NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Description of Business and Accounting Policies

The following represents a summary of the business and accounting policies of Cincinnati Bell Inc. and its consolidated subsidiaries (the Company). A more detailed presentation can be found in the Company s 2009 Annual Report on Form 10-K.

Description of Business The Company provides diversified telecommunications and technology services through businesses in three segments: Wireline, Wireless and Technology Solutions. Beginning in 2010, the Company realigned its reportable business segments to be consistent with changes to its management reporting. Certain data center operations that were historically included in the Wireline segment have been reclassified to the Technology Solutions segment. Prior year amounts have been reclassified to conform to the current segment reporting. Refer to Note 8 for further discussion concerning the Company s segments.

Basis of Presentation The Condensed Consolidated Financial Statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position, and cash flows for each period presented. The Company has evaluated subsequent events through May 6, 2010.

The adjustments referred to above are of a normal and recurring nature. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to SEC rules and regulations.

The Condensed Consolidated Balance Sheet as of December 31, 2009 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2009 Annual Report on Form 10-K. Operating results for the three months ended March 31, 2010 are not necessarily indicative of the results expected in subsequent quarters or for the year ending December 31, 2010.

Recently Issued Accounting Standards In September 2009, new accounting guidance under ASC 605 related to revenue arrangements with multiple deliverables was issued. The guidance addresses the unit of accounting for arrangements involving multiple deliverables, how arrangement consideration should be allocated to the separate units of accounting and eliminates the criterion that objective and reliable evidence of fair value of any undelivered items must exist for the delivered item to be considered a separate unit of accounting. Such guidance is effective for fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The Company has not yet assessed the impact of this guidance on the Company s financial statements.

In September 2009, new accounting guidance under ASC 605 was issued regarding tangible products containing both software and non-software components that function together to deliver the product s essential functionality. Such guidance is effective for fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The Company has not yet assessed the impact of this guidance on the Company s financial statements.

2. Earnings Per Common Share

Basic earnings per common share (EPS) is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur if potential common shares were exercised or converted to common stock but only to the extent that they are considered dilutive to the Company's earnings. The following table is a reconciliation of the numerators and denominators of the basic and diluted EPS computations for the following periods:

(in millions, except per share amounts)	Three Months Ended March 31,	
	2010	2009
Numerator:

Long-term debt, less current portion	1,934.1	1,963.3
Total debt	\$ 2,520.5	\$ 1,979.1

* The face amount of these notes has been adjusted for the unamortized called amounts received on terminated interest rate swaps.

As of March 31, 2010, the Company did not have any outstanding borrowings under its revolving credit facility, but had outstanding letters of credit totaling \$24.8 million, leaving \$185.2 million in additional borrowing availability.

The Company and certain subsidiaries entered into an accounts receivable securitization facility (Receivables Facility), which permits borrowings of up to \$115 million, depending on the level of eligible receivables and other factors. Under the Receivables Facility, certain subsidiaries sell their respective trade receivables on a continuous basis to CB Funding LLC (CBF). Although CBF is a wholly owned consolidated subsidiary of the Company, CBF is legally separate from the Company and each of the Company's other subsidiaries. Upon and after the sale or contribution of the accounts receivable to CBF, such accounts receivable are legally assets of CBF, and as such are not available to creditors of other subsidiaries or the parent company. At March 31, 2010, the Company had no borrowings outstanding under the Receivables Facility and had \$83.1 million in additional borrowing availability.

In March 2010, the Company issued \$625 million of 8³/₄% Senior Subordinated Notes due 2018 (8³/₄% Notes), which are fixed rate bonds to maturity. Concurrent with this issuance, an irrevocable call was issued to redeem the 8³/₈% Senior Subordinated Notes due 2014 plus accrued and unpaid interest and related call premium. As a result of the redemption in April 2010, the Company incurred a pre-tax loss on extinguishment of debt of \$10.3 million, which was recognized in April 2010 and consists of the call premium and write-off of debt issuance costs offset by the recognition of the unamortized called amounts on terminated interest rate swaps and the debt premium.

Form 10-Q Part I

Cincinnati Bell Inc.

Interest on the 8³/₄% Notes is payable semi-annually in cash in arrears on March 15 and September 15 of each year, commencing September 15, 2010. The 8³/₄% Notes are unsecured senior subordinated obligations ranking junior to all existing and future senior debt, ranking equally to all existing and future senior subordinated indebtedness, and ranking senior to all existing and future subordinated indebtedness. Each of the Company's current and future restricted subsidiaries (as defined in the Indenture) that is a guarantor under the Corporate credit facility is also a guarantor of the 8³/₄% Notes on an unsecured senior subordinated basis, with certain immaterial exceptions. The indenture governing the 8³/₄% Notes contains covenants including but not limited to the following: limitations on dividends to shareholders and other restricted payments; dividend and other payment restrictions affecting the Company's subsidiaries such that the subsidiaries are generally not permitted to enter into an agreement that would limit their ability to make dividend payments to the parent; issuance of indebtedness; asset dispositions; transactions with affiliates; liens; investments; issuances and sales of capital stock of subsidiaries; and redemption of debt that is junior in right of payment. The indenture governing the 8³/₄% Notes provides for customary events of default, including a cross-default provision for both nonpayment at final maturity or acceleration due to a default of any other existing debt instrument that exceeds \$35 million.

The Company may redeem the 8³/₄% Notes for a redemption price of 104.375%, 102.188%, and 100.000% on or after March 15, 2014, 2015, and 2016, respectively. At any time prior to March 15, 2014, the Company may redeem all or part of the 8³/₄% Notes at a redemption price equal to the sum of (1) 100% of the principal, plus (2) the greater of (a) 1% of the face value of the 8³/₄% Senior Notes or (b) the excess over the principal amount of the sum of the present values of (i) 104.375% of the face value of the 8³/₄% Notes, and (ii) interest payments due from the date of redemption to March 15, 2014, in each case discounted to the redemption date on a semi-annual basis at the applicable U.S. Treasury rates plus one-half percent, plus (3) accrued and unpaid interest, if any, to the date of redemption. Prior to March 15, 2013, the Company, may redeem up to a maximum of 35% of the aggregate principal amount of the 8³/₄% Notes with the net cash proceeds of one or more equity offerings by the Company, at a redemption price equal to 108.750% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the redemption date.

Sale of Wireless Towers

In December 2009, the Company sold 196 wireless towers for \$99.9 million in cash and leased back a portion of the space on these towers for a term of 20 years. As of December 31, 2009, 48 of the 196 wireless towers sold were subject to purchase price contingencies and were accounted for in accordance with the deposit method. During the first quarter of 2010, contingencies on 35 of the sites were resolved with no change to the purchase price, and the Company recognized these sites as sold for accounting purposes. As a result, the Condensed Consolidated Balance Sheets reflects a reduction in the Deposit received for sale of wireless towers of approximately \$18 million for the purchase price associated with these sites and a reduction in Property, plant and equipment, net of \$9 million for the net book value of these sites. The Company also recognized an increase in Other noncurrent liabilities of \$9 million resulting from the deferred gain on the sale, which will be amortized on a straight-line basis over the 20-year term of the leaseback of the space on the towers. In addition, the Company recorded a capital lease asset and liability of approximately \$11 million related to these sites.

5. Financial Instruments and Fair Value

At March 31, 2010, the Company's financial instruments that are required to be measured at fair value were as follows:

(dollars in millions)	March 31, 2010	Level 1	Level 2	Level 3
Money market funds	\$ 436.7	\$ 436.7	\$	\$

At December 31, 2009, the Company's financial instruments that are required to be measured at fair value were inconsequential.

The carrying value of the Company's financial instruments does not materially differ from the estimated fair values as of March 31, 2010 and December 31, 2009, except for the Company's debt. The carrying amounts of debt, excluding capital leases and unamortized discount, at March 31, 2010 and December 31, 2009 were \$2,398.1 million and \$1,860.8 million, respectively. The estimated fair values at March 31, 2010 and December 31, 2009 were \$2,360 million and \$1,792 million, respectively. These fair values were estimated based on closing market prices of the Company's debt and of similar liabilities.

6. Restructuring Charges

Restructuring reserve (dollars in millions):	Balance December 31, 2009	Utilizations	Balance March 31, 2010
Employee separation obligations	\$ 14.4	\$ (5.1)	\$ 9.3

Employee separation obligations resulted from the Company's need to reduce its headcount over the next five years to conform its Wireline operations to the decreased access lines being served by the Company. At March 31, 2010 and December 31, 2009, \$2.3 million and \$6.4 million of the restructuring reserve was included in Other current liabilities and \$7.0 million and \$8.0 million was included in Other noncurrent liabilities, respectively, in the Condensed Consolidated Balance Sheets.

In 2009, the Company announced significant changes to its pension and postretirement plans, which resulted in a curtailment gain of \$7.6 million and is included in Restructuring gains in the Condensed Consolidated Statement of Operations. See Note 7 for further information.

7. Pension and Postretirement Plans

In the first quarter 2010, the Company recorded a charge of \$3.9 million due to a law change that now requires application of federal income taxes against the retiree Medicare drug subsidies received by the Company. Previously, any Medicare drug subsidy received by the Company was not taxable. This charge is included in Income tax expense on the Condensed Consolidated Statements of Operations.

In 2009, the Company announced significant changes to its management pension plan and its postretirement plans. The Company announced that it will freeze pension benefits for certain management employees below 50 years of age and provide a 10-year transition period for those employees over the age of 50 after which the pension benefits will be frozen. Additionally, the Company announced it will phase out the retiree healthcare plans for all management employees and certain retirees in 10 years.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

The significant changes announced caused a 90% decrease in the expected future service years for active participants in the management pension plan, which triggered a plan curtailment. The curtailment gain of \$7.6 million consisted of the acceleration of unrecognized prior service benefits. In addition, the Company determined that the significant changes to the postretirement plan benefits required remeasurement of these plans in 2009. The Company remeasured its management pension plan and its postretirement plans, using revised assumptions, including modified retiree benefit payment assumptions, revised discount rates and updated plan asset information.

Pension and postretirement benefit costs are as follows:

(dollars in millions)	Pension Benefits		Postretirement and Other Benefits	
	Three Months Ended March 31,			
	2010	2009	2010	2009

8. Business Segment Information

The Company operates in three segments: Wireline, Wireless and Technology Solutions. The Wireline segment provides local voice, data, long-distance and other services to customers primarily in southwestern Ohio, northern Kentucky, and southeastern Indiana. The Wireless segment provides advanced, digital voice and data communications services and sales of related communications equipment to customers in the Greater Cincinnati and Dayton, Ohio operating areas. The Technology Solutions segment provides a range of fully managed and outsourced IT and telecommunications services and offers solutions that combine data center collocation services along with the sale, installation, and maintenance of major branded IT and telephony equipment.

Beginning in 2010, the Company realigned its reportable business segments to be consistent with changes to its management reporting. Certain data center operations that have been historically included in the Wireline segment have been reclassified to the Technology Solutions segment. Prior year amounts have been reclassified to conform to the current segment reporting.

Certain corporate administrative expenses have been allocated to segments based upon the nature of the expense and the relative size of the segment.

The Company's business segment information is as follows:

Vested and expected to vest at March 31, 2010	20,339	\$ 6.00
Exercisable at March 31, 2010	15,444	\$ 7.14

The Company recognized compensation expense of \$0.6 million related to stock options and stock appreciation rights awards for the three months ended March 31, 2010 and \$1.0 million for the three months ended March 31, 2009. As of March 31, 2010, there was \$2.9 million of unrecognized compensation expense related to these awards, which is expected to be recognized over a weighted-average period of approximately two years. At March 31, 2010, the aggregate intrinsic value of these outstanding awards was approximately \$8.5 million.

For options granted in the first quarter of 2010, the weighted-average fair values at the date of grant were estimated using the Black-Scholes option-pricing model with the following assumptions:

Expected volatility	43.0%
Risk-free interest rate	2.3%
Expected holding period - years	5
Expected dividends	0.0%
Weighted-average grant date fair value	\$ 1.18

The expected volatility assumption used in the Black-Scholes pricing model was based on historical volatility. The risk-free interest rate was based on the U.S. Treasury yield curve in effect at the time of grant. The expected holding period was estimated using the historical exercise behavior of employees and adjusted for abnormal activity. Expected dividends are based on the Company's history of paying dividends.

Performance-Based Restricted Awards

The following table summarizes performance-based award activity for the three months ended March 31, 2010:

(in thousands, except per share amounts)	Shares	Weighted-Average Grant Date Fair Value Per Share
Non-vested as of January 1, 2010	4,218	\$ 3.39
Granted*	590	2.91
Vested	(1,146)	3.58
Non-vested at March 31, 2010	3,662	\$ 3.25

* Assumes the maximum number of awards that can be earned if the performance conditions are achieved.

Awards granted generally vest over three years and upon the achievement of certain performance-based objectives. The Company recognized expense for performance-based awards of \$0.5 million for the three months ended March 31, 2010 and \$1.2 million for the three months ended March 31, 2009. As of March 31, 2010, there was \$2.6 million of unrecognized compensation expense related to performance-based awards, which is expected to be recognized over a weighted-average period of approximately one year.

The Company has also granted cash-payment performance awards in 2010 and 2009 with a base award of \$0.9 million and \$1.3 million, respectively, with the final payments indexed to the percentage change in the Company's stock price from the date of grant. The expense recorded for these awards during the three months ended March 31, 2010 and 2009 was \$0.1 million and \$1.1 million, respectively. At March 31, 2010, there was \$0.7 million of unrecognized compensation, which is expected to be recognized within one year.

Time-Based Restricted Awards

The following table summarizes time-based restricted award activity for the three months ended March 31, 2010:

(in thousands, except per share amounts)	Shares	Weighted-Average Grant Date Fair Value Per Share
Non-vested as of January 1, 2010	213	\$ 3.85
Vested	(1)	4.91
Forfeited	(2)	4.91
Non-vested at March 31, 2010	210	\$ 3.83

Awards granted generally vest in one-third increments over a period of three years. The Company recognized expense related to time-based restricted awards of \$0.1 million for the three months ended March 31, 2010 and \$0.2 million for the three months ended March 31, 2009. As of March 31, 2010, there was \$0.5 million of unrecognized compensation expense related to these shares, which is expected to be recognized over a weighted-average period of approximately one year.

Deferred Compensation Plans

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

The Company currently has deferred compensation plans for both the Board of Directors and certain executives of the Company. At March 31, 2010 and 2009, there were 0.9 million common shares deferred in these plans. As these awards can be settled in cash, the Company records compensation costs each period based on the change in the Company's stock price. The Company recognized compensation expense of \$0.1 million and \$0.4 million for the three months ended March 31, 2010 and 2009, respectively.

Cincinnati Bell Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Information included in this Quarterly Report on Form 10-Q contains certain forward-looking statements that involve potential risks and uncertainties. The Company's future results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed herein and those discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date thereof.

The Company was initially incorporated under the laws of Ohio in 1983 and remains incorporated under the laws of Ohio. It has its principal executive offices at 221 East Fourth Street, Cincinnati, Ohio 45202 (telephone number (513) 397-9900 and website address <http://www.cincinnati-bell.com>). The Company makes available its reports on Form 10-K, 10-Q, and 8-K (as well as all amendments to these reports) on its website, free of charge, at the Investor Relations section as soon as practicable after they have been electronically filed.

The Company files annual, quarterly and current reports, proxy statements and other information with the SEC under the Exchange Act. These reports and other information filed by the Company may be read and copied at the Public Reference Room of the SEC, 100 F Street N.E., Washington, D.C. 20549. Information may be obtained about the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy statements, and other information about issuers, like the Company, which file electronically with the SEC. The address of that site is <http://www.sec.gov>.

Critical Accounting Policies and Estimates

The preparation of Condensed Consolidated Financial Statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses. In the Company's Annual Report on Form 10-K for the year ended December 31, 2009, the Company identified critical accounting policies that affect its more significant estimates and assumptions used in preparing its Condensed Consolidated Financial Statements. These critical accounting policies include revenue recognition, accounting for allowances for uncollectible accounts receivable, reviewing the carrying values of goodwill and indefinite-lived intangible assets, reviewing the carrying values of property, plant and equipment, accounting for business combinations, accounting for taxes, accounting for pension and postretirement expenses, and accounting for termination benefits.

Results of Operations

The financial results for the three months ended March 31, 2010 and 2009 referred to in this discussion should be read in conjunction with the Condensed Consolidated Statements of Operations in this Quarterly Report on Form 10-Q. Results for interim periods may not be indicative of the results for subsequent periods or the full year.

Beginning in 2010, the Company realigned its reportable business segments to be consistent with changes to its management reporting. Certain data center operations that were historically included in the Wireline segment have been reclassified to the Technology Solutions segment. Prior year amounts have been reclassified to conform to the current segment reporting.

Consolidated Overview

Consolidated revenue totaled \$323.7 million for the first quarter of 2010, a decrease of \$1.8 million compared to the first quarter of 2009. The decrease was primarily due to the following:

\$5.8 million lower revenues in the Wireline segment primarily due to lower voice revenue;

\$3.1 million lower revenues in the Wireless segment primarily due to lower postpaid service revenue; and

\$6.4 million higher revenues in the Technology Solutions segment primarily due to increased data center and managed services revenue and higher telecom and IT equipment distribution revenue.

Operating income for the first quarter of 2010 was \$82.4 million, an increase of \$2.1 million compared to the same period in 2009. This increase was primarily due to the following:

\$9.2 million increase in Wireless segment operating income primarily due to lower expense for handset subsidies, roaming costs, and bad debts expense;

\$3.0 million increase in Technology Solutions operating income primarily due to increased revenue from data center and managed services; and

\$10.7 million decrease in Wireline segment operating income primarily due to a restructuring gain recorded in the prior year and lower revenue.

Interest expense was \$37.1 million for the first quarter of 2010 as compared to \$31.8 million for the first quarter of 2009. The increase compared to last year is primarily attributable to higher debt balances.

Income tax expense for the first quarter of 2010 was \$22.6 million compared to \$19.7 million for the first quarter of 2009. This increase was primarily due to the effect of a tax law change, that now requires application of federal income taxes against the retiree Medicare drug subsidies received by the Company, totaling \$3.9 million.

The Company expects its effective tax rate to exceed statutory rates primarily due to the non-deductible expenses, including interest on securities originally issued to acquire its broadband business (the Broadband Securities) or securities that the Company has subsequently issued to refinance the Broadband Securities. Excluding the effect of the change in federal law related to the retiree Medicare drug subsidy, the Company estimates that its effective income tax rate will be approximately 41% for the full year 2010. However, the Company expects to use federal and

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

state net operating loss carryforwards to substantially defray payment of federal and state tax liabilities in 2010. The Company expects income tax payments for the 2010 year to be approximately \$6 million.

The Wireline segment consists of the operations of Cincinnati Bell Telephone Company LLC, which operates as an incumbent local exchange carrier (ILEC) within the Company's traditional territory, Cincinnati Bell Extended Territories LLC, which primarily operates as a competitive local exchange carrier (CLEC) in Dayton, Ohio and communities adjacent to the ILEC's northern borders, Cincinnati Bell Any Distance Inc. and its subsidiaries, which provide long distance, audio conferencing, voice over internet protocol (VoIP) and broadband services including private line and multi-protocol labeling switching, Cincinnati Bell Complete Protection Inc., which provides security monitoring services and related surveillance hardware, the Company's payphone business, and its entertainment operations, which provide its Fioptics fiber-to-the-home products that include entertainment, high-speed internet and voice services in limited areas and DirecTV on a commission basis to the remainder of its operating territory.

Revenue

Voice local service revenue includes local service, value added services, switched access and information services. Voice revenue decreased in the three months ended March 31, 2010 versus the same period in 2009 primarily as a result of a 7% decrease in access lines. Access lines within the segment's ILEC territory decreased by 54,500 or 8%, from 692,300 at March 31, 2009 to 637,800 at March 31, 2010. The access line loss resulted from several factors including customers electing to use wireless communication in lieu of the traditional local service, Company-initiated disconnections of customers with credit problems, and customers electing to use service from other providers. The Company had 73,900 CLEC access lines at March 31, 2010 compared to 73,000 access lines at March 31, 2009.

Data revenue consists of data transport, high-speed internet access (DSL), dial-up internet access, digital trunking, and local area network interconnection services. Data revenue decreased \$0.8 million for the three months ended March 31, 2010 compared to the same period a year ago. The decrease was primarily due to lower DSL revenue resulting from a decline in average revenue per subscriber.

Long distance and VoIP revenue increased \$1.5 million for the three months ended March 31, 2010 as compared to the same period in 2009. The increase was primarily due to an increase in VoIP services due to additional subscribers.

Other revenue increased \$2.6 million for the three months ended March 31, 2010 as compared to the same period last year primarily due to the introduction of the Company's Fioptics fiber-to-the-home suite of products, which includes entertainment and high-speed internet services. As of March 31, 2010, the Company had 14,400 entertainment and 13,000 high-speed internet Fioptics customers.

Costs and Expenses

Cost of services and products increased by \$1.6 million for the three months ended March 31, 2010 as compared to the corresponding period in 2009. The increase was primarily driven by higher network costs of \$2.7 million to support growth in VoIP and Fioptics revenues and \$1.1 million in higher operating taxes. These increases were partially offset by lower benefit costs of \$1.0 million primarily due to the pension and postretirement plan changes announced in February 2009 and lower wages due to the Company's restructuring activities.

Selling, general and administrative expenses decreased by \$3.9 million for the three months ended March 31, 2010 versus the prior year. The decrease for the three months ended March 31, 2010 primarily consists of a \$1.5 million decrease in payroll costs primarily due to the pension and postretirement plan changes announced in February 2009, a \$1.1 million decrease in costs primarily resulting from lower negotiated rates with third party service providers and lower bad debt and advertising expenses.

The restructuring gain for the three months ended March 31, 2009 primarily resulted from a curtailment due to changes in the pension and postretirement plans announced in February 2009. See Note 6 to the Condensed Consolidated Financial Statements for further information.

* The Company has presented certain information regarding monthly average revenue per user (ARPU) because the Company believes ARPU provides a useful measure of the operational performance of its Wireless segment. ARPU is calculated by dividing service revenue by the average subscriber base for the period.

Revenue

Service revenue decreased \$2.3 million in the first quarter of 2010 as compared to last year primarily due to the following:

Postpaid service revenue decreased \$2.5 million primarily due to a decrease in subscribers. This decrease was partially offset by an increase in ARPU. The ARPU increase was driven by a 14% increase in data ARPU as the number of smartphone subscribers has increased from 50,400 at March 31, 2009 to 83,400 at March 31, 2010;

Prepaid service revenue increased \$1.3 million compared to the same period last year primarily due to an increase in ARPU of \$1.89, which resulted from the focus on marketing higher value rate plans; and

Other service revenue decreased \$1.1 million due to lower tower rent revenue resulting from the sale of the wireless towers in December 2009. The lower rent revenue was offset by lower costs associated with the towers as discussed below.

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

Equipment revenue for the three months ended March 31, 2010 decreased by \$0.8 million compared to last year primarily due to lower subscriber activations.

Costs and Expenses

Cost of services and products consists largely of network operation costs, interconnection expenses with other telecommunications providers, roaming expense (which is incurred for subscribers to use their handsets in the territories of other wireless service providers), and cost of handsets and accessories sold. These expenses decreased \$8.6 million during the first quarter of 2010 versus the prior year period. The decrease was primarily attributable to a \$3.5 million decrease in handset costs, primarily caused by a decrease in handset subsidies due to lower activations, \$2.6 million decrease in roaming costs due to renegotiated rates and lower minutes of use, \$1.1 million in lower third party service provider costs and lower costs due to the sale of the wireless towers in December 2009.

Selling, general and administrative expenses decreased \$3.4 million for the three months ended March 31, 2010 compared to the same period in 2009 due to a \$1.3 million decrease in bad debt expense, \$0.9 million decrease in advertising and lower third party service provider costs.

Revenue

Revenue from telecom and IT equipment distribution represents the sale, installation and maintenance of major, branded IT and telephony equipment. Revenue increased by \$2.2 million in the first quarter of 2010, as compared to the same period a year ago, as customer demand has increased for equipment that had been suppressed by the economy in 2009.

Data center and managed services revenue consists of recurring collocation rents from customers residing in the Company's data centers, managed VoIP solutions, and IT services that include network management, electronic data storage, disaster recovery, and data security management. Revenue increased \$3.7 million for the first quarter of 2010, as compared to the same period a year ago, primarily due to an

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

increase in billed data center capacity, resulting from the opening of the Company's Lebanon, Ohio data center at the end of the first quarter of 2009.

Professional services revenue consists of long-term and short-term IT outsourcing and consulting engagements. Revenue for the three months ended March 31, 2010 increased by \$0.5 million compared to the same period in 2009. The Company continues to focus on selling these outsourcing and consulting engagements.

Costs and Expenses

Cost of services and products increased by \$1.1 million in the first quarter of 2010 as compared to the same period in 2009. The increase in the first quarter primarily resulted from an increase in cost of goods sold related to higher telecom and equipment distribution revenue of \$1.9 million partially offset by lower data center costs.

Selling, general and administrative expenses increased by \$1.2 million for the first quarter of 2010 compared to last year. The increase primarily resulted from an increase in payroll related costs to support the growing operations.

The increase in depreciation and amortization expense for the three months ended March 31, 2010 compared to the three months ended March 31, 2009 was primarily due to capital expenditures associated with the Company's Lebanon, Ohio data center, which was completed at the end of the first quarter of 2009.

Financial Condition, Liquidity, and Capital Resources

As of March 31, 2010, the Company held \$576.8 million in cash and cash equivalents. In April 2010, the available cash at the end of March plus borrowings under its Receivables Facility were used to redeem the outstanding 8 ³/₈% Senior Subordinated Notes due 2014 plus accrued and unpaid interest and call premium. The Company's primary sources of cash for the remainder of the year will be cash generated by operations and borrowings from the Corporate credit facility under which the Company had \$185.2 million of availability at March 31, 2010. The Company's cash flows from operating activities totaled \$265.6 million for the year 2009, which was reduced by \$82.6 million for a prepayment to its medical, pension and postretirement plans.

Uses of cash for the remainder of the year will include repayments and repurchases of debt and related interest, dividends on preferred stock, capital expenditures, and working capital. In February 2010, the Board of Directors approved an additional plan for repurchase of the Company's outstanding common stock in an amount up to \$150 million. This new plan does not have a stated end date. The Company plans to repurchase shares to the extent its available cash is not needed for data center growth and other opportunities.

The Company believes the cash generated by its operations and borrowings from its Corporate credit facility and Receivables Facility will be sufficient to fund its primary uses of cash.

The Corporate credit facility financial covenants require that the Company maintain certain leverage, interest coverage, and fixed charge ratios. The facility also contains certain covenants which, among other things, limit the Company's ability to incur additional debt or liens, pay dividends, repurchase Company common stock, sell, transfer, lease, or dispose of assets, and make investments or merge with another company. If the Company were to violate any of its covenants and were unable to obtain a waiver, it would be considered a default. If the Company were in default under its credit facility, no additional borrowings under the credit facility would be available until the default was waived or cured. The Company believes it is in compliance and will remain in compliance with its Corporate credit facility covenants.

Various issuances of the Company's public debt, which include the 8/4% Senior Subordinated Notes due 2018, the 7% Senior Notes due 2015, and the 8 1/4% Senior Notes due 2017 contain covenants that, among other things, limit the Company's ability to incur additional debt or liens, pay dividends or make other restricted payments, sell, transfer, lease, or dispose of assets and make investments or merge with another company. Restricted payments include common stock dividends, repurchase of common stock, and certain other public debt repayments. The Company believes it has sufficient ability under its public debt indentures to make its intended restricted payments in 2010. The Company believes it is in compliance and will remain in compliance with its public debt indentures.

Cash Flows

For the three months ended March 31, 2010, cash provided by operating activities totaled \$70.8 million, an increase of \$12.3 million compared to the \$58.5 million provided by operating activities during the same period in 2009. The increase was driven by better operating performance and by lower interest payments of \$12.2 million primarily due to a change in the timing of payments as a result of refinancing the 7 1/4% Senior Notes due 2013 with the 8 1/4% Senior Notes due 2017 and lower medical and postretirement payments due to a prepayment in December 2009. This increase was partially offset by \$10.5 million received related to the settlement and termination of a portion of the long-term interest rate swaps in 2009.

Cash flow utilized for investing activities decreased \$20.9 million to \$27.6 million during the three months ended March 31, 2010 as compared to \$48.5 million for the three months of 2009. Capital expenditures were \$18.4 million lower for the three months ended March 31, 2010 versus last year primarily due to lower data center spending and lower Wireline network spending.

Cash flow provided by financing activities for the three months ended March 31, 2010 was \$510.6 million compared to a use of \$3.9 million during the same period in 2009. The Company issued \$625 million of 8 3/4% Senior Subordinated Notes due 2018. The net proceeds from the issuance of \$616.2 million was used in April 2010 to redeem the outstanding 8 3/8% Senior Subordinated Notes due 2014 plus accrued and unpaid interest and call premium. The Company also paid \$12.9 million of debt issuance costs related to the issuance of the 8 3/4% Senior Subordinated Notes due 2018. Borrowings under the Receivables Facility decreased \$85.9 million during the three months ended March 31, 2010. During the three months ended March 31, 2009, the Company repurchased \$21.4 million of the Company's common stock as a part of its two-year \$150 million common stock repurchase plan. Borrowings under the Corporate Credit and receivables facilities increased \$23.0 million in the first quarter of 2009. For both the three months ended March 31, 2010 and 2009, the Company paid preferred stock dividends of \$2.6 million.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2009 for further information on the Company's hedging activities. Refer to Note 5 to the Condensed Consolidated Financial Statements for further information regarding the carrying and fair value of the Company's debt.

Item 4. Controls and Procedures**(a) Evaluation of disclosure controls and procedures.**

The term "disclosure controls and procedures" (defined in SEC Rule 13a-15(e)) refers to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported within required time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by the report. Based on that evaluation, Cincinnati Bell Inc.'s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by the report, such controls and procedures were effective.

(b) Changes in internal controls over financial reporting.

The term "internal control over financial reporting" (defined in SEC Rule 13a-15(f)) refers to the process of a company that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Cincinnati Bell Inc.'s management, with the

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

participation of the Chief Executive Officer and Chief Financial Officer, have evaluated any changes in the Company's internal control over financial reporting that occurred during the first quarter of 2010, and they have concluded that there was no change to Cincinnati Bell Inc.'s internal control over financial reporting in the first quarter of 2010 that has materially affected, or is reasonably likely to materially affect, Cincinnati Bell Inc.'s internal control over financial reporting.
