Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

Note 1 - Basis of Presentation

The accompanying unaudited condensed financial statements at September 30, 2003 have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of financial positions as of September 30, 2003 and results of operations and cash flows for the nine months ended September 30, 2003. All such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative of the results expected for a full year. Certain amounts in the 2002 financial statements have been reclassified to conform to the 2003 presentations. The statements should be read in conjunction with the financial statements and footnotes thereto included in the Company's Form 10-KSB for the year ended December 31, 2002.

Note 2 - Commitments and Contingencies Going Concern

The accompanying unaudited condensed financial statements at September 30, 2003 have been prepared in conformity with U.S. generally accepted accounting principles which contemplate the continuance of the Company as a going concern. The Company has suffered losses from operations during the nine months ended September 30, 2003 and the years ended December 31, 2002, 2001, 2000, and 1999. The Company's cash position may be inadequate to pay all of the costs associated with establishing a market for sales of its loudspeakers. Management intends to use borrowings and security sales to mitigate the effects of its cash position, however no assurance can be given that debt or equity financing, if and when required, will be available. The unaudited condensed financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue in existence.

Note 3 - Notes Payable

The interest rate on the current notes is 7% and all are past due.

Note 4 - Stock Transactions

In May, 2001, the Company completed a public offering. The number of shares sold was 4,000,000. Included with the purchase of the shares was a Class A warrant and a Class B warrant. In July 2003, the Company entered into an endorsement agreement with Steerpike Ltd. The agreement grants 1,100,000 options in exchange for future endorsements of SLS products. Each option is convertible into one share of common stock at a strike price of \$0.25 and is exercisable for a period of five years. Expense associated with the options will be recorded over the two year period of the agreement beginning July 31, 2003 and ending July 31, 2005. Expense will be recorded at fair market value, using the Black-Scholes pricing model, on an accelerated method,

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

thereby recording a larger portion of the costs in the earlier months of the two year period. Consulting expense recorded for the period July 31, 2003 to September 30, 2003 was \$529,605.

As detailed in Note 4, the Company issued or agreed to issue 2,795,000 shares of common stock and 1,500,000 options as part of consulting agreements in the year ended December 31, 2002 and the nine months ended September 30, 2003. The value of stock issued and options granted totaled \$1,692,213 for the period of January 1, 2002 through September 30, 2003. This cost is recorded as a debit in the equity section of the balance sheet as unamortized cost of stock issued for services. The balance will be amortized into consulting expense over the lives of the various consulting agreements. \$1,074,229 for the year ended December 31, 2002 and \$579,103 for the nine months ended September 30, 2003, was

12

The options vested immediately. 10,000 options were approved for each of three board members for their roles as directors of the company. 115,000 options were approved for employees of the Company for services rendered. Item 2.

Management's Discussion And Analysis

----- Of Financial Condition And Results Of Operations -----

OVERVIEW

We manufacture premium-quality loudspeakers and sell them through our dealer networks. The speakers use our proprietary ribbon-driver technology and are generally recognized in the industry as high-quality systems. We sell a Professional Line of loudspeakers, a Commercial Line of loudspeakers, and Home Theatre systems.

From the early 1970's through 1999 we derived substantially all of our revenue from marketing, renting, selling and installing sound and lighting

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

systems. In June 1999, due to the favorable customer acceptance of our new custom-designed loudspeaker systems, we ceased these historical operations and began focusing all efforts towards becoming a loudspeaker manufacturer and selling to dealers and contractors on a wholesale basis. As a result, we have been essentially in a development stage, as we are bringing to market products that we introduced in 2000 and 2001 and designing and bringing to market additional products.

In June 2000, we asked dealers and distributors to sell our Professional Line of products. These dealers and distributors started to form our current network of approximately 50 dealers and 7 foreign distributors and we began shipping to them. However, most of the Professional Line required new ribbon drivers that we completed and implemented into the product line in early 2001.

In September 2000, we introduced our Home Theatre systems and sales for those systems began immediately. From September through December 2000, we added 20 new Home Theatre dealers in the US and began marketing efforts to establish distributors and dealers outside the US.

In June 2001, we introduced a Commercial Line of loudspeakers that use our PRD500 Ribbon Driver and in September of 2001 we finished the development of our PRD1000 Ribbon Driver and began implementing them into our Professional Line. Our PRD drivers upgraded the previous drivers that we purchased from third-party manufacturers and the cost to us is approximately one-sixth of the price that we had been paying for the previous drivers.

The information in this section should be read together with the financial statements, the accompanying notes to the financial statements and other sections included in this report.

RESULTS OF OPERATIONS

Quarter ended September 30, 2003 as compared to the quarter ended September 30, 2002. For the quarter ended September 30, 2003, revenue increased to \$268,023 from \$161,688 in 2002, a 66% increase, resulting primarily from the expansion of our loudspeaker product line and the continued growth in sales of our loudspeakers. Our gross profit percentage increased to approximately 52% in the 2003 period from approximately 23% in the 2002 period, primarily as a result of continued improvement in efficiency as we increase revenue and increased sales of our higher-margin models.

General and administrative expenses for the 2003 third quarter increased to \$2,123,685 from \$605,885 in the 2002 third quarter, an increase of \$1,517,800. The increase resulted primarily from an aggregate of \$810,730 in cash fees paid to consultants for services including investor relations, corporate awareness and offering fees, a non-cash charge of \$529,605 in the 2003 third quarter related to the issuance of options pursuant to an endorsement agreement (compared to \$0 in the 2002 third quarter), and a \$200,000 non-cash charge related to the exercise of warrants by a consultant without payment of the exercise price, which was provided as compensation to such consultant. These increases were partially offset by a reduction in the non-cash cost amortized in the 2003 quarter, compared to the 2002 quarter, reflecting a portion of the fair value of stock issued under consulting agreements entered into during the quarter and in prior periods.

Due to the increase in general and administrative expenses, partially offset by the revenue increase and the improvement in gross profits, our net

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

loss increased to \$1,911,769 in the third quarter of 2003 as compared to a net loss of \$572,957 in the comparable quarter of 2002.

Other income (expense) decreased to a net other income of \$72,694 in the 2003 third quarter as compared to net other expense of \$4,808 in the 2002 third quarter, primarily due to interest on cash retained upon completion of our preferred stock private placement in July 2003 and miscellaneous income related to the collection of accounts receivable that had been written off in prior periods.

Nine months ended September 30, 2003 as compared to the nine months ended September 30, 2002. For the first nine months of 2003, revenue increased to \$650,044 from \$486,204 in 2002, a 34% increase, resulting primarily from the expansion of our loudspeaker product line and the continued growth in sales of our loudspeakers. Our gross profit percentage increased to approximately 56% in the 2003 period from approximately 34% in the 2002 period, primarily as a result of continued improvement in efficiency as we increase revenue and increased sales of our higher-margin models.

General and administrative expenses for the nine months ended September 30, 2003 increased to \$3,232,220 from \$1,667,850 in the 2002 period, an increase of \$1,564,370. The increase resulted primarily from an aggregate of \$830,730 in cash fees paid to consultants for services including investor relations, corporate awareness and offering fees, a non-cash charge of \$529,605 in the 2003 period related to the issuance of options pursuant to an endorsement agreement (compared to \$0 in the 2002 period), and a \$200,000 non-cash charge related to

15

the exercise of warrants by a consultant without payment of the exercise price, which was provided as compensation to such consultant. These increases were partially offset by a reduction in the non-cash cost amortized in the 2003 period, compared to the 2002 portion, reflecting a portion of the fair value of stock issued under consulting agreements entered into during the quarter and in prior periods.

Due to the increase in general and administrative expenses, partially offset by the revenue increase and the improvement in gross profits, our net loss increased to \$2,767,484 in the first nine months of 2003 as compared to a net loss of \$1,518,309 in the 2002 period.

Other income (expense) increased to net other income \$99,054 in the 2003 period as compared to a net other expense of \$18,032 in the 2002 period, primarily due to interest on cash retained upon completion of our preferred stock private placement in July 2003 and miscellaneous income related to the collection of accounts receivable that had been written off in prior periods.

FINANCIAL CONDITION

On September 30, 2003, our current assets exceeded current liabilities by \$2,381,629, compared to an excess of current liabilities over current assets of \$588,486, on December 31, 2002. Total assets exceeded total liabilities by \$2,443,006, compared to an excess of total liabilities over total assets of \$562,262 on December 31, 2002. The increased working capital was primarily due to the sale of 1,452,300 shares of preferred stock for \$3,630,750 in the first nine months of 2003. In addition to funding operations, the proceeds from such sales of stock allowed us to increase cash by \$2,044,041, increase inventory by \$337,713, decrease long-term debt and notes payable by \$389,720, decrease accounts payable by \$63,340, decrease amounts due to shareholders by \$20,519, and decrease accrued liabilities by \$145,119. On September 30, 2003, we had a

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

backlog of orders of approximately \$90,000.

We have experienced operating losses and negative cash flows from operating activities in all recent years. The losses have been incurred due to the development time and costs in bringing our products through engineering and to the marketplace. In addition we have not paid notes payable and accounts payable on due dates. However, many of the past-due amounts have now been paid with the proceeds from sales of our preferred stock in the first nine months of 2003. The report of our accountants contains an explanatory paragraph indicating that these factors raise substantial doubt about our ability to continue as a going concern.

In order to continue operations, we have been dependent on raising additional funds, and we continued to sell preferred stock through July 31, 2003 to raise capital. In the third quarter of 2003 we sold 1,303,660 shares of preferred stock for \$3,259,150 in cash. These sales completed our preferred stock private placement that commenced in September 2001 and substantially alleviated our cash shortages in the near-term. In the nine months ended September 30, 2003, we also received an aggregate of \$810,000 in cash in payment of the exercise price for the exercise of outstanding warrants.

16

Long-term debt and notes payable decreased to \$25,000 on September 30, 2003, as we repaid all such debt and notes, except for one note. The remaining note is from one individual, is unsecured and matured in the third quarter of 2001. However, the note is payable to an existing shareholder that is not making a demand on the note and will continue to accrue interest at 7% for an indefinite period of time. We expect that the shareholder will continue to permit the note to remain outstanding, but the shareholder has the right to demand full payment at any time and may do so.

There is intense competition in the speaker business with other companies that are much larger and national in scope and have greater financial resources than we have. We will require additional capital to continue our growth in the wholesale speaker market. We are relying upon our ability to obtain the necessary financing through the issuance of equity and upon our relationships with our lenders to sustain our viability.

In the past, we have been able to privately borrow money from individuals by the issuance of notes, and we have been able to raise money by the issuance of preferred stock and common stock. We intend to continue to do so as needed. However, we cannot be certain that we will continue to be able to successfully obtain such financing. If we fail to do so, we may be unable to continue as a viable business.

In July 2003, we agreed to lease an additional 7,500 square feet of space for \$2,000 per month. We are planning the build-out of this space, which we intend to use as (a) storage space for additional inventory of the components and cabinets needed for planned increases in production, (b) additional engineering testing space to perform critical tests and produce data for sound system designers to provide specifications for products, and (c) on-site product demonstrations. We anticipate that this additional space, together with our existing space, will be sufficient to meet our needs for projected sales levels for the next two to three years.

Effective as of May 2003, we orally agreed upon an endorsement arrangement with Gordon Sumner, p/k/a Sting, one of the world's most popular music entertainers. Our agreements with his companies, Steerpike Inc. and Steerpike (Overseas) Ltd., signed in July 2003, provide that Sting will endorse our products for a period of two years. The endorsement includes our use of his

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

photographs with our products, as well as his comments about our products. Our products will be installed in his home and may be used in his upcoming world tour. For the endorsement, we issued options to purchase 1,000,000 shares of our common stock at \$0.25 per share, the market value of our common stock when the agreement was verbally made.

FORWARD-LOOKING INFORMATION

These forward-looking statements are based largely on our expectations and, like any other business, are subject to a number of risks and uncertainties, many of which are beyond our control. The risks include those stated in the "Risk Factors" section of our Annual Report on Form 10-KSB and economic, competitive and other factors affecting our operations, markets, products and services, expansion strategies and other factors discussed elsewhere in this report, our Annual Report on Form 10-KSB and the other documents we have filed with the Securities and Exchange Commission. Item 3. Controls and Procedures.

As of September 30, 2003, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2003.

As a result of the audit of our financial statements for the year ended December 31, 2002, we were required to make restatements and reclassifications of our unaudited financial statements filed for the quarters ended March 31, June 30 and September 30, 2002. Such restatements and reclassifications call into question the effectiveness of our disclosure controls and procedures. We are currently considering enhancements to such controls and procedures.

We have made no changes in our internal control over financial reporting during the quarter ended September 30, 2003 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Edgar Filing: SLS INTERNATIONAL INC - Form 10QSB

In the quarter ended September 30, 2003, the Company issued 2,014,600 shares of common stock pursuant to the exercise of outstanding Class A warrants. The Company received \$810,000 upon the exercise of 1,620,000 of such warrants, and charged \$200,000 as an expense in lieu of payment for the remaining 394,600 shares, which was provided as compensation to a consultant holding the warrants for such 394,600 shares.

The net proceeds from the sale of preferred stock in the third quarter of 2003 and from the exercise of warrants in the first nine months of 2003 were used for working capital purposes.
