PORTFOLIO MANAGERS' REPORT

PERFORMANCE OF THE TRUST

The Trust declared \$0.45 of dividends during the fiscal year ended February 28, 2003. Based on the average month-end net asset value ("NAV") per share of \$6.90, this resulted in an annualized distribution rate of 6.4%(1) for the year. The Trust's total return (based on NAV) for the fiscal year was 0.4%, reflective of the difficult market conditions experienced during most of calendar 2002.

For the fiscal quarter ended February 28, 2003, the Trust's annualized distribution rate was 6.5%(1). The quarterly annualized distribution rate was down slightly from the previous fiscal quarter 6.9% due primarily to improvement in the average month-end NAV. During the fiscal quarter ended February 28, 2003, the Trust posted a 2.5% total market return, representing the second quarter of significant sequential improvement.

A steady rise in underlying values, coupled with a generally healthier investor sentiment towards floating rate senior loan funds since the beginning of the year, has also had a decidedly positive impact on the Trust's common shares. Total return based on market value (assuming full dividend reinvestment) was 11.3% for the three-month period ended February 28, 2003, versus -9.7% for the S&P 500 Index. For the full fiscal year, the Trust's common shares returned 2.5% (dividends reinvested), versus -22.7% for the S&P 500 Index.

The Trust's recent performance has been driven by a stronger overall tone to the loan market, made manifest by generally rising indicative loan prices. Several of the Trust's larger holdings benefited from credit-specific improvements. As an example, Nextel Communications ("Nextel"), the Trust's largest single position at period-end, accounting for approximately 4.1% of total assets, continues to exceed analysts' operational and financial expectations, thereby driving prices for the company's term loans to near-par levels. By way of its bellwether standing, Nextel's string of success has also had a tangible positive effect on prices across the cellular communications sector, historically one of the Trust's largest.

Moreover, indicative pricing for term loans issued by Charter Communications Operating LLC ("Charter"), the Trust's second largest individual holding (roughly 2.6% of total assets at period-end), also improved during the fiscal quarter. The average bid now lies several percentage points off a low reached during the fourth quarter of 2002, and continues to slowly edge upward. Consistently underpinned by stable valuation levels of cable television systems, recent interest in Charter's term loans appears to have been driven by a renewed investor confidence in the ability of cable television operators to both defend and grow their higher margin subscriber base.

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

Also contributing to fiscal fourth quarter results was, again, consistent performance across several of the Trust's other material sector concentrations (e.g., Healthcare, Containers & Packaging and Beverage & Food), offset to a degree by disappointing recoveries on a small number of existing non-performing loans, particularly the Trust's older, illiquid positions. We continue to dedicate significant time and resources in an effort to maximize recovery values in this area, typically under very difficult circumstances.

The Trust utilizes financial leverage to seek to increase the yield to the holders of common shares. As of February 28, 2003, the Trust had \$617 million of borrowings outstanding, consisting of \$450 million of "aaa/AAA" rated cumulative auction rate preferred shares, and \$167 million outstanding under \$540 million in available credit facilities. Total leverage, as a percentage of total assets (including preferred shares), was 39.9% at quarter end. The weighted average leverage cost including all borrowings and preferred shares as of quarter ended February 28, 2003 was 1.38%. While the use of leverage for investment purposes increases both investment opportunity and investment risk, we continue to deploy leverage only when it is in the best interest of the Trust's common shareholders.

2

OUTLOOK

In our view, the Trust, and the non-investment grade loan market at large, appears to be reasonably well positioned to meet the expected challenges of the coming months. Overall credit conditions continue to slowly improve, as evidenced by another quarter-over-quarter decline in the trailing loan default rate (by principal amount) for the industry to approximately 5.5%, after peaking at 7.4% in June of last year.⁽²⁾ Further, the supply of new transactions, an important barometer of market health, has been fairly generous. Institutional M&A-related loan volume closed out at \$6.2 billion during the first quarter of 2003, the highest level since the first quarter of 2000.⁽²⁾ Understandably, the forward calendar looks less robust at this point, effectively capped by uncertainty surrounding the outcome of military action in the Middle East.

Nonetheless, we maintain a cautious view of the economic outlook, both as it appears today and once hostilities in Iraq come to an end. Several indicators, not the least being a chronically anemic labor market, point to significantly slower growth than originally anticipated. Whether such weakness is a continuation of the unwinding of the excesses of the 1990s, or a by-product of caution on the part of companies and consumers alike, remains to be seen. If macro economic conditions were to deteriorate, it could further pressure a good portion of the non-investment grade issuer universe and increase the prospects for a further rate cut on the part of the Federal Reserve. An additional reduction in already historically low short-term interest rates could continue to depress returns, even if underlying loan values continue to rise. As stated in our prior report, we will remain in a relatively defensive posture while seeking to take advantage of selective buying opportunities.

We thank you for your investment in ING Prime Rate Trust.

PORTFOLIO MANAGERS' FOOTNOTES

1. The distribution rate is calculated by annualizing dividends declared during the quarter and dividing the resulting annualized dividend by the Trust's average month-end net asset value (in the case of NAV) or the average month-end NYSE Composite closing price (in the case of Market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.

STATISTICS AND PERFORMANCE FOOTNOTES

- (A) Yield is calculated by dividing the Trust's net investment income per share for the most recent thirty days by the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of market) at quarter-end. Yield calculations do not include any commissions or sales charges, and are compounded for six months and annualized for a twelve-month period to derive the Trust's yield consistent with the SEC standardized yield formula

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

for open-end investment companies.

- (B) The distribution rate is calculated by annualizing each monthly dividend, then averaging the annualized dividends declared for each month during the quarter and dividing the resulting average annualized dividend amount by the Trust's average net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) at the end of the period.
- (C) Calculation of total return assumes a hypothetical initial investment at the net asset value (in the case of NAV) or the NYSE Composite closing price (in the case of Market) on the last business day before the first day of the stated period, with all dividends and distributions reinvested at the actual reinvestment price.
- (D) On December 27, 1994, the Trust issued to its shareholders transferable rights which entitled the holders to subscribe for 17,958,766 shares of the Trust's common stock at the rate of one share of common stock for each four rights held. On January 27, 1995, the offering expired and was fully subscribed. The Trust issued 17,958,766 shares of its common stock to exercising rights holders at a subscription price of \$8.12. Offering costs of \$4,470,955 were charged against the offering proceeds.
- (E) On October 18, 1996, the Trust issued to its shareholders non-transferable rights which entitled the holders to subscribe for 18,122,963 shares of the Trust's common stock at the rate of one share of common stock for each five rights held. On November 12, 1996, the offering expired and was fully subscribed. The Trust issued 18,122,963 shares of its common stock to exercising rights holders at a subscription price of \$9.09. Offering costs of \$6,972,203 were charged against the offering proceeds.

ADDITIONAL NOTES AND INFORMATION

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program," formerly known as the Dividend Reinvestment and Cash Purchase Plan) which allows holders of the Trust's common shares a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers holders of the Trust's common shares the ability to make optional cash investments in any amount from \$100 to \$5,000 on a monthly basis. Amounts in excess of \$5,000 require prior approval of the Trust. DST Systems, Inc., the Trust's Transfer Agent, is the administrator for the Program.

For dividend reinvestment purposes, DST Systems, Inc. will purchase shares of the Trust on the open market when the market price plus estimated commissions is less than the net asset value on the valuation date. The Trust may issue new shares when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

For optional cash investments, shares will be purchased on the open market by the DST Systems, Inc. when the market price plus estimated commissions is less than the net asset value on the valuation date. New shares may be issued by the Trust when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a pro-rata basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or our Shareholder Services Department at (800) 992-0180.

REPORT OF INDEPENDENT AUDITORS

To the Shareholders and the Board of Trustees

ING Prime Rate Trust:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the ING Prime Rate Trust (the "Trust") as of February 28, 2003, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of investments owned as of February 28, 2003 by confirmation with the custodian and other appropriate auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the ING Prime Rate Trust as of February 28, 2003 and the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and financial highlights for each of the years in the five-year period then ended, in conformity with accounting principles generally accepted in the United States of America.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of February 28, 2003

NOTE 1 -- SIGNIFICANT ACCOUNTING POLICIES

ING Prime Rate Trust (the "Trust"), is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, investment management company. The Trust invests in senior loans which are exempt from registration under the Securities Act of 1933 as amended (the "33 Act"), but contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the Prime Rate of a U.S. bank specified in the

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

credit agreement, the London Inter-Bank Offered Rate ("LIBOR"), the certificate of deposit rate, or in some cases another base lending rate. The following is a summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. SENIOR LOAN AND OTHER SECURITY VALUATION. Loans are normally valued at the mean of the means of one or more bid and asked quotations obtained from a pricing service or other sources determined by the Board of Trustees to be independent and believed to be reliable. Loans for which reliable quotations are not available may be valued with reference to another loan or a group of loans for which quotations are more readily available and whose characteristics are comparable to the loan being valued. Under this approach, the comparable loan or loans serve as a proxy for changes in value. The Trust has engaged an independent pricing service to provide quotations from dealers in loans and to calculate values under the proxy procedure described above. As of February 28, 2003, 91.8% of total investments were valued based on these procedures. It is expected that most of the loans held by the Trust will be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

Prices from a pricing source may not be available for all loans and ING Investments, LLC (the "Investment Manager") may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Manager that the Investment Manager believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value as determined in good faith under procedures established by the Trust's Board of Trustees and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Manager and monitored by the Trust's Board of Trustees through its Valuation Committee. In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the loan, including price quotations for, and trading in, the loan and interests in similar loans; (v) the reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange or the NASDAQ National Market System are stated at the last reported sale price on the day of valuation. Debt and equity securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked price. Securities other than senior loans for which reliable quotations are not readily available and all other assets will be valued at their respective fair

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of February 28, 2003 (Continued)

values as determined in good faith by, or under procedures established by, the Board of Trustees of the Trust. Investments in securities maturing in less than 60 days from the date of acquisition are valued at amortized cost, which, when combined with accrued interest, approximates market value.

- B. FEDERAL INCOME TAXES. It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to "regulated investment companies" and to distribute all of its taxable income to its shareholders. Therefore, no provision for Federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income and net realized capital gains (if any), the Trust intends not to be subject to any federal excise tax.
- C. SECURITY TRANSACTIONS AND REVENUE RECOGNITION. Loans are booked on a settlement date basis and security transactions are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities delivered. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. Upon such discontinuance, all unpaid accrued interest is reversed. Cash collections on nonaccrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are returned to accrual status only after all past due amounts have been received and the borrower has demonstrated sustained performance. For all loans acquired prior to March 1, 2001, arrangement fees, which represent non-refundable fees associated with the acquisition of loans, are deferred and recognized over the shorter of 2.5 years or the actual terms of the loan. For all loans, except revolving credit facilities, acquired subsequent to February 28, 2001, arrangement fees are treated as discounts and accreted as described in Note 1.H. Arrangement fees associated with revolving credit facilities acquired subsequent to February 28, 2001 are deferred and recognized over the shorter of 4 years or the actual term of the loan.
- D. DISTRIBUTIONS TO COMMON SHAREHOLDERS. The Trust records distributions to its shareholders on the ex-dividend date. Distributions from income are declared by the Trust on a monthly basis. Distributions from capital gains, if any, are declared on an annual basis.
- E. DIVIDEND REINVESTMENTS. Pursuant to the Shareholder Investment Program (formerly known as the Automatic Dividend Reinvestment Plan), DST Systems, Inc., the Plan Agent, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased only when the closing sale or bid price plus commission is less than the net asset value per share of the stock on the valuation date. If the market price plus commissions is equal to or exceeds the net asset value, new shares are issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.
- F. USE OF ESTIMATES. Management of the Trust has made certain estimates and assumptions relating to the reporting of assets, liabilities, revenues,

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

expenses and contingencies to prepare these financial statements in conformity with generally accepted accounting principles in the United States of America. Actual results could differ from these estimates.

- G. SHARE OFFERINGS. During the year ended February 28, 1999, the Trust began issuing shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.

17

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of February 28, 2003 (Continued)

- H. CHANGE IN ACCOUNTING PRINCIPLE. In November 2000 the American Institute of Certified Public Accountants (the "AICPA") issued a revised version of the AICPA Audit and Accounting Guide for Investment Companies (the "Guide"). Effective March 1, 2001, the Fund adopted the provisions of the Guide and began amortizing premiums and accreting discounts on debt securities. Prior to March 1, 2001, the Trust had not amortized premiums nor accreted discounts. The cumulative effect of this accounting change had no impact on net assets of the Trust, but resulted in a \$3,653,000 increase in the cost of securities and a corresponding \$3,653,000 increase in net unrealized depreciation of investments, based on securities held by the Trust on March 1, 2001.
- I. RECLASSIFICATION. Under EITF Topic D-98, CLASSIFICATION AND MEASUREMENT OF REDEEMABLE SECURITIES, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. Subject to the guidance of the EITF, the Trust's preferred stock, which was previously classified as a component of net assets, has been reclassified outside of permanent equity (net assets) in the accompanying financial statements. Prior year amounts have also been reclassified to conform with this presentation. The impact of this reclassification creates no change to the net assets available to common shareholders.

NOTE 2 -- INVESTMENTS

For the year ended February 28, 2003, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$764,209,674 and \$880,505,551, respectively. At February 28, 2003, the Trust held senior loans valued at \$1,476,322,899 representing 96.1% of its total investments. The market value of these assets is established as set forth in Note 1.

The senior loans acquired by the Trust may take the form of a direct lending relationship with the borrower, an assignment of a lender's interest in a loan, or a participation interest in a lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors collateral. In the event that the lead lender becomes insolvent, enters FDIC receivership or, if not FDIC insured, enters into bankruptcy, the Trust may incur certain costs and delays in realizing payment, or may suffer a loss of principal and/or interest. Additionally, certain situations may arise where the Trust acquires a participation in a lender's interest in a loan and the Trust does not have privity with or direct recourse against the borrower. Accordingly, the Trust may

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

incur additional credit risk as a participant because it must assume the risk of insolvency or bankruptcy of the lender from which the participation was acquired.

Common and preferred shares, and stock purchase warrants held in the portfolio were acquired in conjunction with senior loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly sold without registration under the '33 Act, or without an exemption under the '33 Act. In some cases, these restrictions expire after a designated period of time after issuance of the shares or warrant.

The Fund values portfolio securities by using the market value of the securities when market quotations for the securities are readily available. When market quotations are not readily available, the Fund determines, in good faith, the fair value of the securities in accordance with the Trust's fair valuation procedures as established by the Board of Trustees. NOTE 3 -- MANAGEMENT AND ADMINISTRATION AGREEMENTS

The Trust has entered into an Investment Management Agreement with the Investment Manager, a wholly-owned subsidiary of ING Funds Services, LLC (the "Administrator"), to provide advisory and management services. The Investment Management Agreement compensates the Investment Manager with a fee, computed daily and payable monthly, at an annual rate of 0.80% of the Trust's average daily net assets (inclusive of preferred stock) plus borrowings ("Managed Assets").

The Trust has also entered into an Administration Agreement with the Administrator to provide administrative services and also to furnish facilities. The Administrator is compensated with a fee, computed daily and payable monthly, at an annual rate of 0.25% of the Trust's average daily Managed Assets.

At February 28, 2003, the Trust had the following amounts recorded in payable to affiliates on the accompanying Statement of Assets and Liabilities:

ACCRUED INVESTMENT MANAGEMENT FEES	ACCRUED ADMINISTRATIVE FEES	TOTAL
-----	-----	-----
\$ 939,138	\$ 293,429	\$1,232,567

The Trust has adopted a Retirement Policy covering all independent trustees of the Trust who will have served as a independent trustee for at least five years at the time of retirement. Benefits under this plan are based on an annual rate as defined in the plan agreement, as amended May 24, 2002.

NOTE 4 -- COMMITMENTS

The Trust has entered into both a \$90 million 364-day revolving credit agreement which matures on August 27, 2003 and a \$450 million five-year revolving credit

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

agreement which matures on July 15, 2003, collateralized by assets of the Trust. Borrowing rates under these agreements are based on a fixed spread over LIBOR, the federal funds rate, or a commercial paper-based rate. Prepaid arrangement fees for any unborrowed amounts are amortized over the term of the agreements. The amount of borrowings outstanding at February 28, 2003, was \$167 million, at a weighted average interest rate of 1.8%. The amount of borrowings represented 10.8% of total assets at February 28, 2003. Average borrowings for the year ended February 28, 2003 were \$190,671,233 and the average annualized interest rate was 2.4%.

As of February 28, 2003, the Trust had unfunded loan commitments pursuant to the terms of the following loan agreements:

Airgate PCS, Inc.	\$ 644,951

3/04/99	5,000,000	3,241,645

On November 2, 2000, the Trust issued 3,600 shares each of Series M, Series W

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

and Series F Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000 liquidation preference, for a total issuance of \$270 million. Also, on November 16, 2000, the Trust issued 3,600 shares of Series T and Series Th Auction Rate Cumulative Preferred Shares, \$.01 Par Value, \$25,000, liquidation preference, for a total issuance of \$180 million. Costs associated with the offering of approximately \$5,438,664 were charged against the proceeds received. The Trust used the net proceeds of the offering to partially pay down the then existing indebtedness. The Trust may reborrow amounts in the future to increase its use of leverage which will be consistent with the limitations imposed by the 1940 Act. Preferred Shares pay dividends based on a rate set at auctions, normally held every 7 days. In most instances dividends are also payable every 7 days, on the first business day following the end of the rate period.

NOTE 6 -- CUSTODIAL AGREEMENT

State Street Bank and Trust Company ("SSB") serves as the Trust's custodian and recordkeeper. Custody fees paid to SSB are reduced by earnings credits based on the cash balances held by SSB for the Trust. There were no earnings credits for the year ended February 28, 2003.

NOTE 7 -- SUBORDINATED LOANS AND UNSECURED LOANS

The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition, it acquires or holds a Senior Loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Manager believes, at the time of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. The Trust may invest up to 5% of its total assets, measured at the time of investment, in subordinated loans and unsecured loans. As of February 28, 2003, the Trust held 3.6% of its total assets in subordinated loans and unsecured loans.

NOTE 8 -- FEDERAL INCOME TAXES

Dividends paid by the Trust from net investment income and distributions of net realized short-term capital gains (if any) are, for federal income tax purposes, taxable as ordinary income to shareholders. The tax composition of dividends and distributions to common shareholders for years ended February 28, 2003 and 2002 were as follows:

	ORDINARY INCOME	LONG-TERM CAPITAL GAINS	TAX RETURN OF CAPITAL
	-----	-----	-----
2003	\$61,643,423	\$ --	\$ --
2002	\$85,728,945	\$ --	\$ --

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of February 28, 2003 (Continued)

The amount of distributions from net investments income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. Key differences are the treatment of short-term capital gains, amortization of discounts and other temporary differences. To the extent that these differences are permanent in nature, such amounts are reclassified within the capital

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

accounts based on their federal tax-basis treatment; temporary differences do not require reclassifications. To the extent distributions exceed net investment income and/or net realized capital gains for tax purposes, they are reported as distributions of paid-in capital.

Accordingly, the following amounts represent current year permanent tax differences that have been reclassified as of February 28, 2003:

UNDISTRIBUTED NET INVESTMENT INCOME -----	ACCUMULATED NET REALIZED GAINS ON INVESTMENTS -----
\$ 2,580,000	\$ (2,580,000)

AMOUNT -----	EXPIRATION DATES -----
\$209,579,956	2004-2011

The following represents the tax-basis components of distributable earnings as of February 28, 2003:

APPROVAL OF CHANGES IN INVESTMENT POLICIES

At a Special Meeting of Trust Shareholders, held August 6, 1998, Shareholders approved changes in the Trust's fundamental investment policies which make available certain additional investment opportunities to the Trust, including (i) investing in loans in any form of business entity, as long as the loans otherwise meet the Trust's requirements regarding the quality of loans in which it may invest; (ii) the treatment of lease participations as Senior Loans which would constitute part of the 80% of the Trust's assets normally invested in

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

Senior Loans; (iii) investing in all types of hybrid loans that meet credit standards established by the Investment Manager constituting part of the 20% of the Trust's assets that may be invested in Other Investments; and (iv) the ability to invest up to 5% of its total assets in both subordinated loans and unsecured loans which would constitute part of the 20% of the Trust's assets that may be invested in Other Investments.

Additionally, another policy change approved by the Board of Trustees of the Trust, which does not require shareholder approval, permits the Trust to accept guarantees and expanded forms of intangible assets as collateral, including copyrights, patent rights, franchise value, and trademarks. Another policy change approved by the Board, that does not require shareholder approval, provides that 80% of the Trust's managed assets, as opposed to 80% of its net assets, may normally be invested in Senior Loans.

The Trust's Manager considered the evolving nature of the syndicated loan market and the potential benefits to the Trust and its shareholders of revising the restriction to permit the Trust to invest in loans other than Senior Loans and the increase in the number of attractive investment opportunities available to the Trust due to the change.

REPURCHASE OF SECURITIES BY CLOSED-END COMPANIES

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Trust may from time to time purchase shares of beneficial interest of the Trust in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program") which enables investors to conveniently add to their holdings at reduced costs. Should you desire further information concerning this Program, please contact the Shareholder Servicing Agent at (800) 992-0180.

NUMBER OF SHAREHOLDERS

The approximate number of record holders of Common Stock as of March 31, 2003 was 8,100, which does not include approximately 48,100 beneficial owners of shares held in the name of brokers of other nominees.
