RESULTS FOR THE FIRST QUARTER TO 30 JUNE 2014

BT Group plc (BT.L) today announced its results for the first quarter to 30 June 2014.

		First quarter to 30 June 2014	
		£m	Change
Revenue ¹		4,354	(2)%
Underlying revenue ² excluding transit			0.5%
EBITDA ¹		1,435	0%
Profit before tax	- adjusted ¹	638	7%
	- reported	546	22%
Earnings per share	- adjusted ¹	6.5p	10%
	- reported	5.6p	27%
Normalised free cash flow ³		122	£182m
Net debt		7,079	£(979)m

Gavin Patterson, Chief Executive, commenting on the results, said:

"We have made a good start to the year. We have delivered growth in underlying revenue excluding transit and in profit before tax, and free cash flow was strong.

"Our fibre broadband network now covers more than twenty million premises. We are passing over 70,000 additional premises each week and demand is strong with more than three million already signed up. We have announced a further 2,500 new jobs in recent months to support our strategic investments in fibre and customer service.

"I'm excited by the launch of BT One Phone for the business market as well as our other mobility plans. We'll say more on these later this financial year. The second season of BT Sport is about to start with a great line-up of content and it will continue to be free with BT Broadband. We are building on solid foundations and I am confident we will deliver on our strategy."

Key points for the first quarter:

- Underlying revenue excluding transit up 0.5%
- Cost transformation running at a similar pace to last financial year; underlying operating costs⁴ excluding transit and BT Sport down 3%
- EBITDA¹ flat and earnings per share¹ up 10%
- BT Global Services and BT Business both grew EBITDA despite lower revenue
- Our outlook remains unchanged

1 Before specific items. Specific items are defined on page 3

2 Excludes specific items, foreign exchange movements and the effect of acquisitions and disposals

3 Before specific items, purchases of telecommunications licences, pension deficit payments and the cash tax benefit of pension deficit payments

4 Excludes specific items, foreign exchange movements and the effect of acquisitions and disposals, and is before depreciation and amortisation

Notes:

The commentary focuses on the trading results on an adjusted basis, which is a non-GAAP measure, being before 1. specific items. Unless otherwise stated, revenue, operating costs, earnings before interest, tax, depreciation and amortisation (EBITDA), operating profit, profit before tax, net finance expense, earnings per share (EPS) and normalised free cash flow are measured before specific items. This is consistent with the way that financial performance is measured by management and reported to the Board and the Operating Committee and assists in providing a meaningful analysis of the trading results of the group. The directors believe that presentation of the group's results in this way is relevant to the understanding of the group's financial performance as specific items are those that in management's judgement need to be disclosed by virtue of their size, nature or incidence. In determining whether an event or transaction is specific, management considers quantitative as well as qualitative factors such as the frequency or predictability of occurrence. Specific items may not be comparable with similarly titled measures used by other companies. Reported revenue, reported operating costs, reported EBITDA, reported operating profit, reported profit before tax, reported net finance expense, reported EPS and reported free cash flow are the equivalent unadjusted or statutory measures.

Trends in underlying revenue, trends in underlying operating costs, and underlying EBITDA are non-GAAP 2. measures which seek to reflect the underlying performance of the group that will contribute to long-term profitable growth and as such exclude the impact of acquisitions and disposals, foreign exchange movements and any specific items. We focus on the trends in underlying revenue and underlying operating costs excluding transit as transit traffic is low-margin and is significantly affected by reductions in mobile termination rates.
