**KISLADAG PROJECT UPDATE**

VANCOUVER, BC - Paul N. Wright, President and Chief Executive Officer of Eldorado Gold Corporation ( Eldorado , the Company , or we ) is pleased to announce it has completed the acquisition of all private lands required for development of the 100% owned Kisladag Gold Project located in western Turkey.

The proposed Kisladag mine site boundary encompasses the open pit, heap leach pad and process facilities and the waste rock dump. Included in the area are lands held by the State as Treasury Land or Forestry Land as well as privately owned agricultural land. The total area contained within the site and adjacent health protection zone is approximately 896 hectares. The Company has successfully negotiated the purchase and completed the title transfer of 417 parcels of privately held agricultural land within the overall site totaling 219 hectares. Purchase agreements were reached on each of the 1,131 shareholdings within the total area. The Company has previously purchased all necessary Treasury Land and is moving forward to secure the lease agreements for access to Forestry Land. Successful completion of the private land purchase will enable the Company to proceed with the final stages in the permitting process, specifically the submission of the Zoning Plan and application for the Construction Permit leading to a construction decision in the second quarter of 2004.

In addition the Company has completed the purchase of 17 dwellings and barns which make up the Ovacik settlement located adjacent to the project site. Residents of Ovacik were consulted on their preference as to remaining in the settlement or relocating in the area. A unanimous decision to relocate lead to acceptance of an offer from the Company to purchase all the buildings, lots and associated agricultural property from the owners.

The timely, efficient completion of this complex land purchase positively reflects the support of the local community for the Kisladag Project. In addition, this accomplishment exemplifies the high level of professional competence and dedication of our staff in Turkey.

With this significant milestone behind us, the Company is moving forward to secure timely delivery of the long lead time items particularly the crushing system. Orders for this equipment are imminent. , commented Paul Wright, President and Chief Executive Officer.

Eldorado is a gold producing and exploration company with gold assets in Brazil and Turkey; two countries that we believe have substantial geological potential. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to experience continued growth and value as we create and pursue new opportunities.
