Stock-Based Compensation Plans

Dominion has granted stock options and restricted stock to Dominion's directors and certain officers, including the executive officers, and key employees.

Equity-Linked Debt Securities

In 2002 and 2000, Dominion issued equity-linked debt securities, consisting of stock purchase contracts and senior notes. The stock purchase contracts obligate the holders to purchase shares of Dominion's common stock from Dominion by a settlement date, two years prior to the senior notes' maturity date. The purchase price under the stock purchase contracts is \$50 and the number of shares to be purchased will be determined under a formula based on the average closing price of Dominion's common stock near the settlement date. The senior notes, or treasury securities

## Edgar Filing: DOMINION RESOURCES INC /VA/ - Form SC TO-I/A

in some instances, are pledged as collateral to secure the purchase of common stock under the related stock purchase contracts. The holders may satisfy their obligations under the stock purchase contracts by allowing the senior notes to be remarketed with the proceeds being paid to Dominion as consideration for the purchase of stock. Alternatively, holders may choose to continue holding the senior notes and use other resources as consideration for the purchase of stock under the stock purchase contracts.

Dominion makes quarterly interest payments on the senior notes and quarterly payments on the stock purchase contracts. Dominion has recorded the present value of the stock purchase contract payments as a liability, offset by a charge to common stock in shareholders' equity. Interest payments on the senior notes are recorded as interest expense and stock purchase contract payments are charged against the liability. Accretion of the stock purchase contract liability is recorded as interest expense.

Under the terms of the stock purchase contracts, Dominion will issue between 6.7 million and 8.1 million shares of its common stock in November 2004 and between 4.1 million and 5.5 million shares of its common stock in May 2006. A total of 13.6 million shares of Dominion's common stock has been reserved for issuance in connection with the stock purchase contracts.

Forward Equity Transaction

In September 2004, Dominion entered into a forward equity sale agreement (forward agreement) with Merrill Lynch International (MLI), as forward purchaser, relating to 10 million shares of Dominion's common stock. The forward agreement provides for the sale of two tranches of Dominion common stock, each with stated maturity dates and settlement prices. In connection with the forward agreement, MLI borrowed an equal number of shares of Dominion's common stock from stock lenders and, at Dominion's request, sold the borrowed shares to J.P. Morgan Securities Inc. (JPM) under a purchase agreement among Dominion, MLI and JPM. JPM subsequently offered the borrowed shares to the public. The forward agreement was accounted for as equity at its initial fair value.

Dominion did not initially receive any proceeds from the sale of the borrowed shares. Except in specified circumstances or events that would require physical share settlement, Dominion may elect to settle the forward agreement by means of a physical share, cash or net share settlement. If Dominion elects to settle all of the shares subject to the forward agreement with stock, it will receive aggregate proceeds of approximately \$644 million, based on maturity forward prices of \$64.62 per share for the 2 million shares included in the first tranche and \$64.34 per share for the 8 million shares included in the second tranche. The first tranche must settle by December 20, 2004, and the second tranche must settle by May 17, 2005. Dominion may elect to settle all or part of either tranche earlier, at fixed settlement prices provided in the forward agreement. Dominion will not be required to deliver more than 10 million shares under the forward agreement.

The total consideration required to purchase all of the outstanding Old Notes is \$220,000,000 principal amount of New Notes and an aggregate exchange fee \$550,000. The exchange fee will be paid from Dominion's working capital. Dominion does not expect that any alternate financing arrangements will be required.
