Report of Independent Registered Public Accounting Firm

The Board of Directors
Chemtura Corporation:

We have audited the accompanying statements of net assets available for plan benefits (modified cash basis) of the Crompton Corporation Employee Savings Plan (the Plan) as of December 31, 2005 and 2004, and the related statements of changes in net assets available for plan benefits (modified cash basis) for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for plan benefits for the years then ended, on the basis of accounting described in Note 2.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**CROMPTON CORPORATION
EMPLOYEE SAVINGS PLAN**

Notes to Financial Statements

December 31, 2005 and 2004

(1) Description of the Plan

The following description of the Crompton Corporation Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is intended to be a profit sharing plan meeting the requirements of Section 401(a) of the Internal Revenue Code (IRC) and contains provisions meeting the requirements of Sections 401(k) and 401(m) of the IRC.

The plan administrator is the Chemtura Corporation Employee Benefits Committee. Fidelity Investments is the trustee and record keeper of the Plan.

The Plan is a defined contribution plan established for the purpose of encouraging and assisting eligible employees of Chemtura Corporation and subsidiary companies in following a systematic savings program. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective April 1, 2002, the Uniroyal Chemical Company, Inc. Savings Plan A was merged into the Crompton Corporation Employee Savings Plan. The provisions of the Uniroyal Chemical Company, Inc. Savings Plan A as a result of this merger have remained unchanged. All assets have been transferred to similar funds as of the date of transfer.

Fidelity Investments® (the Trustee) is the custodial trustee for all of the Plan's assets. The Trustee has custodial responsibility for a trust fund on behalf of the Plan and maintains accounting records for all Plan assets.

(a) Eligibility

Employees become eligible to participate in the Plan beginning on the first day of any calendar month following 30 days of service.

(b) Participant Contributions

Each year, participants may contribute to the Plan, by means of payroll deductions, a pre-tax or post-tax contribution of up to 50% of earnings for nonhighly compensated employees, or 20% of earnings for highly compensated employees, effective with the first payroll period which ends on or after the date in which the employee becomes a participant, provided that the total of pre-tax contributions and after-tax contributions, if any, do not exceed the above percentages of the participant's earnings. Participants may change the rate of pre-tax contributions (and/or after-tax contributions, if any) at any time. Participant contributions are subject to Internal Revenue Service pre-tax limitations, which was \$14,000 in 2005 and \$13,000 in 2004.

Participants who are age 50 and older at any time during a Plan year may make catch-up contributions in that year. These contributions are additional tax-deferred contributions that eligible participants are permitted to make in excess of annual IRS tax-deferred contribution limit. For 2005

Edgar Filing: Chemtura CORP - Form 11-K

and 2004, the maximum amount of catch-up contributions that could have been made to the Employee Savings Plan was \$4,000 and \$3,000, respectively.

(c) Employer Contributions

For employees participating under the former Witco Plan, the Company's matching contribution is 50% of the first 6% of the participant's after-tax contributions and/or pre-tax contributions.

For employees participating under the former OSI Plan, the Company's matching contribution is 50% of the first 7½% of the participant's after-tax contributions and/or pre-tax contributions.

For employees participating under the former GE Plan, the Company's matching contribution is 50% of the first 7% of participant's after-tax contributions and/or pre-tax contributions.

For employees participating under the former Individual Account Retirement Plan (IARP), sponsored by Crompton and Knowles Corporation, the Company's basic contribution is equal to 2% of each participant's earnings (5% for Gustafson employees). Additionally, the Company makes a supplemental contribution equal to 2½% of each participant's earnings (Gustafson employees are not eligible to receive this supplemental contribution). The Company may, by appropriate corporate action, increase the supplemental contributions made by it for any Plan year (or part of a Plan year) to a higher percentage than 2½%.

(d) Investments of Contributions

Participants' pre-tax contributions, after-tax contributions, employer contributions and rollover contributions may be invested in whole percentages among the investment alternatives made available by the plan administrator, at the direction of the participants. Participants may change their investment elections with respect to existing funds, as well as future contributions, at any time.

(e) Vesting

Each participant's pre-tax contribution account, after-tax contribution account, company basic and rollover account is 100% fully vested at all times. Participants' Company matching and supplemental contributions vest based on years of service according to the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0 %
1	25 %
2	50 %
3	75 %
4	100 %

Each participant is fully (100%) vested in his Company contribution account in the event of any of the following: his attainment of normal retirement age while employed by the Company; his death while an employee of

the Company; upon a change in control of the Company while an employee of the Company; termination of the Plan or partial termination of the Plan which affects the participant; or complete discontinuance of employer contributions to the Plan.

If a participant was eligible to participate in the Witco Plan on December 31, 2000, he is at all times fully vested in the portion of his Company contribution account attributable to qualified nonelective contributions; a participant who had three years of service or three years of participation service on December 31, 2000 is fully vested in his Company contribution account upon completion of three years of participation service; a participant is fully vested upon attainment of age 55 while still employed by the Company; and a nonbargaining participant is fully vested in his Company contribution account in the event of his termination due to economic conditions.

Participants who were eligible to participate in the IARP on December 31, 2000, and any eligible employee hired on or after January 1, 2001, are always fully vested in the basic Company contributions.

(f) Forfeitures

In the event a participant who is not fully vested in his Company contribution account incurs a break in service, that portion which is not vested is forfeited. In the event that a participant who is less than 50% vested in his Company contribution account makes a voluntary withdrawal of his after-tax contribution account, any portion of his Company contribution account attributable to his matched after-tax contributions in which he is not vested is forfeited. Company contributions and the earnings thereon forfeited under the provisions of the Plan are applied to pay administrative expenses and/or reduce subsequent Company contributions required under the Plan. In the event that contributions under the Plan are discontinued or the Plan is terminated, the distributions of such forfeitures not yet applied are to be credited ratably to the accounts of active participants. At December 31, 2005 and 2004, forfeited nonvested accounts totaled \$93,279 and \$138,009, respectively. These amounts will be applied to reduce future employer contributions.

(g) Withdrawals and Distributions

At age 59½ and thereafter, an active participant can withdraw funds from the vested balance of his account at any time. Before age 59½, participants are permitted to make hardship withdrawals provided that he has an immediate and heavy financial need, and only if the participant cannot meet that need from any other source. A participant is not entitled to receive a hardship withdrawal until he has received all other distributions and loans available under all qualified plans maintained by the Company. The minimum amount that can be withdrawn under a hardship withdrawal is the lesser of \$200 or the total amount available for withdrawal, and may not exceed the amount of the financial need including amounts necessary to pay any Federal, state and local income taxes or penalties reasonably expected to result from the distribution, and are to be paid in one lump sum. If a participant makes a hardship withdrawal, he is not permitted to resume making contributions for a period of twelve months subsequent to the withdrawal.

Upon termination of employment, death, or attainment of age 70½, a participant is entitled to receive the value of his after-tax contribution account, pre-tax contribution account, rollover account, and the vested portion of his Company contribution account in the form of a single lump sum cash payment.

Distributions are to be made as soon as practicable following the participant's termination of employment, provided however, that if the value of a participant's vested balance is greater than \$5,000, the distribution will not be made prior to the participant's normal retirement age without his consent.

Any participant eligible to participate in the Witco Plan as of December 31, 2000, may withdraw from the Plan his entire supplementary after-tax contributions and interest earned thereon.

(h) Loans

Participants may borrow a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment funds and the loan fund. There are two types of loans available that consist of a general loan and a loan to buy a principal residence. No participant may have more than two loans outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at a rate of 1% over prime, ranging from 5% to 10% as of the origination date of the loan for loans outstanding at December 31, 2004. Loan repayments are made automatically through payroll deductions, with a minimum loan term of one year, and not to exceed five years, except for a loan for the purpose of purchasing a primary residence, in which case the loan may not exceed fifteen years. Participants who were members in the OSi Plan on December 31, 2000, were previously able to obtain a loan for the purpose of purchasing a primary residence, with terms not exceeding thirty years.

(2) Significant Accounting Policies

(a) Accounting Basis

The accompanying financial statements have been prepared on a modified basis of cash receipts and disbursements; consequently, contributions, interest and the related assets are recognized when received rather than when earned, and expenses are recognized when paid rather than when the obligation is incurred. Accordingly, the accompanying financial statements are presented on a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its benefit-responsive investment contracts, which are valued at contract value (note 3) and participant loans which are stated at cost. Fair value is determined by quoted market prices, if an active market exists, or redemption values, which approximate market value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The Chemtura Corporation Stock fund is valued at its year-end closing price. Participant loans are stated at cost, which approximates fair value.

Net appreciation (depreciation) in fair value of investments includes investments bought, sold, and held during the year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is

Edgar Filing: Chemtura CORP - Form 11-K

reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(c) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

(d) Plan Expenses

All Plan expenses may be paid by the Company, however, if not paid by the Company, may be charged to the Plan and paid from available forfeitures, or will be charged to each participant based on his allocable interest in the Plan. The Company provides certain administrative and accounting services to the Plan at no charge.

(3) Investments

The funds available to participants for investing their contributions and the Company contributions include the Chemtura Corporation Common Stock fund, various mutual funds which invest in various diversified stocks and bonds, and a fund which invests in benefit-responsive insurance contracts.

The Fidelity Blended Income Fund invests in benefit-responsive guaranteed investment contracts (GICs) offered by major insurance companies and other approved financial institutions and in certain types of fixed income securities. These GICs are stated at contract value by the Plan's trustee (Fidelity Investments), which approximates fair value. The average yield on the Company's GICs were 4.06% and 3.92%, respectively, during 2005 and 2004. The crediting interest rate on these GICs was 4.11% and 3.87%, respectively, at December 31, 2005 and 2004.

The fair value of the individual investments that represent 5% or more of the Plan's net assets at December 31, 2005 and 2004 are as follows:

	2005	2004
Blended Income Fund	\$ 87,629,698	97,109,174
Fidelity Magellan Fund	37,867,991	47,649,210
Fidelity Growth Company Fund	32,688,883	41,488,231
Fidelity Freedom 2010 Fund	22,009,445	28,455,014
U.S. Equity Index Commingled Pool	20,768,832	22,142,595
Fidelity Low Price Stock Fund	21,568,956	24,050,100
Dodge & Cox Fund	22,075,737	18,125,849
Fidelity International Growth Fund	19,929,552	17,840,379
Chemtura Common Stock Fund	37,515,877	9,254,489

Edgar Filing: Chemtura CORP - Form 11-K

During 2005 and 2004, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value as follows:

	December 31	
	2005	2004
Crompton Corporation Common Stock Fund	\$ 2,359,702	4,153,287
Chemtura Corporation Common Stock Fund	(1,217,181)	
Mutual Funds	9,718,619	20,401,864
	\$ 10,861,140	24,555,151

(4) Party-in-Interest Transactions

Fidelity Investments, Inc., the Company, and participants receiving plan loans are parties-in-interest as defined in Section 3(14) of ERISA. During the years 2005 and 2004, there were no prohibited party-in-interest transactions.

(5) Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 16, 2003, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(6) Plan Termination

The Company by action of its board of directors may suspend the operation of the Plan for any year by omitting all or part of the employer contributions. While the Company has not expressed any intent to discontinue, terminate or curtail the Plan, the Company at its discretion, may terminate or amend the Plan for any reason at any time provided that no such termination or amendment shall permit any of the funds established pursuant to this Plan to be used for any purpose other than the exclusive benefit of the participating employees. Upon termination of the Plan, the rights of members to the benefits accrued under the Plan to the date of termination shall be nonforfeitable.

(7) Asset Transfer

On March 22, 2004, the Company entered into an agreement with Bayer CropScience LP in the U.S. and Bayer CropScience, Inc. in Canada to sell its 50% interest in the Gustafson seed treatment joint venture. The assets of the former Gustafson employees, totaling \$15,958,957, were transferred out of the Plan in May 2004.

On December 30, 2005, the Company transferred in assets of \$58,562,797 from the Employee Stock Ownership Plan.

On June 30, 2005, the Company transferred out the assets of the Davis Standard employees, totaling \$27,931,876.

On August 15, 2005, the Company transferred out the assets of the Refined Products employees, totaling \$14,591,408.
