### OVERSEAS REGULATORY ANNOUNCEMENT ADJUSTMENTS OF TARIFFS

This announcement is made pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") hereby announced the tariff adjustments for its power plants.

Recently, the National Development and Reform Commission has issued a notice in respect of the implementation of the Coal-Electricity Price Linkage Mechanism (the "Mechanism") for the power grids of East China, North China, Central China, Northeast China and South China. Except for the enforcement in Henan Province commencing from 15th May 2005, all other regions shall start to implement the Mechanism from 1st May 2005 (policy regarding Gansu Province to be confirmed).

There are three major aspects regarding the Mechanism:-

1. Appropriate adjustments of on-grid tariffs as a result of the Mechanism: in order to alleviate the impact of rising coal prices upon tariffs since June 2004, on-grid tariffs for power generating companies are to be appropriately raised.
2. Abolition of excess generation tariffs in principle: Except for the

## Edgar Filing: HUANENG POWER INTERNATIONAL INC - Form 6-K

power grids in South Hebei and Hunan (see table below), power output for all regions (other than the regions which transmit electricity to other provinces and the regions under power pooling) shall adopt pre-determined on-grid tariffs as approved by the government.

	Tariff for Excessive Generation (RMB/MWh, VAT inclusive)	Number of Utilisation Hours Corresponding to Approved On-grid Tariff
South Hebei Grid	250	5,500
Hunan	332	4,500

3. Increase the on-grid tariffs of some old-aged power plants: This is mainly for the power plants under the policy of separation of power plants and power grids, and the power plants adopting relatively low tariffs and suffering significant loss. The Company's Shanghai Shidongkou First Power Plant falls into this category.

According to a document issued by the National Development and Reform Commission, the actual adjustments of on-grid tariffs of some of the Company's power plants are as follows:

Power Plants	On-grid Tariffs before Adjustment (RMB/MWh, VAT inclusive)	Adjustment (RMB/MWh, VAT inclusive)	On-grid Tariffs after Adjustment (RMB/MWh, VAT inclusive)

Mingtai		280		+8.00		288.
-----		-----		-----		-----

The on-grid tariff adjustments of the Company's power plants including Dalian Power Plant, Dandong Power Plant and Yingkou Power Plant which are located at Liaoning Province are calculated by adding RMB22/MWh (VAT inclusive) on the basis of the resulted bidding tariffs for those power generation volume that under annual bidding.

The implementation of the Mechanism will lead to a rise of the Company's average settled tariffs, and will help to relieve the Company's pressure due to the increase of fuel cost.

By Order of the Board  
Huang Long  
Company Secretary
