Form 10-Q
May 08, 2015

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Quarter Ended March 31, 2015. Commission File Number 1-9720

OR

TRANSITION REPORT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Transition Period From _____ to _____
Commission File Number _____

PAR TECHNOLOGY CORPORATION
(Exact name of registrant as specified in its charter)

Delaware	16-1434688
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification Number)
PAR Technology Park	
8383 Seneca Turnpike	
New Hartford, New York	13413-4991
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: (315) 738-0600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer Non Accelerated Filer Smaller Reporting Company
(Do not check if a smaller reporting company)

Edgar Filing: PAR TECHNOLOGY CORP - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares outstanding of registrant's common stock, as of May 1, 2015 – 15,515,847 shares.

PAR TECHNOLOGY CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — Summary of Significant Accounting Policies

The accompanying unaudited interim consolidated financial statements have been prepared by PAR Technology Corporation (the "Company" or "PAR") in accordance with U.S. generally accepted accounting principles for interim financial statements and with the instructions to Form 10-Q and Regulation S-X pertaining to interim financial statements. Accordingly, these interim financial statements do not include all information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of the Company, such unaudited statements include all adjustments (which comprise only normal recurring accruals) necessary for a fair presentation of the results for such periods. The results of operations for the three months ended March 31, 2015 are not necessarily indicative of the results of operations to be expected for any future period. The consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2014 included in the Company's December 31, 2014 Annual Report to the Securities and Exchange Commission on Form 10-K.

The preparation of consolidated financial statements requires management of the Company to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. Significant items subject to such estimates and assumptions include: the carrying amount of property, plant and equipment, identifiable intangible assets and goodwill, equity based compensation, and valuation allowances for receivables, inventories and deferred income taxes. Actual results could differ from those estimates.

The current economic conditions and the continued financial volatility in the U.S. and in many other countries in which the Company operates could contribute to decreased consumer confidence and continued economic uncertainty which may adversely impact the Company's operating performance. The Company continues to see strength in the markets which it serves; however the continued instability in the global economy could have an impact on purchases of the Company's products, which could result in a reduction of sales, operating income and cash flows. A decline in these results could have a material adverse impact on the underlying estimates used in deriving the fair value of the Company's reporting units used in support of its annual goodwill impairment test. These conditions may result in an impairment charge in future periods.

Certain amounts for prior periods have been reclassified to conform to the current period classification.

Note 2 — Acquisition

On September 18, 2014, PAR and its wholly-owned subsidiary, ParTech, Inc. ("ParTech"), entered into and closed a definitive agreement with Brink Software Inc. ("Brink") and all the shareholders of Brink pursuant to which ParTech has purchased the equity interest of Brink in a two-step closing. This acquisition was to expand the Company's cloud based POS software offerings to complement the Company's existing infrastructure. The guaranteed portion of the purchase price for Brink's shares will total \$10 million in cash, which is payable over a period of two years with \$5.0 million paid at closing, \$3.0 million payable on the first year anniversary of close, and \$2.0 million payable on the second year anniversary of close. In addition to the guaranteed payments, there is a contingent consideration of up to \$7.0 million payable to the former owners of Brink based on the achievement of certain conditions as defined in the definitive agreement.

The payment of \$5.0 million on September 18, 2014, was for the purchase of 51% of Brink's outstanding shares. The remaining 49% will be purchased and transferred on September 18, 2015, the first anniversary of the initial closing date, for a purchase price of \$5.0 million, \$3.0 million of which will be payable at the second closing and the \$2.0 million balance will be payable on September 18, 2016. The Company has a current note payable included within the Consolidated Balance Sheet of \$3.0 million for payment at the second close. The estimated fair value of the long term portion of the note payable due on September 18, 2016 is approximately \$1.8 million and is included within long-term debt in PAR's consolidated balance sheet. Per the stock purchase agreement, Brink shareholders assigned their voting rights of the remaining 49% of Brink shares to PAR. As a result, PAR controls 100% of the Brink shares and fully consolidates the financial results of Brink in accordance with ASC Topic 805. The agreement also provides for up to \$1.0 million of the purchase price to be delivered into escrow if one or more claims arise within the first twelve months of the transaction. Such escrow will serve as a source of payment for any indemnification obligations that may arise.

Table of Contents

The contingent purchase price maximum of \$7.0 million can be earned through fiscal year 2018, based upon the achievement of certain conditions as defined in the definitive agreement. The estimated fair value of this contingent consideration is approximately \$5.0 million and is included within non-current liabilities in PAR's consolidated balance sheet.

On an unaudited proforma basis, assuming the completed acquisition had occurred as of the beginning of the period presented, the consolidated results of the Company would have been as follows (in thousands, except per share amounts):

	For the
	three
	months
	ended
	March
	31,
	2014
Revenues	\$56,903
Net loss	\$(1,246)

Earnings per share:

Basic	\$(0.08)
Diluted	\$(0.08)

The unaudited proforma financial information presented above gives effect to purchase accounting adjustments which have resulted or are expected to result from the acquisition. This proforma information is not necessarily indicative of the results that would actually have been obtained had the companies combined for the periods presents.

Table of Contents

Note 3 — Accounts Receivable

The Company's net accounts receivable consist of:

	(in thousands)	
	March	December
	31,	31,
	2015	2014
Government segment:		
Billed	\$ 11,265	\$ 9,340
Advanced billings	(770)	(450)
	10,495	8,890
Hospitality segment:		
Accounts receivable - net	21,888	22,555
	\$ 32,383	\$ 31,445

At March 31, 2015 and December 31, 2014, the Company had recorded allowances for doubtful accounts of \$711,000 and \$582,000, respectively, against Hospitality accounts receivable.

Note 4 — Inventories

Inventories are primarily used in the manufacture, maintenance and service of Hospitality segment systems. The components of inventories-net are:

	(in thousands)	
	March	December
	31,	31,
	2015	2014
Finished goods	\$ 14,378	\$ 13,609
Work in process	317	457
Component parts	4,334	3,748
Service parts	8,198	8,108
	\$ 27,227	\$ 25,922

Note 5 — Identifiable intangible assets

The Company's identifiable intangible assets represent intangible assets acquired from the Brink acquisition as well as internally developed software costs. The Company capitalizes certain costs related to the development of computer software sold by its Hospitality segment. Software development costs incurred prior to establishing technological feasibility are charged to operations and included in research and development costs in the period the costs are incurred. Software development costs incurred after establishing technological feasibility (as defined within ASC 985-20) are capitalized and amortized on a product-by-product basis when the product is available for general release to customers. Software costs capitalized during the three months ended March 31, 2015 were \$622,000. Software costs capitalized during the three ended March 31, 2014 were \$994,000.

Table of Contents

Annual amortization, charged to cost of sales when the product is available for general release to customers, is computed using the greater of (a) the straight-line method over the remaining estimated economic life of the product, generally three to seven years or (b) the ratio that current gross revenues for a product bear to the total of current and anticipated future gross revenues for that product. Amortization of capitalized software costs for the three months ended March 31, 2015 were \$500,000. Amortization costs for the three months ended March 31, 2014 were \$464,000.

During the three months ended March 31, 2015, the Company recorded \$249,000 of amortization expense associated with acquired identifiable intangible assets from the acquisition of Brink Software. The Company did not record any amortization expense associated with acquired identifiable intangible assets for the three months ended March 31, 2014.

The components of identifiable intangible assets are:

	(in thousands)	
	March 31, 2015	December 31, 2014
Acquired and internally developed software costs	\$ 26,756	\$ 26,134
Customer relationships	160	160
Non-competition agreements	30	30
Trademarks, trade names (non-amortizable)	2,200	2,200
	29,146	28,524
Less accumulated amortization	(6,321)	(5,572)
	\$ 22,825	\$ 22,952

The expected future amortization of these intangible assets assuming straight-line amortization of capitalized software costs and acquisition related intangibles is as follows, (in thousands):

2015	\$ 2,418
2016	3,580
2017	3,479
2018	3,377
2019	3,069
Thereafter	4,702
Total	\$ 20,625

Note 6 — Stock Based Compensation

The Company applies the fair value recognition provisions of ASC Topic 718 Stock-Based Compensation. The Company recorded stock based compensation of \$245,000 and \$523,000 for the three months ended March 31, 2015 and March 31, 2014, respectively. The amount recorded for the three months ended March 31, 2015 was recorded net of benefits of \$28,000 as a result of forfeitures of unvested stock awards prior to the completion of the requisite service period. At March 31, 2015, the aggregate unrecognized compensation expense related to non-vested equity awards was \$1.3 million (net of estimated forfeitures), which is expected to be recognized as compensation expense in fiscal years 2015 through 2018.

For the three month period ended March 31, 2015, the Company recognized compensation expense related to the performance awards based on its estimate of the probability of achievement in accordance with ASC Topic 718.

Table of Contents

Note 7 — Earnings per share

Earnings per share are calculated in accordance with ASC Topic 260, which specifies the computation, presentation and disclosure requirements for earnings per share (EPS). It requires the presentation of basic and diluted EPS. Basic EPS excludes all dilution and is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock.

For the three months ended March 31, 2015 and 2014 there was no anti-dilutive stock options outstanding as the Company reported a net loss for both periods.

The following is a reconciliation of the weighted average shares outstanding for the basic and diluted EPS computations (in thousands, except per share data):

	For the three months ended March 31, 2015 2014	
Net loss	\$(385) \$(989)	
Basic:		
Shares outstanding at beginning of period	15,592	15,473
Weighted average shares issued during the period, net	4	26
Weighted average common shares, basic	15,596	15,499
Net loss per common share, basic	\$(0.02) \$(0.06)	
Diluted:		
Weighted average common shares, basic	15,596	15,499
Dilutive impact of stock options and restricted stock awards	-	-
Weighted average common shares, diluted	15,596	15,499
Net loss per common share, diluted	\$(0.02) \$(0.06)	

Table of Contents

Note 8 — Segment and Related Information

The Company's reportable segments are strategic business units that have separate management teams and infrastructures that offer different products and services.

The Company has two reportable segments, Hospitality and Government. The Hospitality segment offers integrated solutions to the hospitality industry. These offerings include industry leading hardware and software applications utilized at the point-of-sale, back of store and corporate office, property management, spa and activity applications and includes the acquisition of Brink Software. This segment also offers customer support including field service, installation, and twenty-four hour telephone support and depot repair. The Government segment performs complex technical studies, analysis, and experiments, develops innovative solutions, and provides on-site engineering in support of advanced defense, security, and aerospace systems. This segment also provides expert on-site services for operating and maintaining U.S. Government-owned communication assets.

Information noted as "Other" primarily relates to the Company's corporate, home office operations.

Table of Contents

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statement

This document contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. Any statements in this document that do not describe historical facts are forward-looking statements. Forward-looking statements in this document (including forward-looking statements regarding the continued health of the Hospitality industry, future information technology outsourcing opportunities, changes in contract funding by the U.S. Government, the impact of current world events on our results of operations, the effects of inflation on our margins, and the effects of interest rate and foreign currency fluctuations on our results of operations) are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. When we use words such as "intend," "anticipate," "believe," "estimate," "plan," "will," or "expect", we are making forward-looking statements. We believe that the assumptions and expectations reflected in such forward-looking statements are reasonable based on information available to us on the date hereof, but we cannot provide assurances that these assumptions and expectations will prove to have been correct or that we will take any action that we presently may be planning. We have disclosed certain important factors that could cause our actual future results to differ materially from our current expectations, including a decline in the volume of purchases made by one or a group of our major customers; risks in technology development and commercialization; risks of downturns in economic conditions generally, and in the quick-service sector of the hospitality market specifically; risks associated with government contracts; risks associated with competition and competitive pricing pressures; and risks related to foreign operations. Forward-looking statements made in connection with this report are necessarily qualified by these factors. We are not undertaking to update or revise publicly any forward-looking statements if we obtain new information or upon the occurrence of future events or otherwise.

Overview

PAR's technology solutions for the Hospitality segment feature software, hardware and support services tailored for the needs of restaurants, hotels, resorts and spas, casinos, cruise lines, movie theatres, theme parks and retailers. The Company's Government segment provides technical expertise to the U.S. Department of Defense ("DoD") and other federal agencies serving Intelligence, Surveillance and Reconnaissance ("ISR") needs in geospatial intelligence, geographic information systems, and command and control applications; additionally, this segment provides mission critical telecommunications, satellite command and control, and information technology operations and maintenance services worldwide to the U.S. DoD.

The Company's products sold in the Hospitality segment are utilized in a wide range of applications by thousands of customers. The Company faces competition across all of its markets within the Hospitality segment, competing on the basis of product design, features and functionality, quality and reliability, price, customer service, and delivery capability. PAR's continuing strategy is to provide complete integrated technology solutions with industry leading customer service in the markets in which it participates. The Company conducts its research and development efforts to create innovative technology offerings that meet and exceed customer requirements and also have a high probability for broader market appeal and success.

Table of Contents

The Company is focused on expanding its Hospitality businesses through its product investments and continued development of its cloud based software applications. These products include its Brink POS software, with integrated features that include loyalty at its core, mobile online ordering, kitchen video system, guest surveys, enterprise reporting, mobile dashboard, and much more. In addition, the Company is investing in the enhancement of existing software applications and the development of the Company's SureCheck® solution for food safety and task management applications. PAR's strategy is also focused on the continued feature expansion and deployment of ATRIO®, its cloud-based software for the Hotel/Resort/Spa markets. To support growth of these products, the Company continues to expand its direct sales force and third-party distribution channels.

The Quick Serve Restaurant ("QSR") market, PAR's primary market, continues to perform well for the majority of large, international companies. However, the Company has seen certain market conditions impact smaller specific QSR organizations, whose business is slowing due to the continued lack of consumer confidence in those regions. These conditions could have a material adverse impact on the Company's estimates, specifically the fair value of its assets related to its legacy products. The Company continues to assess the alignment of its product and service offerings to support improved operational efficiency and profitability going forward.

The focus of the Company's Government business is to expand its services and solutions business lines. Through outstanding performance of existing contracts and investing in enhancing its business development capabilities, the Company is able to consistently win contracts renewals, extend existing contracts, and secure additional new business. With its intellectual property and investment in new technologies, the Company provides solutions to the U.S. Department of Defense and other federal agencies with highly-specialized expertise, systems integration, and products.

Results of Operations —

Three Months Ended March 31, 2015 Compared to Three Months Ended March 31, 2014

PAR reported revenues of \$59.6 million for the quarter ended March 31, 2015, an increase of 5.5% from the \$56.5 million reported for the quarter ended March 31, 2014. PAR reported a net loss of \$385,000 or \$0.02 loss per share for the first quarter of 2015 versus a net loss of \$989,000 or \$0.06 loss per share for the same period in 2014.

Product revenues were \$21.7 million for the quarter ended March 31, 2015, an increase of 16.6% from the \$18.6 million recorded for the same period in 2014. This increase was primarily driven by higher revenues generated from PAR's tier one accounts. In addition, sales made through the Company's worldwide dealer network and software licenses increased 19% and 27%, respectively, on a year over year basis.

Table of Contents

Service revenues were \$14.1 million for the quarter ended March 31, 2015, a decrease of 1.0% from the \$14.3 million reported for the same period in 2014. The decrease is mostly the result of a decline in field service revenue as certain customers transitioned to alternative service support delivery models. Partially offsetting the decrease was an increase in software related services due to an increase in software sold as a service and professional services performed during the quarter. In addition, there was an increase in revenue from our time and material related repair contracts.

Contract revenues were \$23.8 million for the quarter ended March 31, 2015, compared to \$23.7 million reported for the same period in 2014, an increase of 1.0%. This increase is mostly driven by increased activity within the Company's Intelligence, Surveillance and Reconnaissance contracts, predominantly Eagle Intel-X. The increases were offset with a decrease in revenue from certain fixed price technical services contracts that were completed in 2014.

Product margins for the quarter ended March 31, 2015 were 31.6%, an increase from 30.6% for the same period in 2014. Product margin was favorably impacted by the increase in software sales and lower overhead costs, partially offset by an unfavorable hardware mix during the quarter.

Service margins were 33.9% for the quarter ended March 31, 2015; an increase from the 33.0% recorded for the same period in 2014. Service margins have been favorably impacted by an increase in software related services during the period, including professional services and software sold as a service revenues, generated by sales of our hospitality technology software platforms.

Contract margins were 5.7% for the quarter ended March 31, 2015, compared to 6.9% for the same period in 2014. This variance is the result of an unfavorable contract mix. In addition, during fiscal year 2014, the Company realized significant margin on certain fixed price technical services contracts that were modified during that year. The most significant components of contract costs in 2015 and 2014 were labor and fringe benefits. For the first quarter of 2015, labor and fringe benefits were \$9.1 million or 41% of contract costs compared to \$10.0 million or 45% of contract costs for the same period in 2014. This decrease in percentage is mostly attributable to the higher amount of subcontract revenue associated with the Company's Eagle Intel-X contract in 2015.

Selling, general and administrative (SG&A) expenses were \$9.1 million for the period ending March 31, 2015, a decrease of 2.1%, compared to the \$9.3 million for the period ending March 31, 2014. The decrease is primarily attributable to lower equity based compensation expense and the Company's execution of cost reduction initiatives within its Hospitality operations. The Company continues to monitor its cost structure, including strategic initiatives to reduce its fixed costs.

Table of Contents

Research and development (R&D) expenses were \$4.3 million for the quarter ended March 31, 2015, up from the \$3.9 million recorded for the same period in 2014. This increase was primarily due to an increase in hardware R&D associated with next generation hardware products, as well as an increase in software R&D associated with the Company's Brink software application.

During the quarter ended March 31, 2015, the Company recorded \$249,000 of amortization expense associated with acquired identifiable intangible assets from the acquisition of Brink Software. The Company did not record any amortization expense associated with acquired identifiable intangible assets for the quarter ended March 31, 2014.

Other expense, net, was \$229,000 for the quarter ended March 31, 2015 compared to other expenses of \$78,000 for the same period in 2014. Other income/expense primarily includes, fair market value fluctuations of the Company's deferred compensation plan, rental income, and foreign currency fair value adjustments. The increased expense in 2015 is primarily due to foreign currency adjustments and lower rental income.

Interest expense represents interest charged on the Company's short-term borrowings and from long-term debt. Interest expense was \$86,000 for the quarter ended March 31, 2015 as compared to \$17,000 for the same period in 2014. This increase is associated with higher outstanding borrowing in 2015 as compared to the same period in 2014.

For the three months ended March 31, 2015, the Company's effective income tax benefit was 60.9%, compared to 18.2% for the same period in 2014. The variances from the federal statutory rate for 2015 and 2014 were due to the mix of projected taxable income from the Company's domestic and foreign jurisdictions expected for full year fiscal 2015 and 2014.

Liquidity and Capital Resources

The Company's primary sources of liquidity have been cash flow from operations and its bank line of credit. Cash generated in operating activities of continuing operations was \$0.8 million for the three months ended March 31, 2015 compared to \$1.9 million for the same period in 2014.

In 2015, cash generated from operations was mostly due to the add back of non-cash charges and changes in working capital requirements, primarily associated with increases in deferred revenue based on timing of billings for the Company's service contracts and customer deposits associated with the Company's Hospitality segment. This was partially offset by decreases in accrued expenses and accounts payable from timing of payments made to vendors, specifically inventory purchases. In 2014, cash generated in operations was mostly due to the add back of non-cash charges and changes in working capital requirements, primarily associated with increases in deferred revenue based on timing of billings for the Company's service contracts offset by increases in accounts receivable based on timing of product sales and contract billings.

Table of Contents

Cash used in investing activities was \$0.9 million for the three months ended March 31, 2015 versus \$1.6 million for the same period in 2014. In 2015, capital expenditures of \$303,000 were primarily for capital improvements made to the Company's leased properties as well as purchases of computer equipment associated with the Company's software support service offerings. Capitalized software was \$622,000 and was associated with investments for various Hospitality software platforms. In 2014, capital expenditures of \$591,000 were primarily for capital improvements made to the Company's leased properties as well as purchases of computer equipment associated with the Company's software support service offerings. Capitalized software was \$994,000 and was associated with investments for various Hospitality software platforms.

Cash used in financing activities was \$3.8 million for the three months ended March 31, 2015 versus cash used of \$53,000 in 2014. In 2015, the Company decreased borrowings on its credit facility by \$3.8 million and its long-term debt by \$43,000. In 2014, the Company decreased its long-term debt by \$55,000 offset by proceeds from stock awards of \$2,000.

Through June 4, 2014, the Company maintained a credit facility with J.P. Morgan Chase, N.A. and NBT Bank, N.A. (on behalf of itself and as successor by merger to Alliance Bank, N.A.) consisting of \$20.0 million in working capital lines of credit (with the option to increase to \$30.0 million), which expired in June 2014. This agreement allowed the Company, at its option, to borrow funds at the LIBOR rate plus the applicable interest rate spread or at the bank's prime lending rate. This credit facility was secured by certain assets of the Company.

On June 5, 2014, the Company executed an amendment to its then existing credit facility to provide for the renewal of the facility through June 2017, with terms generally consistent to those of its prior facility. This facility provided the Company with capital of up to \$20.0 million (with the option to increase to \$30.0 million) in the form of a revolving line of credit. This agreement allowed the Company, at its option, to borrow funds at the LIBOR rate plus the applicable interest rate spread or at the bank's prime lending rate.

On September 9, 2014, the Company terminated its existing credit facilities with J.P. Morgan Chase, N.A. and NBT Bank, N.A. (on behalf of itself and as successor by merger to Alliance Bank, N.A.) consisting of \$20.0 million in working capital lines of credit, and the Company and its domestic subsidiaries entered into a new three-year credit facility with J.P. Morgan Chase, N.A. The terms of the new agreement provide for up to \$25 million of a line of credit, with borrowing availability based on a percentage of value of various assets of the Company and its subsidiaries. The new agreement bears interest at the applicable bank rate (3.25% at March 31, 2015) plus applicable interest rate spread up to 0.25% or, at the Company's option, at the LIBOR rate plus the applicable interest rate spread (range of 1.5% – 2.0%). At March 31, 2015, the Company had an outstanding balance of approximately \$1.2 million on this line of credit at a rate of 3.50%. The weighted average interest rate paid by the Company was approximately 3.50% during fiscal year 2015. The new agreement contains traditional asset based loan covenants and includes covenants regarding earnings before interest, tax, depreciation & amortization ("EBITDA") and a fixed charge coverage ratio, and provides for acceleration upon the occurrence of customary events of defaults.

Table of Contents

On March 19, 2015, the Company amended its existing credit facility to reduce the EBITDA requirement and extend the fixed charge coverage ratio. The amendment provides the Company flexibility to continue investing in the Company's future product offerings while maintaining certain covenant thresholds as defined in the amendment. The Company is in compliance with the credit facility covenants as of March 31, 2015.

In addition to the credit facility described above, the Company has a mortgage loan, collateralized by certain real estate. This mortgage matures on November 1, 2019. The Company's fixed interest rate was 4.05% through October 1, 2014. Beginning on October 1, 2014, the fixed rate was converted to a new rate equal to the then-current five year fixed advanced rate charged by the New York Federal Home Loan bank, plus 225 basis points. Effective November 1, 2014, the Company entered into an agreement that fixed the interest rate at 4.00% through the maturity date of the loan. The annual mortgage payment including interest through November 1, 2019 totals \$206,000.

In connection with the acquisition of Brink Software on September 18, 2014, the Company recorded indebtedness to the former owners of Brink under the stock purchase agreement. At March 31, 2015, the principal balance of the note payable was \$5.0 million and it had a carrying value of \$4.8 million. The initial carrying value was based on the note's estimated fair value at the time of acquisition with the difference being accreted to interest expense. Repayment terms are \$3.0 million payable on the first anniversary of close, September 18, 2015, and \$2.0 million payable on the second anniversary of close, September 18, 2016.

During fiscal year 2015, the Company anticipates that its capital requirements will not exceed approximately \$1.0 million to \$3.0 million. The Company commits to purchasing inventory from its suppliers based on a combination of internal forecasts and actual orders from customers. This process, along with good relations with suppliers, minimizes the working capital investment required by the Company. Although the Company lists two major customers, McDonald's and Yum! Brands, it sells to hundreds of individual franchisees of these corporations, each of which is individually responsible for its own debts. These broadly made sales substantially reduce the impact on the Company's liquidity if one individual franchisee reduces the volume of its purchases from the Company in a given year. The Company, based on internal forecasts, believes its existing cash, line of credit facilities and its anticipated operating cash flow, will be sufficient to meet its cash requirements through the next twelve months. However, the Company may be required, or could elect, to seek additional funding prior to that time. The Company's future capital requirements will depend on many factors including its rate of revenue growth, the timing and extent of spending to support product development efforts, potential growth through strategic acquisition, expansion of sales and marketing, the timing of introductions of new products and enhancements to existing products, and market acceptance of its products. The Company cannot assure additional equity or debt financing will be available on acceptable terms or at all. The Company's sources of liquidity beyond twelve months, in management's opinion, will be its cash balances on hand at that time, funds provided by operations, funds available through its lines of credit and the long-term credit facilities that it can arrange.

Table of Contents

Recently Issued Accounting Pronouncements Not Yet Adopted

In April 2015, the FASB issued new guidance related to the presentation of debt issuance costs, which amends existing guidance to require the presentation of debt issuance costs in the balance sheet as a deduction from the carrying amount of the related debt liability, consistent with debt discounts, instead of a deferred charge asset. The new standard is effective for the Company beginning in its first quarter of fiscal 2016, with early adoption permitted. The Company is evaluating the impact the adoption of this standard will have on its consolidated financial statements.

In April 2015, the FASB issued new guidance related to accounting for the fees paid in a cloud computing arrangement, which provides guidance to customers about whether a cloud computing arrangement includes a software license. If considered a software license, the arrangement should be accounted for as an acquisition of a software license. If not considered a software license, the arrangement should be accounted for as a service contract. The new standard is effective for the Company beginning in its first quarter of fiscal 2016, with early adoption permitted. The Company is evaluating the impact the adoption of this standard will have on its consolidated financial statements.

In August 2014, the FASB issued new guidance related to disclosures around going concern, including management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related disclosures when conditions or events raise substantial doubt about an entity's ability to continue as a going concern. The new standard is effective for the Company beginning in its first quarter of fiscal 2017, with early adoption permitted. The impact of adopting this guidance on January 1, 2017 is not expected to have a material impact on our consolidated financial statements.

In June 2014, the Financial Accounting Standards Board (FASB) issued amended guidance on the accounting for certain share-based employee compensation awards. The amended guidance requires that share-based employee compensation awards with terms of a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award and compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved. The Company is required to adopt this guidance for its annual and interim periods beginning March 1, 2016. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In May 2014, the FASB amended the existing accounting standards for revenue recognition. The amendments are based on the principle that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. In April 2015, the FASB voted to propose a one-year deferral of the effective date of the new revenue standard. Under the proposal, the new guidance will be effective for the Company beginning in its first quarter of fiscal 2018. The amendments may be applied retrospectively to each prior period presented or with the cumulative effect recognized as of the date of initial application. PAR is currently evaluating the impact of these amendments and the transition alternatives on PAR's financial statements.

Recently Adopted Accounting Pronouncements

In April 2014, the FASB issued guidance that raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and other disposals that do not meet the definition of a discontinued operations. The new guidance defines a discontinued operation as a disposal of a component or group of components that is disposed of or is classified as held for sale and represents a strategic shift that has (or will have) a

major effect on an entity's operations and financial results. The new guidance was effective on January 1, 2015, with early adoption permitted. The adoption of this amendment on January 1, 2015 did not have a significant impact on the Company's financial position or results of operations.

Table of Contents

Critical Accounting Policies

In PAR's Annual Report on Form 10-K for the year ended December 31, 2014, the Company disclosed accounting policies, referred to as critical accounting policies, that require management to use significant judgment or that require significant estimates. Management regularly reviews the selection and application of the Company's critical accounting policies. There have been no updates to the critical accounting policies contained in PAR's Annual Report on Form 10-K for the year ended December 31, 2014.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

INFLATION

Inflation had little effect on revenues and related costs during the three months ended March 31, 2015. Management anticipates that margins will be maintained at acceptable levels to minimize the effects of inflation, if any.

Table of Contents

INTEREST RATES

As of March 31, 2015, the Company has \$1.2 million of variable debt. The Company believes that an adverse change in interest rates of 100 basis points would not have a material impact on PAR's business, financial condition, results of operations or cash flows.

FOREIGN CURRENCY

The Company's primary exposures relate to certain non-dollar denominated sales and operating expenses in Europe and Asia. These primary currencies are the Great British Pound, the Euro, the Australian dollar, the Singapore dollar and the Chinese Renminbi. Accordingly, changes in exchange rates may negatively affect our revenue and net income (loss) as expressed in U.S. dollars. The Company also has foreign currency risk related to foreign currency transactions and monetary assets and liabilities, including intercompany balances denominated in currencies that are not the functional currency. The Company has experienced and will continue to experience fluctuations in our net income (loss) as a result of gains (losses) on these foreign currency transactions and the remeasurement of monetary assets and liabilities. To date, the impacts of foreign currency exchange rate changes on our revenues and net income (loss) have not been material. The volatility of exchange rates depends on many factors that we cannot forecast with reliable accuracy.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

Based on an evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2015, the end of the period covered by this Quarterly Report on Form 10-Q (the "Evaluation Date"), conducted under the supervision of and with the participation of the Company's chief executive officer and principal financial officer, such officers have concluded that the Company's disclosure controls and procedures, which are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and designed to ensure that information required to be disclosed by the Company in the reports filed or submitted under the Exchange Act is accumulated and communicated to management including the chief executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosures, are effective as of the Evaluation Date.

(b) Changes in Internal Control over Financial Reporting.

There was no change in the Company's internal controls over financial reporting, as defined in Rule 13a-15(f) of the Exchange Act during the quarter ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, such internal controls over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors

The Company is exposed to certain risk factors that may affect operations and/or financial results. The significant factors known to the Company are described in the Company's most recently filed Annual Report on Form 10-K. There have been no material changes from the risk factors as previously disclosed in the Company's Annual Report on Form 10-K.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.
