Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy (Privacy Policy) with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e. fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

Delivery of Shareholder Documents. The Securities and Exchange Commission permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called householding and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to Portfolio securities during the 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. LETTER TO SHAREHOLDERS

Thomas J. Fetter
President

The municipal bond market is a center of capital formation for states, municipalities and, in some cases, private economic initiatives. In this edition of our continuing educational series, we will discuss industrial development revenue (IDR) bonds. IDR bonds have long been used as a financing mechanism by local governments to provide assistance to local employers and encourage job retention and creation within their communities.

IDR bonds finance private activities that benefit the public...

IDR bonds are issued by municipal authorities to finance projects and facilities used by private corporations. Historically, IDR bonds have represented a partnership between the private and public sectors—a source of dedicated funding for companies and a source of job creation in projects beneficial to local communities. The Private-Activities provision of the Tax Reform Act of 1986 permits issuance of tax-exempt bonds for specific activities, including pollution control; gas and electric service; water distribution; wastewater systems; solid waste disposal; airports and selected transportation projects; and other industrial projects.

The Act also placed a cap on the dollar amount that may be raised for IDR bonds in each state, limiting the amount to \$50 per person/per state/per year, with a \$150 million maximum. These limitations provide protection against potential abuse and ensure that tax-exempt IDR bonds will indeed be issued for projects that will benefit the public.

IDR bonds finance utility-related projects and other industrial initiatives...

Typically, IDR bonds provide financing for manufacturing, processing or utility facilities. Historically, about one-half of these bonds have been issued to finance pollution control facilities for manufacturers and electric utilities. As many utilities and manufacturers have been ordered to comply with stricter environmental and fuel standards, pollution control bonds have helped finance the retrofits of existing plants. Other IDR bonds have served as inducements from state and local issuers to locate plants or build new facilities, in the hope that such construction might generate further economic growth for a community.

IDR bonds are secured by corporate revenues not those of state or local governments...

IDR bond issues are secured by the credit of the underlying corporation. The municipal issuing authority acts solely as a conduit to permit tax-exempt financing. The corporation pledges to make payments sufficient to meet all debt service obligations. Unlike some revenue issues, IDR bonds are backed by revenues of the entire corporation, not solely by those of the project being financed.

Because IDR bonds are backed by corporate revenues and not by the taxing authority of a state or local jurisdiction, they have historically provided coupon premiums above those of general obligations and other more traditional revenue bonds. Bonds may be either collateralized or unsecured. Collateralized bonds have a lien against the company's assets, which may provide bond holders enhanced bargaining power in the event of a bankruptcy. Unsecured bonds have no such lien.

While providing new opportunities, IDR bonds require rigorous analysis...

While IDR bonds may provide unusual investment opportunities, they also may entail increased risk and, therefore, demand especially intensive analysis. At Eaton Vance, we have credit analysts and resources dedicated to IDR bond research.

IDR bonds represent a key segment of the municipal bond market and should remain an important source of capital formation. In our view, the experience and resources needed to evaluate these issues further demonstrates the value of professional management. We will continue to look for opportunities in this sector of the municipal market.

Sincerely,

/s/ Thomas J. Fetter

MARKET RECAP

The U.S. economy continued to generate moderate growth during the six months ended March 31, 2005. While higher gasoline and energy prices pinched consumers, the weak U.S. dollar raised inflationary concerns and helped push interest rates higher.

After a promising recovery in 2004, slower growth in early 2005...

The nation's Gross Domestic Product grew by 3.1% in the first quarter of 2005, according to preliminary Commerce Department figures, following a 3.8% rise in the fourth quarter of 2004. Manufacturing activity, which had expanded strongly in the second half of 2004, slackened somewhat in the first quarter of 2005, amid slower industrial production and weakening demand for durable goods.

Consumer spending, which helped fuel the economic recovery over the past year, weakened considerably, as higher fuel costs and rising interest rates on loans and mortgages prompted consumers to tighten their belts. Capital spending also slowed, as businesses curtailed new investments in plants and factories, while reducing the pace of investment in productivity-enhancing equipment and software. Residential construction remained relatively strong, although slightly off the torrid pace set in 2004.

After recovering dramatically in 2004, job creation weakened somewhat in early 2005...

The nation's labor markets strengthened during the year, although the pace of job creation weakened at the close of the period. Hiring picked up during the year in areas that had suffered large technology sector layoffs. Also, manufacturing, financial services, business services, trucking, shipping, construction, energy, health care, and media also generated new jobs. In the first quarter of 2005, however, employers showed some reticence in hiring practices, as they were forced to cope with unpredictable fuel cost hikes.

The Federal Reserve continued to raise short-term interest rates in 2005...

The Federal Reserve pushed short-term rates higher, suggesting it will continue to raise rates to keep the economy from growing too quickly and, thereby, reviving inflation. Beginning in June 2004, the Fed increased its Federal Funds rate—a key short-term interest rate barometer—on eight occasions, raising that benchmark from 1.00% to 3.00%, including its most recent rate hike in May 2005.

The municipal bond market posted a modest gain for the year, slightly outperforming the Treasury market. For the six months ended March 31, 2005, the Lehman Brothers Municipal Bond Index—an unmanaged index of longer-term, investment-grade, municipal debt securities made up of issues larger than \$50 million—had a total return of 1.21.%.*

* It is not possible to invest directly in an Index. The Index's total return does not reflect commissions or expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index.

INVESTMENT UPDATE

The Fund

Based on share price (traded on the American Stock Exchange), the Fund had a total return of 4.49% for the six months ended March 31, 2005. That return was the result of an increase in share price from \$14.82 on September 30, 2004 to \$14.98 on March 31, 2005 and the reinvestment of \$0.500 in monthly dividends.(1)

Based on net asset value, the Fund had a total return of 4.07% for the six months ended March 31, 2005. That return was the result of an increase in net asset value per share from \$15.03 on September 30, 2004 to \$15.13 on March 31, 2005, and the reinvestment of all distributions.

In comparison, the Lehman Brothers Municipal Bond Index – an unmanaged index of longer-term, investment-grade, municipal debt securities made up of issues larger than \$50 million – had a total return of 1.21% for the six months ended March 31, 2005.(2)

Based on the last dividend of the semi-annual period and a share price of \$14.98, the Fund had a market yield of 6.68% at March 31, 2005.(3) The Fund's market yield is equivalent to a taxable yield of 10.28%.(4)

Management Discussion

The U.S. economy expanded moderately during the period, despite concerns over rising fuel costs. Manufacturing rebounded somewhat, while financial services, business services, transportation, construction, energy and health care posted strong job growth. The U.S. jobless rate was 5.2% in March 2005, down from 5.7% a year ago.

Insured* transportation bonds constituted the Fund's largest sector weighting at March 31, 2005. The Fund's investments represented a broad range of transportation projects, including bridge and tunnel authorities, highway and turnpike authorities, a monorail project and an urban skywalk.

Insured* general obligations (GOs) were a significant investment. The Fund's investments included state and municipal issuers alike, ranging from large urban centers to local school district bond issuers. GOs are backed by the taxing power of the issuing jurisdiction.

Insured* water revenue bonds were key investments for the Fund. Amid more stringent environmental regulations, many communities have issued bonds to finance improvements to water filtration and discharge facilities. Water utilities have historically represented a relatively stable revenue source.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Management Discussion

California's economy generated good job growth in late 2004 and early 2005. The business services sector added the largest number of jobs, with construction and financial services also making significant contributions. The government sector, subject to budgetary restraints, remained a sore spot in the state economy. The state's March 2005 jobless rate was 5.8%, down from 6.4% a year ago.

Insured* general obligations (GOs) constituted the Fund's largest sector weighting at March 31, 2005. The Fund's investments included issues of the state whose credit rating has been modestly upgraded within the past year as well as issues for local school districts and assessment districts.

Insured* lease revenue/certificates of participation (COPs) were major investments. COPs provide cost-effective, lease financing for borrowers at the state, county and municipal level for a broad range of public works projects.

Insured* special assessment revenue bonds remained among the Fund's prominent holdings. The Fund's investments included issues that financed housing redevelopment projects, as well as various infrastructure-related projects.

At March 31, 2005, the Fund had leverage in the amount of approximately 38% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Management Discussion

Florida's economy continued to expand during the period. Residential construction and service sectors remained very strong, a result of a population growth rate twice that of the U.S. rate. Despite a severe hurricane season, even tourism grew in 2004, boosted by the weak U.S. dollar. The state's jobless rate was 4.5% in March 2005, down from 4.8% a year ago.

Insured* special tax revenue bonds were the Fund's largest sector weightings at March 31, 2005. These bonds are used to build or expand facilities or infrastructure.

The Fund remained very selective within the hospital sector, given the industry's increasing competition and cost pressures. The Fund focused on facilities with good management, marketable health care specialties and sound underlying fundamentals.

Insured* transportation bonds also provided opportunities for the Fund. Investments included issues for highway and road construction projects, and port facility improvement projects.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Management Discussion

The Massachusetts economy made progress in 2004 and 2005, although not yet achieving pre-recession employment levels. Business services, health care, education and residential building remained areas of strong job creation. The manufacturing sector continued to struggle. The state's March 2005 jobless rate was 4.9%, down from 5.4% a year ago and below the national rate.

Insured* private and public education bonds remained among the the Fund's largest sector weightings at March 31, 2005. The Fund's investments included some of the Commonwealth's well-regarded colleges and universities that enjoy strong applicant demand.

Insured* lease revenue/certificates of participation (COPs) were large investments. These bonds provided flexible and cost effective financing for Massachusetts projects. COPs and lease revenue bonds typically finance the purchase of equipment and facilities, and are secured by lease payments by the borrower.

Insured* transportation bonds were a large investment for the Fund. The Fund's investments focused mainly on state turnpike authority issues, which have financed major improvements in recent years.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

The Fund

Based on share price (traded on the American Stock Exchange), the Fund had a total return of 10.55% for the six months ended March 31, 2005. That return was the result of an increase in share price from \$15.49 on September 30, 2004 to \$16.60 on March 31, 2005 and the reinvestment of \$0.474 in monthly dividends.(1)

Based on net asset value, the Fund had a total return of 2.67% for the six months ended March 31, 2005. That return was the result of a decrease in net asset value per share from \$14.84 on September 30, 2004 to \$14.77 on March 31, 2005, and the reinvestment of all distributions.

In comparison, the Lehman Brothers Municipal Bond Index — an unmanaged index of longer-term, investment-grade, municipal debt securities made up of issues larger than \$50 million — had a total return of 1.21% for the six months ended March 31, 2005.(2)

Based on the last dividend of the semi-annual period and a share price of \$16.60, the Fund had a market yield of 5.71% at March 31, 2005.(3) The Fund's market yield is equivalent to a taxable yield of 9.14%.(4)

Management Discussion

Michigan's economy continued to set a lackluster pace and remained the only state in the nation where employment has declined in the past year. The largest losses were in the manufacturing, retail and government areas. There were pockets of strength in the construction sector. The state's March 2005 jobless rate was 7.5%, up from 7.1% a year ago.

Insured* general obligations (GOs) constituted the Fund's largest sector weighting at March 31, 2005. Given the state's unsteady economy, management focused on issues of fiscally sound school districts and building authorities.

Insured* special tax revenue bonds constituted another large investment sector. These high-quality bonds were issued to finance improvements, such as renewal projects in downtown Detroit and airport-related projects. These bonds are backed by a variety of special taxes approved solely for the projects.

Hospital bonds were also a large investment for the fund. In a very competitive and cost-conscious environment, the Fund focused on acute care facilities that management believes are well managed, financially strong and leading care providers in their respective communities.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Management Discussion

In late 2004 and early 2005, New Jersey enjoyed good job growth, the state's strongest since 2000. Leisure, business services, trade, transportation, and utilities generated the fastest job growth. Not surprisingly, manufacturing remained among the state's weakest sectors. The state's March 2005 jobless rate was 4.4%, down from 5.2% a year ago.

Insured* public education bonds were the Fund's largest sector weighting at March 31, 2005. The Fund's investments included issues for a community college, a four-year university and the state medical and dental school. These institutions have enjoyed stable revenues in a range of economic climates.

Insured* general obligations (GOs) constituted a large commitment by the Fund. Investments were dominated by city, township and board of education issues. These local GO's provided high quality and excellent liquidity.

Insured* transportation bonds were a major focus of the Fund. Investments included bonds for a marine terminal in Newark, as well as river, transportation, port and highway authorities throughout the state, all key elements of the New Jersey economy.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Management Discussion

During 2004 and into early 2005, New York State posted positive job growth for the first time since 2000. Job creation in business services, education, health care and tourism have been the main drivers of growth. Gains in finance have been modest, while the state continued to lose manufacturing jobs at a faster rate than the nation as a whole. The state's March 2005 jobless rate was 5.1%, down from 6.1% a year ago.

Insured* private education bonds were the Fund's largest weighting at March 31, 2005. The Fund emphasized dormitory authority bonds, which helped finance the building of living quarters and classroom facilities for some of the state's leading colleges and universities.

Transportation is vital to New York's position as the nation's economic capital and insured* transportation bonds have played a major role in the Fund. Holdings included issues for public transit, bridges and tunnels, ports and highway authorities.

Insured* water and sewer bonds represented a major investment. The Fund's holdings financed improvements to water and wastewater facilities and included issues for New York City and for the upstate City of Niagara Falls.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Management Discussion

Ohio's economy generated job growth in 2004 and early 2005, benefiting from the strength in the service sector. Business services, education and health care were areas of job growth. However, while losses in the key manufacturing sector slowed, a continuing focus on productivity and restructurings limited the extent of the recovery. The state's March 2005 jobless rate was 6.4%, up slightly from 6.1% a year ago.

Insured* general obligations (GOs) were the Fund's largest sector weighting at March 31, 2005, represented predominantly by school district bonds. Management focused on communities with a relatively broad local economic base, stable property tax revenues and manageable foreseeable borrowing needs.

Insured* public education bonds remained a large commitment in the Fund. Management emphasized universities within the Ohio state university system, as well as a community college well-known in the state for its cooperative and clinical studies programs.

Selected Puerto Rico bonds offered opportunities for further diversification by sector, issuer and coupon. The Fund's Puerto Rico investments included electric utilities, lease revenue bonds, special tax revenues and transportation bonds.

At March 31, 2005, the Fund had leverage in the amount of approximately 37% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

Management Discussion

Pennsylvania saw positive job growth in 2004 for the first time since 2000, although growth was uneven around the state. Business, education, tourism, construction and health care were major contributors. Manufacturing, especially in western Pennsylvania, continued to shed jobs. Pennsylvania's March 2005 jobless rate was 5.2%, down from 5.5% a year ago.

Insured* general obligations (GOs) were the Fund's largest sector weighting at March 31, 2005. The Fund's investments focused on city, county and school district bonds in areas with a relatively strong tax base and solid economic resources, two key variables for investors in general obligations.

Insured* transportation bonds remained a significant commitment for the Fund. Investments focused predominantly on port authority and Pennsylvania turnpike issues. The bonds have financed repairs and expansions needed to accommodate the Commonwealth's increasing commercial and passenger traffic.

Insured* private education bonds constituted a large investment. Historically less sensitive to economic changes, the Fund's investments included state and county bonds that financed the construction of university housing and teaching facilities.

At March 31, 2005, the Fund had leverage in the amount of approximately 38% of the Fund's total assets. The Fund uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

AMBAC - AMBAC Financial Group, Inc.

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

The Fund invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2005, 84.6% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.7% to 34.8% of total investments.

(1) When-issued security.

(2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2005, the aggregate value of the securities is \$21,875,283 or 14.6% of the Fund's net assets.

(3) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at March 31, 2005.

(4) Security (or a portion thereof) has been segregated to cover when-issued securities.

(5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

The Fund invests primarily in debt securities issued by Florida municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2005, 91.8% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 3.2% to 49.0% of total investments.

⁽¹⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2005, the aggregate value of the securities is \$4,843,223 or 12.8% of the Fund's net assets.

⁽²⁾ Security has been issued as an inverse floater bond. The stated interest rate represents the rate in effect at March 31, 2005.

⁽³⁾ Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

⁽⁴⁾ Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at March 31, 2005.

The Fund invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2005, 83.2% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.5% to 25.7% of total investments.

The Fund invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at March 31, 2005, 82.3% of the securities in the portfolio of investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 29.4% of total investments.

(1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At March 31, 2005, the aggregate value of the securities is \$5,200,317 or 13.5% of the Fund's net assets.

(2) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at March 31, 2005.

(3) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

(1) Computed using average common shares outstanding.

(2) For the period from the start of business, November 29, 2002, to September 30, 2003.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

(5) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

(6) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets applicable to common shares reflect the Fund's leveraged capital structure.

(7) Annualized.

(8) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number of preferred shares outstanding.

(9) Plus accumulated and unpaid dividends.

(1) Computed using average shares outstanding.

(2) For the period from the start of business, November 29, 2002, to September 30, 2003.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

(5) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

(6) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets applicable to common shares reflect the Fund's leveraged capital structure.

(7) Annualized.

(8) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number of preferred shares outstanding.

(9) Plus accumulated and unpaid dividends.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) The per share amount does not reflect the actual net realized and unrealized gain/loss for the period because of the timing of reinvested shares of the Fund and the amount of per share realized gains and losses at such time.

(5) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

(6) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. (1) Computed using average common shares outstanding.

(2) For the period from the start of business, November 29, 2002, to September 30, 2003.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

(5) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

(6) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets applicable to common shares reflect the Fund's leveraged capital structure.

(7) Annualized.

(8) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number or preferred shares outstanding.

(9) Plus accumulated and unpaid dividends.

(1) Computed using average common shares outstanding.

(2) For the period from the start of business, November 29, 2002, to September 30, 2003.

(3) Net asset value at beginning of period reflects the deduction of the sales load of \$0.675 per share paid by the shareholder from the \$15.000 offering price.

(4) Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

(5) Total investment return on net asset value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$15.000 less the sales load of \$0.675 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

(6) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets applicable to common shares reflect the Fund's leveraged capital structure.

(7) Annualized.

(8) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number of preferred shares outstanding.

(9) Plus accumulated and unpaid dividends.

1 Significant Accounting Policies

Eaton Vance Insured Municipal Bond Fund II (Insured Municipal Fund II), Eaton Vance Insured California Municipal Bond Fund II (Insured California Fund II), Eaton Vance Insured Florida Municipal Bond Fund (Insured Florida Fund), Eaton Vance Insured Massachusetts Municipal Bond Fund (Insured Massachusetts Fund), Eaton Vance Insured Michigan Municipal Bond Fund (Insured Michigan Fund), Eaton Vance Insured New Jersey Municipal Bond Fund (Insured New Jersey Fund), Eaton Vance Insured New York Municipal Bond Fund II (Insured New York Fund II), Eaton Vance Insured Ohio Municipal Bond Fund (Insured Ohio Fund), and Eaton Vance Insured Pennsylvania Municipal Bond Fund (Insured Pennsylvania Fund) (individually referred to as the Fund or collectively the Funds) are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies. Each of the Funds was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated October 3, 2002. Each Fund's investment objective is to achieve current income exempt from regular federal income tax, including alternative minimum tax, and taxes in its specified state. Each Fund seeks to achieve its objective by investing primarily in high grade municipal obligations that are insured as to the timely payment of principal and interest.

The following is a summary of significant accounting policies consistently followed by each Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

A Investment Valuation - Municipal bonds are normally valued on the basis of valuations furnished by a pricing service. Taxable obligations, if any, for which price quotations are readily available are normally valued at the mean between the bid and asked prices. Futures contracts and options on futures contracts listed on the commodity exchanges are valued at closing settlement prices. Interest rate swaps are normally valued on the basis of valuations furnished by a broker. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are not readily available are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

B Investment Transactions - Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Fund instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.

C Income - Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount.

D Federal Taxes - Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At September 30, 2004, certain Funds, for federal income tax purposes, had capital loss carryovers which will reduce taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Funds of any liability for federal income or excise tax. The amounts and expiration dates of the capital loss carryovers are as follows:

| Fund | Amount | Expires |
|-----------------------|------------|--------------------|
| Insured Michigan Fund | \$ 113,378 | September 30, 2012 |
| Insured Ohio Fund | 37,328 | September 30, 2012 |

Additionally, at September 30, 2004, Insured Municipal Fund II, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund, Insured New York Fund II, Insured Ohio Fund, and Insured Pennsylvania Fund had net capital losses of \$854,540, \$1,310,426, \$1,128,423, \$816,432, \$631,302, \$1,125,725, \$694,063, \$884,190, and \$1,415,291 respectively, attributable to security transactions incurred after October 31, 2003. These are treated as arising on the first day of each Fund's taxable year ending September 30, 2005.

In addition, each Fund intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations,

Eaton Vance Insured Municipal Bond Funds as of March 31, 2005

NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

which are exempt from regular federal income taxes when received by each Fund, as exempt-interest dividends.

E Organization and Offering Costs - Costs incurred by each Fund in connection with its organization have been expensed. Costs incurred by each Fund in connection with the offerings of the common shares and preferred shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

F Financial Futures Contracts - Upon the entering of a financial futures contract, a Fund is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by a Fund (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by a Fund. A Fund's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, a Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

G Options on Financial Futures Contracts - Upon the purchase of a put option on a financial futures contract by a Fund, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, a Fund will realize a loss in the amount of the cost of the option. When a Fund enters into a closing sale transaction, a Fund will realize a gain or loss depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. When a Fund exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

H Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

I Indemnifications - Under each Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to each Fund and shareholders are indemnified against personal liability for the obligations of each Fund. Additionally, in the normal course of business, each Fund enters into agreements with service providers that may contain indemnification clauses. Each Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against each Fund that have not yet occurred.

J Expense Reduction - Investors Bank & Trust Company (IBT) serves as custodian of the Funds. Pursuant to the respective custodian agreements, IBT receives a fee reduced by credits which are determined based on the average daily cash balances each Fund maintains with IBT. All credit balances used to reduce the Funds' custodian fees are reported as a reduction of total expenses in the Statement of Operations.

K Interim Financial Statements - The interim financial statements relating to March 31, 2005 and for the six months then ended have not been audited by an independent registered public accounting firm, but in the opinion of the Funds' management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

2 Auction Preferred Shares (APS)

Each Fund issued Auction Preferred Shares on January 15, 2003 in a public offering. The underwriting discounts and other offering costs were recorded as a reduction of capital of the common shares of each Fund. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of each Fund's APS and generally have been reset every seven days thereafter by an auction unless a special dividend period has been set. Initially, the Insured Municipal Fund II elected an Initial Dividend Period for Series B of 360 days. Effective January 10, 2005, a special dividend period was set on the Series B shares of the Insured Municipal Fund II. The dividend rate, which matures on January 8, 2006, is 2.198%. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates. Auction Preferred Shares issued and outstanding as of March 31, 2005 and dividend rate ranges for the six months ended March 31, 2005 are as indicated below:

| Trust | Preferred Shares Issued and Outstanding | Dividends Rate Ranges |
|----------------------------------|--------------------------------------------|--------------------------|
| Insured Municipal II Series A | 1,750 | 0.89% - 2.05% |
| Insured Municipal II Series B | 1,750 | % - 1.062.198% |
| Insured California Fund II | 1,350 | 0.70% - 2.26% |
| Insured Florida Fund | 900 | 0.10% - 2.05% |

| Insured Ohio Fund | 875 | 1.37% - 2.01% |
| Insured Pennsylvania Fund | 1,040 | 1.00% - 2.11% |

The APS are redeemable at the option of each Fund at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if any Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the Common Shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. Each Fund is required to maintain certain asset coverage with respect to the APS as defined in each Trust's By-Laws and the Investment Company Act of 1940. Each Fund pays an annual fee equivalent to 0.25% of the preferred shares liquidation value for the remarketing efforts associated with the preferred auction.

3 Distributions to Shareholders

Each Fund intends to make monthly distributions of net investment income, after payments of any dividends on any outstanding APS. Distributions are recorded on the ex-dividend date. Distributions of realized capital gains, if any, are made at least annually. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. Effective January 10, 2005, the Series B shares of the Insured Municipal Fund II set a special dividend period of 365 days. The Insured Municipal Fund II Series B pays accumulated dividends on the first business day of each month. Final payment will be made on January 8, 2006. The applicable dividend rates for Auction Preferred Shares on March 31, 2005 are listed below. For the six months ended March 31, 2005, the amount of dividends each Fund paid to Auction Preferred shareholders and average APS dividend rates for such period were as follows:

| Fund | APS Dividend Rates as of March 31, 2005 | Dividends Paid to Preferred Shareholders from net investment income for the six months ended March 31, 2005 | Average APS Dividend Rates for the six months ended March 31, 2005 |
|------------------------------------------|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| Insured Municipal Fund II Series A | 1.95% | \$ 349,604 | 1.61% |
| Insured Municipal Fund II Series B | 2.198% | 341,723 | 1.55% |
| Insured California Fund II | 2.26% | 228,005 | 1.35% |

| Insured Ohio Fund | 2.01% | 179,946 | 1.65% |
| Insured Pennsylvania Fund | 2.40% | 208,551 | 1.62% |

The Funds distinguish between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital.

4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at an annual rate of 0.55% of each Fund's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for investment advisory services rendered to each Fund. Except for Trustees of each Fund who are not members of EVM's organization, officers and Trustees receive remuneration for their services to each Fund out of such investment adviser fee. For the six months ended March 31, 2005, the fee was equivalent to 0.55% (annualized) of each Fund's average weekly gross assets and amounted to \$654,877, \$247,262, \$165,471, \$114,403, \$99,125, \$168,452, \$167,263, \$162,038 and \$189,172 for Insured Municipal Fund II, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund,

NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

Insured New York Fund II, Insured Ohio Fund and Insured Pennsylvania Fund, respectively. EVM also serves as the administrator of the Funds, but currently receives no compensation.

In addition, EVM has contractually agreed to reimburse the Fund for fees and other expenses in the amount of 0.15% of average weekly total assets of each Fund during the first five full years of each Fund's operations, 0.10% of average weekly total assets of each Fund in year six, and 0.05% in year seven. For the six months ended March 31, 2005, EVM contractually waived \$178,603, \$67,435, \$45,128, \$31,201, \$27,034, \$45,941, \$45,617, \$44,192 and \$51,592 for Insured Municipal Fund II, Insured California Fund II, Insured Florida Fund, Insured Massachusetts Fund, Insured Michigan Fund, Insured New Jersey Fund, Insured New York Fund II, Insured Ohio Fund and Insured Pennsylvania Fund, respectively. EVM has also agreed to reduce the investment adviser fee by an amount equal to that portion of commissions paid to broker dealers in execution of portfolio transactions attributed to the Fund that is consideration for third-party research services. For the six months ended March 31, 2005, EVM waived \$500 and \$430 of its advisory fee for Insured Municipal Fund II and Insured Massachusetts Fund, respectively.

Certain officers and one Trustee of each Fund are officers of the above organization.

8 Financial Instruments

Each Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment each Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At March 31, 2005, each Fund had sufficient cash and/or securities to cover margin requirements on open future contracts.

9 Overdraft Advances

Pursuant to the custodian agreement between the Funds and IBT, IBT may in its discretion advance funds to the Funds to make properly authorized payments. When such payments result in an overdraft by the Funds, the Funds are obligated to repay IBT at the current rate of interest charged by IBT for secured loans (currently, a rate above the federal funds rate). This obligation is payable on demand to IBT. IBT has a lien on Fund assets to the extent of any overdraft. At March 31, 2005, the Insured Municipal Fund II, Insured Florida Fund, the Insured Massachusetts Fund, and the Insured Michigan Fund had payments due to IBT pursuant to the foregoing arrangement of \$463,208, \$258,010, \$262,083, and \$175,767, respectively.

DIVIDEND REINVESTMENT PLAN

Each Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have dividends and capital gains distributions automatically reinvested in common shares (the Shares) of the same Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions, then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with each Fund's transfer agent, PFPC Inc., or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by each Fund. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquiries regarding the Plan can be directed to the Plan Agent, PFPC Inc., at 1-800-331-1710.

APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Please print exact name on account

Shareholder signature Date

BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS

The investment advisory agreements between each of Eaton Vance Insured Municipal Bond Fund II, Eaton Vance Insured California Municipal Bond Fund II, Eaton Vance Insured Florida Municipal Bond Fund, Eaton Vance Insured Massachusetts Municipal Bond Fund, Eaton Vance Insured Michigan Municipal Bond Fund, Eaton Vance Insured New Jersey Municipal Bond Fund, Eaton Vance Insured New York Municipal Bond Fund II, Eaton Vance Insured Ohio Municipal Bond Fund, and Eaton Vance Insured Pennsylvania Municipal Bond Fund (collectively the "Funds" or individually the "Fund"), and the investment adviser, Eaton Vance Management ("Eaton Vance"), each provide that the advisory agreement will continue in effect from year to year so long as its continuance is approved at least annually (i) by a vote of a majority of the noninterested Trustees of the Fund cast in person at a meeting called for the purpose of voting on such approval and (ii) by the Trustees of the Fund or by vote of a majority of the outstanding interests of the Fund.

In considering the annual approval of the investment advisory agreements between each Fund and the investment adviser, the Special Committee of the Board of Trustees considered information that had been provided throughout the year at regular Board meetings, as well as information furnished to the Special Committee for a series of meetings held in February and March in preparation for a Board meeting held on March 21, 2005 to specifically consider the renewal of the investment advisory agreements. Such information included, among other things, the following:

An independent report comparing the advisory fees of each Fund with those of comparable funds;

An independent report comparing the expense ratio of each Fund to those of comparable funds;

Information regarding Fund investment performance in comparison to relevant peer groups of funds and appropriate indices;

The economic outlook and the general investment outlook in relevant investment markets;

Eaton Vance's results and financial condition and the overall organization of the investment adviser;

The procedures and processes used to determine the fair value of Fund assets and actions taken to monitor and test the effectiveness of such procedures and processes;

Eaton Vance's management of the relationship with the custodian, subcustodians and fund accountants;

The resources devoted to Eaton Vance's compliance efforts undertaken on behalf of the funds it manages and the record of compliance with the investment policies and restrictions and with policies on personal securities transactions;

The quality, nature, cost and character of the administrative and other non-investment management services provided by Eaton Vance and its affiliates; and

The terms of the advisory agreement and the reasonableness and appropriateness of the particular fee paid by the Fund for the services described therein.

The Special Committee also considered the investment adviser's municipal bond portfolio management capabilities, including information relating to the education, experience, and number of investment professionals and other personnel who provide services under the investment advisory agreements. Specifically, the Special Committee considered the investment adviser's 30-person municipal bond team, which includes six portfolio managers and nine credit specialists who provide services to the Funds. The Special Committee noted that the investment adviser's municipal bond team affords the investment adviser extensive in-house research capabilities in addition to the other resources available to the investment adviser. The Special Committee also took into account the time and attention to be devoted by senior management to the Funds and the other funds in the complex. The Special Committee evaluated the level of

Eaton Vance Insured Municipal Bond Funds

BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENTS CONT'D

skill required to manage the Funds and concluded that the human resources available at the investment adviser were appropriate to fulfill effectively its duties on behalf of the Funds.

In its review of comparative information with respect to each Fund's investment performance, the Special Committee concluded that each Fund has performed within a range that the Special Committee deemed competitive. With respect to its review of investment advisory fees, the Special Committee concluded that the fees paid by each Fund are within the range of those paid by comparable funds within the mutual fund industry. In reviewing the information regarding the expense ratio of each Fund, the Special Committee concluded that each Fund's expense ratio is within a range it deemed to be competitive in comparison with comparable funds within the mutual fund industry.

In addition to the factors mentioned above, the Special Committee reviewed the level of the investment adviser's profits in providing investment management services for each Fund and for all Eaton Vance Funds as a group. The Special Committee also reviewed the level of profits of Eaton Vance and its affiliates in providing administration services for each Fund and for all Eaton Vance Funds as a group. The Special Committee also considered a contractual waiver of advisory fees for the first seven years of the Fund's operations. In addition, the Special Committee considered the fiduciary duty assumed by the investment adviser in connection with the services rendered to each Fund and the business reputation of the investment adviser and its financial resources. The Trustees concluded that in light of the services rendered, the profits realized by the investment adviser are not unreasonable. The Special Committee also considered the fact that the Fund is not continuously offered and concluded that, in light of the level of the investment adviser's profits with respect to the Fund, the implementation of breakpoints is not appropriate.

The Special Committee did not consider any single factor as controlling in determining whether or not to renew the investment advisory agreements. Nor are the items described herein all the matters considered by the Special Committee. In assessing the information provided by Eaton Vance and its affiliates, the Special Committee also took into consideration the benefits to shareholders of investing in a fund that is a part of a large family of funds which provides a large variety of shareholder services. The Special Committee also considered that the investment adviser had entered into a Shareholder Servicing Agreement with UBS Securities LLC, whereby the investment adviser (and not the Fund) would pay UBS Securities LLC to provide upon request certain market data and other reports to support shareholder services pursuant to the agreement.

Based on its consideration of the foregoing factors and conclusions, and such other factors and conclusions as it deemed relevant, and assisted by independent counsel, the Special Committee concluded that the renewal of the investment advisory agreements, including the fee structures (described herein), is in the interests of shareholders.

Item 5. Audit Committee of Listed registrants

Not required in this filing.

Item 6. Schedule of Investments

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the Policies) which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues, on matters regarding the state of organization of the company and routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders. On all other matters, the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies' guidelines when it believes the situation warrants such a deviation. The Policies include voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to members of senior management of the investment adviser identified in the Policies. Such members of senior management will determine if a conflict exists. If a conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee.

Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended September 30, 2004 is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Item 8. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

No such purchases this period.

Item 9. Submission of Matters to a Vote of Security Holders.

Effective February 7, 2005, the Governance Committee of the Board of Trustees revised the procedures by which a Fund's shareholders may recommend nominees to the registrant's Board of Trustees to add the following (highlighted):

The Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder of a Fund if such recommendation contains (i)sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner (and in any event no later than the date specified for receipt of shareholder proposals in any applicable proxy statement with respect to a Fund). Shareholders shall be directed to address any such recommendations in writing to the attention of the Governance Committee, c/o the Secretary of the Fund. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.

Item 10. Controls and Procedures

(a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant's internal controls over financial reporting during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 11. Exhibits

- (a)(1) Registrant's Code of Ethics Not applicable (please see Item 2).
- (a)(2)(i) Treasurer's Section 302 certification.
- (a)(2)(ii) President's Section 302 certification.
- (b) Combined Section 906 certification.
