Alamosa Announces Fourth Quarter and Annual 2002 Results

Fourth Quarter Highlights:

- o Subscribers increased by approximately 31,000 to approximately 622,000 total subscribers.
- o EBITDA (earnings, before interest, taxes, depreciation and amortization), excluding asset impairments, totaled \$12.1 million for the fourth quarter and \$26.9 for the full year of 2002, respectively.
- o Net loss for the fourth quarter was \$25.6 million or \$0.27 per share.
- o Available funding was approximately \$121.4 million, including approximately \$61.7 million in cash and cash equivalents, approximately \$34.7 million of restricted cash in escrow accounts for bond interest payments, and \$25.0 million in an undrawn bank facility, subject to certain restrictions.
- o Customer churn was approximately 3.4 percent for the fourth quarter and for the full year of 2002.
- o Fixed asset additions totaled \$14.1 million for the fourth quarter and \$69.6 million for the full year of 2002.

LUBBOCK, Texas (March 3, 2003) - Alamosa Holdings, Inc. (NYSE: APS), the largest (based on number of subscribers) PCS Affiliate of Sprint (NYSE: FON, PCS), which operates the largest all-digital, all-CDMA Third-Generation (3G) wireless network in the United States, today reported results for the fourth quarter ended December 31, 2002. The Company reported \$12.1 million of EBITDA, excluding asset impairments, for the fourth quarter of 2002 versus a negative \$21.5 million in the fourth quarter of 2001. For the year of 2002, the Company reported positive EBITDA, excluding asset impairments, of \$26.9 million compared to a negative \$58.5 million in 2001, resulting in an \$85.4 million improvement year over year. The Company also reported approximately 31,000 net new subscribers during the fourth quarter of 2002, bringing total subscribers to approximately 622,000 at year-end 2002. This represents a 24 percent increase in total subscribers from the end of 2001 to the end of 2002. As the Company previously disclosed on January 13, 2003, customer churn was approximately 3.4 percent for the fourth quarter of 2002, declining from 3.8 percent in the third quarter of 2002. Customer churn for the full year of 2002 was also 3.4 percent.

"The wireless industry found 2002 to be extremely difficult. Despite many challenges, Alamosa distinguished itself from many of its peers and delivered solid financial results. We continued to make significant progress as we grew our customer base, expanded our network to handle our customer's current and future wireless needs, and managed our operations more efficiently," stated David E. Sharbutt, Chief Executive Officer of Alamosa Holdings, Inc. "More significantly, we achieved positive EBITDA in every quarter of 2002, including a substantial increase in the fourth quarter of 2002 over the third quarter of 2002.

Edgar Filing: ALAMOSA HOLDINGS INC - Form 424B3

"We shifted our focus to higher value customers, which began to have an impact on our churn rate during the fourth quarter. In 2002, we learned and adapted our business to the realities of the marketplace and have an established foundation from which to build upon in 2003," Sharbutt added. "We expect continued growth in EBITDA, excluding asset impairments, and positive free cash flow in 2003 which should help maintain our funding position."

FINANCIAL HIGHLIGHTS

Total revenue for the fourth quarter was approximately \$149.1 million, including subscriber revenue of \$102.2 million, roaming revenue of \$40.7 million and product sales of \$6.2 million. Roaming revenue increased 4.1 percent in the fourth quarter of 2002 compared to third quarter of 2002 due to increased roaming traffic from Sprint and other PCS carriers. Other PCS carriers' inbound travel comprised approximately 20 percent of roaming revenues during the quarter and for the full year. Total revenue for the year was approximately \$555.6 million, including subscriber revenue of \$391.9 million, roaming revenue of \$139.8 million and product sales of \$23.9 million.

EBITDA, excluding asset impairments, was \$12.1 million for the fourth quarter of 2002 compared to \$5.4 million for the third quarter of 2002 and a negative \$21.5 million for the fourth quarter of 2001. For the year of 2002, EBITDA, excluding asset impairments, was \$26.9 million compared to a negative \$58.5 million during 2001, an \$85.4 million improvement. The net loss for the fourth quarter was \$25.6 million or \$0.27 per share compared to \$29.2 million or \$0.31 per share, before a charge for the impairment of goodwill, in the third quarter of 2002 and a net loss of \$47.9 million or \$0.52 per share for the fourth quarter of 2001. For the year, the net loss was \$403.3 million or \$4.33 per share, including the goodwill impairment charge. Without the goodwill impairment charge, the net loss would have been \$111.7 million, or \$1.20 per share compared to a loss of \$143.9 million, before extraordinary items, or \$1.65 per share in 2001.

At the end of the fourth quarter of 2002, Alamosa had available funding of approximately \$121.4 million. This included approximately \$61.7 million of cash and cash equivalents, approximately \$34.7 million in restricted cash escrowed for the payment of bond interest, and committed but unused credit facilities at the end of the fourth quarter of \$25.0 million, subject to certain restrictions. Alamosa continues to expect to be over funded in excess of \$50 million at the point of becoming free cash flow positive in 2003. Fixed asset additions were approximately \$14.1 million for the fourth quarter of 2002 and \$69.6 million for the full year of 2002.

LISTING STATUS WITH NYSE

Based on current market trends and pricing, the Company remains below the NYSE's \$1 minimum share price and \$100 million market cap minimum listing requirement. The minimum share price requirement offers a six-month cure period following notification (which expires on March 3, 2003). The NYSE has indicated it will consider activities, such as shareholder actions, and allow for the approval of these actions at the Company's next Annual Meeting to meet the minimum share price requirement.

The Company's Board of Directors has approved taking further action, if necessary, to meet the \$1 minimum listing requirement. This includes a proposal for including a reverse stock split in the proxy for the Annual Shareholders meeting scheduled for May 29, 2003. The Company is also exploring other trading venues for its common stock. The Company has notified the NYSE of these proposed actions. If a proposed reverse split is enacted by shareholder vote, it is required to be promptly implemented and the listing requirement will be met if the share price exceeds the \$1 minimum share price requirement for the following 30 trading days. If the market price of its common stock increases or the Company identifies an alternative trading venue for its stock, the Company may not need to take shareholder action. The Company will continue periodically reporting its progress to the NYSE and the realization of objectives as outlined in its approved plan (addressing both the share price and the market capitalization minimum standards), which is still in effect until February 26, 2004.

"We have had discussions about the Company's next steps to achieve the \$1 minimum listing requirement with the NYSE staff," said Sharbutt. "In addition to the possible shareholder action, we are actively pursuing other trading venues for our common stock."

BUSINESS OUTLOOK

The following business outlook for 2003 may be materially affected by competitive conditions, continued development and acceptance of new 3G products and services, changes in pricing plans as well as general economic conditions, among other things:

- o Full year 2003 EBITDA of approximately \$80 million
- o Free cash flow positive for the full year of 2003, excluding cash interest to be paid out of escrow o Capital expenditures of \$40-50 million
- o Penetration of Alamosa markets to be in the range of 6.2 to 6.5 percent by year-end 2003
- o Churn decreasing throughout 2003 and averaging 3.0% for the year of 2003
