Consolidated Financial Results

April 1, 2017 March 31, 2018

May 9, 2018

In preparing its consolidated financial information, ORIX Corporation (the "Company") and its subsidiaries have complied with generally accepted accounting principles in the United States of America.

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under "Risk Factors" in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission.

The Company believes that it may have been a "passive foreign investment company" for U.S. federal income tax purposes in the year to which these consolidated financial results relate by reason of the composition of its assets and the nature of its income. In addition, the Company may be a PFIC for the foreseeable future. Assuming that the Company is a PFIC, a U.S. holder of the shares or ADSs of the Company will be subject to special rules generally intended to eliminate any benefits from the deferral of U.S. federal income tax that a holder could derive from investing in a foreign corporation that does not distribute all of its earnings on a current basis. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company's annual report.

Operating Environment

The U.S. economy has remained steady with improvements in employment and income environments. Stable growth has also been observed in other regions. Although interest rates remain low worldwide, rate increases in the U.S. and the scaling back of quantitative easing policies in Europe are expected. The market has become more conscious about increasing market volatility. In addition, there are political and geopolitical tensions in certain regions that need to be monitored carefully.

The Japanese economy, as a whole, is continuing to experience moderate recovery.

Overview of Business Performance (April 1, 2017 to March 31, 2018)

Total revenues for the consolidated fiscal year ended March 31, 2018 (hereinafter, the fiscal year) increased 7% to ¥2,862,771 million compared to ¥2,678,659 million during the previous fiscal year. Life insurance premiums and related investment income in the life insurance business increased due to an increase in life insurance premiums from an increase in in-force policies, and an increase in investment income from assets under variable annuity and variable life insurance contracts following the market's recovery. In addition, sales of goods and real estate increased due primarily to revenues generated by subsidiaries in the principal investment business, and services income increased due primarily to service expansion in the asset management business and the environment and energy business.

Total expenses increased 8% to ¥2,526,576 million compared to ¥2,349,435 million during the previous fiscal year. Life insurance costs increased due to an increase in a provision of liability reserve in line with the aforementioned increase in in-force policies and an increase in investment income. In addition, costs of goods and real estate sold and services expense increased in line with the aforementioned increased revenues.

Table of Contents

Equity in net income of affiliates increased due mainly to the recognition of significant gains on sales of investments in real estate joint ventures compared to the previous fiscal year.

As a result of the foregoing, income before income taxes for the fiscal year increased 2% to ¥435,501 million compared to ¥424,965 million during the previous fiscal year. In addition, due to the impact from tax reform in the United States, net income attributable to ORIX Corporation shareholders increased 15% to ¥313,135 million compared to ¥273,239 million during the previous fiscal year.

Segment Information

Total segment profits for the fiscal year increased 2% to ¥429,058 million compared to ¥420,837 million during the previous fiscal year. While segment profits decreased in the Real Estate segment and the Overseas Business segment, segment profits for each of the other segments increased.

Segment information for the fiscal year is as follows:

Corporate Financial Services Segment: Loan, leasing and fee business

	Year ended	Year ended	Change	
	March 31, 2017	March 31, 2018	Amount	Percent
	(millions of yen)	(millions of yen)	(millions of yen)	(%)
Segment Revenues	102,979	115,712	12,733	12
Segment Profits	38,032	49,275	11,243	30

	(millions of yen)	(millions of yen)	Amount	Percent
			(millions of yen)	(%)
Segment Assets	1,032,152	961,901	(70,251)	(7)

Segment revenues increased 12% to ¥115,712 million compared to ¥102,979 million during the previous fiscal year due to an increase in gains on sales of securities, an increase in services income resulting from our stable fee businesses provided to domestic small- and medium-sized enterprise customers and from revenue in line with an increase in contracts of Yayoi Co. Ltd, despite a decrease in finance revenues from decreases in average investment balance in direct financing leases and installment loans.

Segment expenses remained at the same level as the previous fiscal year.

As a result of the foregoing, segment profits increased 30% to ¥49,275 million compared to ¥38,032 million during the previous fiscal year.

Segment assets decreased 7% to ¥961,901 million compared to the end of the previous fiscal year due to decreases in investment in direct financing leases, installment loans and investment in securities.

	(millions of yen)	(millions of yen)	(millions of yen)	(%)
Segment Assets	2,454,200	2,594,728	140,528	6

Segment revenues increased 4% to ¥477,420 million compared to ¥458,912 million during the previous fiscal year due to increases in services income in the asset management business, operating leases revenues in our aircraft-related operations including gains on sales of aircraft and finance revenues in the Americas, despite a decrease in sales of goods resulting from the sale of a subsidiary during the previous fiscal year.

Segment expenses decreased compared to the previous fiscal year due primarily to a decrease in costs of goods sold resulting from the aforementioned sale of a subsidiary.

As a result of the foregoing and due to decreases in equity in net income of affiliates and gains on sales of subsidiaries and affiliates and liquidation losses, net, segment profits decreased 5% to ¥106,602 million compared to ¥112,312 million in the previous fiscal year.

Segment assets increased 6% to ¥2,594,728 million compared to the end of the previous fiscal year due to increases in investment in operating leases in our aircraft-related operations, installment loans in the Americas and Asia, and the recognition of goodwill and other intangible assets in line with the acquisition of a new subsidiary, despite a decrease in investment in securities.

Outlook and Forecast

In addition to continuing growth exhibited in our existing business operations, we believe that there are further growth opportunities in all of our segments, and we will strive to achieve sustainable profit growth by capitalizing on these opportunities going forward. For details of medium-term strategic directions, refer to 2. Management Policies (3) Medium-Term Strategic Directions FY2019-2021 on page 11.

Although forward-looking statements in this document are attributable to current information available to ORIX Corporation and are based on assumptions deemed reasonable by ORIX Corporation, actual financial results may differ materially due to various factors. Shareholders' Equity Per Share	(yen)	1,925.17	2,095.64	170.47	9%

Note: Shareholders' Equity refers to ORIX Corporation Shareholders' Equity based on US-GAAP. Shareholders' Equity Per Share is calculated using total ORIX Corporation Shareholders' Equity.

Total assets increased 2% to ¥11,425,982 million compared to ¥11,231,895 million at the end of the previous fiscal year. Investment in securities decreased due primarily to sales of investment in securities as well as the surrender of variable annuity and variable life insurance contracts in the life insurance business. On the other hand, property under facility operations and investment in affiliates increased due primarily to the new large-scale investments in the environment and energy business. In addition, segment assets increased 1% to ¥9,017,250 million compared to the end of the previous fiscal year.

We manage the balance of our interest-bearing liabilities at an appropriate level taking into account the condition of our assets and liquidity on-hand as well as the domestic and overseas financial environments. As a result, long-term debt decreased, and short-term debt and deposits increased compared to the end of the previous fiscal year. In addition, policy liabilities and policy account balances decreased due primarily to the aforementioned surrender of contracts.

Shareholders' equity increased 7% to ¥2,682,424 million compared to the end of the previous fiscal year due primarily to an increase in retained earnings, despite a decrease due to share repurchases.

Summary of Cash Flows

Cash and cash equivalents increased by ¥281,371 million to ¥1,321,241 million compared to the end of the previous fiscal year.

Cash flows provided by operating activities were ¥546,624 million during the fiscal year, down from ¥583,955 million during the previous fiscal year. This change resulted primarily from an increase in payment of income taxes.

Cash flows used in investing activities were ¥411,578 million during the fiscal year, up from ¥237,608 million during the previous fiscal year. This change resulted primarily from increases in purchases of lease equipment and investment in affiliates.

Cash flows provided by financing activities were ¥143,582 million during the fiscal year, compared to the outflow of ¥33,459 million during the previous fiscal year. This change resulted primarily from an increase in proceeds from debt with maturities longer than three months and a decrease in repayment of debt with maturities longer than three months.

Table of Contents

(3) Profit Distribution Policy and Dividends for the Fiscal Year Ended March 31, 2018 and the Fiscal Year Ending March 31, 2019

ORIX aims to increase shareholder value by utilizing profits earned from business activities that were secured primarily as retained earnings, to strengthen its business foundation and make investments for future growth. At the same time, ORIX strives to make stable and sustainable distribution of dividends at a level in line with its business performance. In addition, with regards to the decision of whether to buy back shares, ORIX aims to act with flexibility and swiftness while considering various factors such as the adequate level of the Company's retained earnings, the soundness of its financial condition and external factors such as changes in the business environment, share price and its trend and target performance indicators.

Based on this fundamental policy, the dividend payout ratio for the fiscal year ended March 31, 2018 has been decided at 27%, up 2% from the fiscal year ended March 31, 2017, and the annual dividend has been decided at 66.00 yen per share (interim dividend paid was 27.00 yen per share and year-end dividend has been decided at 39.00 yen per share) from 52.25 yen per share in the previous fiscal year.

For the next fiscal year ending March 31, 2019, we expect the dividend payout ratio will be maintained at 27% with a focus on the optimal balance of securing of capital for investment in future profit growth and the making of stable and sustainable distribution of dividends to shareholders. The interim dividend for the next fiscal year is forecasted at 30.00 yen per share. The year-end dividend for the next fiscal year is to be determined.

(4) Risk Factors

With the announcement of our results for the fiscal year ended March 31, 2018, we believe no additional items have arisen concerning Risk Factors as stated in our latest Form 20-F submitted to the U.S. Securities and Exchange Commission on June 29, 2017.

2. Management Policies

(1) Management's Basic Policy

ORIX Group's corporate philosophy and management policy are described below.

Corporate Philosophy

ORIX is constantly anticipating market needs and working to contribute to society by developing leading financial services on a global scale and striving to offer innovative products that create new value for customers.

Management Policy

ORIX strives to meet the diverse needs of its customers and to deepen trust by constantly providing superior services.

ORIX aims to strengthen its base of operations and achieve sustained growth by integrating its resources to promote synergies amongst different units.

ORIX makes efforts to develop a corporate culture that shares a sense of fulfillment and pride by developing personnel resources through corporate programs and promoting professional development.

ORIX aims to attain stable medium- and long-term growth in shareholder value by implementing these initiatives.

Action Guidelines

Creativity: Develop the flexibility and foresight to constantly take actions that are creative and innovative.

Integration: Enhance ORIX Group's strength by actively exchanging knowledge, ideas, and experiences.

(2) Target Performance Indicators FY2019-2021

In its pursuit of sustainable growth, ORIX uses the following performance indicators: Net income attributable to ORIX Corporation shareholders to indicate profitability, ROE to indicate capital efficiency and ROA to indicate asset efficiency. In line with the mid-term strategic directions announced in May 2015, ORIX aimed to achieve a net income attributable to ORIX Corporation shareholders target of ¥300 billion for the fiscal year ended March 31, 2018, and to maintain ROE (the ratio of Net income attributable to ORIX Corporation shareholders' equity) around 11% to 12% with a focus on the growth of existing businesses and the expansion of non-finance businesses through new investment in key areas.

In the last three fiscal years ended March 31, 2018, in the domestic market, ORIX steadily developed its auto related business through its solid customer base, increased the number of life insurance policies through products that meet customer needs as well as enhanced sales channels and, expanded the renewable energy business and electric power retailing business in the environment and energy business. In the overseas business, ORIX developed its fee businesses in the Americas, increased profit and assets under management in ORIX Corporation Europe N.V. and increased assets in the aircraft related business.

Regarding new investment in key areas, ORIX set a precedent for its overseas development through its investments in the environment and energy business in the Americas and Asia, and expanded its fee businesses through several M&A transactions mainly in the Americas. Regarding the private equity businesses, ORIX built up a track record of investment and sales in Japan and also made several new investments in the Americas and Asia.

Furthermore, ORIX launched its concession business and joint airport operation business which is a first for a private operator.

Edgar Filing: ORIX CORP - Form 6-K

As a result of above-mentioned measures, as of March 31, 2018, ORIX achieved a net income attributable to ORIX Corporation shareholders of ¥313.1 billion and ROE of 12.1% meeting its targets of net income of ¥300 billion and ROE around 11% to 12%.

From the fiscal year ending March 31, 2019, ORIX aims to achieve annual net income attributable to ORIX Corporation shareholders growth of between 4% to 8%, and to maintain ROE above 11% by increasing asset efficiency through quality asset expansion in order to capture business opportunities and increasing capital efficiency by strengthening profit-earning opportunities such as fee-based businesses.

(3) Medium-Term Strategic Directions FY2019-2021

ORIX manages its business portfolio by dividing it into six segments: Corporate Financial Services, Maintenance Leasing, Real Estate, Investment and Operation, Retail, and Overseas Business.

Furthermore, taking risk and capital requirements into account, ORIX groups these six segments into three categories: Finance , Operation and Investment.

The Finance business is ORIX's customer base and source of information. However, given that the low interest rate environment makes growth difficult in financial businesses, ORIX will continue to focus on Operation and Investment to grow stable earnings and will proactively enter new markets to nurture its next core businesses.

The Operation business for which operational risk is taken by ORIX is positioned as ORIX's growth driver and source for new and stable earnings. ORIX will engage in M&A and expand new investment with a focus on the environment and energy business, asset management business, concession business and life insurance business as well as other new business areas coming from the change in society and the market.

The Investment business provides ORIX with opportunities to develop new businesses. ORIX focuses mainly on private equity businesses in Japan and overseas, aircraft and ship-related operations and will expand the scale of those businesses.

(4) Corporate Challenges to be Addressed

It is vital for ORIX to continue to maintain and develop a business structure that can be flexibly and swiftly adapted to the changing business environment. ORIX will take the following three steps in order to achieve the aforementioned mid-term strategic directions.

1. Further advancement of risk management
 2. Pursue transactions that are both socially responsible and economically viable
 3. Create a fulfilling workplace
-
1. Further advancement of risk management: Recognizing that business expansion and growth has diversified and globalized our risk, strengthen the business foundation which supports our growth by readily and continuously utilizing our risk management structure and our ability to assess risks.
 2. Pursue transactions that are both socially responsible and economically viable: Pursue transactions that are socially responsible from a social and environmental standpoint while providing products and services that are valued by clients and improve ORIX's overall profitability.
 3. Create a fulfilling workplace: Focus on ORIX's strengths as a global organization to create a fulfilling work environment for all employees regardless of nationality, age, gender, background or position.

3. Consideration in the Selection of Accounting Standard

We have been preparing our financial statements in accordance with U.S. GAAP. We believe that U.S. GAAP is the accounting standard that most appropriately reflects our business activities in our financial reporting.

Edgar Filing: ORIX CORP - Form 6-K

Reporting in U.S. GAAP enables us to maintain consistency and comparability with past financial results and we believe that is beneficial to our stakeholders.

Note 1: The Company evaluates the performance of segments based on income before income taxes, adjusted for net income attributable to the noncontrolling interests and net income attributable to the redeemable noncontrolling interests before applicable tax effect. Tax expenses are not included in segment profits.

Note 2: For those VIEs that are used for securitization and are consolidated, for which the VIE's assets can be used only to settle related obligations of those VIEs and the creditors (or beneficial interest holders) do not have recourse to other assets of the Company or its subsidiaries, segment assets are measured based on the amount of the Company and its subsidiaries' net investments in the VIEs, which is different from the amount of total assets of the VIEs, and accordingly, segment revenues are also measured at a net amount representing the revenues earned on the net investments in the VIEs. Certain gains or losses related to assets and liabilities of consolidated VIEs, which are not ultimately attributable to the Company and its subsidiaries, are excluded from segment profits.

Note 3: Inter-segment transactions are included in segment revenues, and eliminations of inter-segment transactions are included in the difference between segment total and consolidated amounts.
