ARDENT MINES LIMITED

(An Exploration Stage Company)

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Ardent Mines Limited have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission and should be read in conjunction with the audited financial statements and notes thereto contained in Ardent Mines' Annual Report filed with the SEC on Form 10-K for the fiscal year ended June 30, 2011. In the opinion of management, all adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for the fiscal year ended June 30, 2011 as reported in the Form 10-K have been omitted.

NOTE 2 - GOING CONCERN

Ardent Mines has incurred net losses since inception and has a negative working capital at September 30, 2011. The ability of Ardent Mines to emerge from the exploration stage with respect to any planned principal business activity is dependent upon its successful efforts to raise additional equity financing and/or attain profitable mining operations. Management has plans to seek additional capital through a private placement and public offering of its common stock. There is no guarantee that Ardent Mines will be able to complete any of the above objectives. These factors raise substantial doubt regarding Ardent Mines' ability to continue as a going concern.

NOTE 3 – ACQUISITION OF MINING RIGHTS

On May 4, 2011, Ardent Mines acquired Gold Hills Mining Ltda. which owns certain mining rights in Brazil. The aggregate purchase price paid was \$400,000 which was recorded as capitalized mining rights in the balance sheet as of September 30, 2011. \$250,000 of the purchase price was paid during the year ended June 30, 2011 and the remaining \$150,000 was paid during the three months ended September 30, 2011.

Under the terms of the acquisition, additional amounts will be paid pursuant to the results of reserves testing performed on the mining properties. Should the reserves testing confirm the existence of gold, silver and byproduct reserves of less than 300,000 equivalent gold ounces; Ardent Mines will not be required to make an additional payment. Should the reserves testing confirm the existence of gold, silver and byproduct reserves between 300,000 and 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$400,000 payable within 30 days after completion of a pre-feasibility study. Should the reserves testing confirm the existence of gold, silver and byproduct reserves in excess of 499,999 equivalent gold ounces; Ardent Mines will be required to pay an additional \$1,000,000, payable within 30 days after completion of a pre-feasibility study, and \$2.00 per additional ounce in excess of 500,000 equivalent gold ounces.

In addition to the amounts to be paid based upon the reserves testing, Ardent Mines will also be required to pay an additional \$700,000 within 30 days from the date that Ardent Mines obtains an environmental installation license. Once Ardent Mines begins extracting gold, silver or byproduct from the properties, Ardent Mines will be required to pay a monthly royalty equal to 2% of the net income from the sale of the mineral product. Ardent Mines will also be required to invest at least \$3,500,000 in Gold Hills Mining Ltda. upon the development of an extensive extraction program.

During the three months ended September 30, 2011, Ardent Mines made aggregate payments of \$128,701 towards the acquisition of mineral rights located in the Carajas Mineral Province of Brazil (see Note 8). The payments are classified on the balance sheet as mining rights as of September 30, 2011.

NOTE 4 – ADVANCES FROM RELATED PARTY

During the three months ended September 30, 2011, Ardent received advances of \$8,244 from Luciano de Freitas Borges one of the Company's directors. The advances are unsecured, bear no interest and are due on demand.

NOTE 5 – CONVERTIBLE NOTES PAYABLE

During the year ended June 30, 2011, the Company borrowed a total of \$750,000 from CRG Finance AG at a rate of 7.5% per annum. This unsecured loan, plus any interest accumulated, is due upon demand beginning October 18, 2011. On October 18, 2011, the loan becomes convertible into common stock at the holder's option at \$3.68 per share. Ardent Mines evaluated the conversion option under FASB ASC 815-15 and determined the conversion option does not qualify as a derivative. Ardent Mines then evaluated the conversion option under FASB ASC 470-20 for a beneficial conversion feature and determined that the conversion option does not contain a beneficial conversion feature. As of September 30, 2011, the unpaid principal on this note totaled \$750,000.

NOTE 6 – DERIVATIVES

As of September 30, 2011, Ardent Mines has an aggregate of 277,923 outstanding warrants containing exercise price reset provisions which requires derivative treatment under FASB ASC 815-15. The warrants were originally issued on September 7, 2011.

The fair value of these liabilities as of September 7, 2011 and September 30, 2011 totaled \$625,829 and \$569,387, respectively and was calculated using a lattice model. The net change in the fair value of these derivative liabilities during the three months ended September 30, 2011 was \$56,442.

Fair Value Measurement

Ardent Mine's values its derivative instruments under FASB ASC 820 which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Ardent utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. Ardent classifies fair value balances based on the observability of those inputs. ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy defined by ASC 820 are as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, marketable securities and listed equities.

Level 2 – Pricing inputs are other than quoted prices in active markets included in level 1, which are either directly or indirectly observable as of the reported date.

Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value. Ardent Mine's uses Level 3 to value its derivative instruments.

The following table sets forth by level with the fair value hierarchy the Company's financial assets and liabilities measured at fair value on September 30, 2011.

F-5

	Level 1	Level 2	Level 3	Total
Assets				
None	\$ -	\$ -	\$ -	\$ -
Liabilities				
Derivative warrants	\$ -	\$ -	\$ 569,387	\$ 569,387

The following table provides a summary of the changes in fair value, including net transfers in and/or out, of the derivative financial instruments measured at fair value on a recurring basis using significant unobservable inputs:

	Warrants
Fair value at June 30, 2011	\$ -

Common Stock Options

On February 4, 2011, the Company granted Leonardo Riera options to purchase 50,000 common shares at \$0.01 per share which options vest immediately and have a term of 5 years. The options were granted in lieu of the 50,000 shares he was entitled to receive pursuant to his employment agreement dated September 27, 2010. The 50,000 common shares he was originally granted were fair valued and expensed at \$84,500 during September 2010. On the date of the modification of the award, the fair value of the options granted was determined to be \$229,066 and the fair value of the shares originally granted was determined to be \$229,500. The fair value of the modified award on February 4, 2011 decreased; accordingly, there was no additional expense recorded. The fair value of the options was determined using the Black-Scholes Option Pricing Model. The significant assumptions used in the model include (1) discount rate of 1.25%, (2) expected life of 2.5 years (3) expected volatility of 169.52% and (4) zero expected dividends.

On May 12, 2011, the Company granted its Board members an aggregate of 1,300,000 stock options exercisable at \$0.01 per share. The significant assumptions used in the model include (1) discount rate of 0.98%, (2) expected terms between 2.5 and 3.25 years (3) expected volatilities between 165.66% and 198.46% and (4) zero expected dividends. The fair value is being expensed over the vesting period of the options. During the three months ended September 30, 2011, \$1,238,595 was expensed. The remaining \$2,216,296 will be expensed over the remaining vesting period.

During the three months ended September 30, 2011, there were no common stock options granted.

Ardent Mines has also agreed to make subsequent payments to COOPEMIC on the basis of the exploration report and the extent of the extraction of gold, silver, copper and their respective by-products. If Ardent Mines determines it is advisable to continue exploration, Ardent Mines shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration. If Ardent Mines’ exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, Ardent Mines shall pay to COOPEMIC 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

BUSINESS

Corporate Information

We were incorporated in the State of Nevada on July 27, 2000. We are presently engaged in the acquisition and exploration of mining properties. Our address is 100 Wall Street, 21st Floor, New York, NY 10005. Our telephone number is (855) 273-3686.

Background

In August 2000, we acquired the right to prospect one mineral property containing eight mining claims located on Copperkettle Creek in British Columbia, Canada. We have allowed these claims to lapse. From August 26, 2006 to December 11, 2006, we did not conduct any operations. During that period, we intended to identify an acquisition or merger candidate with ongoing operations in any field. However in December 2006 we decided to acquire the right to explore a new property in British Columbia and returned to the business of mineral exploration. On April 30, 2009, we decided not to renew certain claims, and later determined not to pursue its remaining claim in Canada. We

subsequently determined to pursue other mining development opportunities.

The Company's Current Business Operations

During the fiscal year ended June 30, 2011, we appointed new officers and directors, opened a new office, and negotiated and conducted due diligence regarding several potential acquisitions. Our most significant achievement to date has been its acquisition of Gold Hills Mining Ltda., as described below. During the fiscal quarter ended September 30, 2011, the Company has continued the exploration of the Gold Hills property and pursued a mining project in Para, Brazil, as described below.

Gold Hills Mining Ltda.

In January of 2011, we entered into a term sheet to acquire Gold Hills Mining Ltda. ("Gold Hills"), a Brazilian corporation which possesses rights for mineral extraction on properties located in Northeastern Brazil. After the completion of due diligence, on May 4, 2011, we acquired Gold Hills pursuant to a Purchase Agreement (the "Purchase Agreement") by and between the Company, Gold Hills and the two shareholders of Gold Hills (such shareholders are referred to herein as the "Sellers"). Pursuant to the Purchase Agreement, the Sellers have sold us One Hundred Percent (100%) of all the issued and outstanding equity interests (the "Shares") of Gold Hills in accordance with the following terms:

- (a) Payment of two hundred and fifty thousand U.S. dollars (\$250,000), which has been paid.
- (b) We shall conduct an exploration campaign at the properties (the “Exploration”). Upon the completion of the Exploration, the following amounts shall be paid by Gold Hills to the Sellers:
- (i) If the Exploration confirms the existence of gold mineral reserves of less than Three Hundred Thousand (300,000) ounces, no additional payment shall be made by the Company to the Sellers.
 - (ii) If the Exploration confirms the existence of gold mineral reserves of between Three Hundred Thousand (300,000) and Four Hundred Ninety-Nine Thousand Nine Hundred and Ninety-Nine (499,999) ounces, the additional payment to be made to the Sellers shall be Four Hundred Thousand U.S. Dollars (\$400,000).
 - (iii) If the Exploration confirms the existence of gold mineral reserves of greater than Four Hundred Ninety-Nine Thousand Nine Hundred and Ninety-Nine (499,999) ounces, the additional payment to be made to the Sellers shall be (a) One Million U.S. Dollars (\$1,000,000); plus (b) Two U.S. Dollars (\$2) per additional ounce in excess of the first Five Hundred Thousand (500,000) ounces, to be paid in four biannual installments starting in twelve (12) months.
- (c) Upon Gold Hills obtaining certain enumerated environmental licenses which are necessary to commence Gold Hills planned mining operations, we will make an additional cash payment to the Sellers in the amount of Seven Hundred Thousand U.S. Dollars (\$700,000).
- (d) Upon the commencement of the successful mining and processing of gold by Gold Hills, the Sellers shall be entitled to receive a royalty equal to Two Percent (2%) of Gold Hills’ gross income, as calculated in accordance with generally accepted accounting principles.

Subject to our determination of the existence of such gold reserves as set forth above, we have agreed to invest Three Million Five Hundred Thousand U.S. Dollars (\$3,500,000) in Gold Hills.

Pursuant to the Purchase Agreement, one of the Sellers shall be appointed to Gold Hills’ Board. The Purchase Agreement also contains standard representations and warranties, and provides for arbitration in the event of any dispute.

Option to Acquire Mineral Rights in the State of Para, Brazil

Gold Hills Mining Ltda., our wholly owned Brazilian subsidiary, has executed an agreement (the “Option Agreement”) granting us an exclusive option to acquire mineral rights in the Carajas Mineral Province in the State of Para, Brazil. On September 22, 2011, our Brazilian subsidiary Gold Hills Mining Ltda. gave an official notification to the Cooperative of Miners of Curianopolis (“COOPEMIC”) of our intent to exercise the mineral rights option in accordance with the procedures set forth in the exclusive agreement previously signed by the parties. The closing of the exercise of the mineral rights option agreement occurred in October, 2011.

At the inception of the Option Agreement, the Company paid COOPEMIC \$150,000, and following the period covered by this Report, has made an additional payment of \$350,000. The Company has agreed, under the Option Agreement, to expend a minimum of \$5,000,000 in the exploration of the applicable mining rights area. If the Company determines it is advisable to continue exploration, the Company shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration.

If the Company’s exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, certified under the standard NI-43101, as established by the Canadian Securities Administration as “measured resources,” the Company shall pay to COOPEMIC, at the end of such initial exploration, 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

Corporate Development Services Agreement

On September 27, 2010, we entered into a Corporate Development Services Agreement (the “Services Agreement”) with CRG Finance AG (“CRG”). Pursuant to the Services Agreement, CRG has agreed to render to the Company consulting and other strategic advisory services (collectively, the “Advisory Services”). We agreed to pay to CRG the following amounts for the Advisory Services: (i) an inception fee of US\$100,000.00 (one hundred thousand U.S. dollars) and (ii) a monthly services fee of US\$25,000.00 (twenty five thousand U.S. dollars) per month, payable each month for the period commencing as of September 1, 2010. CRG shall be paid \$10,000 per month of the Advisory Services Fee beginning September 1, 2010, with the balance of \$15,000 per month of the Advisory Services Fees together with the Inception Payment accruing until completion of the first Company financing when such accruals shall be fully due and payable. In consideration of any and all Investment Banking Services provided to the Company, CRG shall receive in cash ten percent (10%) of the total value of each such transaction, payable at the closing of each such transaction. The Services Agreement also contains provisions for the reimbursement of reasonable expenses incurred by CRG, and for indemnification of CRG and its affiliates from claims related to the services provided under the Services Agreement. The term of the Services Agreement shall be three years, and may be terminated at any time for any reason by CRG upon not less than thirty (30) days’ advance written notice. During May and June 2011, the inception fee and the accrued monthly service fees through June 2011 were paid in full. In July 2011, Ardent Mines and CRG entered into a suspension agreement whereby the investment banking services were suspended. Subsequent to the date of this Report the investment banking services were reinstated. During the year ended June 30, 2011, we borrowed a total of \$750,000 from CRG at a rate of 7.5% per annum, calculated based on a year of 365 days and actual days elapsed. The loan, plus interest accumulated, is due thirty days from the date of delivery to the Borrower of a written demand for repayment by CRG. On October 18, 2011, the loan became convertible into common stock at the holder’s option at \$3.68 per share. As of the date of this Report, CRG has not yet made demand for repayment.

NI 43-101 Compliant Technical Report on Exploration of the Gold Hills Project

On July 5, 2011, we announced that we have received a 43-101 Technical Report on Exploration prepared by SRK Consulting (U.S.) Inc. for the Company’s “Serra du Ouro” Project in Brazil. Ardent Mines acquired all mineral rights in the Serra du Ouro project area, containing a highly mineralized vein of approximately 13 Kilometers in length, by purchasing 100% of the shares of Gold Hills Mining Ltda. in May of 2011. The SRK NI 43-101 Technical Report on Exploration, dated July 5, 2011, was filed as Exhibit 99.2 to the Company’s Current Report on Form 8-K, filed with the Securities and Exchange Commission on July 8, 2011, and is also available on Ardent Mines’ website www.ardentmines.com. The report was prepared upon SRK’s completion of a site visit and the analysis of geological and geophysical evidence. SRK confirmed the existence of a highly mineralized vein containing gold of high grade (4 to 7 g/t), originally prospected by the CPRM, an agency of the Brazilian government.

Plan of Operation

There is no historical financial information about us upon which to base an evaluation of our performance. We are an exploration stage corporation and have not generated any revenues from operations.

To become profitable and competitive, we have to conduct exploration on the property and find mineralized material. We will be seeking equity financing to provide for the capital required to implement our research and exploration phases.

Liquidity and Capital Resources

The Company will need to raise additional capital to commence operations. The amount of capital required will be determined by the size and nature of the mining projects which the Company may commence in the future. We have no assurance that financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Any equity financing we may pursue will result in additional dilution to existing shareholders.

The Company will require significant additional funding in order to conduct proposed operations for the next year. The amount of funding required will be determined by the number of acquisitions of mining properties the Company engages in during such time.

Subsequent Events

Closing of Acquisition of Mineral Rights in Brazil's Carajás Mining District in the State of Para, Brazil

The Company announced on October 24, 2011 that Gold Hills Mining Ltda., its wholly owned Brazilian subsidiary, has, effective October 18, 2011, closed on its acquisition of the mineral rights in a highly mineralized area of 9,000 Hectares located in the Carajas Mineral Province, State of Para, with an option exercise payment of \$350,000 made to the Cooperativa dos Produtores de Minerios de Curionópolis ("COOPEMIC"). The Company refers to this property as Serra do Sereno, or Misty Hills.

The Serra dos Carajás Mineral Province is a distinct geologic dominium, well known worldwide for hosting Brazil's largest iron, copper and gold deposits. The Company plans to begin the initial exploration campaign at Misty Hills in approximately six to eight months. The Company has agreed, under the Option Agreement, to expend a minimum of \$5,000,000 in the exploration of the applicable mining rights area. The Company expects that the initial campaign will cost between \$5,000,000 and \$10,000,000.

In addition to the option exercise payment made to COOPEMIC, the Company has undertaken certain exploration commitments to COOPEMIC. The Company has also agreed to make subsequent payments to COOPEMIC on the basis of the exploration report and the extent of the extraction of gold, silver, copper and their respective by-products. If the Company determines it is advisable to continue exploration, the Company shall pay to COOPEMIC \$250,000 after six months of exploration and an additional \$150,000 after twelve months of exploration. If the Company's exploration activities confirm the existence of gold, silver or copper and their respective by-products in excess of 400,000 gold equivalent ounces, certified under the standard NI-43101, as established by the Canadian Securities Administration as "measured resources," the Company shall pay to COOPEMIC, at the end of such initial exploration, 30% of \$24 per gold equivalent ounce contained in the mineral reserves in three tranches: (i) one-third shall be paid when the Brazilian National Department of Mineral Production shall approve the final mineral exploration report; (ii) one-third shall be paid upon commencement of the extraction of gold, silver, copper and their respective by-products, contained in the areas covered by the mining rights; and (iii) one-third shall be paid within six months from the date of commencement of the extraction of gold, silver and copper and their respective by-products, contained in the areas covered by the mining rights.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On September 7, 2011 (the "Closing Date"), pursuant to a securities purchase agreement, dated September 1, 2011 (the "Securities Purchase Agreement"), the Company completed the closing of an offering of our securities (the "Offering") for a total subscription proceeds of \$1,000,003.50 through the issuance of 259,741 shares of the Company's Common Stock at a purchase price of \$3.85 per share (the "Shares") to certain accredited investors (the "Investors"). In connection with the issuance of the Shares, the Investors received common stock purchase warrants to purchase up to 259,741 additional shares of our common stock (the "Warrants"). The initial exercise price of the Warrants is \$4.15 per share, subject to adjustment therein, with a term of exercise equal to 5 years.

For a period of 6 months after the Closing Date, the purchase price per Share and the exercise price of the Warrants are subject to adjustment pursuant to certain events, including a subsequent financing by the Company on terms more favorable to the Investors than the terms in the Securities Purchase Agreement. Additionally, the number of shares of common stock to be received upon the exercise of the Warrants (the "Warrant Shares") and the exercise price of the Warrants are subject to adjustment for reverse and forward stock splits, stock dividends, stock combinations and other similar transactions of the common stock that occur after the Closing Date.

In connection with the Offering, we granted the Investors registration rights pursuant to a registration rights agreement, dated September 1, 2011 (the "Registration Rights Agreement"). The Company has filed a registration

statement in order to register the Shares and the Warrant Shares. Pursuant to the terms of the Registration Rights Agreement, and we are required to cause the registration statement to be declared effective within 90 days of the date of the Securities Purchase Agreement (120 days in the event the SEC reviews the registration statement). We filed such Registration Statement on September 29, 2011. The Registration Statement has been subject to SEC review and is not yet effective as of the date of filing of this Report.

Net proceeds from the private placement will be used primarily to support the Company's current exploration and development plans in Brazil together with the Company's ongoing general corporate and working capital requirements.

On June 15, 2011, the Company entered into an engagement agreement (the "Engagement Agreement") with Rodman & Renshaw, LLC to act as our exclusive placement agent (the "Placement Agent") in connection with the Offering. Pursuant to the terms of the Engagement Agreement, the Company has compensated the Placement Agent for its services with (i) a cash compensation equal to 7% of the gross proceeds received by the Company and (ii) common stock purchase warrants to purchase a total of 18,182 shares of the Company's common stock, with an exercise price of \$4.15 per share (the "Agent Warrants"). The Company also agreed to compensate the Placement Agent for all of its reasonable expenses in connection with the Offering.

The Share, the Warrants and the Agent Warrants were issued in reliance on exemptions from registration under Section 4(2) of the Securities Act of 1933, as amended (the "Act"), and Rule 506 of Regulation D promulgated under the Act. These transactions qualified for exemption from registration because among other things, the transactions did not involve a public offering, each Investor was an accredited investor and/or qualified institutional buyer, each Investor had access to information about the Company and their investment, each Investor took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.
