Additional Information for Consideration

We view equity based awards as a key element of our performance based compensation programs. We believe we have historically been prudent about the use of equity as a compensation tool. Although stockholders and investors should not necessarily infer anything about our future grant practices, stockholders should note the information below, which discloses the amount of equity granted under our stock incentive plans in 2004, 2005, 2006 and the first quarter of 2007. These numbers should be considered in relation to the number of shares we have repurchased in the corresponding periods, which is also provided below. In fact, we have repurchased approximately 6,814,930 shares over the last nine quarters since our initial public offering in December 2004.
