Bumgarner, Carlisle (Chairman), Carter and Phillips. The Board of Directors has determined that each of the members of the Audit Committee is independent as defined by NYSE listing standards and the rules of the SEC applicable to audit committee members, and that Mr. Carlisle qualifies as an audit committee financial expert as described in Item 401(h) of Regulation S-K. The Audit Committee has a charter under which its primary purpose is to assist the Board in overseeing (1) the integrity of the Company's financial statements, (2) the independent registered public accountants' qualifications and independence, (3) the performance of the Company's internal audit function and independent registered public accountants and (4) the compliance by the Company with legal and regulatory requirements. The Audit Committee is directly responsible for the appointment and compensation of the independent registered public accountants. During fiscal year 2006, the Audit Committee held five (5) meetings.

To the Company's knowledge, with respect to the year ended December 31, 2006, all applicable filings were timely made.

Item 11. Executive Compensation

Compensation Discussion & Analysis

The objectives of the Company's compensation program are (i) to attract and retain the best available talent, (ii) to motivate employees to achieve the Company's goals, (iii) to link employee and stockholder interests through performance rewards and (iv) to provide compensation that can recognize individual contributions to corporate objectives. The Company's compensation philosophy is designed so that a substantial component of each employee's potential annual compensation is dependent upon measurable improvement to stockholder value. Decisions with respect to the compensation of the Company's executive officers are made by the Compensation Committee (the "Committee") of the Board of Directors. The compensation of non-executive officers is determined by the executive officers. The compensation of the Chief Executive Officer is recommended by the Committee and approved by the independent members of the Board of Directors.

The Committee based its decisions with respect to performance-measured compensation of our Named Officers for services rendered in 2006 upon these principles and its assessment of each officer's potential to enhance long-term stockholder value. The Committee also considered each executive officer's current salary and prior year compensation, as well as compensation paid to the executive officer's peers. The Committee engages Frederic W. Cook & Co., Inc. as a consultant to assist it in determining appropriate types and levels of compensation. The Committee expects recommendations from the Company's Chief Executive Officer but exercises its own judgment and makes its own determination.

Types of Compensation

The Company provides two main types of compensation to executive officers:

- (1) annual compensation, consisting of a base salary and an incentive bonus on the attainment of corporate and individual objectives; and
- (2) long-term compensation, consisting of stock options, the value of which is directly linked to the value of a share of the Company's Common Stock, and restricted stock units.

Annual Compensation

At least once each year, the Committee reviews the Company's executive compensation program. This review is conducted with the assistance of the Company's compensation consultant. The consultant's analysis includes an assessment of the Company's executive officers' compensation levels compared to other executive officers in similar positions in the Company's industry sector. The annual base salary of each executive is determined by an analysis of the compensation paid to other executive officers in similar positions in the Company's proxy peer group and market data derived from a combination of sources, including published salary survey data of other exploration and production companies. The Committee targets the median to 75th percentile for base salary. A competitive base salary is consistent with the Company's long-term objectives of attracting and retaining highly qualified, competent executives.

The incentive bonus is particularly aligned with the interests of the Company's stockholders. Incentive bonuses are based on quantitative and qualitative factors that the Committee may deem appropriate and the Committee's assessment of the individual's performance. While the Committee does not apply a completely formulaic approach, in 2006 the quantitative factors considered consisted of predetermined targets of production growth (both organic and through acquisitions), reserve replacement, reserve replacement cost relative to peers, lease operating expense per barrel of oil equivalent (*Loe/Boe*) and the increase in value of the Company's Common Stock relative to peers. The Committee has in the past adjusted targets for extraordinary events such as significant storms. The Committee also compares the Company's results against the results of its proxy peer group. A target bonus percentage of base salary is predetermined and periodically reviewed for each executive on the basis of market practices, although actual bonus payments can be significantly affected by the Committee's assessment of individual performance. The target bonus percentages for the current Named Officers set forth in the Summary Compensation Table are as follows: Mr. Bachmann, 100%; Mr. Gobe, 65%; Mr. Peper, 55%; Mr. Woodall, 55%; Mr. Dykes, 50%; and Mr. LeBlanc, 40%. The Committee targets the 75th percentile for the combination of base salary and incentive bonus when results warrant. In reviewing quantitative factors, the Committee will determine each year whether a threshold level of performance below the Company's objectives is deserving of any bonus percentage, taking into account external factors beyond the control of the executives. For 2006, the Committee determined that the Company exceeded its target for production growth of 10% and that the Company's stock price performance over the year was at the top of its peer group. The Company did not meet its targets relative to reserve replacement (130%), *Loe/Boe* (\$5.40) and for reserve replacement cost (an indexed target based on peer performance). Based on these results, the Committee determined that a bonus in accordance with the Company's quantitative factors of 68% of target was warranted. The bonuses for Named Officers are set forth below under Summary Compensation. The Committee has not yet established the corporate targets that are to serve as the quantitative factors used in determining incentive bonuses for 2007 performance.

Long-Term Compensation

In determining the appropriate levels of incentive compensation, the Committee reviews comparable compensation, as well as historical share usage and dilution analyses and the fair value of long-term compensation as a percentage of market capitalization, of its proxy peer group. It also reviews the mix of equity forms used by exploration and production companies of similar size and revenues in compensating executive officers.

Last year the Committee determined to use a combination of stock options and restricted stock units to provide equity compensation to the executive officers. These equity forms create an alignment of interests with the

Company's stockholders. Stock options have an exercise price equal to the fair market value of the date of grant, and have a ten-year term, vesting in one-third increments on the first three anniversaries of the date of grant. If any grantee voluntarily leaves the Company other than by reason of retirement, unvested options are forfeited and vested options must be exercised within 30 days. Unvested options will become immediately exercisable upon a change of control (as defined) of the Company. Restricted stock units have been granted rather than performance shares (as used in prior years), consistent with competitive practices. If any grantee leaves the Company, unvested restricted share units are forfeited. Unvested restricted share units will become fully vested upon a change of control (as defined) of the Company. Each restricted stock unit vests in one-third increments on the first three anniversaries of the date of grant for annual awards, but could vest differently if used as an employment or other special award, as determined by the Committee. The Committee has not yet made long-term incentive awards for executives for 2007.

The Committee has historically targeted the 75th percentile for long-term compensation. In 2006, the desired dollar value of long-term compensation was divided between stock options (75%) and restricted stock units (25%) based on the binomial value of the stock options with FAS 123R assumptions and the market price of Common Stock at grant for restricted stock units. For 2006, the Committee approved awards in March 2006 for our executive officers based on the 50th percentile, and determined to review additional potential awards later in the year when additional peer group data was available. Additional awards were made in August 2006 based on the 75th percentile after review of more current compensation information that was not available in March 2006. The awards are set forth under Summary Compensation.

The Committee also reviewed data relating to the 2004-2006 performance cycle, and determined that the increase in reserves per share target of 25% per year and the increase in value of proved reserves target of 5% per year were not met, but the three year average of total shareholder return exceeded the maximum of 20% per year. As a result, the Committee vested two-thirds of the performance shares, or an aggregate of 69,000 shares in accordance with the quantitative targets. The Committee did not grant any performance shares in 2006.

Compensation of the Chief Executive Officer

The Committee based its recommendations to the independent members of the Board with respect to compensation of our Chief Executive Officer, Richard A. Bachmann, for services rendered in 2006 on the factors discussed above and our assessment of his potential to enhance long-term stockholder value. The Committee also considered Mr. Bachmann's current salary and prior year compensation, as well as compensation paid to his peers. The Committee used its outside compensation consultant to assist it in determining appropriate types and levels of compensation. The independent members of the Board accepted the Committee's recommendations.

Mr. Bachmann's base salary of \$440,000 for 2006 was commensurate with the median to 75th percentile of base salaries for chief executive officers of the Company's proxy peer group. For 2007, Mr. Bachmann's base salary was increased to \$500,000. Mr. Bachmann's bonus target is 100%. Mr. Bachmann was awarded a bonus of \$300,000 for 2006.

Policy on Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986 limits the deductibility for federal income taxes of compensation in excess of \$1 million paid to a publicly held company's chief executive officer and any of the other four highest-paid executive officers, except for performance-based compensation. The Committee is aware of this limitation and intends to consider the effects of Section 162(m) on the Company when making compensation decisions.

Stock Ownership Guidelines

The Company has Executive Stock Ownership Guidelines that generally require the Company's Chief Executive Officer, President, and each Executive Vice President and each Senior Vice President to maintain a share ownership equal to 50% of the profit shares acquired under equity compensation plans of the Company. Profit shares means the Shares held by an executive as a result of the exercise of stock options, the lapsing of restrictions on restricted stock and restricted stock units and the earning of performance shares, after giving effect to Shares sold or netted to pay any exercise price or tax withholding amounts related to such award.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis provisions to be included in the Company's filings pursuant to the Securities Exchange Act of 1934. Based on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the Compensation Discussion and Compensation Analysis referred to above be included in such filings.

Fiscal 2006 Nonqualified Deferred Compensation

(1) This amount is reported as Other Compensation in the Summary Compensation Table.

The Company's Key Employee Retention Plan is a non-qualified deferred compensation plan maintained by the Company to promote the retention of a select group of employees. Mr. LeBlanc is the only Named Officer who is a participant in the plan. The plan provides for credits to be made by the Company to a bookkeeping account for each participant in such amount or amounts as the Company determines. No interest or other earnings are credited to the accounts. If a participant remains in employment with the Company for a required period of employment following his or her designation as a participant, he or she will begin receiving his or her account balance under the plan in 10 equal annual installments. The required period of employment is 10 years if the person were age 45 or older when designated as a participant, 11 years if the person were older than age 43 but less than age 45 when so designated, and 12 years if the person were less than age 43 when so designated. Mr. LeBlanc was designated as a participant in 2003 and his required period of employment is 12 years. In the event of the death of the participant before the completion of the required employment period, the participant's beneficiary would receive a death benefit equal to the participant's designated death benefit account balance (which amount may be changed from time to time by the Company and is \$658,900 in the case of Mr. LeBlanc as of December 31, 2006), which death benefit is payable in 10 equal annual installments. In the event of disability of the participant before completion of the required employment period, the participant's account balance would become payable in a lump sum to the participant. If the participant's employment terminates for any reason other than death or disability before completion of the required employment period, the participant would forfeit all of his or her benefits under the plan. In the event of a change of control (defined as described in the section headed "Change of Control Arrangements" below), the participant would be entitled to a lump sum payment equal to the participant's change of control account balance under the Plan (\$28,613.65 in the case of Mr. LeBlanc as of December 31, 2006), except that if payment of benefits under the plan had already commenced, the benefit shall be limited to the remaining account balance. Generally, the specified dollar amount is adjusted each year to correspond to the account balance at the applicable time, so that the specified dollar amount for Mr. LeBlanc as of December 31, 2006 is equal to his account balance under the plan as of December 31, 2006.

Change of Control Arrangements

The Company has no contracts, agreements, plans or arrangements that provide severance benefits to the Named Officers if they terminate employment prior to a change in control. The Named Officers do have the same rights as other employees to receive benefits they have earned under the Company's broad-based benefit programs, such as their vested account balances under the Company's 401(k) plan and earned but unused vacation.

Certain of our executive officers, Messrs. Bachmann, Gobe, Peper and Woodall, have entered into a Change of Control Severance Agreement ("*Severance Agreement*") with the Company. Messrs. Bachmann, Gobe and Peper entered into their respective agreements in March 2005 and Mr. Woodall entered into his Severance Agreement concurrently with his joining the Company in August 2006. Each Severance Agreement expires on March 28, 2008. In addition, the Company has a Change of Control Severance Plan (the "*Severance Plan*" and, together with the Severance Agreements, the "*Severance Program*") for certain key employees, including Messrs. Dykes and LeBlanc. The Severance Plan may be amended or terminated by the Board of Directors in its sole discretion prior to the occurrence of a change of control of the Company.

The Severance Program provides that, upon the occurrence of a change of control, all equity awards granted to participants will become fully vested, all stock options will become fully exercisable and all restrictions on restricted shares and restricted share units will lapse. With respect to performance shares or other awards contingent on satisfaction of performance measures, the performance cycle will end as of the date of the change of control, and the participant will vest in the number of shares that would have been earned if the performance cycle had ended as of the end of the period covered by the most recently issued year-end financial statement plus such additional number of shares as the Compensation Committee of the Board of Directors shall determine in respect of any period of the performance cycle not covered by such year-end statement. In addition, participants in the Severance Program are entitled to receive certain benefits in the event of certain terminations of employment for "good reason" (including terminations by the participant following certain changes in duties, benefits, etc. that are treated as involuntary terminations) occurring within two years after a change of control. An eligible participant would be entitled to receive between one and three times the sum of (i) the participant's annual rate of base salary for the year of termination and (ii) the participant's average annual bonus from the Company for the three calendar years preceding the calendar year in which such termination of employment occurs (or, if the participant was employed for less than three years, the greater of the average annual bonus for all of the calendar years such

individual was employed and the target bonus for the calendar year of termination). Messrs. Bachmann, Gobe, Peper and Woodall are entitled to receive three times, and Messrs. Dykes and LeBlanc are entitled to receive two times, the sum described in the preceding sentence. Payments are to be paid in a lump sum in cash within 30 days following termination.

In addition, participants who become entitled to severance benefits will continue to receive medical, dental and life insurance benefits in existence at the time of the change of control for a specified period of time (18 months for our executive officers), provided that the participant continues to pay the same portion of the required premium for such coverage as was required prior to termination. In the case of a participant who becomes entitled to severance benefits, if the participant has not, by the time of his or her termination of employment, received a bonus for the calendar year before the calendar year of termination of employment, the participant will receive a bonus for that year in an amount equal to his or her target bonus opportunity for that year. If any payments are subject to the excise tax on excess parachute payments under Section 280G of the Internal Revenue Code of 1986, payments to the participant will be reduced until no amount payable to the participant would constitute an excise parachute payment, provided that no such reduction will be made if the net after-tax payment to which the participant would otherwise be entitled without such reduction would be greater than the net after-tax payment, in each case, after taking into account Federal, state, local or other income and excise taxes, to the participant resulting from the receipt of such payments with such reduction.

For purposes of the Severance Program, the Key Employee Retention Plan and awards under the 2006 Long Term Stock Incentive Plan and the Amended and Restated 2000 Stock Incentive Plan for Non-Employee Directors, a change of control generally includes any of the following events: (i) an acquisition by any person of 25% or more of the securities entitled to vote in the election of directors, (ii) the current directors, or their approved successors, no longer constitute a majority of the Board of Directors, (iii) a merger or similar transaction is consummated which results in the holders of our Common Stock owning 50% or less of the surviving or transferee entity's securities entitled to vote generally in the election of directors or (iv) approval of a plan of liquidation or disposition of all or substantially all of our assets.

Potential Payments Upon Termination or Change in Control

The following table shows the amounts that would be payable to our Named Officers pursuant to the Severance Program, assuming there was a change of control as of December 31, 2006 and a termination of employment occurred on December 31, 2006 qualifying the Named Officer for the benefits under the Severance Program:

Name	Lump Sum Severance Payment (\$)	Continuation of Medical, Dental and Life Insurance Benefits \$(1)	Accelerated Vesting of Stock Options \$(2)	Accelerated Vesting of Restricted Shares and Restricted Share Units \$(3)	Accelerated Vesting of Performance Shares \$(4)	Total (\$)
Richard A. Bachmann	3,335,000	21,078	816,380	628,815	1,789,937	6,891,210
Philip A. Gobe	1,559,250	16,705	283,581	1,277,044	353,406	3,629,216
John H. Peper	1,212,970	16,136	222,229	147,277	300,232	1,987,108
Timothy R. Woodall	1,162,500	16,237	620,000	732,600		2,570,295
T. Rodney Dykes	664,400	15,963	138,925	86,569	265,791	1,243,727
Joseph H. LeBlanc	447,581	15,589		440,781		947,451

- (1) The value shown for the continuation of medical and dental benefits is the aggregate amount of the COBRA cost (determined as of December 29, 2006) to provide the benefits minus the Named Officer's required contribution (determined as of December 29, 2006). The value shown for the continuation of life insurance benefits is the aggregate amounts of the life insurance premiums to provide the benefits at the rate in effect as of December 31, 2006.
- (2) The value of the accelerated vesting of the stock options is based on the positive difference, if any, between the closing price of the Company's Common Stock of \$24.42 on December 29, 2006, as reported by the New York Stock Exchange, and the exercise price of such options.
- (3) The value of the Company's common stock utilized for purposes of this table was the closing price on December 29, 2006. The closing price of the Company's common stock on December 29, 2006, as reported by the New York Stock Exchange, was \$24.42.
- (4) The value of the accelerated vesting of performance shares was computed by determining the vesting as if the performance cycle had ended on December 31, 2005 and valuing the shares that would have vested utilizing the closing price of the Company's common stock on December 29, 2006. The closing price of the Company's common stock on December 29, 2006, as reported by the New York Stock Exchange, was \$24.42.

The above table does not include payments and benefits to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment such as 401(k) plan vested benefits and earned but unused vacation. The above table also does not include Mr. LeBlanc's account balance under the Company's Key Executive Retention Plan which would become vested and payable upon a change of control. The terms of the Key Employee Retention Plan are described following the Fiscal 2006 Nonqualified Deferred Compensation Table, and Mr. LeBlanc's account balance as of December 31, 2006 is set forth in that table.

As stated above, under the Severance Program, in the event of a change of control, all stock options will become fully exercisable, all restrictions on restricted shares and restricted share units will lapse, and performance shares will vest as if the performance cycle had ended as of the end of the period covered by the most recently issued year-end financial statement, plus such additional number of shares as the Compensation Committee of the Board of Directors shall determine in respect of any period of the performance cycle not covered by such year-end statement. All of the outstanding stock options, restricted shares, restricted share units and performance shares contain the respective provisions to that effect. Termination of employment in a qualifying termination is not a condition for such benefits. Thus, if a change of control were to occur, the Named Officers would receive the benefit of the accelerated vesting of stock options, restricted shares, restricted share units and performance shares as shown in the above table even if the Named Officer's employment does not terminate. Pursuant to the terms of outstanding stock options, in the event of a change of control, such options would remain exercisable until the expiration of their 10-year term. Under the terms of outstanding restricted shares, restricted share units and performance shares, in the absence of a change of control, such awards would be forfeited in the event of a termination of employment for any reason. Under the terms of outstanding stock options, in the absence of a change of control, the following rules would apply upon a termination of employment: (i) in the case of a termination for any reason other than death, disability or retirement (defined to mean a voluntary termination on or after age 55 with at least 5 years of service), unvested options would be forfeited and vested options would remain exercisable for 30 days following termination of employment (but not beyond their expiration date), and (ii) in the case of a termination by reason of death, disability or retirement, options would continue to vest through December 31st of the year of termination of employment, unvested options would be forfeited as of such December 31st, and vested options would remain exercisable for 3 years following termination of employment (but not beyond their expiration date).

- Non-employee directors receive an annual retainer of \$30,000 (\$40,000 commencing with the 2007 Annual Meeting) and meeting fees of \$2,000 for each Board meeting, and \$1,500 for each committee meeting, attended (even if held on the same date). The Chairman of the Audit Committee receives an additional \$15,000 per year, each other Audit Committee member receives an additional \$5,000 per year and the Chairman of each of the Compensation Committee and the Nominating & Governance Committee receives an additional \$10,000 per year. Meeting fees are paid in cash. Retainer fees are paid in shares of Common Stock (valued at fair market value); provided that a director may elect to receive up to 50% of such retainer fees in cash. Directors may defer all or a portion of their retainer and meeting fees. Directors are also reimbursed for their reasonable expenses in connection with attending Board of Director meetings and other Company events.

Our Amended and Restated 2000 Stock Incentive Plan for Non-Employee Directors provides for grants of stock options and restricted share units to members of the Board of Directors who are not employees of the Company or any subsidiary. The size of any grants of stock options and restricted share units to non-employee directors, including to new directors, will be determined annually, based on the analysis of an independent compensation consultant. Based on such analysis, the Compensation Committee recommended, and the Board approved, the grant of 4,000 restricted stock units to each non-employee director on the date of the 2007 Annual Meeting. Restricted share units become 100% vested on the first anniversary of the date of grant provided the eligible director continues as a director of the Company throughout that one-year period. Prior to the first anniversary of the date of grant, an eligible director shall be vested in the pro rata number of restricted share units based on the number of days during that year that the eligible director served. The total number of shares of our Common Stock that may be issued under the plan is 500,000, subject to adjustment in the case of certain corporate transactions and events.

Item 13. Certain Relationships and Related Transactions, and Director Independence
Certain Relationships and Related Transactions

Any proposed related party transactions are submitted to the Board of Directors for approval. In 2006, the Company did not engage in any transaction with a related person in which the amount involved exceeded \$120,000, other than the item discussed below.

Mr. Hiltz is a senior managing director of Evercore Group L.L.C., an affiliate of one of EPL's financial advisors. Evercore provided financial advisory services to the Company in connection with the merger agreement with Stone Energy Corporation that was subsequently terminated, the offer to purchase all of the Company's stock made by Woodside Petroleum, Ltd. and the Company's exploration of strategic alternatives. Evercore received fees of \$1.6 million in 2006 in connection with financial advisory services related to the Stone merger agreement and the offer from Woodside. In addition, inclusive of \$2.3 million accrued during 2006, the Company has committed to pay an additional \$7.0 million due to Evercore upon the earlier of the consummation of a transaction resulting from the Company's exploration of strategic alternatives or September 5, 2007.

Independence Determinations

Under the Company's Corporate Governance Guidelines, a majority of the Board must be comprised of directors who are independent under the rules of the New York Stock Exchange (NYSE). No director will be deemed to be independent unless the Board affirmatively determines that the director has no material relationship with the Company, either directly or as an officer, stockholder or partner of an organization that has a relationship with the Company. The Board observes all criteria established by the NYSE and other governing laws and regulations. In its review of director independence, the Board of Directors considers all relevant facts and circumstances, including without limitation, all commercial, banking, consulting, legal, accounting, charitable or other business relationships any director may have with the Company. The Board has adopted categorical standards to assist it in making determinations of independence for directors.

The Board has determined that each of Messrs. Bumgarner, Carlisle, Carter, Gershen, Herrin, Hiltz and Phillips and Dr. Francis is independent. In making its determination, in addition to the matter described under Certain Relationships and Related Transactions, the Board considered that Mr. Phillip's daughter is a non-executive employee of the Company whose compensation does not exceed the limits of the Company's categorical standards or the NYSE rules. Mr. Bachmann was determined to be not independent because he is our chief executive officer. Mr. Gobe was determined to be not independent because he is our president and chief operating officer. Mr. Dawkins was determined to be not independent because one of his immediate family members (as defined in the NYSE rules) is a consulting principal of KPMG LLP, our independent registered public accountant.

The Audit Committee believes that the foregoing expenditures are compatible with maintaining the independence of the Company's public accountants. The Audit Committee pre-approved all such audit and non-audit services by our independent registered public accountants during 2006.

Audit Committee Pre-Approval Procedures

The Audit Committee has adopted procedures for pre-approving all audit and permissible non-audit services provided by the independent registered public accountants. The Audit Committee will annually review and pre-approve the audit, review and attest services to be provided during the next audit cycle by the independent registered public accountants and may annually review and pre-approve permitted non-audit services to be provided during the next audit cycle by the independent registered public accountants. To the extent practicable, the Audit Committee will also review and approve a budget for such services. Services proposed to be provided by the independent registered public accountants that have not been pre-approved during the annual review and the fees for such proposed services must be pre-approved by the Audit Committee or its designated subcommittee. Additionally, fees for previously approved services that are expected to exceed the previously approved budget must also be pre-approved by the Audit Committee or its designated subcommittee.
