Supplemental Disclosures of Cash Flow Information Interest (net of amounts capitalized) of \$995,000 and \$29,000 was paid during the six months ended June 30, 2007 and 2006, respectively. Income taxes of \$277,000 and \$2,381,000 were paid during the six months ended June 30, 2007 and 2006, respectively.

Non-Cash Investing Activities Accounts and notes receivable at June 30, 2007 includes \$2.6 million related to the sale of pineapple operations equipment, materials and supplies that were sold in connection with the Company's restructuring of the pineapple operations. In 2006, net cash sales proceeds of \$21.9 million were deposited with a qualified exchange intermediary for reinvestment on a tax-deferred basis. Amounts included in trade accounts payable for additions to property and other assets totaled \$4,087,000 and \$4,383,000 at June 30, 2007 and 2006, respectively.

See accompanying Notes to Condensed Consolidated Financial Statements.

MAUI LAND & PINEAPPLE COMPANY, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. In the opinion of management, the accompanying condensed consolidated financial statements contain all normal and recurring adjustments necessary to fairly present the financial position, results of operations and cash flows for the interim periods ended June 30, 2007 and 2006.
2. The Company's reports for interim periods utilize numerous estimates of production cost, general and administrative expenses, and other costs for the full year. Future actual amounts may differ from the estimates. Amounts in the interim reports are not necessarily indicative of results for the full year.
3. Net income was equal to comprehensive income for the interim periods ended June 30, 2007 and 2006.
4. The effective tax rate for 2007 and 2006 differs from the statutory federal rate primarily because of the state tax provision, state tax credits, and certain non-deductible expenses.
5. Accounts and notes receivable are reflected net of allowance for doubtful accounts of \$277,000 and \$555,000 at June 30, 2007 and December 31, 2006, respectively.
6. Inventories as of June 30, 2007 and December 31, 2006 were as follows:

	6/30/07	12/31/06
	(in thousands)	
Pineapple products		
Finished goods	\$ 1,664	\$ 1,416
Work in progress		299
Raw materials		492
Real estate held for sale	3,255	8,449
Merchandise, materials and supplies	7,257	7,368
Total Inventories	\$ 12,176	\$ 18,024

The Company accounts for the costs of growing pineapple in accordance with the annual accrual method, which has been used by Hawaii's pineapple and sugarcane growers since the 1950s. Under this method, revenues and costs are determined on the accrual basis, and pineapple production costs incurred during a year are charged to the costs of crops harvested during that year. These costs include land preparation and planting, cultivation, irrigation, crop development, harvesting and hauling to the central processing facility. They also include certain overhead costs that are directly related to the growing of pineapple. Accordingly, no costs are assigned to the growing (unharvested) crops. The annual accrual method is the most appropriate method of accounting for the costs of growing pineapple because of pineapple's crop cycle (18 to 48 months) and the uncertainties about fruit quality and the number of crops to be harvested from each planting (one to three crops). AICPA Statement of Position No. 85-3 (SOP), *Accounting by Agricultural Producers and Agricultural Cooperatives*, states that all direct and indirect costs of growing crops should be accumulated and growing crops should be reported at the lower of cost or market. However, SOP No. 85-3 does not apply to growers of pineapple and sugarcane in tropical regions because tropical agriculture (of which pineapple and sugarcane production in Hawaii are examples) differs greatly from agriculture in temperate regions of the mainland United States. The Company's growing (unharvested) crops generally consisted of approximately 3,500 to 4,000 acres that are expected to yield up to

48 tons per acre for the first crop harvested. The Company's growing crops are in various stages of development, and will be harvested principally in the years 2007 through 2009.

7. Average Common Shares Outstanding Used to Compute Earnings Per Share

	Three Months Ended June 30		Six Months Ended June 30	
	2007	2006	2007	2006
Basic	7,925,228	7,256,800	7,674,202	7,255,806
Diluted	7,925,228	7,256,800	7,745,694	7,352,414

In 2007 and 2006, diluted shares included common stock equivalents, principally employee stock options and restricted stock awards. For the three months ended June 30, 2007 and 2006, potentially dilutive common shares of 67,954 and 100,525, respectively, from stock-based compensation arrangements are not included in the number of diluted common shares because to do so would have an antidilutive effect on the earning per share amounts (i.e., decrease loss per common share).

8. Kapalua Bay Holdings, LLC

The Company has a 51% ownership interest in Kapalua Bay Holdings, LLC, a Delaware limited liability company ("Bay Holdings"), which is the sole member of Kapalua Bay LLC, a Delaware limited liability company ("Kapalua Bay"). Major operating and financial decisions require approval of all the members in Bay Holdings and, accordingly, the Company's investment in Bay Holdings is being accounted for using the equity method, rather than being consolidated with the Company's financial statements, because the Company does not have a controlling interest in Bay Holdings.

Kapalua Bay is constructing a residential development on land that it owns at the site of the former Kapalua Bay Hotel, and a spa on an adjacent parcel of land that is owned by the Company and leased to Kapalua Bay. The Kapalua Bay Hotel closed in April 2006 to prepare for the commencement of sales and marketing efforts for the whole and fractional condominium units that comprise the Residences at Kapalua Bay project. In June 2006, Kapalua Bay began to enter into binding sales contracts and, in the second half of 2006, demolition and construction began.

The Company's equity in the earnings (losses) of Bay Holdings was \$4.1 million and (\$1.4) million for the six months ended June 30, 2007 and 2006, respectively, and \$2.2 million and (\$1.5) million for the three months ended June 30, 2007 and 2006, respectively. Upon formation of Kapalua Bay in 2004, the Company's non-monetary contributions to Bay Holdings, including a 21-acre land parcel, were valued at \$25 million by the members through arms-length negotiations. The land contribution was recorded by the Company in its investment carrying value in Bay Holdings at historical cost, which was nominal, and Kapalua Bay recorded the contribution at its fair market value of \$25 million. In 2007, Bay Holdings began to recognize profit from binding sales contracts on the whole and fractional ownership condominiums on a percentage-of-completion method. Accordingly, in 2007, the Company began to recognize a proportionate amount of the unrealized appreciation of the fair value of the land and other non-monetary contributions to Kapalua Bay and other deferred costs related to the joint venture. This resulted in income, net of deferred costs, of \$1.2 million and \$692,000, respectively, for the six months and three months ended June 30, 2007, and is included in the Company's equity in earnings of Bay Holdings.

In July 2006, Kapalua Bay entered into a Construction Loan Agreement (the "Loan Agreement") with Lehman Brothers Holdings Inc., a Delaware corporation ("Lehman"), for the lesser of \$370 million or 61.6% of the total projected cost of the project (the "Loan"). Disbursements under the Loan Agreement are contingent upon, among other things, no event of default or material adverse change occurring with respect to Kapalua Bay or the project. The Loan is not revolving in nature and

amounts repaid may not be subsequently advanced. All Loan proceeds disbursed shall be used only for specified budgeted items for which such proceeds were advanced. Lehman is not obligated to make loan advances exceeding \$85 million until sales of residential units equals or exceeds \$285.0 million. As of June 30, 2007, total loan advances were \$81.7 million and Kapalua Bay had executed approximately \$251 million in binding sales commitments.

The Loan is collateralized by the project assets, including the fee simple interest in the land owned by Kapalua Bay, the adjacent spa parcel owned by the Company, and all of the sales contracts.

The Company and the other members of the joint venture have guaranteed to the lender completion of the project and each member's pro rata share of costs and losses incurred by the lender as a result of the occurrence of specified triggering events during the term of the Loan Agreement. The members' guarantee to the lender does not include payment in full of the Loan. The Company has recognized a liability of \$968,000, representing the estimated fair value of its obligation under this guarantee.

Summarized operating statement information for Bay Holdings is as follows:

	Three Months Ended June 30, 2007		Six Months Ended June 30, 2007	
	2006	2006	2006	2006
	(in thousands)			
Revenues	\$ 24,876	\$ 435	\$ 44,390	\$ 6,668
Expenses	21,864	3,449	38,778	9,351
Net Income (Loss)	\$ 3,012	\$ (3,014)	\$ 5,612	\$ (2,683)

9. Land Sale and Joint Venture Interest

On March 28, 2007, the Company sold the land underlying the Ritz-Carlton, Kapalua hotel (Hotel) to a wholly-owned affiliate of the limited liability company (the Hotel JV) that owned the hotel and was the lessee under the long-term ground lease with the Company. Approximately 49 acres were sold for \$25 million in cash at closing and for a 21.4% interest in the Hotel JV, and the Company recognized a gain of \$24.8 million on the sale.

In connection with the sale of the land, the long-term ground lease was terminated and a Second Amended and Restated Limited Liability Company Agreement of W2005 Kapalua/Gengate Holdings L.L.C. (the Hotel JV Agreement) was executed. Pursuant to the Hotel JV Agreement, the members of and the percentage interests in the Hotel JV are:

- (i) Whitehall Street Global Real Estate Limited Partnership 2005, a Delaware limited partnership (Whitehall Street); 40.4234%;
- (ii) Whitehall Street Global Employee Fund 2005, a Delaware limited partnership (Whitehall Employee Fund); 10.648%;
- (iii) Gengate Kapalua Holdings GP, LLC, a Delaware limited liability company (GHGP); 0%;
- (iv) Gengate Kapalua Holdings, LLC, a Delaware limited liability company (GKH); 27.5%;
- (v) MLP RCK LLC, a Hawaii limited liability company (MLPC), whose sole member is the Company; 21.4286%.

Whitehall Street, Whitehall Employee Fund and GKH are designated as the Managing Members of the Hotel JV. Major decisions, as such term is defined in the Hotel JV Agreement, require the consent of Whitehall Street or Whitehall Employee Fund, and either GKH or MLPC. Profits and losses of the Hotel JV will be allocated in proportion to the members' ownership interests, which

approximate the estimated cash distributions to the members. The Company has the ability to exercise significant influence, but not control, over operating and financial policies of the Hotel JV and will account for its investment in the Hotel JV using the equity method. The Hotel JV is not a variable interest entity as defined by Financial Accounting Standards Board Interpretation No. 46(R), *Consolidation of Variable Interest Entities*.

Pursuant to the Hotel JV Agreement, the Company is deemed to have contributed \$7.5 million as a capital contribution to the Hotel JV. The Company's initial carrying amount of its interest in the Hotel JV has been recorded on its consolidated balance sheet as -0-, which resulted from the deferral of a portion of the gain on the land sale amounting to \$7.5 million that is proportionate to the Company's interest in the Hotel JV.

Pursuant to the Hotel JV Agreement, \$4.1 million of the Company's \$7.5 million contribution is deemed to have been contributed in lieu of certain future capital calls. Should MLPC fail to make any additional capital contributions when called to do so by a Managing Member, certain dilution provisions provide that MLPC's interest will be reduced by the aggregate amount of the increase in the percentage interests of all contributing members, but in no event shall MLPC's percentage interest be reduced below 10%. Any amounts funded by the other members on behalf of MLPC which would have otherwise reduced MLPC's percentage interest below 10% will instead be treated as member loans to the Hotel JV, with such loans to be repaid directly by the Hotel JV on behalf of MLPC from any amounts that would otherwise be payable by the Hotel JV to MLPC.

Concurrent with the Hotel JV Agreement, the Hotel JV entered into certain loan agreements with Lehman Brothers Holding Inc. totaling \$271.7 million and an amendment to an existing loan agreement of \$20 million with Luxury Finance, LLC, a Delaware limited liability company (collectively, the Loans). The Loans are principally for the purpose of acquiring the land from the Company, repaying existing debt, and completing a comprehensive refurbishment of the Hotel. The Company is not liable for the repayment of the Loans, but is liable for any loss suffered by the lenders as a result of the Company's fraudulent acts, misrepresentation or certain other triggering events, up to 10.71% of the then outstanding loan balances. The Company has recognized a liability of \$93,000, representing the estimated fair value of its obligations under these provisions.

10. Stock-Based Compensation

The Company accounts for stock compensation arrangements in accordance with Statement of Financial Accounting Standards (SFAS) No. 123(R), *Share-Based Payment*. SFAS No. 123(R) requires all share-based payments, including grants of employee stock options, to be recognized as compensation expense over the service period (generally the vesting period) in the consolidated financial statements based on their fair values. The impact of forfeitures that may occur prior to vesting is also estimated and considered in the amount recognized. SFAS No. 123(R) requires excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid.

The total compensation expense recognized for stock-based compensation was \$2,862,000 and \$1,208,000 for the six months ended June 30, 2007 and 2006, respectively, and \$811,000 and \$565,000 for the three months ended June 30, 2007 and 2006, respectively. The total tax benefit related thereto was \$757,000 and \$435,000 for the six months ended June 30, 2007 and 2006, respectively, and \$328,000 and \$204,000, for the three months ended June 30, 2007 and 2006, respectively. Recognized stock compensation was reduced for estimated forfeitures prior to vesting primarily based on historical annual forfeiture rates of approximately 5.2% and 5.8%, for the six months ended June 30, 2007 and 2006, respectively. Estimated forfeitures will be reassessed in subsequent periods and may change based on new facts and circumstances.

Stock Options

In May 2006, the Company's shareholders approved the 2006 Equity and Incentive Award Plan (the 2006 Plan) and an increase in the number of shares of common stock authorized under the Articles of Association by 1,000,000 shares, all of which have been reserved for issuance under the 2006 Plan. The 2006 Plan provides that the administrator can grant stock options and other equity instruments. The terms of certain grant types follow general guidelines, but the term and conditions of each award can vary at the discretion of the administrator. With respect to awards granted to non-employee directors, the administrator of the 2006 Plan is the Board of Directors. The Compensation Committee of the Board is the administrator of the 2006 Plan for all other persons, unless the Board assumes authority for administration. Upon approval of the 2006 Plan, the Company's Stock and Incentive Compensation Plan of 2003 (the 2003 Plan) was terminated and no further grants will be made under that plan.

The 2003 Plan was approved by the Company's shareholders in December 2003 and included 500,000 shares of common stock authorized for issuance. The Company also has stock compensation agreements with its President and Chief Executive Officer under which non-qualified stock options (200,000 shares) and restricted stock (100,000 shares) were granted in 2003.

A summary of stock option award activity as of and for the six months ended June 30, 2007 is presented below:

	Shares	Weighted Average Exercise Price	Weighted Average Grant-Date Fair Value	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value \$(000)(1)
Outstanding at December 31, 2006	863,500	\$ 31.64			
Granted	25,000	\$ 31.73	\$ 13.36		
Exercised	(70,667)	\$ 20.13			
Forfeited or Cancelled	(30,000)	\$ 30.85	\$ 15.59		
Outstanding at June 30, 2007	787,833	\$ 32.70	\$ 13.50	7.6	\$ 2,582
Exercisable at June 30, 2007	323,069	\$ 28.73	\$ 12.53	6.2	\$ 1,482

(1) For in the money options

Additional stock option information for the six months ended June 30, 2007 and 2006 follows:

	2007	2006
Weighted Average Grant-Date Fair Value		
For Options Granted During the Period	\$ 13.36	\$ 16.08
Intrinsic Value of Options Exercised \$(000)	\$ 759	
Cash Received From Option Exercises \$(000)	\$ 1,422	
Tax Benefit From Option Exercises \$(000)	\$	
Fair Value of Shares Vested During the Period \$(000)	\$ 1,128	\$ 802

For the six months ended June 30, 2007 and 2006, the fair value of the Company's stock options awarded to employees was estimated using the Black-Scholes option pricing model and the following weighted average assumptions:

	2007	2006
Expected Life of Options in Years	6.5	6.2
Expected Volatility	31.5 %	32.4 %
Risk-free interest rate	4.7 %	4.9 %
Expected dividend yield		

Edgar Filing: MAUI LAND & PINEAPPLE CO INC - Form 10-Q

As of June 30, 2007, there was \$7,105,000 of total unrecognized compensation for awards granted under the stock option plans that is expected to be recognized over a weighted average period of 1.9 years.

Restricted Stock

In the first six months of 2007, 34,000 shares of restricted stock were granted to certain directors and officers pursuant to the 2006 Plan. The shares will vest subject to achievement of certain performance measures. In the first six months of 2007, 4,000 shares of restricted stock vested as directors' service requirements were met and 49,466 shares granted to certain officers vested as performance measures were achieved. The weighted average grant-date fair value of restricted stock granted during the six months ended June 30, 2007 and 2006 was \$32.34 and \$35.94, per share, respectively.

A summary of the activity for restricted stock awards as of and for the six-month period June 30, 2007 is presented below:

	Shares	Weighted Average Grant-Date Fair Value
Nonvested balance at December 31, 2006	259,271	\$ 33.24
Granted	34,000	\$ 32.34
Vested	(53,466)	\$ 31.06
Forfeited or Cancelled	(21,250)	\$ 35.60
Nonvested balance at June 30, 2007	218,555	\$ 32.89

11. Components of Net Periodic Benefit Cost

The net periodic costs for pension and other post-retirement benefits for the three months and six months ended June 30, 2007 and 2006 were as follows:

	Three Months Ended June 30, 2007		Six Months Ended June 30, 2006	
	2007	2006	2007	2006
	(in thousands)			
Pension Benefits				
Service cost	\$ 435	\$ 401	\$ 869	\$ 803
Interest cost	848	756	1,697	1,512
Expected return on plan assets	(863)	(808)	(1,726)	(1,616)
Amortization of prior service cost	12	6	23	13
Amortization of transition liability	6	12	12	24
Recognized actuarial loss	156	97	312	195
Contractual termination benefits	369		369	
Curtailement loss	27		27	
Net expense	\$ 990	\$ 464	\$ 1,583	\$ 931
Other Benefits				
Service cost	\$ 76	\$ 97	\$ 151	\$ 195
Interest cost	199	238	398	475
Amortization of prior service cost	(8)	(32)	(16)	(64)
Recognized actuarial (gain)	(122)	(51)	(244)	(101)
Special termination benefits	36		36	
Curtailement (gain)	(138)		(138)	
Net expense	\$ 43	\$ 252	\$ 187	\$ 505

Effective June 30, 2007, the Company ceased the production of substantially all solid-pack pineapple products (see Note 17) resulting in the termination of 73 employees in June 2007 and 45 employees in July 2007. Contractual termination benefits included the immediate payment of certain pension benefits. Special termination benefits relate to the enhancement of post-retirement health care benefits. The curtailment loss in pension benefits and curtailment gain in other benefits relate to termination of 73 employees in June 2007. The Company expects to record a curtailment gain of \$260,000 in other benefits related to 45 employees who were terminated in July 2007.

During 2007, the Company expects to contribute \$1.2 million to \$2.0 million to its defined benefit pension plans and \$719,000 to its other post-retirement benefit plans.

12. Income Taxes

The Company's State of Hawaii income tax returns for 2000, 2001 and 2002 are under examination by the Department of Taxation. The tax auditors' reports on these examinations have not been issued and the Company presently cannot predict the outcome of these examinations. The Company's federal income tax returns have been reviewed through 2002.

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109 (FIN 48)* on January 1, 2007. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. As of January 1, 2007, the Company had unrecognized tax benefits of approximately \$2.9 million, and as a result of the implementation of FIN 48, the Company increased its liability for these benefits by \$200,000, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings. Approximately \$2.2 million of the unrecognized tax benefits represent taxes on revenues for which the timing of the taxability is uncertain and the liability for such taxes have been recognized as deferred tax liabilities. The acceleration of the recognition of such income would not affect the estimated annual effective tax rate, but would accelerate the payment of income taxes to earlier periods and would result in additional interest expense.

As of January 1, 2007, the Company had recorded a liability of approximately \$394,000 for potential interest expense for uncertain tax issues. In the first six months of 2007, the Company recorded \$145,000 of additional interest expense for unrecognized tax benefits. The Company recognizes interest accrued related to unrecognized tax benefits as interest expense and penalties in general and administrative expense in its statement of operations, and such amounts are included in income taxes payable on the Company's balance sheet.

13. Operating Segment Information:

	Three Months Ended June 30 2007 (in thousands)	2006	Six Months Ended June 30 2007	2006
Operating Revenues				
Agriculture	\$ 13,224	\$ 14,341	\$ 26,970	\$ 30,264
Resort	8,911	11,435	20,566	24,365
Community Development	16,108	7,515	51,342	37,602
Other	447	290	795	302
Total Operating Revenues	\$ 38,690	\$ 33,581	\$ 99,673	\$ 92,533
Operating Profit (Loss)				
Agriculture	\$ (10,595)	\$ (3,427)	\$ (12,991)	\$ (5,725)
Resort	(2,766)	(1,856)	(3,670)	(1,426)
Community Development	8,116	708	37,211	24,071
Other	(6)	1	(35)	(242)
Total Operating Profit (Loss)	(5,251)	(4,574)	20,515	16,678
Interest Expense	(333)		(1,044)	(29)
Interest Income	350	511	641	812
Income Tax (Expense) Benefit	1,724	1,463	(7,908)	(6,286)
Net Income (Loss)	\$ (3,510)	\$ (2,600)	\$ 12,204	\$ 11,175

14. Commitments and Contingencies

Pursuant to a 1999 settlement agreement with the County of Maui, the Company and several chemical manufacturers have agreed that until December 1, 2039, they will pay for 90% of the capital cost to install filtration systems in any future water wells if the presence of a nematocide commonly known as DBCP exceeds specified levels, and for the ongoing maintenance and operating cost for filtration systems on existing and future wells. The Company estimated its share of the cost to operate and maintain the filtration systems for the existing wells and its share of the cost of a letter of credit used to secure its obligations, and as of June 30, 2007, has a recorded liability of \$213,000. The Company paid \$238,000 in 2005 for its share of the capital costs to install a filtration system for an existing well. The Company is presently not aware of any plans by the County of Maui to install other filtration systems or to drill any water wells in areas affected by agricultural chemicals. Accordingly, a reserve for costs relating to any future wells has not been recorded because the Company is not able to reasonably estimate the amount of the liability (if any).

In addition to the matter noted above, there are various other claims and legal actions pending against the Company. In the opinion of management, after consultation with legal counsel, the resolution of these other matters is not expected to have a material adverse effect on the Company's Consolidated Financial Statements.

The Company, as an investor in various affiliates (partnerships, limited liability companies), may under specific circumstances be called upon to make additional capital contributions.

At June 30, 2007 the Company had commitments under signed contracts totaling \$10.5 million, which primarily relate to real estate development projects.

15. Related Party Transactions

In April 2007, of the sale of approximately 181 acres of Upcountry Maui land to the Company's Senior Vice President/ Corporate Development closed escrow and the Company recognized a pre-tax gain of \$2.8 million. In February 2007, the \$4.1 million sale (\$4.0 million pre-tax gain) of approximately 157 acres of Upcountry Maui land to the Company's Chairman, President and Chief Executive Officer closed escrow. Prior to the closing of the latter sale, the Company leased a 3,500 square foot residence that is

located on the property to the executive for \$1,500 per month, which represented the fair market value based on an estimate by a third party realtor.

The land sale agreements were structured in compliance with the Company's policy for related party real estate sales. Such policy requires an independent appraisal of the property value, allows for a 3% discount to the sales price in lieu of broker's commissions, and requires review and approval of the sales price by the Audit Committee of the Board of Directors. The properties had been previously designated for sale in 2004 as part of the real estate that is considered non-core to the Company's operations.

16. Private Placement of Common Stock

On March 12, 2007, the Company entered into a Securities Purchase Agreement with two accredited investors, Ohana Holdings, LLC and ZG Ventures, LLC, pursuant to which the Company raised approximately \$14,900,000 in net proceeds through a private placement of 517,242 shares of common stock at a purchase price of \$29.00 per share. Miles R. Gilburne, who was elected to the Company's Board of Directors on May 7, 2007, is the managing member of ZG Ventures, LLC.

In connection with the issuance of the common stock (the Shares), the Company entered into a Registration Rights Agreement with the investors obligating the Company to register for resale the Shares on a registration statement to be filed with the Securities and Exchange Commission not later than March 12, 2008, subject to the exceptions set forth therein. The investors have also been granted piggy-back registration rights with respect to the Shares.

17. Pineapple Operations Restructuring

On April 30, 2007, the Company's Board of Directors approved a comprehensive plan that would continue to shift the pineapple operations' focus to fresh fruit sales. As part of this plan, the Company ceased substantially all canning and processing of solid-pack pineapple products effective as of June 30, 2007, although it will continue to process a small volume through the end of 2007. The Company will continue to process pineapple juice and will extend its fresh fruit line to include products for institutional accounts. The decision to exit from the solid-pack operations was based on the rising costs of fuel, materials and labor, and the competitive forces of a global economy that have made the operation unprofitable.

As a result of the discontinuance of solid-pack pineapple processing, the Company eliminated 120 positions in its pineapple operations, with 73 employees being terminated in June and the balance primarily in July 2007. Equipment, material and supplies related to the canning operations were sold or written off in June 2007. The Company had entered a non-cancellable long-term purchase commitment for (Champaka) pineapple through mid-2010. This pineapple variety is used principally for canning or juice, and the Company has recorded the estimated loss on a portion of this purchase commitment as of June 2007. The net charges recorded in the second quarter of 2007 related to the restructuring of canning operations were as follows:

	In thousands
Net loss on disposition of fixed assets, materials and supplies	\$ 2,278
Loss on purchase supply contract	1,149
Employee severance	1,695
Pension and other postretirement benefits, net (see Note 11)	294
Total	\$ 5,416

In addition, the reduction in the estimated full year production and sales of processed fruit resulted in an increase in the per unit cost of sales, which under the standard cost method utilized by the Company is recognized as a charge to current operations of approximately \$2.6 million in June 2007. This charge is included in cost of sales for the second quarter of 2007, and will continue to affect cost of sales for the remainder of 2007.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2006 and the unaudited condensed consolidated financial statements and related notes included in this Quarterly Report on Form 10-Q. Depending upon the context, the terms the Company, we, our, and us, refers to either Maui Land & Pineapple Company, Inc. alone, or the Company and its subsidiaries.

Overview of the Company

Maui Land & Pineapple Company, Inc. is a Hawaii corporation and the successor to a business organized in 1909. Principal subsidiaries include Maui Pineapple Company, Ltd. and Kapalua Land Company, Ltd. Our reportable operating segments are Agriculture, Resort and Community Development.

Agriculture

The Agriculture segment primarily includes growing, packing and marketing of fresh premium pineapple. In the second quarter of 2007, we began to offer a second label fresh pineapple product for the food service sector. Prior to June 30, 2007, we packed and canned (processed) pineapple. We will continue to process pineapple juice, but will no longer produce solid-pack canned pineapple product in the future (see Note 17 to Condensed Consolidated Financial Statements). The fruit grown by us principally consists of three types of pineapple, *Maui Gold*[®], *Hawaiian Gold*[™], and organic pineapple.

The fresh fruit market is a year-round business, which requires consistency of supply. Over the past two years, we have made significant progress in changing our agronomic practices and planting schedules to produce a more consistent and predictable supply of fruit throughout the year. In addition, we have made significant progress in implementing improved crop maintenance and agronomic practices that we believe will improve our plant yields (tons of fruit per acre) and fruit quality.

Resort

The Kapalua Resort is part of approximately 22,500 acres we own in West Maui, most of which remain as open space. Presently, the Kapalua Resort includes approximately 2,575 acres bordering the ocean with five white sand beaches and includes The Ritz-Carlton, Kapalua, eight residential subdivisions, two championship golf courses (The Bay and The Plantation), a ten-court tennis facility, the first phase of commercial space in the central area of the Resort, several restaurants, and over 800 condominiums, single-family homes and residential lots. We operate Kapalua Resort's two golf courses, the tennis facility, several retail shops, a vacation rental program (The Kapalua Villas), and provide certain services to the Resort. We currently have approximately 250 units in our Kapalua Villas vacation rental program.

Several significant revitalization and renovation initiatives are underway at the Kapalua Resort. In 2006, the Kapalua Bay Hotel and the adjacent shops were closed to prepare for the development residential units, a beach club and spa (see Note 8 to Condensed Consolidated Financial Statements). In July 2007, the Ritz Carlton, Kapalua hotel closed for extensive renovation with plans to reopen in December 2007. In August 2007, we expect to begin renovation of nine holes of the Bay (golf) Course in preparation for the Kapalua LPGA Classic golf tournament in October 2008 that we announced in July 2007. We are also constructing a mountain activity center and zip-lines, which are scheduled to open in December 2007.

Community Development

The Community Development segment includes our real estate entitlement, development, construction, sales, leasing, and conservation activities. Our projects are focused primarily on the luxury real estate market in and surrounding the Kapalua Resort and affordable and moderately priced residential and mixed use projects in West Maui and Upcountry Maui. This segment also includes the operations of Kapalua Realty Company, our general brokerage real estate company located within the Resort, and our Public Utilities Commission regulated water and sewage operations that service the Kapalua Resort and adjacent communities.

The Community Development segment also includes the management of several leases, including the ground lease underlying The Ritz-Carlton, Kapalua (through March 28, 2007). On March 28, 2007, we sold the land underlying the Ritz-Carlton, Kapalua hotel to a wholly-owned affiliate of the limited liability company (the Hotel JV) that was the lessee under the ground lease for \$25 million in cash at closing and a 21.4% interest in the Hotel JV (see Note 9 to Condensed Consolidated Financial Statements). The Community Development segment also includes our 51% equity interest in Kapalua Bay Holdings, LLC, the limited liability company that purchased the Kapalua Bay Hotel in August 2004 (see Note 8 to Condensed Consolidated Financial Statements). Kapalua Bay Holdings, LLC has demolished the Kapalua Bay Hotel, with approximately 98% of the structure recycled or upcycled, and the adjacent shops in order to develop new whole and fractional residential units, an ocean-side spa, and a beach club at that location. As of June 30, 2007, the percentage completion of the six residential buildings ranged from approximately 8% to 27%.

We have approximately 1,500 acres of land in Maui that are at various stages in the land entitlement process. We must obtain appropriate entitlements for land that we intend to develop or use for construction. Securing proper land entitlement is a process that requires obtaining county, state and federal approvals, which can take several years to complete and entails a variety of risks.

The Community Development segment is working on a number of real estate development projects, some of which are as follows:

- Kapalua Mauka is a 690-unit residential, golf and commercial project on 925 acres adjacent to the Kapalua Resort. This project received zoning approval in February 2006. Detailed planning for Kapalua Mauka is currently underway.
- Central Resort (Village at Kapalua) is projected to include 164 dwelling units and approximately 44,000 square feet of commercial space. The project is in the design development phase.
- Pailolo Views is projected to include approximately 42 affordable housing rental units near the Bay Course at the south edge of the Kapalua Resort. We are presently in the design and construction bidding phase of this project.
- West Maui Village is project to include approximately 90 affordable units and approximately 68 market priced units in Napili, near the Kapalua Resort. We are presently in the design and construction bidding phase of this project.
- Pulelehua is a proposed new urbanism community of approximately 882 units in West Maui that is planned to include a variety of housing types, mixed commercial and residential uses, and neighborhood serving commercial uses. Over 50% of the homes and apartments are intended to be affordable for working families as defined by the County of Maui. We are presently in the entitlement phase of this project.
- Hali`imaile Town is a planned new town in Upcountry Maui that we expect to be a holistic community where sustainable agriculture, education, and green building principles are core design

elements. We are presently in the conceptual design phase of this project, with entitlement applications to be submitted in 2007.

Current Developments

In the second quarter of 2007, some of our significant transactions, events and key initiatives included the following:

- In April, we concluded that as of June 30, 2007 we would cease the processing of substantially all solid-pack canned pineapple and focus primarily on premium fresh pineapple sales. Job fairs and re-employment transition activities were held throughout the remainder of the second quarter for the affected employees (see Note 17 to Condensed Consolidated Financial Statements).
- In April, we closed escrow on the \$2.8 million sale of a non-core land parcel in Upcountry Maui.
- In May, our shareholders (i) elected Miles R. Gilburne, and re-elected David A. Heenan and Kent T. Lucien as Class Two Directors; and (ii) approved an amendment to the Articles of Association to authorize an additional 14,000,000 shares of common stock.
- In June, we sold five lots at Honolua Ridge Phase II, leaving two lots of the original 25 in the phase remaining in inventory.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of accounting estimates. Changes in these estimates and assumptions are considered reasonably possible and may have a material effect on the consolidated financial statements and thus actual results could differ from the amounts reported and disclosed herein. Our critical accounting policies that require the use of estimates and assumptions were discussed in detail in our most recently filed Form 10-K and have not changed materially from that discussion, except for FIN 48 which was adopted on January 1, 2007 (see Note 12 to Condensed Consolidated Financial Statements).

RESULTS OF OPERATIONS

Three Months Ended June 30, 2007 compared to Three Months Ended June 30, 2006

CONSOLIDATED

	Three Months Ended June 30,		
	2007	2006	change
	(in millions, except per share amounts)		
<i>Consolidated Revenues</i>	\$ 38.7	\$ 33.6	\$ 5.1
<i>Net Loss</i>	\$ (3.5)	\$ (2.6)	\$ (0.9)
<i>Basic Earnings Per Common Share</i>	\$ (0.44)	\$ (0.36)	\$ (0.08)

We reported a net loss of \$3.5 million (\$.44 per share) for the second quarter of 2007 compared to a net loss of \$2.6 million (\$.36 per share) for the second quarter of 2006. Consolidated revenues for the second quarter of 2007 were \$38.7 million compared to \$33.6 million for the second quarter of 2006. Increased revenues and operating profit from the Community Development segment were offset by increased operating losses from the Agriculture and Resort segments, including charges of approximately \$8 million related to the restructuring of the pineapple operations (see Note 17 to Condensed Consolidated Financial Statements).

Edgar Filing: MAUI LAND & PINEAPPLE CO INC - Form 10-Q

General and Administrative

Consolidated general and administrative expenses decreased by 10%, or \$900,000 to \$8.2 million for the second quarter of 2007 from \$9.1 million for the second quarter of 2006.

The major components of the difference in general and administrative expenses were as follows:

	Three Months Ended June 30,		
	2007	2006	change
	(in millions)		
Salaries & wages	\$ 2.5	\$ 2.8	\$ (0.3)
Employee incentives & stock compensation	1.0	0.9	0.1
Professional & other services	1.0	1.2	(0.2)
Depreciation expense	0.6	1.3	(0.7)
Other	3.1	2.9	0.2
Total	\$ 8.2	\$ 9.1	\$ (0.9)

The reduction in salaries and wages for the second quarter of 2007 compared to the second quarter of 2006 is due primarily to Agriculture re-training charges that are included in the second quarter of 2006. In 2006, some of the Agriculture segment employees were taken out of operations and retrained for other work as the operations moved toward a less labor-intensive process.

The decrease in professional services in the second quarter of 2007 compared to the second quarter of 2006 primarily reflects a reduction of employee recruiting costs in the second quarter of 2007.

The reduction in depreciation expense charged to general and administrative expense is primarily due to acceleration of depreciation charges in 2006 for our accounting systems and our fresh fruit packing facility that were replaced in 2006.

General and administrative expenses are incurred at the corporate level and at the operating segment level. All general and administrative expenses incurred at the corporate level are allocated to our operating segments. Such allocations are made on the basis of our management's evaluation of service provided to the operating segments.

Interest Expense

Interest expense was \$333,000 for the second quarter of 2007 compared to -0- for the second quarter of 2006. Interest incurred in the second quarter of 2007 was \$763,000, of which \$430,000 was capitalized to construction projects. In the second quarter of 2006, interest incurred was \$488,000, all of which was capitalized to construction projects. Our effective interest rate on borrowings was 7.9% in the second quarter of 2007 compared to 7.4% in the second quarter of 2006. The increase in interest expense was due primarily to higher average borrowings in the second quarter of 2007.

AGRICULTURE

	Three Months Ended June 30,		
	2007	2006	change
	(in millions)		
Revenues	\$ 13.2	\$ 14.3	\$ (1.1)
% of consolidated revenues	34	% 43	%
Operating Loss	\$ (10.6)	\$ (3.4)	\$ (7.2)

Revenues for the Agriculture segment in the second quarter of 2007 were \$13.2 million or 8% lower than the second quarter of 2006, primarily due to a decrease in processed fruit sales. The Agriculture

segment produced an operating loss of \$10.6 million for the second quarter of 2007 compared to an operating loss of \$3.4 million for the second quarter of 2006, including charges totaling approximately \$8 million that were recorded in June 2007 related to the restructuring of our pineapple operations.

Effective as of June 30, 2007, we ceased the production of substantially all solid-packed pineapple products (see Note 17 to Condensed Consolidated Financial Statements). With the cessation of solid-pack canned products, we will focus our business on the production and sale of fresh premium pineapple and the processing and sale of pineapple juice. We will continue to supply existing sales commitments for solid-packed processed pineapple through approximately the end of 2007, which will liquidate our existing inventory.

Operating losses reported by the Agriculture segment for the second quarter of 2006 included \$1.1 million of accelerated depreciation charges for assets where the estimated useful lives have been reduced because of changes in our pineapple operations. In addition, the Agriculture segment recorded charges of \$764,000 in the second quarter of 2006 related to inventories that were considered obsolete with the change to the new fresh processing facility that went into operation in June 2006; and \$525,000 of charges related to re-training employees.

Fresh and Processed Operations

The case volume and revenue per case for fresh pineapple sales both increased by approximately 1% in the second quarter of 2007 compared to the second quarter of 2006. Revenues from fresh pineapple sales increased to approximately 59% of the Agriculture segment net sales for the second quarter of 2007, compared to approximately 54% for the second quarter of 2006, reflecting the refocusing of our business on the fresh fruit market.

The case volume of processed pineapple sales decreased by 16% for the second quarter of 2007 as compared to the second quarter of 2006 primarily reflecting our strategy to reduce the retail market segments that we were servicing. The average sales prices for our processed pineapple products decreased by approximately 6% for the second quarter of 2007 compared to the second quarter of 2006, primarily because we sold relatively more juice in 2007, which has a lower sales value than canned fruit.

Processed pineapple sold to the U. S. Government (primarily to the Department of Agriculture) comprised approximately 30% of our case volume of canned pineapple sales in the second quarter of 2007 compared to 16% in the second quarter of 2006.

The Agriculture segment cost of sales was higher by approximately 32% in the second quarter of 2007 compared to the second quarter of 2006 primarily reflecting higher per unit cost of sales, as a result of the decision to discontinue processing and selling of solid-pack pineapple. We annually calculate per unit standard costs that are charged to cost of sales as pineapple product is sold. The standards are based on full year estimates of production and sales and therefore, the change in our operating plans resulted in additional charges to cost of sales for the second quarter of 2007 of approximately \$2.6 million. Higher per unit cost of sales will continue to be reflected in results for the remainder of the year.

Shipping and marketing cost increased by 9% in the second quarter of 2007 compared to the second quarter of 2006 primarily because of higher ocean and surface transportation costs reflecting higher fuel costs.

RESORT

	Three Months Ended June 30,		change
	2007 (in millions)	2006	
<i>Revenues</i>	\$ 8.9	\$ 11.4	\$ (2.5)
<i>% of consolidated revenues</i>	23 %	34 %	
<i>Operating Loss</i>	\$ (2.8)	\$ (1.9)	\$ (0.9)

The Resort segment reported an operating loss of \$2.8 million for the second quarter of 2007 compared to an operating loss of \$1.9 million for the second quarter of 2006. Resort segment revenues were \$8.9 million or 22% lower for the second quarter of 2007 compared to the second quarter of 2006. The closure of the Village Course at the end of February 2007 and a reduction in retail space between the second quarters of 2007 and 2006 were largely responsible for the reduction in revenues.

Golf, Retail and Villas

Revenues from golf operations decreased by approximately 20% for the second quarter of 2007 compared to the second quarter of 2006. Paid rounds of golf decreased by 26%; however, average green and cart fees increased by approximately 8% in the second quarter of 2007 compared to the second quarter of 2006. The closure of the Village Course as of the end of February 2007 contributed to the decrease in revenues.

Resort retail sales for the second quarter of 2007 were approximately 19% lower than the second quarter of 2006. The reduction in revenues reflects the closure in May 2006 of our Logo Shop, Kids Shop and Home Store comprising approximately 5,800 square feet in the Kapalua Shops following the closure of the adjacent Kapalua Bay Hotel for the development of The Residences at Kapalua Bay. In addition, closure of the Village Course at the end of February 2007 also had a negative impact on retail sales.

Revenues from the Kapalua Villas were approximately 4% lower in the second quarter of 2007 compared to the second quarter of 2006, reflecting a 11% decrease in occupied rooms partially offset by a 12% higher average room rate.

COMMUNITY DEVELOPMENT

	Three Months Ended June 30,		change
	2007 (in millions)	2006	
<i>Revenues</i>	\$ 16.1	\$ 7.5	\$ 8.6
<i>% of consolidated revenues</i>	42 %	22 %	
<i>Operating Profit</i>	\$ 8.1	\$ 0.7	\$ 7.4

The Community Development segment reported an operating profit of \$8.1 million for the second quarter of 2007 compared to \$707,000 for the second quarter of 2006. Revenues from this operating segment increased by \$8.6 million to \$16.1 million for the second quarter of 2007 compared to \$7.5 million for the second quarter of 2006. Increased revenues and operating profit resulted from sales of lots at Honolua Ridge Phase II, the sale of a non-core land parcel, and income from Kapalua Bay Holdings LLC.

Edgar Filing: MAUI LAND & PINEAPPLE CO INC - Form 10-Q

Our equity in the earnings of Kapalua Bay Holdings, LLC was \$2.2 million in the second quarter of 2007 compared to a loss of \$1.5 million in the second quarter of 2006. In 2007, the joint venture began to recognize revenues and profits on a percentage-of-completion method from the whole and fractional residential condominiums. Accordingly, in 2007, the Company began to recognize a proportionate amount of the unrealized appreciation of the fair value of the land and other non-monetary contributions to Kapalua Bay and other deferred costs related to the joint venture. See Note 8 to Condensed Consolidated Financial Statements.

Real Estate Sales

Our Honolua Ridge Phase II subdivision consists of 25 agricultural-zoned lots, which began selling in August 2005. Through the end of the second quarter of 2007, 23 lot sales have closed escrow. Revenues of \$9.9 million were recognized from the five lot sales that closed escrow in the second quarter of 2007. We account for revenues and profit from this project on a percentage-of-completion method and the construction of the infrastructure improvement for this project was substantially complete in November of 2006. At the end of the second quarter of 2006, the percentage of completion was approximately 69% and we recognized revenues of \$5.4 million in the prior year period.

In the second quarter of 2007, we sold approximately 181 acres of Upcountry Maui property and recognized revenues and a pre-tax gain of approximately \$2.8 million from that land sale (see Note 15 to Condensed Consolidated Financial Statements). The land sold had previously been earmarked as non-core to our strategic plans.

Six Months Ended June 30, 2007 compared to Six Months Ended June 30, 2006

CONSOLIDATED

	Six Months Ended June 30,		
	2007	2006	change
	(in millions, except per share amounts)		
Consolidated Revenues	\$ 99.7	\$ 92.5	\$ 7.2
Net Income	\$ 12.2	\$ 11.2	\$ 1.0
Basic Earnings Per Common Share	\$ 1.59	\$ 1.54	\$ 0.05

We reported net income of \$12.2 million (\$1.59 per share) for the first six months of 2007 compared to net income of \$11.2 million (\$1.54 per share) for the same period in 2006. Consolidated revenues for the first six months of 2007 were \$99.7 million compared to \$92.5 million for the first six months of 2006. Increased operating profit from the Community Development segment were offset by increased operating losses from the Agriculture and Resort segments, and charges of approximately \$8 million related to the restructuring of our pineapple operations (see Note 17 to Condensed Consolidated Financial Statements).

General and Administrative

Consolidated general and administrative expenses increased by 6%, or \$1.1 million to \$19.9 million for the first six months of 2007 from \$18.8 million for the first six months of 2006.

The major components of the difference in general and administrative expenses were as follows:

	Six Months Ended June 30,		
	2007	2006	change
	(in millions)		
Salaries & wages	\$ 5.1	\$ 5.5	\$ (0.4)
Employee incentives & stock compensation	4.3	2.2	2.1
Professional & other services	3.2	2.5	0.7
Depreciation expense	0.9	2.6	(1.7)
Other	6.4	6.0	0.4
Total	\$ 19.9	\$ 18.8	\$ 1.1

The reduction in salaries and wages for the first six months of 2007 compared to the first six months of 2006 is due primarily to Agriculture re-training charges that are included in 2006. In 2006, some of the Agriculture segment employees were taken out of operations and retrained for other work as the operations moved toward a less labor-intensive process.

The increase in employee incentives and stock compensation was primarily due to restricted stock vesting in 2007 for certain officers and a payment of \$1.1 million to David C. Cole, our Chairman, President & CEO because of an amendment to Mr. Cole's stock option agreement with the Company that reduced the value of the stock options. The stock option agreement was amended to eliminate adverse tax consequences to our Chairman imposed by section 409A of the Internal Revenue Code.

The increase in professional services primarily reflects work performed by outside consultants and the external auditors with regard to Sarbanes-Oxley Act of 2002, Section 404 in early 2007, for the 2006 fiscal year. Much of the work in this area was delayed because of the completion of installation of new accounting systems and the centralization of the accounting function late in 2006. Partially offsetting the increase was lower employee recruiting costs in the first six months of 2007 compared to the first six months of 2006.

The reduction in depreciation expense charged to general and administrative expense is primarily due to acceleration of depreciation charges in 2006 for our accounting systems that were replaced in 2006 and our fresh fruit packing facility that was also replaced in 2006.

General and administrative expenses are incurred at the corporate level and at the operating segment level. All general and administrative expenses incurred at the corporate level are allocated to the operating segments. Such allocations are consistent with our management's evaluation of services provided to the operating segments.

Interest Expense

Interest expense was \$1.0 million for the first six months of 2007 compared to \$29,000 for the first six months of 2006. Interest incurred in the first six months of 2007 was \$1.8 million of which \$792,000 was capitalized to construction projects. In the first six months of 2006, interest incurred was \$821,000 of which \$792,000 was capitalized to construction projects. Our effective interest rate on borrowings was 7.8% for the first six months of 2007 compared to 7.3% for the first six months of 2006. The increase in interest expense was due primarily to higher average borrowings in the first six months of 2007.

AGRICULTURE

	Six Months Ended June 30,		
	2007	2006	change
	(in millions)		
Revenues	\$ 27.0	\$ 30.3	\$ (3.3)
% of consolidated revenues	27	% 33	%
Operating Loss	\$ (13.0)	\$ (5.7)	\$ (7.3)

The Agriculture segment produced an operating loss of \$13.0 million for the first six months of 2007 compared to an operating loss of \$5.7 million for the first six months of 2006. Revenues for the first six months of 2007 were \$27.0 million or 11% lower than the first six months of 2006, primarily due to a reduction in sales of processed products. The principal reason for the increased operating loss is due to charges totaling approximately \$8 million that were recorded in June 2007 related to the restructuring of our pineapple operations.

Effective as of June 30, 2007, we ceased the production of substantially all solid-packed pineapple products (see Note 17 to Condensed Consolidated Financial Statements). With the cessation of solid-pack canned products, we will focus our business on the sale of fresh premium pineapple and the processing and sale of pineapple juice. We have existing sales commitments for solid-packed processed pineapple through approximately the end of 2007.

The first six months of 2006 included \$2.2 million of accelerated depreciation charges related to assets where the estimated useful lives were reduced because of changes in our pineapple operations. In addition, the Agriculture segment recorded charges of \$764,000 in June 2006 related to inventories that were considered obsolete with the change to the new fresh processing facility that went into operation in June 2006. In addition, we incurred \$973,000 of charges related to re-training employees.

Fresh and Processed Operations

The case volume of fresh pineapple sales decreased by approximately 6% in the first six months of 2007 compared to the first six months of 2006. Revenue per case for fresh pineapple sales increased by approximately 2% in the first six months of 2007 compared to the first six months of 2006. Revenues from fresh pineapple sales increased to approximately 51% of the Agriculture segment net sales for the first half of 2007, compared to approximately 48% for the first half of 2006 reflecting the refocusing of our business on the fresh fruit market.

The case volume of processed pineapple sales decreased by 16% for the first six months of 2007 as compared to the first six months of 2006 primarily reflecting our strategy to reduce the retail market segments that we were servicing. The average sales prices for our processed pineapple products decreased by approximately 5% for the first six months of 2007 compared to the same period in 2006, primarily because we sold relatively more juice in 2007, which has a lower sales value, than canned fruit.

Processed pineapple sold to the U.S. Government (primarily to the Department of Agriculture) comprised approximately 40% of our case volume of canned pineapple sales in the first six months of 2007 compared to 31% in the first six months of 2006.

The Agriculture segment cost of sales was higher by approximately 14% in the first six months of 2007 compared to the same period of 2006 primarily reflecting higher per unit cost of sales, as a result of the decision to discontinue processing and selling solid-pack pineapple. We annually calculate per unit standard costs that are charged to cost of sales as processed product is sold. The standards are based on full year estimates of production and sales and therefore, the change in our operating plans resulted in

additional charges to cost of sales for the first half of 2007 of approximately \$2.6 million. Higher per unit cost of sales will continue to be reflected in results for the remainder of the year.

Shipping and marketing costs increased by 9% in the second quarter of 2007 compared to the second quarter of 2006 primarily because of higher ocean and surface transportation costs reflecting higher fuel costs.

RESORT

	Six Months Ended June 30,		
	2007	2006	change
	(in millions)		
<i>Revenues</i>	\$ 20.6	\$ 24.4	\$ (3.8)
<i>% of consolidated revenues</i>	21	% 26	%
<i>Operating Loss</i>	\$ (3.7)	\$ (1.4)	\$ (2.3)

The Resort segment reported an operating loss of \$3.7 million for the first six months of 2007 compared to an operating loss of \$1.4 million for the first six months of 2006. Resort segment revenues were \$20.6 million or 16% lower for the first six months of 2007 compared to the same period in 2006. The closure of the Village Course at the end of February 2007 and a reduction in retail space between the first six months of 2007 and 2006 were largely responsible for the reduction in revenues.

Hotel and condominium room occupancies at the Kapalua Resort and to a somewhat lesser extent for Maui in general, largely drives resort activity as reflected by increased golf play and merchandise sales. In early April 2006, the Kapalua Bay Hotel held its final guest night and the hotel was permanently closed, resulting in approximately 20% fewer rooms available at the Kapalua Resort, and as expected, has negatively affected the number of paid rounds of golf and retail sales.

Golf, Retail and Villas

Revenues from golf operations decreased by approximately 16% for the first six months of 2007 compared to the same period in 2006. Paid rounds of golf decreased by 18% and average green and cart fees increased by about 3% in the first six months of 2007 compared to the same period of 2006. The closure of the Village Course as of the end of February 2007 contributed to the decrease in paid rounds of golf.

Resort retail sales for the first six months of 2007 were approximately 18% lower than the first six months of 2006. The reduction in revenues reflects the closure in May 2006 of our Logo Shop, Kids Shop and Home Store comprising approximately 5,800 square feet in the Kapalua Shops following the closure of the adjacent Kapalua Bay Hotel. In addition, closure of the Village Course at the end of February 2007 also had a negative impact on retail sales.

Revenues from the Kapalua Villas were approximately 10% lower in the first six months of 2007 compared to the first six months of 2006, reflecting a 15% decrease in occupied rooms partially offset by a 7% higher average room rate. There were approximately 5% fewer rooms available in the first half of 2007 partially reflecting units under renovation under our Kapalua Gold program to upgrade and standardize the units in our rental program.

COMMUNITY DEVELOPMENT

	Six Months Ended June 30,		
	2007	2006	change
	(in millions)		
<i>Revenues</i>	\$ 51.3	\$ 37.6	\$ 13.7
<i>% of consolidated revenues</i>	51	% 41	%
<i>Operating Profit</i>	\$ 37.2	\$ 24.1	\$ 13.1

The Community Development segment reported an operating profit of \$37.2 million for the first six months of 2007 compared to \$24.1 million for the first six months of 2006. Revenues from this operating segment increased by \$13.7 million to \$51.3 million for the first half of 2007 compared to \$37.6 million for the first half of 2006. Increased revenues and operating profit primarily resulted from our sale of the land underlying the Ritz-Carlton, Kapalua hotel in March 2007 (see Note 9 to Condensed Consolidated Financial Statements).

Our equity in the earnings of Kapalua Bay Holdings, LLC was \$4.1 million in the first six months of 2007 compared to a loss of \$1.4 million in the first six months of 2006. In 2007, the joint venture began to recognize revenues and profits on a percentage-of-completion method from the sales of whole and fractional residential condominiums. Accordingly, in 2007, the Company began to recognize a proportionate amount of the unrealized appreciation of the fair value of the land and other non-monetary contributions to Kapalua Bay and other deferred costs related to the joint venture. See Note 8 to Condensed Consolidated Financial Statements.

Real Estate Sales

Our Honolua Ridge Phase II subdivision consists of 25 agricultural-zoned lots, which began selling in August 2005. Through June 30, 2007, 23 lot sales have closed escrow, seven in the first six months of 2007. Revenues of \$14.7 million were recognized in the first six months of 2007. We account for revenues and profit from this project on a percentage-of-completion method and the project was substantially complete in November of 2006. At the end of June 2006, the construction of the infrastructure improvements for this project was approximately 69% and we recognized revenues of \$11.1 million in the first six months of 2006.

In the first six months of 2007, we sold approximately 338 acres of Upcountry Maui property in two land sales transactions and recognized revenues and pre-tax gains of approximately \$6.8 million from those land sales (see Note 15 to Condensed Consolidated Financial Statements). In the first six months of 2006, we recognized revenues of \$22.9 million and a pre-tax gain of \$21.5 million from the sale of approximately 1,800 acres of Upcountry Maui Land. The properties sold in 2006 and 2007 had previously been earmarked as non-core to our strategic plans.

LIQUIDITY AND CAPITAL RESOURCES*Debt Position*

At June 30, 2007, our total debt, including capital leases, was \$17.3 million, compared to \$51.1 million at December 31, 2006. All of our revolving credit debt was repaid in the first six months of 2007 with cash proceeds from investing and financing activities, and cash flows provided by operating activities. At June 30, 2007, we had available long-term credit lines of \$54.7 million.

Operating Cash Flows

In the first six months of 2007, consolidated net cash provided by operating activities was \$8.2 million compared to net cash used in operating activities of \$2.1 million for the first six months of 2006. By operating segment, these cash flows were approximately as follows:

	Six Months Ended June 30,	
	2007	2006
	(in millions)	
Agriculture	\$ (0.9)	\$ 0.8
Resort	(3.2)	4.4
Community Development	13.6	(5.1)
Interest, taxes and other	(1.3)	(2.2)
Total	\$ 8.2	\$ (2.1)

The decrease in cash provided by operating activities from the Agriculture and Resort segments primarily reflects the increased operating loss incurred by the operating segment.

Cash flows from operating activities in the Community Development segment vary significantly with the amount of new real estate product sold and the amount of construction activity for real estate inventories. In the first six months of 2007, the closing of Honolua Ridge Phase II lot sales and the collection on purchase money mortgages resulted in cash flows from operating activities of approximately \$19.8 million. In the first six months of 2006, we closed on three lot sales at Honolua Ridge and much of these cash receipts were offset by payments for the construction of the improvements, which were about 69% complete at the time.

Real Estate Sales Proceeds

In March 2007, we sold the land underlying the Ritz-Carlton, Kapalua hotel and received \$25 million in cash at closing. The cash proceeds were deposited with a qualified exchange intermediary in anticipation of reinvestment on a tax-deferred basis under Section 1031 of the Internal Revenue Code. In May 2007, the proceeds were returned to us from the exchange intermediary as we were unable to identify satisfactory replacement properties.

In the first six months of 2007, we sold approximately 338 acres of Upcountry Maui land that were considered non-core to our business, which resulted in net sales proceeds of \$6.9 million. We also received \$4.5 million from the repayment of a promissory note from a December 2006 sale of non-core land.

Private Placement of Stock

In March 2007, we received \$14.9 million in net cash proceeds from the private placement of 517,242 shares of common stock. See Note 16 to Condensed Consolidated Financial Statements.

Future Cash Inflows and Outflows

Contributions to pension plans and to other post-retirement plans are expected to be in the range of \$1.2 million to \$2.0 million in 2007. We expect to make income tax payments in September 2007 of up to \$7 million with respect to income recognized in 2007 for income tax purposes. In August 2007, we expect to collect \$2.6 million that is secured by a standby letter of credit, for the balance due on the sale of certain pineapple processing equipment (see Note 17 to Condensed Consolidated Financial Statements).

Capital expenditures for 2007 are expected to include approximately \$5 million for completion of construction of a new office area for our corporate headquarters and support services accounting, information technology and human resources; and \$0.9 million for upgrades to information systems. We

expect the Agriculture segment to have capital expenditures of approximately \$5.1 million in 2007. The Resort segment capital expenditures for 2007 are expected to be approximately \$6.7 million, including \$1.3 million for replacement of the greens on the Bay Course and \$2.6 million for facilities for a new mountain adventure amenity.

Expenditures in 2007 for Community Development segment capital projects, deferred development costs and investments are expected to be approximately \$25.8 million. In addition, we expect that we may contribute additional cash to Kapalua Bay Holdings, LLC if cash required for construction exceeds the funds to be released by the construction lender (see Note 8 to Condensed Consolidated Financial Statements). In connection with the planning for the various projects, we will analyze the feasibility of proceeding with each project and may seek project specific non-recourse financing for some of the capital projects.

FORWARD-LOOKING STATEMENTS

This and other reports filed by us, with the Securities and Exchange Commission contain forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They contain words such as may, will, project, might, expect, believe, anticipate, could, would, estimate, continue or pursue, or the negative or other variations thereof or comparable terminology. In particular, they include among others, statements relating to:

- timing and success of the Residences at Kapalua Bay project;
- closing of lot sales at the Honolua Ridge agricultural subdivisions;
- timing and success of the sale of non-core properties;
- timing and success of the Kapalua Resort initiatives to enhance and improve the resort and the Kapalua Villas;
- expectations as to the Company's cash commitments;
- expectations as to the Company's cash flows from operating and investing activities;
- recoverability from operations of real estate development deferred costs and the net book value of Agriculture segment assets;
- impact of current and future local, state and national government regulations, including Maui County affordable housing legislation;
- shifting towards greater levels of fresh fruit production;
- future cost of compliance with environmental laws;
- timing of approvals and conditions of future real estate entitlement applications; and
- effect of changes in assumptions on net periodic pension and other benefit costs.

In addition, from time to time, we may publish forward-looking statements as to those matters or other aspects of our anticipated financial performance, business prospects, new products, marketing initiatives or similar matters.

Any forward-looking statements are made pursuant to the Private Securities Litigation Reform Act of 1995 and, as such, speak only as of the date made. We undertake no obligation to publicly update any

forward-looking statements, whether as a result of new information, future events or otherwise. We have based these forward-looking statements on our current expectations and projections about future events.

We caution the reader that forward-looking statements involve risks and uncertainties that cannot be predicted or quantified and, consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, but are not limited to, the factors discussed in the sections entitled *Business*, *Risk Factors*, and *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our Annual Report on Form 10-K for the year ended December 31, 2006, and the sections entitled *Management's Discussion and Analysis of Financial Condition and Results of Operations* and *Risk Factors* in this Quarterly Report on Form 10-Q, as well as other factors described from time to time in our reports filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our primary market risk exposure with regard to financial instruments is to changes in interest rates. We attempt to manage this risk by monitoring interest rates and future cash requirements, and evaluating opportunities to refinance borrowings at various maturities and interest rates. There were no material changes to our market risk exposure during the first six months of 2007.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In designing and evaluating the disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) and 15d-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the fiscal quarter covered by this report. Based upon the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in applicable SEC rules and forms. There has been no change in our internal control over financial reporting during the second quarter of 2007 that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION**Item 1A. Risk Factors**

Potential risks and uncertainties include, among other things, those factors discussed in the sections entitled "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2006 and the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Quarterly Report on Form 10-Q. Readers should carefully review those risks, as well as additional risks described in other documents we file from time to time with the Securities and Exchange Commission. We undertake no obligation to publicly release the results of any revisions to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements. In the first six months of 2007, there were no material changes from the risk factors previously disclosed in our Form 10-K filed for the year ended December 31, 2006.

Item 4. Submission of Matters to a Vote of Security Holders

On May 7, 2007, the annual meeting of our shareholders was held. Proxies for the meeting were solicited pursuant to Regulation 14A under the Securities Exchange Act of 1934. The number of outstanding shares as of March 14, 2007, the record date of the annual meeting, was approximately 8,153,909. The results of the voting were as follows:

Proposal 1: Election of Class Two Directors for a three-year term:

	Shares Voted For	Shares Withheld
Miles R. Gilburne	7,623,957	85,316
David A. Heenan	7,623,089	86,184
Kent T. Lucien	7,622,849	86,424

Proposal 2: Ratification of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year 2007:

Shares voted for:	7,625,269
Shares voted against:	84,004
Shares abstained:	-0-

Proposal 3: Approval of amendment to the Articles of Association to authorize an additional 14,000,000 shares of common stock

Shares voted for:	7,384,435
Shares voted against:	310,404
Shares abstained:	14,430

There were no broker non-votes on any matter voted upon at the meeting.

The terms of the following members of our Company's Board of Directors continued after the annual meeting: John H. Agee, David C. Cole, Walter A. Dods, Warren H. Haruki, Duncan MacNaughton and Fred E. Trotter III.

Item 5. Other Information

Effective August 6, 2007, the Company granted to Robert I Webber an option to purchase the house and approximately 3.36 acres that Mr. Webber began leasing from the Company in July 2007. The agreement is filed herewith as Exhibit 10.1.

Item 6. Exhibits

The following exhibits are filed herewith:
