**Item 2.06. Material Impairments.**

On November 3, 2005, management of U-Store-It Trust (the Company ) concluded that, as a result of the damage caused by Hurricane Katrina, a charge for impairment with respect to the Company s Waveland, Mississippi self storage facility is required under generally accepted accounting principles ( GAAP ). After an assessment of the damage sustained at this facility, management determined that a charge for impairment was required because estimated future cash flows did not support the carrying value. As a result, the Company will record an impairment charge of approximately \$2.3 million in the third quarter of 2005. Although the Company believes it is probable that the insurance proceeds will cover the entire loss incurred, under GAAP the Company is required to record an impairment charge of approximately \$2.3 million, and to record an offsetting insurance recovery of \$2.3 million. As a result of the offsetting insurance recovery, the impairment charge will have no impact on the Company s net income for the third quarter of 2005. In addition, although the Company anticipates incurring future costs in connection with rebuilding this facility, such costs are expected to be covered by insurance. While the Company expects the insurance proceeds will be sufficient to cover the entire replacement cost of the damaged facility, certain deductibles and limitations will apply. No determination has been made as to the total amount or timing of those insurance proceeds, and those insurance proceeds may not be sufficient to cover the costs of the entire restoration. To the extent that insurance proceeds, which are on a replacement cost basis, ultimately exceed the net book value of the damaged facility, a gain will be recorded in the period when all contingencies related to the insurance claim have been resolved.
