Dear Sir or Madam,

VERY SUBSTANTIAL ACQUISITION AND
CONNECTED TRANSACTIONS

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

1. INTRODUCTION

On 12 November, 2004, the Board announced that the Sale and Purchase Agreement was entered into by the Company as the purchaser and CSAHC, Northern Airlines and Xinjiang Airlines as the vendors, whereby the Company will acquire the Business and Assets and assume the Debts from the Vendors.

-7-

LETTER FROM THE BOARD

The Independent Board Committee, comprising the independent non-executive Directors, namely Simon To, Peter Lok, Wei Ming Hai, Wang Zhi and Sui Guang Jun, has been formed to advise the Independent Shareholders with respect to the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder. ICEA has been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder.

The purpose of this circular is (i) to give you further information regarding the Acquisition, the On-going Connected Transactions which will constitute continuing connected transactions of the Company after completion of the Sale and Purchase Agreement, and the Financial Services Agreement; (ii) to set out the recommendations from the Independent Board Committee to the Independent Shareholders and the advice from ICEA to the Independent Board Committee and the Independent Shareholders in respect of the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder; and (iii) to give you the notice of the EGM and other information required under the Listing Rules.

2. THE SALE AND PURCHASE AGREEMENT

(1) DATE

12 November, 2004

(2) PARTIES

- (a) The Company, as the purchaser. The principal business activity of the Company is that of civil aviation.
- (b) CSAHC, the controlling shareholder of the Company holding approximately 50.30% equity interest in the Company as of the Latest Practicable Date. The principal business activity of CSAHC, based on its business licence, is that of operating and managing, on behalf of the PRC government, certain state-owned assets, including properties, and state-owned shareholdings in various PRC companies.
- (c) Northern Airlines, a wholly owned subsidiary of CSAHC, as the vendor. The principal business activity of Northern Airlines is that of civil aviation.
- (d) Xinjiang Airlines, a wholly owned subsidiary of CSAHC, as the vendor. The principal business activity of Xinjiang Airlines is that of civil aviation.

(3) THE BUSINESS AND ASSETS TO BE ACQUIRED AND THE DEBTS TO BE ASSUMED

- (a) The Business and Assets to be acquired consist of certain

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Airline Operations, assets and properties of Northern Airlines Group and Xinjiang Airlines Group, including aircraft, engines, spare parts, aviation equipment and facilities, properties, office facilities, and other fixed, current and intangible assets.

-8-

LETTER FROM THE BOARD

- (b) The Debts to be assumed consist of all indebtedness in the aggregate sum of RMB15,090,109,000 owed by Xinjiang Airlines Group or Northern Airlines Group in connection with their civil aviation business.

(4) CONDITIONS PRECEDENT

The Sale and Purchase Agreement is subject to the following conditions precedent:

- (a) the Vendors obtaining all approvals of the Sale and Purchase Agreement by the working meeting of the president of CSAHC and the SASAC; and
- (b) the Independent Shareholders approving the Sale and Purchase Agreement and the transactions contemplated thereunder.

(5) CONSIDERATION AND PAYMENT TERMS

The provisional amount of the consideration of the Acquisition, and of the Debts to be assumed under the Sale and Purchase Agreement are set at RMB16,912,244,600 and RMB15,090,109,000 respectively. These amounts are arrived at after arm's length negotiations between the Vendors and the Company, with reference to the valuation of the Business and Assets, and Debts set out in the Zhong Qi Hua Valuation Reports. The Zhong Qi Hua Valuation Reports value the Business and Assets, Debts and net asset value of the Target Group at RMB16,912,244,600, RMB15,090,109,000 and RMB1,822,135,600 respectively as of 31 December, 2003.

The provisional amount of the consideration of the Acquisition, and of the Debts to be assumed by the Company will be subject to adjustment and finalisation based on the book value of the Business and Assets, and of the Debts as of the Effective Date, as determined in the financial statements of the Business and Assets of the Target Group prepared under the PRC Accounting Rules and Regulations and audited by KPMG Huazhen. A portion of the final adjusted consideration of the Acquisition will be settled by way of assumption of the final adjusted Debts, with the remaining balance to be payable by the Company to the bank account designated by the Vendors in cash. On the assumption that the Acquisition had taken place on 30 June, 2004, and based on the financial statements of the Business and Assets of the Target Group prepared under the PRC Accounting Rules and Regulations and audited by KPMG Huazhen on the same date, the remaining balance payable by the Company in cash to the bank account designated by the Vendors on that date would have been RMB1,897 million.

The Company shall make repayments of the Debts directly to the creditors of such Debts in accordance with the terms and conditions of the relevant agreements between the Vendors and the creditors in relation to the Debts.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(6) FUNDING

The Company will finance the Acquisition and the assumption of the Debts through its internal resources, and short term U.S. dollar commercial loans from commercial

-9-

LETTER FROM THE BOARD

banks amounting to RMB1,000 million. Such commercial banks are not and will not be connected persons (as defined in the Listing Rules) of the Company. The Company will make use of its unutilised banking facilities to draw down the required commercial loans.

(7) TRANSITION PERIOD

The terms of the Sale and Purchase Agreement provide for a transition period commencing from 31 December, 2003 and ending on the Effective Date, during which if a material change occurs such that any of the Business and Assets is damaged, lost, or the ownership of which no longer belongs to the Vendors, the Vendors shall give notice to the Company immediately. The Vendors must obtain the prior consent of the Company before disposing of any Business and Assets during the transition period.

All profits and losses arising from the Business and Assets during the transition period belong to the Vendors. All profits and losses from the Effective Date thereon shall belong to the Company.

(8) DELIVERY TERMS AND OWNERSHIP

The Vendors shall deliver all the Business and Assets, together with all documents evidencing or constituting ownership of such Business and Assets, to the Company within five days of the Effective Date.

3. REASONS FOR AND BENEFITS OF THE ACQUISITION

The Directors believe that the Acquisition represents an attractive opportunity for the Company to consolidate its strong market position and improve its financial performance. Both Northern Airlines and Xinjiang Airlines are leading airlines in their respective operating regions. The Acquisition will bring various commercial benefits to the Company in terms of broadening its flight service network, increasing its fleet size and transportation capacity, reducing costs and boosting its overall efficiency, ultimately strengthening the Listed Group's position as one of China's largest airlines and enhancing its value for its investors.

(1) BROADEN FLIGHT NETWORK

- (a) The Listed Group is headquartered in Guangzhou with 12 operational bases in central and Southern China, offering regular flights on 248 domestic routes to over 69 cities in China, 18 routes to Hong Kong, and 45 international routes to 24 cities in East and Southeast Asia, Australia, North America and Europe, as of 30 June, 2004. However, due to the lack of operational bases, the Company is only capable of offering very limited flight services in Northern China and Northwestern China.
- (b) Northern Airlines Group is headquartered in Shenyang with

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

operational bases in Dalian, Changchun and Harbin. Northern Airlines Group's operating region is predominantly in Northeastern China. It is also the dominant Chinese airline serving flight routes to Korea and Japan due to the proximity of its operating region to those countries.

-10-

LETTER FROM THE BOARD

- (c) Xinjiang Airlines Group is headquartered in Urumqi, with operational bases and operating region in the Xinjiang autonomous region. It also commands a strong market position on domestic routes between Xinjiang and other parts of China, and on international routes to Russia, the Middle East and West Asia.

As the flight networks of the Listed Group, Northern Airlines Group and Xinjiang Airlines Group are disparate and complementary to each other, the Acquisition will significantly broaden the Company's flight network. After the Acquisition, the Company will have a strong presence in additional key markets in the Western and Northeastern part of China, enabling it to provide more comprehensive civil aviation service to customers.

The Directors believe that the Acquisition provides significant growth potential for the Listed Group, particularly in light of the "Go West" and "Redevelop the Northeast" campaigns initiated by the PRC government. The Directors also believe that the huge investment made by the PRC government in Western and Northeastern China will lead to rapid economic growth in those regions over the next decade or more, which, in turn, will result in rapid increase in air traffic volume to and from those regions.

In addition, the Acquisition will also significantly enhance the Company's international air transportation business. The Company will be able to offer flight services between its bases in Southern, Northeastern and Northwestern China and other international cities in North America, Southeast Asia, North Asia, the Middle East as well as Europe.

The table below illustrates the Company's domestic base network before and after the Acquisition:

BASE NETWORK BEFORE AND AFTER THE ACQUISITION

[BASE NETWORK MAP] Pre-transaction [BASE NETWORK MAP] Post-transaction

(2) INCREASE FLEET SIZE AND TRANSPORTATION CAPACITY

The Acquisition will substantially increase the fleet size of the Listed Group. As of 30 June, 2004, the Listed Group owned and operated a fleet of 139 medium and large size

-11-

LETTER FROM THE BOARD

commercial passenger and cargo aircraft. The Acquisition will bring in 75 commercial passenger and cargo aircraft from Northern Airlines Group and Xinjiang Airlines Group thereby increasing the Listed Group's fleet size

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

by 54% to 214 commercial aircraft. The increased economies of scale will contribute to greater transportation capacity, higher operating efficiency, lower operating and maintenance cost, more flexible flight scheduling, greater bargaining power in aircraft acquisitions, better financing terms for purchases and improved aircraft allocation for the flight routes.

The tables below set out fleet and selected operating data of the Target Group and the Listed Group individually, and on a combined basis, for the year 2003 and the first half of 2004:

FIRST SIX MONTHS OF 2004

	LISTED GROUP -----	NORTHERN AIRLINES GROUP -----	XINJIANG AIRLINES GROUP -----
Number of aircraft(1)	139	55	20
Passenger capacity (ASK) (million)	25,928	7,693	3,722

(1) As of 31 December, 2003 including owned and leased (on both finance and operating lease basis) aircraft.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(3) MINIMIZE ROUTE OVERLAP AND OPTIMIZE FLIGHT SCHEDULES

The Directors believe that the Acquisition will yield significant benefits to the Listed Group through optimization of flight routes and schedules.

Most of the major flight routes in the PRC are served by more than one airline, and therefore the competition on most major flight routes is intense. Although offering discounts on air ticket prices is still regulated by the CAAC, many PRC airlines rely heavily on such measures to attract passengers. As a result, the Listed Group faces significant pressure on air ticket prices.

Prior to the Acquisition, the routes that the Listed Group shares with Northern Airlines Group and Xinjiang Airlines Group account for approximately 8.2% of the Listed Group's total routes. After the Acquisition, the Listed Group will become the sole or main operator on many of such shared flight routes. This reduction in route and slot overlap will allow the Listed Group to gain advantageous air ticket pricing power and improve its financial performance.

Moreover, the Listed Group could reduce the number of flights on those shared routes without sacrificing sufficient coverage and service quality. The Listed Group will then have additional capacity to support other more profitable flight routes and thus generate additional revenue.

(4) ENHANCE AIR TICKET SALES NETWORK AND REDUCE OVERHEAD

Northern Airlines Group, Xinjiang Airlines Group and the Listed Group each maintains an extensive air ticket sales network in major cities and large ground services teams at major airports in China. The Listed Group can achieve significant cost savings by rationalizing the sales network and consolidating the ground service operations of the three airlines. After the Acquisition, the Company plans to close a total of 14 geographically overlapping domestic air ticket sales offices (eight belong to Northern Airlines Group, four belong to Xinjiang Airlines Group and two to the Company) and four overseas air ticket sales offices (all belong to Northern Airlines Group).

(5) IMPROVE ALLOCATION OF AIRCRAFT, ENGINES, SPARE PARTS AND CREWS

The Directors believe the expanded fleet will provide the Listed Group greater flexibility in allocating aircraft between the combined routes of the Listed Group, Northern Airlines Group and Xinjiang Airlines Group.

For each of the three airlines, there is excess capacity in low seasons, but limited or inadequate capacity during peak seasons. As most of the flight routes served by them are different, each of the Listed Group, Northern Airlines Group and Xinjiang Airlines Group has relatively staggered peak and low seasons. After the Acquisition, the Company will be able to re-deploy an enlarged team of aircraft, pilots and flight personnel to the highest traffic routes and better ensure a balance of demand and supply for capacity throughout the year.

-13-

LETTER FROM THE BOARD

Furthermore, since the Listed Group has already been operating Boeing 737, 757 and Airbus 319, 320 aircraft that Xinjiang Airlines Group

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

and Northern Airlines Group are either currently operating or will be acquiring according to their aircraft replacement schedules, the Listed Group will be able to improve the internal allocation of engines and high-value aircraft spare parts. For instance, the Directors believe that after the Acquisition, the Listed Group may be able to purchase fewer aircraft engines and spare parts and reduce inventory level of them.

Through redeployment of aircraft, pilots and crew, and better allocation of spare parts, the Directors believe the Listed Group can improve its operating efficiency and reduce operating costs and capital expenditures.

(6) REDUCE MAINTENANCE COSTS

The Directors believe significant reduction in maintenance cost can be achieved through more centralized maintenance functions and sharing of maintenance personnel and equipment. The Company plans to centralize fleet maintenance functions at five national maintenance bases which are Guangzhou, Shenyang, Urumqi, Zhengzhou (or Wuhan) and Xiamen in the next few years. These maintenance bases will be responsible for major overhauls on all aircraft while the local bases will be responsible for minor maintenance tasks on their own aircraft. The Directors believe that this initiative will significantly improve efficiency and reduce the costs of fleet maintenance.

(7) STRENGTHEN MARKETING EFFORTS

Since its listing on the Stock Exchange, the Company has implemented many changes to its remuneration policies in order to improve the effectiveness of marketing efforts by its business units. Under the Company's current performance credit policy, its branch office located in the city that a particular flight originates from (including both non-stop and connecting flights) receives performance credit for the flights to the immediate next destination. Previously, all performance credit earned by a particular aircraft was given to the office in which that aircraft was based in, which did not provide incentive for the offices in intermediate cities to market the air ticket of that particular flight. After the Acquisition, the Company plans to implement this remuneration policy to the marketing units newly acquired from the Target Group. The Directors believe that this will lead to a more effective and concerted marketing effort by all the offices, and therefore resulting in higher sales revenue.

4. FINANCIAL EFFECT OF THE ACQUISITION

Based on the pro forma financial information of the Combined Group outlined in Appendix V of this circular, assuming that the Acquisition had taken place on 30 June, 2004, there would not be any impact on the net assets of the Listed Group following the Acquisition as of 30 June, 2004. On the same basis, the total assets of the Listed Group would increase by 35%, or RMB15,179 million, which would be offset by an increase of RMB15,083 million in liabilities and RMB96 million in minority interest.

-14-

LETTER FROM THE BOARD

Based on the pro forma financial information of the Combined Group outlined in Appendix V of this circular, assuming that the Acquisition had taken place on 1 January, 2004, for the first six months ended 30 June, 2004, net profit of the Listed Group would increase by 36%, or RMB95 million to RMB361

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

million following the Acquisition. On the same basis, basic earnings per share would increase from RMB0.06 to RMB0.08, representing an accretion of 36%.

5. IMPLICATIONS UNDER THE LISTING RULES

The Acquisition exceeds 100% of the relevant percentage ratios under Rule 14.07 of the Listing Rules and therefore constitutes a very substantial acquisition of the Company under the Listing Rules. Since CSAHC is the direct controlling shareholder of the Company, the Acquisition also constitutes a connected transaction for the Company under the Listing Rules and is therefore subject to the approval by the Independent Shareholders at the EGM. The Board, including the independent non-executive Directors, believes that the terms of the Sale and Purchase Agreement and the Acquisition are fair and reasonable and are in the interests of the Listed Group and its shareholders as a whole.

An Independent Board Committee has been formed to advise the Independent Shareholders in respect of the Sale and Purchase Agreement and the Acquisition. ICEA has been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Sale and Purchase Agreement and the Acquisition.

CSAHC and its associates are required to abstain from voting in respect of the proposed resolution to approve the Sale and Purchase Agreement and the Acquisition which will be conducted by poll.

6. PROSPECTIVE FINANCIAL INFORMATION

The Target Group has prepared certain prospective financial information in respect of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group for the year ending 31 December, 2004 in compliance with Rule 14A.56(8) and Rule 14.62 of the Listing Rules. For further details, please see Appendix VI. Neither the Target Group nor the Company intends to update this information during the remainder of the year or to update such information in future years, although the Directors are aware of the requirements of Rule 13.09 notes 9 and 10 of the Listing Rules. This information is necessarily based upon a number of assumptions (see Appendix VI) that, while presented with numerical specificity and considered reasonable by the Target Group, are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the control of the Company or the Target Group, and upon assumptions with respect to future business decisions which are subject to change. Accordingly, there can be no assurance that these results will be realized. The prospective financial information presented may vary from actual results, and these variations may be material.

The Company and the Target Group believe that, on the bases and the assumptions discussed in Appendix VI and in the absence of unforeseen circumstances, the Target Group's

LETTER FROM THE BOARD

forecast combined profit after taxation and minority interests but before the extraordinary items for the year ending 31 December, 2004 under IFRS is unlikely to be less than RMB148 million. Such forecast has been prepared based on the principal assumptions set out in Appendix VI to this circular. In the event that such forecast is not met, the Company will make further announcement to explain the reasons. The texts of the letters from KPMG and JPMorgan in respect of the profit forecast are set out in Appendix VI to this circular.

Consideration and payment terms

The consideration for Lease Agreement 2 is RMB5,797,908.61 per year, payable in arrear by cheque, in cash or by bank transfer on or before the 10th day of each calendar month, and is determined after arm's length negotiation between the parties. Chesterton, an independent qualified valuer in Hong Kong, has given its opinion that the consideration for Lease Agreement 2 is not higher than the current market prices of comparable properties. The consideration will be funded wholly by the Company's internal resources.

The Cap

As the consideration has been determined after arm's length

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

negotiation between the parties and with regard to the current market prices, the Cap for the Lease Agreement 2 is set at RMB5,797,908.61 per year.

Reasons and benefits of the Lease Agreement 2

Following the Acquisition, the Company will expand its civil aviation business to locations where the buildings, facilities and infrastructure under the Lease Agreement 2 are situated at. The purchase of such buildings, facilities and infrastructure by the Company will involve the more time-consuming and costly process of transferring to the Company the relevant titles, ownership or land use rights relating thereto; whereas the entering into of the Lease Agreement 2 allows the Company to use those buildings, facilities and infrastructure to operate its expanded civil aviation business from the commencement date of Lease Agreement 2 at rents not higher than the market rates for similar buildings, facilities and infrastructure.

(3) LEASE AGREEMENT 3

Date

12 November, 2004

Parties

- (a) CSAHC, as the lessor.
- (b) The Company, as the lessee.

-18-

LETTER FROM THE BOARD

The property to be leased

CSAHC leases to the Company certain lands by leasing the land use rights of such lands to the Company. These lands had been administratively allocated to Xinjiang Airlines and Northern Airlines for the purposes of their civil aviation and related businesses. Subsequently, CSAHC was authorised to deal with the land use rights of such lands, including leasing, but not transferring, such land use rights. Total area of the lands leased is 1,182,297 square metres, and the locations of such lands are in Urumqi, Shenyang, Dalian and Harbin.

Term of Lease Agreement 3

Lease Agreement 3 is for a fixed term of three years, commencing from the effective date of the lease, and is renewable, subject to compliance with the relevant requirements of the Listing Rules by the Company, by an application in writing by the Company to the lessor three months before the end of the fixed term.

Consideration and payment terms

The rent for the land use rights of the designed lands under Lease Agreement 3 is RMB22,298,033 per year, payable in arrear by cheque, in cash or by bank transfer on or before the 10th day of each calendar month, and is determined after arm's length

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

negotiation between the parties. Chesterton, an independent qualified valuer in Hong Kong, has given its opinion that the consideration for Lease Agreement 3 is not higher than the current market prices of comparable properties. The consideration will be funded wholly by the Company's internal resources.

The Cap

As the consideration has been determined after arm's length negotiation between the parties and with regard to the current market prices, the Cap for the Lease Agreement 3 is set at RMB22,298,033 per year.

Benefits of the Lease Agreement 3

Following the Acquisition, the Company will expand its civil aviation business to locations where the lands under the Lease Agreement 3 are situated at. As CSAHC is prohibited from transferring the land use rights of such lands to the Company, the Company could only lease the land use rights of such lands from CSAHC. The Lease Agreement 3 allows the Company to use those lands to operate its expanded civil aviation business at rent not higher than the market rates for similar lands.

-19-

LETTER FROM THE BOARD

(B) CATERING AGREEMENT

DATE

12 November, 2004

PARTIES

- (a) The Company.
- (b) The Catering Company, which is wholly owned by CSAHC. The principal business activity of the Catering Company is the provision of in-flight meals to airlines.

CATERING SERVICE

The Catering Company will supply (1) in-flight meals in accordance with the menus of in-flight meals agreed with the Company from time to time, and in such quantity as the Company shall advise the Catering Company in advance; and (2) catering services for different flights of the Company (including normal, additional, chartered and temporary flights) originating or stopping at the domestic airports, mainly in Northern China and the Xinjiang regions where the Catering Company provides catering services. The Combined Group will also obtain catering services and in-flight meals from other catering companies.

TERM OF THE CATERING AGREEMENT

The Catering Agreement is for a fixed term of three years from the date of the Catering Agreement.

CONSIDERATION AND PAYMENT TERMS

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The parties have agreed, after arm's length negotiation, on the price of each type of in-flight meals and the service charges for each type of aircraft. The prices of in-flight meals and the service charges are not higher than the market rate of comparable in-flight meals and service charges. The Catering Company will issue an invoice listing out the quantity of in-flight meals supplied, the agreed unit price and the total price payable for each of the Company flight it provides service. The invoice shall be verified and signed by the captain flight attendant of that flight. At the end of each month, the Catering Company shall deliver to the Company for its verification all the invoices issued during that month. The Company will make payment to the Catering Company within 60 days of the receipt of the invoices.

-20-

LETTER FROM THE BOARD

THE CAP

There are no historical figures available for the Catering Agreement as it will only be entered into on 12 November, 2004. The Cap for the Catering Agreement is set at RMB220 million per year. As discussed above, the flight network of the Company will broaden following the Acquisition. The Cap for the Catering Agreement is therefore determined on the basis of the estimated number of passengers to be carried and the number of flights per year mainly under the enlarged flight network in Northern China and the Xinjiang regions of the Company during the term of the Catering Agreement, the prices of the in-flight meals and the service charges of the catering services under the Catering Agreement.

REASONS AND BENEFITS OF THE CATERING AGREEMENT

The Company can secure in-flight meals and catering services at prices no higher than the market price for its flights originating or stopping at domestic airports mainly in Northern China and the Xinjiang regions where the Catering Company provides catering services. The Company is not precluded from procuring in-flight meals and catering services from other catering companies where the terms and conditions are favourable.

(C) IMPLICATIONS UNDER THE LISTING RULES

As each of CSAHC, Xinjiang Airlines, Northern Airlines and the Catering Company is a connected person of the Company under the Listing Rules, each of the Lease Agreements and Catering Agreement constitutes a continuing connected transaction for the Company under the Listing Rules. The Board, including the independent non-executive Directors, considers the On-going Connected Transactions to be on normal commercial terms, in the ordinary and usual course of business, fair and reasonable and in the interests of the Listed Group and its shareholders as a whole.

Pursuant to the Listing Rules, each percentage ratio (other than the profits ratio) for (i) the Lease Agreements, and (ii) the Catering Agreement is on an annual basis less than 2.5%. Therefore, each of (i) the Lease Agreements, and (ii) the Catering Agreement falls under Rule 14A.34 and is only subject to the reporting and announcement requirements set out in Rules 14A.45 to 14A.47 and is exempt from the Independent Shareholders' approval requirements. The Company undertakes to comply with the rules in relation to annual review of continuing connected transactions set out in Rule 14A.37 to Rule 14A.41 of the Listing Rules.

Pursuant to the relevant rules and regulations of the PRC, each of Lease

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Agreement 1, Lease Agreement 2, Lease Agreement 3 and Catering Agreement is conditional upon approval by the Independent Shareholders. In accordance with the relevant rules and regulations of Shanghai Stock Exchange, China Galaxy Securities Co., Limited has been appointed by the Company as the independent financial adviser in China to prepare an independent financial report in relation to each of Lease Agreement 1, Lease Agreement 2, Lease Agreement 3 and Catering Agreement which is required to be published in the newspaper in the PRC.

LETTER FROM THE BOARD

8. FINANCIAL SERVICES AGREEMENT

The first financial services agreement between the Company and the Finance Company was entered into on 22 May, 1997 for a term of three years. The Stock Exchange had, in a letter dated 24 April, 1998, granted the Company waiver from strict compliance with Chapter 14 under the then applicable Listing Rules in relation to, among other transactions, the first financial services agreement and the transactions contemplated thereunder. The first financial services agreement was extended in 2000 for six years to 22 May, 2006. The Stock Exchange is looking into the matter of whether the Company had complied with the requirements of the Listing Rules during the extended term of the first financial services agreement and the Company will publish further announcement in this respect. In order to comply with the new requirements under the Listing Rules, the Company and the Finance Company are now entering into the Financial Services Agreement so that the Finance Company could continue to provide deposit of money service and, subject to the execution of separate agreements with the Company and further compliance with the Listing Rules, other financial services to the Company. The Provision of Deposit Service constitutes a discloseable and non-exempt continuing connected transaction, and is conditional upon approval by the Independent Shareholders.

DATE

12 November, 2004

PARTIES

- (a) The Company.
- (b) The Finance Company, a subsidiary of CSAHC which is owned as to 42% by CSAHC, 32% by the Company and 26% in aggregate by five subsidiaries of the Company, namely 8% by Xiamen Airlines Company Limited, 8% by Southern Airlines Group Shantou Airlines Company Limited, 4% by Guangxi Airlines Company Limited, 4% by Zhuhai Airlines Company Limited and 2% by Guangzhou Nanland Air Catering Company Limited. The principal business activity of the Finance Company is that of providing various financial services, which it is authorised to carry out under the applicable rules and regulations of the PRC.

FINANCIAL SERVICES

The Finance Company agrees to provide to the Company the following financial services:

- (1) Accept deposit of money from the Company at interest rates not lower than those set by the PBOC for the same term of deposit. The Finance Company will in turn deposit the whole of such

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

sums of money with certain banks including Bank of Agriculture, Bank of Communications, China Construction Bank and Industrial and Commercial Bank of China.

-22-

LETTER FROM THE BOARD

- (2) Make loans to the Company subject to the entering into of separate loan agreements, which will set out the Cap, terms and conditions of the loans, upon application by the Company during the term of the Financial Services Agreement. The Company will comply with the Listing Rules when entering into such separate written agreements. The Finance Company shall not charge interest rates higher than those set by the PBOC for similar loans. The total amount of outstanding loans extended by the Finance Company to the Company must not exceed the sum of the Finance Company's shareholders' equity, capital reserves and money deposit received from other parties (except the Company).
- (3) Provide credit facilities, financial guarantees, credit references, and other financial services subject to the entering into of separate agreements, which will set out the Cap, terms and conditions of such services, upon request by the Company during the term of the Financial Services Agreement. The Company will comply with the Listing Rules when entering into such separate written agreements.

TERM OF THE FINANCIAL SERVICES AGREEMENT

The Financial Services Agreement is for a fixed term of 3 years, commencing from the date of the agreement, and is renewable, subject to compliance with the requirements of the relevant Listing Rules by the Company, by an application in writing by the Company not less than 30 days before the end of the fixed term.

CONSIDERATION AND PAYMENT TERMS

The Company is not subject to any extra charges for depositing money with the Finance Company. For the other financial services provided by the Finance Company under the Financial Services Agreement, the Company is liable to pay the Finance Company the standard charging rates set by the PBOC. The PRC commercial banks also charge similar charging rates set by the PBOC.

The Company will make payment for such interest, fees and commissions in accordance with the payment terms of the separate agreements for the provision of loans or other financial services as might be entered into between the Company and the Finance Company.

THE CAP

The Cap for the Provision of Deposit Service under the Financial Services Agreement is set at RMB1 billion per year, based on the past figures on deposit of money with the Finance Company, and on the estimated amount of money to be deposited with

-23-

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

LETTER FROM THE BOARD

the Finance Company by the Company each year for the term of the Financial Services Agreement. The Company's deposit of money with the Finance Company was of the amount of RMB1,316,709,000, RMB877,499,000 and RMB346,357,000 as of 31 December, 2001, 31 December, 2002 and 31 December, 2003 respectively. The Company believes that the demand for air transportation will continue to increase following the growth trend in the aviation transportation market, thus the Company expects that it will substantially increase its deposits with the Finance Company for the next three years, as compared to the year ended 31 December, 2003 when the business of the Company was badly affected by the outbreak of severe acute respiratory syndrome. Taking into account the historical amount of the deposit of money with the Finance Company by the Company, the proposed Cap will sufficiently cover the proposed amount of the deposit of money with the Finance Company by the Company.

REASONS AND BENEFITS OF THE FINANCIAL SERVICES AGREEMENT

The Finance Company is a non-bank finance company established under the direction of the PBOC with the main business scope of providing various financial services, including deposit and loan facilities, credit facilities, guarantee, remittance of money and credit references, to CSAHC and its subsidiaries. The first financial services agreement between the Company and the Finance Company was entered into on 22 May, 1997. As the transactions under the first financial services agreement constituted connected transactions of the Company, details of which had been disclosed in the annual reports of the Company. In order to comply with the new requirements under the Listing Rules, the Company and the Finance Company are now entering into the Financial Services Agreement so that the Finance Company could continue to provide deposit of money service and, subject to the execution of separate agreements with the Company and further compliance with the Listing Rules, other financial services to the Company.

The Company usually receives interest on its money deposited with the Finance Company at rates which are more favourable than the benchmark interest rates set by the PBOC, usually in the range between the benchmark interest rates set by the PBOC and the inter-bank offer rates of interest. This arrangement allows the Company to achieve a more efficient use of its current capital, since the Company can enjoy better interest rates on depositing its current capital with the Finance Company than the benchmark rates of interest set by the PBOC that the PRC commercial banks can offer to the Company.

Subject to the entering into of further separate agreements, the Company can borrow from the Finance Company at interest rates not higher than those set by the PBOC for similar loans. In addition, the Company is not precluded under the Financial Services Agreement to borrow money from other PRC commercial banks where the terms and conditions are favourable. The Company can also enjoy the convenience of other financial services at the rates of fees and commissions set by the PBOC, which are comparable to the rates charged by PRC commercial banks for similar services.

-24-

LETTER FROM THE BOARD

IMPLICATIONS UNDER THE LISTING RULES

As the Finance Company is a connected person of the Company under

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

the Listing Rules, the Provision of Deposit Service constitutes a discloseable and non-exempt continuing connected transaction under Rule 14A.35 of the Listing Rules and requires the Company to comply with the reporting and announcement requirement and the independent shareholders' approval requirement under Rule 14A.48 of the Listing Rules. The Board, including the independent non-executive Directors, believes that the terms of the Financial Services Agreement and the Provision of Deposit Service to be on normal commercial terms, in the ordinary and usual course of business, fair and reasonable and in the interests of the Listed Group and its shareholders as a whole.

An Independent Board Committee has been formed to advise the Independent Shareholders in respect of the Financial Services Agreement and the Provision of Deposit Service. ICEA has been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the Financial Services Agreement and the Provision of Deposit Service.

CSAHC and its associates are required to abstain from voting in respect of the proposed resolution to approve the Financial Services Agreement and the Provision of Deposit Service which will be conducted by poll.

The Company will comply with the Listing Rules when it enters into further separate agreements with the Finance Company in connection with the provision of loan facilities and other financial services by the Finance Company.

9. RECOMMENDATIONS

ICEA has been appointed to advise the Independent Board Committee and the Independent Shareholders on the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder. The Independent Board Committee, having taken into account the advice of ICEA, considers that the terms of the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder are fair and reasonable and are in the interests of the Listed Group and its shareholders as a whole. The Independent Board Committee also considers the On-going Connected Transactions to be in the ordinary course of business, on normal commercial terms and the respective maximum aggregate annual values to be fair and reasonable. That being the case, the Independent Board Committee recommends the Independent Shareholders to vote in favour of the ordinary resolution to be proposed at the EGM in respect of the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder.

10. EGM

Set out on pages 353 to 355 is a notice convening the EGM to be held at the headquarters of the Company at No. 278, Ji Chang Road, Guangzhou, Guangdong Province, the PRC on 31 December, 2004 at 9:00 am. If you are not able to attend and/or vote at the meeting, you are

or any adjournment thereof. Completion and return of the form of proxy will not preclude you from attending and voting at the meeting or any adjourned meeting should you so wish.

11. ADDITIONAL INFORMATION

Your attention is drawn to the letter from the Independent Board Committee to the Independent Shareholders set out on pages 27 to 28 of this circular, the letter from ICEA to the Independent Board Committee and the Independent Shareholders in respect of the terms of the Acquisition and the information set out in the appendices to this circular.

The text of the letters and the valuation certificates issued by Chesterton in connection with its valuation are set out in Appendix VIII "Property Valuation". Since the parcels of lands and the number of buildings are too numerous, the Company has applied to the Stock Exchange for a waiver from strict compliance with Rule 5.06 of the Listing Rules regarding the form of presentation in this circular of the valuation report on the following conditions:

- (1) the full valuation reports (which will be prepared in Chinese language only) in compliance with the requirements of Chapter 5 and Practice Note 12 of the Listing Rules will be available for public inspection; and
- (2) summary valuation reports prepared on the basis of the full valuation reports which (i) set out separately the interests in land and buildings according to the following groups, namely "Properties to be acquired by the Company from CSAHC", "Properties under construction to be acquired by the Company from CSAHC", "Properties to be rented by the Company from CSAHC", "Properties held by the Group in the PRC", "Properties held by the Group in Western Australia", "Properties held by the Group in the Netherlands", "Properties held under construction by the Group in the PRC", and "Properties rented by the Group"; (ii) for each of the above groups (except for "Properties to be rented by the Company from CSAHC" and "Properties rented by the Group") set out separately interests in land and buildings on the basis of the subsidiary or branch of CSAHC or the Listed Group at different locations where the buildings and lands are held.

CHINA SOUTHERN AIRLINES COMPANY LIMITED

(a joint stock limited company incorporated in the People's
Republic of China with limited liability)

12 November, 2004

To the Independent Shareholders

Dear Sirs or Madams,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

VERY SUBSTANTIAL ACQUISITION AND CONNECTED TRANSACTIONS

We refer to the circular issued by the Company to its shareholders dated 12 November, 2004 (the "Circular"), of which this letter forms part. Terms defined in the Circular shall have the same meanings in this letter unless the context otherwise requires. The purpose of the Independent Board Committee is to advise you as to whether, in our opinion, the terms of the Sale and Purchase Agreement, Financial Services Agreement and the transactions contemplated thereunder are fair and reasonable so far as the Independent Shareholders are concerned and in the interest of the Company and its shareholders as a whole.

ICEA has been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in relation to the fairness and reasonableness of the terms of the Sale and Purchase Agreement, Financial Services Agreement and the transactions contemplated thereunder from a financial perspective. Details of ICEA's conclusion and advice, together with the principal factors and reasons considered in arriving at such conclusion and advice, are set out in its letter on pages 29 to 48 of the Circular. We urge you to read that letter carefully.

As your Independent Board Committee, we have discussed with the management of the Company for the reasons for the Sale and Purchase Agreement, Financial Services Agreement and the transactions contemplated thereunder, and the basis upon which their terms have been determined. We have also taken into account the principal factors and reasons considered by ICEA regarding the Sale and Purchase Agreement, Financial Services Agreement and the transactions contemplated thereunder, and its conclusion and advice.

The Independent Board Committee concurs with the view of ICEA that the terms of the Sale and Purchase Agreement, Financial Services Agreement and the transactions contemplated thereunder are fair and reasonable so far as the Independent Shareholders are concerned and in the interests of the Company and the shareholders as a whole. The Independent Board Committee also considers the Financial Services Agreement and the transactions contemplated thereunder to be in the ordinary course of business, on normal commercial terms and the

12 November, 2004

To the Independent Board Committee of
China Southern Airlines Company Limited

Dear Sirs,

VERY SUBSTANTIAL ACQUISITION AND
CONNECTED TRANSACTION
AND
DISCLOSEABLE AND CONTINUING CONNECTED TRANSACTION

INTRODUCTION

We refer to our engagement as independent financial adviser to advise the Independent Board Committee and the Independent Shareholders with respect to the Acquisition and the Provision of Deposit Service. This letter has been prepared for inclusion in the circular dated 12 November, 2004 (the "Circular") issued to the Shareholders and capitalised terms used in this letter shall have the same meanings as defined in the Circular unless the context otherwise requires.

The Company entered into the Sale and Purchase Agreement with CSAHC, Northern Airlines and Xinjiang Airlines on 12 November, 2004 and entered into the Financial Services Agreement with the Finance Company on 12 November, 2004. As at the Latest Practicable Date, CSAHC was interested in approximately 50.30% of the existing issued share capital of the Company. Accordingly, CSAHC is a controlling shareholder of the Company under the Listing Rules, and it and its associates (as defined in the Listing Rules) are regarded as connected persons of the Company under the Listing Rules. The Finance Company is owned as to 42% by CSAHC and is therefore regarded as a connected person of the Company under the Listing Rules. For details, please refer to the letter from the Board (the "Letter from the Board") set out in the Circular. Pursuant to the Listing Rules, the Acquisition constitutes both a very substantial acquisition and a connected transaction for the Company, which will be subject to, inter alia, the Independent Shareholders' approval at the EGM to be taken by poll. The Provision of Deposit Service constitutes a discloseable and non-exempt continuing connected transaction under the Listing Rules and requires compliance with the reporting and announcement requirement and the independent shareholders' approval requirement under the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

LETTER FROM ICEA

Listing Rules. CSAHC, the controlling shareholder of the Company and its associates will abstain from voting at the EGM to be convened to approve the Sale and Purchase Agreement, the Financial Services Agreement and the transactions contemplated thereunder which will be conducted by poll. The Independent Board Committee has been formed to advise the Independent Shareholders on whether the terms and conditions of the Sale and Purchase Agreement and the Financial Services Agreement and the transactions contemplated thereunder are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

We, ICEA Capital Limited, have been retained as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders as to whether the terms of the Sale and Purchase Agreement and the Financial Services Agreement and the transactions contemplated thereunder, from a financial perspective, are fair and reasonable and in the interest of the Company as a whole so far as the Independent Shareholders are concerned.

In formulating our opinion with regard to the Acquisition and the Provision of Deposit Service, we have reviewed, amongst other things, the Circular, the Sale and Purchase Agreement, the financial projections and the financial statements of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group, the Zhong Qi Hua Valuation Reports and the Financial Services Agreement. We considered information, given in writing and orally, by the Directors, the Company's financial adviser, and the management of the Company and the Target Group. We also reviewed such research studies and publicly available information as we deemed necessary. We have relied, without assuming any responsibility for independent verification, on the information and facts about the Acquisition and the Provision of Deposit Service supplied to us by the Company and have assumed that any information and representations made to us are true, accurate and complete in all material respects as at the date hereof and that they may be relied upon. We have also assumed that all information, representations and opinions contained or referred to in the Circular are true, accurate, and complete in all material respects as of the date hereof and have relied upon them. We also assumed that all statements of intention of the Company's management or its Directors, as set forth in the Circular, will be implemented. With respect to any historical costs and financial statements, financial forecasts, estimates, working capital statements and projections relating to the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group and the Provision of Deposit Service, we have assumed that each was prepared on bases reflecting the best currently available information, views, and judgments of the historical and future financial revenues and expenses involved in the Business and Assets and the Provision of Deposit Service and may be relied upon by us in formulating our opinion. We have also assumed that each of the Sale and Purchase Agreement and the Financial Services Agreement, is enforceable against each of the parties thereto in accordance with its terms and that each of the parties will perform, and will be able to perform, its obligations thereunder, and as otherwise described in the Circular, in full when due.

We have been advised by the Board that no material facts have been omitted and we are not aware of any facts or circumstances which would render the information provided and the representations made to us untrue, inaccurate or misleading. We have no reason to doubt the truth, accuracy and completeness of the information and representations provided to us by the

PRINCIPAL FACTORS CONSIDERED

1. THE ACQUISITION

In arriving at our opinion, we have taken into consideration the following principal factors and reasons. Our conclusions are based on the results of all the analyses taken as a whole.

(a) PRINCIPAL BUSINESS OF THE LISTED GROUP

The Listed Group is one of the largest airlines in the PRC and is headquartered in Guangzhou with 12 operational bases in central and Southern China, offering regular flights on 248 domestic routes to over 69 cities in China, 18 routes to Hong Kong, and 45 international routes to 24 cities in East and Southeast Asia, Australia, North American and Europe, as of 30 June, 2004. However, due to the lack of operational bases, the Company is only capable of offering very limited flight services in Northern China and Northwestern China.

LETTER FROM ICEA

(b) CONSOLIDATION AND RESTRUCTURING TREND OF GLOBAL AVIATION INDUSTRY

In recent years, the global aviation industry has experienced a period of consolidation and restructuring characterised by mergers and acquisitions of airlines within and across the regions. The principal rationale and objective of such wave of global consolidation and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

restructuring is to achieve economies of scale by merging the operations of different airlines, to reduce redundancies, and thus to enhance operating efficiencies of the airlines.

(c) CONSOLIDATION AND RESTRUCTURING OF AVIATION INDUSTRY IN THE PRC

In the second half of 2000, the CAAC introduced a policy with the principle of restructuring of the PRC aviation industry on a voluntary basis under government directives and taking advantage of economies of scale. Under the policy, domestic airlines are encouraged to consolidate, centering around CSAHC, Air China Group and Eastern Air Group. On 27 April, 2001, the CAAC announced such consolidation and restructuring plan of the PRC aviation industry in details. On the same date, CSAHC informed the Company that in order to take advantage of economies of scale, the CSAHC voluntarily participates in the consolidation and restructuring plan of the PRC aviation industry under the government proposals.

On 11 October, 2002, the consolidation and restructuring proposal of the PRC aviation industry was approved in principle by the State Council of the PRC. As a result, all the equity interest of Northern Airlines and Xinjiang Airlines were transferred to CSAHC. The Listed Group and CSAHC since then have been preparing for the injection of the Business and Assets into the Listed Group in order to achieve economies of scale and enhance the competitiveness of the core business of the Listed Group.

(d) REASONS FOR AND BENEFITS OF THE ACQUISITION

We have considered the reasons for and benefits of the Acquisition as highlighted in the Letter from the Board and we have noted the following:

- the Acquisition is in line with the global trend of consolidation and restructuring of the aviation industry;
- the Acquisition is in line with the consolidation and restructuring strategy adopted by the Listed Group in light of the proposed consolidation and restructuring plans of the PRC aviation industry and the CSAHC;

We concur with the Board's view that:

- the Acquisition represents an attractive opportunity for the Listed Group to consolidate its strong market position as both Northern Airlines and Xinjiang Airlines are leading airlines in their respective operating regions;

-32-

LETTER FROM ICEA

- the Acquisition will bring various benefits to the Listed Group, including broadening its flight network, enhancing its international air transportation business, increasing its fleet size and transportation capacity, enhancing its air ticket sales network; strengthening its marketing efforts; reducing its operating costs and boosting its overall efficiency; and
- the Acquisition is in line with the non-competition undertaking granted by the CSAHC to the Company when the Company was listed on the Stock Exchange in 1997.

(e) PACKAGED DEAL

We notice that the Business and Assets to be acquired consist of certain Airline Operations, assets and properties of Northern Airlines Group and Xinjiang Airlines Group, including aircraft, engines, spare parts, aviation equipment and facilities, properties, office facilities, and other fixed, current and intangible assets. As the Acquisition is a packaged deal, the Business and Assets cannot be divided up and the Company can only acquire the Business and Assets as a whole.

(f) BUSINESS AND ASSETS TO BE ACQUIRED AND THE DEBTS TO BE ASSUMED

- (a) The Business and Assets to be acquired consist of certain Airline Operations, assets and properties of Northern Airlines Group and Xinjiang Airlines Group, including aircraft, engines, spare parts, aviation equipment and facilities, properties, office facilities, and other fixed, current and intangible assets.
- (b) The Debts to be assumed consist of all indebtedness in the aggregate sum of RMB15,090,109,000 (equivalent to approximately HK\$14,235,952,000) owed by Xinjiang Airlines Group or Northern Airlines Group in connection with their civil aviation business.

Both Northern Airlines and Xinjiang Airlines are leading airlines in their respective operating regions offering passenger and cargo air transportation and other related services.

Northern Airlines Group is headquartered in Shenyang with operational bases in Dalian, Changchun and Harbin. Northern Airlines Group's operating region is predominantly in Northeastern China. It is also the dominant Chinese airline serving flight routes to Korea and Japan due to the proximity of its operating region to those countries.

Xinjiang Airlines Group is headquartered in Urumqi, with operational bases and operating region in the Xinjiang autonomous region. It also commands a strong market position on domestic routes between Xinjiang and other parts of China, and on international routes to Russia, the Middle East and West Asia.

The Airline Operations of Northern Airlines Group

Operating revenue

For the year ended 31 December, 2002, the operating revenue of the Airline Operations of Northern Airlines Group was approximately RMB5,244 million

-34-

LETTER FROM ICEA

(equivalent to approximately HK\$4,947 million), an increase of approximately RMB41 million (equivalent to approximately HK\$39 million) from 2001. The increase was primarily due to the increase in cargo and mail revenue driven by the increase in overall yield per RFTK resulting from the suspension of certain routes with low yield in the year.

For the year ended 31 December, 2003, the operating revenue of the Airline Operations of Northern Airlines Group was approximately RMB5,929 million (equivalent to approximately HK\$5,593 million), an increase of approximately RMB685 million (equivalent to approximately HK\$646 million) from 2002. The increase was primarily due to the increase in passenger revenue resulting from increase in traffic volume and passenger yield in the year. The increase in traffic volume was the result of rescheduling of certain major routes in October 2002 while the increase in passenger yield

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

was mainly due to the exemption of the CAAC infrastructure fund and sales tax during the period from 1 May, 2003 to 31 December, 2003.

For the six-month period ended 30 June, 2004, the operating revenue of the Airline Operations of Northern Airlines Group was approximately RMB3,465 million (equivalent to approximately HK\$3,269 million).

EBITDAR

For the year ended 31 December, 2002, the EBITDAR of the Airline Operations of Northern Airlines Group was approximately RMB403 million (equivalent to approximately HK\$380 million), a decrease of approximately RMB185 million (equivalent to approximately HK\$175 million) from 2001. The decrease was primarily due to the increase in operating expenses resulting from increase in landing and navigation fees and repair and maintenance.

For the year ended 31 December, 2003, the EBITDAR of the Airline Operations of Northern Airlines Group was approximately RMB635 million (equivalent to approximately HK\$599 million), an increase of approximately RMB232 million (equivalent to approximately HK\$219 million) from 2002. The increase was mainly due to the increase in operating revenue outweighing the operating expenses in the year.

For the six-month period ended 30 June, 2004, the EBITDAR of the Airline Operations of Northern Airlines Group was approximately RMB863 million (equivalent to approximately HK\$814 million).

Operating profit/loss

As there were no significant changes in the depreciation and amortisation expenses, as a result of the reasons mentioned in the analysis of operating revenue and EBITDAR above, for each of the years in the three-year period ended 31

-35-

LETTER FROM ICEA

December, 2003, the operating loss of the Airline Operations of Northern Airlines Group were approximately RMB126 million (equivalent to approximately HK\$119 million), approximately RMB308 million (equivalent to approximately HK\$291 million) and approximately RMB61 million (equivalent to approximately HK\$58 million) respectively.

For the six-month period ended 30 June, 2004, the Airline Operations of Northern Airlines Group had an operating profit of approximately RMB369 million (equivalent to approximately HK\$348 million).

The Airline Operations of Xinjiang Airlines Group

Operating revenue

For the year ended 31 December, 2002, the operating revenue of the Airline Operations of Xinjiang Airlines Group was approximately RMB2,353 million (equivalent to approximately HK\$2,220 million), an increase of approximately RMB179 million (equivalent to approximately HK\$169 million) from 2001. The increase was mainly due to the increase in passenger revenue driven by an increase in traffic volume.

For the year ended 31 December, 2003, the operating revenue of the Airline Operations of Xinjiang Airlines Group was approximately RMB2,152

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

million (equivalent to approximately HK\$2,030 million), a decrease of approximately RMB201 million (equivalent to approximately HK\$190 million). The decrease was primarily due to the decrease in passenger revenue resulting from a decrease in passenger yield.

For the six-month period ended 30 June, 2004, the operating revenue of the Airline Operations of Xinjiang Airlines Group was approximately RMB1,215 million (equivalent to approximately HK\$1,146 million).

EBITDAR

For the year ended 31 December, 2002, the EBITDAR of the Airline Operations of Xinjiang Airlines Group was approximately RMB821 million (equivalent to approximately HK\$775 million), an increase of approximately RMB43 million (equivalent to approximately HK\$41 million) from 2001. The increase was mainly due to the increase in operating revenue outweighing the increase in operating expenses.

For the year ended 31 December, 2003, the EBITDAR of the Airline Operations of Xinjiang Airlines Group was approximately RMB568 million (equivalent to approximately HK\$536 million), a decrease of approximately RMB253 million (equivalent to approximately HK\$239 million) from 2002. The

-36-

LETTER FROM ICEA

decrease was primarily due to increase in maintenance expenses resulting from increase in utilisation rates of aircraft and increase in aircraft and traffic servicing expenses as a result of increase in the charge rate for domestic landing and navigation fees effective September 2002.

For the six-month period ended 30 June, 2004, the EBITDAR of the Airline Operations of Xinjiang Airlines Group was approximately RMB303 million (equivalent to approximately HK\$286 million).

Operating profit/loss

For the year ended 31 December, 2002, the operating profit of the Airline Operations of Xinjiang Airlines Group was approximately RMB197 million (equivalent to approximately HK\$186 million), a decrease of approximately RMB72 million (equivalent to approximately HK\$68 million) from 2001. The decrease was mainly due to the increase of depreciation and amortisation expenses as a result of addition of one Boeing 757-200 aircraft and two 757-200 jet engines during 2002 and the impairment loss recognised on aircraft and other flight equipment.

As there was no significant changes in the depreciation and amortisation expenses for the year ended 31 December, 2003, as a result of the reasons mentioned in the analysis of EBITDAR above, for the year ended 31 December, 2003, the operating loss of the Airline Operations of Xinjiang Airlines Group was approximately RMB39 million (equivalent to approximately HK\$37 million) as oppose to operating profit of approximately RMB197 million (equivalent to approximately HK\$186 million) in 2002.

For the six-month period ended 30 June, 2004, the operating loss of the Airline Operations of Xinjiang Airlines Group was approximately RMB0.20 million (equivalent to approximately HK\$0.19 million).

In addition, certain prospective financial information in respect of the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group for the year ending 31 December, 2004 has been prepared by the Target Group. Based on the assumptions set out in Appendix VI to the Circular and in the absence of unforeseen circumstances, the Board believes that the combined profit after taxation and minority interests but before the extraordinary items for the year ending 31 December, 2004 under IFRS is unlikely to be less than RMB148 million (equivalent to approximately HK\$140 million). The Company and the Target Group are not currently aware of any extraordinary items which have arisen or are likely to arise in respect of the year ending 31 December, 2004 which would affect the prospective financial information prepared.

(g) FINANCIAL POSITION OF THE AIRLINE OPERATIONS OF THE TARGET GROUP

The table below sets forth the financial position of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group for the year ended 31 December, 2003 and the six-month period ended 30 June, 2004:

	NORTHERN AIRLINES GROUP		XINJIANG AIRLINE	
	FOR THE YEAR ENDED 31 DECEMBER, 2003 (RMB million)	FOR THE SIX- MONTH PERIOD ENDED 30 JUNE, 2004 (RMB million)	FOR THE YEAR ENDED 31 DECEMBER, 2003 (RMB million)	FOR MON (RMB
Net current liabilities	1,442	1,631	1,072	
Net assets	821	956	929	
Net cash flow from operating activities	540	222	296	

As revealed from the table above, both the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group had net current liabilities position but positive net assets value as at 30 June, 2004. We note that due to the capital intensive nature of aviation industry, it is not unusual for aviation companies to have net current liabilities position. We have also reviewed the working capital statements of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group for the eighteen months ending 31 December, 2005 which have been prepared by the Company. We concur with the Board's view that the Airline Operations of the Target Group would have sufficient operating cash flow to support its operations.

(h) BASIS OF THE CONSIDERATION

The Sale and Purchase Agreement was entered into after arm's length negotiations between the Company and the Vendors, and the provisional amount of the consideration of the Acquisition, and of the Debts to be assumed under the Sale and Purchase Agreement are set at RMB16,912,244,600 (equivalent to approximately HK\$15,954,948,000) and RMB15,090,109,000 (equivalent to approximately HK\$14,235,952,000) respectively. The amounts are arrived at after arm's length negotiations between the Company and the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Vendors, with reference to the valuation of the Business and Assets, and the Debts set out in the Zhong Qi Hua Valuation Reports.

The Zhong Qi Hua Valuation Reports value the Business and Assets at RMB16,912,244,600 (equivalent to approximately HK\$15,954,948,000), and the Debts at RMB15,090,109,000 (equivalent to approximately HK\$14,235,952,000) respectively, as at 31 December, 2003 which is equivalent to the provisional amount of the consideration of the Acquisition, and of the Debt to be assumed under the Sale and Purchase Agreement respectively.

-38-

LETTER FROM ICEA

We have reviewed the Zhong Qi Hua Valuation Reports, we consider the valuation methodologies used in appraising the Business and Assets, and the Debts are fair and reasonable.

The provisional amount of the consideration of the Acquisition, and of the Debts to be assumed by the Company will be subject to adjustment and finalisation based on the book value of the Business and Assets, and of the Debts as of the Effective Date, as determined in the financial statements on the Business and Assets of the Target Group prepared in accordance with the PRC Accounting Rules and Regulations and audited by KPMG Huazhen. A portion of the final adjusted consideration of the Acquisition will be settled by way of assumption of the final adjusted Debts, with the remaining balance to be payable by the Company to the bank account designated by the Vendors in cash.

(i) FINANCING OF THE ACQUISITION

Under the Sale and Purchase Agreement, the provisional amount of the consideration of the Acquisition, and of the Debts to be assumed under the Sale and Purchase Agreement are set at RMB16,912,244,600 (equivalent to approximately HK\$15,954,948,000) and RMB15,090,109,000 (equivalent to approximately HK\$14,235,952,000) respectively. The remaining balance of approximately RMB1,822,135,600 (equivalent to approximately HK\$1,718,996,000), subject to adjustment, is to be payable by the Company to the Vendors in cash. We understand from the Company that in determining the payment method, the major portion of the consideration to be satisfied through the assumption of Debts with the remaining to be settled in cash, it took into consideration the current and future cash requirements of the Listed Group and the Target Group. The Board believes that such arrangement should not cause material negative impact to the Group's business operations. The Company confirmed that it has sufficient internal resources to fund the cash payment for the Acquisition without a material negative impact on its ongoing operations and capital expenditure requirements. As at 30 June, 2004, the Listed Group had cash and cash equivalents of approximately RMB2,932 million (equivalent to approximately HK\$2,766 million). The Company further confirmed that it has sufficient internal and external financial resources for its ongoing operations and capital expenditure requirements.

Based on the above, we consider that the terms for the financing of the Acquisition are fair and reasonable from a financial point of view, insofar as the Independent Shareholders are concerned.

(j) VALUATION OF THE BUSINESS AND ASSETS

For aviation companies, due to the heavy capital investment in aircraft, their profitability will, to a large extent be distorted by the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

policy and the amount of depreciation and amortization of aircraft. Further, the methods and terms of financing for aircraft will also significantly affect the operating performance of an aviation company. Due to the specific nature of aviation industry, in order to fairly compare the operating profitability (without being distorted by depreciation, amortization and financing terms) of the Target Group with those of other comparable aviation companies in the market, in

-39-

LETTER FROM ICEA

addition to price/earning ratio ("PER") analysis, we have made reference to another commonly used market valuation benchmark for aviation companies, the EV/EBITDAR factor, being the quotient of the enterprise value ("EV") divided by the operating profit before interest, taxation, depreciation, amortization and rental under the operating leases ("EBITDAR") in assessing the valuation of the Target Group. EV is defined as the sum of the equity value of a company plus its total debt minus its cash balances.

The total amount of consideration for the Acquisition of RMB16,912,244,600 (equivalent to approximately HK\$15,954,948,000) implies an EV for the Target Group of approximately RMB16,390,513,600 (equivalent to approximately HK\$15,462,833,000) being the total amount of consideration for the Acquisition minus the combined cash and cash equivalents of the Target Group of approximately RMB521,731,000 (equivalent to approximately HK\$492,115,000).

Set out below is the summary of the PER as well as the EV/EBITDAR factor of 15 listed aviation comparables in the Asia Pacific region (the "Aviation Comparables") (including five listed aviation comparables in the PRC (the "PRC Aviation Comparables")) and the Target Group:

NAME OF AVIATION COMPARABLE -----	ESTIMATE PER(1) -----

-40-

LETTER FROM ICEA

- (1) Based on consensus brokers' estimates on the forth coming financial year (source: Bloomberg).
- (2) Calculated based on the latest audited results announced by Aviation Comparables and their respective closing share prices as at 10 November, 2004.
- (3) Excluding the highest and lowest valuations.
- (4) PRC Aviation Comparable.
- (5) Calculated based on the forecasted combined profit after taxation and minority interests but before the extraordinary items of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group for the year ending 31 December, 2004 under IFRS of RMB148 million.

Based on the market comparables statistics, we note that the consideration for the Acquisition is within the range of the valuation of Aviation Comparables and slightly below the average of the valuation of PRC Aviation Comparables. On these bases, we consider the acquisition price is fair and reasonable so far as the Company and the Independent Shareholders are concerned.

(k) PRO FORMA EFFECTS TO THE COMPANY

We have conducted various analyses on the potential financial effects of the Acquisition on the Listed Group, which were extracted from or prepared based on the accountants' report of the Listed Group and unaudited pro forma financial information of the Listed Group and the Target Group (collectively the "Combined Group") as set out in Appendix V to the Circular.

(i) Earnings

The pro forma earnings per share of the Combined Group for the six-month period ended 30 June, 2004, would be approximately RMB0.08 (equivalent to approximately HK\$0.08), which is approximately 36% higher than the actual earnings per share of the Listed Group for the same period.

Based on our discussion with the Directors and certain prospective financial information in respect of the Airline Operations of the Target Group for the year ending 31 December, 2004 prepared by the Company and the Target Group, we understand that the combined profit after taxation and minority interests but before the extraordinary items for the year ending 31 December, 2004 under IFRS is unlikely to be less than RMB148 million (equivalent to approximately HK\$140 million). Assuming the consideration of the Acquisition is RMB1,897 million (equivalent to approximately HK\$1,790 million) (which represents the aggregate amount of the net assets value of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group as at 30 June, 2004 prepared under PRC Accounting Rules and Regulations) which will be satisfied by short term U.S. dollar bank loans amounting to RMB1,000 million (equivalent to approximately HK\$943 million) and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

cash of RMB897 million (equivalent to

-41-

LETTER FROM ICEA

approximately HK\$846 million) and the Acquisition had taken place on 1 January, 2004, the annual interest expense arising from short term U.S. dollar bank loans bearing interest at 2.17% per annum would amount to approximately RMB21,700,000 (equivalent to approximately HK\$20,472,000) and the reduction in the annual interest income of the cash consideration of RMB897 million (equivalent to approximately HK\$846 million) to be taken from the internal resources depositing in certain PRC banks enjoying 0.72% deposit rate per annum would amount to RMB6,458,000 (equivalent to approximately HK\$6,093,000). Taking into account the increase in interest expense and the reduction in interest income as a result of the Acquisition, the earnings of the Listed Group would increase by approximately RMB120 million (equivalent to approximately HK\$113 million) for the year ending 31 December, 2004.

(ii) Gearing

The pro forma total debt (including obligations under finance lease) of the Combined Group would be approximately RMB34,974 million (equivalent to approximately HK\$32,995 million) as at 30 June, 2004, representing an increase of approximately 57.97% from the total debt of approximately RMB22,139 million (equivalent to approximately HK\$20,886 million) of the Listed Group at the same date. The pro forma net debt (total debt less cash and cash equivalents) of the Combined Group would increase to approximately RMB32,417 million (equivalent to approximately HK\$30,582 million) from RMB19,207 (equivalent to approximately HK\$18,120 million) for the Listed Group as of 30 June, 2004. The pro forma ratio of the Combined Group's net debt to total shareholders' equity would be approximately 267% as at 30 June, 2004, compared to approximately 158% for the Listed Group as at the same date. On a pro forma basis, the total debt to total capitalisation ratio would increase from 65% for the Listed Group to approximately 74% for the Combined Group. The increase in gearing ratio mainly results from the increase in borrowings following the assumption of Debts by the Company. We consider that the substantial increase in gearing ratio not only will increase the overall financial risk of the Group but also increase the financial burden and future financing costs of the Group.

(iii) Working capital

It is noted that the provisional amount of the consideration is set at approximately RMB16,912 million (equivalent to approximately HK\$15,955 million), of which approximately RMB15,090 million (equivalent to approximately HK\$14,236 million) will be settled by way of assumption of debt and the remaining balance of approximately RMB1,822 million (equivalent to approximately HK\$1,719 million) will be financed by short term U.S. dollar bank loans amounting to RMB1,000 million, and the internal resources of the Listed Group. We understand from the Directors that having taken into account the existing cash and bank balance position of the Listed Group, the operating cash flow of the Combined Group, the

-42-

LETTER FROM ICEA

estimated capital expenditure of the Listed Group in the near future and the banking facilities available to the Listed Group, the Directors consider that the Acquisition would not have a material adverse impact on the normal operations of the Listed Group. We also note that as at 30 June, 2004, the Listed Group had cash and bank balances of approximately RMB2,932 million (equivalent to approximately HK\$2,766 million) and had total available banking facilities of approximately RMB13,300 million (equivalent to approximately HK\$12,500 million). We have also reviewed the working capital statements of the Listed Group, Northern Airlines Group and Xinjiang Airlines Group, respectively for the eighteen months ending 31 December, 2005, we concur with the Board's view that the Combined Group would have sufficient cash flow to support its operations and the Acquisition will not have a material adverse impact on the normal operations of the Listed Group.

2. PROVISION OF DEPOSIT SERVICE

In arriving at our opinion, we have considered, inter alia, the following principal factors and reasons:

(a) FINANCIAL SERVICES AGREEMENT

Pursuant to the Financial Services Agreement, the Listed Group will from time to time utilise the financial services available from the Financial Company. Such financial services include:

- (1) Accept deposit of money from the Company at interest rates not lower than those set by the PBOC for the same term of deposit. The Finance Company will in turn deposit the whole of such sums of money with certain banks including Bank of Agriculture, Bank of Communications, China Construction Bank and Industrial and Commercial Bank of China.
- (2) Make loans to the Company subject to the entering into of separate loan agreements, which will set out the Cap, terms and conditions of the loans, upon application by the Company during the term of the Financial Services Agreement. The Company will comply with the Listing Rules when entering into such separate written agreements. The Finance Company shall not charge interest rates higher than those set by the PBOC for similar loans. The total amount of outstanding loans extended by the Finance Company to the Company must not exceed the sum of the Finance Company's shareholders' equity, capital reserves and money deposit received from other parties (except the Company).
- (3) Provide credit facilities, financial guarantees, credit references, and other financial services subject to the entering into of separate agreements, which will set out the Cap, terms and conditions of such services, upon request by the Company during the term of the Financial Services Agreement. The Company will comply with the Listing Rules when entering into such separate written agreements.

LETTER FROM ICEA

The Financial Services Agreement is for a fixed term of three years, commencing from the date of the agreement, and is renewable, subject to compliance with the requirements of the relevant Listing Rules by the Company, by an application in writing by the Company not less than 30 days before the end of the fixed term. Upon the renewal of the Financial Services Agreement, the Company will comply with all applicable discloseable and connected transactions requirement of the Listing Rules, including the Independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

The Company is not subject to any extra charges for depositing money with the Finance Company. For the other financial services provided by the Finance Company under the Financial Services Agreement, the Company is liable to pay the Finance Company the standard charging rates set by the PBOC. The PRC commercial banks also charge similar charging rates set by the PBOC.

The Company will make payment of such interest, fees and commissions in accordance with the payment terms of the separate agreements for the provision of loans or other financial services as might be entered into between the Company and the Finance Company.

(b) INFORMATION RELATING TO THE FINANCE COMPANY

The Finance Company is a non-bank finance company established under the direction of the PBOC with the main business scope of providing various financial services, including deposit and loan facilities, credit facilities, guarantee, remittance of money and credit references, to CSAHC and its subsidiaries. The operations of the Finance Company are subject to the on-going supervision of the PBOC. The registered capital of the Finance Company is RMB424,329,500.

(c) DISCLOSEABLE AND CONTINUING CONNECTED TRANSACTION WITH THE FINANCE COMPANY

CSAHC is the controlling shareholder of the Company with a beneficial interest of approximately 50.30% of the existing issued share capital of the Company as at the Latest Practicable Date.

The Finance Company, a subsidiary of CSAHC which is owned as to 42% by CSAHC, 32% by the Company and 26% in aggregate by five subsidiaries of the Company, and is a connected person of the Company under the Listing Rules. Accordingly, the transactions with the Finance Company contemplated under the Financial Services Agreement constitute continuing connected transactions under the Listing Rules, and are subject to the approval of the Independent Shareholders.

(d) REASONS FOR AND BENEFITS OF THE PROVISION OF DEPOSIT SERVICE

The pricing policy of the Finance Company and commercial banks in China are subject to guidelines set by the PBOC. Therefore, the charges by the Finance Company for its services to the Company is comparable to those charged by PRC banks for similar services.

The Company usually receives interest on its money deposited with

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

the Finance Company at rates which are more favourable than the benchmark interest rates set by the PBOC, usually in the range between the benchmark interest rates set by the PBOC and the inter-bank offer rates of interest. This arrangement allows the Company to achieve a more efficient use of its current capital, since the Company can enjoy better interest rates on depositing its current capital with the Finance Company than the benchmark rates of interest set by the PBOC that the PRC commercial banks can offer to the Company.

Subject to the entering into of further separate agreements, the Company can borrow from the Finance Company at interest rates not higher than those set by the PBOC for similar loans.

We have reviewed the Financial Services Agreement and we understand that it does not preclude the Company from choosing similar services provided by other commercial banks in the PRC where terms and conditions offered by other commercial banks are more favourable to the Company than those offered by the Finance Company. The Financial Services Agreement also provides that the Finance Company will provide relevant services to the Company on normal commercial terms, and on terms no less favourable than those available to the Company from independent third parties.

Based on the above analysis, we are of the view that the terms of the Financial Services Agreement are fair and reasonable.

LETTER FROM ICEA

(e) CAP FOR THE PROVISION OF DEPOSIT SERVICE

Set out below is a summary of the Cap for the deposit of money by the Company with the Finance Company from time to time under the Financial Services Agreement during the term of the Financial Services Agreement and the basis of determination of the Cap:

PROVISION OF DEPOSIT SERVICE -----	CAP ---	BASIS OF DETERMINATION OF THE CAP -----
The Cap for the deposit of money with the Finance Company from time to time during the term of the Financial Services Agreement	RMB1 billion	The Cap was determined based on past figures on deposit of money with the Finance Company, and on the estimated amount of money to be deposited with the Finance Company by the Company each year for the term of the Financial Services Agreement. As at 31 December, 2001, 2002 and 2003, the Company had deposits placed with the Finance Company amounted to approximately 1.32 billion, approximately

0.88 billion and
approximately 0.35
billion.

We are given to understand that the low deposit of money by the Company with the Finance Company as at 31 December, 2003 was mainly due to material adverse impact caused by the outbreak of severe acute respiratory syndrome on the business operations of the Company during the first half of 2003.

We are of the view that the Cap for the deposit of money by the Company with the Finance Company which is determined based on the past figures on deposit of money with the Finance Company, and on the estimated amount of money to be deposited with the Finance Company by the Company each year for the term of the Financial Services Agreement to be fair and reasonable.

SUMMARY

Having considered the above principal factors and reasons, we draw your attention to the following key factors in arriving at our opinion:

- (a) the Acquisition represents an attractive opportunity for the Listed Group to consolidate its strong market position as both Northern Airlines and Xinjiang Airlines are leading airlines in their respective operating regions;

-46-

LETTER FROM ICEA

- (b) the Board's representation that the terms of the Sale and Purchase Agreement and the Financial Services Agreement were negotiated on an arm's length basis;
- (c) the provisional amount of the consideration of the Acquisition was determined based on the valuation of the Business and Assets, and the Debts set out in the Zhong Qi Hua Valuation Reports and will be subject to adjustment and finalisation based on the book value of the Business and Assets, and of the Debts as of the Effective Date;
- (d) the consideration for the Acquisition is within the range of the valuation of Aviation Comparables and slightly below the average of the valuation of PRC Aviation Comparables;
- (e) notwithstanding the gearing level of the Listed Group would be increased substantially and the financial burden of the Company would be increased as a result of the Acquisition, the Acquisition will bring various benefits to the Listed Group, including broadening its flight network, enhancing its international air transportation business, increasing its fleet size and transportation capacity, enhancing its air ticket sales network; strengthening its marketing efforts; reducing its operating costs and boosting its overall efficiency, which we consider is beneficial to the Group in the long run;
- (f) the representations made by the Directors that the Provision of Deposit Service have been and will continue to be conducted in the ordinary and usual course of business, on normal commercial terms, and the terms have been determined after arm's length negotiation

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

between the parties;

- (g) the waiver from strict compliance with the Listing Rules with respect to the Provision of Deposit Service will be subject to the satisfaction of various conditions, including that: (i) the transactions have been approved by the Independent Shareholders; (ii) the transactions will be entered into in the ordinary and usual course of business and on normal commercial terms that are fair and reasonable in so far as the Independent Shareholders are concerned; (iii) the Company shall disclose in its annual reports sufficient details of the transactions; (iv) the independent non-executive Directors of the Company review the transactions annually; (v) the Company's auditors review the transactions annually; and (vi) the value of Provision of Deposit Service does not exceed RMB1 billion; and
- (h) the Stock Exchange has indicated that if the value of the Provision of Deposit Service exceeds RMB1 billion or if any of the terms of the Financial Services Agreement, or the nature of the Provision of Deposit Service is altered or if the Company entered into any new agreements with connected persons in the future, the Company will need to comply fully with all the relevant provisions of Chapter 14A of the Listing Rules.

LETTER FROM ICEA

RECOMMENDATION

Having considered the above principal factors and reasons and the terms of the Sale and Purchase Agreement and the Financial Services Agreement, we consider that the terms of the Acquisition and the Provision of Deposit Service, from a financial perspective, to be fair and reasonable so far as the Independent Shareholders are concerned and are in the interests of the Company as a whole. We urge the Independent Shareholders to note that as a result of the Acquisition, the gearing level of the Group would be increased substantially, which could have an adverse impact on the financial position of the Group as well as short term share price performance of the Company. However, as the Acquisition will bring various benefits to the Listed Group as mentioned in the Letter from the Board, we consider the Acquisition is beneficial to the Listed Group in the long run. Accordingly, we advise the Independent Board Committee to recommend the Independent Shareholders to vote in favour of ordinary resolutions numbered 1 and 6 as detailed in the notice of the EGM set out at the end of the Circular.

Yours faithfully,
For and on behalf of
ICEA CAPITAL LIMITED

INFORMATION REGARDING THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP AND XINJIANG AIRLINES GROUP

(1) INDUSTRY BACKGROUND

The civil aviation industry in China has experienced rapid growth over the

past decade. According to the National Bureau of Statistics of China, annual passenger number grew from 17 million in 1990 to 88 million in 2003, with a compound annual growth rate of approximately 14%. Air cargo volume also grew from 370 thousand tonnes in 1990 to 2 million tonnes in 2003, with a compound annual growth rate of approximately 15%. The total number of China's aviation routes also increased from 437 in 1990 to 1,176 by the end of 2003.

APPENDIX I

INFORMATION REGARDING THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP AND XINJIANG AIRLINES GROUP

Since the early 1990's, the Chinese government has begun to separate its function as regulator of the PRC civil aviation industry from its business management role at the major state-owned PRC airlines. As a result, CAAC ceased its participation in airline operations but still continues to exercise authority as the PRC civil aviation industry regulator. CAAC's regulatory roles include developing rules and regulations for the PRC civil aviation industry, directing the restructuring of the PRC airlines, enforcing flight safety rules and standards, managing air traffic, regulating air ticket prices, and overseeing aviation negotiations with foreign parties.

During the restructuring of the PRC airlines in 2002, the airlines previously under the control of CAAC were reorganized under three holding company groups. These three holding company groups were: (i) China National Aviation Holding Company including Air China Limited, China National Aviation Corporation, and China Southwest Airlines with main bases in Beijing, Hangzhou, and Chengdu; (ii) China Eastern Air Holding Company consisting of China Eastern Airlines Corporation Limited, China Eastern Yunnan Airlines, and China Eastern Northwest Airlines with main bases in Shanghai, Kunming, and Xian; and (iii)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

CSAHC, the largest of the three holding companies, comprising the Company, Northern Airlines, and Xinjiang Airlines, with main bases in Guangzhou, Shenyang, and Urumqi.

Despite strong growth during the 1990's, PRC civil aviation industry suffered from the significant negative effects arising from the 911 attacks in 2001 and the outbreak of Severe Acute Respiratory Syndrome in early 2003. These negative effects included lower revenue from reduced passenger and cargo traffic and higher operating costs due to the increased cost of aviation insurance and the heightened security and health precautions. Traffic volumes have been recovering since Severe Acute Respiratory Syndrome was brought under control in July 2003.

-50-

APPENDIX I

INFORMATION REGARDING THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP AND XINJIANG AIRLINES GROUP

In the post Severe Acute Respiratory Syndrome period, PRC civil aviation industry demonstrated strong growth on the back of solid economic expansion and a significant increase in commercial and leisure travel activities. On a year-to-August basis, 2004 is the strongest year for China's airlines with record turnover in both passenger and freight transportation.

As shown in the above charts, in the first eight months of 2004, passenger turnover and RPKs (a measurement for distance that passengers travel), reached a record of 80 million and 117 billion respectively compared to the same period of the previous years. In the same period, cargo turnover also surpassed historical levels, reaching 1.74 million tonnes.

APPENDIX I

INFORMATION REGARDING THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP AND XINJIANG AIRLINES GROUP

(2) OVERVIEW OF THE TARGET GROUP

Northern Airlines was established on 19 October, 1990 following its separation from the Shenyang Bureau of the CAAC. Xinjiang Airlines, which began operations on 1 January, 1985, was formally separated in 2001 from the Urumqi Regional Bureau of the CAAC.

As part of the restructuring initiative of the PRC civil aviation industry in late 2002, Southern Airlines (Group), Northern Airlines and Xinjiang Airlines were restructured and consolidated into CSAHC.

Both Northern Airlines Group and Xinjiang Airlines Group are the leading airlines in their respective regions, offering passenger and cargo air transportation and other related services.

(a) KEY OPERATING DATA

Passenger and cargo air transportation are Northern Airlines Group's principal businesses. However, due to its lack of freight aircraft, Northern Airlines Group relies heavily on its passenger air transportation business. In 2003, revenues generated from passenger air transportation business accounted for approximately 93% of the total revenues while those from cargo services accounted for approximately 7%. Northern Airlines Group also provides aircraft maintenance and repair, and other aviation related services.

In the past three and a half years, Northern Airlines Group's passenger air transportation business continued to improve with overall passenger load factor increasing from 60% for 2001 to 67% for the first six months of 2004 and passenger yield per RPK rising from RMB0.58 for 2001 to RMB0.61 for the first six months of 2004. The cargo transportation business also showed material improvement with cargo yield per RFTK increasing 12% from RMB1.90 for year 2001 to RMB2.13 for the first six months of 2004. Key operating benchmarks of Northern Airlines Group from 2001 to the first half of 2004 are summarized as follows:

Passenger and cargo air transportation are Xinjiang Airlines Group's principal businesses. In 2003, passenger air transportation business generated 96% of total revenues with freight transportation business accounting for 4%.

Xinjiang Airlines Group has managed to improve its domestic passenger load factor to 66% in the first half of 2004 from 59% in 2001. Passenger traffic as measured by RPK has also increased over the past three years. However, passenger yields suffered in 2003 and first half of 2004 due to increased competition. INFORMATION REGARDING THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP AND XINJIANG AIRLINES GROUP

SHENYANG:

Taoxian Airport, located 22 kilometers south of Shenyang, was opened on 10 April, 1989. In the first half of 2004, Northern Airlines Group's passenger and cargo turnover at Taoxian Airport accounted for 25% and 28% of its total passenger and cargo turnover respectively.

The airport has a 3,200 meter runway, and is equipped with modern communication and navigation systems. Taoxian Airport is

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

owned and operated by Shenyang Taoxian Airport Limited, which estimates that Taoxian Airport handled approximately 31,400 landings, three million passengers and 88,000 tonnes cargo for the year 2003, making it one of the busiest airports in Northeastern China.

DALIAN:

Dalian Zhoushuizi Airport is located 10 kilometers northwest of Dalian. The airport handled 26% of the passenger turnover and 29% of the cargo turnover of Northern Airlines Group in the first half of 2004.

Opened on 6 April, 1973, Zhoushuizi Airport is the busiest airport in Northeastern China. The airport is owned and operated by Dalian Zhoushuizi International Airport Limited. Zhoushuizi Airport has a 3,300 meter runway, and is capable of handling commercial aircraft of all types. According to Dalian Zhoushuizi International Airport Limited, the airport handled 35,248 landings, three million passengers and 74,784 tonnes of cargo in 2003.

HARBIN:

Harbin Taiping Airport is located 33 kilometers northwest of Harbin. In the first half of 2004, the airport handled 16% of passenger turnover and 15% of cargo turnover of Northern Airlines Group.

Opened on 1 September, 1997, Taiping Airport is one of the largest airports in Northeastern China. Taiping Airport has a 3,200 meter runway, and is capable of handling Boeing 767 or equivalent aircraft. According to the airport, it handled 22,093 landings in 2003. Passenger and cargo turnover was two million and 31,300 tonnes respectively for the year.

CHANGCHUN:

Dafangshen Airport is Northern Airlines Group's operational base in Jilin province. Located 11 kilometers west of Changchun, the airport handled 15% of Northern Airlines Group's passenger turnover and 11% of cargo turnover in the first half of 2004.

APPENDIX II ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION

1. PRINCIPAL ACTIVITIES AND REORGANISATION

China Northern Airlines Company ("Northern Airlines") was established on 19 October, 1990 in the People's Republic of China (the "PRC") and is a wholly-owned subsidiary of China Southern Air Holding Company ("CSAHC"), the ultimate holding company of China Southern Airlines Company Limited (the "Company"). Northern Airlines together with its subsidiaries ("Northern Airlines Group") is principally engaged in the provision of domestic and international passenger, cargo and mail airline services, with flights operating primarily

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

from Shenyang Tao Xian International Airport which is the main base of Northern Airlines in the PRC. In addition, Northern Airlines Group also engages in other non airline related operations (the "Non Airline Operations") mainly consisting of hotel and property operations which provide social and supporting services to Northern Airlines Group.

CSAHC has undergone a reorganisation (the "Reorganisation") in connection with the proposed acquisition of the airline and airline related operations (the "Airline Operations") of Northern Airlines Group by the Company (the "Acquisition"). As part of the Reorganisation, the operations and businesses and the assets and liabilities of Northern Airlines Group were segregated into two operations, namely the Airline Operations and the Non Airline Operations on 31 December, 2003.

Pursuant to the Sale and Purchase Agreement, as described more fully in the section headed "The Sale and Purchase Agreement" in the letter from the Board contained in the Circular, the Company will acquire the Airline Operations of Northern Airlines Group together with the related assets and liabilities. However, certain assets and liabilities within the Airline Operations of Northern Airlines Group are not to be acquired by the Company.

2. BASIS OF PRESENTATION

The Financial Information for each of the years in the three-year period ended 31 December, 2003 and for the six-month period ended 30 June, 2004 presents the results of the Airline Operations of Northern Airlines Group as if the Reorganisation had taken place and the Airline Operations of Northern Airlines Group had been in operation on a stand alone basis as of the earliest date presented and had been in existence throughout the relevant period. The Financial Information for each of the years in the three-year period ended 31 December, 2003 includes the results related to those assets and liabilities that were not to be acquired by the Company, but were historically associated with the Airline Operations of Northern Airlines Group. As at 31 December, 2003, the assets and liabilities not to be acquired by the Company consisted of the following:

	RMB'000

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE
AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

2. BASIS OF PRESENTATION (Continued)

The assets and liabilities within the Airline Operations of Northern Airlines Group not to be acquired by the Company on 31 December, 2003 was reflected as net liabilities assumed by owner of Northern Airlines in the combined statements of owner's fund as at 31 December, 2003.

As a result of the assumption of the above net liabilities as at 31 December, 2003 by the owner, the Financial Information for the six-month period ended 30 June, 2004 presents the results of the assets and liabilities, revenues and expenses of the Airline Operations of Northern Airlines Group to be acquired by the Company.

Notwithstanding the Airline Operations of Northern Airlines Group having net current liabilities as at 30 June, 2004, the Financial Information has been prepared on a going concern basis on the assumption that the Airline Operations of Northern Airlines Group will be able to generate adequate cash flows from operations and to obtain adequate external financing to enable the Airline Operations of Northern Airlines Group to meet its debts as they fall due and to meet its committed future capital expenditure (see Note 26).

3. PRINCIPAL ACCOUNTING POLICIES

(a) STATEMENT OF COMPLIANCE

The Financial Information has been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board. IFRS includes International Accounting Standards ("IAS") and interpretations.

(b) BASIS OF PREPARATION

The Financial Information is prepared on the historical cost basis as modified by the revaluation of property, plant and equipment, as explained in Note 10. The accounting policies described below have been consistently applied during the relevant period.

(c) BASIS OF CONSOLIDATION

A subsidiary is an enterprise controlled by the Airline Operations of Northern Airlines. Control exists when the Airline Operations of Northern Airlines has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities.

The financial results of subsidiaries are included in the Financial Information from the date that control commences until the date that control ceases, and the share attributable to minority interests is deducted from or added to the profit/loss after income tax. All significant intercompany balances and transactions and any unrealised gains/losses arising from intercompany transactions are eliminated on consolidation.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The particulars of the subsidiary are set out in Note 28.

-74-

APPENDIX II

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE
AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(d) PROPERTY, PLANT, EQUIPMENT AND DEPRECIATION

- (i) Property, plant and equipment are initially stated at cost less accumulated depreciation and impairment losses (see Note (f)). The cost of an asset comprises its purchase price, any directly attributable costs of bringing the asset to working condition and location for its intended use and the cost of borrowed funds used during the period of construction. Expenditure incurred after the asset has been put into operation is capitalised only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure including the cost of repairs and maintenance, is expensed as it is incurred.
- (ii) Subsequent to the revaluation carried out as at 31 December, 2003, which was based on depreciated replacement costs (Note 10), property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation, less subsequent accumulated depreciation and impairment losses. When an item of property, plant and equipment is revalued, any accumulated depreciation and impairment losses at the date of revaluation is eliminated against the gross carrying amount of the asset and the net asset restated to the revalued amount of the asset. When an item of property, plant and equipment is revalued, the entire class of property, plant and equipment to which the asset belongs is revalued simultaneously. When an asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to owner's fund. However, a revaluation increase is recognised as an income to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense. When an asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised as an expense in the combined statements of operations. However, a revaluation decrease is charged directly against owner's fund to the extent that the decrease does not exceed the amount previously credited to owner's fund in respect of the same asset. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date.
- (iii) Gains or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the combined statements of operations on the date of retirement or disposal.
- (iv) Depreciation is calculated to write off the cost, or revalued

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

amount, where appropriate, of property, plant and equipment on a straight line basis over their estimated useful lives, to residual values, using the following depreciation rates:

	DEPRECIATION RATES

Buildings	2.43% - 6.17%
Owned and finance leased aircraft	4.75% - 9.70%
Other flight equipment	
- Jet engines	4.75% - 9.70%
- Others, including rotatable spares	9.79% - 12.13%
Machinery and equipment	9.70% - 11.40%
Vehicles	16.17%

APPENDIX II ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(e) LEASED ASSETS

Flight equipment under finance leases is stated at an amount equal to the lower of its fair value and the present value of minimum lease payments at inception of the lease, and is amortised on a straight line basis over the shorter of the lease term or estimated useful life of the asset to residual value. In cases where title to the asset will be acquired by the Airline Operations of Northern Airlines Group at the end of the lease, the asset is amortised on a straight line basis over the estimated useful life of the asset to its residual value.

Amounts payable in respect of finance leases are apportioned between charges and reductions of obligations based on the interest rates implicit in the leases. Interest charges are included in the combined statements of operations to provide a constant periodic rate of charge over the lease term.

Gains or losses on aircraft sale and leaseback transactions which result in finance leases are deferred and amortised over the terms of the related leases. Gains or losses on other aircraft sale and leaseback transactions are recognised immediately if the transactions are established at fair value. Any difference between the sales price and the fair value is deferred and amortised over the period the assets are expected to be used.

Operating lease payments are charged to the combined statements of operations on a straight line basis over the terms of the related leases.

(f) IMPAIRMENT OF ASSETS

The carrying amounts of the assets, other than inventories (see Note (j)), trade and other receivables (see Note (k)) and deferred tax assets (see Note (n)), of the Airline Operations of Northern Airlines Group are reviewed periodically in order to assess whether the recoverable amounts

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the combined statements of operations.

The Airline Operations of Northern Airlines Group assesses at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

(g) CONSTRUCTION IN PROGRESS

Construction in progress is stated in the combined balance sheets at cost less impairment losses (see Note (f)). Cost comprises direct costs of construction as well as interest expense and exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charge during the periods of construction and installation.

Capitalisation of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all the activities necessary to prepare the asset for its intended use are completed. No depreciation is provided in respect of construction in progress until it is completed and ready for its intended use.

(h) LEASE PREPAYMENTS

Lease prepayments represent the purchase costs of land use rights and are amortised on a straight line basis over the period of land use rights.

-76-

APPENDIX II

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(i) INVESTMENTS

Investments, which represent unquoted available-for-sale equity securities of companies established in the PRC, are stated at cost less impairment losses (see Note (f)). There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

(j) INVENTORIES

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal are stated at the lower of cost and net realisable value. Net realisable value represents estimated resale price.

(k) TRADE AND OTHER RECEIVABLES

Trade and other receivables are stated at cost less provision for doubtful accounts. Provision for doubtful accounts is established based on evaluation of the recoverability of these accounts at the balance sheet date.

(l) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and balance with banks and other financial institutions with an original maturity within three months. Cash equivalents are stated at cost, which approximates fair value.

(m) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised at cost.

(n) INCOME TAXES

Income tax comprises current and deferred tax. Current tax is calculated on the taxable income for the relevant period by applying the applicable tax rates.

Deferred tax is provided using the balance sheet liability method, providing for all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) DEFERRED CREDIT

Cash benefit received under finance lease arrangements is initially deferred and amortised over the terms of the respective leases to reduce the future finance lease charges.

-77-

APPENDIX II

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(p) PROVISIONS AND CONTINGENT LIABILITIES

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Provisions are recognised for liabilities of uncertain timing or amount when the Airline Operations of Northern Airlines Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(q) REVENUE RECOGNITION

- (i) Passenger, cargo and mail transportation revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities. Revenues from airline-related business are recognised when services are rendered.

Revenue is stated net of sales tax. In addition, revenue for each of the years in the three-year period ended 31 December, 2003 and the three-month period ended 31 March, 2004 was stated net of contributions to the Civil Aviation Administration of China ("CAAC") Infrastructure Development Fund. Effective from 1 April, 2004, contributions to the CAAC Infrastructure Development Fund form part of the flight operations expenses instead of being netted off with revenue.

- (ii) Interest income is recognised as it accrues unless collectability is in doubt.
- (iii) Operating lease income is recognised on a straight line basis over the terms of the respective leases.

(r) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded in the combined balance sheets as prepaid expense.

(s) MAINTENANCE AND OVERHAUL COST

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed in the combined statements of operations as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of overhauls required to be performed on the related aircraft prior to their return to the lessors.

(t) TRANSLATION OF FOREIGN CURRENCIES

The functional currency of the operations of the Airline Operations of Northern Airlines Group is Renminbi. Foreign currency transactions are translated into Renminbi at the applicable rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Renminbi at the exchange rates ruling at

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

the balance sheet date. Exchange gains and losses, other than those capitalised as construction in progress (See Note (g)), are recognised in the combined statements of operations.

-78-

APPENDIX II ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(v) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(u) BORROWING COSTS

Borrowing costs are expensed in the combined statements of operations in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use (See Note (g)).

(v) RETIREMENT BENEFITS

Contributions to defined contribution retirement schemes made by the Airline Operations of Northern Airlines Group are charged to the combined statements of operations as and when incurred (see Note 25).

(w) RELATED PARTIES

For the purposes of the Financial Information set out below, parties are considered to be related to the Airline Operations of Northern Airlines Group if the Airline Operations of Northern Airlines Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Airline Operations of Northern Airlines Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(x) SEGMENT REPORTING

A segment is a distinguishable component of the Airline Operations of Northern Airlines Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

The Airline Operations of Northern Airlines Group operates principally as a single business segment for the provision of air transportation services. The analysis of operating revenue by geographical segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong) is attributed to the domestic operation. Traffic revenue from inbound/outbound services between the PRC and Hong Kong, and overseas destinations is attributed to the international operation.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services are

* Routes are mainly between the PRC and Hong Kong, Japan, Korea and other Asian countries.

The major revenue-earning assets of the Airline Operations of Northern Airlines Group are its aircraft fleet, most of which are registered in the PRC. Since the aircraft of the Airline Operations of Northern Airlines Group are employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Substantially all of the non-aircraft identifiable assets of the Airline Operations of Northern Airlines Group are located in the PRC.

Note:

- (i) In light of the gradual opening of the aviation market in the PRC and the rapid change of the market price of aircraft during the relevant period, management reviewed the recoverable amount of its aircraft based on the estimated net cashflows. As a result, impairment losses of approximately RMB433 million and RMB347 million were recorded for the years ended 31 December, 2001 and 2002 respectively to write down the carrying amount of certain aircraft. The impairment losses were recognised in the combined statements of operations.

In addition, in November 2003, the Airline Operations of Northern Airlines entered into agreements with an independent third party to dispose of its twenty-three McDonald Douglas 82 aircraft during the years 2003 to 2007 and then immediately lease back the aircraft under operating leases for a period of one to two years. Accordingly, the Airline Operations of Northern Airlines Group recorded an impairment loss for the year ended 31 December, 2003 of approximately RMB555 million, being the excess of the carrying amount of the aircraft over their recoverable amount as determined based on the agreed selling prices of the aircraft and estimated future cash flows from operating the aircraft prior to their disposals. The impairment loss was recognised in the combined statements of operations.

- (ii) Pursuant to the housing policy executed by the Airline Operations of Northern Airlines Group, the Airline Operations of Northern Airlines Group made payments totalling approximately RMB102 million and RMB3 million to eligible employees in 2001 and 2002 respectively for the purpose of subsidising the employees in purchasing their houses. Management considered that the lump sum payments were one-off in nature and the Airline Operations of Northern Airlines Group has no further obligation in relation to providing lump sum housing subsidies for its employees under PRC regulations.

7. GAIN/(LOSS) ON DISPOSAL OF PROPERTY, PLANT AND EQUIPMENT

On 7 May, 2002, a McDonald Douglas 82 aircraft was crashed and had caused fatalities. Investigations with respect to the accident have been conducted by the CAAC and relevant PRC government departments. However, the results of the investigations have not yet been announced. The aircraft and passenger liabilities were fully insured. The Airline Operations of Northern Airlines Group recognised in the year ended 31 December, 2002 a gain of approximately RMB23 million, being the excess of insurance compensation received from the People's Insurance (Property) Company of China over the aggregate of the carrying amount of the aircraft and certain expenses incurred in connection with the accident.

	=====	=====	=====	=====	=====

Pursuant to the income tax rules and regulations of the PRC, the Airline Operations of Northern Airlines Group is liable to PRC income tax at a rate of 33%.

In respect of the overseas airline activities, the Airline Operations of Northern Airlines Group has either obtained exemptions from overseas taxation pursuant to the bilateral aviation agreements between the overseas governments and the PRC government, or has sustained tax losses in these overseas jurisdictions. Accordingly, no provision for overseas tax has been made for the relevant period.

A reconciliation of the expected tax expense with the actual tax expense is as follows:

8. INCOME TAX (Continued)

- (ii) Amounts mainly represent deferred tax assets in respect of taxable losses, provision for doubtful accounts, and repair charges capitalised which are not recognised. Based on projections for future taxable income, management did not forecast that sufficient taxable profits would arise to utilise these deferred tax assets.
- (iii) Amounts represent tax effects of provision for doubtful accounts made on inter-company balances, of which the corresponding deferred tax asset was not recognised as described in (ii) above. Such provision for doubtful accounts is eliminated on consolidation.
- (iv) Amounts represent tax effects of differences in the recognition of income and expenses in respect of certain inter-company transactions. Such differences in recognition of income and expenses are eliminated on consolidation.

In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Tax Bureau, lease arrangements executed prior to 1 September, 1999 are exempted from PRC withholding tax.

During the relevant period, PRC withholding tax payable in respect of the leases executed on or after 1 September, 1999, which has been included as part of the operating lease charges, are as follows:

All of the buildings of the Airline Operations of Northern Airlines Group are located in the PRC.

As required by the relevant PRC rules and regulations with respect to the Acquisition, the property, plant and equipment of the Airline Operations of Northern Airlines Group as at 31 December, 2003 were revalued for each asset class by China Enterprise Appraisal Co., Ltd. (the "PRC Valuers"), independent valuers registered in the PRC, on a depreciated replacement cost basis. The value of property, plant and equipment of the Airline Operations of Northern Airlines Group as at 31 December, 2003 has been determined at approximately RMB8,845 million. Such amount will serve as the tax base for such assets for future years (see Note 23). Surplus arising from revaluation of certain property, plant and equipment totalling approximately RMB1,176 million has been credited to the owner's fund while deficit arising from the revaluation of certain property, plant and equipment totalling approximately RMB492 million has been charged as an expense for the year ended 31 December, 2003. The net surplus on the revaluation of the property, plant and equipment of approximately RMB684 million has been incorporated in the combined balance sheet of the Airline Operations of Northern Airlines Group as at 31 December, 2003.

10. PROPERTY, PLANT AND EQUIPMENT, NET (Continued)

The properties of the Airline Operations of Northern Airlines Group were also valued separately by Chesterton, independent qualified valuers in Hong Kong, as at 31 December, 2003. The value arrived at by Chesterton was approximately the same as that arrived at by the PRC valuers.

The historical carrying amounts of the property, plant and equipment of the Airline Operations of Northern Airlines Group as at 31 December, 2003 and the revalued amounts of these assets were as follows:

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

	HISTORICAL CARRYING AMOUNT	REVALUATION SURPLUS	REVALUATION DEFICIT	REVALUED AMOUNT
	RMB'000	RMB'000	RMB'000	RMB'000

23. DEFERRED TAXATION (Continued)

- (ii) As described in Note 10, in connection with the Reorganisation and Acquisition, property, plant and equipment of the Airline Operations of Northern Airlines Group were revalued as at 31 December, 2003. Such revalued amount will serve as the tax base for these assets for future years. As a result, the temporary differences that gave rise to the deferred tax assets and liabilities relating to the items above as at 31 December, 2003 were eliminated against owner's fund.

An analysis of the deferred tax assets/(liabilities) which have been eliminated against owner's fund is set out below:

(iii) In connection with the Reorganisation and Acquisition, inventories of the Airline Operations of Northern Airlines Group, which as at 31 December, 2003 had a carrying amount of approximately RMB534 million, were revalued as required by the relevant PRC rules and regulations. The revalued amount of inventories has been determined at approximately RMB609 million. Such amount will serve as the tax base for future years. The inventories were not revalued for financial reporting purposes and accordingly, a deferred tax asset of approximately RMB25 million was created with a corresponding increase in owner's fund. Based upon projections of future taxable income, management believes it is more likely than not the Airline Operations of Northern Airlines Group will realise the benefits of the deferred tax asset.

An analysis of the amount of deductible temporary differences for which no deferred tax asset is recognised in the combined balance sheets is set out below:

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

24. RELATED PARTY TRANSACTIONS (Continued)

Note:

- (i) Handling charges represent fees payable to China Aviation Supplies Import and Export Corporation, a corporation controlled by the CAAC, in connection with the procurement of aircraft and flight equipment on behalf of the Airline Operations of Northern Airlines Group. Handling charges are calculated based on a fixed percentage of the purchase value and other charges.
- (ii) Jet fuel supplies represent purchases of jet fuel at the then prevailing state controlled prices from China Aviation Oil Supply Company, Lan Tian Oil Supply Company and certain other suppliers, which are controlled by the CAAC.
- (iii) Aircraft insurance represents insurance premiums payable to the CAAC which arranges aviation insurance covering hull, war and passenger liability risk on behalf of the PRC airlines with the People's Insurance (Property) Company of China. Insurance premiums are allocated to individual PRC airlines by the CAAC based on the value of the airlines' aircraft and after taking into account the claims history of the airlines.
- (iv) Ticket reservation service charges represent fees payable to the CAAC in respect of computer reservation services rendered by the CAAC at charge rates determined based on the utilisation of the computer reservation system.
- (v) Passenger departure and cargo handling charges are payable to the CAAC for use of the computerised passenger departure and cargo handling systems installed at certain PRC airports. The charges are levied based on the utilisation of these systems.
- (vi) Aircraft and traffic service charges represent landing and take-off fees payable to various PRC airports in respect of landing and take-off slots allocated to the Airline Operations of Northern Airlines Group and other ancillary services provided. Fees are payable by the Airline Operations of Northern Airlines Group based on the scale rates published by the CAAC.
- (vii) Commission expense represents commissions payable to CAAC's sales offices and other PRC airlines in connection with services provided in exchange for air tickets sold by them. These commissions are calculated based on a fixed rate ranging from 1.5% to 9% on the ticket value as stipulated by the CAAC.
- (viii) Interest expense represents the interest incurred on certain unsecured loans from CSAHC. The applicable interest rates are in accordance with the rates published by the People's Bank of China (see Note 18).
- (ix) Rentals were paid to CSAHC under lease arrangements for certain land and buildings in the PRC. The rentals are determined based on prevailing market rates.
- (x) Air catering expenses represent purchases of in-flight meals and related services from certain affiliates of CSAHC. Prices charged

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

by these suppliers to the Airline Operations of Northern Airlines Group are similar to those charged to other PRC airlines.

- (xi) Maintenance service income represents the fees received in connection with the provision of aircraft maintenance services to other airlines controlled by the CAAC.
- (xii) Ground service income represents the fees receivable from certain airlines controlled by the CAAC in respect of ground services provided by the Airline Operations of Northern Airlines Group in certain PRC airports.
- (xiii) Aircraft lease income for the years in the two-year period ended 31 December, 2002 represent rentals receivable in respect of short term leasing of aircraft to certain PRC airlines controlled by the CAAC.

Aircraft lease income for the six-month period ended 30 June, 2004 represents rentals receivable in respect of short term leasing of aircraft to a CSAHC's affiliate. The rentals are determined based on prevailing market rates.

- (xiv) Commission income represents commission receivable from certain PRC airlines controlled by the CAAC in connection with air tickets sold by the Airline Operations of Northern Airlines Group for which the carriage was provided by such airlines. Commission is calculated based on a fixed rate ranging from 3% to 9% on the ticket value as stipulated by the CAAC.

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

24. RELATED PARTY TRANSACTIONS (Continued)

Details of loans borrowed from and/or guaranteed by CSAHC and loans guaranteed by the CAAC and its affiliates are disclosed in Note 18.

Management of the Airline Operations of Northern Airlines Group is of the opinion that the above transactions with related parties were entered into in the normal course of business and on normal commercial terms or in accordance with the relevant government regulations governing such transactions.

25. RETIREMENT BENEFITS

Employees of the Airline Operations of Northern Airlines Group participate in several defined contribution retirement schemes organised separately by PRC municipal governments in regions where the major operations of the Airline Operations of Northern Airlines Group are located. The Airline Operations of Northern Airlines Group is required to contribute to these schemes at rates ranging from 14% to 20% of salary costs, including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Airline Operations of Northern Airlines Group are assumed by these schemes. Contributions to the retirement schemes made by the Airline Operations of Northern Airlines Group during the relevant period are as follows:

26. COMMITMENTS AND CONTINGENCIES (Continued)

(i) CAPITAL COMMITMENTS (Continued)

As at 30 June, 2004, the Airline Operations of Northern Airlines Group had on order two Airbus 321-200 aircraft and certain flight equipment, scheduled for deliveries in the second half of 2004 and in 2005. Deposits of approximately RMB185 million have been made towards the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

purchase of these aircraft and related equipment. As at 30 June, 2004, the approximate total future payments, including estimated amounts for price escalation through anticipated delivery dates for these aircraft and related equipment are as follows:

	RMB'000
Payments due	
- within one year	112,025
- in the second year	748,410

	860,435
	=====

(ii) OPERATING LEASE COMMITMENTS

The total future minimum lease payments payable by the Airline Operations of Northern Airlines Group under non-cancellable operating leases in respect of aircraft and flight equipment are payable as follows:

	31 DECEMBER,			30 JUNE,
	2001 RMB'000	2002 RMB'000	2003 RMB'000	2004 RMB'000
Payments due				
- within one year	-	-	92,130	166,408
- in the second to fifth year, inclusive	-	-	1,614,070	1,780,561

			-----	-----
	-	-	5,471,809	5,444,865
	=====	=====	=====	=====

Leases for aircraft and flight equipment are generally run for an initial period of between one to ten years. The rental payments for aircraft and flight equipment are fixed during the lease period. None of the leases includes contingent rentals.

(iii) CONTINGENT LIABILITIES

Pursuant to a purchase agreement dated 6 April, 2000, the Airline Operations of Northern Airlines Group placed a procurement order for certain aircraft with a PRC manufacturer, at a total purchase price of approximately RMB180 million, with deliveries in 2002. In 2002, prior to the deliveries of aircraft, the Airline Operations of Northern Airlines Group decided to terminate the procurement order due to a change of its air fleet requirements. Currently, the Airline Operations of Northern Airlines Group has been working with the manufacturer in getting an appropriate new buyer for the aircraft.

In this connection, a provision for termination charge of approximately RMB17 million was recognised in the combined statement of operations for the year ended 31 December, 2002. The provision made was recorded under sub-item "Others, net" under Non-operating income/(expenses) in the combined statement of operations. Such provision

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

has been arrived at by management of the Airline Operations of Northern Airlines Group after taking into account all relevant information available to the Airline Operations of Northern Airlines Group, including the estimated differences between the purchase prices committed by the Airline Operations of Northern Airlines Group and the purchase prices that may be probably agreed by the new buyer.

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

26. COMMITMENTS AND CONTINGENCIES (Continued)

(iii) CONTINGENT LIABILITIES (Continued)

As part of the Acquisition, CSAHC has agreed to indemnify the Company against any losses caused by the termination of the aircraft procurement order in excess of approximately RMB17 million.

27. CONCENTRATION OF RISKS AND FAIR VALUE OF FINANCIAL INSTRUMENTS

LIQUIDITY RISK

The liquidity of the Airline Operations of Northern Airlines Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due and to renew/refinance these debt obligations where necessary and, on its ability to obtain adequate external loan finance to meet its committed future capital expenditures. With the support of certain PRC banks and CSAHC, the Airline Operations of Northern Airlines Group was able to renew its short term debts and refinance part of its long term debts during the relevant period. With regards to the twelve-month period ending 30 June, 2005, the Airline Operations of Northern Airlines Group has planned to seek the renewals of short term debts amounting to RMB430 million. The Airline Operations of Northern Airlines Group has planned to finance its committed capital expenditures and other financing requirements through available internal funds. Based on the recent negotiations with the principal bankers of the Airline Operations of Northern Airlines Group, management believes that the planned loan renewals will be available to the Airline Operations of Northern Airlines Group.

Management has carried out a detailed review of the cash flow forecast of the Airline Operations of Northern Airlines Group for the twelve-month period ending 30 June, 2005. Based on the results of such review, management has determined that adequate liquidity exists to finance the working capital, debt repayment obligations and capital expenditure requirements of the Airline Operations of Northern Airlines Group during the forecasted period. In preparing the cash flow forecast, management has considered historical cash requirements of the Airline Operations of Northern Airlines Group as well as other key factors, including the availability of the above-mentioned loan renewals which may impact the operations of the Airline Operations of Northern Airlines Group during the next twelve-month period. Management is of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realised.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

BUSINESS AND ECONOMIC RISKS

The Airline Operations of Northern Airlines Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risk not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the political, economic and legal environment, influence of the CAAC over many aspects of its operations, and competition in the passenger, cargo and mail airlines services industry.

INTEREST RATE RISK

The Airline Operations of Northern Airlines Group has significant exposure to interest rate fluctuation as a significant portion of its loans are interest bearing at floating rates. Fluctuation in interest rates affects the results of the Airline Operations of Northern Airlines Group significantly because the Airline Operations of Northern Airlines Group is not able to hedge its interest rate exposure effectively. The interest rates and maturity information of the bank and other loans of the Airline Operations of Northern Airlines Group and the maturity information of the finance lease obligations of the Airline Operations of Northern Airlines Group are disclosed in Notes 18 and 19 respectively.

-106-

APPENDIX II

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

27. CONCENTRATION OF RISKS AND FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

FOREIGN CURRENCY RISK

The Airline Operations of Northern Airlines Group has significant exposure to foreign currency as substantially all of its lease obligations and a significant portion of its bank loans are denominated in foreign currencies, principally US dollars, and to a lesser extent, Japanese yen. Depreciation or appreciation of Renminbi against foreign currencies affects the results of the Airline Operations of Northern Airlines Group significantly because the foreign currency payments of the Airline Operations of Northern Airlines Group significantly exceed its foreign currency receipts. The Airline Operations of Northern Airlines Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, by entering into forward foreign exchange contracts with authorized PRC banks.

CREDIT RISKS

Substantially all of the cash and cash equivalents of the Airline Operations of Northern Airlines Group are deposited with PRC financial institutions.

Prior to 2003, a significant portion of the air tickets of the Airline Operations of Northern Airlines Group were sold by agents participating in the Billing and Settlement Plan ("BSP"), a clearing

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

scheme between airlines and sales agents organised by International Air Transportation Association. As at 31 December, 2001 and 2002, the balance due from BSP agents amounted to approximately RMB77 million and RMB98 million respectively.

Beginning in 2003, a significant portion of the air tickets of the Airline Operations of Northern Airlines Group are sold through the sale network of the Company and flight revenue uplifted by the Airline Operations of Northern Airlines Group is billed and collected from the Company. As at 31 December, 2003 and 30 June, 2004, the receivable due from the Company amounted to approximately RMB186 million and RMB345 million respectively.

SELF INSURANCE RISK

The Airline Operations of Northern Airlines Group maintains a limited amount of property insurance in respect of certain personal and real property.

FAIR VALUE

Financial assets of the Airline Operations of Northern Airlines Group include cash and cash equivalents, other investments, trade receivables, and other receivables and prepaid expenses. Financial liabilities of the Airline Operations of Northern Airlines Group include bank and other loans, obligations under finance leases, other liabilities and accrued expenses and accounts payable. The Airline Operations of Northern Airlines Group did not hold nor issue any financial instruments for trading purposes during the relevant period. The Airline Operations of Northern Airlines Group did not have any positions in derivative contracts as at 31 December, 2001, 2002 and 2003 and 30 June, 2004.

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of IAS 32 "Financial Instruments: Disclosure and Presentation" and IAS 39 "Financial Instruments: Recognition and Measurement". Fair value estimates, methods and assumptions, set forth below for the financial instruments of the Airline Operations of Northern Airlines Group are made solely to comply with the requirements of IAS 32 and IAS 39, and should be read in conjunction with the Financial Information. The estimated fair value amounts have been determined by the Airline Operations of Northern Airlines Group using market information and valuation methodologies considered appropriate. However, considerable judgement is required to interpret market data to develop the estimates of fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Airline Operations of Northern Airlines Group could realise in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

- (V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)
- 27. CONCENTRATION OF RISKS AND FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)
- FAIR VALUE (Continued)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The following summarise the major methods and assumptions used in estimating the fair values of the financial instruments of the Airline Operations of Northern Airlines Group.

Long term debts

The fair values of the long term debts are estimated by discounting future cash flows using current market interest rates offered to the Airline Operations of Northern Airlines Group for debts with substantially the same characteristics and maturities. As at 31 December, 2001, 2002 and 2003 and 30 June, 2004, the carrying amounts and fair values of the long term debts of the Airline Operations of Northern Airlines Group are as follows:

	31 DECEMBER,						30
	2001		2002		2003		2
	CARRYING AMOUNT RMB'000	FAIR VALUE RMB'000	CARRYING AMOUNT RMB'000	FAIR VALUE RMB'000	CARRYING AMOUNT RMB'000	FAIR VALUE RMB'000	CARRYING AMOUNT RMB'000
Long term debts	3,954,438 =====	3,962,240 =====	2,488,595 =====	2,526,135 =====	2,527,112 =====	2,549,524 =====	2,149,127 =====

Other investments

Other investments are unlisted equity interests and there are no quoted market prices for such interests in the PRC. Accordingly, a reasonable estimate of fair value could not be made without incurring excessive costs.

Finance lease obligations

The economic characteristics of the leases of the Airline Operations of Northern Airlines Group vary from lease to lease. It is impractical to compare such leases with those prevailing in the market within the constraints of timeliness and cost for the purpose of estimating the fair value of such leases.

Other financial instruments

The fair values of all other financial instruments approximate their carrying amounts due to the nature or short term maturity of these instruments.

28. SUBSIDIARY

The particulars of the subsidiary of the Airline Operations of Northern Airlines as at 30 June, 2004 are as follows:

The net liabilities assumed by owner of Northern Airlines other than cash and cash equivalents amounted to approximately RMB4,679 million.

30. ULTIMATE HOLDING COMPANY

Management of the Airline Operations of Northern Airlines consider the ultimate holding company to be CSAHC, a state-owned enterprise established in the PRC.

(VI) SUBSEQUENT EVENTS

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

In July 2001, the Airline Operations of Northern Airlines Group filed a claim with a PRC court against a shareholder (the "minority shareholder") of a previous non-wholly owned subsidiary, China Northern Swan Airlines Co. Ltd. ("CNSA") for its failure to contribute capital of approximately RMB62 million to the subsidiary. In 2002, the minority shareholder filed a defence and a counterclaim against the Airline Operations of Northern Airlines Group demanding (i) a monetary compensation of approximately RMB0.3 million plus legal costs; (ii) avoidance of certain transactions conducted by CNSA with the Airline Operations of Northern Airlines Group which could result in losses to the Airline Operations of Northern Airlines Group in the estimated sum of approximately RMB50 million; and (iii) restoration of certain operating lease arrangements for eight McDonald Douglas 82 aircraft previously leased by the Airline Operations of Northern Airlines Group to CNSA.

(VI) SUBSEQUENT EVENTS (CONTINUED)

The Airline Operations of Northern Airlines Group made a provision of approximately RMB32 million in the combined statement of operation for the year ended 31 December, 2002. The provision was recorded under sub-item "Others, net" under Non-operating income/(expenses) in the combined statement of operations. Such provision was arrived at by management of the Airline Operations of Northern Airlines Group after taking into account all relevant information of available to the Airline Operations of Northern Airlines Group.

In August 2004, an out-of-court settlement was reached amongst the parties. Pursuant to the out-of-court settlement agreement, the Airline Operations of Northern Airlines Group paid approximately RMB32 million to the minority shareholder and in return the minority shareholder revoked its counterclaim against the Airline Operations of Northern Airlines Group.

(VII) SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Airline Operations of Northern Airlines Group in respect of any period subsequent to 30 June, 2004.

Dear Sirs,

INTRODUCTION

We set out below our report on the financial information relating to the airline and airline related operations (the "Airline Operations") of Xinjiang Airlines Company ("Xinjiang Airlines") and its subsidiaries ("Xinjiang Airlines Group"), in Sections I to VI below (the "Financial Information"), including the combined balance sheets as at 31 December, 2001, 2002 and 2003 and 30 June, 2004, the combined statements of operations, the combined statements of changes in owner's fund and the combined statements of cash flows for each of the years in the three-year period ended 31 December, 2003 and the six-month period ended 30 June, 2004 (the "relevant period"), and the notes thereto, for inclusion in the shareholders' circular of China Southern Airlines Company Limited (the "Company") dated 12 November, 2004 (the "Circular").

Xinjiang Airlines was established on 1 January, 1985 in the People's Republic of China (the "PRC") and is a wholly-owned subsidiary of China Southern Air Holding Company ("CSAHC"), the ultimate holding company of the Company. It is principally engaged in the provision of domestic and international passenger, cargo and mail airline services, with flights operating primarily from Urumqi International Airport which is the main base of Xinjiang Airlines in the PRC. In addition, Xinjiang Airlines Group also engages in other non airline related operations (the "Non Airline Operations") mainly consisting of property operations which provide supporting services to Xinjiang Airlines Group.

-112-

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

CSAHC has undergone a reorganisation (the "Reorganisation") in connection with the proposed acquisition of the Airline Operations of Xinjiang Airlines Group by the Company. As part of the Reorganisation, the operations and businesses and the assets and liabilities of Xinjiang Airlines Group were segregated into two operations, namely the Airline Operations and the Non Airline Operations on 31 December, 2003.

Pursuant to the Sale and Purchase Agreement, as described more fully in the section headed "The Sale and Purchase Agreement" in the letter from the Board contained in the Circular, the Company will acquire the Airline Operations of Xinjiang Airlines Group together with the related assets and liabilities. However, certain assets within the Airline Operations of Xinjiang Airlines Group are not to be acquired by the Company.

Xinjiang Airlines Group prepares financial statements in accordance with the relevant accounting rules and regulations in the PRC. The financial statements of the Airline Operations of Xinjiang Airlines Group were not

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

required to be audited by independent auditors during the relevant period.

BASIS OF PREPARATION

The Financial Information has been prepared by management of the Airline Operations of Xinjiang Airlines Group based on the management accounts of the Airline Operations of Xinjiang Airline Group and on the bases set out in Section V Notes 2 and 3 to conform with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board and the disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. IFRS includes International Accounting Standards and interpretations.

RESPECTIVE RESPONSIBILITIES OF MANAGEMENT AND REPORTING ACCOUNTANTS

Management of the Airline Operations of Xinjiang Airlines Group are responsible for the preparation of the Financial Information which gives a true and fair view. In preparing the Financial Information which gives a true and fair view, it is fundamental that appropriate accounting policies are selected and applied consistently, that judgements and estimates are made which are prudent and reasonable and that the reasons for any significant departure from applicable accounting standards are stated.

It is our responsibility to form an independent opinion, based on our audit, on the Financial Information.

-113-

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

BASIS OF OPINION

As a basis for forming an opinion on the Financial Information, for the purpose of this report, we have audited the Financial Information of the Airline Operations of Xinjiang Airlines Group for the relevant period in accordance with Statements of Auditing Standards and Guidelines issued by Hong Kong Institute of Certified Public Accountants ("HKICPA") and we have carried out such additional procedures as we considered necessary in accordance with the Auditing Guidelines "Prospectuses and the Reporting Accountant" issued by the HKICPA. We have not audited any financial statements of the Airline Operations of Xinjiang Airlines Group in respect of any period subsequent to 30 June, 2004.

An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the Financial Information. It also includes an assessment of the significant estimates and judgements made by management of the Airline Operations of Xinjiang Airlines Group in the preparation of the Financial Information, and of whether the accounting policies are appropriate to the circumstances of the Airline Operations of Xinjiang Airlines Group, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the Financial Information is free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of Financial Information. We believe that our audit provides a reasonable basis for our opinion.

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION

1. PRINCIPAL ACTIVITIES AND REORGANISATION

Xinjiang Airlines Company ("Xinjiang Airlines") was established on 1 January, 1985 in the People's Republic of China (the "PRC") and is a wholly-owned subsidiary of China Southern Air Holding Company ("CSAHC"), the ultimate holding company of China Southern Airlines Company Limited (the "Company"). Xinjiang Airlines together with its subsidiaries ("Xinjiang Airlines Group") is principally engaged in the provision of domestic and international passenger, cargo and mail airline services, with flights operating primarily from Urumqi International Airport which is the main base of Xinjiang Airlines in the PRC. In addition, Xinjiang Airlines Group also engages in other non airline related operations (the "Non Airline Operations") mainly consisting of property operations which provide supporting services to Xinjiang Airlines Group.

CSAHC has undergone a reorganisation (the "Reorganisation") in connection with the proposed acquisition of the airline and airline related operations (the "Airline Operations") of Xinjiang Airlines Group by the Company (the "Acquisition"). As part of the Reorganisation, the operations and businesses and the assets and liabilities of Xinjiang Airlines Group were segregated into two operations, namely the Airline Operations and the Non Airline Operations on 31

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

December, 2003.

Pursuant to the Sale and Purchase Agreement, as described more fully in the section headed "The Sale and Purchase Agreement" in the letter from the Board contained in the Circular, the Company will acquire the Airline Operations of Xinjiang Airlines Group together with the related assets and liabilities. However, certain assets within the Airline Operations of Xinjiang Airlines Group are not to be acquired by the Company.

2. BASIS OF PRESENTATION

The Financial Information for each of the years in the three-year period ended 31 December, 2003 and for the six-month period ended 30 June, 2004 presents the results of the Airline Operations of Xinjiang Airlines Group as if the Reorganisation had taken place and the Airline Operations of Xinjiang Airlines Group had been in operation on a stand alone basis as of the earliest date presented and had been in existence throughout the relevant period. The Financial Information for each of the years in the three-year period ended 31 December, 2003 includes the results related to those assets that were not to be acquired by the Company, but were historically associated with the Airline Operations of Xinjiang Airlines Group. As at 31 December, 2003, the assets not to be acquired by the Company consisted of the following:

	RMB'000
Property, plant and equipment, net	46,272
Trade and other receivables	1,530

Assets distributed to owner	47,802
	=====

The assets within the Airline Operations of Xinjiang Airlines Group not to be acquired by the Company on 31 December, 2003 were reflected as assets distributed to owner of Xinjiang Airlines in the combined statements of owner's fund as at 31 December, 2003.

As a result of the distribution of the above assets as at 31 December, 2003 to the owner, the Financial Information for the six-month period ended 30 June, 2004 presents the results of the assets and liabilities, revenues and expenses of the Airline Operations of Xinjiang Airlines Group to be acquired by the Company.

Notwithstanding the Airline Operations of Xinjiang Airlines Group having net current liabilities as at 30 June, 2004, the Financial Information has been prepared on a going concern basis on the assumption that the Airline Operations of Xinjiang Airlines Group will be able to generate adequate cash flows from operations and to obtain adequate external financing to enable the Airline Operations of Xinjiang Airlines Group to meet its debts as they fall due and to meet its committed future capital expenditure (see Note 22).

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

3. PRINCIPAL ACCOUNTING POLICIES

(a) STATEMENT OF COMPLIANCE

The Financial Information has been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board. IFRS includes International Accounting Standards ("IAS") and interpretations.

(b) BASIS OF PREPARATION

The Financial Information is prepared on the historical cost basis as modified by the revaluation of property, plant and equipment, as explained in Note 9. The accounting policies described below have been consistently applied during the relevant period.

(c) BASIS OF CONSOLIDATION

A subsidiary is an enterprise controlled by the Airline Operations of Xinjiang Airlines. Control exists when the Airline Operations of Xinjiang Airlines has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities.

The financial results of subsidiaries are included in the Financial Information from the date that control commences until the date that control ceases, and the share attributable to minority interests is deducted from or added to the profit/loss after income tax. All significant intercompany balances and transactions and any unrealised gains and losses arising from intercompany transactions are eliminated on consolidation.

The particulars of the principal subsidiaries are set out in Note 24.

(d) PROPERTY, PLANT, EQUIPMENT AND DEPRECIATION

- (i) Property, plant and equipment are initially stated at cost less accumulated depreciation and impairment losses (see Note (f)). The cost of an asset comprises its purchase price, any directly attributable costs of bringing the asset to working condition and location for its intended use and the cost of borrowed funds used during the period of construction. Expenditure incurred after the asset has been put into operation is capitalised only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure including the cost of repairs and maintenance, is expensed as it is incurred.
- (ii) Subsequent to the revaluation carried out as at 31 December, 2003, which was based on depreciated replacement costs (Note 9), property, plant and equipment are carried at revalued amount, being the fair value at the date of the revaluation, less subsequent accumulated depreciation and impairment losses. When an item of property, plant and equipment is revalued, any accumulated depreciation and impairment losses at the date of revaluation is eliminated against the gross carrying amount of the asset and the net asset restated to the revalued amount of the asset. When an item of property, plant and equipment is revalued, the entire class of property, plant and equipment to which the asset belongs is revalued

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

simultaneously. When an asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to owner's fund. However, a revaluation increase is recognised as an income to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense. When an asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised as an expense in the combined statements of operations. However, a revaluation decrease is charged directly against owner's fund to the extent that the decrease does not exceed the amount previously credited to owner's fund in respect of the same asset. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date.

-121-

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(d) PROPERTY, PLANT, EQUIPMENT AND DEPRECIATION (Continued)

(iii) Gains or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the combined statements of operations on the date of retirement or disposal.

(iv) Depreciation is calculated to write off the cost, or revalued amount, where appropriate, of property, plant and equipment on a straight line basis over their estimated useful lives, to residual values, using the following depreciation rates:

	DEPRECIATION RATES

BUILDINGS	2.43% - 6.17%
Owned and finance leased aircraft	4.75% - 12.13%
Other flight equipment	
- Jet engines	4.75% - 12.13%
- Others, including rotatable spares	9.79% - 12.13%
Machinery and equipment	9.70% - 11.40%
Vehicles	16.17%

(e) LEASED ASSETS

Flight equipment under finance leases is stated at an amount equal to the lower of its fair value and the present value of minimum lease payments at inception of the lease, and is amortised on a straight line basis over the shorter of the lease term or estimated useful life of the asset to residual value. In cases where title to the asset will be

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

acquired by the Airline Operations of Xinjiang Airlines Group at the end of the lease, the asset is amortised on a straight line basis over the estimated useful life of the asset to its residual value.

Amounts payable in respect of finance leases are apportioned between charges and reductions of obligations based on the interest rates implicit in the leases. Interest charges are included in the combined statements of operations to provide a constant periodic rate of charge over the lease term.

Operating lease payments are charged to the combined statements of operations on a straight line basis over the terms of the related leases.

(f) IMPAIRMENT OF ASSETS

The carrying amounts of the assets, other than inventories (see Note (i)), trade and other receivables (see Note (j)) and deferred tax assets (see Note (m)) of the Airline Operations of Xinjiang Airlines Group, are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the combined statements of operations.

The Airline Operations of Xinjiang Airlines Group assesses at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

-122-

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(g) CONSTRUCTION IN PROGRESS

Construction in progress is stated in the combined balance sheets at cost less impairment losses (see Note (f)). Cost comprises direct costs of construction as well as interest expense and exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charge during the periods of construction and installation.

Capitalisation of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all the activities necessary to prepare the asset for its

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

intended use are completed. No depreciation is provided in respect of construction in progress until it is completed and ready for its intended use.

(h) INVESTMENTS

Investments, which represent unquoted available-for-sale equity securities of companies established in the PRC, are stated at cost less impairment losses (see Note (f)). There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

(i) INVENTORIES

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal are stated at the lower of cost and net realisable value. Net realisable value represents estimated resale price.

(j) TRADE AND OTHER RECEIVABLES

Trade and other receivables are stated at cost less provision for doubtful accounts. Provision for doubtful accounts is established based on evaluation of the recoverability of these accounts at the balance sheet date.

(k) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and balance with banks and other financial institutions with an original maturity within three months. Cash equivalents are stated at cost, which approximates fair value.

(l) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised at cost.

(m) INCOME TAXES

Income tax comprises current and deferred tax. Current tax is calculated on the taxable income for the relevant period by applying the applicable tax rates.

Deferred tax is provided using the balance sheet liability method, providing for all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(n) PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised for liabilities of uncertain timing or amount when the Airline Operations of Xinjiang Airlines Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(o) REVENUE RECOGNITION

- (i) Passenger, cargo and mail transportation revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities. Revenues from airline-related business are recognised when services are rendered.

Revenue is stated net of sales tax. In addition, revenue for each of the years in the three-year period ended 31 December, 2003 and the three-month period ended 31 March, 2004 was stated net of contributions to the Civil Aviation Administration of China ("CAAC") Infrastructure Development Fund. Effective from 1 April, 2004, contributions to the CAAC Infrastructure Development Fund form part of the flight operations expenses instead of being netted off with revenue.

- (ii) Interest income is recognised as it accrues unless collectability is in doubt.
- (iii) Operating lease income is recognised on a straight line basis over the terms of the respective leases.

(p) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded in the combined balance sheets as prepaid expense.

(q) MAINTENANCE AND OVERHAUL COST

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed in the combined statements of operations as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of overhauls required to be performed on the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

related aircraft prior to their return to the lessors.

(r) TRANSLATION OF FOREIGN CURRENCIES

The functional currency of the operations of the Airline Operations of Xinjiang Airlines Group is Renminbi. Foreign currency transactions are translated into Renminbi at the applicable rates of exchange ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Renminbi at the exchange rates ruling at the balance sheet date. Exchange gains and losses, other than those capitalised as construction in progress (See Note (g)), are recognised in the combined statements of operations.

(s) BORROWING COSTS

Borrowing costs are expensed in the combined statements of operations in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use (See Note (g)).

-124-

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

3. PRINCIPAL ACCOUNTING POLICIES (Continued)

(t) RETIREMENT BENEFITS

Contributions to defined contribution retirement schemes made by the Airline Operations of Xinjiang Airlines Group are charged to the combined statements of operations as and when incurred (see Note 21).

(u) RELATED PARTIES

For the purposes of the Financial Information set out below, parties are considered to be related to the Airline Operations of Xinjiang Airlines Group if the Airline Operations of Xinjiang Airlines Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Airline Operations of Xinjiang Airlines Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

(v) SEGMENT REPORTING

A segment is a distinguishable component of the Airline Operations of Xinjiang Airlines Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

The Airline Operations of Xinjiang Airlines Group operates principally as a single business segment for the provision of air transportation services. The analysis of operating revenue by geographical

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong) is attributed to the domestic operation. Traffic revenue from inbound/outbound services between the PRC and Hong Kong, and overseas destinations is attributed to the international operation.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services are attributed on the basis of where the services are performed.

(w) USE OF ESTIMATES

The preparation of the Financial Information in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at 31 December, 2001, 2002 and 2003 and 30 June, 2004 and the reported amounts of revenues and expenses during the relevant period. Actual results could differ from those estimates.

4. OPERATING REVENUE

Operating revenue comprises revenues from airline and airline related business and is stated net of sales tax. In addition, the operating revenue for each of the years in the three-year period ended 31 December, 2003 and the three-month period ended 31 March, 2004 was stated net of contributions to the CAAC Infrastructure Development Fund. 4. OPERATING REVENUE (Continued)

Pursuant to various sales tax rules and regulations, the Airline Operations of Xinjiang Airlines Group is required to pay sales tax to national and local tax authorities at the following rates during the relevant period:

TYPES OF REVENUE	APPLICABLE SALES TAX RATES
-----	-----
Traffic revenue	3% of traffic revenue in respect of domestic flights and international outbound flights during the relevant period, except for the period from 1 May, 2003 to 31 December, 2003, during which passenger revenue was exempted from sales tax.
Other operating revenue	3% of commission income, general aviation income and ground services income, and 3% to 5% of other operating revenue.

The amount of sales tax incurred during the relevant period is as follows:

	YEARS ENDED 31 DECEMBER,			SIX-MONTH PERIODS	
	2001	2002	2003	2003	2004

* Routes are mainly between the PRC and Hong Kong, Pakistan and Russia.

The major revenue-earning assets of the Airline Operations of Xinjiang Airlines Group are its aircraft fleet, most of which are registered in the PRC. Since the aircraft of the Airline Operations of Xinjiang Airlines Group are employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Substantially all of the non-aircraft identifiable assets of the Airline Operations of Xinjiang Airlines Group are located in the PRC.

		35,782	9,492	(155,808)	(95,258)	(24,000)

Notes:

- (i) Non-deductible expenses mainly represent personnel and other miscellaneous expenses in excess of statutory deductible limits for taxation purpose.
- (ii) Amounts represent tax effects of differences in the recognition of income and expenses in respect of certain inter-company transactions. Such differences in recognition of income and expenses are eliminated on consolidation.

In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Tax Bureau, lease arrangements executed prior to 1 September, 1999 are exempted from PRC withholding tax.

During the relevant period, PRC withholding tax payable in respect of the leases executed on or after 1 September, 1999, which has been included as part of the operating lease charges, are as follows:

(the "PRC Valuers"), independent valuers registered in the PRC, on a depreciated replacement cost basis. The value of property, plant and equipment of the Airline Operations of Xinjiang Airlines Group as at 31 December, 2003 has been determined at approximately RMB4,141 million. Such amount will serve as the tax base for such assets for future years (see Note 19). Surplus arising from revaluation of certain property, plant and equipment totalled approximately RMB237 million. The amount of approximately RMB227 million, net of minority interests' share of approximately RMB10 million, has been credited to the owner's fund. Deficit arising from the revaluation of certain property, plant and equipment totalling approximately RMB235 million has been charged as an expense for the year ended 31 December, 2003. The net surplus on the revaluation of the property, plant and equipment of approximately RMB2 million has been incorporated in the combined balance sheet of the Airline Operations of Xinjiang Airlines Group as at 31 December, 2003.

The properties of the Airline Operations of Xinjiang Airlines Group were also valued separately by Chesterton, independent qualified valuers in Hong Kong, as at 31 December, 2003. The value arrived at by Chesterton was approximately the same as that arrived at by the PRC valuers.

20. RELATED PARTY TRANSACTIONS (Continued)

Notes:

- (i) Handling charges represent fees payable to China Aviation Supplies Import and Export Corporation, a corporation controlled by the CAAC, in connection with the procurement of aircraft and flight equipment on behalf of the Airline Operations of Xinjiang Airlines Group. Handling charges are calculated based on a fixed percentage of the purchase value and other charges.
- (ii) Jet fuel supplies represent purchases of jet fuel at the then prevailing state controlled prices from China Aviation Oil Supply Company, Lan Tian Oil Supply Company and certain other suppliers, which are controlled by the CAAC.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

- (iii) Aircraft insurance represents insurance premiums payable to the CAAC which arranges aviation insurance covering hull, war and passenger liability risk on behalf of the PRC airlines with the People's Insurance (Property) Company of China. Insurance premiums are allocated to individual PRC airlines by the CAAC based on the value of the airlines aircraft and after taking into account the claims history of the airlines.
- (iv) Ticket reservation service charges represent fees payable to the CAAC in respect of computer reservation services rendered by the CAAC at charge rates determined based on the utilisation of the computer reservation system.
- (v) Passenger departure and cargo handling charges are payable to the CAAC for use of the computerised passenger departure and cargo handling systems installed at certain PRC airports. The charges are levied based on the utilisation of these systems.
- (vi) Aircraft and traffic service charges represent landing and take-off fees payable to various PRC airports in respect of landing and take-off slots allocated to the Airline Operations of Xinjiang Airlines Group and other ancillary services provided. Fees are payable by the Airline Operations of Xinjiang Airlines Group based on the scale rates published by the CAAC.
- (vii) Commission expense represents commissions payable to CAAC's sales offices and other PRC airlines in connection with services provided in exchange for air tickets sold by them. These commissions are calculated based on a fixed rate ranging from 1.5% to 9% on the ticket value as stipulated by the CAAC.
- (viii) Interest expense represents the interest incurred on certain unsecured loans from CSAHC. The applicable interest rates are in accordance with the rates published by the People's Bank of China (See Note 15).
- (ix) Rentals were paid to CSAHC under lease arrangements for certain land and buildings in the PRC. The rentals are determined based on prevailing market rates.
- (x) Air catering expenses represent purchases of in-flight meals and related services from certain affiliates of CSAHC. Prices charged by these suppliers to the Airline Operations of Xinjiang Airlines Group are similar to those charged to other PRC airlines.
- (xi) Repairing charges represent fees incurred by the Airline Operations of Xinjiang Airlines Group in connection with aircraft repair and maintenance services rendered by Guangzhou Aircraft Maintenance Engineering Company Limited ("GAMECO"). GAMECO is a jointly controlled entity of the Company.
- (xii) Flight simulation service charges represent fees incurred by the Airline Operations of Xinjiang Airlines Group in connection with flight simulation services provided by Zhuhai Xiang Yi Aviation Technology Company Limited, a jointly controlled entity of the Company.

APPENDIX III ACCOUNTANTS' REPORT ON FINANCIAL INFORMATION OF THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

(V) NOTES TO THE FINANCIAL INFORMATION (CONTINUED)

23. CONCENTRATION OF RISKS AND FAIR VALUE OF FINANCIAL INSTRUMENTS

LIQUIDITY RISK

The liquidity of the Airline Operations of Xinjiang Airlines Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due and to renew/refinance these debt obligations where necessary and, on its ability to obtain adequate external loan finance to meet its committed future capital expenditures. With the support of certain PRC banks and CSAHC, the Airline Operations of Xinjiang Airlines Group was able to renew its short term debts and refinance part of its long term debts during the relevant period. With regards to the twelve-month period ending 30 June, 2005, the Airline Operations of Xinjiang Airlines Group has planned to seek the renewals of short term debts amounting to RMB205 million and refinance part of the long term debts due in 2004 of RMB488 million through loan finance to be obtained from certain PRC banks. Based on the recent negotiations with the principal bankers of the Airline Operations of Xinjiang Airlines Group, management believes that the planned loan renewals and loan refinance will be available to the Airline Operations of Xinjiang Airlines Group.

Management has carried out a detailed review of the cash flow forecast of the Airline Operations of Xinjiang Airlines Group for the twelve-month period ending 30 June, 2005. Based on the results of such review, management has determined that adequate liquidity exists to finance the working capital, debt repayment obligations and capital expenditure requirements of the Airline Operations of Xinjiang Airlines Group during the forecasted period. In preparing the cash flow forecast, management has considered historical cash requirements of the Airline Operations of Xinjiang Airlines Group as well as other key factors, including the availability of the above-mentioned loan renewals and refinance which may impact the operations of the Airline Operations of Xinjiang Airlines Group during the next twelve-month period. Management is of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realised.

BUSINESS AND ECONOMIC RISKS

The Airline Operations of Xinjiang Airlines Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risk not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the political, economic and legal environment, influence of the CAAC over many aspects of its operations, and competition, in the passenger, cargo and mail airlines services industry.

INTEREST RATE RISK

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The Airline Operations of Xinjiang Airlines Group has significant exposure to interest rate fluctuation as a significant portion of its loans are interest bearing at floating rates. Fluctuation in interest rates affects the results of the Airline Operations of Xinjiang Airlines Group significantly because the Airline Operations of Xinjiang Airlines Group is not able to hedge its interest rate exposure effectively. The interest rates and maturity information of the bank and other loans of the Airline Operations of Xinjiang Airlines Group are disclosed in Note 15.

FOREIGN CURRENCY RISK

The Airline Operations of Xinjiang Airlines Group has significant exposure to foreign currency as significant portion of its bank loans are denominated in foreign currencies, principally US dollars. Depreciation or appreciation of the Renminbi against foreign currencies affects the results of the Airline Operations of Xinjiang Airlines significantly because the foreign currency payments of the Airline Operations of Xinjiang Airlines Group significantly exceed its foreign currency receipts. The Airline Operations of Xinjiang Airlines Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, by entering into forward foreign exchange contracts with authorised PRC banks.

23. CONCENTRATION OF RISKS AND FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

CREDIT RISKS

Substantially all of the cash and cash equivalents of the Airline Operations of Xinjiang Airlines Group are deposited with PRC financial institutions.

Prior to 2003, a significant portion of the air tickets of the Airline Operations of Xinjiang Airlines Group were sold by agents participating in the Billing and Settlement Plan ("BSP"), a clearing scheme between airlines and sales agents organised by International Air Transportation Association. As at 31 December, 2001 and 2002, the balance due from BSP agents amounted to approximately RMB74 million and RMB32 million respectively.

Beginning in 2003, a significant portion of the air tickets of the Airline Operations of Xinjiang Airlines Group are sold through the sale network of the Company and flight revenue uplifted by the Airline Operations of Xinjiang Airlines Group is billed and collected from the Company. As at 31 December, 2003 and 30 June, 2004, the receivable due from the Company amounted to approximately RMB38 million and RMB1 million respectively.

SELF INSURANCE RISK

The Airline Operations of Xinjiang Airlines Group maintains a limited amount of property insurance in respect of certain personal and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

real property.

FAIR VALUE

Financial assets of the Airline Operations of Xinjiang Airlines Group include cash and cash equivalents, other investments, trade receivables, and other receivables and prepaid expenses. Financial liabilities of the Airline Operations of Xinjiang Airlines Group include bank and other loans, accounts payable and other payables. The Airline Operations of Xinjiang Airlines Group did not hold nor issue any financial instruments for trading purposes during the relevant period. The Airline Operations of Xinjiang Airlines Group did not have any positions in derivative contracts as at 31 December, 2001, 2002 and 2003 and 30 June, 2004.

The following disclosure of the estimated fair value of financial instruments is made in accordance with the requirements of IAS 32 "Financial Instruments: Disclosure and Presentation" and IAS 39 "Financial Instruments: Recognition and Measurement". Fair value estimates, methods and assumptions, set forth below for the financial instruments of the Airline Operations of Xinjiang Airlines Group are made solely to comply with the requirements of IAS 32 and IAS 39, and should be read in conjunction with the Financial Information. The estimated fair value amounts have been determined by the Airline Operations of Xinjiang Airlines Group using market information and valuation methodologies considered appropriate. However, considerable judgement is required to interpret market data to develop the estimates of fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Airline Operations of Xinjiang Airlines Group could realise in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

FAIR VALUE (Continued)

The following summarise the major methods and assumptions used in estimating the fair values of the financial instruments of the Airline Operations of Xinjiang Airlines Group.

Long term debts

The fair values of long term debts are estimated by discounting future cash flows using current market interest rates offered to the Airline Operations of Xinjiang Airlines Group for debts with substantially the same characteristics and maturities. As at 31 December, 2001, 2002 and 2003 and 30 June, 2004, the carrying amounts and fair values of the long term debts of the Airline Operations of Xinjiang Airlines Group are as follows:

31 DECEMBER,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

	2001		2002		2003	
	CARRYING	FAIR	CARRYING	FAIR	CARRYING	FAIR
	AMOUNT	VALUE	AMOUNT	VALUE	AMOUNT	VALUE
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Long term debts	2,677,999	2,847,219	2,261,657	2,365,801	2,109,261	2,130,199
	=====	=====	=====	=====	=====	=====

Other investments

Other investments are unlisted equity interests and there are no quoted market prices for such interests in the PRC. Accordingly, a reasonable estimate of fair value could not be made without incurring excessive costs.

Other financial instruments

The fair values of all other financial instruments approximate their carrying amounts due to the nature or short term maturity of these instruments.

24. SUBSIDIARIES

The particulars of principal subsidiaries of the Airline Operations of Xinjiang Airlines as at 30 June, 2004 are as follows:

APPENDIX IV

FINANCIAL INFORMATION OF THE LISTED GROUP

NOTES TO THE FINANCIAL STATEMENTS

(PREPARED UNDER INTERNATIONAL FINANCIAL REPORTING STANDARDS)

(EXPRESSED IN RENMINBI)

1 BACKGROUND OF THE COMPANY

China Southern Airlines Company Limited (the "Company") and its subsidiary companies (collectively the "Group") are principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport, which is both the main hub of the Group's route network and the location of its corporate headquarters.

The Company was established in the People's Republic of China (the "PRC", "China" or the "State") on 25 March, 1995 as a joint stock limited company as part of the reorganisation (the "Reorganisation") of the Company's holding company, China Southern Air Holding Company ("CSAHC"). CSAHC is a state-owned enterprise under the supervision of the PRC central government.

The Company's H Shares and American Depositary Shares ("ADS") (each ADS representing 50 H Shares) are listed on the Stock Exchange of Hong Kong Limited and the New York Stock Exchange, respectively since July 1997. In July 2003, the Company issued 1,000,000,000 A shares which are listed on the Shanghai Stock Exchange.

2 PRINCIPAL ACCOUNTING POLICIES

(a) STATEMENT OF COMPLIANCE

The financial statements of the Group and the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance. IFRS includes International Accounting Standards ("IAS") and related interpretations.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(b) BASIS OF PREPARATION

The financial statements of the Group and the Company are prepared on the historical cost basis as modified by the revaluation of certain fixed assets. The accounting policies have been consistently applied by the Group and the Company and are consistent with those used in the previous year.

(c) BASIS OF CONSOLIDATION

The consolidated financial statements of the Group include the financial statements of the Company and all of its subsidiaries made up to 31 December each year. Subsidiaries are those enterprises controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

- 172 -

APPENDIX IV

FINANCIAL INFORMATION OF THE LISTED GROUP

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)
(PREPARED UNDER INTERNATIONAL FINANCIAL REPORTING STANDARDS)
(EXPRESSED IN RENMINBI)

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(c) BASIS OF CONSOLIDATION (cont'd)

The results of subsidiaries are included in the consolidated profit and loss account and the share attributable to minority shareholders is deducted from or added to the consolidated profit after taxation. Losses attributable to minority shareholders of partly owned subsidiaries are accounted for based on the respective equity owned by the minority shareholders up to the amount of the capital contribution and reserves attributable to the minority shareholders. Thereafter, all further losses are assumed by the Company.

All significant intercompany balances and transactions have been eliminated on consolidation.

(d) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised initially at cost, less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the profit and loss account over the period of the borrowings on an effective interest basis.

(e) INVESTMENTS

(i) Investments in subsidiaries

Investments in subsidiaries in the Company's balance sheet are stated at cost less impairment losses (refer to accounting

policy n).

- (ii) Investments in associated companies and jointly controlled entities

An associated company is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participating in the financial and operating policy decisions.

A jointly controlled entity is an entity which operates under a contractual agreement between the Group or the Company and other parties, where the contractual agreement establishes the Group or the Company and one or more of the other parties share joint control over the economic activity of the entity.

The consolidated profit and loss account includes the Group's share of the results of its associated companies and jointly controlled entities for the year. In the consolidated balance sheet, the investments in associated companies and jointly controlled entities are stated at the Group's attributable share of net assets. When the Group's share of losses exceeds the carrying amount of the associated company or jointly controlled entity, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the associated company or jointly controlled entity.

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)
(PREPARED UNDER INTERNATIONAL FINANCIAL REPORTING STANDARDS)
(EXPRESSED IN RENMINBI)

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(e) INVESTMENTS (cont'd)

The results of associated companies and jointly controlled entities are included in the Company's profit and loss account to the extent of dividends received and receivable, providing such dividends are in respect of a period ending on or before that of the Company and the Company's right to receive the dividend is established before 31 December each year. In the Company's balance sheet, investments in associated companies and jointly controlled entities are stated at cost, less impairment losses (refer to accounting policy n).

- (iii) Other investments

Other investments are stated at cost less impairment losses (refer to accounting policy n). Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

(f) FIXED ASSETS AND DEPRECIATION

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Fixed assets are stated at cost or revalued amount less accumulated depreciation and impairment losses (refer to accounting policy n). Revaluations are performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date.

Depreciation is provided to write off the cost, or revalued amount where appropriate, of the fixed assets over their estimated useful lives on a straight line basis, after taking into account their estimated residual values, as follows:

	DEPRECIABLE LIFE	RESIDUA
Buildings	15 to 40 years	Ni
Owned & leased aircraft	8 to 15 years	28.7
Other flight equipment		
- Jet engines	8 to 15 years	
- Others, including rotatable spares	8 to 15 years	Ni
Machinery and equipment	5 to 10 years	
Vehicles	6 years	

No depreciation is provided in respect of construction in progress.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(g) LEASED ASSETS

Flight equipment under finance leases is stated at an amount equal to lower of its fair value and the present value of minimum lease payments at inception of the lease, and is amortised on a straight line basis over the shorter of the lease term or estimated useful life of the asset to residual value. In cases where title to the asset will be acquired by the Group at the end of the lease, the asset is amortised on a straight line basis over the estimated useful life of the asset to its residual value.

Amounts payable in respect of finance leases are apportioned between interest charges and reductions of obligations based on the interest rates implicit in the leases. Interest charges are included in the profit and loss account to provide a constant periodic rate of charge over the lease term.

Gains on aircraft sale and leaseback transactions which result in finance leases are deferred and amortised over the terms of the related leases. Gains on other aircraft sale and leaseback transactions are recognised as income immediately if the transactions are established at fair value. Any excess of the sales price over fair value is deferred and amortised over the period the assets are expected to be used.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Operating lease payments are charged to the profit and loss account on a straight line basis over the terms of the related leases.

(h) CONSTRUCTION IN PROGRESS

Construction in progress represents office buildings, various infrastructure projects under construction and equipment pending installation, and is stated at cost. Cost comprises direct costs of construction as well as interest charges during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to fixed assets when the asset is substantially ready for its intended use, notwithstanding any delays in the issue of the relevant commissioning certificates by the relevant PRC authorities.

(i) LEASE PREPAYMENTS

Lease prepayments represent the purchase costs of land use rights and are amortised on a straight line basis over the period of land use rights (Note 26).

(j) INVENTORIES

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal is stated at the lower of cost and net realisable value. Net realisable value represents estimated resale price.

(k) TRADE AND OTHER RECEIVABLES

Trade and other receivables are stated at cost less impairment losses. Impairment losses are established based on evaluation of the recoverability of these accounts at the balance sheet date.

(l) DEFERRED EXPENDITURE

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortised over the terms of the related leases.

Lump sum housing benefits payable to employees of the Group are deferred and amortised on a straight line basis over a period of 10 years, which represents the benefit vesting period of the employees.

(m) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and balances with banks and other financial institutions with an original maturity

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

within three months. For the purpose of the consolidated cash flow statement, cash and cash equivalents are presented net of bank overdrafts, if any.

(n) IMPAIRMENT LOSS

The carrying amounts of the Group's and the Company's assets, other than inventories (refer to accounting policy j) and deferred tax assets (refer to accounting policy u) are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the profit and loss account.

The Group and the Company assess at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(o) DEFERRED CREDITS

In connection with the acquisition or operating lease of certain aircraft and engines, the Group receives various credits. Such credits are deferred until the aircraft and engines are delivered, at which time they are either applied as a reduction of the cost of acquiring the aircraft and engines, resulting in a reduction of future depreciation, or amortised as a reduction of rental expense for aircraft and engines under operating leases.

(p) REVENUE RECOGNITION

Passenger, cargo and mail revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage. Revenues from airline-related business are recognised when services are rendered. Revenue is stated net of sales tax and contributions to the CAAC Infrastructure Development Fund.

Interest income is recognised as it accrues unless collectability is

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

in doubt. Dividend income is recognised when the Group's right to receive the dividend is established.

Operating lease income is recognised on a straight line basis over the terms of the respective leases.

(q) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

(r) MAINTENANCE AND OVERHAUL COSTS

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed in the profit and loss account as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of scheduled overhauls required to be performed on the related aircraft prior to their return to the lessors.

(s) TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions during the year are translated into Renminbi at the applicable rates of exchange prevailing on the transaction dates.

Foreign currency monetary balances at the balance sheet date are translated into Renminbi at the exchange rates quoted by the People's Bank of China ruling at that date. Exchange differences are dealt with in the profit and loss account.

(t) BORROWING COSTS

Borrowing costs are expensed in the profit and loss account as and when incurred, except to the extent that they are capitalised as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(u) DEFERRED TAXATION

Deferred tax is provided using the balance sheet liability method on all temporary differences between the carrying amounts for financial reporting purposes and the amounts used for taxation purposes, except differences relating to the initial recognition of assets or liabilities which affect neither accounting nor taxable profit/loss.

The tax value of losses expected to be available for utilisation

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

against future taxable income is recognised as a deferred tax asset and offset against the deferred tax liability attributable to the same legal tax unit and jurisdiction. Net deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(v) RETIREMENT BENEFITS

Contributions to retirement schemes and additional retirement benefits paid to retired employees are charged to the profit and loss account as and when incurred.

(w) FREQUENT FLYER AWARD PROGRAMMES

The Group maintains two frequent flyer award programmes, namely, the China Southern Airlines Sky Pearl Club and the Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost to provide free travel is recognised as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly to reflect the acquittal of the outstanding obligations.

Revenue from mileage sales to third parties under the frequent flyer award programmes is recognised when the related transportation services are provided.

(x) PROVISIONS

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligations. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(y) RELATED PARTIES

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.

(z) SEGMENTAL REPORTING

The Group operates principally as a single business segment for the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

provision of air transportation services. The analysis of turnover and operating profit by geographical segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong) is attributed to the domestic operation. Traffic revenue from inbound / outbound services between the PRC and Hong Kong, and the PRC and overseas destinations is attributed to the Hong Kong regional operation and international operation respectively.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services is attributed on the basis of where the services are performed.

(aa) USE OF ESTIMATES

The preparation of the financial statements of the Group and the Company in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Sales tax incurred during the year ended 31 December, 2003, netted off against revenue, amounted to RMB205,925,000 (2002: RMB557,784,000). In addition, the Group is required to pay contributions to the CAAC Infrastructure Development Fund which are calculated at the rates of 5% and 2%, respectively (2002: 5% and 2%, respectively) of the domestic and international/Hong Kong regional traffic revenue, except for the period from 1 May, 2003 to 31 December, 2003 during which the Group was exempted from paying the contributions. Contributions to the CAAC Infrastructure Development Fund payable by the Group for the year ended 31 December, 2003 totalled RMB250,802,000 (2002: RMB798,386,000).

Pursuant to approval documents issued by the CAAC, the Group imposes a fuel surcharge on passengers carried by its domestic and Hong Kong regional flights at certain prescribed rates on ticket fares. The fuel surcharge forms part of the traffic revenue of the Group. For the year ended 31 December, 2003, the fuel surcharge revenue of the Group totalled approximately RMB740 million (2002: RMB554 million).

On 17 October, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document "Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043", the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective 1 October, 2003. As a result, the Company's income tax rate has been changed to 15% from 33% beginning from that date.

As a result of the reduction in income tax rate, the Company's net deferred taxation liability balance brought forward from 31 December, 2002 of RMB507,077,000 was reduced by RMB392,137,000 and a net deferred tax credit of RMB392,137,000 was recognised for such reduction in income tax rate in the consolidated profit and loss account for the year ended 31

In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Tax Bureau, lease arrangements executed prior to 1 September, 1999 are exempted from PRC withholding tax.

For the year ended 31 December, 2003, the PRC withholding tax payable by the Group in respect of the leases executed on or after 1 September, 1999 of RMB7,706,000 (2002: RMB14,305,000) has been included as part of the operating lease charges for the year.

8 DIVIDENDS

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

No interim dividend was paid during the year ended 31 December, 2003 (2002: Nil).

The board of directors of the Company does not recommend the payment of a final dividend in respect of the year ended 31 December, 2003.

A final dividend of RMB0.02 per share totalling RMB67,484,000 in respect of the year ended 31 December, 2001 was approved and paid during 2002.

9 BASIC (LOSS)/EARNINGS PER SHARE

The calculation of basic (loss)/earnings per share is based on the consolidated loss attributable to shareholders of RMB358,267,000 (2002: profit of RMB575,761,000) and the weighted average number of shares in issue during the year of 3,831,712,000 (2002: 3,374,178,000).

FINANCIAL INFORMATION OF THE LISTED GROUP

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

(PREPARED UNDER INTERNATIONAL FINANCIAL REPORTING STANDARDS)
(EXPRESSED IN RENMINBI)

10 FIXED ASSETS (Cont'd)

Substantially all of the Group's buildings are located in the PRC. The Group was formally granted the rights to use the twenty one parcels of land in Guangzhou, Shenzhen, Zhuhai, Beihai, Changsha, Shantou, Haikou, Zhengzhou, Guiyang and Wuhan by the relevant PRC authorities for a period of 30 to 70 years, which expire between 2020 and 2068. For other land in the PRC on which the Group's buildings are erected, the Group was formally granted the rights to use such land for periods of one to five years commencing in the second quarter of 1997 pursuant to various lease agreements between the Company and CSAHC. The leases with initial one-year term are automatically renewable for another one-year period unless the Group gives appropriate notice of termination. In this connection, rental payments totalling RMB15,224,000 (2002: RMB15,224,000) were paid to CSAHC during 2003 in respect of these leases.

During the year, the Company entered into operating lease arrangements to

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

lease certain flight training facilities and buildings to Zhuhai Xiang Yi Aviation Technology Company Limited ("Zhuhai Xiang Yi"), a jointly controlled entity of the Company. The leases with initial one-year term are automatically renewable for another one year unless either party gives appropriate notice of termination. In this connection, rental income totalling RMB34,175,000 was received by the Company during 2003 in respect of the leases. As at 31 December, 2003, the cost and accumulated depreciation of the relevant fixed assets totalled RMB787,432,000 and RMB462,281,000 respectively. As at 31 December, 2003, the Company's rental receivable in respect of the leases due in 2004 amounted to RMB34,175,000.

In compliance with the PRC rules and regulations governing initial public offering of shares by PRC joint stock limited companies, the fixed assets of the Group as at 31 December, 1996 were revalued. This revaluation was conducted by Guangzhou Assets Appraisal Corp. ("GAAC"), a firm of independent valuers registered in the PRC, on a depreciated replacement cost basis, and approved by the China State-owned Assets Administration Bureau.

In accordance with IAS 16 "Property, plant and equipment", subsequent to the 1996 revaluation, which was based on replacement costs, the fixed assets of the Group are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluation is performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. In accordance with the revaluation performed by the directors in respect of fixed assets held by the Group as at 31 December, 2000, the carrying amounts of fixed assets did not differ materially from their respective fair value.

10 FIXED ASSETS (Cont'd)

The effect of the above revaluation was to increase future annual depreciation charges of the Group by approximately RMB33,000,000 (2002: RMB33,000,000). Had the fixed assets of the Group and the Company been stated at cost, that is, the effect of the revaluation was excluded, the net book values of fixed assets of the Group and the Company as at 31 December, 2003 would have been approximately RMB28,522,787,000 and RMB22,793,781,000 respectively (2002: RMB26,874,709,000 and RMB19,440,211,000 respectively), made up as follows:

	=====	=====	=====	=====

As at 31 December, 2003, certain aircraft of the Group and the Company with an aggregate carrying value of approximately RMB14,575,906,000 and RMB12,795,867,000 respectively (2002: RMB14,782,559,000 and RMB12,893,592,000, respectively) were mortgaged under certain loan and lease agreements (see Notes 21 and 22).

The Company entered into two separate arrangements (the "Arrangements") with certain independent third parties during each of 2002 and 2003. Under each of the Arrangements, the Company sold an aircraft and then immediately leased back the aircraft for an agreed period. As agreed, the lease payment obligations, with pre-determined net present value, are to be satisfied solely out of the sale proceeds and such amount has been placed irrevocably by the Company in form of deposits and debt securities in favour of the lessors. The Company has an option to purchase the aircraft at a pre-determined date and an agreed purchase price to be satisfied by the balances of the deposits and debt securities outstanding at that date. In the event that the lease agreement is early terminated by the Company, the Company is liable to pay a pre-determined penalty to the lessor. As long as the Company complies with the lease agreements, the Company is entitled to the continued possession and operation of the aircraft. Since the Company retains substantially all risks and rewards incident to ownership of the aircraft and enjoys substantially the same rights to their use as before the Arrangements, no adjustment has been made to the fixed assets. As at 31 December, 2003, the net present value of the lease commitments and the corresponding defeased deposits and debt securities amounted to RMB2,409,252,000 (2002: RMB1,322,843,000). As a result of the Arrangements, the Company received net cash benefits of RMB51,682,000 and RMB69,121,000 in 2002 and 2003 respectively which have been recognised as income for the respective years.

Certain lease financing arrangements comprised finance leases between the Company and certain of its subsidiaries, and corresponding borrowings between such subsidiaries and banks. The Company has guaranteed the subsidiaries' obligations under the bank borrowings and accordingly, the relevant leased assets and obligations are recorded in the balance sheet to reflect the substance of the transactions. The future payments under these leases have therefore been presented by the Company and the Group in amounts that reflect the payments under the bank borrowings between the subsidiaries and banks.

26 RESERVES (cont'd)

Notes:

- (a) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer 10% of their annual net profits after taxation, as determined under relevant PRC accounting regulations, to a statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders.

Statutory surplus reserve can be used to offset prior years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholding or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

the registered capital.

- (b) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer between 5% to 10% of their annual net profits after taxation, as determined under PRC accounting regulations, to the statutory public welfare fund. This fund can only be utilised on capital items for the collective benefits of the Company's and the relevant subsidiaries' employees such as the construction of dormitories, canteen and other staff welfare facilities. This fund is non-distributable other than in liquidation. The transfer to this reserve must be made before distribution of a dividend to shareholders.
- (c) During 2002, the Group and the Company adopted certain new PRC accounting regulations which resulted in adjustments to the amounts of the Group's and Company's profits determined under PRC accounting regulations in respect of prior years and corresponding adjustments to amounts appropriated to the statutory surplus reserve, statutory public welfare fund and discretionary surplus reserve for the prior years.
- (d) The usage of this reserve is similar to that of statutory surplus reserve.
- (e) Under PRC Company Law and the Company's Articles of Association, the net profit after taxation as reported in the PRC statutory financial statements of the Company can only be distributed as dividends after allowances have been made for:
 - (i) making up cumulative prior years' losses, if any;
 - (ii) allocations to the statutory surplus reserve of at least 10% of after-tax profit, until the fund aggregates to 50% of the Company's registered capital;
 - (iii) allocations of 5% to 10% of after-tax profit to the Company's statutory public welfare fund; and
 - (iv) allocations to the discretionary surplus reserve, if approved by the shareholders.

Pursuant to the Articles of Association of the Company, the net profit of the Company for the purpose of profit distribution is deemed to be the lesser of (i) the net profit determined in accordance with the PRC accounting principles and financial regulations and (ii) the net profit determined in accordance with IFRS; or if the financial statements of the Company are not prepared in accordance with IFRS, the accounting standards of one of the countries in which its shares are listed. As at 31 December, 2003, the Company did not have any distributable reserves (2002: RMB445,636,000).

(f) The Group adopted IAS 40 "Investment Property" in 2002. According to IAS 40, the land use rights which were previously included in fixed assets at revaluation base are now presented as lease prepayments and carried at historical cost base with effect from 1 January, 2002. Accordingly, the unamortised surplus on previous revaluations of the land use rights, net of related deferred tax asset, are reversed to the share premium and retained profits accounts. The IAS 40 was adopted prospectively in 2002 as the effect of this change did not have a material impact on the Group's financial condition and results of operations in the periods prior to the change.

27 RELATED PARTY TRANSACTIONS

The Group obtained various operational and financial services provided by CSAHC and its affiliates, and the Group's associated companies and jointly controlled entities during the normal course of its business. In the past, CSAHC was under the direct control of the CAAC. However, such control has been shifted to the State Assets Administration Committee since early 2003. Consequently, transactions with the CAAC and its affiliates are no longer presented as related party transactions of the Group.

27 RELATED PARTY TRANSACTIONS (cont'd)

Notes:

- (a) Handling charges represent fees payable to Southern Airlines (Group) Import and Export Trading Company, a wholly owned subsidiary of CSAHC, in connection with the procurement of aircraft and flight equipment on the Group's behalf. Handling charges are calculated based on a fixed percentage of the purchase value and other charges.
- (b) Wet lease rentals represented rentals payable to Xinjiang Airlines Company, a subsidiary of CSAHC, pursuant to a wet lease agreement in respect of a Boeing 757-200 aircraft effective October 2002. The wet lease agreement was terminated in April 2003.
- (c) Advertising expenses represent expense reimbursements to Southern Airlines Advertising Company ("SAAC") for promotional services rendered to the Group. SAAC was a subsidiary of CSAHC up to July 2002. In August 2002, the Company acquired 90% equity interest in SAAC from CSAHC.
- (d) Sundry aviation supplies represent purchases of aviation supplies from Southern Airlines (Group) Economic Development Company, a subsidiary of CSAHC. Prices charged by this supplier to the Group

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

are similar to those charged to other PRC airlines.

- (e) Commission expense represents commissions payable to certain subsidiaries of CSAHC in connection with services provided in exchange for air tickets sold by them. These commissions are calculated based on a fixed rate ranging from 1.5% to 12% on the ticket value.
- (f) Air catering expense represents purchases of inflight meals and related services from Shenzhen Air Catering Company Limited, a cooperative joint venture established in the PRC, in respect of which CSAHC is entitled to 33% of its profits after tax.
- (g) Repairing charges represent fees incurred by the Group in connection with aircraft repair and maintenance services rendered by Guangzhou Aircraft Maintenance Engineering Company Limited ("GAMECO") and MTU Maintenance Zhuhai Co., Ltd. ("MTU Zhuhai"). GAMECO and MTU Zhuhai are jointly controlled entities of the Company.
- (h) Housing benefits represent a fixed annual fee payable to CSAHC in respect of the provision of quarters to the eligible employees of the Group. (Note 28).
- (i) Charges were paid to CSAHC under certain lease agreements in respect of certain land and buildings in the PRC (Note 10).
- (j) Flight simulation service charges represent fees incurred by the Group in connection with flight simulation services provided by Zhuhai Xiang Yi, a jointly controlled entity of the Company.

In addition, the Company entered into operating lease agreements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi. Rental income earned by the Company amounted to RMB34,175,000 during 2003 (Note 10).

- (k) During the period from August to October 2002, the Company received wet lease rentals totalling RMB27,599,000 from wet leasing of an Airbus 320-200 aircraft to Sichuan Airlines Corporation Limited, an associated company of the Company.
- (l) Interest income represents interest received from deposits placed with SA Finance. The applicable interest rate is determined in accordance with the deposit rate published by the People's Bank of China (see Note 20).

- (m) During the year, CSAHC made short term advances to the Group. These advances are unsecured, interest free and repayable on demand. As at 31 December, 2003, the advances amounted to RMB165,995,000.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

- (n) Prior to 1 January, 2002, the Group paid a fixed annual fee to CSAHC in return for CSAHC providing medical benefit, transportation subsidies and other welfare facilities to the retirees of the Group. Such arrangement was terminated on 1 January, 2002. During 2003, CSAHC refunded to the Group the difference between the aggregate fixed annual fees received from the Group and the aggregate cost of services incurred by CSAHC under the above arrangement.
- (o) During 2002, the Group acquired five Boeing 737-300/37K aircraft and related spare parts and certain vehicles from Zhongyuan Airlines, a subsidiary of CSAHC, at a consideration of approximately RMB1,096,866,000. The consideration was satisfied by cash of approximately RMB132,130,000 together with an assumption by the Group of Zhongyuan Airlines' debts of approximately RMB964,736,000. In addition, the Group received reimbursements of wet lease rentals totalling RMB150,000,000.
- (p) In August 2002, the Company acquired 90% equity interest in each of Guangzhou Aviation Hotel, Southern Airlines Advertising Company and South China International Aviation & Travel Services Company from CSAHC at an aggregate cash consideration of approximately RMB107,846,000. Such consideration is determined by reference to the valuation reports prepared by Guangzhou Zhongtian Valuation Company Limited, a firm of independent valuers registered in the PRC.

In addition to the above, certain business undertakings of CSAHC also provided hotel and other services to the Group during the year. The total amount involved is not material to the results of the Group for the year.

The directors of the Company are of the opinion that the above transactions with related parties were entered into in the normal course of business and on normal commercial terms or in accordance with the agreements governing such transactions.

28 RETIREMENT AND HOUSING BENEFITS

Employees of the Group participate in several defined contribution retirement schemes organised separately by PRC municipal governments in regions where the major operations of the Group are located. The Group is required to contribute to these schemes at the rates ranging from 14% to 19% (2002: 14% to 19%) of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Group are assumed by these schemes.

In addition, the Group was selected as one of the pilot enterprises to establish a supplementary defined contribution retirement scheme for the benefit of employees. In this connection, employees of the Group participate in a supplementary defined contribution retirement scheme whereby the Group is required to make defined contributions at a rate of 4.5% of total salaries. The Group has no obligation for the payment of pension benefits beyond the contributions described above. Contributions to the retirement schemes are charged to the profit and loss account as and when incurred.

28 RETIREMENT AND HOUSING BENEFITS (cont'd)

Furthermore, pursuant to the comprehensive services agreement (the "Services Agreement") dated 22 May, 1997 between the Company and CSAHC, CSAHC agrees to provide adequate quarters to eligible employees of the Group as and when required. In return, the Group agrees to pay a fixed annual fee of RMB85,000,000 to CSAHC for a ten-year period effective 1 January, 1995.

During 2002, the Group provided additional quarters at its own expense to certain employees who are not eligible for quarters pursuant to the Services Agreement. These quarters were provided to the respective employees in accordance with the relevant PRC housing reform policy. The excess of the cost of these additional quarters over the considerations received by the Group from the employees of RMB17,624,000 were charged to expenses in 2002.

Pursuant to an additional staff housing benefit scheme effective September 2002, the Group agreed to pay lump sum housing allowances to certain employees who have not received quarters from CSAHC or the Group according to the relevant PRC housing reform policy, for subsidising their purchases of housing. Such expenditure has been deferred and amortised on a straight line basis over a period of 10 years, which represents the vesting benefit period of the employees. An employee who quits prior to the end of the vesting benefit period is required to pay back a portion of the lump sum housing benefits determined on a pro-rata basis of the vesting benefit period remained. The Group has the right to effect a charge on the employee's house and to enforce repayment through selling the house in the event of default in repayment. Any shortfall in repayment would be charged against profit and loss account. As at 31 December, 2003, the Group already made payments totalling RMB130,479,000 (2002: RMB46,325,000) under the scheme and recorded its remaining contractual liabilities totalling RMB129,521,000 (2002: RMB213,675,000) as accrued liabilities on its balance sheet.

(c) INVESTING COMMITMENTS

As at 31 December, 2003, the Company was committed to make a capital contribution of approximately RMB446 million and RMB Nil respectively (2002: RMB60 million and RMB201 million respectively) to its jointly controlled entities and associated companies.

30 CONTINGENT LIABILITIES

- (a) The Company has been advised by its PRC lawyers that, except for liabilities constituting or arising out of or relating to the businesses assumed by the Company in the Reorganisation, no other liabilities were assumed by the Company, and the Company is not jointly and severally liable for other debts and obligations incurred by CSAHC prior to the Reorganisation. There are not, however, any definitive PRC regulations or other pronouncements confirming such conclusion.
- (b) The Group leases from CSAHC certain land in Guangzhou and certain land and buildings in Wuhan, Haikou and Zhengzhou. The Group has a significant investment in buildings and other leasehold improvements located on such land. However, such land in Guangzhou and such land and buildings in Wuhan, Haikou and Zhengzhou lack adequate documentation evidencing CSAHC's rights thereto.

30 CONTINGENT LIABILITIES (cont'd)

With respect to the facilities in Guangzhou, CSAHC has received written assurance from the CAAC to the effect that CSAHC is entitled to continued use and occupancy of the land in Guangzhou. The Company understands that the CAAC is basing its conclusion on an agreement among certain government authorities relating to such land. Such assurance does not constitute formal evidence of CSAHC's right to transfer, mortgage or lease such real property interests. The Group cannot predict the magnitude of the effect on its financial condition or results of operations to the extent that its use of one or more of these parcels of land or the related facilities were successfully challenged. CSAHC has agreed to indemnify the Group against any loss or damage caused by any challenge or interference with the Group's use of any of its land and buildings.

- (c) The Company is currently involved in a civil litigation (Hong Kong High Court Action No. 515 of 2001) ("Litigation"). According to the writ of summons for the Litigation, New Link Consultants Limited, the plaintiff, claimed against the Group (as one of the defendants to the Litigation) on the basis of certain evidence proving that United Aero-Supplies System of China, Limited ("UASSC") entered into

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

an agreement with the defendants for exclusive purchase of aviation equipment consigned to UASSC for sale and, that as the defendants failed to perform the agreement, UASSC has the right to compensation. Since UASSC is in the course of its winding up proceedings, all the rights and benefits of UASSC in connection with the claim have been transferred to the plaintiff. The Company, as one of the defendants to the Litigation, has been claimed for unspecified damages for breach of the agreement. Given that the Litigation is still at its preliminary stage, it is pre-matured to predict the result of the court judgment. Based on the opinion given by its instructing solicitors, the Company's directors consider that the Company has a reasonable chance of success in its defence to the claim. At present, the Company has filed an objection in respect of the jurisdiction of the court, and has requested the court to transfer the case of Mainland China for trial. Accordingly, the Company's directors consider that a provision for such claim and/or the associated legal costs is not required.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK

Financial assets of the Group include cash and cash equivalents, investments, trade receivables and other receivables. Financial liabilities of the Group include bank and other loans, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage, accrual expenses and obligations under finance leases.

LIQUIDITY RISK

As at 31 December, 2003, the Group's net current liabilities amounted to RMB10,792 million (2002: RMB7,016 million). For the year ended 31 December, 2003, the Group recorded a net cash inflow from operating activities of RMB2,129 million (2002: RMB3,698 million), a net cash outflow from investing activities and financing activities of RMB3,820 million (2002: RMB2,745 million) and a decrease in cash and cash equivalents of RMB1,691 million (2002: increase of RMB953 million).

With regard to 2004 and thereafter, the liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due, and on its ability to obtain adequate external finance to meet its committed future capital expenditures. With regard to its short-term bank loans outstanding at 31 December, 2003, the Group has obtained firm commitments from its principal bankers to renew the relevant loans as they fall due during 2004. With regard to its future capital commitments and other financing requirements, the Group has already entered into loan financing agreements with several PRC banks to provide loan finance up to an approximate amount of RMB8,450 million during 2004 and thereafter. The directors of the Company believe that such financing will be available to the Group.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK (cont'd)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

LIQUIDITY RISK (cont'd)

The directors of the Company have carried out a detailed review of the cash flow forecast of the Group for the twelve months ending 31 December, 2004. Based on such forecast, the directors have determined that adequate liquidity exists to finance the working capital and capital expenditure requirements of the Group during that period. In preparing the cash flow forecast, the directors have considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned loan finance which may impact the operations of the Group during the next twelve-month period. The directors are of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realised.

BUSINESS RISK

The Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risks not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the political, economic and legal environment, influence of the CAAC over many aspects of its operations, and competition, in the passenger, cargo and mail airlines services industry.

INTEREST RATE RISK

The interest rates and maturity information of the Group's bank and other loans, and the maturity information of the Group's finance lease obligations are disclosed in Notes 21 and 22 respectively.

FOREIGN CURRENCY RISK

The Group has significant exposure to foreign currency as substantially all of the Group's lease obligations and bank loans are denominated in foreign currencies, principally US dollars, and to a lesser extent, Japanese Yen. Depreciation or appreciation of the Renminbi against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorised PRC banks.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK (cont'd)

CREDIT RISKS

Substantially all of the Group's cash and cash equivalents are deposited with PRC financial institutions.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

A significant portion of the Group's air tickets are sold by agents participating in the Billing and Settlement Plan ("BSP"), a clearing scheme between airlines and sales agents organised by International Air Transportation Association. As of 31 December, 2003, the balance due from BSP agents amounted to RMB446,399,000 (2002: RMB353,246,000).

SELF INSURANCE RISK

The Group maintains a limited amount of property insurance in respect of certain personal and real property.

FAIR VALUE

The carrying amounts and estimated fair values of significant financial assets and liabilities at 31 December, 2002 and 2003 are set out below:

	2003		2002

The following methods and assumptions were used to estimate the fair value for each class of financial instrument:

- (i) Cash and cash equivalents, trade receivables, other receivables, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage and accrued expenses

The carrying values approximate fair value because of the short maturities of these instruments.

- (ii) Bank and other loans

The fair value has been estimated by applying a discounted cash flow approach using interest rates available to the Group for similar indebtedness.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK (cont'd)

The economic characteristics of the Group's leases vary from lease to lease. It is impractical to compare such leases with those prevailing in the market within the constraints of timeliness and cost for the purpose of estimating the fair value of such leases. Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

* Mainly routes between the PRC and Asian countries, the United States of America, the Netherlands, Belgium and Australia.

The major revenue-earning assets of the Group are its aircraft fleet, most of which are registered in the PRC. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Substantially all of the Group's non-aircraft identifiable assets are located in the PRC.

APPENDIX IV

FINANCIAL INFORMATION OF THE LISTED GROUP

NOTES:

1 BASIS OF PREPARATION

This interim financial report of China Southern Airlines Company Limited (the "Company") and its subsidiaries (the "Group") is unaudited, but has been reviewed by KPMG in accordance with Statement of Auditing Standards 700 "Engagements to review interim financial reports", issued by the Hong Kong Society of Accountants. KPMG's independent review report to the Board of Directors is included on page 25.

The interim financial report has been prepared in accordance with the requirements of the Main Board Listing Rules of The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard 34 "Interim Financial Reporting" adopted by the International Accounting Standards Board.

The financial information relating to the financial year ended 31 December, 2003 included in the interim financial report does not constitute the Group's annual financial statements prepared under International Financial Reporting Standards for that financial year but is derived from those financial statements. The Group's annual financial statements for the year ended 31 December, 2003 are available at the Company's registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 23 April, 2004.

The accounting policies have been consistently applied by the Group and are consistent with those adopted in the 2003 annual financial statements.

The notes on the unaudited interim financial report include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2003 annual financial statements.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

2 TURNOVER

The Group is principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport in the People's Republic of China ("PRC"), which is both the main hub of the Group's route network and the location of its corporate headquarters.

Turnover comprises revenues from airline and airline-related businesses and is stated net of sales tax. The turnover for the six months ended 30 June, 2003, was stated net of sales tax and contributions to the CAAC Infrastructure Development Fund.

Sales tax is payable at 3% (2003: 3%) of the Group's traffic revenue in respect of domestic flights and international/Hong Kong regional outbound flights. During the six months ended 30 June, 2003, the Group's passenger revenue for May and June 2003 was exempted from sales tax.

Prior to 1 April, 2004, contributions to the CAAC Infrastructure Development Fund were payable at 5% and 2%, respectively of the Group's domestic and international/Hong Kong regional traffic revenue, except for the period from 1 May, 2003 to 31 March, 2004 during which the Group was exempted from contributions to the CAAC Infrastructure Development Fund. Effective from 1 April, 2004, contributions to the CAAC Infrastructure Development Fund are payable based on the Group's traffic capacity deployed on its routes. The contributions now form part of the flight operations expenses.

On 17 October, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document from Guangzhou Municipal State Tax Bureau, the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective 1 October, 2003. As a result, the Company's income tax rate has been changed to 15% from 33% beginning from that date.

In respect of the Group's overseas airline activities, the Group has either obtained exemptions from overseas taxation pursuant to the bilateral aviation agreements between the overseas and PRC governments, or has sustained tax losses in these overseas jurisdictions. Accordingly, no provision for overseas tax has been made for the periods presented.

5 BASIC EARNINGS/(LOSS) PER SHARE

The calculation of basic earnings/(loss) per share is based on the consolidated profit attributable to shareholders of RMB266,184,000 (2003: loss of RMB1,231,613,000) and the weighted average number of shares in issue during the period of 4,374,178,000 (2003: 3,374,178,000).

There were no dilutive potential shares in existence during the six months ended 30 June, 2003 and 2004.

6 DIVIDENDS

The Board of Directors of the Company does not recommend the payment of an interim dividend for the six months ended 30 June, 2004 (2003: Nil).

FINANCIAL INFORMATION OF THE COMBINED GROUP

RESPONSIBILITIES

It is the responsibility solely of the directors of the Company to prepare the Pro Forma Financial Information in accordance with Paragraph 29 of Chapter 4 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Listing Rules").

It is our responsibility to form an opinion, as required by the Listing Rules, on the Pro Forma Financial Information and to report our opinion to you. We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the Pro Forma Financial Information beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

BASIS OF OPINION

We conducted our work in accordance with the Statements of Investment Circular Reporting Standards and Bulletin 1998/8 "Reporting on pro forma financial information pursuant to the Listing Rules" issued by the Auditing Practices Board in the United Kingdom, where applicable. Our work consisted primarily of comparing the unadjusted financial information with the source documents, considering the evidence supporting the adjustments and discussing the Pro Forma Financial Information with the directors of the Company.

Our work did not constitute an audit or review made in accordance with the Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants, and accordingly, we do not express any such audit or review assurance on the Pro Forma Financial Information.

The Pro Forma Financial Information is for illustrative purposes only, based on the directors' judgements and assumptions, and because of its nature, it does not provide any assurance or indication that any event will take place in the future and may not be indicative of the financial position or result of:

- the Combined Group had the Acquisition actually completed as at the dates indicated therein; or
- the Combined Group at any future date or for any future periods.

- 237 -

APPENDIX V

FINANCIAL INFORMATION OF THE COMBINED GROUP

OPINION

In our opinion:

- (a) the accompanying unaudited Pro Forma Financial Information has been properly compiled on the basis stated;
- (b) such basis is consistent with the accounting policies of the Company; and
- (c) the adjustments are appropriate for the purposes of the Pro Forma Financial Information as disclosed pursuant to Paragraph 29(1) of Chapter 4 of the Listing Rules.

Yours faithfully,

APPENDIX V

FINANCIAL INFORMATION OF THE COMBINED GROUP

INTRODUCTION TO THE UNAUDITED PRO FORMA FINANCIAL INFORMATION OF THE COMBINED GROUP

The accompanying unaudited pro forma financial information of the Combined Group (the Listed Group (as defined herein) together with the Airline Operations (as defined herein) of Northern Airlines Group (as defined herein) and the Airline Operations of Xinjiang Airlines Group (as defined herein)) has been prepared to illustrate the effect of the proposed acquisition of the airline and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

airline related operations (the "Airline Operations") of each of China Northern Airlines Company and its subsidiaries ("Northern Airlines Group") and Xinjiang Airlines Company and its subsidiaries ("Xinjiang Airlines Group") by China Southern Airlines Company Limited (the "Company", and together with its subsidiaries are referred to as the "Listed Group") (the "Acquisition"). The consideration is assumed to be approximately RMB1,897 million, which represents the aggregate amount of the net assets value of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group as at 30 June, 2004 prepared under PRC Accounting Rules and Regulations. The consideration will be satisfied by short term U.S. dollar bank loans amounting to RMB1,000 million and cash of RMB897 million.

The accompanying unaudited pro forma statement of income and unaudited pro forma condensed statement of cash flows of the Combined Group for the six-month period ended 30 June, 2004 gives effect to the Acquisition as if the Acquisition had been completed on 1 January, 2004. The accompanying unaudited pro forma balance sheet of the Combined Group as at 30 June, 2004 gives effect to the Acquisition as if the Acquisition had been completed on 30 June, 2004.

The accompanying unaudited pro forma financial information of the Combined Group is prepared based upon the audited historical financial information of the Airline Operations of Northern Airlines Group and Xinjiang Airlines Group as set out in Appendices II and III respectively and the unaudited historical financial information of the Listed Group as set out in Appendix IV after giving effect to the pro forma adjustments described in the accompanying notes. A narrative description of the pro forma adjustments of the Acquisition that are (i) directly attributable to the transactions; (ii) expected to have a continuing impact on the Combined Group; and (iii) factually supportable, are summarised in the accompanying notes.

The unaudited pro forma financial information of the Combined Group should be read in conjunction with the financial information of the Airline Operations of Northern Airlines Group and Xinjiang Airlines Group as set out in Appendices II and III respectively, the financial information of the Listed Group as set out in Appendix IV and other financial information included elsewhere in this circular.

OPERATING RESULTS

INTERIM PERIOD FOR THE SIX-MONTH PERIOD ENDED 30 JUNE, 2004 COMPARED TO INTERIM PERIOD FOR THE SIX-MONTH PERIOD ENDED 30 JUNE, 2003

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

Operating revenue

For the first half of 2004, the total traffic revenue was RMB3,391 million, an increase of RMB1,262 million or 59.3% from the same period last year. The increase was primarily due to a 62.4% increase in passenger revenue. The number of passengers carried increased by 64.2% to 3.6 million. Passenger traffic in terms of RPKs increased by 60.1% to 5,190 million.

- 253 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Passenger revenue was RMB3,187 million, up 62.4% from the same period last year, representing 94.0% of total traffic revenue. The increase was mainly due to increases in traffic volume of 60.1%.

Domestic passenger revenue was RMB2,659 million, up 63.5% from the same period last year. Domestic passenger revenue accounted for 83.4% of overall passenger revenue. The increase in domestic passenger revenue was mainly due to the increases in traffic volume of 63.5% to 4,652 million. The increase in traffic volume was mainly due to the combined effect of the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004 and the PRC government's policies and efforts to attract more investment in the Northeastern

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

part of the PRC, including Shenyang.

International passenger revenue was RMB528 million, an increase of 47.5% from the same period last year. International passenger revenue accounted for 16.6% of overall passenger revenue. The increase in international passenger was mainly due to the increases in traffic volume of 35.9% to 538 million and passenger yield of 12.6% to RMB0.98. The increase in traffic volume was mainly because of the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004. The increase in passenger yield was mainly the result of the recording of the contributions to the CAAC infrastructure fund as an operating expense instead of being netted off with traffic revenue and an upward adjustment of fare resulting from increased traffic demand with effect from 1 April, 2004.

Cargo and mail revenue was RMB204 million in the first half of 2004, an increase of 22.7% from the same period last year. Cargo and mail revenue accounted for 6.0% of total traffic revenue in the first half of 2004. The increase in cargo and mail revenue was mainly due to increases in traffic volume of 18.5% to 96 million RFTKs and overall yield per RFTK of 7.0% to RMB2.13. The increase in traffic volume was mainly due to the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004. The increase in overall yield per RFTK was mainly due to an increase in fares resulting from increased traffic demand.

Other operating revenue increased by 94.3% to RMB73 million in the first half of 2004. The increase was mainly due to a rise in the aircraft lease income of RMB49 million from leasing certain aircraft to a related party.

Operating expenses

Total operating expenses increased by 20.6% to RMB3,095 million from the same period last year, representing an increase of RMB529 million. The increase was mainly due to increases in fuel costs, landing and navigation fees and commission expenses resulting from increased traffic volume during the first half of 2004.

Flight operations expenses, which accounted for 47.8% of total operating expenses in the first half of 2004, increased by 32.2% to RMB1,481 million. Of these expenses, fuel cost was RMB816 million, up 40.9%, mainly as a result of increases in fuel consumption and fuel prices. Air catering expenses increased by 57.6% to RMB104 million, primarily as a result of an increase in number of passengers carried during the first half of 2004. Labour costs increased by 54.2% to RMB222 million, largely due to an increase in flying hours.

- 254 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Maintenance expenses which accounted for 13.3% of total operating expenses in the first half of 2004, decreased by 23.9% to RMB412 million. The decrease was mainly due to year 2003 being a peak time for aircraft engine major repairs.

Aircraft and traffic servicing expenses, which accounted for 15.0% of the total operating expenses in the first half of 2004, increased by 45.0% to RMB464 million, reflecting primarily the rise in the number of landing and takeoffs resulting from increased traffic volume during the first half of 2004.

Promotional and sales expenses, which accounted for 7.1% of total operating expenses in the first half of 2004, increased by 32.0% to RMB219 million. The increase was the result of an increase in traffic revenue.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

General and administrative expenses, which accounted for 3.7% of the total operating expenses in the first half of 2004, increased by 15.7% to RMB115 million. The increase was mainly due to an increase in the scale of operations during the first half of 2004.

Depreciation and amortization expenses, which accounted for 13.1% of the total operating expenses in the first half of 2004, increased by 26.8% to RMB404 million. The increase was mainly due to the additional depreciation arising from the net revaluation surplus as a result of the revaluation of property, plant and equipment as at 31 December, 2003.

Non-operating income/(expenses)

Interest expense decreased by 37.5% to RMB195 million during the first half of 2004, primarily reflecting the interest saving resulting from the assumption of RMB5,083 million bank loans by CSAHC as at 31 December, 2003.

A net exchange gain of RMB24 million was recorded in the first half of 2004 as compared to a net exchange loss of RMB2 million in the same period last year, mainly due to its Japanese yen denominated borrowings as a result of the depreciation of Japanese yen during the first half of 2004.

Taxation

The taxation amount for the first half of 2003 was nil because the Airline Operations of Northern Airlines Group did not recognise any deferred tax assets in respect of its taxable losses as the Airline Operations of Northern Airlines Group did not forecast any future taxable income to utilise the taxable losses.

As a result of the aforementioned reasons, the Airline Operations of Northern Airlines Group earned a net profit of RMB135 million for the first half of 2004 as compared to a net loss of RMB685 million for the same period last year.

ADDITIONAL INFORMATION TO SHAREHOLDERS

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

Operating revenue

For the first half of 2004, the total traffic revenue was RMB1,176 million, an increase of RMB459 million or 64.0% from the same period last year. The increase was primarily due to a 66.7% increase in passenger revenue. The number of passengers carried increased by 68.1% to 1.3 million. Passenger traffic in terms of RPKs increased by 62.3% to 2,416 million.

Passenger revenue was RMB1,126 million, up 66.7% from the same period last year, representing 95.8% of total traffic revenue. The increase was mainly due to an increase in traffic volume of 62.3%.

Domestic passenger revenue was RMB1,059 million, up 65.2% from the same period last year. Domestic passenger revenue accounted for 94.0% of overall passenger revenue. The increase in domestic passenger was mainly due to the increases in traffic volume of 62.0% to 2,324 million and passenger yield of 2.2% to RMB0.46. The increase in traffic volume was mainly due to the combined effect of the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004. The increase in passenger yield was mainly as a result of

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

recording the contributions to the CAAC infrastructure fund as an operating expense instead of being netted off with traffic revenue with effect from 1 April, 2004.

International passenger revenue was RMB67 million, an increase of 91.4% from the same period last year. International passenger revenue accounted for 6.0% of overall passenger revenue. The increase in international passenger was mainly due to the increases in traffic volume of 70.4% to 92 million and passenger yield of 10.8% to RMB0.72. The increase in traffic volume was mainly because of the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004. The increase in passenger yield was mainly the result of the recording of the contributions to the CAAC infrastructure fund as an operating expense instead of being netted off with traffic revenue and an upward adjustment of fare resulting from increased traffic demand with effect from 1 April, 2004.

Cargo and mail revenue was RMB50 million in the first half of 2004, an increase of 19.7% from the same period last year. Cargo and mail revenue accounted for 4.2% of total traffic revenue in the first half of 2004. The increase in cargo and mail revenue was mainly due to the net effect of an increase in traffic volume of 21.4% to 34 million RFTKs and a decrease in overall yield per RFTK of 4.0% to RMB1.45. The increase in traffic volume was mainly due to the absence of Severe Acute Respiratory Syndrome impact during the first half of 2004. The decrease in overall yield per RFTK was mainly due to the decrease in fares resulting from intensified competition from other airlines and other modes of transportation.

Other operating revenue decreased by 30.6% to RMB39 million in the first half of 2004. The decrease was primarily due to the decrease in aircraft lease income.

- 256 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Operating expenses

Total operating expenses increased by 24.1% to RMB1,215 million from the same period last year, representing an increase of RMB236 million. The increase was mainly due to increases in fuel costs, maintenance, landing and navigation fees and commission expenses resulting from increased traffic volume during the first half of 2004.

Flight operations expenses, which accounted for 52.6% of total operating expenses in the first half of 2004, increased by 31.3% to RMB639 million. Of these expenses, fuel cost was RMB314 million, up 48.7%, mainly as a result of increases in fuel consumption and fuel prices. Air catering expenses increased by 21.5% to RMB36 million, primarily as a result of an increase in number of passengers carried during the first half of 2004. Labour costs increased by 22.6% to RMB79 million, largely due to an increase in flying hours.

Maintenance expenses which accounted for 10.5% of total operating expenses in the first half of 2004, increased by 16.3% to RMB127 million. The increase was primarily attributable to increases in aircraft overhaul charges and routine maintenance costs resulting from increased flying hours.

Aircraft and traffic servicing expenses, which accounted for 11.0% of the total operating expenses in the first half of 2004, increased by 20.6% to RMB134 million, reflecting primarily the rise in the number of landing and takeoffs resulting from increased traffic volume during the first half of 2004.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Promotional and sales expenses, which accounted for 6.7% of total operating expenses in the first half of 2004, increased by 48.2% to RMB81 million. The increase was the result of an increase in traffic revenue.

General and administrative expenses, which accounted for 5.0% of the total operating expenses in the first half of 2004, increased by 19.1% to RMB61 million. The increase was mainly due to an increase in the scale of operations during the first half of 2004.

Depreciation and amortization expenses, which accounted for 14.2% of the total operating expenses in the first half of 2004, increased by 4.2% to RMB173 million. The increase was mainly due to the additional depreciation arising from the net revaluation surplus as a result of the revaluation of property, plant and equipment as at 31 December, 2003 and new purchases during the first half of 2004.

Non-operating income/(expenses)

Interest expense decreased by 14.7% to RMB69 million during the first half of 2004, primarily reflecting the interest saving resulting from the replacement of higher interest bearing foreign U.S. dollar bank loans with lower interest bearing domestic U.S. dollar bank loans during 2003.

- 257 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Taxation

The income tax credit for the first half of 2004 was RMB24 million as compared to RMB95 million for the same period of last year. The decrease was mainly due to better performance during the first half of 2004. The Airline Operations of Xinjiang Airlines Group incurred a loss before income tax of RMB70 million for the first half of 2004 as compared to a loss before income tax of RMB290 million for the same period last year.

As a result of the aforementioned reasons, the Airline Operations of Xinjiang Airlines Group incurred a net loss of RMB44 million for the first half of 2004 as compared to a net loss of RMB194 million for the same period last year.

YEAR ENDED 31 DECEMBER, 2003 COMPARED TO YEAR ENDED 31 DECEMBER, 2002

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

Operating revenue

The total traffic revenue was RMB5,857 million in 2003, an increase of RMB700 million or 13.6% from 2002. The increase was primarily due to a 14.3% increase in passenger revenue. The number of passengers carried increased by 5.2% to 6.5 million. Passenger traffic in terms of RPKs increased by 4.1% to 9,147 million.

Passenger revenue was RMB5,446 million, up 14.3% from 2002, representing 93.0% of total traffic revenue. The increase was mainly due to increases in traffic volume of 4.1% and passenger yield of 10.0%.

Domestic passenger revenue was RMB4,559 million, up 16.7% from 2002. Domestic passenger revenue accounted for 83.7% of overall passenger revenue. The

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

increase in domestic passenger revenue was mainly due to increases in traffic volume of 5.6% to 8,234 million and passenger yield of 10.0% to RMB0.55. The increase in traffic volume was the result of rescheduling of certain major routes in October 2002. Some low yield and load factor routes were suspended and the traffic capacity were allocated to those routes with high yield and load factor. The increase in passenger yield was due mainly to the exemption of the CAAC infrastructure fund and sales tax during the period from 1 May, 2003 to 31 December, 2003.

International passenger revenue was RMB887 million, an increase of 3.5% from 2002. International passenger revenue accounted for 16.3% of overall passenger revenue. The increase in international passenger revenue was mainly due to the net effect of a decrease in traffic volume of 7.4% to 913 million and an increase in passenger yield of 11.5% to RMB0.97. The decrease in traffic volume was the result of suspension of routes to Hong Kong during the period of 1 April, 2003 to 31 December, 2003 because of the outbreak of Severe Acute Respiratory Syndrome and persistently low load factor and yield. The increase in passenger yield per RPK was due mainly to the exemption of the CAAC infrastructure fund and sales tax during the period from 1 May, 2003 to 31 December, 2003.

- 258 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Cargo and mail revenue was RMB411 million, an increase of 4.9% from 2002. Cargo and mail revenue accounted for 7.0% of total traffic revenue in 2003. The increase in cargo and mail revenue was mainly due to an increase in traffic volume resulting from the introduction of new routes to Japan in October 2002.

Other operating revenue decreased by 17.8% to RMB72 million in 2003. The decrease was primarily due to a drop in the commission income of RMB15 million resulting from the use of the Company's tickets for the flights of the Airline Operations of Northern Airlines Group since 1 January, 2003 under a ticket sale agreement.

Operating expenses

Total operating expenses increased by 7.9% to RMB5,989 million from 2002, representing an increase of RMB438 million. The increase was mainly due to increases in fuel costs, landing and navigation fees, repair and maintenance resulting from increased traffic volume during 2003.

Flight operations expenses, which accounted for 39.0% of total operating expenses in 2003, increased by 6.6% to RMB2,338 million. Of these expenses, fuel cost was RMB1,314 million, up 6.4%, mainly as a result of an increase in fuel prices caused by the outbreak of Iraq war. Air catering expenses decreased by 15.1% to RMB174 million during 2003 primarily as a result of stricter cost control. Labour costs increased by 16.8% to RMB376 million largely due to an increase of headcount and the introduction of double pay during 2003.

Maintenance expenses which accounted for 17.4% of total operating expenses in 2003, increased by 4.6% to RMB1,039 million. The increase was mainly due to year 2003 being a peak time for aircraft engine major repairs.

Aircraft and traffic servicing expenses, which accounted for 12.7% of the total operating expenses in 2003, increased by 5.9% to RMB760 million, reflecting primarily an increase in the charge rate for domestic landing and navigation fees effective September 2002.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Promotional and sales expenses, which accounted for 7.1% of total operating expenses in 2003, increased by 2.3% to RMB425 million. The increase was the result of an increase in traffic revenue.

General and administrative expenses, which accounted for 3.8% of the total operating expenses in 2003, increased by 3.1% to RMB226 million. The increase was mainly due to an increase in labour costs resulting from the introduction of double pay during 2003.

Depreciation and amortization expenses, which accounted for 10.8% of the total operating expenses in 2003, decreased by 2.5% to RMB646 million. The decrease was mainly due to the reduction associated with fully depreciated property, plant and equipment which outweighed the additional depreciation on those property, plant and equipment purchased during 2003.

- 259 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Others which represented impairment losses on aircraft and accounted for 9.2% of the total operating expenses, increased by 58.7% to RMB555 million in 2003. During 2003, the Airline Operations of Northern Airlines entered into agreements with an independent third party to dispose of its twenty-three McDonald Douglas 82 aircraft during the years 2003 to 2007 and then immediately lease back the aircraft under operating leases for a period of one to two years. Accordingly, the Airline Operations of Northern Airlines Group recorded an impairment loss for the year ended 31 December 2003 of approximately RMB555 million, being the excess of the carrying amount of the aircraft over their recoverable amount as determined based on the agreed selling prices of the aircraft and estimated future cash flows from operating the aircraft prior to their disposals.

Non-operating income/(expenses)

Interest income decreased by 54.7% to RMB13 million in 2003. This is mainly due to the combined effect of decreases in average cash balances and bank deposit interest rates.

Interest expense decreased by 10.5% to RMB627 million in 2003, primarily reflecting the combined effect of scheduled debt repayments and the replacement of certain Renminbi denominated bank loans with US\$ denominated bank loans with lower interest rates.

During 2003, the Airline Operations of Northern Airlines Group recorded a net exchange loss of RMB218 million predominantly due to its Japanese Yen denominated borrowings as a result of the Japanese Yen appreciation. Such amount comprised mostly unrealized translation gain.

In connection with the Acquisition, the property, plant and equipment of the Airline Operations of Northern Airlines Group as at 31 December, 2003 were revalued on a replacement cost basis as required by the relevant PRC rules and regulations. As a result of the revaluation, a deficit on revaluation of RMB492 million was resulted during 2003.

Taxation

The income tax for 2003 was RMB117 million as compared to nil for 2002. This was because the Airline Operations of Northern Airlines Group did not recognise any deferred tax assets in respect of its taxable losses in 2002 as the Airline Operations of Northern Airlines Group did not forecast any future

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

taxable income to utilise the taxable losses.

As a result of the aforementioned reasons, the Airline Operations of Northern Airlines Group incurred a net loss of RMB1,234 million for 2003 as compared to a net loss of RMB1,141 million for 2002.

- 260 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

The total traffic revenue was RMB2,075 million in 2003, a decrease of RMB140 million or 6.3% from 2002. This decrease was primarily due to a 5.8% decrease in passenger revenue.

Passenger revenue was RMB1,982 million, down 5.8% from 2002, representing 95.5% of total traffic revenue. The decrease was mainly due to the net effect of an increase in traffic volume of 4.5% and a decrease in passenger yield of 11.1%.

Domestic passenger revenue was RMB1,878 million, down 6.2% from 2002. Domestic passenger revenue accounted for 94.8% of overall passenger revenue. The decrease in domestic passenger revenue was mainly due to the net effect of an increase in traffic volume of 4.6% to 3,941 million and a decrease in passenger yield of 9.4% to RMB0.48. The increase in traffic volume was the result of a quick and strong recovery of aviation market during the second half year of 2003 subsequent to the recovery from Severe Acute Respiratory Syndrome. The decrease in passenger yield was due mainly to the entry of other airlines which induced the price competition.

International passenger revenue was RMB104 million, an increase of 2.0% from 2002. International passenger revenue accounted for 5.2% of overall passenger revenue. The increase in international passenger revenue was mainly due to the net effect of an increase in traffic volume of 2.0% to 151 million. The passenger yield remained at RMB0.69.

Cargo and mail revenue was RMB93 million, a decrease of 16.6% from 2002. Cargo and mail revenue accounted for 4.5% of total traffic revenue in 2003. The decrease in cargo and mail revenue was mainly due to a decrease in traffic volume resulting from the disposal of three IL86 aircraft during 2003. The overall yield per RFTK increased by 8.8% to RMB1.48 because of an upward adjustment of fare on certain routes to Russia as a result of increased demand.

Other operating revenue decreased by 44.4% to RMB77 million in 2003. The decrease was due to decrease in the aircraft lease income resulting from the disposal of three IL86 aircraft.

Operating expenses

Total operating expenses increased by 1.6% to RMB2,191 million from 2002, representing an increase of RMB35 million. The increase was mainly due to increases in fuel costs, landing and navigation fees, repair and maintenance resulting from increased traffic volume during 2003.

Flight operations expenses, which accounted for 48.5% of total operating expenses in 2003, increased by 2.5% to RMB1,062 million. Of these expenses, fuel cost was RMB481 million, up 1.8%, mainly as a result of an increase in fuel prices caused by the outbreak of Iraq war. Air catering expenses decreased by 7.9% to RMB70 million during 2003 primarily as a result of stricter cost

control. Labour costs increased by 45.0% to RMB134 million largely due to increases in headcount and salary level by 20% in late 2002.

ADDITIONAL INFORMATION TO SHAREHOLDERS

Maintenance expenses which accounted for 11.4% of total operating expenses in 2003, increased by 23.2% to RMB250 million. The increase was primarily attributable to an increase in utilization rates of the aircraft.

Aircraft and traffic servicing expenses, which accounted for 12.6% of the total operating expenses in 2003, increased by 34.3% to RMB276 million, reflecting primarily an increase in the charge rate for domestic landing and navigation fees effective September 2002.

Promotional and sales expenses, which accounted for 6.3% of total operating expenses in 2003, increased by 17.2% to RMB138 million. The increase was mainly the result of an increase in commission and bonus paid to sales agents due to intensified competition.

General and administrative expenses, which accounted for 5.4% of the total operating expenses in 2003, increased by 21.2% to RMB119 million. The increase was mainly due to an increase in staff cost resulting from increases in headcount and salary level by 20% in late 2002.

Depreciation and amortization expenses, which accounted for 15.8% of the total operating expenses in 2003, decreased by 1.7% to RMB346 million. The decrease was mainly due to the reduction associated with fully depreciated property, plant and equipment which outweighed the additional depreciation on those property, plant and equipment purchased during 2003.

Non-operating income/(expenses)

Interest expense increased by 9.5% to RMB201 million in 2003, primarily reflecting a termination charge paid for early repayment of certain overseas U.S. dollar loans amounting to RMB43 million, the effect of which was partly offset by interest saving from scheduled debt repayments.

In connection with the Acquisition, the property, plant and equipment of the Airline Operations of Xinjiang Airlines Group as at 31 December, 2003 were revalued on a replacement cost basis as required by the relevant PRC rules and regulations. As a result of the revaluation, a deficit on revaluation of RMB235 million was resulted during 2003.

Taxation

The income tax credit for 2003 was RMB156 million as compared to a taxation expense of RMB9 million for 2002. This was mainly because the Airline Operations of Xinjiang Airlines Group incurred a loss before income tax of RMB481 million for 2003 as compared to a profit before income tax of RMB12 million for 2002.

As a result of the aforementioned reasons, the Airline Operations of Xinjiang Airlines Group incurred a net loss of RMB299 million for 2003 as compared to a net profit of RMB3 million for 2002.

ADDITIONAL INFORMATION TO SHAREHOLDERS

YEAR ENDED 31 DECEMBER 2002 COMPARED TO YEAR ENDED 31 DECEMBER 2001

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

Operating revenue

The total traffic revenue was RMB5,157 million in 2002, an increase of RMB51 million or 1.0% from 2001. This increase was primarily due to 18.0% or RMB60 million increase in cargo and mail revenue.

Passenger revenue was RMB4,765 million, down slightly by 0.2% from 2001, representing 92.4% of total traffic revenue. The decrease was mainly due to the decrease in passenger yield of 6.9% to RMB0.54.

Domestic passenger revenue was RMB3,908 million, up slightly by 2.2% from 2001. Domestic passenger revenue accounted for 82.0% of total passenger revenue. The increase in domestic passenger revenue was mainly due to the net effect of an increase in traffic volume of 12.8% to 7,800 million and a decrease in passenger yield of 9.1% to RMB0.50. The increase in traffic volume was the result of the continued PRC government's effort in stimulating domestic consumption which increased traffic demand. The decrease in passenger yield was mainly as a result of increased competition among the PRC airlines.

International passenger revenue was RMB857 million, down 9.9% from 2001. International passenger revenue accounted for 18.0% of overall passenger revenue. The decrease in international passenger revenue was mainly due to the net effect of a decrease in traffic volume of 26.1% to 986 million and an increase in passenger yield of 22.5% to RMB0.87. In January 2002, the Airline Operations of Northern Airlines Group suspended certain low yield and load factor international routes. This accounted for a decrease in traffic volume but an increase in passenger yield.

Cargo and mail revenue was RMB392 million, an increase of 18.0% from 2001. Cargo and mail revenue accounted for 7.6% of total traffic revenue in 2002. The increase in cargo and mail revenue was mainly to an increase in overall yield per RFTK of 14.3% to RMB2.16 resulting from the suspension of certain routes with low yield as mentioned above.

Other operating revenue decreased by 11.0% to RMB87 million in 2002. The decrease was primarily due to the net effect of a drop in aircraft wet lease income of RMB34 million and an increase in maintenance service income of RMB17 million.

Operating expenses

Total operating expenses increased by 4.2% to RMB5,552 million from 2002, representing an increase of RMB223 million. The increase was mainly due to the net effect of increases in landing and navigation fees and repair and maintenance, and a decrease in impairment loss on aircraft.

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Flight operations expenses, which accounted for 39.6% of total operating expenses in 2002, increased by 3.3% to RMB2,194 million. Of these expenses, fuel cost was RMB1,236 million, down 3.8%, mainly as a result of a decrease in fuel

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

prices. Air catering expenses increased by 9.6% to RMB205 million during 2002 primarily as a result of an increase in passenger carried. Labour costs increased by 15.8% to RMB322 million largely due to an increase of flying hours.

Maintenance expenses which accounted for 17.9% of total operating expenses in 2002, increased by 32.2% to RMB994 million. The increase was mainly due to year 2002 being a peak time for aircraft engine major repairs.

Aircraft and traffic servicing expenses, which accounted for 12.9% of the total operating expenses in 2002, increased by 7.4% to RMB717 million, reflecting primarily an increase in the charge rate for domestic landing and navigation fees effective September 2002.

Promotional and sales expenses, which accounted for 7.5% of total operating expenses in 2002, increased by 1.7% to RMB416 million. The increase was the result of an increase in operation scale.

General and administrative expenses, which accounted for 3.9% of the total operating expenses in 2002, increased by 34.3% to RMB219 million. The increase was mainly due to an increase in labour costs resulting from salary increment.

Depreciation and amortization expenses, which accounted for 11.9% of the total operating expenses in 2002, decreased by 2.4% to RMB662 million. The decrease was mainly due to the reduction associated with fully depreciated property, plant and equipment which outweighed the additional depreciation on those property, plant and equipment purchased during 2002.

Others which mainly represented impairment losses on aircraft and accounted for 6.3% of the total operating expenses, decreased by 34.7% to RMB350 million. The decrease was mainly due the absence of lump sum housing subsidy to eligible employees during 2002. Pursuant to the housing policy executed by the Airline Operations of Northern Airlines Group, the Airline Operations of Northern Airlines Group made payments totalling approximately RMB102 million to eligible employees in 2001 for the purpose of subsidising the employees in purchasing their houses.

Non-operating income/(expenses)

Interest income decreased by 52.3% to RMB29 million in 2002. This was mainly due to the combined effect of decreases in average cash balances and bank deposit interest rates.

Interest expense decreased by 3.3% to RMB701 million in 2002, primarily reflecting the combined effect of scheduled debt repayments and the decrease in interest rates on certain floating rates obligation as market interest rates dropped.

- 264 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

During 2002, the Airline Operations of Northern Airlines Group recorded a net exchange loss of RMB151 million as compared to a net exchange gain of RMB232 million in 2001. The net exchange loss in 2002 was predominantly due to its Japanese Yen denominated borrowings as a result of the Japanese Yen appreciation. Such amount comprised mostly unrealized translation gain.

Taxation

The taxation amount was small for both 2002 and 2001. This was because the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Airline Operations of Northern Airlines Group did not recognise any deferred tax assets in respect of its taxable losses in both years as the Airline Operations of Northern Airlines Group did not forecast any future taxable income to utilise the taxable losses.

As a result of the aforementioned reasons, the Airline Operations of Northern Airlines Group incurred a net loss of RMB1,141 million for 2002 as compared to a net loss of RMB502 million for 2001.

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

Operating revenue

The total traffic revenue was RMB2,215 million in 2002, an increase of RMB167 million or 8.2% from 2001. This increase was primarily due to the 7.9% or RMB154 million increase in passenger revenue.

Passenger revenue was RMB2,104 million, up by 7.9% from 2001, representing 95.0% of total traffic revenue. The increase was mainly due to an increase in traffic volume of 10.4%.

Domestic passenger revenue was RMB2,002 million, increased by 7.6% from 2001. Domestic passenger revenue accounted for 95.2% of overall passenger revenue. The increase in domestic passenger revenue was mainly due to the net effect of an increase of traffic volume of 10.8% to 3,768 million and a decrease in passenger yield of 3.6% to RMB0.53. The increase in traffic volume was the result of the continued PRC government's effort in stimulating domestic consumption which increased traffic demand. The decrease in passenger yield was mainly as a result of increased competition among the PRC airlines.

International passenger revenue was RMB102 million, up 14.6% from 2001. International passenger revenue accounted for 4.8% of overall passenger revenue. The increase in international passenger revenue was mainly due to an increase in passenger yield of 15.0% to RMB0.69 because of increased traffic demand.

Cargo and mail revenue was RMB111 million, an increase of 14.0% from 2001. Cargo and mail revenue accounted for 5.0% of total traffic revenue in 2002. The increase in cargo and mail revenue was mainly due to the net effect of an increase in traffic volume of 30.2% to 82 million and a decrease in overall yield per RFTK of 11.7% to RMB1.36 resulting from the intensified competition from other airlines.

- 265 -

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Other operating revenue increased by 9.1% to RMB138 million in 2002. The increase was primarily due to an increase in ground services income subsequent to the introduction of ground services in 2002.

Operating expenses

Total operating expenses increased by 13.2% to RMB2,156 million from 2001, representing an increase of RMB251 million. The increase was mainly due to the impairment loss recognised on aircraft and other flight equipment of RMB132 million.

Flight operations expenses, which accounted for 48.1% of total operating expenses in 2002, increased by 3.4% to RMB1,036 million. Of these expenses, fuel cost was RMB473 million, down 11.9%, mainly as a result of a decrease in fuel

prices. Air catering expenses increased by 10.1% to RMB76 million during 2002 primarily as a result of an increase in passenger carried. Labour costs increased by 8.2% to RMB92 million largely due to an increase of flying hours.

Maintenance expenses which accounted for 9.4% of total operating expenses in 2002, increased by 1.4% to RMB203 million. The increase was primarily attributable to an increase in flight hours.

Aircraft and traffic servicing expenses, which accounted for 9.5% of the total operating expenses in 2002, increased by 1.6% to RMB205 million, reflecting primarily an increase in the charge rate for domestic landing and navigation fees effective September 2002.

Promotional and sales expenses, which accounted for 5.4% of total operating expenses in 2002, increased by 17.4% to RMB117 million. The increase was the result of an increase in revenue.

General and administrative expenses, which accounted for 4.6% of the total operating expenses in 2002, increased by 13.7% to RMB98 million. The increase was mainly due to an increase in labour costs resulting from salary increment.

Depreciation and amortization expenses, which accounted for 16.3% of the total operating expenses in 2002, increased by 11.8% to RMB352 million. This increase was primarily as a result of addition of one Boeing 757-200 aircraft and two 757-200 jet engines during 2002.

Others which mainly represented the impairment loss on aircraft accounted for 6.7% of the total operating expenses in 2002. In accordance with certain regulations announced by the CAAC in 2002, IL86 aircraft were not allowed to fly unless they were installed with additional security modules starting from 1 January, 2003. After having evaluated the costs and benefits, management decided to ground the aircraft. Management assessed the recoverable amount of the three IL86 aircraft and their related flight equipment and spare parts. Impairment loss of approximately RMB132 million was provided for to write down the carrying value of the aircraft to their estimated net realisable value during 2002.

APPENDIX VII

ADDITIONAL INFORMATION TO SHAREHOLDERS

Non-operating income/(expenses)

Interest expense decreased by 2.7% to RMB184 million in 2002, primarily reflecting the effect of scheduled debt repayments.

Taxation

The income tax for 2002 was RMB9 million as compared to RMB36 million for 2001. The decrease was mainly due to a decrease in profit before income tax.

As a result of the aforementioned reasons, the Airline Operations of Xinjiang Airlines Group had a net profit of RMB3 million for 2002 as compared to a net profit of RMB41 million for 2001.

LIQUIDITY

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

As of 30 June 2004, the Airline Operations of Northern Airlines Group's borrowings totalled RMB9,044 million. The majority of such borrowings were

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

denominated in United States dollars and, to a smaller extent, in Japanese yen and Renminbi, with a significant portion being fixed interest rate borrowings ranging from 5.94% to 8.18%. Of such borrowings, RMB1,830 million, RMB1,294 million, RMB2,310 million, RMB1,279 million and RMB2,331 million will be repayable in 2005, 2006, 2007, 2008, 2009 and thereafter respectively.

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

As of 30 June 2004, the Airline Operations of Xinjiang Airlines Group's borrowings totalled RMB2,792 million. The majority of such borrowings were denominated in United States dollars and Renminbi, with a significant portion being fixed interest rate borrowings ranging from 5.77% to 7.63%. Of such borrowings, RMB1,057 million, RMB320 million, RMB314 million, RMB222 million and RMB879 million will be repayable in 2005, 2006, 2007, 2008, 2009 and thereafter respectively.

FINANCIAL RISK MANAGEMENT POLICY

In the normal course of business, each of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group is exposed to fluctuations in foreign currencies and jet fuel prices. Their exposure to foreign currencies is mainly attributable to their debts denominated in foreign currencies. Depreciation or appreciation of the Renminbi against foreign currencies could affect results and financial position of the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group significantly, as their foreign currency payments generally exceed its foreign currency receipts. Both the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group are not able to hedge their foreign currency exposure effectively other

than by retaining their foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, by entering into forward foreign exchange contracts with authorized PRC banks.

Both the Airline Operations of Northern Airlines Group and the Airline Operations of Xinjiang Airlines Group are required to procure a majority of its jet fuel domestically at PRC spot market prices. There are currently no effective means available to either the Airline Operations of Northern Airlines Group or the Airline Operations of Xinjiang Airlines Group for managing their exposure associated with the fluctuations in domestic jet fuel prices.

CHARGES ON ASSETS

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

As of 30 June 2004, certain aircraft of the Airline Operations of Northern Airlines Group with an aggregate carrying value of approximately RMB6,941 million were mortgaged under certain loan and finance leases.

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

As of 30 June 2004, certain aircraft of the Airline Operations of Xinjiang Airlines Group with an aggregate carrying value of approximately RMB1,689 million were mortgaged under certain loan agreements.

COMMITMENTS AND CONTINGENCIES

THE AIRLINE OPERATIONS OF NORTHERN AIRLINES GROUP

As of 30 June 2004, the Airline Operations of Northern Airlines Group had capital commitments of approximately RMB909 million. Of such amounts, RMB860 million was related to the acquisition of aircraft and related flight equipment. The remaining amount of RMB49 million was related to the Airline Operations of Northern Airlines Group's office facilities and equipment, overhaul and maintenance bases and training facilities.

The details of the contingencies of the Airline Operations of Northern Airlines Group was set out on page 105 of the Circular.

THE AIRLINE OPERATIONS OF XINJIANG AIRLINES GROUP

As of 30 June 2004, the Airline Operations of Xinjiang Airlines Group had capital commitments of approximately RMB12 million. They were related to the Airline Operations of Xinjiang Airlines Group's office facilities and equipment, overhaul and maintenance bases and training facilities.

As at 30 June, 2004, the Airline Operations of Xinjiang Airlines Group was not subject to any major contingent liabilities.

PROPERTY VALUATION

The following is the text of the letter, summary of values and valuation certificate received from Chesterton, an independent property valuer, prepared for the purpose of incorporation in this Circular, in connection with their valuation of the property interests held and to be acquired by the Group as at 31 August, 2004.

The Directors
China Southern Airlines Company Limited
Baiyun International Airport
Guangzhou City
Guangdong Province
The People's Republic of China

Dear Sirs,

In accordance with your instructions to us to value the property interests to be acquired by China Southern Airlines Company Limited (hereinafter referred to as the "Company") from China Southern Air Holding Company ("CSAHC") which are originally held by China Northern Airlines Company and Xinjiang Airlines Company and those property interests held by the Company and its principal subsidiaries and associated company (hereinafter together referred to as the "Group"), we confirm that we have carried out inspections, made relevant enquiries and obtained such further information as we consider necessary for the purpose of providing you with our opinion of the open market values of the property interests as at 31 August, 2004.

Our valuation is our opinion of the open market value which we would define as intended to mean "the best price at which the sale of an interest in a property would have been completed unconditionally for cash consideration on the date of valuation assuming:

- (a) a willing seller;
- (b) that, prior to the date of valuation, there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest, for the agreement of price and terms and for the completion of the sale;
- (c) that the state of the market, level of values and other circumstances were, on any earlier assumed date of exchange of contracts, the same as on the date of valuation;

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

APPENDIX VIII

PROPERTY VALUATION

- (d) that no account is taken of any additional bid by a prospective purchaser with a special interest; and
- (e) that both parties to the transaction had acted knowledgeably, prudently and without compulsion".

Our valuation has been made on the assumption that the owner sells the property interest in the open market without the benefit of a deferred term contract, leaseback, joint venture, management agreement or any similar arrangement which would serve to increase the values of the property interests. In addition, no account has been taken of any option or right of pre-emption concerning or affecting the sale of the property interest and no forced sale situation in any manner is assumed in our valuation.

In valuing the property interests, we have assumed that, unless otherwise stated, CSAHC and its subsidiaries and the Company have an enforceable title to each of the property interests to be acquired and those held by the Group, respectively, and have free and uninterrupted rights to use, occupy or assign the property interests for the whole of the respective unexpired terms as granted. In the course of our valuation to the properties held by the Group in the PRC, we have also assumed that, unless otherwise stated, transferable land use rights in respect of the properties for their respective specific terms at nominal annual land use fees have been granted and that any premium payable has already been fully paid. We have relied on the advice given by the Group and its PRC legal advisers, Z & T Law Firm, on the PRC laws regarding the title to the properties.

Due to the specific purposes for which most of the buildings and structures to be acquired in Group I and those held by the Group in Groups IV and V have been constructed, there are no readily identifiable market comparables available, thus the buildings and structures cannot be valued on the basis of direct comparison. They have therefore been valued on the basis of their depreciated replacement cost. We would define depreciated replacement cost to be our opinion of the land value in its existing use together with an estimate of the new replacement costs of the buildings and structures, including fees and finance charges, from which deductions are then made to allow for age, condition and functional obsolescence. The depreciated replacement cost approach generally provides the most reliable indication of value for property in the absence of a known market based on comparable sales.

We have valued the property interest in Group VI by using "Direct Comparison Approach" with the benefit of vacant possession and by reference to comparable sales evidence as available in the market.

Property interests under construction in Groups II and VII have been valued on the basis of their prevailing costs level and status of construction as at the date of valuation. We have assumed that all consents, approvals and licences from the relevant government authorities for such constructions and related development proposals have been granted without any onerous conditions or undue delay which might affect their values.

The properties in Group III which are to be rented by the Company and those in Groups VIII which are rented by the Group in the PRC and overseas have been assigned no commercial value due to the short term nature or the prohibition against assignment or sub-letting, or lack of substantial profit rent.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

APPENDIX VIII

PROPERTY VALUATION

In valuing the property interests, we have complied with the requirements contained within the relevant provisions as stipulated in Chapter 5 and Practice Note 12 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, except to those in respect of which waiver in respect of Rule 5.06 of the Listing Rules has been applied for due to the large number of land and buildings involved in the Acquisition.

We have been provided with copies of extracts of title documents relating to the property interests. However, we have not inspected the original documents to verify the ownership or to verify any amendments which may not appear on the copies handed to us. We have relied to a considerable extent on information given by the Group and the legal opinion of the Group's PRC legal advisers and have accepted advice given to us on such matters as planning approvals or statutory notices, easements, tenure, particulars of occupancy, identification of the property, development proposals, completion dates of buildings, floor and site areas, construction costs incurred, attributable interests and all other relevant information. Dimensions, measurements and areas included in the valuation certificate are based on information contained in the documents provided to us and are therefore only approximations. We have not been able to carry out on-site measurements to verify the correctness of the site and floor areas of the properties and we have assumed that the site and floor areas shown on the documents handed to us are correct.

We have inspected the exteriors and, where possible, the interiors of the properties. However, we have not carried out any site investigations to determine the suitability of the ground conditions and the services etc, for any future development. Our valuation is prepared on the assumption that these aspects are satisfactory and that no extraordinary expenses or delays will be incurred during the construction period. Moreover, no structural survey has been made, but in the course of our inspection, we did not note any serious defects. We are not, however, able to report that the properties are free of rot, infestation, or any other structural defects. No test has been carried out to any of the services.

No allowance has been made in our valuation for any charges, mortgages or amounts owing on any property or for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the properties are free from encumbrances, restrictions and outgoings of an onerous nature which could affect their values.

Unless otherwise stated, all money amounts are stated in Renminbi. The exchange rates used in calculating the values of the property interests in Groups IV and V into Renminbi, being AUD1=RMB5.849 and Euro1=RMB10.086 and they have no significant fluctuation between the date of valuation and the date of this letter.

We enclose herewith a summary of values and valuation certificate.

Yours faithfully

(1,446,212 sq.ft.).

The land use rights of the properties are held for a term of 49 years from 26 August, 2004 to 1 January, 2053.

Notes:

- (1) Pursuant to the land use rights leasing agreement entered into between the Company and CSAHC on 12 November, 2004 (the "Lease Agreement") CSAHC agreed to lease 22 parcels of land with a total area of approximately 633,740.93 sq.m. to the Company at an annual rental of RMB10,340,449 for a term of three years with an option to renew for further terms (subsequent annual rents will remain unchanged) where the entire lease term is either not less than the term specified in the corresponding Building Ownership Certificates of the buildings erected on the lands or the corresponding residual useful life of buildings determined in valuations when the Company purchases the buildings, whichever is longer.
- (2) We have been provided with a copy of the legal opinion on the title to the properties prepared by Z & T Law Firm, the Company's PRC legal adviser, which contains, inter alia, the following information:
 - (i) CSAHC has obtained the authorized land use rights of 9 parcels of land with a total area of approximately 134,356.36 sq.m.
 - (ii) China Northern Airlines has obtained the Building Ownership Certificates for 27 buildings.

- (iii) The Lease Agreement is legally valid. During the lease term, the Company has the right to occupy and use the leased lands;
 - (iv) CSAHC has agreed to bear all liabilities, losses and costs arising from disputes on the land use rights of the leased lands and to indemnify the Company in respect of losses to the buildings and structures erected on the leased lands;
 - (v) CSAHC and China Northern Airlines Company have agreed to indemnify the Company in respect of disputes on the title and the incorrectness to the buildings and structures of the properties; and
 - (vi) The transfer of buildings and structures of the properties to the Company has no legal impediment. After the acquisition, the Company will have the ownership to the buildings and structures of the properties and can use, mortgage, lease and sell the buildings and structures of the properties. However, if the Company sells the buildings and structures of the properties to third parties (other than CSAHC, its subholdings, subsidiaries and associates), the Company shall obtain an approval from relevant State-owned Land Resources Administration Bureaus and pay relevant land grant fees. While the sale, CSAHC has agreed to assist the Company in proceeding the relevant procedures for conversion the lands to granted lands but not to bear any procedural costs.
- (3) We have assigned no commercial value to the land portions of the
