVENUES

Our revenues increased \$73.3 million, or 45%, to \$236.5 million in 2000 from \$163.2 million in 1999. Revenues from professional fees increased \$65.0 million, or 41%, to \$223.2 million in 2000 from \$158.2 million in 1999. The increase in revenues is due to the combined effect of strong demand for our CRM services and higher average billing rates in the period-over-period comparison.

Revenues from Managed Loyalty Services increased \$5.9 million to \$7.8 million in 2000 from \$1.9 million in 1999. Managed Loyalty Services revenues represented 3% and 1% of total revenues for the years ended December 30, 2000 and December 31, 1999, respectively. Revenues from software increased \$2.4 million to \$5.5 million in 2000 from \$3.1 million in 1999. Revenues from international operations decreased to approximately 12% of total revenues in 2000, compared to 17% in 1999.

Page 15

COST OF SERVICES

Cost of services increased \$47.4 million, or 46%, to \$150.7 million in 2000 from \$103.3 million in 1999. This is due to an increase in the number of our engageable consultants to 768 as of December 30, 2000, representing an increase of 37%, from 561 at December 31, 1999. Cost of services as a percentage of revenues increased to 64% in 2000 compared to 63% in 1999. This was due, in part, to the approximately \$5.9 million of incremental cost of services incurred in 2000 as part of the expansion of our Managed Loyalty Services.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses increased \$34.0 million,

Edgar Filing: ELOYALTY CORP - Form 10-K405

or 86%, to \$73.4 million in 2000 from \$39.4 million in 1999. This increase is the result of our growth and the build-out of our stand-alone infrastructure, including finance, treasury, legal, human resources and technical systems support, while also making payments to TSC for similar services as part of the shared services agreement during the build-out process. The increase is also due to the continued expansion of our business development group, establishment of the eLoyalty brand in the marketplace and increased uncollectible amounts due from clients, including a \$2.8 million incremental charge in the fourth quarter of 2000.

RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses increased \$3.3 million, or 60%, to \$8.8 million in 2000 from \$5.5 million in 1999. This increase is primarily due to an increased investment in the Loyalty Lab, including the addition of developers.

DEPRECIATION

Depreciation expense was \$2.4 million for 2000 and \$1.5 million in 1999. The increase was attributable to the implementation of IT infrastructure which occurred in 2000, following the February 2000 spin-off from TSC.

GOODWILL AMORTIZATION

Goodwill amortization expense was \$5.0 million for 2000 and 1999. Goodwill amortization is primarily related to the acquisition of The Bentley Group in 1997.

OTHER INCOME (EXPENSE)

We recognized non-operating other income of \$2.9 million in 2000 compared to a non-operating other expense of \$0.4 million in 1999. The \$3.3 million increase in non-operating other income is primarily due to incremental interest income earned as a result of higher average cash and cash equivalent balances in 2000 versus 1999. The increase in the average cash balances was due to the cash generated by financing activities, most of which were completed during the first half of 2000.

INCOME TAX (BENEFIT) PROVISION

Income tax (benefit) provision represents combined federal, state and foreign taxes. Due to a pre-tax loss of \$0.8 million in 2000, a \$0.4 million tax benefit was recognized compared to \$4.0 million tax provision recognized in 1999. The effective tax rate remained flat year-over-year.

NET (LOSS) INCOME

We reported a net loss of \$0.4 million, or \$0.09 per share on a diluted basis, for 2000 as compared with net income of \$4.1 million, or \$0.92 per share on a diluted basis, for 1999. The 2000 results are reflective of the \$3.8 million operating loss for the year (as compared to operating income of \$8.5 million in 1999), offset in substantial part by the non-operating interest income from investment of increased cash balances obtained through financing activities.

Edgar Filing: ELOYALTY CORP - Form 10-K405

LIQUIDITY AND CAPITAL RESOURCES

Our principal capital requirements are to fund working capital needs, capital expenditures and other investments in support of revenue generation and growth.

At December 29, 2001, we had cash and cash equivalents of \$42.7 million representing an increase of approximately \$1.5 million in cash and cash equivalents from December 30, 2000. Restricted cash represents cash as security for our line of credit and letters of credit. The increase in our cash and cash equivalents was primarily attributable to the \$20.3 million cash generated from financing activities, as described below. Both operating activities and investing activities (in capital expenditures) negatively impacted our available 2001 cash resources, with a combined use of cash resources of approximately \$17.2 million.

Operating activities used net cash of approximately \$8.7 million during 2001 compared to \$22.3 million during 2000. In addition to the negative \$63.7 million impact of its net loss in 2001, we also experienced a reduction in accrued compensation due to the \$90 million reduction in revenue and the significant reduction in the work force. The reduction in accrued compensation was also attributable to a decline in bonus accruals and the timing of salary payments. Accounts receivable decreased by \$47.7 million due to improved invoicing and collection processes and systems. At December 29, 2001, there remained \$7.9 million of unpaid severance and related costs.

Cash flows used in investing activities consisted of capital expenditures of \$8.5 million during 2001, as compared to capital expenditures of \$18.6 million for 2000. The 2001 spending was primarily related to the continuation of investments in computer hardware and software that were completed in the US and established in non-US locations. The bulk of this system implementation occurred in 2000 when we built out our own infrastructure as a stand-alone company for US operations, following the February 2000 spin-off from TSC. We expect that our capital expenditures for 2002 will be between \$2 million and \$3 million.

We have made an additional commitment to invest up to \$14.7 million, through a related entity, in eLoyalty Ventures, L.L.C. ("eLoyalty Ventures"). eLoyalty Ventures is a \$30 million venture capital fund formed in 2000 by eLoyalty, together with entities associated with Bain Capital, Sutter Hill Ventures and Technology Crossover Ventures, to focus on investing in early-stage CRM technology companies. We have not been requested to contribute any of our eLoyalty Ventures commitment and so remain subject to capital calls against that commitment on 10 business days' prior written notice. While no formal action has been taken to suspend the fund's activities, we believe none of the members of eLoyalty Ventures would recommend investment activity at this time. We further believe that the fund's management is not actively engaging in evaluation of investment opportunities. Accordingly, we do not expect any expenditures relating to this fund in 2002.

Cash flows provided by financing activities decreased \$48.0 million to \$20.3 million for 2001 from \$68.3 million in 2000. Cash from such activities decreased during 2001 primarily as a result of two financing events in 2000: the issuance of 4.5 million shares of eLoyalty's Common Stock to venture capital investors for aggregate net proceeds of \$34.9 million and a \$20 million cash contribution from TSC in connection with the spin-off. In 2001, we received \$23.3 million (\$20.0 million, net) related to the issuance of the Series B stock. Cash dividends of approximately \$0.9 million are expected to be paid in July 2002 on the Series B stock. In addition, two semi-annual dividend payments of approximately \$0.8 million each are expected to be paid in 2003 on the Series B stock. The amount of the dividend would be affected by any conversions of the Series B stock into common stock. We also received \$8.6 million of financing

Edgar Filing: ELOYALTY CORP - Form 10-K405

through our credit line and we deposited \$9.4 million into a secured bank account as a result of our Loan Agreement as discussed below. Additional cash flows from financing activities were provided by cash proceeds of \$1.1 million from the exercise of employee stock options and purchases under our employee stock purchase plan. We have elected to freeze the employee stock purchase plan immediately following the next quarterly purchase at the end of the first quarter 2002.

Page 17

Our near-term capital resources consist of our current cash balances, together with anticipated future cash flows from operations and availability under an external credit line. Our balance of cash and cash equivalents was \$42.7 million as of December 29, 2001.

We entered into a Loan Agreement with LaSalle Bank National Association (the "Bank") effective as of December 17, 2001, providing for a secured revolving line of credit in a maximum principal amount of \$15 million through December 28, 2002 (the "Facility"). The Facility requires us to maintain cash and cash equivalents within a secured account at the Bank. The balance in this secured account cannot be less than the total line of credit and letter of credit obligations under the Facility. The Facility replaced our prior revolving credit facility with Bank of America, N.A. At December 29, 2001, our borrowings under the Facility equaled \$8.6 million. Available credit under the Facility has been reduced by an additional \$0.8 million related to letters of credit issued under the Facility for operational commitments. Loans under the Facility bear interest at the Bank's prime rate or, at our election, an alternate rate of LIBOR (London InterBank Offering Rate) plus 0.75%. Under the Facility, we agreed to pay a commitment fee of \$25,000.

At December 29, 2001 we had two customers, Telekom Austria and UnitedHealth Group, which accounted for 20% and 18% respectively of our total net accounts receivable. We have collected substantially all of these amounts. With a higher percentage of our revenues dependent on fewer customers, delayed payments by a few of our larger clients could result in additional borrowing under the Facility. We currently have future minimum rental commitments under non-cancellable operating leases of \$16.6 million. These are due in the following periods: \$5.9 million in 2002, \$9.7 million in 2003-2005, and \$1.0 million in 2006-2007. Minimum payments have not been reduced by minimum sublease rentals of \$0.4 million, \$0.3 million, \$0.2 million and \$0.2 million due in the future for years 2002, 2003, 2004, and 2005, respectively, under noncancelable subleases. Of the future minimum rental commitments, the Company has accrued as part of the severance and related costs as discussed in Note Three, \$2.5 million, \$1.3 million, \$0.6 million, \$0.5 million and \$0.6 million for 2002, 2003, 2004, 2005, 2006 and thereafter, respectively. These amounts are net of estimated sublease recoveries.

We anticipate that our current cash resources, together with other expected internal and external sources of liquidity, should be sufficient to satisfy our working capital and capital expenditure needs for the balance of the year. We also anticipate that our cash resources will be sufficient to meet our long-term needs. If, however, our operating activities or net cash needs for the year were to differ materially from current expectations due to uncertainties surrounding the current capital market, credit and general economic conditions, competition, potential for suspension or cancellation of a large project, there could be no assurance that we would have access to additional external capital resources on acceptable terms.

Edgar Filing: ELOYALTY CORP - Form 10-K405

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. SFAS No. 142 eliminates the systematic amortization of goodwill and indefinite lived intangible assets and requires them to be tested for impairment at least annually. Separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their useful lives. We adopted SFAS No. 141 effective July 1, 2001 and adopted SFAS No. 142 effective January 1, 2002. As total goodwill at December 29, 2001 is \$2.1 million, we do not expect that application of the nonamortization and impairment provisions of SFAS No. 142 will have a material impact on results of operations.

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 is required to be adopted for fiscal years beginning after June 15, 2002. We do not expect the adoption of SFAS No. 143 will have a material impact on our financial position and or results of operations.

Page 18

In October 2001, the FASB issued SFAS No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets" which is effective for fiscal years beginning after December 15, 2001. SFAS No. 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supercedes SFAS No. 121, "Accounting for Impairment of Long-Lived Assets and for Long Lived Assets to be Disposed Of" while retaining many of the provisions of that statement. We do not expect the adoption of SFAS No. 144 to have a material impact on our financial position or results of operations.

In November 2001, the Emerging Issues Task Force ("EITF") reached a consensus on "Income Statement Characterization of Reimbursements Received for 'Out-of-Pocket' Expenses Incurred." The EITF concluded that reimbursements received for out-of-pocket expenses incurred should be characterized as revenue in the income statement. This consensus is to be applied in financial reporting periods beginning after December 15, 2001. We adopted this policy in this Form 10-K and have reclassified prior period amounts in order to make the financial statements comparable. This change in presentation does not affect reported net income or loss.

FACTORS THAT MAY AFFECT FUTURE RESULTS OR MARKET PRICE OF STOCK

Some of the factors that may affect our future results or the market price of our stock and cause or contribute to material differences between actual results and those reflected in forward-looking statements contained in this Form 10-K include the following:

- uncertainties associated with the attraction of new clients, the continuation of existing and new engagements with existing clients and the timing of related client commitments, including potential client delays or deferrals of new engagements or

Edgar Filing: ELOYALTY CORP - Form 10-K405

- existing project extensions in light of prevailing general economic conditions and uncertainties;
- reliance on a relatively small number of customers for a significant percentage of our revenues, reliance on major suppliers, including CRM software providers and other alliance partners, and maintenance of good relations with key business partners;
- management of the risks associated with increasingly complex client projects in general as well as new services offerings, including risks relating to the variability and predictability of the number, size, scope, cost and duration of, and revenues from, client engagements, unanticipated cancellations or deferrals of client projects or follow-on phases of engagements in process, collection of billed amounts, shifts from time and materials-based engagements to alternative pricing or value-based models and variable employee utilization rates, project personnel costs and project requirements;
- management of growth, expansion into new geographic and market areas and development and introduction of new services offerings, including the timely and cost-effective implementation of enhanced operating, financial and other infrastructure systems and procedures;
- challenges in attracting, training, motivating and retaining highly skilled management, strategic, technical, product development and other professional employees in a competitive information technology labor market;
- continuing intense competition in the information technology services industry generally and, in particular, among those focusing on the provision of CRM services and software, including firms with both significantly greater financial and technical resources than eLoyalty and new entrants;
- the rapid pace of technological innovation in the information technology services industry, including frequent technological advances and new product introductions and enhancements, and the ability to create innovative and adaptable solutions that are consistent with evolving standards and responsive to client needs, preferences and expectations;
- access in tightened capital and credit markets to sufficient debt and/or equity capital on acceptable terms to meet our future operating and financial needs;
- protection of our technology, proprietary information and other intellectual property rights or challenges to our intellectual property by third parties;
- future legislative or regulatory actions relating to the information technology or information technology services industries including those relating to data privacy;
- maintenance of our reputation and expansion of our name recognition in the marketplace;

Page 19

- risks associated with global operations, including those relating to the economic conditions in each country, potential currency exchange and credit volatility, compliance with a variety of foreign laws and regulations and management of a geographically dispersed organization;
- the overall demand for CRM services and software and information technology consulting services generally;
- the continued impact of the current economic slowdown, as well

Edgar Filing: ELOYALTY CORP - Form 10-K405

- as other future general business, capital market and economic conditions and volatility; and
- significant revisions to current estimates of the timing and amount of future taxable income during the carryforward period may affect the realizability of deferred tax assets.

ITEM 7A. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

Our international operations create special risks, including those relating to the economic conditions in each country, potential currency exchange and credit volatility, restrictions on the movement of cash and certain technologies across national borders, tax issues resulting from multiple tax laws, compliance with a variety of other foreign national and local laws and regulations, political instability and management of a geographically dispersed organization. Our ability to deploy our resources globally while accommodating a variety of local labor and immigration laws and regulations may become more challenging as we implement our operational reorganization into global delivery groups. If not adequately addressed, these risks may adversely affect our business.

We provide solutions to clients in a number of countries including the United States, Canada, United Kingdom, Germany, France and Australia. For the years ended December 2001 and 2000, 23% and 17%, respectively, of our revenues were denominated in foreign currencies. Historically, we have not experienced material fluctuations in our results of operations due to foreign currency exchange rate changes. As a result of our exposure to foreign currencies, future financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in those foreign markets. We do not currently engage nor is there any plan to engage in hedging foreign currency risk.

We also have interest rate risk with respect to changes in variable rate interest on our revolving line of credit. Interest on the line of credit is based on LIBOR, which varies in accordance with prevailing market conditions. A change in interest rate impacts the interest expense on the line of credit and cash flows, but does not impact the fair value of the debt. A 1% increase in the LIBOR rate would result in additional interest expense of approximately \$0.1 million based on current borrowing.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders of eLoyalty Corporation:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of cash flows, and of changes in stockholders' equity (accumulated deficit) and comprehensive income (loss) present fairly, in all material respects, the financial position of eLoyalty Corporation and its subsidiaries (the "Company") at December 29, 2001 and December 30, 2000, and the results of their operations and their cash flows for the years ended December 29, 2001, December 30, 2000, and December 31, 1999 in conformity with accounting principles generally accepted in the United States of America. In addition, the accompanying financial statement schedule for the years ended December 29, 2001, December 30, 2000 and December 31, 1999 presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

ELOYALTY CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share data)

NOTE ONE--DESCRIPTION OF BUSINESS

eLoyalty is a global management consulting and systems integration organization focused exclusively on building customer loyalty solutions for our clients. eLoyalty offers a broad range of Customer Relationship Management ("CRM") related services including business strategy, technical architecture, selecting, implementing and integrating appropriate CRM software applications and providing ongoing support for multi-vendor systems.

eLoyalty was spun off from Technology Solutions Company ("TSC") into a separate, publicly traded company on February 15, 2000 (the "spin-off"). The spin-off, which was approved by the TSC Board of Directors on February 9, 2000, was accomplished by distributing to TSC stockholders, as a dividend, all of the outstanding common stock of eLoyalty owned by TSC. In the spin-off, TSC stockholders received one share of eLoyalty common stock, par value \$0.01 per share, for every one share of TSC common stock they owned of record as of February 9, 2000.

NOTE TWO--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation--The financial statements for periods subsequent to the spin-off reflect eLoyalty's results of operations and financial position as it operates as a separate, publicly traded company. The consolidated financial statements for periods prior to the spin-off reflect eLoyalty's results of operations and financial position as it operated within TSC, and have been prepared using the historical basis in the assets, liabilities and results of operations.

The consolidated statements of operations for the periods prior to February 15, 2000 reflect all of the related costs of doing business including an allocation of certain general corporate expenses of TSC not directly related

Edgar Filing: ELOYALTY CORP - Form 10-K405

to eLoyalty's operations, including legal, information systems, finance, insurance, human resources, benefits administration, stockholders' services and corporate management services. These costs were allocated to eLoyalty primarily on a proportional cost allocation method based on revenues and headcount. Management believes these allocations were made on a reasonable basis.

The financial information for periods prior to February 15, 2000 may not necessarily reflect what the financial position and results of operations of eLoyalty would have been had eLoyalty operated as a separate, stand-alone publicly traded entity during such periods.

Change in Fiscal Year-End--In connection with implementing new business systems and processes in December 2000, eLoyalty changed from a calendar year-end to a fiscal year ending with the Saturday closest to the end of December. The fiscal year-end for 2001 is December 29 while the fiscal year-end for 2000 is December 30. Also, on November 22, 1998, TSC's Board of Directors voted to change the fiscal year of TSC from a fiscal year ending on May 31 to a calendar year ending on December 31 in each year.

Consolidation--The consolidated financial statements include the accounts of eLoyalty and all of its subsidiaries. All significant intercompany transactions have been eliminated.

Revenue Recognition--eLoyalty derives substantially all of its revenues from professional services. eLoyalty provides professional services primarily on a time and materials basis. Although eLoyalty occasionally performs projects on a fixed fee basis, the total portion of revenues derived from fixed fee engagements is not significant. eLoyalty recognizes revenues on the percentage of completion method as services are performed, based on hourly billing rates. Percentage of completion estimates are based on the ratio of actual hours incurred to total estimated hours. From time to time, eLoyalty uses subcontractors to supplement its resources in client engagements. Revenues generated through subcontractors are recognized as the service is performed, and the related subcontractor costs are included in cost of services as incurred. Revenue reflects adoption of Financial Accounting Standards Board (FASB) Emerging Issues Task Force (EITF) D-103 requiring billable expenses to be reported as revenue. All periods presented have been revised to

Page 28

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

reflect this change. Losses on engagements, if any, are recognized when determined. eLoyalty also derives revenues from in-house developed software and in certain circumstances resale of third party software. Software license fee revenues are recognized when persuasive evidence of an arrangement exists, delivery has occurred, the license fee is fixed and determinable and the collection of the fee is probable. Fees from licenses sold together with consulting services are recognized upon delivery, provided that the above criteria have been met and payment of the license fees is not dependent upon the performance of the consulting services. In those instances when it is determined that the payment of the license fee is dependent upon the performance of consulting services, both the license and consulting fees are recognized under the percentage of completion method of contract accounting. Revenues from post-contract Loyalty Support(TM) are recognized ratably over the term of the maintenance contract on a straight-line basis. Revenues from purpose-built hosted solutions and e-PROFILE(TM) are recognized ratably over the contract term.

Edgar Filing: ELOYALTY CORP - Form 10-K405

Reclassifications--The accompanying consolidated financial statements reflect reclassifications of billable expenses as part of FASB Emerging Issues Task Force (EITF) D-103 requiring billable expenses to be reported as revenue. It also reflects the reclassification of certain other costs of engageable project personnel from Selling, General and Administrative to Cost of Services. All periods presented have been revised to reflect these changes. These reclassifications had no impact on net income (loss) or shareholders' equity.

Cost of Services--Cost of Services consist primarily of salaries, incentive compensation, billable and non-billable expenses, employee benefits for eLoyalty personnel available for client assignments, and fees paid to subcontractors for work performed on client projects.

Cash and Cash Equivalents--eLoyalty considers all highly liquid investments readily convertible into known amounts of cash (with original maturities of three months or less) to be cash equivalents. These short-term investments are carried at cost plus accrued interest, which approximates market.

Restricted Cash--Restricted cash principally represents cash as security for eLoyalty's line of credit and letters of credit.

Marketable Securities--eLoyalty's marketable securities consist of investments related to eLoyalty's executive deferred compensation plan (see Note Ten) and are classified as trading securities, with unrealized gains and losses included in eLoyalty's statements of operations. Realized gains or losses are determined based on the specific identification method. eLoyalty recognized a net loss of \$5 and \$89 for the year ended December 29, 2001 and December 30, 2000, respectively, and a net gain of \$730, for the year ended December 31, 1999. Since trading securities relate to eLoyalty's executive deferred compensation plan, a corresponding adjustment is included in the statements of operations to recognize eLoyalty's increased/decreased liability for the deferred compensation plan. The executive deferred compensation plan was terminated effective July 15, 2001 (see Note Ten).

Equipment and Leasehold Improvements--Computers, software, furniture and equipment are carried at cost and depreciated on a straight-line basis over their estimated useful lives. Leasehold improvements are amortized over the lesser of the useful life or the lease term. Useful lives generally are five years or less. Maintenance and repair costs are expensed as incurred. The cost and related accumulated depreciation of assets sold or disposed of are eliminated from the respective accounts and resulting gain or loss is included in the statements of operations. The carrying value of equipment and leasehold improvements is periodically reviewed to assess recoverability based on future undiscounted cash flows. An impairment loss, if any, would be measured as the excess of the carrying value over the fair value.

eLoyalty accounts for software developed for internal use in accordance with Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use." As such, costs incurred that relate to the planning and post-implementation phases of development are expensed. Costs incurred to develop internal use software are capitalized and amortized over the asset's estimated useful life, generally three to five years.

Edgar Filing: ELOYALTY CORP - Form 10-K405

(Dollars in thousands, except share data)

Goodwill--Goodwill is amortized on a straight-line basis, generally over a five-year period. Accumulated amortization of goodwill as of December 29, 2001 and December 30, 2000 was \$20,043 and \$16,477, respectively. The carrying value of goodwill is periodically reviewed to assess recoverability based on future undiscounted cash flows. An impairment loss, if any, would be measured as the excess of the carrying value over the fair value. In June 2001, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 142 "Goodwill and Other Intangible Assets" which requires that goodwill no longer be amortized effective January 2002. In association with this, the net book value of this asset will be periodically reviewed to assess recoverability based on future discounted cash flows. At December 29, 2001, unamortized goodwill aggregated \$2.1 million.

Research and Development Costs--Research and development costs are expensed as incurred. Research and development expenses relate primarily to the dedicated research and development facility maintained by eLoyalty, and consist primarily of salaries, incentive compensation and employee benefits costs for dedicated personnel, occupancy costs, staff recruiting costs, administrative costs, travel expenses and depreciation.

Software Development Costs--eLoyalty capitalizes software development costs for software to be sold to third parties once technological feasibility is established and prior to general release. Amortization is computed as the greater of the amount computed using the (a) ratio of current revenues to the total current and anticipated future revenues or (b) the straight-line method over the estimated economic life of the product. There are no capitalized software development costs included on eLoyalty's balance sheets as of December 29, 2001 or December 30, 2000.

Stockholders' Equity--Stockholders' equity includes common stock issued, additional paid-in capital, retained earnings (deficit), accumulated other comprehensive income (loss) related to foreign currency translation and unearned compensation related to stock-based compensation. Net transfers from TSC represent transfers to eLoyalty primarily for operations and working capital requirements, offset by cash collected by TSC for the periods prior to the spin-off. In connection with the spin-off, net transfers from TSC were recorded as common stock and additional paid-in capital (see Note Four). Following the spin-off, eLoyalty no longer received operational funding from TSC and no longer participated in the TSC cash management program. The 4.6 million shares issued of redeemable 7% Series B Convertible Preferred Stock is not classified as permanent equity in the accompanying balance sheets as the preferred stockholders' have the ability to trigger a redemption that is considered outside eLoyalty's control.

Earnings (Loss) Per Common Share--eLoyalty calculates earnings (loss) per share in accordance with SFAS No. 128, "Earnings per Share." Basic earnings per share have been computed by dividing the net earnings for each period presented by the weighted average shares outstanding. Diluted earnings per share have been computed by dividing the net earnings by the weighted average shares outstanding plus the dilutive effect of common stock equivalents using the "treasury stock" method. In periods in which there was a loss, the dilutive effect of common stock equivalents was not included in the dilutive earnings per share calculation as they were antidilutive.

Foreign Currency Translation--The functional currencies for eLoyalty's foreign subsidiaries are their local currencies. All assets and liabilities of foreign subsidiaries are translated to US dollars at end of period exchange rates. The resulting translation adjustments are recorded as a component of stockholders' equity and comprehensive income. Income and expense items are

Edgar Filing: ELOYALTY CORP - Form 10-K405

translated at average exchange rates prevailing during the period. Gains and losses from foreign currency transactions of these subsidiaries are included in the consolidated statements of operations.

Fair Value of Financial Instruments--The carrying values of current assets and liabilities approximated their fair values as of December 29, 2001 and December 30, 2000.

Concentration of Credit Risk--Financial instruments that potentially subject eLoyalty to a concentration of credit risk consists of cash and cash equivalents, restricted cash and accounts receivable. Cash and cash equivalents and restricted cash are deposited with high credit quality financial institutions. The Company's accounts receivable are derived from revenue earned from customers located primarily in the US and are denominated in US dollars. For the year

Page 30

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

ended December 29, 2001, eLoyalty had two clients, each accounting for 13% of eLoyalty's total revenue: Agilent Technologies and UnitedHealth Group. In June 2001, Agilent Technologies notified eLoyalty of the cancellation of the project on which eLoyalty and other third parties were engaged. Agilent Technologies also accounted for 15% of revenues for the year ended December 30, 2000. No client accounted for 10% or more of revenues during the year ended December 31, 1999. At December 29, 2001, we had two customers, Telekom Austria and UnitedHealth Group, which accounted for 20% and 18% respectively of our total net accounts receivable. We have collected substantially all of these amounts.

Stock-Based Compensation--eLoyalty accounts for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Compensation costs for employee stock options are measured as the excess, if any, of the fair value of common stock at the date of grant over the amount an employee must pay to acquire the stock, providing that all other requirements for fixed plan accounting are satisfied. In the event stock options are granted at a price lower than the fair value on the date of grant, the difference is recorded as unearned compensation. Cancelled and reissued stock options are accounted for under variable plan accounting with the related unearned compensation subject to adjustment in future periods based on the fluctuations of the fair value of the common stock. Unearned compensation is amortized over the vesting period of the related stock option or right. The unearned compensation recorded at December 29, 2001, December 30, 2000 and December 31, 1999 relates solely to eLoyalty stock-based awards.

Income Taxes--eLoyalty uses an asset and liability approach, as required under SFAS No. 109, to financial accounting and reporting for income taxes. Deferred income taxes are provided when tax laws and financial accounting standards differ with respect to the amount of income for a year and the basis of assets and liabilities and for tax loss carryforwards. eLoyalty does not provide US deferred income taxes on earnings of foreign subsidiaries which are expected to be indefinitely reinvested. Prior to the spin-off, eLoyalty's results have been included in TSC's consolidated federal and state income tax returns. The income tax provision for such periods is calculated, and deferred tax assets and liabilities are recorded, as if eLoyalty had operated as an independent entity.

Edgar Filing: ELOYALTY CORP - Form 10-K405

Use of Estimates--The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those amounts.

New Accounting Standards--In June 2001, the FASB issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets." SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. SFAS No. 142 eliminates the systematic amortization of goodwill and indefinite lived intangible assets and requires them to be tested for impairment at least annually. Separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their useful lives. eLoyalty adopted SFAS No. 141 effective July 1, 2001 and adopted SFAS No. 142 effective January 1, 2002. As total goodwill at December 29, 2001 is \$2.1 million, we do not expect that application of the nonamortization and impairment provisions of SFAS No. 142 will have a material impact on results of operations, cash flows or financial position.

In August 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations," which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 is required to be adopted for fiscal years beginning after June 15, 2002. eLoyalty does not expect the adoption of SFAS No. 143 will have a material impact on eLoyalty's financial position or results of operations.

In October 2001, the FASB issued SFAS No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets" which is effective for fiscal years beginning after December 15, 2001. SFAS No. 144 addresses financial

Page 31

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

accounting and reporting for the impairment or disposal of long-lived assets and supercedes SFAS No. 121, "Accounting for Impairment of Long-Lived Assets and for Long Lived Assets to be Disposed Of" while retaining many of the provisions of that statement. eLoyalty does not expect the adoption of SFAS No. 144 to have a material impact on eLoyalty's financial position or results of operations.

In November 2001, the Emerging Issues Task Force ("EITF") reached a consensus on "Income Statement Characterization of Reimbursements Received for 'Out-of-Pocket' Expenses Incurred." The EITF concluded that reimbursements received for out-of-pocket expenses incurred should be characterized as revenue in the income statement. This consensus is to be applied in financial reporting periods beginning after December 15, 2001. We adopted this policy in this Form 10-K and have reclassified prior period amounts in order to make the financial statements comparable. This change in presentation does not affect reported net income or loss.

NOTE THREE--SEVERANCE AND RELATED COSTS

During 2001, eLoyalty recognized pre-tax charges of \$11.4 million,

Edgar Filing: ELOYALTY CORP - Form 10-K405

\$10.7 million, \$7.1 million, and \$4.2 million in first quarter, second quarter, third quarter, and fourth quarter, respectively. This aggregate \$33.4 million charge for 2001 was the result of cost reduction actions taken throughout the year. These charges relate to employee severance payments and related costs for the elimination of approximately 475 positions, in both the North American and International segment, and related office closures. Severance costs include contractual salary and related fringe benefits over the severance payment period, forgiveness of employee loans and outplacement costs. Facility costs primarily include expected losses on contractual lease commitments, net of estimated sublease recoveries, and write down of leasehold improvements. Other costs include laptop and other computer lease termination costs, legal expenses and the write down of deposits related to outside services, which have been terminated.

During the twelve months ended December 29, 2001, eLoyalty made cash payments of \$19.0 million. Annual savings resulting from these actions are expected to be about \$65 million and will substantially be realized in 2002. A portion of these savings were recognized in 2001. eLoyalty expects substantially all severance and related costs to be paid out by the end of 2002 pursuant to agreements entered into with affected employees, facility costs related to the office closures to be paid pursuant to contractual lease terms through 2007 and other costs to be paid pursuant to contractual commitments through 2003.

The severance and related costs and their utilization as of and for the year ended December 29, 2001 are as follows:

	2001 Charges	Utilized through 12/29/01
Employee severance	\$ 20,218	\$ 18,617
Facilities	8,076	3,935
Other	5,150	2,976
Total	\$ 33,444	\$ 25,528

Of the \$7,916 that remains reserved as of December 29, 2001, \$3,390 related to future lease payments net of estimated sublease recoveries is reflected in Long Term Liabilities, \$1,601 related to severance payments is reflected in Accrued Compensation and the balance of \$2,925 is reflected in Other Current Liabilities.

In addition eLoyalty expects an estimated \$1 million to \$2 million pre-tax charge to be taken in the first quarter of 2002, relating primarily to severance benefits associated with further anticipated reductions in headcount. These additional severance benefits are expected to be substantially paid out by the end of 2002.

Edgar Filing: ELOYALTY CORP - Form 10-K405

NOTE FOUR--ELOYALTY SPIN-OFF FROM TECHNOLOGY SOLUTIONS COMPANY

eLoyalty was spun off from TSC into a separate, publicly traded company on February 15, 2000. In connection with the spin-off, TSC's net advances to eLoyalty were recorded as common stock and additional paid-in capital. The net assets distributed to eLoyalty were as follows:

	February 15, 2000
Cash	\$ 30,794
Receivables, net	50,056
Other current assets	23,603
Goodwill	11,342
Other long-term assets	7,379
Accounts payable	1,238
Other current liabilities	26,784

NOTE FIVE--RELATED PARTY TRANSACTIONS

Pursuant to the spin-off, on February 15, 2000, eLoyalty entered into contractual arrangements with TSC whereby TSC provided eLoyalty with certain administrative support through 2000. The total charges from TSC for the years ended December 30, 2000 and December 31, 1999 were \$5,036, and \$14,173, respectively.

eLoyalty periodically provides employee loans as part of employment agreements. These loans have interest rates ranging from 2.5% to 6.6%. The loans are generally forgiven over one to three years at various rates, depending on the value of the loan and the terms of the employment agreement, based on continued employment with eLoyalty. The unforgiven loan balances and related accrued interest are due and payable in full if an employee terminates employment before the end of the loan term. The total value of outstanding employee loans, including certain loans to officers, was \$1.1 million and \$3.4 million, respectively, as of December 29, 2001 and December 30, 2000.

NOTE SIX--RECEIVABLES, NET

Receivables consist of the following:

	As of December	
	2001	2000
Amounts billed to clients	\$ 25,210	\$ 62,501
Unbilled revenues	124	14,990
	25,334	77,491
Reserve for uncollectible amounts	(2,400)	(1,605)
Receivables, net	\$22,934	\$75,886

Amounts billed to clients represent professional fees and reimbursable

Edgar Filing: ELOYALTY CORP - Form 10-K405

project-related expenses. Unbilled revenues represent professional fees, project-related expenses, materials and subcontractor costs performed in advance of billings in accordance with contract terms. A substantial portion of unbilled revenues at the end of any period are billed in the following period. Unbilled revenues at December 29, 2001 and December 30, 2000 consist of amounts due from customers to be collected within one year of the balance sheet date.

Page 33

ELOYALTY CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share data)

NOTE SEVEN--EQUIPMENT AND LEASEHOLD IMPROVEMENTS

Equipment and leasehold improvements consist of the following:

	As of December	
	2001	2000
Computers and software	\$21,195	\$15,840
Furniture and equipment	4,117	4,750
Leasehold improvements	1,486	3,338
Accumulated depreciation and amortization	26,798 (8,909)	23,928 (5,144)
Equipment and leasehold improvements, net	\$17,889	\$18,784

Depreciation expense was \$5,683, \$2,372, and \$1,502 for the years ended December 29, 2001, December 30, 2000 and December 31, 1999, respectively.

NOTE EIGHT--INCOME TAXES

The income tax (benefit) provision consists of the following:

	For the Years Ended	
	December 29, 2001	December 30, 2000
Current:		
Federal	\$ (5,465)	\$ 6,950
State	(208)	859
Foreign	122	(712)
Total current	(5,551)	7,097

Edgar Filing: ELOYALTY CORP - Form 10-K405

Deferred:		
Federal	(12,709)	(1,923)
State	(1,633)	204
Foreign	10,797	(5,802)

Total deferred	(3,545)	(7,521)

Income tax (benefit) provision	\$ (9,096)	\$ (424)

Page 34

ELOYALTY CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share data)

Total income tax (benefit) provision differed from the amount computed by applying the federal statutory income tax rate due to the following:

	For the Years Ended	
	December 29, 2001	December 30, 2000

Federal tax provision (benefit), at statutory rate	\$ (25,465)	\$ (297)
State tax provision (benefit), net of federal benefit	(2,510)	539
Effect of foreign tax rate differences	96	(1,205)
Nondeductible expenses	202	208
Nondeductible goodwill	263	235
Other	1,527	96
Non US rate changes	1,290	--
Non US NOL Adjustments	1,421	--
Non US deferred valuation allowance	14,080	--

Income tax (benefit) provision	\$ (9,096)	\$ (424)

Deferred tax assets and liabilities were comprised of the following:

	As of December	
	2001	2000

Deferred tax assets:		
Deferred compensation and bonuses	\$ --	\$ 3,753
Equity losses of unconsolidated investee	400	341

Edgar Filing: ELOYALTY CORP - Form 10-K405

Receivable allowances	672	448
Other accruals	1,460	2,061
Net operating loss carryforwards	29,787	10,798
Depreciation and amortization	1,364	2,680
Non-deductible reserves	2,468	--
Tax credit carry forwards	520	--
Non US deferred valuation allowance	(14,080)	--

Total deferred tax assets	22,591	20,081

Deferred tax liabilities:		
Prepaid expenses	(81)	(1,116)

Total deferred tax liabilities	(81)	(1,116)

Net deferred tax asset	\$ 22,510	\$18,965

We have recorded a deferred tax asset of \$22,510 reflecting primarily the benefit of US loss carryforwards, which expire in periods through 2021. Realization is dependent on generating sufficient taxable income in the US prior to expiration of these loss carryforwards. Although realization is not assured, we believe that it is more likely than not that all of the deferred tax asset will be realized. The amount of the deferred tax asset considered realizable, however, could be reduced in the near term if current estimates of the timing and amount of future taxable income during the carryforward period are significantly revised.

During the second quarter of 2001, we established a valuation allowance against the benefit of certain international operating unit tax losses previously recognized and ceased recognizing the benefit of losses incurred by these operating

Page 35

ELOYALTY CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands, except share data)

units. This decision was made following a company-wide review of expected financial results by geography under various alternative scenarios and the related assessments of recoverability of these net deferred tax assets in light of the period over which they arose and the predictability of a near-term return of international operating units to acceptable, continuing levels of profitability. As of December 29, 2001, we had a valuation allowance of \$14,080 relating to these international operating unit tax losses.

Pursuant to the Tax Sharing and Disaffiliation Agreement between TSC and eLoyalty, TSC will generally be liable to eLoyalty for any income tax benefits realized by TSC related to the exercise of eLoyalty stock options by TSC employees (see Note Thirteen). With respect to the realizability of these tax benefits, if any, eLoyalty is dependent on TSC's ability to realize the benefits, and accordingly, eLoyalty does not recognize these benefits until realized by TSC.

Income (loss) before income taxes consisted of the following:

Edgar Filing: ELOYALTY CORP - Form 10-K405

	For the Years Ended	
	December 29, 2001	December 30, 2000
United States	\$ (50,203)	\$18,602
Foreign	(22,554)	(19,450)
Total	\$ (72,757)	\$ (848)

eLoyalty's ability to utilize its net operating loss (NOL) carryforwards could become subject to significant limitations under Section 382 of the Internal Revenue Code if eLoyalty were to undergo an ownership change. An ownership change would occur if the stockholders who own or have owned, directly or indirectly, 5% or more of eLoyalty's common stock or are otherwise treated as 5% stockholders under Section 382 and the regulations promulgated thereunder increase their aggregate percentage ownership of eLoyalty's stock by more than 50 percentage points over the lowest percentage of the stock owned by these stockholders at any time during the testing period, which is generally the three-year period preceding the potential ownership change. In the event of an ownership change, Section 382 imposes an annual limitation on the amount of taxable income a corporation may offset with NOL carryforwards. Any unused annual limitation may be carried over to later years until the applicable expiration date for the respective NOL carryforwards.

NOTE NINE--LINE OF CREDIT

eLoyalty entered into a Loan Agreement with LaSalle Bank National Association (the "Bank") effective as of December 17, 2001, providing for a secured revolving line of credit in a maximum principal amount of \$15 million through December 28, 2002 (the "Facility"). The Facility requires eLoyalty to maintain a minimum cash and cash equivalent balance within a secured account at the Bank. The balance in the secured account cannot be less than the outstanding balance drawn on the line of credit and all outstanding letter of credit obligations under the Facility. The Facility replaced eLoyalty's prior revolving credit facility with the Bank of America, N.A. eLoyalty's borrowings under the Facility aggregated \$8,600 at December 29, 2001. Available credit under the Facility has been reduced by an additional \$848 related to letters of credit issued under the Facility for operational commitments. Loans under the Facility bear interest at the Bank's prime rate or, at eLoyalty's election, an alternate rate of LIBOR (London InterBank Offering Rate) plus 0.75%. The effective annual interest rate at December 29, 2001 was 2.67% under the Facility.

NOTE TEN--EXECUTIVE DEFERRED COMPENSATION PLAN

We terminated our Executive Deferred Compensation Plan effective July 15, 2001, and provided for all participant account balances to be distributed in a lump sum following the termination effective date. We also terminated an associated Executive Benefit Trust, effective on completion of distributions from the plan. This nonqualified deferred

Edgar Filing: ELOYALTY CORP - Form 10-K405

compensation plan allowed eligible participants (employees at or above the level of Vice President) to defer receipt of a portion of their cash compensation. All distributions from this plan were completed before September 29, 2001. Investments purchased by eLoyalty with the deferred compensation funds and the corresponding obligations to participants, including investment earnings thereon, are reflected as assets and liabilities, respectively, on our balance sheet as of December 30, 2000 under the captions "Marketable Securities" and "Deferred Compensation". Prior to the spin-off from TSC, eLoyalty executives participated in the TSC non-qualified executive deferred compensation plan.

NOTE ELEVEN--EMPLOYEE BENEFIT PLANS

eLoyalty Corporation 401(k) Plan--eLoyalty employees are eligible to participate in the eLoyalty Corporation 401(k) Plan (the "401(k) Plan") on the first day of the month coinciding with or following their date of hire. The 401(k) Plan allows employees to contribute up to 15% of their annual compensation, subject to Internal Revenue Service statutory limits. Company contributions are made annually to the 401(k) Plan at the discretion of the Board of Directors. Company contributions were made annually for 2001 and prior years. Effective in 2002, the matching contribution will no longer be discretionary. Instead, the Board of Directors approved a non-discretionary matching contribution at the rate of 50% of the first 6% of eligible compensation contributed to the 401(k) Plan with a maximum match of 3% of eligible earnings. Prior to the spin-off from TSC, eLoyalty employees participated in the TSC 401(k) Plan. eLoyalty recognized expenses related to these 401(k) plans of \$540, \$1,697 and \$1,131 for the years ended December 29, 2001, December 30, 2000 and December 31, 1999, respectively.

eLoyalty Employee Stock Purchase Plan--eLoyalty employees are eligible to participate in the eLoyalty employee stock purchase plan (the "Stock Purchase Plan") after meeting certain minimum eligibility service requirements. The Stock Purchase Plan qualifies under section 423 of the Internal Revenue Code ("IRC") and is administered by the Compensation Committee of the Board of Directors. The Stock Purchase Plan permits eligible employees to purchase an aggregate of 125,000 shares of eLoyalty's common stock. Shares are purchased by the plan for the benefit of the participants at the end of each three-month purchase period. The Stock Purchase Plan purchased 55,800 shares of eLoyalty common stock for the year ended December 29, 2001. The Company has elected to freeze the Stock Purchase Plan immediately following the next quarterly purchase at the end of the first quarter 2002, previously due to low employee participation. eLoyalty retains the ability to reactivate this plan in the future.

NOTE TWELVE--REDEEMABLE CONVERTIBLE PREFERRED STOCK AND CAPITAL STOCK

On December 18, 2001, eLoyalty's stockholders approved, at a special meeting (i) the issuance and sale of shares of redeemable 7% Series B Convertible Preferred Stock (the "Series B stock") in a private placement financing; (ii) an increase in the number of authorized shares of eLoyalty's Common Stock and preferred stock in connection with the private placement and rights offering described below; and (iii) a one-for-ten reverse split of eLoyalty's outstanding Common Stock and a corresponding reduction in the number of authorized shares of common stock described below.

The private placement involved the sale of approximately 3.2 million shares of Series B stock to various funds managed by Technology Crossover Ventures ("TCV") and Sutter Hill Ventures ("Sutter Hill"), for gross proceeds of approximately \$16,000. The purchase price per share of Series B stock was \$5.10 (after giving effect to the one-for-ten reverse stock split, which was effected immediately prior to the closing of the transaction). The private placement was completed on December 19, 2001, concurrently with the rights offering described below.

Edgar Filing: ELOYALTY CORP - Form 10-K405

In connection with the private placement, eLoyalty conducted a rights offering in which existing common stockholders on the record date for the rights offering, October 8, 2001, were offered the right to purchase Series B stock at the same price as the investors in the private placement. Pursuant to the rights offering, on December 19, 2001, eLoyalty sold approximately 1.4 million shares of Series B stock for gross proceeds of approximately \$7,300.

Page 37

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

At the time of issuance of the Series B stock, a beneficial conversion adjustment was calculated (since the fair market value of a share of common stock at the time exceeded the purchase price of a share of Series B stock) aggregating \$4.0 million. The Series B stock was recorded at the date of issuance net of issuance costs and the beneficial conversion adjustment. The discount attributable to the issuance costs was fully accreted on the date of issuance by charging additional paid-in capital and increasing the recorded amount of Series B stock. The Series B stock will be accreted to its full redemption value of \$23,300 on a straight line basis from the date of issuance to June 19, 2002 by charging additional paid-in capital of \$669 per month and increasing the recorded amount of Series B stock by a like amount.

The Series B stock accrues dividends at a rate of 7% per annum, is entitled to a preference upon liquidation and is convertible on a one for one basis into shares of our common stock beginning on June 19, 2002, subject to adjustment for stock splits, stock dividends and similar actions. The Series B stock generally votes on a one for one basis with the common stockholders, subject to adjustment for certain actions and specified matters as to which the Series B stock is entitled to a separate class vote.

On December 19, 2001, prior to the closing of the private placement and rights offering, eLoyalty amended its Certificate of Incorporation to increase the authorized number of shares of its common stock from 100 million shares to 500 million shares (which was subsequently reduced to 50 million shares in connection with the reverse stock split) and in the authorized number of shares of its preferred stock from 10 million shares to 40 million shares. In connection with this, eLoyalty increased the number of authorized shares of Series A junior participating preferred stock designated in connection with its Rights Plan (described below) from 1 million to 5 million shares, which are included in the 40 million shares of preferred stock described above.

Also on December 19, 2001, immediately prior to the closing of the private placement and rights offering but after the increase in authorized share capital described above, eLoyalty effected a one-for-ten reverse split of its issued and outstanding common stock, with a corresponding reduction in the number of authorized shares of common stock. eLoyalty effected the reverse stock split (1) to reduce the number of its shares outstanding after the private placement and the rights offering to allow it to rationalize its resulting equity capital structure, (2) to enhance the acceptability and marketability of its common stock to the financial community and the investing public, and (3) to attempt to increase the per share market price of its common stock above Nasdaq's \$1.00 minimum bid requirement.

eLoyalty was spun off from TSC into a separate, publicly traded company

Edgar Filing: ELOYALTY CORP - Form 10-K405

on February 15, 2000. In connection with establishing eLoyalty as a separate entity, 100 million shares (pre-split) of common stock, \$0.01 par value, were authorized, of which 43,929,029 common stock shares (pre-split) were issued.

Pursuant to the spin-off, eLoyalty received \$8,400 from the sale of 2.5 million shares (pre-split) of common stock to TCV and Sutter Hill. On May 26, 2000, eLoyalty also closed its common stock purchase agreement with TCV entities and issued 2 million shares (pre-split) of common stock at \$13.50 per share, the closing market price on April 18, 2000, the signing date of the initial letter of intent, for proceeds of \$26,500, net of issuance costs.

On March 17, 2000, the Board of Directors adopted a Stockholder Rights Plan (the "Rights Plan"). The Rights Plan is intended to assure fair and equal treatment for all of eLoyalty's stockholders in the event of a hostile takeover attempt.

Under the terms of the Rights Plan, after giving effect to the reverse stock split described above, each share of eLoyalty's common stock has associated with it ten rights ("Rights"). Each Right entitles the registered holder to purchase from eLoyalty one one-hundredth of a share of Series A junior participating preferred stock, without par value, at an exercise price of \$160 (subject to adjustment). The Rights become exercisable under certain circumstances: 10 days after the first public announcement that any person (an "acquiring person") has acquired 15% or more of eLoyalty's common stock or the announcement that any person has commenced a tender offer for 15% or more of eLoyalty's common stock. On September 24, 2001, eLoyalty amended the Rights Plan in connection with the private placement

Page 38

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

described above. The amendment provides, among other things, that (i) TCV and certain related parties shall not become an "acquiring person" for purposes of the Rights Plan so long as they do not own more than 35% of eLoyalty's outstanding common stock (determined after giving effect to the conversion of the new Series B stock), and (ii) Sutter Hill and certain related parties shall not become an "acquiring person" for purposes of the Rights Plan so long as they do not own more than 20% of eLoyalty's outstanding common stock (determined after giving effect to the conversion of the new Series B preferred stock).

In general, eLoyalty may redeem the Rights in whole, but not in part, at a price of \$0.01 per Right at any time until 10 days after any person has acquired 15% or more of eLoyalty's common stock. The Rights will expire on March 17, 2010, unless earlier redeemed by eLoyalty or exchanged for other shares of eLoyalty's common stock.

Under specified conditions, each Right will entitle the holder to purchase eLoyalty's common stock (or if eLoyalty is acquired in a merger or other business combination, common stock of the acquiror) at the exercise price having a current market value of two times the exercise price. The terms of the Rights may be amended by eLoyalty's Board of Directors.

NOTE THIRTEEN--STOCK INCENTIVE PLANS

eLoyalty maintains two stock incentive plans: the eLoyalty Corporation 1999 Stock Incentive Plan (the "1999 Plan") and the eLoyalty Corporation 2000 Stock Incentive Plan (the "2000 Plan"). All share amounts in this Note Thirteen

Edgar Filing: ELOYALTY CORP - Form 10-K405

are presented after giving effect to the one-for-ten reverse stock split described in Note Twelve, unless indicated otherwise.

Under the 1999 Plan, awards of stock options, stock appreciation rights, bonus and restricted stock and performance shares may be granted to directors, officers, employees, consultants, independent contractors and agents of eLoyalty and its subsidiaries. Stock option awards may be in the form of incentive or non-statutory options, provided that incentive stock options may only be granted to officers and employees of eLoyalty. All awards made under the 1999 Plan to date have been in the form of non-statutory stock options, restricted stock or bonus (installment) stock. An aggregate of 534,000 shares of eLoyalty common stock was initially reserved for issuance under the 1999 Plan for all awards other than those issued in connection with the spin-off as discussed below. On the first day of each fiscal year, beginning in 2000, the aggregate number of shares available for issuance under the 1999 Plan is automatically increased by an amount equal to 5% of the total number of shares of common stock that are outstanding as of the time of the increase. In addition, 738,756 shares were reserved for issuance under the 1999 Plan in connection with the spin-off in substitution of previously granted options to purchase shares of TSC common stock. These substitute options are not subject to the limit on shares reserved set forth above.

On May 12, 2000, the Board of Directors approved the eLoyalty Corporation 2000 Stock Incentive Plan. Under the original terms of the 2000 Plan, non-statutory stock option awards may be granted to officers, employees and certain consultants and independent contractors of eLoyalty and its subsidiaries. The 2000 Plan was amended in September 2001 to expand the form of awards permitted under the plan to include installment and restricted stock. Awards of non-statutory stock options, restricted stock and installment stock (in the form of installment stock grants) have been made under the 2000 Plan. An aggregate of 280,000 shares of eLoyalty common stock has been reserved for issuance under the 2000 Plan.

If options or shares awarded under the 1999 Plan and the 2000 Plan are not issued due to cancellation then those options or shares will again become available for issuance under the plans. As of December 29, 2001, there were a total of 589,466 shares available for future grants under the 1999 and 2000 Plans.

Stock options granted under the 1999 Plan and 2000 Plan are made at the discretion of the Compensation Committee of eLoyalty's Board of Directors or another duly constituted committee of the Board to the extent authorized

Page 39

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

by such plans and the Board (the "Compensation Committee"). Most employees are eligible to receive a grant of non-statutory stock options periodically with the number of shares generally determined by the employee's position grade, performance level and the size of the award pool as determined by the Compensation Committee. In addition, full-time employees normally receive a grant of non-statutory stock options upon hire. Stock options are generally granted with an exercise price per share equal to the fair market value of a share of eLoyalty common stock on the date of grant and a maximum term of 10 years. Although the Compensation Committee has the authority to set other terms, the options generally become exercisable over a period of four years. The

Edgar Filing: ELOYALTY CORP - Form 10-K405

initial vesting may occur after a one or two-year period, with the balance of the shares vesting in equal monthly installments over the remainder of the four-year period, or the entire award may vest in equal monthly increments over the four-year period.

The 1999 Plan was amended in December 2000 to increase the number of option shares automatically awarded to non-employee directors. The 1999 Plan, as amended, provides that each non-employee director will receive a non-statutory stock option to purchase 5,000 shares of eLoyalty common stock when he or she commences service as a director. In addition, on the day following the date of each annual shareholders' meeting, each non-employee director will receive a non-statutory stock option to purchase 1,200 shares of eLoyalty common stock. Stock options granted to non-employee directors have an exercise price per share equal to the fair market value of a share of eLoyalty common stock on the grant date and a maximum term of 10 years. Stock options granted to non-employee directors upon commencement of services vest ratably over a period of 48 months. Stock options granted to non-employee directors following an annual shareholders' meeting vest ratably over a period of 12 months.

At the time of the spin-off, each outstanding option to purchase TSC common stock held by a person who was an employee or director of eLoyalty immediately after the spin-off (and who was not also a director of TSC) was converted into a substitute option to purchase eLoyalty common stock. Furthermore, each outstanding TSC option granted before June 22, 1999 to a person who was an employee or director of TSC after the spin-off, or who was neither an employee or director of eLoyalty or TSC after the spin-off, was converted into both an adjusted TSC option and a substitute eLoyalty option. The conversion of the options was done in a manner such that (1) the aggregate intrinsic value of the options immediately before and after the exchange were the same, (2) the ratio of the exercise price per option to the market value per option was not reduced, and (3) the vesting provisions and option period of the replacement options are the same as the original vesting terms and option period. Each substitute option takes into account all employment with both TSC and eLoyalty for purposes of determining when the option becomes exercisable and when it terminates. All other terms of the substitute option are the same as the terms of the TSC option to which it relates. Of the 738,756 shares subject to replacement options issued in connection with the spin-off, 355,782 shares were subject to replacement options issued to persons who were employees or directors of eLoyalty immediately after the spin-off.

Under the 1999 Plan, eLoyalty granted 119,500, net of cancellations (and excluding shares issued in exchange for stock options as discussed below), and 29,312 shares of restricted common stock to certain executives during the year ending December 29, 2001 and December 30, 2000, respectively. During the restricted period, the holders of such shares have the same rights as common stockholders of eLoyalty, except that the shares may not be sold, assigned, pledged or otherwise encumbered. Restrictions on shares granted in the second quarter of 2001 lapse in equal monthly installments over a period of 48 months beginning on (i) May 1, 2001 with respect to 83,500 shares, and (ii) May 1, 2003 with respect to 31,000 shares. Restrictions on 5,000 shares granted in 2001 and 22,901 shares, net of cancellations, granted in 2000 lapse ratably over a period of 60 months beginning July 1, 2001 and August 1, 2000, respectively. As of December 29, 2001, a total of 120,663 restricted common stock shares (excluding shares issued in exchange for stock options) continued to be subject to restrictions.

On November 9, 2001, eLoyalty authorized the exchange of certain outstanding non-statutory stock options issued under the 1999 Plan and 2000 Plan, having an exercise price above \$30 per share on a post-split basis and an original term of no more than ten years, for awards of restricted and installment common stock. Restricted Stock awards are shares of eLoyalty common stock granted to an individual. During the restriction period, the holder of the

Edgar Filing: ELOYALTY CORP - Form 10-K405

restricted stock receives all of the benefits of ownership (right to dividends, voting rights, etc.), other than the right to sell or

Page 40

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

otherwise transfer any interest in the stock. Installment Stock awards are grants to an individual of a contractual right to receive future grants of eLoyalty common stock in specified amounts on specified dates, subject to the individual remaining an eLoyalty employee on the date of the subject grant. With respect to the installment stock awards made in connection with the exchange offer, the grant dates are contemporaneous with the vesting dates for the restricted stock granted in the exchange offer. In the exchange offer, eligible US employees received one share of restricted stock for each share underlying options tendered, with restrictions lapsing on such restricted shares in 20 equal quarterly installments beginning on February 28, 2002. Eligible non-US employees received an installment stock award that provides for the issuance of one share of common stock for each share underlying options tendered with the issuance of such shares being made in 20 equal quarterly installments beginning February 28, 2002. As a result of the exchange, which was voluntary, eLoyalty accepted the tender of options to purchase approximately 573,097 shares of its common stock, issued approximately 483,165 shares of restricted common stock to its eligible US employees, and reserved for issuance to eligible non-US employees approximately 89,932 shares of its common stock. Upon the exchange, the aggregate fair value of the restricted stock issued and installment stock to be issued, \$2,980, was recorded as unearned compensation and will be amortized to expense over the 20 quarter vesting or installment period.

Option activity was as follows for the years ending December 31, 1999, December 30, 2000 and December 29, 2001: (All share and exercise prices have been adjusted to reflect the one-for-ten reverse stock split.)

	Option Shares	Weighted-Average Exercise Price

Outstanding as of December 31, 1998	--	\$ --

Granted	544,725	\$ 38.80
Exercised	--	\$ --
Forfeited	(10,725)	\$ 35.00

Total	657,740	8.2	\$ 56.81	467,855

eLoyalty has elected to disclose the pro forma effects of SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123") and, as permitted under SFAS 123, applies Accounting Principles Board Opinion No. 25 ("APB 25") and related interpretations in accounting for its plans.

Under APB 25, compensation costs for employee stock options are measured as the excess, if any, of the fair value of eLoyalty common stock at the date of grant over the option exercise price, providing all other requirements for fixed plan accounting are satisfied. Some option shares with exercise prices below fair value were issued by eLoyalty in 1999 and 2000, thus resulting in eLoyalty recording related compensation expense. During 2000, eLoyalty cancelled and reissued options for 11,200 shares at a lower exercise price. The cancellation and reissuance of these options was necessary to meet commitments made to newly hired employees. These replacement options are accounted for under variable plan accounting and the related compensation will be subject to adjustment in the future periods based on the fluctuation of the fair value of a share of eLoyalty's common stock. No compensation expense was

Edgar Filing: ELOYALTY CORP - Form 10-K405

recognized for these reissued options during 2001 based on the fair value of eLoyalty's common stock during 2001. Under APB No. 25, the fair value of restricted shares at the date of grant is amortized to expense ratably over the vesting period. eLoyalty recorded compensation expense related to awards of restricted stock and installment stock awards, including awards issued in exchange for stock options tendered, of approximately \$1,161 for the year ended December 29, 2001 and \$520 for the year ended December 30, 2000.

eLoyalty is required under SFAS 123 to disclose pro forma information regarding option grants made to its directors, officers and employees based on specified valuation techniques that produce estimated compensation charges. The fair value of eLoyalty options, including substitute options issued in connection with the spin-off, were estimated at grant date using the Black-Scholes option pricing model.

Page 42

ELOYALTY CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Dollars in thousands, except share data)

The weighted average grant date fair value and the assumptions used in the Black-Scholes model to calculate such fair values are shown below:

Weighted average shares outstanding (in thousands)	5,011	4,823	
Common stock equivalents (in thousands)	146	549	

Total weighted average shares and common stock equivalents	5,157	5,372	

(1) In December 2001, eLoyalty effected a one-for-ten reverse stock split. Share amounts presented for all prior periods reflect the effect of the

Edgar Filing: ELOYALTY CORP - Form 10-K405

- reverse split.
- (2) In December 1999, eLoyalty issued approximately 4.1 million shares (post-split) to TSC. For periods prior to February 15, 2000 the weighted average shares outstanding is based on these 4.1 million shares.

NOTE FIFTEEN--SEGMENT INFORMATION

We operate in one business segment focused exclusively on providing customer relationship management ("CRM") related consulting services. Beginning in 2001, as a result of organizational changes, we have two reportable geographic segments. Those segments are: North America and International. Our North American business includes our United States and Canadian operations. Our International business includes operations in Europe and Australia. The following table reflects revenues, operating results, and total assets by reportable segment for the years ended December 2001, 2000 and 1999.

	North America	International

Revenues		
2001	\$ 120,429	\$ 26,300
2000	\$ 208,222	\$ 28,276
1999	\$ 136,241	\$ 26,939
Operating income (loss)		
2001	\$ (64,658)	\$ (9,753)
2000	\$ 4,545	\$ (8,314)
1999	\$ 14,902	\$ (6,397)
Total assets		
2001	\$ 110,780	\$ 17,234
2000	\$ 153,835	\$ 30,783
1999	\$ 67,644	\$ 28,959

Page 44

ELOYALTY CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Dollars in thousands, except share data)

	United States	Other North America	Total North America	Germany	United Kingdom	Other Internati

Revenues						
2001	\$113,208	\$7,221	\$120,429	\$12,844	\$10,686	\$2,7
2000	\$198,478	\$9,744	\$208,222	\$10,339	\$10,703	\$7,2
1999	\$127,715	\$8,526	\$136,241	\$ 9,474	\$11,934	\$5,5

Total long-lived assets for our US operations are \$19,055, \$25,555, and

Edgar Filing: ELOYALTY CORP - Form 10-K405

\$13,223 for the years ended December 29, 2001, December 30, 2000 and December 31, 1999, respectively. At December 29, 2001, 99% of our revenues related to services.

NOTE SIXTEEN--LEASES

eLoyalty leases various office facilities under operating leases expiring at various dates through September 30, 2007. Additionally, eLoyalty leases various property and office equipment under operating leases expiring at various dates. Rental expense for all operating leases approximated \$8,111, \$6,659, and \$1,436 for the years ended December 29, 2001, December 30, 2000 and December 31, 1999, respectively.

Future minimum rental commitments under noncancelable operating leases with terms in excess of one year are as follows:

Year	Amount
2002	\$ 5,920
2003	4,560
2004	3,204
2005	1,910
2006	530
Thereafter	475
	\$ 16,599

Minimum payments have not been reduced by minimum sublease rentals of \$0.4 million, \$0.3 million, \$0.2 million and \$0.2 million due in the future for years 2002, 2003, 2004, and 2005, respectively, under noncancelable subleases. Of the future minimum rental commitments, the Company has accrued as part of the severance and related costs as discussed in Note Three, \$2.5 million, \$1.3 million, \$0.6 million, \$0.5 million and \$0.6 million for 2002, 2003, 2004, 2005, 2006 and thereafter, respectively.

NOTE SEVENTEEN--COMMITMENTS AND CONTINGENCIES

eLoyalty has made a commitment to invest up to \$14,700, through a related entity, in eLoyalty Ventures, L.L.C. ("eLoyalty Ventures"). eLoyalty Ventures is a \$30,000 venture capital fund formed in 2000 by eLoyalty, together with entities associated with Bain Capital, Sutter Hill and TCV, to focus on investing in early-stage CRM technology companies. eLoyalty has not been requested to contribute any of its eLoyalty Ventures commitment and so remains subject to capital calls against that commitment on 10 business days' prior written notice. While no formal action has been taken to suspend the fund's activities, eLoyalty believes none of the members of eLoyalty Ventures would recommend investment activity at this time. eLoyalty further believes that the fund's management is not actively

Edgar Filing: ELOYALTY CORP - Form 10-K405

(Dollars in thousands, except share data)

engaging in evaluation of investment opportunities. Accordingly, eLoyalty does not expect any expenditures relating to this fund in 2002.

eLoyalty, from time to time, has been subject to legal claims arising in connection with its business. While the results of these claims cannot be predicted with certainty, at December 29, 2001 there were no asserted claims against eLoyalty that, in the opinion of management, if adversely decided, would have a material effect on eLoyalty's financial position, results of operations, and cash flows.

NOTE EIGHTEEN--SUBSEQUENT EVENTS

In early 2002, management presented the Board of Directors with a proposed compensation program (the "Program") for eLoyalty's Vice Presidents, including those who previously held the title of Senior Vice President. As part of the Program, each Vice President was assigned to one of five tiers and total target cash compensation (base salary and target bonus) for all Vice Presidents within each tier was made uniform. Among the goals of the Program was to more closely align the interests of these senior level employees with those of the Company's stockholders. To this end, under the Program, a target equity ownership level in eLoyalty was set for each tier. The Program was approved by the Compensation Committee of the Board of Directors on February 25, 2002 and was ratified by the entire Board of Directors thereafter.

On February 28, 2002, each US Vice President received a grant of restricted eLoyalty Common Stock in an amount such that, when combined with previous equity grants to such Vice President, the aggregate equity granted to such Vice President approximately equaled the target equity ownership level for the tier to which such Vice President was assigned. The restrictions will lapse on such stock in 20 equal quarterly installments, beginning on May 31, 2002. Non-US Vice Presidents received an installment stock award that provides for the issuance, in the aggregate, of the same number of shares of eLoyalty Common Stock as would have been issued to them as restricted stock, had they been US employees, in 20 equal quarterly installments, beginning on May 31, 2002. Approximately 890,000 shares of eLoyalty Common Stock, in the aggregate, either were granted as restricted stock or reserved for issuance under installment stock grants in connection with the Program. Substantially all of this stock came from the 1999 Plan and such stock constituted substantially all of the stock then available for issuance under the 1999 Plan. This issuance will result in an aggregate of \$5,800 in non-cash compensation charges over the five year restriction lapsing and installment grant period.

At eLoyalty's 2002 Annual Meeting of Stockholders, to be held on May 16, 2002, the stockholders will be asked to approve a 500,000 share increase in the number of shares available for issuance under the 1999 Plan. This increase will permit equity grants to be made to eLoyalty's President and Chief Executive Officer, the size and form of which grant has not yet been determined, and members of its Board of Directors, currently anticipated to be in the form of options to purchase 50,000 shares of Common Stock per director, with a reserve for grants to any additional directors added to the Board.

eLoyalty also has elected to freeze its Employee Stock Purchase Plan immediately following the next quarterly purchase at the end of the first quarter 2002. See also Note Eleven.
