**EXPLANATORY NOTE**

On November 12, 2013, management of Altnet Systems, Inc. (the “Company”), after consultation with the Board of Directors, determined that the Company’s consolidated financial statements for the quarter ended June 30, 2012 contained errors relating to the omission of material accruals at June 30, 2012 and should no longer be relied upon and be restated accordingly. This Amendment reflects the restatement of the Company’s consolidated financial statements and amendment of related disclosures as at June 30, 2012.

In September 30, 2013, the Company agreed to accept invoices and credits notes valued at \$266,534 and \$47,442, respectively, from Utiba Pte. (“Utiba”), a non-controlling interest investor in ATS, for work performed on a revenue contract held by ATS during the Company’s 2012 fiscal year. The Company was unaware that Utiba had performed the services until Utiba had approached the Company during the Company’s 2013 third quarter. Additionally, Utiba agreed to accept an invoice valued at \$126,261 from the Company for work performed by the Company on the same contract. Management initially had no intention of charging any amounts to Utiba; however, after being approached by Utiba, it was determined to be the best course of action for the Company as management has determined that cancellation of the revenue contract, which occurred during the period ended June 30, 2012, had in fact triggered revenue recognition and recognition of the related costs of revenues in accordance with accounting principles generally accepted in the United States of America. Given that the results of these transactions have been assessed as material to the previously issued financial statements as of June 30, 2012, management determined that an accounting error had occurred and therefore, restatement of this period is appropriate.

The corrections of errors as of June 30, 2012 resulted in a \$126,621 increase to sales, \$266,534 increase to cost of sales, and \$61,868 decrease to non-controlling interest; and a \$92,831 increase to accounts payable and accrued charges and \$21,292 decrease to non-controlling interest.

No attempt has been made in this Amendment to modify or update the disclosures in the Original Filing except as required to reflect the effect of the restatement discussed herein. Except as otherwise noted herein, this Amendment continues to describe conditions as of the date of the Original Filing and the disclosures contained herein have not been updated to reflect events, results or developments that occurred after the date of the Original Filing, or to modify or update those disclosures affected by subsequent events. Other forward-looking statements made in the Original Filing have not been revised to reflect events, results or developments that occurred or facts that became known to us after the date of the Original Filing, other than the restatement, and such forward-looking statements should be read in conjunction with our filings with the SEC subsequent to the filing of the Original Filing. Accordingly, this Amendment should be read in conjunction with the Company’s other filings with the SEC.

Part I – Item 2 (Management’s Discussion and Analysis of Financial Condition and Results of Operations), Part I – Item 1 (Financial Statements and Supplementary Data), have been amended from the Original Filing as a result of the restatement.

**NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS**  
**(Unaudited)**

**June 30, 2012 and December 31, 2011**

**NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION**

Alternet Systems Inc. ( Alternet or the Company ), through its subsidiaries, provides leading edge mobile financial solutions and mobile security and related solutions. The former are offered throughout the Western Hemisphere, but most actively in South America, and the latter are offered globally.

The Company was organized under the laws of the State of Nevada on June 26, 2000, under the name North Pacific Capital Corp. In 2001 the Company changed its name to SchoolWeb Systems Inc. and then, in 2002, to Alternet Systems, Inc. On December 31, 2007 the Company executed a merger with TekVoice Communications, Inc. of Miami, Florida. Since then the Company has changed business focus and strategy to mobile financial services and mobile security. In 2011 TekVoice became inactive.

In July 2009, the Company purchased 51% of the outstanding shares of Alternet Transactions Systems, Inc. ( ATS ), a company incorporated in the State of Florida on July 29, 2009, for \$5,100. ATS is doing business as Utiba Americas. In December 2011, ATS opened a branch in Ecuador.

In September 2009, the Company purchased 60% of the outstanding shares of International Mobile Security, Inc. ( IMS ), a company incorporated in the State of Florida for \$6,000.

In January 2010, AI Systems Group (Canada) Inc., a subsidiary, was dissolved. All transactions incurred from January 1, 2010 to January 11, 2010 have been included in these interim financial statements.

In February 2011, the Company purchased 100% of the outstanding shares of Megatecnica, S.A., a company incorporated in Panama.

In August 2011, the Company incorporated a wholly owned subsidiary, Utiba Guatemala, S.A., in Guatemala.

In September 2011, the Company formed two one-member limited liability companies, Alternet Financial Solutions, L.L.C. and Alternet Payment Solutions, L.L.C., in the State of Florida.

These consolidated interim financial statements have been prepared on the basis of a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. At June 30, 2012 the Company had a working capital deficiency of \$1,444,318. The Company's continued operations are dependent on the successful implementation of its business plan, its ability to obtain additional financing as needed, continued support from creditors, settling its outstanding debts and ultimately attaining profitable operations.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

**Principles of Consolidation**

The consolidated interim financial statements include the accounts of the following companies:

- Alternet Systems Inc.
- AI Systems Group, Inc., a wholly owned subsidiary of Alternet

Edgar Filing: ALTERNET SYSTEMS INC - Form 10-Q/A

- Tekvoice Communications, Inc., a wholly owned subsidiary of Alternet
- Alternet Transactions Systems, Inc., a subsidiary of Alternet
- Utiba Guatemala, S.A., a wholly-owned subsidiary of Alternet Transactions Systems Inc.
- International Mobile Security, Inc, a subsidiary of Alternet
- Megatecnica, S.A., a wholly owned subsidiary of International Mobile Security, Inc.
- Alternet Financial Solutions, L.L.C, wholly-owned subsidiary of Alternet
- Alternet Payment Solutions, L.L.C, wholly-owned subsidiary of Alternet

The minority interests of ATS, IMS, and ATS s and IMS s wholly owned subsidiaries have been deducted from earnings and equity. All significant intercompany transactions and account balances have been eliminated.

**(Unaudited)**

**June 30, 2012 and December 31, 2011**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Use of Estimates and Assumptions**

Preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Cash and Cash Equivalents**

The Company considers all liquid investments, with an original maturity of three months or less when purchased, to be cash equivalents.

**Equipment**

Fixed assets are recorded at cost and depreciated at the following rates:

Computer equipment	-	30% declining balance basis
Computer software	-	30% declining balance basis
Equipment	-	20% declining balance basis

**Impairment of Long Lived Assets**

Management monitors the recoverability of long-lived assets based on estimates using factors such as current market value, future asset utilization, and future undiscounted cash flows expected to result from its investment or use of the related assets. The Company's policy is to record any impairment loss in the period when it is determined that the carrying amount of the asset may not be recoverable. Any impairment loss is calculated as the excess of the carrying value over estimated realizable value.

**Intellectual Property** The Company accounts for its intellectual property in accordance with the Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS 142). Under the provisions of SFAS 142, intangible assets deemed to have an indefinite life are not amortized but are subject to impairment tests at each reporting date. The Company assesses the impairment of intangible assets on a quarterly basis or whenever events or changes in circumstances indicate that the fair value is less than its carrying value. If the carrying amount of the intangible asset exceeds its fair value, the intangible asset is considered impaired and the second step of the test is performed to determine the amount of impairment loss, if any.

**Revenue Recognition**

The Company derives its revenues from the sale of licenses of software, implementation services, support services, and telecommunication services. Revenues are recognized when title transfers or services are rendered, as follows:

- a) Revenue from the sale of licenses is recognized when the title of the license transfers to the customer.
- b) Revenue from implementation services performed is recognized upon completion of the service.
- c) Revenue from support services is recognized as earned.
- d) Revenue from telecommunication services are recognized when billed, which occurs at the end of the month the services are provided.

The Company invoices 100% of the implementation services and requires customers to pay a non-refundable deposit prior to any services being performed. The Company recognizes the customer deposit as unearned revenue until either completion of the implementation or upon the contract being cancelled at which time the revenue is recognized. The uncollected portion of the implementation invoice is recorded as customer deposits until collection has occurred, completion of the implementation services, or upon the contract being cancelled.

The Company invoices support services at the beginning of the term and recognizes the revenue over the term of the agreement.

**Foreign Currency Translation**

The financial statements are presented in United States dollars. In accordance with Statement of Financial Accounting Standards No. 52, Foreign Currency Translation, foreign denominated monetary assets and liabilities are translated to their United States dollar equivalents using foreign exchange rates which prevailed at the balance sheet date. Revenue and expenses are translated at average rates of exchange during the year. Related translation adjustments are reported as a separate component of stockholders' deficit, whereas gains or losses resulting from foreign currency transactions are included in the results of operations.

**(Unaudited)**

**June 30, 2012 and December 31, 2011**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Fair Value of Financial Instruments**

In accordance with the requirements of SFAS No. 107, the Company has determined the estimated fair value of financial instruments using available market information and appropriate valuation methodologies. The fair value of financial instruments classified as current assets or liabilities approximate carrying value due to the short-term maturity of the instruments.

**Income Taxes**

The Company accounts for income taxes under a method which requires the Company to recognize deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements carrying amounts and tax basis of assets and liabilities using enacted tax rates. The Company presently prepares its tax returns on the cash basis and financial statement on the accrual basis. No deferred tax assets or liabilities have been recognized at this time, since the Company has shown losses for both tax and financial reporting.

**Stock-Based Compensation**

Prior to January 1, 2006, the Company accounted for stock-based awards under the recognition and measurement provisions of Accounting Principles Board Opinion ("APB") No. 25, "Accounting for Stock Issued to Employees" using the intrinsic value method of accounting, under which compensation expense was only recognized if the exercise price of the Company's employee stock options was less than the market price of the underlying common stock on the date of grant. Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123R "Share Based Payments", using the modified prospective transition method. Under that transition method, compensation cost is recognized for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R.

All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based on the fair value of the equity instruments issued.

**Loss per Share**

The Company computes net earnings (loss) per share in accordance with SFAS No. 128, Earnings per Share. SFAS No. 128 requires presentation of both basic and diluted earnings per share (EPS) on the face of the statement of operations. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including warrants using the treasury stock method. Diluted EPS excludes all dilutive potential common shares if their effect is anti-dilutive. As the Company has net losses, no common equivalent shares have been included in the computation of diluted net loss per share as the effect would be anti-dilutive.

**Risk Management**

The Company is exposed to credit risk through accounts receivable and therefore, the Company maintains adequate

provisions for potential credit losses.

The Company's functional currency is the United States dollar. The Company operates in foreign jurisdictions, giving rise to exposure to market risks from changes in foreign currency rates. The financial risk to the Company's operations arises from fluctuations in foreign exchange rates and the degree of volatility of these rates. Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk.

**Recent Accounting Pronouncements**

In January 2011, the FASB issued ASU 2011-01, *Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings* in Update No. 2010-20 (Receivables Topic 310), which is effective upon issuance. This update defers the effective date of the disclosures required under ASU 2010-20 to be concurrent with the effective date of the guidance for determining what constitutes a troubled debt restructuring as presented in proposed ASU update: Receivables (Topic 310) Clarifications to Accounting for Troubled Debt Restructurings by Creditors. This standard did not have an effect on the Company's reported financial position or results of operations.

In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements (Transfers and Service Pricing Topic 860)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update provides on the accounting for repurchase agreements (repos) and other agreements that entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. This standard did not have an effect on the Company's reported financial position or results of operations.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (Fair Value Measurement Topic 820)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update explains how to measure fair value. This standard did not have an effect on the Company's reported financial position or results of operations.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income (Comprehensive Income Topic 220)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update provides guidance on improving the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. This standard did not have an effect on the Company's reported financial position or results of operations.

In September 2011, the FASB issued ASU 2011-08, *Testing Goodwill for Impairment (Intangibles - Goodwill and Other Topic 350)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update simplifies how entities test goodwill for impairment by permitting them to use qualitative factors to first to determine whether an impairment is more likely or not. This standard did not have an effect on the Company's reported financial position or results of operations.

In September 2011, the FASB issued ASU 2011-09, *Disclosures about an Employer's Participation in a Multiemployer Plan (Compensation - Retirement Benefits - Multiemployer Plans Topic 715-80)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update requires increased disclosure from Company's participating in a Multiemployer Plan. This standard did not have an effect on the Company's reported financial position or results of operations.

In December 2011, the FASB issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities (Balance Sheet Topic 210)*, which is effective for financial statements issued for interim and annual periods beginning on or after January 1, 2013. This update facilitates comparison between financial statements presented under US GAAP and financial statements prepared under IFRS. This standard is not expected to have an effect on the Company's reported financial position or results of operations.

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05 (Comprehensive Income Topic 220)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update defers some of the requirements relating to the reclassification of items out of Other Comprehensive Income under ASU 2011-05. This standard did not have an effect on the Company's reported financial position or results of operations.

In July 2012, the FASB issued ASU 2012-02, *Testing Indefinite-Lived Intangible Assets for Impairment (Intangibles Goodwill and Other Topic 350)*, which is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. This update simplifies how an entity tests these assets for impairment and tries to improve the consistency in testing guidance among long-lived asset categories. This standard is not expected to have an effect on the Company's reported financial position or results of operations.

**NOTE 5 CONVERTIBLE DEBENTURE NOTES AND OTHER LOANS (continued)**

**Convertible Debentures (continued)**

On December 18, 2009, the Company entered into a Debt Settlement agreement whereby a creditor agreed to receive shares in lieu of payment of a \$152,916 promissory note. The holder was entitled to receive common stock of the Company at a conversion value equal to 50% of the lowest closing price of the Company's stock for the 10 days prior to the date of conversion. The holder may not hold more than 4.99% of the outstanding common stock of the Company at any point in time. During the year ended December 31, 2010, the creditor converted \$113,750 of debt into 4,457,699 common shares of the company. On February 25, 2011, the creditor converted \$72,833 of debt into 1,220,363 common shares of the Company resulting in a full repayment of the loan.

On March 8, 2010, the Company issued a note payable in the amount of \$25,000. The note carried interest at the rate of 12% per annum and was due on April 8, 2010. If the note was not repaid on maturity or in any other event of default, the holder was entitled to convert all or any portion of the original principal face value of the note into shares of common stock of the Company at a conversion value equal to 50% of the lowest closing price of the Company's stock for the 10 trading days immediately preceding and including the date of conversion. On August 29, 2011, the Company repaid the loan in full.

On April 14, 2010, the Company issued a note payable in the amount of \$15,000. The note carried interest at the rate of 10% per annum and was due on May 18, 2010. If the note was not repaid on maturity or in any other event of default, the holder was entitled to convert all or any portion of the original principal face value of the note into shares of common stock of the Company at a conversion value equal to 50% of the lowest closing price of the Company's stock for the 10 trading days immediately preceding and including the date of conversion. On October 20, 2011, the Company repaid the loan in full.

On April 30, 2010, the Company issued a note payable in the amount of \$100,000. The note carried interest at the rate of 10% per annum and was due on July 30, 2010. If the note was not repaid on maturity or in any other event of default, the holder was entitled to convert all or any portion of the original principal face value of the note into shares of common stock of the Company at a conversion value equal to 50% of the lowest daily low price of the Company's stock for the 10 trading days immediately preceding and including the date of conversion. On August 22, 2011, the creditor submitted a Notice of Conversion to convert \$113,333 of debt into 2,138,358 common shares of the company resulting in a full repayment of the loan. At December 31, 2011, the shares had not been issued to the creditor resulting in the full balance being included in obligation to issue shares. On March 5, 2012, the Company issued the 2,138,358 common shares of the Company resulting in a full repayment of the loan.

The Company accounts for debt with embedded conversion features and warrant issues in accordance with EITF 98-5: Accounting for convertible securities with beneficial conversion features or contingency adjustable conversion and EITF No. 00-27: Application of issue No 98-5 to certain convertible instruments. Conversion features determined to be beneficial to the holder are valued at fair value and recorded to additional paid in capital. The Company determines the fair value to be ascribed to the detachable warrants issued with the convertible debentures utilizing the Black-Scholes method. Any discount derived from determining the fair value to the debenture conversion features and warrants is amortized to financing cost over the life of the debenture. The unamortized costs if any, upon the conversion of the warrants is expensed to financing cost on a pro rata basis over the life of the warrant.

Debt issued with the variable conversion features are considered to be embedded derivatives and are accountable in accordance with FASB 161; Accounting for Derivative Instruments and Hedging Activities. The fair value of the embedded derivative is recorded to derivative liability. This liability is required to be marked each reporting period. The resulting discount on the debt is amortized to interest expense over the life of the related debt.

## **ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:**

### **Restatement**

With this Amendment 1, we have restated the following previously filed consolidated interim financial statements, data and related disclosures: the consolidated balance sheet as at June 30, 2012, the consolidated statement of operations for the three and six months ended June 30, 2013 and the consolidated statement of cash flows and consolidated statement of stockholders' equity (deficiency) for the six months ended June 30, 2012. See Note 11 to the consolidated interim financial statements, restated. The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the amended consolidated interim financial statements and notes thereto for the fiscal period ended June, 2012, as well as the Company's other filings with the SEC.

The restatement results from management's determination that the Company's consolidated interim financial statements for the period ended June 30, 2012 contained errors relating to the omission of material accruals at June 30, 2012.

The following MD&A reflects the restatements. For this reason, the data set forth in this section may differ from that presented in discussions and data in our previously filed Quarterly Report on Form 10-Q for the three months ended June 30, 2012.

### **Overview**

This quarterly report may contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as may, should, expects, plans, anticipates, believes, estimates, predicts, continue or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled Risk Factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this annual report, unless otherwise specified, all dollar amounts are expressed in United States dollars and all references to common shares refer to the common shares in our capital stock.

### **Company History and Business**

Alternet Systems, Inc. (the "Company"), was organized under the laws of the State of Nevada on June 26, 2000, under the name North Pacific Capital Corp. In 2001 the Company changed its name to SchoolWeb Systems Inc. and then, in 2002, to Alternet Systems, Inc. On December 31, 2007 the Company executed a merger with TekVoice

Communications, Inc. of Miami, Florida. Since then the Company has changed business focus and strategy to mobile financial services and mobile security. In 2011 TekVoice became inactive.

---

## **2009 to present Focus on Mobile Financial Services and Security**

Since late 2009 the Company has focused its investment and operational expertise on the mobile value added services markets of mobile financial transactions and security, through two new subsidiaries. These subsidiaries, Alternet Transaction Systems (dba Utiba Americas, which is 49% owned by Utiba Pte, Ltd) and International Mobile Security (IMS, which is 40% owned by General Services Holding LLC) were launched within the fiscal year 2010. The new lines of business and Company focus were intended to provide new revenue streams and profitability from the high growth segments of the mobile value added service market, namely mobile financial services and mobile security. Growth of both of these market segments is driven by the exponential adoption of mobile phones which in 2011 reached more than 70%, of the global population, with a total of 5 billion phones.

### ***Competition***

The Company competes in two distinct industries, mobile financial services and mobile security. Although the Company has unique features in its product offerings, and in mobile financial services is considered a pioneer and market leader, it competes with companies that are better financed. In 2010 and 2011 some market consolidation has taken place. Smaller competitors with market name recognition have been absorbed by larger organizations eager to capture market share and/or obtain technology and continued consolidation is expected over the next couple of years.

### ***Research and Development***

The Company spends a judicious amount in research and development expenditures. In mobile financial services, the Company primarily relies on its joint-venture partner's longstanding and continued research and development, and as appropriately purchases the necessary technology. In 2011, the Company purchased \$1.5 million in intellectual property from its joint-venture partner. In mobile security the Company has its own proprietary technology and is in constant development to address client and market needs.

### ***Employees***

The company continued to increase staffing in the six months ended June 30, 2012 in its operating subsidiaries. At June 30, 2012, total staff stood at 28 versus 15 the prior year. The Company continues to outsource contract employment as appropriate.

## **Six months Ended June 30, 2012 Compared to the Six months Ended June 30, 2011**

### **Net Sales (restated)**

For the six months ended June 30, 2012, the Company had \$402,561 in sales compared to \$76,844 for the corresponding period in 2011. Sales increased significantly in percentage terms (423%) but coming in well below the volume anticipated for the period as delays arose in closing qualified prospects of mobile commerce and mobile security license software by Alternet Transaction Systems, (DBA Utiba Americas) and International Mobile Security. Based on client feedback, management continues to anticipate closing such proposals during the current year. The delays were due in part to the long, complex, business to business sales cycle, the slow evolution of mobile money regulations in different countries, and delays not uncommon in the rollout of new technology. Additionally, in Utiba Americas, the transition from sales of software licenses to sale of Software as a Service (SaaS) adversely affected the timing of revenue recognition. In the former's case, revenue reflects the one-time nature of the sale and is recognized at the time of the contract. SaaS revenue, on the other hand, is recognized over the term of the contract, typically being three to five years, based on the number of users and/or transactions. Management is cognizant of the timing issue and believes that the longer term and more reliable transactional revenue will generate significantly greater value to the

Company. Moreover, the market for the Company's SaaS offering is expected to be significantly greater than straight license sales.

**Gross Profit (restated)**

Gross profit was \$21,995 in the six months ending June 30, 2012 compared to \$26,196 in the six month period ending June 30, 2011, representing an decrease in gross profit for the period of \$4,201. As noted up above, such results were well below anticipated performance.

---

## **Operating Expenses**

For the six months ended June 30, 2012, the Company's operating expenses increased (\$1,738,147 in 2012 versus \$1,261,687 in prior year, an increase of \$476,460, or 38%) when compared to the prior year. The increase was attributable to the Company's increased staffing and infrastructure growth required to properly address market opportunities and customer demand. This increase can best be seen in the year-over-year growth of the combined management and consulting and salary expenses (\$1,158,546 in 2012 versus \$903,660 in 2011, an increase of \$254,886, or 28%). The management and consulting and salary expense increase accounts for 54% of the total \$476,460 increase in operating expenses. Another 12% of the increase in operating expenses is attributable to professional fees, which reached \$163,900 in 2012 versus \$109,057.

Accounts payable totaled \$1,259,702 and accounts receivable were \$1,875,700 at June 30, 2012

## **Net Loss (restated)**

For the six months ended June 30, 2012, the Company had a net loss of \$1,839,567 or \$(0.02) per share, which was an increase of \$590,526 when compared to the net loss for the corresponding prior year period of \$1,249,041 or \$(0.01) per share. The higher loss was primarily due to increased operating expenses, foreign exchange losses of \$253,147 (an increase of \$252,830, versus \$317 in the prior year) primarily attributable to operations in Venezuela, and higher loss on debt settlement (an increase of \$459,855). The latter reflects the accounting loss, recorded on the date of such events, based on fair market value (refer to Note 2) and.

## **Interest and other expenses**

As shown in operating expenses, for the six months ended June 30, 2012, the Company had interest expense of \$115,605, including the \$85,198 of warrants (refer to Note 8c) compared with \$34,631 for the corresponding period to June 30, 2011.

## **Liquidity and Capital Resources (restated)**

The Company had current assets including cash on hand of \$2,371,668 as at June 30, 2012 (\$1,070,800 at June 30, 2011).

The Company had a working capital deficiency of \$1,444,318 at June 30, 2012 (\$1,083,435 at June 30, 2011). Management of the Company has determined that the Company's ability to continue as a going concern is dependent on raising additional capital and achieving increased sales of its operating subsidiaries, Alternet Transaction Systems (DBA Utiba Americas), and International Mobile Security (IMS).

Management can give no assurance that any increase in sales will occur in the future and if they do occur, may not be enough to cover the Company's operating expenses or any other costs. Should this be the case, we would be forced, unless sufficient working capital can be raised, to suspend operations and possibly liquidate the assets and wind up and dissolve the Company.

## **RISK FACTORS**

The Company is exposed to a number of risks, including the following:

- The Company may be unable to market and sell its products;

Edgar Filing: ALTERNET SYSTEMS INC - Form 10-Q/A

- The Company's sales are currently insufficient and its future prospects are dependent on the ability to market its products and services;
- The Company has a history of operating at a significant loss;
- The Company requires additional equity financing to continue operations and may be unable to obtain this financing;
- If further equity financing is obtained, it will dilute the value of existing shareholders' stock;
- The Company has limited working capital with which to continue operations; The Company is active in competitive industries and faces competition from more established companies with greater financial resources and established sales and distribution capabilities;
- The Company has a significant number of shares outstanding which may be eligible for resale under Rule 144 and which, if sold, could depress the market price of the Company's shares.

Our business operations are also subject to a number of risks and uncertainties, including, but not limited to those set forth below:

---

*We have had negative cash flows from operations. If we are unable to obtain financing in the amounts and on terms deemed acceptable to us, we may be unable to continue our business and as a result may be required to scale back or cease operations, the result of which would be that our stockholders would lose some or all of their investment.*

To date we have had negative cash flows from operations and we have been dependent on sales of our equity securities and debt financing to meet our cash needs. We expect positive cash flow from operations in 2012 but there is no assurance that actual cash requirements will not exceed our estimates, or that our sales projections will be realized as estimated. The occurrence of any of the aforementioned events could adversely affect our ability to meet our business plans.

In the near term we will depend on outside capital to pay for the continued development of our business. Such outside capital may include the sale of additional stock and/or commercial borrowing. Capital may not continue to be available to meet these continuing development costs or, if the capital is available, that it will be on terms acceptable to us. The issuance of additional equity securities by us would result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

*A decline in the price of our common stock could affect our ability to raise further working capital and adversely impact our operations.*

A prolonged decline in the price of our common stock could result in a reduction in the liquidity of our common stock and a reduction in our ability to raise capital. Because our operations have been primarily financed through the sale of equity securities, a decline in the price of our common stock could be especially detrimental to our liquidity and our continued operations. Any reduction in our ability to raise equity capital in the future would force us to reallocate funds from other planned uses and would have a significant negative effect on our business plans and operations, including our ability to develop new products and continue our current operations. If our stock price declines, we may not be able to raise additional capital or generate funds from operations sufficient to meet our obligations.

*We have a history of losses and fluctuating operating results.*

There is no assurance that we will operate profitably or will generate positive cash flow in the future. In addition, our operating results in the future may be subject to significant fluctuations due to many factors not within our control, such as the unpredictability of when customers will purchase our products and/or services, the size of customers purchases, the demand for our production and/or services, and the level of competition and general economic conditions. If we cannot generate positive cash flows in the future, or raise sufficient financing to continue our normal operations, then we may be forced to scale down or even close our operations.

*We have a limited operating history and if we are not successful in continuing to grow our business, we may have to scale back or even cease our ongoing business operations.*

We have limited history of revenues from operations and have limited significant tangible assets. We have yet to generate positive earnings and there can be no assurance that we will ever operate profitably. Our company has a limited operating history and must be considered in the development stage. Our company's operations will be subject to all the risks inherent in the establishment of a developing enterprise and the uncertainties arising from the absence of a significant operating history. We are in the development stage and potential investors should be aware of the difficulties normally encountered by enterprises in the development stage. If our business plan is not successful, and we are not able to operate profitably, investors may lose some or all of their investment in our company.

*Trading of our stock may be restricted by the SEC's "Penny Stock" regulations, which may limit a stockholder's ability to buy and sell our stock.*

The U.S. Securities and Exchange Commission has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and "accredited investors." The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC, which provides information about penny stocks and the nature and level of risks in the penny stock market.

---

The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities and to find purchasers for our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of, our common stock.

*The Financial Industry Regulatory Authority, or FINRA, has adopted sales practice requirements which may also limit a stockholder's ability to buy and sell our stock.*

In addition to the "penny stock" rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

*Trading in our common shares on the OTC Bulletin Board is limited and sporadic making it difficult for our shareholders to sell their shares or liquidate their investments.*

Our common shares are currently listed for public trading on the OTC Bulletin Board. The trading price of our common shares has been subject to wide fluctuations. Trading prices of our common shares may fluctuate in response to a number of factors, many of which will be beyond our control. The stock market has generally experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies with no current business operation. There can be no assurance that trading prices and price earnings ratios previously experienced by our common shares will be matched or maintained. These broad market and industry factors may adversely affect the market price of our common shares, regardless of our operating performance.

In the past, following periods of volatility in the market price of a company's securities, securities class-action litigation has often been instituted. Such litigation, if instituted, could result in substantial costs for us and a diversion of management's attention and resources.

*Because of the early stage of development and the nature of our business, our securities are considered highly speculative.*

Our securities must be considered highly speculative, generally because of the nature of our business and the early stage of its development.

## **Recent Accounting Pronouncements**

In January 2011, the FASB issued ASU 2011-01, *Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20 (Receivables Topic 310)*, which is effective upon issuance. This update defers the effective date of the disclosures required under ASU 2010-20 to be concurrent with the effective date of the guidance for determining what constitutes a troubled debt restructuring as presented in proposed ASU update: *Receivables (Topic 310) Clarifications to Accounting for Troubled Debt Restructurings by Creditors*. This standard did not have an effect on the Company's reported financial position or results of operations.

---

In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements (Transfers and Service Pricing Topic 860)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update provides on the accounting for repurchase agreements (repos) and other agreements that entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. This standard did not have an effect on the Company's reported financial position or results of operations.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFS (Fair Value Measurement Topic 820)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update explains how to measure fair value. This standard did not have an effect on the Company's reported financial position or results of operations.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income (Comprehensive Income Topic 220)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update provides guidance on improving the comparability, consistency, and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. This standard did not have an effect on the Company's reported financial position or results of operations.

In September 2011, the FASB issued ASU 2011-08, *Testing Goodwill for Impairment (Intangibles - Goodwill and Other Topic 350)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update simplifies how entities test goodwill for impairment by permitting them to use qualitative factors to first to determine whether an impairment is more likely or not. This standard did not have an effect on the Company's reported financial position or results of operations.

In September 2011, the FASB issued ASU 2011-09, *Disclosures about an Employer's Participation in a Multiemployer Plan (Compensation - Retirement Benefits - Multiemployer Plans Topic 715-80)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update requires increased disclosure from Company's participating in a Multiemployer Plan. This standard did not have an effect on the Company's reported financial position or results of operations.

In December 2011, the FASB issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities (Balance Sheet Topic 210)*, which is effective for financial statements issued for interim and annual periods beginning on or after January 1, 2013. This update facilitates comparison between financial statements presented under US GAAP and financial statements prepared under IFRS. This standard is not expected to have an effect on the Company's reported financial position or results of operations.

In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05 (Comprehensive Income Topic 220)*, which is effective for financial statements issued for interim and annual periods beginning on or after December 15, 2011. This update defers some of the requirements relating to the reclassification of items out of Other Comprehensive Income under ASU 2011-05. This standard did not have an effect on the Company's reported financial position or results of operations.

## **Changes in Internal Control over Financial Reporting**

There have been no significant changes in our internal controls over financial reporting that occurred during the quarter ended June 30, 2012 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting.

## **PART II - OTHER INFORMATION**

### **Item 1. Legal Proceedings**

Management is not aware of any legal proceedings (either presently engaged in or contemplated) by any government authority or other party involving the Company, its properties or its products.

No directors, officers, or affiliate of the Company is (i) a party adverse to the Company in any legal proceedings, or (ii) has an adverse interest to the Company in any legal proceedings.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

During the six months ended June 30, 2012, the Company issued 3,333,333 common shares valued at \$500,000 for share subscriptions received in the prior year, 2,881,463 common shares valued at \$828,607 for debt settlements and convertible debenture agreements of which 2,138,358 shares valued at \$113,333 were obligated to be issued at December 31, 2011, and 112,500 common shares valued at \$34,875 for consulting services to be rendered during the period.

In addition, during the six months ended June 30, 2012, the Company issued 1,402,116 common shares at \$0.15 per share for total cash proceeds of \$210,317 and 1,264,550 common shares at \$0.15 a \$0.15 for total cash proceeds of \$189,683.

As at June 30, 2012, the Company was obligated to issue 112,500 common shares valued at \$14,625 in accordance with a consulting agreement.

During the six months ended June 30, 2012, the Company received \$350,000 toward \$400,000 of share subscriptions for which shares have not been issued by the end of the period. During the period, the investor requested to reduce the subscription to equal the \$350,000 cash funds he had advanced to the Company. At June 30, 2012, the Company had \$480,362 (December 31, 2011 -\$630,362) in private placement subscriptions which are reported as private placement subscriptions within stockholders deficit.

The shares which were not issued as at June 30, 2012 or June 30, 2011 were not used to compute the total weighted average shares outstanding as at June 30, 2012 or June 30, 2011 respectively and were thus not used in the basic net loss per share calculation.
