Edgar Filing: REGIS CORP - Form FWP

Joint Book-Running Managers: Merrill Lynch, Pierce, Fenner & Smith Incorporated and Credit Suisse Securities (USA) LLC

Concurrent Offering of Convertible Senior Notes: Concurrently with this offering, Regis is offering \$150,000,000 aggregate principal amount of 5% Convertible Senior Notes due 2014 (plus an underwriters' option to purchase up to an additional \$22,500,000 aggregate principal amount to cover overallocments) in a separate public offering. The notes are convertible by holders at a conversion rate of 64.6726 shares of Common Stock per \$1,000 principal amount of notes (subject to adjustment in certain circumstances), which represents an initial conversion price of approximately \$15.46 per share. Neither offering is conditioned on the other.

Common Stock Outstanding After the Offering: 53,381,364 shares. The number of shares of Common Stock outstanding after this offering is based on the number of shares outstanding as of June 30, 2009. This number excludes 1,725,000 shares issuable upon the exercise of the underwriters' overallocation option and excludes 1,417,675 shares of Common Stock issuable upon exercise of outstanding stock options and any shares of Common Stock issuable upon conversion of the convertible senior notes offered in the concurrent offering.

Use of Proceeds: The estimated net proceeds from this offering to Regis will be approximately \$136.032 million (\$156.437 million if the underwriters' overallocation option is exercised in full), after deducting the underwriting discount but before taking into account offering expenses payable by Regis. The estimated net proceeds to Regis from the concurrent convertible senior note offering will be approximately \$145.5 million (\$167.325 million if the underwriters' overallocation option in that offering is exercised in full), after deducting the underwriting discount but before taking into account offering expenses payable by Regis.

Regis plans to use approximately \$277 million of the net proceeds from this offering, along with the net proceeds from the concurrent convertible senior note offering, to repay in the aggregate \$267 million principal amount of its outstanding fixed rate 7.20% Senior Notes, Series B, due 2012, 4.97% Senior Notes, Series 2005-A, Tranche 1, due 2013 and 5.20% Senior Notes, Series 2005-A, Tranche 2, due 2015 and its outstanding Floating Rate Senior Notes,

Series 2005-B, Tranche 1, due 2015 (which currently bear interest at 1.12% per annum) and Floating Rate Senior Notes, Series 2005-B, Tranche 2, due 2013 (which currently bear interest at 1.15% per annum). The fixed rate notes are being repaid with a premium over the principal amount that is less than the current make-whole premium. In connection with the repayment of these notes, Regis expects to incur an expense of approximately \$3.6 million related to the settlement of certain interest rate swaps.

Regis intends to use the remaining proceeds, if any, to pay down outstanding borrowings under its revolving credit facility and for general corporate purposes.
