#### Commentary

Mukhtar Hussain, Deputy Chairman and Chief Executive Officer of HSBC Bank Malaysia Berhad ('the Bank'), commented: "We recorded a strong increase of MYR187m, or 18.6%, in profit before tax for the first nine months of 2012 by continuing to expand our Malaysian business, and the prudent management of overheads, which created organic growth across all business lines.

"Malaysia's GDP growth for 2012 continues to be spurred by robust domestic and private consumption, effectively mitigating against negative spillovers from weaknesses in the external environment. The government's efforts through the Economic Transformation Programme (ETP) as well as the Government Transformation Programme (GTP) have contributed to sustainable economic growth within the country.

"We continue to remain optimistic about the Bank's prospects in Malaysia and are committed to investing and contributing positively towards the economic and financial development of the country."

#### Financial commentary

HSBC Bank Malaysia Berhad reported profit before tax of MYR1,193m in the first nine months of 2012, an increase of 18.6% or MYR187m compared with the same period in 2011.

Operating income grew to MYR2,267m, an increase of MYR187m or 9.0% compared with the same period last year. This was mainly due to higher income from Islamic banking operations of MYR425m (up MYR113m or 36.3%), higher net interest income of MYR958m (up MYR80m or 9.2%), higher net fee income of MYR365m (an increase of MYR9m or 2.6%), offset by lower trading profits of MYR490m, down MYR24m or 4.8%.

## Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

The robust growth rate in income from Islamic Banking Operations was driven by strong growth in net financing income (at MYR323m, up MYR58m or 22.0%) and Islamic trading profits (at MYR45m, up MYR33m or 258.4%). The strong momentum and interest in Islamic Banking in the local and international financial industry, coupled with the Bank's investments in domestic network coverage supported the expansion of Islamic income. Net interest income grew because the size of the average loan and financing base increased and net fee income improved from increased corporate finance related fees.

Loan impairment charges and other credit risk provisions remain stable with only a marginal increase of MYR6m or 3.3% for the nine months ended 30 September 2012 compared to the same period last year. The increase was mainly due to higher provisions for net collective loan impairments (up MYR21m) and individual loan impairments (up MYR28m) on the expansion in gross loans, advances and financing. The higher provisions were partly offset by reduced levels of written-off impaired loans and financing (down MYR22m). Operating expenses were relatively unchanged at MYR899m (30 September 2011: MYR900m).

Gross loans, advances and financing at 30 September 2012 increased by MYR2.9bn to MYR43.2bn (31 December 2011: MYR40.3bn). Total assets at 30 September 2012 were MYR77.6bn, MYR2.3bn lower compared with MYR79.9bn at 31 December 2011. The decrease was due mainly to lower deposits and placements from banks and financial institutions (30 September 2012: MYR7.2bn; 31 December 2011: MYR9.9bn).
