### TASTY BAKING COMPANY AND SUBSIDIARIES PART I

#### Item 1. Business

The Registrant was incorporated in Pennsylvania in 1914 and maintains its main offices and manufacturing facilities in Philadelphia, Pennsylvania. The Registrant's Tastykake Division (Tastykake) manufactures and sells a variety of premium single portion cakes, pies, cookies, pretzels, brownies, pastries, donuts, miniature donuts, snack bars, boxed cookies and large family sized cakes, pies and danish under the well established trademark, TASTYKAKE(R). These products comprise approximately 150 varieties. The availability of some products, especially the holiday-themed offerings, varies according to the season of the year. The single portion cakes, cookies and donuts principally sell at retail prices for individual packages ranging from 50(cent) to 89(cent) per package and family convenience packages ranging from \$2.39 to \$2.75. The pies principally sell at a retail price of 89(cent) each and include various fruit and creme filled varieties and, at various times of the year, additional seasonal varieties. The pastries and brownies are marketed principally in snack packages and sell at a retail price of 89(cent) per package. The best known products with the widest sales acceptance are various sponge cakes marketed under the product trademarks JUNIORS(R) and KRIMPETS(R), and chocolate enrobed cakes under KANDY KAKES(R). Currently, the Registrant markets three varieties of low-fat cake which are sold individually at a retail price of 59(cent) or in family convenience packages at a retail price of \$2.75. In 1999, Tastykake introduced a line of large family sized cakes produced by Tasty Baking Oxford, Inc., a wholly-owned subsidiary, and currently sold by the Registrant, under the trademark CLASSIC BAKED GOODS(TM) at retail prices ranging from \$2.99 to \$3.49. In addition, large pies, boxed cookies donuts, donut holes and large danish are sold by the Registrant under the trademark CLASSIC BAKED GOODS(TM) at retail prices ranging from \$2.99 to \$3.49. There are approximately forty varieties available under the Classic Baked Goods line.

Dutch Mill Baking Company, Inc. (Dutch Mill), a wholly-owned subsidiary, based in Wyckoff, New Jersey, produces approximately 25 varieties of donuts, donut holes, cookies and cakes primarily under the trademark DUTCH

## Edgar Filing: TASTY BAKING CO - Form 10-K

MILL(R). Dutch Mill's direct sales are made through distributors to retail outlets in the New York City metropolitan area. These products are sold primarily in family convenience packages at retail prices ranging from \$1.99 to \$2.99 per package. Tastykake purchases donut holes from Dutch Mill which are sold under the TASTYKAKE(R) label.

Tasty Baking Oxford, Inc., located in Oxford, Chester County, Pennsylvania, currently manufactures honey buns, large cakes, donuts and muffins under the trademarks TASTYKAKE(R), CLASSIC BAKED GOODS(TM), SNAK N' FRESH(R) and AUNT SWEETIE'S BAKERY(R) for distribution through the traditional route and distributor methods as well as private label, food service and institutional marketplaces. The SNAK N' FRESH(R) and AUNT SWEETIE'S BAKERY(R) brands were instituted to allow the Registrant to enter the private label and food service markets without compromising the integrity of its TASTYKAKE(R) brand. All of the products from the Oxford facility are sold to the Tastykake division for resale.

Tastykake products are sold principally by independent owner/operators through distribution routes to approximately 25,000 retail outlets in New York, New Jersey, Pennsylvania, Delaware, Maryland and Virginia, which make up Tastykake's principal market. This method of distribution has been used since 1986. Tastykake also distributes its products through distributorships and major grocery chains located in most areas of the country. The Registrant has formed alliances with distributors who can handle the Tastykake product line most effectively in order to promote geographic expansion. Products are sold in forty-nine states, and Puerto Rico. Tastykake also distributes its products through the TASTYKARE(R) program, whereby consumers can call a toll-free number or visit our web-site to order the delivery of a variety of Tastykake gift packs. The registrant opened two thrift outlets during 2000 and anticipates twenty by the end of 2001 in order to recover the cost of stale, damaged and other products not generally salable through normal distribution channels. These products were previously discarded.

The Registrant is in the process of completing an upgrade of the entire computer system for all its divisions which is enabling the Registrant to coordinate a wide range of activities and will eventually link to large customers and suppliers. In 1998, the Registrant began a \$22 million modernization program for the manufacturing facility in Philadelphia, Pennsylvania. The program will be completed in phases and is expected to take approximately four years from inception. Phase I of the program, the complete renovation of the Krimpet and Junior production and packaging lines, was completed in 1999. Phase II, the renovation of the cupcake lines, began in 2000. Two of the four lines were successfully converted in 2000. These renovations are expected to increase productivity and efficiency.

While the five largest customers of the Tastykake division comprise a significant portion of its gross sales revenue, the large number of retailers comprising the customer base ensures the availability of Tastykake products to consumers in the principal market area.

### Item 1. Business, continued

The Registrant maintains a comprehensive advertising program which from time to time utilizes outdoor poster campaigns, newspapers, customer coupons, radio and television advertising, and promotions with various sports teams. While the Registrant sponsors research and development activities, the cost is not a material item.

The Registrant is engaged in a highly competitive business. Although the number of competitors varies among marketing areas, certain competitors are

## Edgar Filing: TASTY BAKING CO - Form 10-K

national companies with multiple production facilities and nationwide distribution systems. The Registrant believes it is one of the largest producers in the country specializing in premium single portion pies and cakes. The Registrant is able to maintain a strong competitive position in its principal marketing area through the quality of its products and brand name recognition.

Outside of its principal market area, the Registrant's trademarks and reputation for quality are not well-known. In these markets, the Registrant competes for the limited shelf space available from retailers chiefly on price, quality and the ability to sell its products (i.e. consumer acceptance).

The Registrant has a significant market position throughout its principal marketing area. Outside of the principal market area, its market share is generally less significant. Its principal competitor in the premium snack cake market throughout the country is Interstate Bakeries Corporation, with its three (3) brands - Hostess, Dolly Madison and Drakes. There are also local independent bakers which compete in a number of regional markets. Interstate Bakeries Corporation is a large publicly-held corporation which has achieved national recognition of its "Hostess" brand name through national advertising and competes on price, quality and brand name recognition. It also promotes its Drakes product line in areas where the Registrant is attempting to expand its market share. McKee Foods Corporation, a large privately-held company, competes in the snack cake market under the brand "Little Debbie", principally as a low price snack cake.

No difficulty was experienced in obtaining raw materials in 2000. It is not anticipated that there will be any significant adverse effects on the financial condition of the Registrant as a result of price fluctuations or availability of raw materials in 2001.

The Registrant's policies with respect to working capital items are not unique. Inventory is generally maintained at levels sufficient for one to three weeks sales, while the ratio of current assets to current liabilities is maintained at a level between 1.5 and 2.5 to 1.

The Registrant employs approximately 1,100 persons, including approximately 140 part-time employees.

### Item 2. Properties

In addition to the above, the Registrant leases various other properties used principally as local pick up and distribution points and more recently, for the thrift store outlets. All of these properties are sufficient for the business of the Registrant as now conducted, although certain manufacturing space is near full utilization.

### Item 3. Legal Proceedings

The Registrant is involved in certain legal and regulatory actions, all of which have arisen in the ordinary course of the Registrant's business. The Registrant is unable to predict the outcome of these matters, but does not believe that the ultimate resolution of such matters will have a material adverse effect on the consolidated financial position or results of operations of the Registrant.

### Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

Item 6	Selected Financial Data	17
Item 7	Management's Discussion and Analysis of Financial Condition and Results of Operations	13 - 15

Certain matters discussed in this Report, including those under the headings "Business," "Legal Proceedings" and "Management's Analysis," are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, and are subject to the safe harbor created by that Act. These forward-looking statements include comments about legal proceedings, competition with the baking industry, availability and pricing of raw materials and capital, improvements in efficiency expected from plant modernization programs, sales growth by distribution through private label, food service, institutional sales and national sales programs, changes in the Registrant's business strategies and other statements contained herein that are not historical facts. Because such forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements which include changes in general economic or business conditions nationally and in the Registrant's primary markets, the availability of capital upon terms acceptable to the Registrant, the availability and prices of raw materials, the level of demand for the Registrant's products, legal proceedings to which the Registrant is or may become a party, the actions of competitors within the baking industry, changes in consumer tastes or eating habits, the success of plant modernization and business strategies implemented by the Registrant to meet future challenges, and the ability to develop and market in a timely and efficient manner new products which are accepted by consumers.

Item 7a	Quantitative and Qualitative Disclosure about market risk	23 - 24
---------	--	---------

The Registrant has certain floating rate debt notes. Under current market conditions, the Registrant believes that changes in interest rates would not have a material impact on the financial statements of the Registrant. The Registrant also has notes receivable from owner operators whose rates adjust every three years, and, therefore, would partially offset the fluctuations in the Registrant's interest rates on its notes payable. The Registrant also has the right to sell these notes receivable, and could use these proceeds to liquidate a corresponding amount of the debt notes payable. Information on

the debt and receivable notes can be found in the Notes to Consolidated Financial Statements, Notes 4,5 and 3, respectively, in the 2000 Annual Report to Shareholders.
