Edgar Filing: INNOFONE COM INC - Form SB-2

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, as amended, check the following box: x

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. o

If delivery of the prospectus is expected to be made pursuant to Rule 434, check the following box. o

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to Be Registered(1)	Proposed Maximum Offering Price Per Share (1)(2)	Proposed Maximum Aggregate Offering Price (2)	Amount of Registration Fee
Common Stock, \$0.001 par value, issuable upon conversion of Series A Convertible Preferred Stock	48,150,000(3) \$	1.12 \$	53,928,000 \$	5,770.30
Common Stock, \$0.001 par value	4,300,000(4) \$	1.12 \$	4,816,000 \$	515.31
		Previously Paid*		\$ 1,540.16
		Total Fee		\$ 4,745.45*

* Amount was previously paid to the SEC on March 29, 2006.

(1) The shares of our Common Stock being registered hereunder are being registered for resale by the selling stockholder named in the prospectus. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions.

(2) Estimated solely for the purpose of computing the amount of the registration fee pursuant to Rule 457(c) under the Securities Act of 1933, based on the closing price of \$1.12 on the OTC Bulletin Board on July 11, 2006.

(3) Represents shares of our Common Stock issuable upon the conversion of our Series A Convertible Preferred Stock. In accordance with Rule 416(a), the registrant is also registering hereunder an indeterminate number of shares that may be issued and resold to prevent dilution resulting from stock splits, stock dividends or similar transactions. In addition, should a decrease in the exercise price as a result of an issuance or sale of shares below the then current market price result in our having insufficient shares, we will not rely upon Rule 416, but will file a new registration statement to cover the resale of such additional shares should that become necessary.

(4) Represents (i) 3,600,000 shares of common stock issued to Mr. Alex Lightman, our Chief Executive Officer, President and a Director; (ii) 200,000 shares of common stock issued to Mr. Gerard Casale, our General Counsel and Vice President of Business and Legal Affairs; and (iii) 500,000 shares of common stock issued to Mr. Lawrence Hughes.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. The selling securityholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, July __, 2006

PROSPECTUS

52,450,000 SHARES

INNOFONE.COM, INCORPORATED
COMMON STOCK

This prospectus relates to the resale of up to 52,450,000 shares of our Common Stock, par value \$0.001 per share ("Common Stock"), consisting of (i) 48,150,000 shares issuable upon conversion of our Series A Convertible Preferred Stock, \$0.01 par value per share, issued to Cogent Capital Financial, LLC ("Cogent"); (ii) 3,600,000 shares issued to Mr. Alex Lightman, our Chief Executive Officer and a Director ("Lightman"); (iii) 200,000 shares issued to Mr. Gerard Casale, our General Counsel, Vice President of Business and Legal Affairs ("Casale"); and (iii) 500,000 shares issued to Mr. Lawrence Hughes ("Hughes") (Hughes, with Cogent, Lightman, Casale and Hughes, collectively the "selling securityholders"). The Selling Securityholders may sell their common stock from time to time at prevailing market prices.

Our Common Stock is registered under Section 12(g) of the Securities Exchange Act of 1934, as amended, and is quoted on the over-the-counter market and prices are reported on the OTC Bulletin Board under the symbol "INFN." On July 11, 2006, the closing price as reported was \$1.12 per share. Since our Common Stock trades below \$5.00 per share, it is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations on the manner in which it can be publicly traded.

The selling securityholders, and any participating broker-dealers may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, as amended, and any commissions or discounts given to any such broker-dealer may be regarded as underwriting commissions or discounts under the Securities Act of 1933. The selling securityholders have informed us that they do not have any agreement or understanding, directly or indirectly, with any person to distribute their common stock. We agreed to pay the expenses of registering the foregoing shares of our Common Stock.

INVESTMENT IN THE COMMON STOCK OFFERED BY THIS PROSPECTUS INVOLVES A HIGH DEGREE OF RISK. YOU MAY LOSE YOUR ENTIRE INVESTMENT. CONSIDER CAREFULLY THE "RISK FACTORS" BEGINNING ON PAGE 7 OF THIS PROSPECTUS BEFORE INVESTING.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is July __, 2006

You should rely only on the information contained in or incorporated by reference in this prospectus. We have not, and the selling securityholders have not, authorized anyone, including any salesperson or broker, to give oral or written information about this offering, Innohone.com, Incorporated, or the shares of common stock offered hereby that is different from the information included in this prospectus. If anyone provides you with different information, you should not rely on it. We are not, and the selling securityholders are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained in this prospectus is accurate only as of the date on the front cover of this prospectus. Our business, financial condition, results of operations and prospects may have changed since that date.

This prospectus is not an offer to sell any securities other than the shares of common stock offered hereby. This prospectus is not an offer to sell securities in any circumstances in which such an offer is unlawful.

PROSPECTUS SUMMARY

This summary highlights some information from this prospectus, and may not contain all of the information that is important to you. You should read the entire prospectus carefully, including the more detailed information regarding our company, the risks of purchasing our common stock discussed under "risk factors," and our financial statements and the accompanying notes. In this prospectus, "we", "us," "Company" and "our", refer to Innofone.com, Incorporated, unless the context otherwise requires. Unless otherwise indicated, the term "year," "fiscal year" or "fiscal" refers to our fiscal year ending June 30th. Unless we tell you otherwise, the term "common stock" as used in this prospectus refers to our Common Stock.

History

On August 8, 2005, Innofone.com, Incorporated ("Innofone," "we," "us" and "our") entered into a stock purchase agreement with Mr. Alex Lightman, our President and Chief Executive Officer, to purchase 100% of the issued and outstanding shares of IPv6 Summit Inc. ("IPv6 Summit"), an entity engaged in developing new technology referred to as Internet Protocol version 6. At the time of the Agreement, Mr. Lightman was the President, Treasurer, Director and sole shareholder of IPv6 Summit and was not an officer or director of Innofone. Pursuant to the agreement, on October 12, 2005 we issued to Mr. Lightman a promissory note in the principal amount of \$1,000,000 with interest at the rate of four percent (4%) per annum. On October 17, 2005, we amended and restated Mr. Lightman's promissory note to provide for a repayment schedule which will coincide with our receipt of funds under our current financing arrangement with four investors. Further, we issued to Mr. Lightman approximately 33,333,000 shares of our restricted common stock. As a result of the stock purchase agreement, IPv6 Summit became our wholly owned subsidiary Innofone. Prior to this acquisition, we operated as a holding company for companies involved in technology and financial services.

Overview

The Internet as we know it today is based on Internet Protocol version 4, more commonly referred to as IPv4, a 32-year-old protocol. The IPv4 Internet is beginning to receive a major upgrade, with a new format for packets of data called Internet Protocol version 6, or IPv6. We believe that IPv6, sometimes called the New Internet, presents many new business opportunities, in roughly the same manner that the existing Internet did when it first hit the mainstream in the mid-1990s.

We offer three related services that are relevant to IPv6: consulting, training and conference management; we are in the process of developing a fourth service, testing. Our consulting and training is for businesses seeking consulting and training services largely related to the creation of corporate business plans defining the migration or transition from the current IPv4 environment to a future IPv6 Internet environment. Conferences are those events we host through our IPv6 Summit, Inc. subsidiary which typically occur one per calendar quarter and have typically 400-500 attendees mainly from corporations seeking to gain current information on IPv6 and network with others regarding the business of the Internet. Testing will be a service we hope to provide by year end 2006 in conjunction with Spirent Federal and will involve the testing and certification of electronic equipment and appliances which will be capable of being deployed in the IPv6 environment. We believe that we have deep expertise in these areas and hope to further expand these services. We are also in the early stages of a developing IPv6-related technology and have hired a Director of Product Development to assist in developing a strategy plan on developing our own IPv6 products in the future. These products might include secure email systems, wireless networks, mobile virtual networks and payment systems all using IPv6 and other technologies. We envision our IPv6 technology will be utilized in connection with our consulting, training and conference management services. We currently derive 80% of our revenue from our conference management services and 20% of our revenues from our consulting services. We anticipate generating additional revenues from our consulting in 2006. Our training services to date have not generated any revenues.

However, we have incurred losses since inception and our common stock is subject to certain rules and regulations pertaining to "penny stocks". We incurred net losses in fiscal 2005 of \$681,000. In addition, we expect to increase our infrastructure and operating expenses to fund our anticipated growth. We have a history of net loss and our net loss totaling \$6,797,163 and \$8,788,592 for the three and nine months ended March 31, 2006, increased by \$6,798,948 and \$8,784,625 compared to the same periods of the prior year. Further, we have an accumulated deficit of \$14,874,834 for the year ended June 30, 2005.

We began our conference services from our date of incorporation, July 2003 after our Chief Executive Officer and a former employee successfully organized the first IPv6 Summit in the United States that attracted over 300 people. Revenue comes from charging individuals and corporations an admission fee of approximately \$200 to \$500 per person for each event and from charging corporations from \$4,000 to \$18,000 each for sponsorship that include an exhibit booth. There are slight variations to these charges depending on how many benefits are included.

We began offering our training services with the US IPv6 Summit in December 2003 with a tutorial that preceded the three-day IPv6 Summit by adding a day of activity for people who needed initial training, and who wanted to know more about security than could be described in the Summit format. We added a separate training event, the Federal Chief Information Officer workshop, in October 2005. We anticipate that revenues from training services will come from admission fees to the events and are in the hundreds of dollars per person.

We began offering our consulting services in August 2005 with the sales of consulting agreements by our Chief Executive Officer domestically to the US Department of Defense IPv6 Transition Office, as a subcontractor to SI International, and Juniper Networks and internationally to North Atlantic Treaty Organization. Revenues from consulting are based on man-days and/or negotiated fees typically in the tens of thousands of dollars per engagement, with engagements in discussion in the hundreds of thousands of dollars.

We are in the early phases of developing our testing services. No revenues have been received, though we have received interest from a large public company to provide free test equipment. Testing revenues will not be generated until our test center is built and the first customers contracted. Revenues will come from a fixed price schedule with payments in the thousands to tens of thousands of dollars per product or service tested in our lab.

Transition to IPv6

Simply put, one of the limitations of today's Internet is a shortage of addresses, so that the hardware or software equivalents of "middle men" are put into the system to let many people use one address, not unlike the old telephone party lines, where many people had the same "number," and everyone could listen in. The party line system had the advantage that a lot of people could be connected with few switched lines, but led to problems, such as lack of security. There was no way to assure that one person would be speaking with only one person at the other end. When every phone user got his/her own address, it led to many great new capabilities - such as privacy, the ability to deliver new services such as telefax messages to a particular person, and the ability to go mobile with cell phones, and caller ID, which enabled people to screen their calls, accepting only those they wanted to at that moment.

Similarly, the IPv6 will give everyone his or her personal address (or thousands of them, as needed), which enables the potential for "end-to-end" connectivity. Each individual can know for certain who the specific receiver at the other end is, and this allows the system to check for service quality, and allows much easier mobile use and roaming. Furthermore, this connectivity facilitates multiple layers of individual security measures rather than today's firewalls or network address translation, which offer little protection once a hacker has broken through the protective wall. The difference between the New Internet and the existing one is thought by some to be as dramatic as the difference between the phones with individual numbers that we have today and the phones with party lines of yesteryear.

The first major customers for the New Internet in the US were the Department of Defense, which in June 2003 mandated a transition within the Department that would make it “IPv6-capable” by 2008, and the Office of Management and Budget, on behalf of the Federal Government, which recently also mandated transition to IPv6, and the hundreds of large companies that supply these two entities. Many, but not all, major technology companies have appointed IPv6 points of contact and developed IPv6-related marketing messages, including Microsoft, Cisco, Juniper, Nokia, Hewlett-Packard and about fifty others in the US.

In 2005, as in 1995, we believe that the IPv6 space was occupied by first movers that both take advantage of the opportunities offered by the new technology and have a sound business plan to offer needed products and services to the United States and global markets. It is forecast that IPv6 will see some of the same rapid rise as the existing Internet did between 1995 and 2000, quickly growing from millions to billions, and potentially trillions of dollars in global revenues impacted by the Internet. The Japanese government, for instance, which has done a great deal of research into the upcoming IPv6 market, estimates the market size of IPv6-ready goods/services in the year 2010 to be 170 trillion yen, or about \$1.55 trillion in US currency.

We are facilitating this transition by offering our conference management, consulting and training services to government entities and corporations. Specifically, we offer a full range of services to help government organizations and Fortune 1000 companies conduct the transition. Further, we intend to develop products to enable the transition (including servers, routers, software and other network infrastructure, estimated at hundreds of billions of dollars over the next decade.

We will offer and manage our consulting, training and conference management services from two corporate offices: our corporate headquarters in Santa Monica, California, and our Eastern Office in Northern Virginia.

Recent Developments

On July 10, 2006, Innofone.com, Incorporated (the “Company” or “Innofone”) issued a promissory note to 55 South Investments in the face amount of \$500,000, with interest at 12% per annum. The Maturity Date shall be the earlier of: (a) one (1) year from the commencement of that certain equity swap transaction (“Swap”) whereby 30 days have expired thereafter the date in which the Company is granted effectiveness by the Securities and Exchange Commission on a registration statement filed pursuant to certain agreements made in connection with an equity swap made by and between the Company and Cogent Capital Group, LLC and its affiliates as of June 2, 2006 (defined herein as the “Swap Start Date”); or (b) December 1, 2007, whichever is earlier. Repayment of the Principal by Innofone to the Holder shall commence within ten (10) days of the Swap Start Date and shall continue thereafter in equal pro rata monthly installments on the same date of each subsequent month thereafter for the successive eleven (11) months thereafter the Swap Start Date and continue until all principal payments are paid in full. The Principal shall be repaid in full no later than the Maturity Date. Should the Swap Start Date not occur prior to the Maturity Date, then the entirety of Principal shall be due and payable to Holder on the Maturity Date. Further Innofone may, at its option, prepay all amounts owing under this Note prior to the Maturity Date, in whole or in part, without payment of any premium or penalty, after giving written notice thereof to the Holder at least one (1) day prior to the date selected for prepayment. In connection with the issuance of the note, we issued (i) a five-year warrant to 55 South Investments for the right to purchase up to 2,000,000 shares of common stock at \$1.00 per share; and (ii) a five year warrant to Millennium Investment Services, Inc., an affiliate of 55 South, for the right to purchase 500,000 shares of common stock at \$1.00 per share. We have granted certain piggyback registration rights with respect only to the shares underlying the warrant issued to 55 South. The note is secured with approximately \$2,000,000 worth of our restricted common stock and \$2,000,000 worth of restricted common stock owned by Mr. Lightman, our Chief Executive Officer and President. On July 14, 2006, we issued an additional promissory note for \$500,000 on the same terms. In connection with the issuance of the note, we issued 55 South Investments a five year warrant to purchase up to \$2,000,000 shares of common stock at an exercise price of \$1.00 per share. The Company has the right to redeem

1,400,000 of such warrants for \$250,000 until July 13, 2007 except for the right to redeem a portion of the warrants, the deal is on the same terms as the July 10th transaction. We have granted certain demand registration rights with respect to all shares issued as security under the notes. Further, we have agreed to pay to 55 South approximately \$40,000 representing an origination fee and a due diligence fee.

On May 25, 2006, we entered into a Letter Agreement (“Agreement”) with the NIR Group for the repayment (the “Repayment”) of certain notes (“Notes”) and cancellation of certain warrants (“Warrants”) issued on or about August 31, 2005 and October 31, 2005 pursuant to that certain Securities Purchase Agreement (the “SPA”) by and between Innofone and AJW Partners, LLC (“Partners”), New Millennium Capital Partners, II, LLC (“Millennium”), AJW Offshore, Ltd. (“Offshore”) and AJW Qualified Partners, LLC (“Qualified, with Partners, Millennium and Offshore, collectively, the “NIR Group”). The Repayment was applied to the outstanding principal and interest owing under the Notes and as consideration for the cancellation of the Warrants issued to the NIR Group, and the termination of any and all UCC-1s filed in favor of NIR. Further, in connection with the SPA, Notes and Warrants, the following ancillary documents were executed and/or filed: (1) Guaranty and Pledge Agreement, dated August 31, 2005, by and between Innofone, Mr. Alex Lightman, Innofone’s President and Chief Executive Officer, and NIR (“Pledge Agreement”); (2) Security Agreement by and between Innofone and NIR, dated August 31, 2005 (“Security Agreement”); and (3) UCC-1 Financing Statements (“UCC-1s”) filed by NIR in Nevada (the Notes, SPA, Warrants, Pledge Agreement and Security Agreement are referred to collectively as “Original Documents”).

In connection with the Repayment, Innofone and NIR executed and delivered the Agreement, a new promissory note (the “New Notes”), a new stock purchase warrant (the “New Warrants”), and a new registration rights agreement (“New Registration Agreement”) (the Agreement, New Notes, New Warrants and New Registration Agreement and the UCC-3s shall be referred to collectively as the “New Documents”, each of which is filed herewith as an Exhibit). Further, NIR is required to file UCC-3 Termination Statements (“UCC-3s”) necessary to terminate any perfected security interest they had obtained pursuant to the Security Agreement.

The terms of the Repayment, as provided in the Agreement are as follows: (a) upon signing of Agreement, Innofone made a cash Payment to NIR in the amount of \$2,635,400 to be applied to the repayment of all amounts of principal and interest owing and outstanding under the Notes; (b) upon signing of the Agreement, Innofone issued to NIR the New Notes in the aggregate amount of \$1,200,000. The New Notes are self-amortizing over a one-year time period commencing on July 1, 2006, with each installment payment due on the twelve consecutive monthly anniversaries beginning July 1, 2006. Further, pursuant to the New Notes, Innofone will pay to NIR an aggregate of \$100,000 per month. The New Notes may be prepaid by Innofone at anytime without penalty; (c) upon signing of the Agreement, Innofone shall issued to NIR the New Warrants exercisable into an aggregate of 750,000 shares of Innofone’s Common Stock (the “Warrant Shares”). The New Warrants shall have a term of five years and an exercise price equal to \$1.79. The New Warrants may be exercised on a cashless basis only in the event that there is no effective registration statement covering the Warrant Shares. NIR may exercise the New Warrants by utilizing any amounts still owing under the New Notes. Innofone may buy back all of the New Warrants from NIR for an aggregate of \$100,000 at any time prior to the New Warrants being exercised; (d) upon signing of the Agreement, Innofone and NIR executed and delivered the New Registration Agreement providing for the registration of the Warrant Shares with the Securities and Exchange Commission. The New Registration Agreement provides for one piggyback registration right no sooner than six months from the date of hereof; (e) NIR agrees not to sell Innofone's Common Stock short, either directly or indirectly through its affiliates, principals or advisors; (f) the Original Documents were terminated in all respects, and were rendered null and void and no longer binding NIR or Innofone to any obligations, duties and responsibilities contained therein. Further, NIR and Innofone mutually agree that the New Documents shall supersede the Original Documents in all respects; (g) Innofone filed a Form AW to withdraw the Registration Statement on Form SB-2 currently on file with the Securities and Exchange Commission covering the shares of common stock underlying the Notes and the Warrants; (h) All security interests perfected by NIR on the “Collateral” (as defined in the Security Agreement), pursuant to the Original Documents, including the Security Agreement, shall be terminated. Accordingly, NIR agreed to file within (2) days of the Agreement, UCC-3 Termination Statement.

On April 27, 2006, Innofone entered into a term sheet with Mr. Lawrence Hughes providing for an investment by Mr. Hughes in the aggregate amount of \$4,000,000 in exchange for approximately 3,478,260 shares of Innofone's restricted common stock at \$1.15 per share. We have agreed to register 500,000 shares of common stock, which are included in this prospectus. Further, pursuant to the term sheet, Innofone is to issue a warrant to purchase 400,000 shares of Innofone's restricted common stock at an exercise price equal to eighty percent (80%) of the five (5) day trading average close price of Innofone's common stock. Definitive agreements between Innofone and Mr. Hughes are intended to be executed as soon as possible.

On October 18, 2005, we completed the relocation of our corporate headquarters to 1431 Ocean Avenue, Suite 1100, Santa Monica, California 90401 from 3470 Olney-Laytonsville, Road, Suite 118, Olney, Maryland 20832.

On March 20, 2006, we entered into a transaction with Digital Presence, Inc., a recently formed Delaware corporation, whereby we agreed to purchase up to 66.67% of the total issued and outstanding common stock shares of Digital Presence, Inc. in return for cash investment of a total of \$300,000 made in three (3) installment payments commencing on execution and ending on or about June 15, 2006. Digital Presence, Inc. is an entity which was formed for the purpose of creating a scalable and addressable IPv6 identity registry for application in various industries and government. Digital Presence, Inc. will be managed by employees other than those of Innofone but Innofone has the ability to elect one (1) member of the Board of Directors of Digital Presence, Inc. and maintains other rights, preferences and privileges through the subject investment. We have paid \$175,000 of the \$300,000 and intend to pay the balance prior to August 31, 2006.

In May 2006, Innofone announced that they were entering into an agreement to acquire Mobile Technology Group, LLC, a provider of mobile messaging and transactions. The acquisition has not yet been consummated.

Our headquarters are located at 1431 Ocean Ave., Suite 1100, Santa Monica, CA 90401 and our telephone number at that address is (310) 458-3233. We maintain five web sites at www.usipv6.com , www.coalitionsummit.com , www.innofone.net , www.v6tranistion.com and www.v6training.com . COGENT TRANSACTION SUMMARY

As more fully described in this prospectus, on June 2, 2006, we entered into an equity swap arrangement ("Swap Transaction") with Cogent Capital Investments LLC and Cogent Capital Financial LLC (collectively, "Cogent") pursuant to which Innofone issued (i) 1,850,000 shares of common stock ("Common Stock"); and (ii) 4,815,000 shares of Innofone's Series A Convertible Preferred Stock ("Preferred Stock") for an aggregate purchase price of \$50,000,000 in the form of U.S. Treasury Bonds. The initial price per share is \$1.333333 per share, subject to certain adjustments. The Common Stock, Preferred Stock and Bonds are to be delivered pursuant to that certain escrow agreement between Innofone and Cogent. Partial settlements of the equity swap and related collateral releases (together the "Swap Settlements") commence 30 days subsequent to the effective date of this registration statement. Through the Swap Settlements, we may sell a fixed percentage of the Treasury Bonds against a fixed reference price for our common stock shares at any time thereafter, and use any cash proceeds from such sales for working capital purposes. Further, in connection with the Swap Transaction, we issued to Cogent 5,000,000 shares of our Common Stock ("Exchange Shares") and a warrant to purchase 5,000,000 shares of Common Stock ("Warrant Shares"). The Swap Transaction closed on June 5, 2006.

Pursuant to an Amended and Restated Certificate of Designation filed by Innofone, the Preferred Stock issued to Cogent has no voting rights, no dividend rights (unless the Board of Directors elects otherwise) and each shares of Preferred Stock shall be convertible into ten (10) shares of Common Stock, subject to certain adjustments ("Conversion Ratio"). Further, no sooner than two years after June 2, 2006, the issuance date, Innofone has the option to redeem all (but not less than all) of the outstanding Preferred Stock by paying in cash the market price (the trailing ten (10) average of the Common Stock) multiplied by the Conversion Ratio. The Preferred Stock shall rank, with respect to the payment of dividends and the distribution of assets, senior to any other security issued by Innofone.

In connection with the Swap Transaction, in addition to the Shares being registered by this prospectus, we granted certain demand and piggyback registration rights to Cogent covering the Exchange Shares and the Warrant Shares obligating us to file a registration statement with the SEC.

SUMMARY FINANCIAL INFORMATION

The following tables set forth the summary financial information for our company as provided in the year end financial statements of IPv6 Summit and the nine months ended March 31, 2006 on a condensed consolidated basis to include Innofone.com. You should read this information together with the financial statements and the notes thereto appearing elsewhere in this prospectus and the information under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

CONDENSED CONSOLIDATED STATEMENT OF OPERATIONS DATA

Total Liabilities	\$ 10,288,653	\$ 60,782
Stockholders' equity (deficit)	\$ (9,388,424)	\$ 21,607

RISK FACTORS

You should carefully consider the risks described below before buying shares of our Common Stock in this offering. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may impair our business operations. If any of the adverse events described in this risk factors section actually occur, our business, results of operations and financial condition could be materially adversely affected, the trading price of our common stock could decline and you might lose all or part of your investment. We have had operating losses to date and cannot assure that we will be profitable in the foreseeable future. We make various statements in this section which constitute "forward-looking" statements under Section 27A of the Securities Act.

RISKS RELATED TO OUR BUSINESS

WE HAVE INCURRED HISTORICAL LOSSES AND WE MAY NOT BE ABLE TO GENERATE PROFITS, SUPPORT OUR OPERATIONS, OR ESTABLISH A RETURN ON INVESTED CAPITAL.

We incurred net losses in fiscal 2005 of \$681,000. In addition, we expect to increase our infrastructure and operating expenses to fund our anticipated growth. For the nine months ended March 31, 2006, we incurred net losses of \$8,788,592. We may not be able to generate profits in 2006 or thereafter and may not be able to support our operations, or otherwise establish a return on invested capital. We cannot assure you that any of our business strategies will be successful or that significant revenues or profitability will ever be achieved or, if they are achieved, that they can be consistently sustained or increased on a quarterly or annual basis.

WE EXPECT OUR OPERATING LOSSES TO CONTINUE AND WE CAN NOT ASSURE YOU THAT WE WILL EVER GENERATE SIGNIFICANT REVENUES.

Innofone expects to incur increased operating expenses during the next year. The amount of net losses and the time required for Innofone to reach and sustain profitability are uncertain. The likelihood of Innofone's success must be considered in light of the problems, expenses, difficulties, and delays frequently encountered in connection with a new business, including, but not limited to uncertainty as to development and acquisitions and the time required for Innofone's planned production to become available in the marketplace. There can be no assurance that Innofone will ever generate significant revenues or achieve profitability at all or on any substantial basis which could cause a decrease in your entire investment in our shares.

WE HAVE A LIMITED AMOUNT OF CASH AND ARE LIKELY TO REQUIRE ADDITIONAL CAPITAL TO CONTINUE OUR OPERATIONS. THEREFORE, FAILURE TO OBTAIN ADDITIONAL CAPITAL MAY RESULT IN US HAVING TO CURTAIL OUR BUSINESS.

We have a limited amount of available cash and will likely require additional capital to successfully implement our business plan. Although we will raise aggregate gross proceeds of up to \$50 million upon the effectiveness of this registration statement, these funds are released over a thirty (30) month period in specified percentages and in exact amounts per month that depend on our stock price and will be sufficient to sustain our operations for such 30 month period only if our stock price remains stable. There can be no assurance that we will be able to obtain additional funding when needed if needed, or that such funding, if available, will be obtainable on terms acceptable to us. Moreover, we are subject to certain restrictions in the Securities Purchase Agreement which may limit or prohibit us from raising additional funds through future equity and debt financings. In the event that our operations do not generate sufficient cash flow, or we cannot obtain additional funds if and when needed, we may be forced to curtail or cease our activities, which would likely result in the loss to investors of all or a substantial portion of their investment.

WE RELY HEAVILY ON OUR MANAGEMENT, THE LOSS OF WHICH COULD HURT OUR BUSINESS, OPERATING RESULTS AND FINANCIAL CONDITION.

Our future success is dependent on having capable seasoned executives with the necessary business knowledge and relationships to execute our business plan. Accordingly, the services of our management and our board of directors are deemed essential to maintaining the continuity of our operations. If we were to lose their services, our business could be harmed. We have executed an employment agreement with Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer, and with Mr. Gerard Casale, our Corporate Counsel and Vice President of Business Affairs. Our performance will also depend on our ability to find, hire, train, motivate and retain other executive officers and key employees. The Company currently does not have a chief financial officer which requires that our chief executive officer, Alex Lightman, to perform those duties. To the extent that Mr. Lightman will have to perform the duties of the principal accounting officer, he will not be able to perform his duties as the chief executive officer and vice versa. We are currently searching for a chief financial officer.

We must continually implement and improve our services, operations, operating procedures and quality controls on a timely basis, as well as expand, train, motivate and manage our work force in order to accommodate anticipated growth and compete effectively in our market segment. Successful implementation of our strategy also requires that we establish and manage a competent, dedicated work force and employ additional key employees. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our existing and future operations. Any failure to implement and improve such operations could cause operating results and financial condition to worsen.

Further, our future success depends on the continued services of executive management. We currently maintain key-man insurance on certain executives, including Mr. Alex Lightman, our Chief Executive Officer, President, and Principal Accounting Officer. Our future success is also dependent on our ability to identify, hire, train and retain other qualified managerial and other employees. Competition for these individuals is intense and increasing. The loss of any of their services would be detrimental to us and could have a harmful effect on our business development.

WE OPERATE IN A HIGHLY COMPETITIVE ENVIRONMENT WHICH COULD SIGNIFICANTLY AFFECT OUR BUSINESS INITIATIVES WHICH COULD NEGATIVELY IMPACT YOUR INVESTMENT IN OUR SHARES.

We have competitors in each of our three business divisions. Our conference division competes with IPv6 Forum; our training division competes with Sunset Learning and Nativ6, and our consulting division competes with Booz Allen Hamilton, ST International, SRI and Lockheed Martin. Our competitors are larger, have substantially greater resources and better known brand and reputation. Our competitors may be able to adapt more quickly to changes in customer needs or to devote greater resources than we can to developing and expanding our services. Such competitors could also attempt to increase their presence in our markets by forming strategic alliances with other competitors, by offering new or improved products or services by increasing their efforts to gain and retain market share through competitive pricing. As the market for our services matures, price competition and penetration into the market will intensify. There can be no assurance that we will be able to continue to compete successfully with existing or new competitors. Such competition may hamper our ability to generate profits.

RISK FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Due to our limited operating history, it is difficult to predict accurately future revenues. This may result in one or more future quarters where our financial results may fall below the expectation of management and investors. However firmly management may believe in its prospects, we could fail. Operating results may vary, depending upon a number of factors, many of which are outside our control. Material factors expected to impact our operating results include, legal costs expansion activities, increased interest and expenses for borrowings and possible hiring of additional full time employees. Every investor should evaluate the risks, uncertainties, expenses and difficulties frequently encountered by companies in the early stage of development.

WE ARE ATTEMPTING TO EXPAND OUR BUSINESS AND ANY FAILURE TO DO SO COULD HURT OUR BUSINESS

We expect that expansion will be required to address potential growth. This need for expansion will continue to place a significant strain on our management and financial resources. Our business strategy includes entering into business partnerships and acquiring future businesses. We may be unable to complete suitable business partnerships and acquisitions on commercially reasonable terms, if at all. Competition could impair our ability to successfully pursue these aspects of this business strategy. Failure to manage growth or successfully pursue aspects of our business strategy could prevent us from generating revenues.

Business partnerships or acquisitions could disrupt ongoing business, distract management and employees and increase expenses. If we make an acquisition, we could face difficulties assimilating that company's personnel and operations. Key personnel of the acquired company may decide not to work for us. Acquisition of additional services or technologies also involves risk of incompatibility and lack of integration into existing operations. If we finance the acquisitions by issuing equity securities, this could dilute existing stockholders positions. Additionally, funding instruments may have rights, preferences or privileges senior to those of our stockholders, which would impact an investment in our shares.

WE HAVE LIMITED HISTORICAL FINANCIAL DATA WHICH MAKE IT DIFFICULT TO EVALUATE AN INVESTMENT IN OUR SHARES

As a result of its limited operating history, we have limited historical financial data upon which to forecast revenues and results of operation. The actual effect of these factors on the price of stock will be difficult to assess. Results of operation may fall well below the expectations of and the trading price of our common stock may drop. As a result, any investment in our common stock could result in losses to the investor.

OFFICERS AND DIRECTORS BENEFICIALLY OWN APPROXIMATELY 55.8% MAJORITY OF SHARES AND COULD CARRY THE OUTCOME OF MATTERS PRESENTED TO SHAREHOLDERS FOR A VOTE

The executive officers and directors of Innofone currently beneficially own approximately 55.8% of the outstanding Common Stock representing a majority of the shares outstanding. Accordingly, such persons will effectively control the Board of Directors of Innofone and will direct the affairs of Innofone.

RISKS RELATED TO HOLDING OUR SECURITIES

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR SERIES A PREFERRED STOCK THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY DEPRESS THE MARKET PRICE OF OUR COMMON STOCK.

As of June 2006, we have 4,815,000 Series A Convertible Preferred Stock, \$0.01 par value per share, issued and outstanding which may be converted into an estimated 48,150,000 shares of our Common Stock at a conversion ratio of ten (10) shares of common stock for each shares of Series A Convertible Preferred Stock. Upon the effectiveness of this registration statement, all of the shares, may be sold without restriction upon conversion. Further, shares of our common stock may be shorted which could depress the price of our stock. The sale of these shares may cause the market price of our Common Stock to decrease.

THE ISSUANCE OF SHARES UPON CONVERSION OF THE SERIES A CONVERTIBLE PREFERRED STOCK MAY CAUSE IMMEDIATE AND SUBSTANTIAL DILUTION TO OUR EXISTING STOCKHOLDERS .

The issuance of shares upon conversion of the Series A Convertible Preferred Stock may result in substantial dilution to the interests of other stockholders since the selling stockholders may ultimately convert and sell the full amount issuable on conversion. The investors may convert their Series A shares at a conversion ratio equal to ten shares of common stock for each Series A share. The conversion of the Series A shares will represent approximately 43.8% of our issued and outstanding common stock.

WE MAY RECEIVE NO ECONOMIC BENEFIT FROM THE SWAP TRANSACTION WITH COGENT CAPITAL CORP. AND THE INSTITUTIONAL INVESTORS WHICH INCREASED OUR ISSUED AND OUTSTANDING COMMON STOCK BY APPROXIMATELY 43.8%.

Under the terms of the swap transaction we entered into in June 2006 which is described in this prospectus, we issued (i) 1,850,000 shares of common stock; and (ii) 4,815,000 shares of the Company's Series A Convertible Preferred Stock for an aggregate purchase price of \$50,000,000 in the form of Bonds. The initial price per share is \$1.333333 per share, subject to certain adjustments, in exchange for \$15 million of U.S. government bonds which represented a 20% discount to the fair market value of our common stock at the time we issued the shares. These share represent approximately 43.8% of our presently issued and outstanding common stock. The bonds and a portion of the shares were placed in escrow pending the satisfaction of certain conditions. While we did not receive any immediate economic benefit from the transaction, the amount of funds we may ultimately receive from this swap transaction is, however, unknown and it is possible that we will not receive any proceeds from these bonds. In addition, there is no provision for the return of any of the shares of our common stock we issued at the time of the transaction if we do not receive the \$50 million represented by the face amount of the bonds or reacquire the shares through exercise of an option.

WE ARE SUBJECT TO PENNY STOCK REGULATIONS AND RESTRICTIONS.

Our common stock is approved for quotation on the NASD OTC Bulletin Board. Since our common stock trades below \$5.00 per share (the last reported bid price for our common stock on July 11, 2006, was \$1.12), it is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations on the manner in which it can be publicly traded.

These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the associated risks. Potential investors in our common stock are urged to obtain and read this disclosure carefully before purchasing any shares that are deemed to be "penny stock." Also under these regulations, certain brokers who recommend a penny stock to persons other than established customers or certain accredited investors must make a special written suitability determination regarding the purchaser and receive the purchaser's written agreement to a transaction prior to sale. These procedures require the broker-dealer to:

- obtain from the investor information concerning his or her financial situation, investment experience and investment objectives;
- reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions;

- provide the investor with a written statement setting forth the basis on which the broker-dealer has made the determination of suitability; and
- receive a signed and dated copy of the statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives.

These regulations have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

Stockholders should be aware that, according to SEC Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse.

Our "penny stock" designation may adversely affect the development or continuation of the public market for our common stock.

BROKER-DEALER REQUIREMENTS MAY AFFECT TRADING AND LIQUIDITY.

Section 15(g) of the Securities Exchange Act of 1934, as amended, and Rule 15g-2 promulgated thereunder by the SEC require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in our common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stocks." Moreover, Rule 15g-9 requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for holders of our common stock to resell their shares to third parties or to otherwise dispose of them in the market or otherwise.

OUR COMMON STOCK MAY BE VOLATILE, WHICH SUBSTANTIALLY INCREASES THE RISK THAT YOU MAY NOT BE ABLE TO SELL YOUR SHARES AT OR ABOVE THE PRICE THAT YOU MAY PAY FOR THE SHARES.

Because of the limited trading market expected to develop for our common stock, and because of the possible price volatility, you may not be able to sell your shares of common stock when you desire to do so. The inability to sell your shares in a rapidly declining market may substantially increase your risk of loss because of such illiquidity and because the price for our common stock may suffer greater declines because of its price volatility.

The price of our common stock that will prevail in the market after this offering may be higher or lower than the price you may pay. Certain factors, some of which are beyond our control, that may cause our share price to fluctuate significantly include, but are not limited to, the following:

- variations in our quarterly operating results;
- loss of a key relationship or failure to complete significant transactions;
- additions or departures of key personnel; and
- fluctuations in stock market price and volume.

Additionally, in recent years the stock market in general, and the over-the-counter markets in particular, have experienced extreme price and volume fluctuations. In some cases, these fluctuations are unrelated or disproportionate to the operating performance of the underlying company. These market and industry factors may cause our stock price to decline, regardless of our operating performance.

In the past, class action litigation often has been brought against companies following periods of volatility in the market price of those companies' common stock. If we become involved in this type of litigation in the future, it could result in substantial costs and diversion of management attention and resources, which could have a further negative effect on your investment in our stock.

MANY OF OUR SHARES OF COMMON STOCK WILL IN THE FUTURE BE AVAILABLE FOR RESALE. ANY SALES OF OUR COMMON STOCK, IF IN SIGNIFICANT AMOUNTS, ARE LIKELY TO DEPRESS THE MARKET PRICE OF OUR SHARES.

Assuming all of the 52,450,000 shares of common stock we are offering under this prospectus are sold in our offering, we would have 58,036,224 shares that are freely tradable without the requirement of registration under the Securities Act of 1933. 68,089,744 shares of our common stock are “restricted securities” as defined under Rule 144 of the Securities Act of 1933 and 5,586,224 remaining shares are a part of the public float for a total of 114,230,084 shares. Of these shares, approximately 55.8% of our shares are owned by our officers, directors or other “affiliates.” These individuals may only sell their shares, absent registration, in accordance with the provisions of Rule 144.

Restricted securities may only be publicly sold pursuant to registration under the Securities Act of 1933, or pursuant to Rule 144 or some other exemption that may be available from the registration requirements of the Securities Act of 1933. Rule 144 entitles each person holding restricted securities for a period of one year, and affiliates who own non-restricted shares of our common stock, to sell every three months in ordinary brokerage transactions an amount of shares which does not exceed the greater of 1% of the shares of our common stock outstanding or, assuming the shares of common stock are then traded on Nasdaq, the average weekly trading volume during the four calendar weeks prior to said sale. Any substantial sales pursuant to Rule 144, including the potential sale of our affiliates' shares of our common stock, may have an adverse effect on the market price of shares of our common stock, and may hinder our ability to arrange subsequent equity or debt financing or affect the terms and time of such financing.

Special Note Regarding Forward-Looking Statements

This prospectus contains “forward-looking statements” and information relating to our business that are based on our beliefs as well as assumptions made by us or based upon information currently available to us. When used in this prospectus, the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “project”, “should” and similar are intended to identify forward-looking statements. These forward-looking statements include, but are not limited to, statements relating to our performance in “Business” and “Management's Discussion and Analysis of Financial Condition and Results of Operation”. These statements reflect our current views and assumptions with respect to future events and are subject to risks and uncertainties. Actual and future results and trends could differ materially from those set forth in such statements due to various factors. Such factors include, among others: general economic and business conditions; industry capacity; industry trends; competition; changes in business strategy or development plans; project performance; the commercial viability of our products and offerings; availability, terms, and deployment of capital; and availability of qualified personnel. These forward-looking statements speak only as of the date of this prospectus. Subject at all times to relevant federal and state securities law disclosure requirements, we expressly disclaim any obligation or undertaking to disseminate any update or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares of our common stock by the selling securityholders.

MARKET FOR OUR SHARES

Our common stock is currently quoted on the National Association of Securities Dealers Over the Counter Bulletin Board under the symbol "INFN" ("OTC Bulletin Board"). The common stock had previously been quoted on the OTC Bulletin Board and was delisted on September 1, 1999. From September 1, 1999 until the re-listing on the OTC Bulletin Board on March 27, 2001, our common stock was quoted in the over-the-counter Pink Sheets market in the United States.

The closing price of our common stock on the OTC Bulletin Board on July 11, 2006 was \$1.12 per share.

The price ranges of quotations in Innofone's common stock during the last two fiscal years and the subsequent interim period are as follows:

<u>2006</u>	High	Low
1/1/06-3/31/06	.60	.24
4/1/06-7/11/06	1.89	.60
<u>2005</u>	High	Low
1/1/05 - 3/31/05	.85	.85
4/1/05 - 6/30/05	1.69	1.50
7/1/05 - 9/30/05	2.50	2.36
10/1/05 - 12/31/05	1.64	.42
<u>2004</u>		
1/1/04 - 3/31/04	2.50	2.35
4/1/04 - 6/30/04	2.50	2.35
7/1/04 - 9/30/04	2.50	2.35

As of July 11, 2006, we had issued and outstanding 61,780,084 shares of common stock, held by approximately 145 holders of record. There have been no cash dividends declared by us since our inception.

The source of these high and low prices was the OTC Bulletin Board. These quotations reflect inter-dealer prices, without retail mark-up, markdown or commissions and may not represent actual transactions. The high and low prices listed have been rounded up to the next highest two decimal places.

The market price of our common stock is subject to significant fluctuations in response to variations in our quarterly operating results, general trends in the market for the products we distribute, and other factors, over many of which we have little or no control. In addition, broad market fluctuations, as well as general economic, business and political conditions, may adversely affect the market for our common stock, regardless of our actual or projected performance.

We currently have no compensation plans.
