PROSPECTUS SUMMARY

You should read the following summary together with the more detailed information and financial statements and notes thereto appearing elsewhere in or incorporated by reference in this prospectus supplement. You should carefully consider, among other things, the matters discussed under "Risk Factors" on page S-4 and incorporated by reference in this prospectus supplement.

Our Company

We are a branded lifestyle media company providing a broad selection of information, media, products and services to customers who value personal development, wellness, and responsible media. We offer our customers the ability to make purchasing decisions based on these values while providing quality offerings at a price comparable to mainstream alternatives. We market our media and products through a multi-channel approach including traditional media channels, direct to consumers via the Internet, subscription clubs, catalog and broadband, and through retailers and corporate accounts. At the end of 2005, our home media was carried by more than 50,000 retail stores in the United States alone, and we had approximately 7 million direct buyers.

We have established ourselves as a lifestyle media brand, content producer and licensor, information resource and authority in the Lifestyles of Health and Sustainability (LOHAS) market including the emerging "Media that Matters" (MTM) market. The LOHAS market, which represented \$227 billion in sales according to the 2000 Natural Business Communication study, consists of five main sectors: sustainable economy, healthy living, alternative healthcare, personal development and ecological lifestyles. We consider the MTM market to consist of four distinct sectors: children's, family entertainment, documentaries and inspirational entertainment.

We believe our brand represents a unifying symbol of these emerging media and lifestyle genres. Our lifestyle brand is built around our ability to develop and offer media content, products and lifestyle solutions to consumers in the LOHAS and MTM markets. Our content forms the basis of our proprietary offerings, on which we realize our highest margins, which then drive demand for parallel product and service offerings. Our operations are vertically integrated from content creation, through product development and sourcing, to customer service and distribution. We market our products and services across two segments, business and direct-to-consumer. We distribute our products in each of these sales segments from a single fulfillment center.

Our Content

Our business model revolves around content creation, which forms the basis for our proprietary products. We have an "in house" production team that produces our programming, which has won 53 Telly awards, honoring excellence in video and film production, and several medals at the U.S. International Film and Video Festival held in New York. We are fully high definition and 5.1 surround sound capable and do the majority of our authoring and editing at our Colorado facility, ensuring the quality standards that drive our awards. We also develop children's programming, which has been the recipient of several Parent's Choice and Kids First Awards recognizing new products that help children grow imaginatively, physically, and mentally. During 2005, we produced 20 new titles and added 800 titles to our DVD library through our acquisition of assets of GoodTimes Entertainment. We also develop and market music and audio CDs and publish printed content.

Our Products

Our visual media programs represent an integral part of our proprietary product offering. We currently stock approximately 10,000 stock keeping units, of which approximately 7,000 are branded

proprietary offerings, including media, accessories and soft goods. In 2005, our proprietary products constituted over 70% of our product sales.

Our Growth Strategies

Our objective is to be the leading provider of lifestyle media products. Key elements of our growth strategy are to:

Expand our media offering;

Capitalize on our market share positioning;

Improve our profit margins;

Strengthen our lifestyle brand;

Launch a mass-market brand in fitness;

Expand our proprietary products;

Capitalize on our multi-channel approach;

Complement our existing business with selective strategic acquisitions; and

Establish a lifestyle online community.

Corporate Information

Our principal executive offices are located at 360 Interlocken Blvd., Broomfield, Colorado 80021 and our telephone number at that location is (303) 222-3600.

RISK FACTORS

In addition to the following risk factors, you should carefully consider, among other things, the matters discussed under "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2005, and in other documents that we subsequently file with the Securities and Exchange Commission, all of which is incorporated by reference to this prospectus supplement.

Risks Related to this Offering and Ownership of our Class A Common Stock

The trading price for our Class A common stock has been and may continue to be volatile.

The trading price of our Class A common stock has been volatile since our initial public offering and will likely continue to be volatile. For example, during the past 12 months, the last reported sale price of our Class A common stock has fluctuated from a high of \$18.73 per share to a low of \$5.85 per share. The trading price of our Class A common stock may fluctuate widely in response to various factors, some of which are beyond our control. These factors include:

Quarterly variations in our results of operations or those of our competitors.

Announcements by us or our competitors of acquisitions, new products, product improvements, significant contracts, commercial relationships or capital commitments.

Disruption to our operations.

The emergence of new sales channels in which we are unable to compete effectively.

Our ability to develop and market new and enhanced products on a timely basis.

Any major change in our board or management.

Changes in governmental regulations or in the status of our regulatory approvals.

Recommendations by securities analysts or changes in earnings estimates.

Announcements about our earnings that are not in line with analyst expectations, the likelihood of which is enhanced because it is our policy not to give guidance on earnings.

The volume of shares of Class A common stock available for public sale.

Sales of stock by us or by our stockholders.

Short sales, hedging and other derivative transactions on shares of our Class A common stock.

General economic conditions and slow or negative growth of related markets.

In addition, the stock market in general has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. These broad market factors may seriously harm the market price of our Class A common stock, regardless of our actual operating performance. In the past, following periods of volatility in the overall market and the market price of a company's securities, securities class action litigation has often been instituted against these companies. This litigation, if

Edgar Filing: GAIAM INC - Form S-3/A

instituted against us, could result in substantial costs and a diversion of our management's attention and resources.

We may apply the proceeds of this offering to uses that do not improve our operating results or increase the value of your investment.

We anticipate that we will use the net proceeds from this offering to fund expansion of our business, including working capital and capital expenditures. In addition, we may use proceeds of this offering for acquisitions of businesses or other assets that we believe will complement our business. Pending such uses, we may be limited in the types of investments we can make with the

S-4

Edgar Filing: GAIAM INC - Form S-3/A

proceeds in order to comply with the requirements of the Investment Company Act of 1940. As a result of the foregoing, these proceeds could be applied in ways that do not improve our operating results or increase the value of your investment.

USE OF PROCEEDS

We currently intend to use the net proceeds from the sale of the securities offered under this prospectus supplement to fund expansion of our business. Our Class A common stock is offered subject to receipt and acceptance by the underwriters and to the other conditions, including the right to reject orders in whole or in part.

Prior to the offering, we provided members of the underwriters' sale teams with examples of our merchandise, the aggregate retail value of which did not exceed \$10,000.

Indemnification of Underwriters

We will indemnify the underwriters against some civil liabilities, including liabilities under the Securities Act and liabilities arising from breaches of our representations and warranties contained in the underwriting agreement. If we are unable to provide this indemnification, we will contribute to payments the underwriters may be required to make in respect of those liabilities.

No Sales of Similar Securities

The underwriters will require certain of our shareholders to agree not to offer, sell, agree to sell, directly or indirectly, or otherwise dispose of any shares of Class A or Class B common stock or any securities convertible into or exchangeable for shares of common stock except for the shares of Class A common stock offered in this offering without the prior written consent of Thomas Weisel Partners LLC for a period of 90 days after the date of this prospectus supplement.

We have agreed that for a period of 90 days after the date of this prospectus supplement, we will not, without the prior written consent of Thomas Weisel Partners LLC, offer, sell or otherwise dispose of any shares of Class A or Class B common stock, except for the shares of Class A common stock offered in this offering, the shares of Class A common stock issuable upon exercise of outstanding options on the date of this prospectus supplement and the shares of our Class A common stock that are issued under our stock option plans.

Nasdaq National Market Listing

Our common stock is quoted on the Nasdaq National Market under the symbol "GAIA."

Short Sales, Stabilizing Transactions and Penalty Bids

In order to facilitate this offering, persons participating in this offering may engage in transactions that stabilize, maintain or otherwise affect the price of our Class A common stock during and after this offering. Specifically, the underwriters may engage in the following activities in accordance with the rules of the Securities and Exchange Commission.

Short sales. Short sales involve the sales by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are short sales made in an amount not greater than the underwriters' over-allotment option to purchase additional shares from us in this offering. The underwriters may close out any covered short position by either exercising their over-allotment option to purchase shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Naked short sales are any short sales in excess of such over-allotment option. The underwriters must close out any naked

short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

Stabilizing transactions. The underwriters may make bids for or purchases of the shares for the purpose of pegging, fixing or maintaining the price of the shares, so long as stabilizing bids do not exceed a specified maximum.

Penalty bids. If the underwriters purchase shares in the open market in a stabilizing transaction or syndicate covering transaction, they may reclaim a selling concession from the underwriters and selling group members who sold those shares as part of this offering. Stabilization and syndicate covering transactions may cause the price of the shares to be higher than it would be in the absence of these transactions. The imposition of a penalty bid might also have an effect on the price of the shares if it discourages presales of the shares.

The transactions above may occur on the Nasdaq National Market or otherwise. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of the shares. If these transactions are commenced, they may be discontinued without notice at any time.

ABOUT THIS PROSPECTUS

This prospectus is part of a "shelf" registration statement that we have filed with the Securities and Exchange Commission, which we refer to as the "SEC." By using a shelf registration statement, we may issue and sell to the public any part or all of the shares described in the registration statement, at any time and from time to time, in one or more public offerings, up to an aggregate amount of \$100,000,000. The exhibits to our registration statement contain the text of certain contracts and other important documents we have summarized in this prospectus, in any prospectus supplement or in the documents incorporated by reference in this prospectus. Since these summaries may not contain all the information that you may find important in deciding whether to purchase the securities we offer, you should review the full text of these documents. The registration statement, the exhibits and the documents incorporated by reference can be obtained from the SEC as indicated under the heading "Where You Can Find More Information."

This prospectus only provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that contains specific information about the terms of those securities. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the additional information described below under the heading "Where You Can Find More Information," and "Information Incorporated by Reference."

We may sell the securities to or through underwriters, dealers, or agents or directly to purchasers. We and our agents reserve the sole right to accept and to reject in whole or in part any proposed purchase of securities. See "Plan of Distribution" below. A prospectus supplement, which we will provide to you each time we offer securities, will provide the names of any underwriters, dealers, or agents involved in the sale of the securities, and any applicable fee, commission, or discount arrangements with them.

You should rely only on the information contained or incorporated by reference in this prospectus. We have not authorized anyone to provide you with different information. We are not making an offer of these securities in any jurisdiction where the offer is not permitted. You should not assume that the information in this prospectus or a prospectus supplement is accurate as of any date other than the date on the front of the document.

As of April 28, 2006, there were 15,560,378 shares of Class A common stock outstanding, and 5,400,000 shares of Class B common stock outstanding. There were no shares of preferred stock outstanding. As of April 28, 2006, 1,125,454 shares were reserved for issuance upon the exercise of outstanding options.

As of March 6, 2006, the shares of Class A common stock were held of record by 8,173 shareholders, and the shares of Class B common stock were held by one shareholder.

Capital Stock

Each holder of shares of Class A common stock is entitled to one vote for each share held on all matters submitted to a vote of shareholders. Each share of Class B common stock is entitled to ten votes on all matters submitted to a vote of shareholders. There are no cumulative voting rights. All holders of shares of Class A common stock and shares of Class B common stock vote as a single group on all matters that are submitted to the shareholders for a vote. Accordingly, holders of a majority of the votes of the shares of Class A common stock and shares of Class B common stock entitled to vote in any election of directors may elect all of the directors who stand for election.

Shares of Class A common stock and shares of Class B common stock are entitled to equal dividends, if any, as may be declared by the Board of Directors out of legally available funds. In the event of a liquidation, dissolution or winding up of Gaiam, the shares of Class A common stock and shares of Class B common stock would be entitled to share ratably in our assets remaining after the payment of all of our debts and other liabilities. Holders of shares of Class A common stock and shares of Class B common stock have no preemptive, subscription or redemption rights, and there are no redemption or sinking fund provisions applicable to the shares of Class A common stock and Class B common stock. The outstanding shares of Class A common stock and shares of Class B common stock are, and the shares of Class A common stock offered by us in this offering will be, when issued and paid for, fully paid and non-assessable. The Class B common stock may not be transferred unless converted into shares of Class A common stock, other than certain transfers to affiliates and family members. The shares of Class B common stock are convertible one-for-one into shares of Class A common stock, at the option of the holder of the shares of Class B common stock.

Our board of directors is authorized, subject to any limitations prescribed by Colorado law, to issue at any time up to 50,000,000 shares of preferred stock. The board may provide for the issuance of the preferred stock in one or more series or classes with designations, preferences, limitations and relative rights determined by the board without any vote or action by the shareholders, although the board may not issue voting preferred stock without the consent or approval of a majority of the Class B common stock. As a result, the board has the power to issue preferred stock with voting, conversion and other rights and preferences that could adversely affect the voting power or other rights of the holders of the shares. Although we have no current plans to issue any preferred stock, the issuance of preferred stock or of rights to purchase preferred stock could have the effect of making it more difficult for a third party to acquire us, or of discouraging a third party from attempting to acquire us. Such an issuance could also dilute your voting power.

Transfer Agent and Registrar

The transfer agent and registrar for the shares is Computershare Trust Company.

USE OF PROCEEDS

Unless otherwise specified in a prospectus supplement accompanying this prospectus, we currently intend to use the net proceeds from the sale of the securities offered under this prospectus to fund expansion of our business. The timing and amount of our actual expenditures will be based on many factors, including our ability to identify products, or companies to acquire, and to negotiate and enter into definitive agreements with respect to any such acquisition. Until we use the net proceeds of this offering for the above purposes, we intend to invest the funds in short-term, investment grade, interest-bearing securities. We cannot predict whether the proceeds invested will yield a favorable return.

PLAN OF DISTRIBUTION

We may sell the offered securities through agents; through underwriters or dealers; directly to one or more purchasers; or through a combination of any of these methods of sale.

We may distribute the securities from time to time in one or more these transactions at a fixed price or prices, which may be changed; at market prices prevailing at the time of sale; at prices related to the prevailing market prices; or at negotiated prices. We may engage in at the market offerings of our Class A common stock. An "at the market" offering is an offering of our Class A common stock at other than a fixed price to or through a market maker. We may also determine the price or other terms of the securities offered under this prospectus by use of an electronic auction.

The prospectus supplement with respect to the securities being offered will set forth the terms of the offering, including the names of the underwriters, dealers or agents, if any, the method of distribution, the purchase price of the securities, the net proceeds to us, any underwriting discounts and other items constituting underwriters' compensation, any discounts or concessions allowed or reallocated or paid to dealers and any securities exchanges on which the securities may be listed. Also, if applicable, we will describe in the prospectus supplement how any auction will determine the price or any other terms, how potential investors may participate in the auction and the nature of the underwriters' obligations with respect to the auction.

If underwriters are used in an offering of the securities, we will execute an underwriting agreement with the underwriters and will specify the name of each underwriter and the terms of the transaction (including any underwriting discounts and other terms constituting compensation of the underwriters and any dealers) in a prospectus supplement. If an underwriting syndicate is used, the managing underwriter(s) will be specified on the cover of the prospectus supplement. If underwriters are used in the sale, the offered securities will be acquired by the underwriters for their own accounts and may be resold from time to time in one or more transactions described above, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase the offered securities will be subject to conditions precedent, and the underwriters will be obligated to purchase all of the offered securities if any are purchased. We may grant underwriters who participate in the distribution of the securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution.

If dealers are used in an offering of the securities, we will sell the securities to the dealers as principals. The dealers then may resell the securities to the public at varying prices which they determine at the time of resale. The names of the dealers and the terms of the transaction will be specified in a prospectus supplement.

The securities may be sold directly by us or through agents we designate. If agents are used in an offering, the names of the agents and the terms of the agency will be specified in a prospectus supplement. Unless otherwise indicated in a prospectus supplement, the agents will act on a best-efforts basis for the period of their appointment.

Dealers and agents named in a prospectus supplement may be deemed to be underwriters (within the meaning of the Securities Act of 1933) of the securities described therein. In addition, we may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any resales thereof.

Underwriters, dealers and agents may be entitled to indemnification by us against specific civil liabilities, including liabilities under the Securities Act of 1933, or to contribution with respect to payments that the underwriters or agents may be required to make. The terms of any indemnification agreement will be set forth in a prospectus supplement. Underwriters, dealers or agents and their associates who may become involved in the sale of the securities may engage in transactions with, and perform services for us in the ordinary course of business. In addition, we may use underwriters with whom we have a material relationship. We will describe the nature of any such relationship in the applicable prospectus supplement, naming the underwriter.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the

open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. We make no representation or prediction as to the direction or magnitude of any effect that such transactions may have on the price of the securities. For a description of these activities, see the information under the heading "Underwriting" in the applicable prospectus supplement.

Any Class A common stock sold pursuant to a prospectus supplement will be eligible for listing and trading on the Nasdaq National Market, subject to official notice of issuance. Any underwriters to whom securities are sold by us for public offering and sale may make a market in the securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice.

We may sell the offered securities in and outside the United States through underwriters, dealers or agents or directly to purchasers. The prospectus supplement will set forth the following information:

the terms of the offering;

the names of any underwriters, dealers or agents;

the purchase price;

the net proceeds to us;

any delayed delivery arrangements;

any underwriting discounts and other items constituting underwriters' compensation;

the initial public offering price;

any discounts or concessions allowed, reallowed or paid to dealers; and

any commissions paid to agents.

If we use underwriters in the sale of the offered securities, the underwriters will acquire the securities for their own account. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer the securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless we inform you otherwise in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to conditions, and the underwriters will be obligated to purchase all the securities if they purchase any of them. The underwriters may change from time to time any public offering price and any discounts or concessions allowed or reallowed or paid to dealers.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include over-allotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, in which selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if the shares of offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued at any time. If we

use dealers in the sale of securities, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The dealers participating in any sale of our securities may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any sale of those securities. We will include in the prospectus supplement the names of the dealers and the terms of the transaction.

We may sell the securities directly. In that event, no underwriters, dealers or agents would be involved. We may also sell the securities through agents we designate from time to time. In the prospectus supplement, we will name any agent involved in the offer or sale of the offered securities, and we will describe any commissions payable by us to the agent. Unless we inform you otherwise in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment. We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any sale of those securities. We will describe the terms of any of these sales in the prospectus supplement.

We may have agreements with the underwriter, dealers and agents to indemnify them against civil liabilities, including liabilities under the Securities Act of 1933, or to contribute with respect to payments that the underwriter, dealers or agents may be required to make. Underwriters, dealers and agents may engage in transactions with us or may perform services for us in the ordinary course of their businesses.

Underwriters, dealers and agents participating in a sale of securities may be deemed to be underwriters as defined in the Securities Act of 1933, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act of 1933.

LEGAL MATTERS

Unless otherwise specified in the prospectus supplement accompanying this prospectus, the validity of the offered securities being offered hereby will be passed on for us by Bartlit Beck Herman Palenchar & Scott LLP, Denver, Colorado. Any underwriters will also be advised about legal matters by their own counsel, which will be named in the prospectus supplement.

Item 15. Indemnification of Officers and Directors.

Colorado law provides for indemnification of directors, officers and other employees in certain circumstances (C.R.S. (S) 7-109-101 et. seq. (1994)) and for the elimination or limitation of the personal liability for monetary damages of directors under certain circumstances (C.R.S. (S) 7-108-402 (1994)). Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a twenty percent (20%) change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

provided, however, that paragraphs (i), (ii) and (iii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time

shall be deemed to be the initial bona fide offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date;

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 above, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person, if any, of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Pursuant to the requirements of the Securities Act, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Broomfield, State of Colorado, on May 17, 2006.
