### ALAMOSA ANNOUNCES FOURTH QUARTER RESULTS

Sequential Subscriber Base Grew 25 Percent; Sequential Subscriber Revenue Grew 18 Percent

February 27, 2002 - LUBBOCK, TEXAS - Alamosa Holdings, Inc. (NYSE: APS), the largest Sprint PCS (NYSE: PCS) Network Partner based on number of subscribers, today reported results for the fourth quarter ended December 31, 2001. As previously reported, subscribers grew to approximately 503,000 at the end of the fourth quarter, up approximately 99,000 subscribers or 25 percent over subscribers at the end of the third quarter of 2001. Subscribers at December 31, 2001 were approximately 297,000 greater than subscribers at December 31, 2000 on a pro-forma basis. This assumes the acquisitions of Roberts, WOW and Southwest occurred prior to December 31, 2000 and represents an increase of approximately 144 percent. Ending subscribers were 370,000 greater than actual reported at December 31, 2000. Subscriber revenues for the fourth quarter were \$80 million, up 18 percent over the third quarter of 2001 and up 289 percent over the fourth quarter of 2000.

"We are very pleased to report our fourth quarter results which reflect the continued growth of our business and operation within our business plan," stated David E. Sharbutt, Chief Executive Officer of Alamosa Holdings, Inc. "We have grown our subscriber base substantially from 2000, aligned our operations to achieve operational excellence and positioned ourselves for the launch of 3G in 2002. We believe the fundamentals in the wireless industry remain strong and that Alamosa has and will continue to distinguish itself from others in the wireless industry during 2002. During 2001, we improved our financial performance and completed several financings that resulted in the necessary funding to fully execute our business plan. We continue to believe that we will become EBITDA positive in the first half of 2002 and are on track to become free-cash flow positive in 2003. All of this will help us to achieve our ultimate goal of providing long-term value to our shareholders and our customers."

#### SIGNIFICANT FOURTH QUARTER ACCOMPLISHMENTS

During the quarter ended December 31, 2001, Alamosa accomplished the following:

- o Added over 100 new base stations increasing the total number of on-air sites to approximately 1,400.
- o Increased covered POPs to approximately 11.2 million.
- o Achieved cumulative minutes of use (MOU's) exceeding 2 billion.
- o Completed a public offering of 4.8 million secondary shares and approximately 720,000 primary shares.
- o Moved to the New York Stock Exchange.
- o Became the first Sprint PCS Network Partner with over 500,000 subscribers.

#### OPERATING HIGHLIGHTS

Total revenue for the fourth quarter of 2001 was approximately

## Edgar Filing: ALAMOSA HOLDINGS INC - Form 424B3

\$120 million including subscriber revenue of \$80 million, roaming revenue of \$32 million and product sales of \$8 million. Subscriber revenue represented an 18 and 289 percent increase over the third quarter of 2001 and the fourth quarter of 2000, respectively. Roaming revenue was flat with third quarter of 2001, due to the decrease in reciprocal roaming rates offset by increases in the volume of inbound traffic. Compared with the fourth quarter of 2000, roaming revenues increased 400 percent. Earnings before interest, taxes, depreciation and amortization, or EBITDA, excluding non-cash compensation were negative \$21 million for the fourth quarter of 2001. For the fourth quarter of 2000, EBITDA excluding non-cash compensation and merger and acquisition costs were negative \$24 million. Net loss for the fourth quarter totaled \$48 million or \$0.52 loss per share compared to a net loss of \$34 million or \$0.56 loss per share in the fourth quarter of 2000.

Total revenue for 2001 was \$357 million, including subscriber revenue of \$231 million, roaming revenue of \$99 million and product sales of \$27 million. EBITDA excluding non-cash compensation for the full year was negative \$58.5 million for 2001. Net loss for 2001 totaled \$147 million or \$1.69 loss per share.

Average monthly revenue per user (ARPU) was \$84 for the fourth quarter including roaming and \$60 without roaming, as compared to \$92 and \$63 for the third quarter of 2001 and \$84 and \$64 for the fourth quarter of 2000, respectively. As previously reported, churn was approximately 3.3 percent for the fourth quarter as compared to 2.7 percent for the third quarter. For the full year churn was approximately 2.7 percent, which was within previous full year guidance of 2.5 percent to 3.0 percent.

Average MOU's per month in the fourth quarter were approximately 540 per subscriber including roaming and approximately 440 minutes without roaming. Total system MOU's were approximately 746 million for the quarter, compared to 581 million for the previous quarter. Inbound roaming minutes were approximately 182 million while outbound roaming minutes totaled approximately 143 million. Licensed POPs were approximately 15.6 million and covered POPs totaled approximately 11.2 million.

At the end of the quarter, Alamosa had cash, cash equivalents and short-term investments totaling approximately \$201 million, including restricted cash of approximately \$95 million. Committed but unused credit facilities at the end of the quarter were approximately \$38 million. Capital expenditures for the fourth quarter were approximately \$43 million.

### OUTLOOK

For the first quarter of 2002, Alamosa expects net subscriber additions to range between 45,000 to 50,000. For the full year of 2002, net subscriber additions are expected to range between 190,000 to 210,000, with year-end subscribers to range between 693,000 to 713,000.

Alamosa expects to be EBITDA positive for the first half of 2002 and EBITDA positive for the full year to range between \$15 million to \$20 million. Capital expenditures for 2002 are expected to be approximately \$85 million.

Churn in the first quarter is expected to be up slightly compared to fourth quarter of 2001 and then gradually decline through the second half of 2002, with expected full year churn to range between 3.0 percent to 3.2 percent. ARPU without roaming for the first quarter and for the full-year is expected to range between \$59 to \$61. ARPU with roaming is expected to decline due to roaming revenue being spread over an increasing subscriber base and the reduction in reciprocal roaming rate.
