(Registrant's telephone number, including area code)

Edgar Filing: TAYLOR DEVICES INC - Form 10-Q

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company)  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

As of October 10, 2013, there were outstanding 3,341,690 shares of the registrant’s common stock, par value \$.025 per share.

TAYLOR DEVICES, INC.

### Notes to Condensed Consolidated Financial Statements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all

1. adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of August 31, 2013 and May 31, 2013, the results of operations for the three months ended August 31, 2013 and 2012, and cash flows for the three months ended August 31, 2013 and 2012. These financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Annual Report to Shareholders for the year ended May 31, 2013.

2. The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through the date the financial statements were issued.

3. There is no provision nor shall there be any provisions for profit sharing, dividends, or any other benefits of any nature at any time for this fiscal year.

4. For the three month periods ended August 31, 2013 and August 31, 2012, the net income was divided by 3,318,602 and 3,309,758, respectively, which is net of the Treasury shares, to calculate the net income per share.

5. The results of operations for the three month period ended August 31, 2013 are not necessarily indicative of the results to be expected for the full year.

6. Recently issued Financial Accounting Standards Board Accounting Standards Codification guidance has either been implemented or is not significant to the Company.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Cautionary Statement**

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. Information in this Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this 10-Q that does not consist of historical facts, are "forward-looking statements." Statements accompanied or qualified by, or containing, words such as "may," "will," "should," "believes," "expects," "intends," "plans," "projects," "estimates," "predicts," "potential," "outlook," "forecast," "anticipates," "presume," and "assume" constitute forward-looking statements and, as such, are not a guarantee of future performance. The statements involve factors, risks and uncertainties, the impact or occurrence of which can cause actual results to differ materially from the expected results described in such statements. Risks and uncertainties can include, among others, uncertainty regarding how long the worldwide economic recession will continue and whether the recession will deepen; reductions in capital budgets by our customers and potential customers; changing product demand and industry capacity; increased competition and pricing pressures; advances in technology that can reduce the demand for the Company's products; and other factors, many or all of which are beyond the Company's control. Consequently, investors should not place undue reliance on forward-looking statements as predictive of future results. The Company disclaims any obligation to release publicly any updates or revisions to the forward-looking statements herein to reflect any change in the Company's expectations with regard thereto, or any changes in events, conditions or circumstances on which any such statement is based.

**Results of Operations**

A summary of the period to period changes in the principal items included in the condensed consolidated statements of income is shown below:

**Summary comparison of the three months ended August 31, 2013 and 2012**

	Increase / (Decrease)	
Sales, net	\$ (2,020,000	)
Cost of goods sold	\$ (680,000	)
Selling, general and administrative expenses	\$ (697,000	)
Income before provision for income taxes	\$ (641,000	)
Provision for income taxes	\$ (234,000	)
Net income	\$ (407,000	)

Sales under certain fixed-price contracts, requiring substantial performance over several periods prior to commencement of deliveries, are accounted for under the percentage-of-completion method of accounting whereby revenues are recognized based on estimates of completion prepared on a ratio of cost to total estimated cost basis. Costs include all material and direct and indirect charges related to specific contracts.

Adjustments to cost estimates are made periodically and any losses expected to be incurred on contracts in progress are charged to operations in the period such losses are determined. However, any profits expected on contracts in progress are recognized over the life of the contract.

For financial statement presentation purposes, the Company nets progress billings against the total costs incurred on uncompleted contracts. The asset, "costs and estimated earnings in excess of billings," represents revenues recognized in excess of amounts billed. The liability, "billings in excess of costs and estimated earnings," represents billings in excess of revenues recognized.

**For the three months ended August 31, 2013** (All figures discussed are for the three months ended August 31, 2013 as compared to the three months ended August 31, 2012.)

	Three months ended August 31		Change	
	2013	2012	Amount	Percent
Net Revenue	\$ 5,297,000	\$ 7,317,000	\$ (2,020,000)	-28%
Cost of sales	4,018,000	4,698,000	(680,000)	-14%
Gross profit	\$ 1,279,000	\$ 2,619,000	\$ (1,340,000)	-51%
... as a percentage of net revenue	24%	36%		

The Company's consolidated results of operations showed a 28% decrease in net revenues and a decrease in net income of 67%. Revenues recorded in the current period for long-term construction projects ("Project(s)") were 44% lower than the level recorded in the prior year. We had 24 Projects in process during the current period compared with 33 during the same period last year. Revenues recorded in the current period for other-than long-term construction projects (non-projects) were 7% higher than the level recorded in the prior year. Total sales within the U.S. decreased 14% from the same period last year. Total sales to Asia are down 46% from the same period of the prior year. Sales decreases were recorded over the same period last year to customers in aerospace / defense (9%), industrial (15%) as well as customers involved in construction of buildings and bridges (37%). Please refer to the charts, below, which show the breakdown of sales.

Sales of the Company's products are made to three general groups of customers: industrial, construction and aerospace / defense. A breakdown of sales to the three general groups of customers is as follows:

	Three months ended August 31	
	2013	2012
Industrial	10%	9%
Construction	57%	65%
Aerospace / Defense	33%	26%

At August 31, 2012, the Company had 148 open sales orders in our backlog with a total sales value of \$13.8 million. At August 31, 2013, the Company has 34% fewer open sales orders in our backlog (98 orders) and the total sales value is \$15.4 million or 12% more than the prior year value. Last year's backlog included a small number of orders for a single customer with a high aggregate sales value, to provide seismic protection to buildings in Asia.

The Company's backlog, revenues, commission expense, gross margins, gross profits, and net income fluctuate from period to period. The changes in the current period, compared to the prior period, are not necessarily representative of future results.

Net revenue by geographic region, as a percentage of total net revenue for the three month periods ended August 31, 2013 and August 31, 2012 is as follows:

Three months ended August 31	
2013	2012
USA 62%	52%
Asia 29%	40%
Other 9%	8%

Selling, General and Administrative Expenses

	Three months ended August 31		Change	
	2013	2012	Amount	Percent
Outside Commissions	\$ 246,000	\$ 279,000	\$ (33,000)	- 12%
Other SG&A	779,000	1,444,000	(665,000)	- 46%
Total SG&A	\$ 1,025,000	\$ 1,723,000	\$ (698,000)	- 41%
... as a percentage of net revenue	9%	24%		

8

Selling, general and administrative expenses decreased by 41% from the prior year. Outside commission expense decreased by 12% from last year's level. Other selling, general and administrative expenses decreased 46% from last year to this. This decrease is primarily due to a decrease in air-freight charges incurred last year in order to meet contractual obligations to deliver products on schedule.

The above factors resulted in operating income of \$254,000 for the three months ended August 31, 2013, down 72% from the \$896,000 in the same period of the prior year.

### Stock Options

The Company has a stock option plan which provides for the granting of nonqualified or incentive stock options to officers, key employees and non-employee directors. Options granted under the plan are exercisable over a ten year term. Options not exercised at the end of the term expire.

The Company expenses stock options using the fair value recognition provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). The Company recognized \$43,000 and \$36,000 of compensation cost for the three month periods ended August 31, 2013 and August 31, 2012.

The fair value of each stock option grant has been determined using the Black-Scholes model. The model considers assumptions related to exercise price, expected volatility, risk-free interest rate, and the weighted average expected term of the stock option grants. Expected volatility assumptions used in the model were based on volatility of the Company's stock price for the thirty month period ending on the date of grant. The risk-free interest rate is derived from the U.S. treasury yield. The Company used a weighted average expected term.

The following assumptions were used in the Black-Scholes model to estimate the fair market value of the Company's stock option grants:

	August 2013	August 2012
Risk-free interest rate:	3.25%	1.875%
Expected life of the options:	3.0 years	2.9 years
Expected share price volatility:	36%	43%
Expected dividends:	Zero	Zero
These assumptions resulted in estimated fair-market value per stock option:	\$2.41	\$2.46

The ultimate value of the options will depend on the future price of the Company's common stock, which cannot be forecast with reasonable accuracy.

A summary of changes in the stock options outstanding during the three month period ended August 31, 2013 is presented below:

	Number of Options	Weighted- Average Exercise Price
Options outstanding and exercisable at May 31, 2013:	206,750	\$6.63
Options granted:	18,000	\$8.48
Options exercised:	30,000	\$5.26
Options outstanding and exercisable at August 31, 2013:	194,750	\$7.01
Closing value per share on NASDAQ at August 31, 2013:		\$8.76

#### **Capital Resources, Line of Credit and Long-Term Debt**

The Company's primary liquidity is dependent upon the working capital needs. These are mainly inventory, accounts receivable, costs and estimated earnings in excess of billings, accounts payable, accrued commissions, and billings in excess of costs and estimated earnings. The Company's primary source of liquidity has been operations and bank financing.

Capital expenditures for the three months ended August 31, 2013 were \$667,000 compared to \$528,000 in the same period of the prior year. As of August 31, 2013, the Company has commitments for capital expenditures of \$240,000 during the next twelve months. These expenditures are construction costs contracted to renovate buildings which will house the Company's machining operations, as discussed below.

The substantial renovation of the buildings acquired in 2011 has been completed and relocation is underway for the production machinery from the Company's Tonawanda Island site. The move will be completed in the autumn of 2013. This will allow the former machining areas at the existing Tonawanda Island site to house greatly expanded assembly and product testing areas. All corporate and engineering offices will be unaffected by the change and will remain on Tonawanda Island.

The renovations and modifications to the buildings are extensive, with a total construction cost of \$2.9 million. The Company anticipates that its current cash and bank line of credit resources will be sufficient for that purpose.

The Company believes it is carrying adequate insurance coverage on its facilities and their contents.

The Company has available a \$6,000,000 bank demand line of credit, with interest payable at the Company's option of 30, 60, 90 or 180 day LIBOR rate plus 2.5%, or the bank's prime rate less .25%. There is no balance outstanding as of August 31, 2013 or as of May 31, 2013. The line is secured by accounts receivable, equipment, inventory, and general intangibles, and a negative pledge of the Company's real property. This line of credit is subject to the usual terms and conditions applied by the bank, is subject to renewal annually, and is not subject to an express requirement on the bank's part to lend. The outstanding balance on the line of credit fluctuates as the Company's various long-term projects progress.

The Company is in compliance with restrictive covenants under the line of credit. In these covenants, the Company agrees to maintain the following minimum levels of the stated item:

Covenant	Minimum per Covenant	Current Actual	When Measured
Minimum level of working capital	\$3,000,000	\$13,705,000	Quarterly
Minimum debt service coverage ratio	1.5:1	n/a	Fiscal Year-end

All of the \$6,000,000 unused portion of our line of credit is available without violating any of our debt covenants.

**Inventory and Maintenance Inventory**

	August 31, 2013	May 31, 2013	Increase /(Decrease)
Raw materials	\$ 580,000	\$ 583,000	\$ (3,000 ) -1%
Work in process	7,645,000	7,876,000	(231,000 ) -3%
Finished goods	561,000	665,000	(104,000 ) -16%
Inventory	8,786,000 91%	9,124,000 91%	(338,000 ) -4%
Maintenance and other inventory	903,000 9%	904,000 9%	(1,000 ) -
Total	\$9,689,000 100%	\$10,028,000 100%	\$ (339,000 ) -3%
Inventory turnover	1.6	1.7	

NOTE: Inventory turnover is annualized for the three month period ended August 31, 2013.

Inventory, at \$8,786,000 as of August 31, 2013, is \$338,000 or 4% lower than the prior year-end level of \$9,124,000. Approximately 87% of the current inventory is work in process, 6% is finished goods, and 7% is raw materials.

Maintenance and other inventory represent stock that is estimated to have a product life cycle in excess of twelve months. This stock represents certain items the Company is required to maintain for service of products sold and items that are generally subject to spontaneous ordering. This inventory is particularly sensitive to technological obsolescence in the near term due to its use in industries characterized by the continuous introduction of new product lines, rapid technological advances and product obsolescence. Management of the Company has recorded an allowance for potential inventory obsolescence. The provision for potential inventory obsolescence was \$45,000 for each of the three month periods ended August 31, 2013 and August 31, 2012. The Company continues to rework slow-moving inventory, where applicable, to convert it to product to be used on customer orders.

**Accounts Receivable, Costs and Estimated Earnings in Excess of Billings (CIEB"), and Billings in Excess of Costs and Estimated Earnings ("BIEC")**

	August 31, 2013	May 31, 2013	Increase / (Decrease)	
Accounts receivable	\$ 2,637,000	\$ 2,245,000	\$ 392,000	17%
CIEB	3,122,000	2,458,000	664,000	27%
Less: BIEC	168,000	172,000	(4,000)	-2%
Net	\$ 5,591,000	\$ 4,531,000	\$1,060,000	23%
Number of an average day's sales outstanding in accounts receivable	45	39		

The Company combines the totals of accounts receivable, the current asset CIEB, and the current liability, BIEC, to determine how much cash the Company will eventually realize from revenue recorded to date. As the accounts receivable figure rises in relation to the other two figures, the Company can anticipate increased cash receipts within the ensuing 30-60 days.

Accounts receivable of \$2,637,000 as of August 31, 2013 includes approximately \$246,000 of amounts retained by customers on Projects. It also includes \$42,000 of an allowance for doubtful accounts ("Allowance"). The accounts receivable balance as of May 31, 2013 of \$2,245,000 included an Allowance of \$42,000. The number of an average day's sales outstanding in accounts receivable ("DSO") increased from 39 days at May 31, 2013 to 45 at August 31, 2013. The DSO is a function of 1.) the level of sales for an average day (for example, total sales for the past three months divided by 90 days) and 2.) the level of accounts receivable at the balance sheet date. The level of sales for an average day in the first quarter of the current fiscal year is only slightly more than in the fourth quarter of the prior year. The level of accounts receivable at the end of the current fiscal quarter is 17% more than at the end of the prior year. The net effect of these two factors caused the DSO to increase from last year end to this quarter-end. It is expected that the retained amounts will be released in the normal course of the business in accordance with the related contracts. The Company expects to collect the net accounts receivable balance, including the retainage, during the next twelve months.

As noted above, CIEB represents revenues recognized in excess of amounts billed. Whenever possible, the Company negotiates a provision in sales contracts to allow the Company to bill, and collect from the customer, payments in advance of shipments. Unfortunately, provisions such as this are often not possible. The \$3,122,000 balance in this account at August 31, 2013 is 27% more than the prior year-end. The Company expects to bill the entire amount during the next twelve months. 38% of the CIEB balance as of the end of the last fiscal quarter, May 31, 2013, was billed to those customers in the current fiscal quarter ended August 31, 2013. The remainder will be billed as the Projects progress, in accordance with the terms specified in the various contracts.

The balances in this account are comprised of the following components:

	August 31, 2013	May 31, 2013
Costs	\$ 3,544,000	\$ 2,752,000
Estimated Earnings	779,000	640,000
Less: Billings to customers	1,201,000	934,000
CIEB	\$ 3,122,000	\$ 2,458,000
Number of Projects in progress	14	13

As noted above, BIEC represents billings to customers in excess of revenues recognized. The \$168,000 balance in this account at August 31, 2013 is down slightly from the \$172,000 balance at the end of the prior year. This decrease is the result of normal flow of the projects through production with billings to the customers as permitted in the related contracts.

The balance in this account fluctuates in the same manner and for the same reasons as the account “costs and estimated earnings in excess of billings”, discussed above. Final delivery of product under these contracts is expected to occur during the next twelve months.

The balances in this account are comprised of the following components:

	August 31, 2013	May 31, 2013
Billings to customers	\$ 409,000	\$ 256,000
Less: Costs	185,000	71,000
Less: Estimated Earnings	56,000	13,000
BIEC	\$ 168,000	\$ 172,000
Number of Projects in progress	4	3

Summary of factors affecting the balances in CIEB and BIEC:

	August 31, 2013	May 31, 2013
Number of Projects in progress	18	16
Aggregate percent complete	58%	52%
Average total sales value of Projects in progress	\$445,000	\$415,000
Percentage of total value invoiced to customer	20%	18%

The Company's backlog of sales orders at August 31, 2013 is \$15.4 million, up 18% from \$13.1 million at the end of the prior year. \$3.8 million of the current backlog is on Projects already in progress.

### Other Balance Sheet Items

Accounts payable, at \$1,065,000 as of August 31, 2013, is 12% less than the prior year-end. Commission expense on applicable sales orders is recognized at the time revenue is recognized. The commission is paid following receipt of payment from the customers. Accrued commissions as of August 31, 2013 are \$516,000, up 18% from the \$437,000 accrued at the prior year-end. The Company expects the current accrued amount to be paid during the next twelve months. Other current liabilities decreased 56% from the prior year-end, to \$766,000. This is primarily due to a lower level of customer advance payments and a lower level of accrued incentive compensation expense. Payments on these liabilities will take place as scheduled within the next twelve months.

Management believes the Company's cash flows from operations and borrowing capacity under the bank line of credit is sufficient to fund ongoing operations, capital improvements and share repurchases (if any) for the next twelve months.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Smaller reporting companies are not required to provide the information called for by this item.

**Item 4. Controls and Procedures**

(a) *Evaluation of disclosure controls and procedures.*

The Company's principal executive officer and principal financial officer have evaluated the Company's disclosure controls and procedures as of August 31, 2013 and have concluded that as of the evaluation date, the disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer to allow timely decisions regarding required disclosure.

(b) *Changes in internal control over financial reporting.*

There have been no changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter ended August 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's control over financial reporting.

**Part II - Other Information**

ITEM 1 Legal Proceedings

There are no other legal proceedings except for routine litigation incidental to the business.

ITEM 1A Risk Factors

Smaller reporting companies are not required to provide the information called for by this item.

ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds

- (a) The Company sold no equity securities during the fiscal quarter ended August 31, 2013 that were not registered under the Securities Act.
- (b) Use of proceeds following effectiveness of initial registration statement:  
Not Applicable
- (c) Repurchases of Equity Securities – Quarter Ended August 31, 2013

<i>(a) Total Number Period of Shares Purchased</i>	<i>(b) Average Price Paid Per Share</i>	<i>(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</i>	<i>(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs</i>

(1) On November 2, 2012, the Board of Directors of the Registrant voted unanimously to continue the share repurchase agreement, authorized by the Board in 2010, with Merrill Lynch, Pierce, Fenner & Smith Incorporated ("MLPF&S") under which the Company repurchases shares of its common stock. The Company has designated \$419,815 of cash on hand as available for open-market purchases. Since Board authorization in 2010, a total of 15,600 shares have been purchased at an average price per share of \$5.14. Repurchases are made by MLPF&S for the benefit of the Registrant.

(d) Under the terms of the Company's credit arrangements with its primary lender, the Company is required to maintain net working capital of at least \$3,000,000, as such term is defined in the credit documents. On August 31, 2013, under such definition, the Company's net working capital was significantly in excess of such limit. Additional information regarding the Company's line of credit and restrictive covenants appears under the caption "Capital Resources, Line of Credit and Long-Term Debt" in the Management's Discussion and Analysis of Financial Condition and Results of Operations.

ITEM 3 Defaults Upon Senior Securities

None

ITEM 4 Mine Safety Disclosures

Not applicable

ITEM 5 Other Information

(a) Information required to be disclosed in a Report on Form 8-K, but not reported

None

(b) Material changes to the procedures by which Security Holders may recommend nominees to the Registrant's Board of Directors

None

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Stockholders

Taylor Devices, Inc.

We have reviewed the accompanying condensed consolidated balance sheet of Taylor Devices, Inc. and Subsidiary as of August 31, 2013, the related condensed consolidated statements of income for the three months ended August 31, 2013 and 2012 and cash flows for the three months ended August 31, 2013 and 2012. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of May 31, 2013, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated August 2, 2013, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of May 31, 2013 is fairly stated, in all material respects, in relation to the balance sheet from which it has been derived.
