Item 1.01 Entry into a Material Definitive Agreement

As previously reported, the Compensation Committee (the Committee) of the Board of Directors of CSX Corporation (the Company) in 2004 adopted the 2004-2005 Long-Term Incentive Program (the 2004-2005 LTIP) under the CSX Omnibus Incentive Plan (the COIP).

On January 19, 2006, the Committee approved the payout under the 2004-2005 LTIP. The 2004-2005 LTIP utilized two-year cumulative modified free cash flow (MCF) as the primary performance target, defining MCF as operating income, plus depreciation, less capital expenditures. MCF for the 2004-2005 LTIP did not include cash flows from business unit sales, real estate sales, taxes, and working capital. MCF contemplated a specified level of capital expenditures that was met. The Committee excluded discretionary capital spending for new locomotives. The Committee also excluded recoverable costs associated with Hurricane Katrina in excess of the insurance deductible.

Awards to named executive officers were subject to an upward or downward adjustment of up to 20 percent based on the achievement of certain operating ratio targets, and to discretionary reduction by up to 30 percent based on the Committee s assessment of management s achievement of previously established strategic goals. The Committee exercised its discretion to reduce awards that otherwise would be payable to the named executive officers under the formula. The Committee determined that MCF performance attained over the two-year period resulted in a payout in excess of the target award but within the range reported in the Company s 2005 proxy statement.

Awards will be paid 50 percent in cash and 50 percent in shares of CSX common stock, with any cash payments that otherwise would exceed limits in the COIP to be paid in additional shares of CSX common stock.
