FURTHER ADVANCE IN SIGNET'S THIRD QUARTER RESULTS

Signet Group plc (LSE: SIG and Nasdaq NMS: SIGY), the world's largest speciality retail jeweller, today announced results for both the 13 weeks and the 39 weeks to 1 November 2003.

Group

In the 13 weeks to 1 November 2003, Group profit before tax rose to £5.1 million (2002/03: £3.6 million restated for FRS 17 Retirement Benefits), with like for like sales up by 4.7%. Total sales were £289.4 million (2002/03: £278.9 million), an increase of 7.1% at constant exchange rates (see Note 10); at actual exchange rates there was an increase of 3.8%. Operating profit was £8.3 million (2002/03: £6.7 million restated). Net interest payable for the 13 weeks was £3.2 million (2002/03: £3.1 million restated).

In the 39 week period, Group profit before tax at £52.9 million (2002/03: £51.2 million restated) advanced by 10.9% at constant exchange rates (see Note 10) and by 3.3% on a reported basis. Like for like sales increased by 3.3%. Total sales at £956.8 million (2002/03: £961.7 million) reflected an increase of 5.5% at constant exchange rates; at actual exchange rates there was a small decrease of 0.5%. Operating profit rose by 8.2% at constant exchange rates, but was similar to last year at £62.2 million (2002/03: £62.0 million restated) on a reported basis. Net interest payable was £9.3 million (2002/03: £10.8 million restated). Earnings per share were 2.0p (2002/03: 1.9p restated).

United States (circa 71% of Group annual sales)

In the 13 weeks to 1 November 2003, US operating profit increased to £5.7 million (2002/03: £4.5 million), the operating margin being 3.0% (2002/03: 2.4%). Like for like sales were up by 4.5%. Total sales increased by 7.7% at constant exchange rates and were up by 2.8% on a reported basis at £192.9 million (2002/03: £187.7 million). The gross margin was broadly similar to that of last year; a range of management initiatives continuing to offset gold price increases and the effect of some planned changes in product mix. The gold price increase is expected to have a slightly greater impact in the fourth quarter. The level of bad debt charges continued below last year's level.

In the 39 weeks, US operating profit was up by 5.4% on a constant exchange rate basis but on a reported basis declined to £54.6 million (2002/03: £56.3 million). The operating margin was unchanged at 8.2%. Like for like sales were up by 2.8%. Total sales advanced by 5.7% at constant exchange rates but decreased by 2.8% on a reported basis to £667.8 million (2002/03: £686.8 million). The bad debt charge was 3.0% (2002/03: 3.2%).

Space growth this year is expected to be about 7%. The expansion of the Leo Diamond range continues and other branded merchandising programmes are being developed. Staff training is at a record level. Kay's television advertising for this Christmas will increase and in the case of Jared it will more than double. Overall spending on marketing as a proportion of sales will be slightly higher than last year.

United Kingdom (circa 29% of Group annual sales)

In the 13 weeks to 1 November 2003, UK operating profit rose to £4.1 million (2002/03: £3.5 million restated) and operating margin advanced to 4.2% (2002/03: 3.8%). Like for like sales increased 5.0%, with total sales up by 5.8% to £96.5 million (2002/03: £91.2 million). Gross margin continued to be above last year's level.

In the 39 weeks to 1 November 2003, UK operating profit increased by 22.7% to £11.9 million (2002/03: £9.7 million restated), the operating margin being 4.1% (2002/03: 3.5% restated). Like for like sales advanced by 4.7% and total sales rose by 5.1% to £289.0 million (2002/03: £274.9 million). The gross margin was ahead of last year.

By Christmas, 52 stores are expected to be trading using the new, more open store format which is designed to allow greater interaction with the customer. The new format, greater focus on staff training and enhanced merchandising are all elements of the drive to increase diamond participation and improve store productivity. Television advertising for both H.Samuel and Ernest Jones is being tested in certain regions this Christmas.

Group Central Costs, Taxation and Net Debt

In the 13 week period, Group central costs were £1.5 million (2002/03: £1.3 million). In the 39 weeks Group central costs were £4.3 million (2002/03: £4.0 million). The tax rate was similar at 35.5%. Net debt at 1 November 2003 was £187.6 million (2 November 2002: £254.6 million; £233.6 million at constant exchange rates, see Note 10).

Prior Year Adjustment

The Group has adopted FRS 17 Retirement Benefits. The overall effect has been a net charge of £0.5 million to profit before tax in the third quarter against the restated comparable period impact of £nil million. For the 39 weeks to 1 November 2003 the effect was a net charge of £1.4 million against the restated comparable period net credit of £0.1 million. Under the market-based approach of FRS 17 there was a £6.7 million pension fund deficit at 1 February 2003 in comparison to a balance sheet asset of £19.1 million under SSAP 24. Consequently a non-cash charge of £18.1 million, net of deferred tax, has been accounted for by way of a prior year adjustment charged directly to reserves to reflect this change, representing 2.7% of shareholders' funds at 1 February 2003. Details of the impact of adopting FRS 17 are shown in Note 9 of the third quarter 2003/04 results.

COMMENT

Terry Burman, Group Chief Executive, commented: The results in the first nine months have been encouraging given the 9% weakening of the US dollar against sterling. The US business again outperformed its main competition and gained market share in a mixed economic environment. The UK like for like sales growth of 4.7% was ahead of the general retail sector and further improved its operating margin.

Edgar Filing: SIGNET GROUP PLC - Form 6-K

Supported by a number of new and continuing initiatives both businesses are well positioned to compete during the important fourth quarter.

Signet operated 1,694 speciality retail jewellery stores at 1 November 2003; these included 1,092 stores in the US, where the Group trades as Kay Jewelers , Jared The Galleria Of Jewelry and under a number of regional names. At that date Signet operated 602 stores in the UK, where the Group trades as H.Samuel , Ernest Jones and Leslie Davis . Further information on Signet is available at www.signetgroupplc.com.

Notes to the unaudited interim financial results

for the periods ended 1 November 2003

1. Basis of preparation

These interim financial statements are unaudited and do not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985. They have been prepared on a basis which is consistent with the financial statements for the 52 weeks ended 1 February 2003 except where restatements arise from the implementation of FRS 17 Retirement Benefits. The comparative figures for the 52 weeks ended 1 February 2003 are not the Company's statutory accounts for that period. Those accounts have been reported on by the Company's auditors under Section 235 of the Companies Act 1985 and have been delivered to the Registrar of Companies. The report of the auditors was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the Companies Act 1985.

Notes to the unaudited interim financial results

for the periods ended 1 November 2003

9. Prior year adjustment

It was previously the Company's policy, in compliance with SSAP 24, to spread the pension valuation surplus arising under its UK defined benefit pension scheme (the Scheme) over the average service life of the employees. In compliance with this standard, a pension scheme prepayment of £19.1m was included in the balance sheet at 1 February 2003 within debtors falling due after more than one year. An associated deferred tax liability of £5.7m was also carried on the balance sheet at 1 February 2003.

The adoption of FRS 17 Retirement Benefits has led to the write off of the £19.1m pension asset previously recognised under SSAP 24 together with provision for the net deficit of £6.7m in the Scheme as at 1 February 2003. This £6.7m net deficit has been classified as a creditor falling due after more than one year. The £5.7m deferred tax liability associated with the SSAP 24 pension asset has been written back and a £2.0m deferred tax asset has been recognised in respect of the net deficit provided for under FRS 17. The total net deficit of £18.1m arising from the adoption of FRS 17 has been accounted for as a prior year adjustment charged directly to shareholders' funds.

The consolidated statement of total recognised gains and losses for the 52 weeks ended 1 February 2003 has been restated to include the actuarial loss on pension assets arising during that period net of deferred tax, calculated in accordance with FRS 17. This amounted to £22.3m.

The profit and loss accounts for the 13 weeks and for the 39 weeks ended 2 November 2002 and for the 52 weeks ended 1 February 2003 have been restated to include the following items, reflecting the requirements of FRS 17.

Notes to the unaudited interim financial results

for the periods ended 1 November 2003

10. Impact of constant exchange rates

The Company has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. The Company considers this a useful measure for analysing and explaining changes and trends in the Company's results. The impact of the re-calculation of sales, operating profit, profit before tax and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.
