MFS Multimarket Income Trust  
Supplemental Schedules (Unaudited) 01/31/2005

### (1) PORTFOLIO SECURITIES

The cost and unrealized appreciation and depreciation in the value of the investments owned by the trust, as computed on a federal income tax basis, are as follows:

Aggregate cost	\$531,050,503
	=====
Gross unrealized appreciation	\$33,441,130
Gross unrealized depreciation	(5,115,410)
	-----
Net unrealized appreciation (depreciation)	\$28,325,720
	=====

### (2) FINANCIAL INSTRUMENTS

The trust trades financial instruments with off-balance-sheet risk in the normal course of its investing activities in order to manage exposure to market risks such as interest rates and foreign currency exchange rates. These financial instruments include forward foreign currency exchange contracts, and futures contracts. The notional or contractual amounts of these instruments represent the investment the trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.
