(1) Calculated assuming only the conversion of all of the holder's LYONs at a conversion rate of 13.8879 shares of common stock per \$1,000 principal amount at maturity of the LYONs (giving effect to the three-for-two stock split paid in shares of our common stock on August 16, 2001 to stockholders of record on August 1, 2001). This conversion rate is

subject to adjustment, however, as described under "Description of the LYONs--Conversion Rights." As a result, the number of shares of common stock issuable upon conversion of the LYONs may increase or decrease in the future. The number in this column does not include common

stock that we may issue upon purchase of LYONs by us at the option of the holder nor does it include any other shares of common stock otherwise held by each such holder.

- (2) Calculated based on 70,660,723 shares of common stock outstanding as of July 27, 2001. In calculating this amount, we treated as outstanding that number of shares of common stock issuable upon conversion of all of a particular holder's LYONs. However, we did not assume the conversion of any other holder's LYONs.
- (6) Information about other selling securityholders will be set forth in prospectus supplements, if required.
- (7) Assumes that any other holders of LYONs, or any future transferees, pledgees, donees, assignees or successors of or from any such other holders of LYONs, do not beneficially own any common stock other than the common stock issuable upon conversion of the LYONs at the initial conversion rate.
- (8) Such aggregate principal amount is in addition to \$9,100,000 of LYONs which were previously registered and subsequently sold by McMahan Securities Co. L.P.

The information contained in this prospectus supplement regarding the selling securityholders has been prepared from information given to us by those selling securityholders on or prior to the date of this prospectus supplement.

Investing in the LYONs involves risks that are described in the "Risk Factors" section beginning on page 9 of the prospectus.
