Item 2.02. Results of Operations and Financial Condition.

On April 26, 2007, Bristol-Myers Squibb Company (the Company) filed a Form 8-K furnishing its press release that announced the Company's financial results for the first quarter of 2007 and incorporating it therein by reference. Also furnished and incorporated by reference as Exhibit 99.2 was certain supplemental information posted on the Company's website at www.bms.com. On May 31, 2007, the Company filed a Form 8-K/A furnishing revised supplemental information to include net sales, months on hand, and estimated demand information for key products as of March 31, 2007 for the Company's International Pharmaceuticals, Nutritionals and Other Health Care reporting segments. On July 26, 2006, the Company filed a Form 8-K/A furnishing revised supplemental information to include revised estimated prescription change data and estimated therapeutic category share and the Company's revised estimate of the adverse effect of the at-risk launch of generic clopidogrel bisulfate as a result of IMS Health's overstatement of PLAVIX* prescription and unit volumes for the months August 2006 through June 2007 as previously disclosed.

The Company has identified a technical error in the calculation of the percent change in estimated ultimate patient/consumer demand for key products for the time periods March 2007 versus March 2006 relating to the Company's International Pharmaceuticals, Nutritionals and Other Health Care reporting segments, as reported in the revised supplemental information posted on the Company's website on May 31, 2007 and furnished on Form 8-K/A filed on May 31, 2007. The corrected calculation is set forth in the table below.
