1. Press release entitled BBVA Francés reports consolidated fourth quarter earnings for fiscal year 2013 .

Buenos Aires, February 20, 2014 - BBVA Francés (NYSE: BFR.N; BCBA: FRA.BA; LATIBEX: BFR.LA) reports consolidated fourth quarter earnings for fiscal year 2013.

Annual Highlights

BBVA Francés net income reached AR\$ 2,024.2 million as of December 31, 2013, registering a significant increase compared to the gain obtained in 2012.

The private sector loan portfolio totaled AR\$ 36,427.3 million as of December 31, 2013, an increase of 28.1% in the last twelve months. Both, consumer loans and loans to small and medium-size companies showed an excellent performance during the year, growing 41.2% and 34.3%, respectively. Loans to large corporations grew 8.5% as a consequence of the decrease in loans to finance foreign trade transactions.

In 2012 and 2013, the Argentine Central Bank (BCRA) established through Communications A 5319, A 5380 and A 5449 that certain financial institutions should allocate a minimum portion of total deposits to finance investment projects. By the end of 2013, Communication A 5516, renewed this line of credit and extended the quota to be allocated in 2014. The Bank successfully complied with the amount established for 2012 and for 2013. Total lending for investment projects allocated in 2013 reached AR\$ 2,961 million.

BBVA Francés has maintained excellent asset quality ratios, despite the increase of the non-performing loan portfolio during the period and within an environment that showed signs of deterioration. The non-performing loan ratio reached 0.76% as of December 31, 2013, with a coverage ratio of 254.16%

Regarding liabilities, total deposits grew 28.2% in annual terms, reaching AR\$ 43,777.8 million. Both, time deposits and current accounts registered significant increases during the period. Deposits in pesos grew 27.5% in the last twelve months, whereas deposits denominated in foreign currency grew 34.3% during the same period.

In July 2013, BBVA Francés placed the fourth issuance of its Negotiable Obligations, which achieved a high level of demand. In addition, in November 2013 the Bank issued Series 6 of such bonds for an amount of AR\$ 121 million due in 18 months and Series 7 for an amount of AR\$ 250 million due in 36 months.

BBVA Francés, once again, maintained high levels of liquidity and solvency. As of December 31, 2013 total shareholder's equity reached AR\$ 7,156.2 million, while the excess of capital over the BCRA minimum regulatory requirements, reached AR\$ 2,810.2 million, or 39.3% of the Bank's total stockholder's equity. The capital ratio reached 19.4% of weighted risk assets.

As of December 31, 2013, liquid assets (Cash and due from banks plus BCRA bills and notes) represented 32.7% of the Bank's total deposits.

On July 10, 2013, BBVA Francés and Consultatio S.A signed a sale and purchase agreement, through which the Bank acquired 23 of the 33 floors of the building under construction by Consultatio S.A., which will become the BBVA Tower. This is the largest

corporate headquarters real state development project in the county and is part of the plan designed in 2010 by BBVA Francés to unify its core areas, currently divided among 10 buildings in the City of Buenos Aires. The goal is to have a building with the highest construction and, environmental standards that will allow the Bank's staff to work together in the same area, thus achieving greater efficiency. It is worth noting the building is being developed according to the highest international environmental and sustainability standards and with the commitment of the BBVA Group of preserving the environment.

The investment of approximately AR\$ 1,200 million has a payment schedule associated with the work progress of the project. To date, construction is progressing according to plan and projected for completion in late 2015. This building will be located on the street L. Alem 815 in the City of Buenos Aires.

On October 1, 2013 the BCRA's Communication A 5460 came into effect. This regulation grants broad protection to consumers of financial services and includes among other aspects, the regulations of fees and commissions charged by financial institutions for services provided. Consequently, fees and charges must represent a real, direct and demonstrable cost and should have technical and economic justification.

On September 17, 2013, the Buenos Aires Securities and Exchange Commission Resolution 622/13 took effect. Such resolution regulates the new Capital Market Law 26,831. To comply with this framework, on December 17, 2013 the Bank started the process to register as a Clearing and Settlement Agent and as a Negotiation Agent, which covers such agents that participate in the clearing and settlement of transactions registered to its own portfolio and for its clients, and additionally decide to offer clearing and settlement services for transactions by other registered Negotiation Agents.

Quarterly Highlights

BBVA Francés reached net income of AR\$ 863.9 million during the fourth quarter of 2013, registering a significant increase compared to the same quarter of 2012 and to the previous quarter.

Net financial income grew 65.1% compared to the same quarter of 2012 and 20.8% compared to the previous quarter of 2013, mainly due to the increase in the intermediation with private sector and the increase in the foreign exchange difference line and in other financial instruments.

The private sector loan portfolio increased 8.7% in the last quarter of the year, accelerating the pace of growth. The total portfolio reached AR\$ 36,427.3 million. Loans to small and medium-sized companies grew 15.7% during the quarter, while the consumer portfolio increased 13.1% and loans to large corporation decreased by 6.2% during the same period.

The Bank's total deposits reached AR\$ 43,777.8 million by the end of the year, increasing 10.7% during the last quarter. Time deposits grew 11.1% and sight deposits grew 10.3% during the same period.

Economic Environment

After the significant growth during the first six months of 2013, economic activity slowed down in the third and fourth quarter of 2013, as the Monthly Estimator of Economic Activity (known by its acronym in Spanish, EMAE), which is a monthly proxy for quarterly GDP increased in July-October by 0.5% (seasonally adjusted) with respect to the first half of 2013 (3.6%).

The Monthly Industrial Estimator fell 1.9% on October-November of 2013 in comparison with the third quarter and 2.6% in year-on-year basis, continuing the trend registered during such period.

Construction also fell during the fourth quarter of 2013 decreasing 1.3% with respect to the third quarter of 2013, while in an annual basis it continued to increase by 4.6% with respect to the same period of 2012.

Inflation, as measured by the official Consumer Price Index for Greater Buenos Aires (which is used to calculate the CER adjustment for some sovereign bonds) increased by 3.3% in the fourth quarter of 2013, above the 2.6% growth in the previous quarter, accumulating 10.9% in the last twelve months.

The primary fiscal deficit of the national public sector was AR\$ 9,434 million during October and November 2013, compared to only AR\$ 62 million during the same months in the previous year. The increase in primary public sector

spending was 37.8 % and public sector revenues increased 28.2 % in annual terms.

Tax revenues increased by 17% due to a fall in export duties; however, total revenues were reinforced by the increase in results that the BCRA and Anses transferred to the National Treasury.

Interest payments increased by 16.8% annually and the total deficit reached AR\$ 16,746 million, a growth of 165% compared to the same months of 2013.

The items that contributed the most to the increase in primary spending during the period were public works (which increased 69%) and transfers to the private sector (which increased 47%).

In the external sector, the accumulated trade surplus in the fourth quarter of 2013 reached USD 1,883 million, 14.9% lower than that recorded in the fourth quarter of 2012. The performance of the trade balance is the result of total exports of USD 19,547 million (-1.4%) and total imports of USD 17,664 million (+0.3%) in the period.

In the FX market, the exchange rate (BCRA reference rate) closed at AR\$ 6.5180 per U.S. dollar on December 30, 2013, increasing 12.51% in comparison with the AR\$ 5.7920 per USD registered on September 30, 2013.

In the fourth quarter of 2013, the stock of international reserves of the Central Bank decreased by USD 4,142 million to USD 30,599 million on December 30, 2013. During the quarter, the Central Bank sold USD 4,947 million in the FX market, higher than the previous quarter when it sold USD 1,635 million.

The Badlar interest rate for private banks increased 168 basis points on the fourth quarter of 2013, as it averaged 19.3% compared to the 17.7% averaged on the third quarter of 2013.

Private sector loans in pesos increased 8.7% in the fourth quarter of 2013 with respect to the third quarter of 2013, while private sector loans in dollars dropped by 13.3%. Total deposits in pesos in the financial system increased 6.4% in the same period. Private sector deposits in pesos grew 7.8% and private sector deposits in dollars grew 1.4%.

The Bank

BBVA Francés has vast experience in the market, offering the best products and services through its wide distribution network all over Argentina. Its strength, commitment and flexibility allow it to retain existing clients and to attract new clients day by day, achieving a place as one of the main financial institutions in the Argentine financial system.

In 2013, the Bank reached the top position in the Net Recommendation and Satisfaction Indexes (known by its Spanish acronym, IRENE) thus obtaining leadership in the market regarding service quality. These indexes analyze clients' intention to recommend their bank to others as well as their level of satisfaction with the services provided.

During the fourth quarter of 2013, BBVA Francés continued to differentiate itself by strengthening its relationship with clients and employees, in order to offer the best products and a great experience. To that end, the various projects listed below were implemented.

BBVA Frances considers the high income segment as strategic and for that reason the Bank has been working over the past two years on a long term plan in order to achieve a leading and differentiated position in this target. Accordingly, by the end of November 2013, the Bank launched the PREMIUM segment with an exclusive event at the Greek embassy in Argentina. This new segment is composed of the 15,000 clients with the highest income, who will have access to a new and different service experience: Premium executives, parking at branches with VIP spaces, free of charge subscriptions to magazines and newspapers, birthday presents and many other premium experiences at theatres, concerts and movies, with pre-sales on tickets and priority in invitations, exclusive brochures, among others.

In the retail segment, and in the framework of the *Estas Dulce* campaign, in November 2013 the *Pony* commercial won the *Lápiz de Plata* prize. In addition, by the end of the year, with the aim of reinforcing the value of its credit cards, the Bank launched a new

campaign named *Souvenir* which the slogan of *Mejor viajá vos*, encouraging clients to exchange their purchases for Lanpass kilometers in order to travel around Argentina and the rest of the world through LAN and its associated airlines.

In addition, the Bank presented the new MasterCard Travel Assistance service, free of charge, for those clients (including their families and additional credit card holders) with Gold, Platinum and Black credit cards.

At the same time, two new offices were opened as part of the Bank's expansion plan: a branch at the city of Esquel (province of Chubut), which aims to improve BBVA Frances's positioning in the Patagonia region and a new in-company branch at Casino Buenos Aires, an strategic area due to the large number of people in the neighborhood and its commercial potential.

In the commercial segment and understanding the needs of the Agricultural and Corporate clients, BBVA Francés opened an exclusive branch in Rosario which offers a great variety of financial products and services tailor made for these segments.

As part of the differentiated service plan, the Comex (foreign trade operations) department carried out Foreign Trade workshops, where more than 500 companies participated, including clients and others, to discuss current subjects, new regulations related to imports and exports and payment of services abroad.

It is also important to highlight the social role played by BBVA Francés, represented by the Compromiso Social BBVA Francés (BBVA Francés Social Commitment). Such commitment defines three lines of work: BBVA Francés Scholarship Program, the Environmental Preservation Program and the Stimulus to Agricultural Entrepreneurs.

As part of the Program Artists for Education the Bank sponsored a concert at the Instituto Superior de Arte del Teatro Colón in Mar del Plata, and the Jazz y Más (Jazz & more) music festival which was organized by the Culture Division of San Isidro, province of Buenos Aires.

Similarly, within the Scholarship Program, BBVA Francés organized the event Ciclo de Mesas Redondas 2013 (Round Table Discussions 2013) about Educational Quality and Social Inclusion, together with the Del Salvador University in Pilar city and the Catholic University of Córdoba.

As usual, the Bank presented its traditional prize, for the 24th time, BBVA Francés Award to the Agricultural Entrepreneur, which has become a symbol of recognition and stimulus for entrepreneurs, farmers and professionals of the sector who have innovated in their business and improved profitability. As a result, the prize offers the possibility to be part of an

important group of professionals of the agro-sector, with wide opportunities for the business, in terms of image, prestige, advertisement and recognition from the authorities of the sector.

BBVA Francés reached net income of AR\$ 919.0 million during the fourth quarter of 2013, registering a significant increase compared to the same quarter of 2012 and to the previous quarter.

Net financial income grew 71.7% and 33.9% compared to the quarters ended December 31, 2012 and September 30, 2013, respectively. Such increase is mainly due to a higher volume of intermediation with the private sector together with the growth in the foreign exchange difference and other financial instruments lines.

As a consequence of the increase in the loan portfolio and in non-performing loans, provisions for loan losses in the quarter grew 37.8% and 41.4% compared to the

same quarter of 2012 and to the previous quarter, respectively.

Net income from services increased 29.2% compared to the fourth quarter of 2012 whereas it maintained its level compared to the previous quarter of 2013.

Administrative expenses increased 15.3% compared to the same quarter of 2012 and showed a small decrease of 4.3% during the fourth quarter of 2013.

Finally, other income/expenses registered a gain of AR\$ 5.9 million, mainly due to lesser provisions for other contingencies, higher recovered loans and disaffected provisions.

Net Financial Income

Net financial income registered a significant increase compared to the same quarter of 2012 and to the previous quarter, growing 65.1% and 20.8%, respectively.

The increase reflects higher volumes of intermediation with the private sector, continuing the pace of growth of the most recent quarters, which resulted in an increase of the interest margin of 24.6% compared to the same quarter of 2012 and 4.1% during the quarter.

As previously mentioned, the net financial income result includes the non-recurring income originated by variations in the valuation of public securities. Such results totaled losses of AR\$ 66.2 million and AR\$ 1.6 million, during the quarters ended December 31, 2013 and December 31, 2012, respectively, whereas the quarter ended on September 30, 2013 registered a gain of AR\$ 79.7 million.

In addition, both, the foreign exchange difference and others line items, which include foreign currency operations, registered a significant increase not only on a quarterly basis but also annually.

Net Income from Services

Net income from services registered an increase of 29.2% compared to the same quarter of 2012 whereas it maintained a similar level during the fourth quarter of 2013.

Higher consumption with credit cards, higher fees generated from deposits services and insurance sales, together with fees from PSA Finance led the growth during the last twelve months.

Service charge expenses grew mainly due to the increase in benefits offered for credit card consumption.

Compared to the previous quarter, service charge expenses grew more than the income from services as a consequence of higher fees paid in connection with the LANPass kilometers program.

Administrative Expenses

Administrative expenses increased 15.3% compared to the same quarter of 2012 and decreased slightly compared to the previous quarter.

Personnel expenses grew in the last twelve months mainly due to the increase in wages according to the agreement reached with the labor union and to a higher number of employees.

General expenses increased 15.8% during the same period, due to tax charges as a consequence of the initial payment of the purchase of the new building, an increase in the activity volume, and all charges related directly to the business activity level and to price adjustments related to structural fixed costs (cleaning, rent and security), partially offset by lower charges on advertisement and promotions.

During the last quarter, personnel expenses didn't register variations, whereas general expenses decreased mainly due to lesser tax charges (during the previous quarter the initial payment for the new building was made) and advertisement and publicity expenses.

As of December 31, 2013, the Bank and its subsidiaries had 5,233 employees. The branch office network totaled 275 attention-to-clients units, including 245 consumer branch offices and 30 branch offices specializing in the middle-market segment and institutions. Corporate banking included 7 business units grouped by industry. Complementing its distribution network, the Bank has 13 in-company branches and 2 point of sale outlets, 655 ATM s and 728 quick deposit boxes (QDBs).

Other Income / Expenses

Other income/expenses totaled a gain of AR\$ 5.9 million during the fourth quarter of 2013 mainly due to lesser provisions for other contingencies recorded during the period, higher recovered loans and disaffected provisions.

Income from Equity Investments

Income from equity investments sets forth net income from related companies that are not consolidated. During the last quarter of 2013 a gain of AR\$ 17.8 million was recorded, mainly due to BBVA Frances' stake in Rombo Compañía Financiera. It is important to highlight that in the quarter ended September 30, 2013 this item included the annual valuation for the stake in Visa.

Balance and activity

Total Public Sector Exposure

Exposure to the public sector's National treasury increased 7.7% compared to the same quarter of 2012 and 27.0% during the quarter. Even though during 2013 amortizations and sales, specifically, the total Bonar 14 portfolio, were registered, these were partially offset by new instruments incorporated into the Bank's portfolio.

The Bank's portfolio of BCRA bills and notes decreased 44.0% compared to December 2012 and 39.5% during the quarter, in accordance to the liquidity policy implemented by the Bank.

As of December 31, 2013, public sector National treasury assets represented 3.8% of the Bank's total assets. Total exposure to BCRA's bills and notes net of holdings linked to reverse repo transactions, represented 2.1% of the Bank's total assets.

Total exposure to the public sector includes public debt of the national treasury through public securities, guaranteed loans and trustees, as well as, the BCRA's bills and notes.

Loan Portfolio

The private sector loan portfolio totaled AR\$ 36,427.3 million as of December 31, 2013, growing 28.1% in the last twelve months and 8.7% during the last quarter.

During 2013, both, loans for consumption increased and loans to small and medium-sized companies registered an outstanding performance, increasing its portfolios by 41.2% and 34.0%, respectively, whereas financings to large corporations increased 8.5%.

In the retail segment, growth was driven by a 57.1% increase in credit cards, a 40.3% increase in car loans and by a 25.7% growth in personal loans.

Loans to small and medium size companies grew mainly due to leasing and commercial loans. It is important to mention that the management of the line of credit for the productive investment for micro, small

and medium-sized companies was instrumental in placing loans and leasing, reaching the target established for the year.

Finally, loans to large corporations registered a poor performance mainly due to the decline in foreign trade transactions, partially offset by an increase in financial loans and advances.

Compared to the previous quarter, growth was led by higher loans to small and medium-sized companies, which increased 15.7%, whereas the increase in the retail segment was 13.1% in the same period. Corporate banking registered a slight decrease in its portfolio during the quarter.
