Chairman's Statement

Dear Shareholders:

In the first half of 2008, the Company integrated its resources for actively developing innovative businesses, especially the broadband services in its push for transformation into a "broadband communications and multimedia services provider", and achieved good results in the strategy. The revenue generated from innovative businesses grew by 26.2% compared to the first half of 2007, and accounted for 40.6% of total revenues, up 8.5 percentage points over the same period of last year. Our performance in this business segment helped to partly offset the continuing negative impact of fixed-mobile substitution.

I. Financial Performance

The Company generated revenue of RMB 41,125 million in the first half of 2008. Excluding upfront connection fees of RMB 505 million, revenue was RMB 40,620 million, representing a decrease of 0.15% over the same period of last year (unless otherwise specified, all reported data hereafter exclude the effect of upfront connection fees). Net profit was RMB 5,877 million, up 11.9% year on year because of the change in corporate tax rate and gain on non-cash transactions. If the impact of non-cash transactions was excluded, the net profit would be RMB 5,420 million, up 3.2% year-on-year.

The Company continued to execute its capital expenditure improvement plan in the first half of 2008. It controlled investment in traditional businesses to enhance free cash flow. It also increased investment in innovative businesses in order to create a foundation for sustainable growth in future. The Company reported a decline in total capital expenditure of 10.7% year-on-year to RMB 7,527 million. In particular, investment in the businesses of fixed-line and PHS only accounted for 4.4% of the total, down 13.2 percentage points compared to the same period last year. The Company reported an increase in free cash flow of 3.7% year-on-year to RMB8,428 million.

Improving free cash flow and capital management led to reduction in our debt level and greater financial strength. As of June 30, 2008, the Company's interest-bearing debt totaled RMB 55,190 million, a 10.6% decline compared to the end of 2007. Debt-to-equity ratio decreased to 36.6% from 39.8% as of the end of 2007.

II. Business Performance

In the first half of 2008, innovative businesses maintained growth momentum, while traditional fixed-line services saw a continued falloff as fixed-mobile substitution accelerated, and the trend spread to long-distance voice business. In the first half of 2008, revenue generated from innovative businesses made up for most of the decline in traditional fixed-line services.

Innovative Businesses

Revenue from innovative businesses was RMB 16,480 million in the first half of 2008. The amount was up 26.2% over the same period of last year, accounting for 40.6% of the total. This growth was mainly attributable to the rapid expansion of broadband services. Other innovative businesses, such as ICT (information communications technology), advertising and media services, also performed well. The innovative business segment posted growth overall.

As of June 30, 2008, broadband subscribers increased to 23,355 thousand. This represented a net growth of 3,587 thousand when compared to the end of 2007. Our share of the broadband market in our serviced areas was 90.4%, up 1.5 percentage points year on year.

While the number of the Company's broadband services customers was growing fast, the Company continued to step up effort to develop broadband content and application services with an aim to increasing revenue contribution from the services. The Company improved the business model based upon "content & application + access." In the first half of 2008, a full-scale upgrade of "CNC MAX" Client introduced enriched content and a new charging system. This led to a significant increase in penetration rate for content and application services among broadband subscribers. In April 2008, the Company initiated its Net Vision Plan leveraging the Company's network resource superiority and advanced P2P technology as well as its partnership with various content providers. The Plan aims to provide enriched, high-definition, authorized online video content for the subscribers. By June 30, 2008, the Company had signed trial contracts with 18 media content providers. In April 2008, the Company launched the video monitoring service "CNC Eye" for residential subscribers and small and medium-sized enterprises. "CNC Eye" provides internet-based services, such as large-scale monitoring, remote access and centralized control. By the end of June 30, 2008, over 40 thousand video monitoring stands had been built. We believe that revenue contribution from the broadband content and application services and ARPU from broadband subscribers will both increase as the penetration of content and application services among the subscribers rises.

Revenue from broadband services in the first half of 2008 was RMB 8,859 million, a year-on-year increase of 38.8%. Broadband services accounted for 21.8% of total revenues, up 6.1 percentage points over the same period of last year. ARPU was RMB 68.5. Revenue generated from broadband content and applications was RMB 1,270 million, up 69.1% over the same period of last year, accounting for RMB 9.8 of broadband ARPU.

In the first half of 2008, the Company's strategy for the ICT businesses was to enhance its capability for providing integrated ICT solutions for key industries, as well as to move towards the high end of the value chain, with an aim to improving the profitability of its ICT business. We made breakthroughs in enhancing our capability for serving such key sectors and industries as the government, environmental protection and transportation. The Company won a number of key projects for clients including the Ministry of Civil Affairs' information systems for a minimum standard of living, pollution source monitoring for the province of Neimenggu Autonomous Region and electronic police system integration for Shenyang municipality.

The Company established a call center operating firm in the first half of 2008. It has been working with Miyun County Government in Beijing to build an industrial base for the Company's call center in the county. The move will create an edge for the Company in the outsourcing services through the call centre business's specialized and professional operation and management.

In the first half of 2008, ICT revenue grew by 28.5% year on year to RMB1,882 million, and accounted for 4.6% of total revenue.

During the first half of 2008, we were improving the professional operation of our advertising and media businesses. Improvements have included the integration of information and data bases for the "Yellow Pages" and integration of media channels so that the Company and its branches can better share the resources. Our "Phone Navigation," "Yellow Pages" and "Online advertising" demonstrated robust growth. Revenue from advertising and media services was RMB 413 million, up by 339.4% year on year. Our strength in advertising and media business is becoming more and more prominent.

Traditional fixed-line services

During the first half of 2008, our traditional fixed-line service faced major challenges. We are losing local access subscribers, leading to a decline in revenue from the traditional business. As of June 30, 2008, we had 108,510 thousand local access subscribers, 2,310 thousand less than at the end of 2007. Of this number, fixed-line subscribers declined by 1,499 thousand, while PHS subscribers declined by 811 thousand.

Considering the continuous decline in subscribers of our fixed-line business and PHS, our strategy for 2008 is to use high-quality and bundled services, reformed pricing mechanisms, and improved customer experience to promote customer loyalty and thus arrest the decline in subscribers. We are working to upgrade the "Family 1+" from bundled services to household-oriented multimedia information services. In May 2008, we launched a family gateway, which offered comprehensive information services to "Family 1+" customers, combining simultaneous access to the internet through various PCs, wireless internet access, family video monitoring and IPTV services.

By the end of the first half of 2008, there were 9,971 thousand "Family 1+" subscribers. Penetration rate among broadband subscribers for the "Family 1+" service was 36%. The increasing penetration rate for "Family 1+" and enriching functions of the family gateway could make our customer enjoy the multimedia services more during informatization and unlock the value of our fixed-line network.

III. Broadband Olympics

As a focus of the world's attention, the 2008 Beijing Olympic Games has been successfully held. As the official partner for fixed-line communications for the Games, the Company successfully carried out the work to ensure the smooth operation of television transmission, broadband internet, WLAN (wireless local area network) and telecommunications support for the sport events. We are proud to have shown the world the marvels of the "Broadband Olympic" through our high speed network, convenient internet access, various communication products, and high service standards.

We have built a high-speed and smooth broadband network to deliver the "Broadband Olympics". The network enables us to stimulate and satisfy the subscribers' demand for information about the Olympics as well as their demand for content and applications at a higher level. In the process, the Company has developed its capability for providing total solution for corporate customers, boosting the development of its broadband business and ICT business, as well as enhancing the awareness about the Company's brand and service standard.

We believe that, after the 2008 Beijing Olympic Games, the high-quality broadband network established during the Olympic Games as well as the broadband consumption habit developed during the Olympic Games, will lead to a fast and sustainable growth in the innovative business and thus help catalyze the Company's strategic transformation.

IV. Merger

On June 2, 2008, China Unicom Limited (China Unicom) and the Company issued a joint announcement, detailing proposals by China Unicom for a merger of the two companies by way of a scheme of arrangement, which will be completed by an exchange of shares. Pursuant to the proposals, each share of the Company is to be exchanged for 1.508 shares of China Unicom, and each American Depositary Share of the Company is to be exchanged for 3.016 China Unicom American Depositary Shares. The merger is awaiting approval from the shareholders of the Company and China Unicom.

We believe that, given the global shift to mobile and broadband communications, the merger with China Unicom will serve the long-term development interests of the Company and shareholders. The merger will enable the new company to give full play to the competitive advantages of both predecessor companies, and bring the synergy into play. The new company is also expected to have access to a 3G license. This will give the new company a basis in a higher-level industrial chain and give it more stability and staying power in the domestic telecommunications market. It will also increase value to shareholders of both companies.

V. Changes of directors

On May 22, 2008, Mr. Victor Cha Mou Zing retired as independent non-executive director of the Company. On May 23, 2008, Mr. Zhang Chunjiang and Mr. Zhang Xiaotie resigned as executive directors of the Company. On behalf of the Board, I would like to express my deep gratitude to Mr. Zhang Chunjiang, Mr. Zhang Xiaotie and Mr. Victor Cha Mou Zing for their outstanding contributions to the Company during their terms as directors.

VI. Looking ahead

In the second half of 2008, we will increase investment in our innovative businesses, and step up effort to develop the innovative businesses, including the broadband services. We will continue the transformation of the "Family 1+" service in order to meet the demand of the household subscribers for high-quality multimedia services during informatization and to enhance the value of the fixed-line network. Meanwhile, we believe that the Company's merger

with China Unicom will support and strengthen execution of these strategies.

Finally, I would like to express my sincere gratitude to all shareholders for your support to the Company.

Independent Review Report

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF CHINA NETCOM GROUP CORPORATION (HONG KONG) LIMITED (incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 5 to 49, which comprises the consolidated condensed balance sheet of China Netcom Group Corporation (Hong Kong) Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2008 and the related consolidated condensed statements of income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

Notes to the Interim Financial Statements

1. The Group and its principal activities

Background of the Group

China Netcom Group Corporation (Hong Kong) Limited (the "Company") was incorporated on October 22, 1999 in the Hong Kong Special Administrative Region ("Hong Kong") of the People's Republic of China ("PRC") as a limited liability company under the Hong Kong Companies Ordinance, the shares of the Company were listed on The Stock Exchange of Hong Kong Limited on November 17, 2004 and the ADSs were listed on New York Stock Exchange Inc. on November 16, 2004.

The Company, China Netcom (Holding) Company Limited and China Network Communications Group Corporation (the "China Netcom Group") underwent reorganisation on June 30, 2004 ("Listing Reorganisation"). Immediately after the Listing Reorganisation, China Netcom Group became the ultimate holding company of the Company.

Pursuant to a resolution passed at the extraordinary general meeting of the shareholders on October 25, 2005, the Company acquired the principal telecommunications operations, assets and liabilities in the four Northern provinces/autonomous region, namely Shanxi Province, Neimenggu Autonomous Region, Jilin Province and Heilongjiang Province from China Netcom Group (the "Acquisition of New Horizon"). The consideration for the Acquisition of New Horizon was determined at RMB 12,800 million. The consideration consisted of an initial cash payment of RMB3,000 million and deferred payments of RMB 9,800 million. The deferred payments are being settled in half-yearly installments over five years. The interest charged on the deferred payments is calculated at 5.265% per annum.

Following the Listing Reorganisation and the Acquisition of New Horizon, the initial operation areas of the Company and its subsidiaries (the "Group") included Beijing Municipality, Tianjin Municipality, Hebei Province, Liaoning Province, Shandong Province, Henan Province, Shanxi Province, Neimenggu Autonomous Region, Jilin Province, Heilongjiang Province, Shanghai Municipality and Guangdong Province in the PRC.

On January 15, 2007, the Company's wholly owned subsidiary, China Netcom (Group) Company Limited ("CNC China"), entered into an assets transfer agreement with its ultimate holding Company, China Netcom Group. Pursuant to the agreement, CNC China agreed to dispose of its assets and liabilities in relation to its telecommunications operations in Guangdong Province and Shanghai Municipality branches ("Guangdong and Shanghai branches") in the PRC for consideration of RMB3.5 billion. On February 14, 2007, the independent shareholders passed an ordinary resolution to approve the disposal. The disposal was completed on February 28, 2007 upon the approval granted from the original Ministry of Information Industry. After the disposal of the Guangdong and Shanghai branches the Group only provides telecommunications operations in the ten Northern provinces, municipalities and autonomous region.

On December 5, 2007, China Netcom Group System Integration Limited Corporation ("System Integration Corporation"), a wholly owned subsidiary of CNC China, entered into an Equity Interest Transfer Agreement with China Netcom Group Beijing Communications Corporation, pursuant to which System Integration Corporation agreed to acquire the entire equity interest of Beijing Telecommunications Planning and Designing Institute Corporation Limited ("Beijing Telecom P&D Institute") from China Netcom Group Beijing Communications Corporation for a total consideration of RMB298.9 million. The consideration was paid through a one-off cash payment. The acquisition was registered with Beijing Property Transaction Administrative House and the ownership was transferred on December 31, 2007. Prior to the acquisition, Beijing Telecom P&D Institute was a wholly owned subsidiary of China Netcom Group Beijing Communications Corporation, which is a wholly owned subsidiary of China Netcom Group.

1 The Group and its principal activities (continued)

Background of the Group (continued)

On May 24, 2008, the Ministry of Industry and Information Technology ("MIIT"), the National Development and Reform Commission and the Ministry of Finance of the PRC jointly made an announcement on Deepening the Reform of the Structure of the Telecommunications Sector which stated that the PRC government will deepen the reform of the structure of the telecommunications sector. This encouraged the formation of three market competitors where each has nationwide network resources, relatively comparable strength and scale, as well as full service operation capabilities; it also noted that the allocation of telecommunications resources will be further optimized and the competition structure will be improved, and that three third generation mobile telecommunications licences will be granted once the contemplated restructuring is completed. The boards of directors of China Unicom Limited ("China Unicom") and the Company jointly announced on June 2, 2008 that China Unicom had formally presented a proposal to the board of directors of the Company and requested that the board put forward the proposal to the shareholders of the Company to consider the merger of China Unicom and the Company by way of a scheme of arrangement by the Company under Section 166 of the Hong Kong Companies Ordinance. Upon completion of the merger, the issued shares of the Company, the issued shares underlying the ADSs of the Company, and the outstanding share options of the Company will be cancelled. The Company will become a wholly-owned subsidiary of China Unicom and the listings of the Company's shares and the Company's ADSs on the Hong Kong Stock Exchange and the New York Stock Exchange will be withdrawn. The completion of the proposed merger is subject to certain conditions precedent, which include the results of the voting of the shareholders of the Company at the court meeting and extraordinary general meeting to be held on 17 September, 2008.

The Group's principal services

Currently, the Group's principal services consist of:

- Fixed line voice and value-added services, comprising:
 - (a) Local, domestic long distance and international long distance services;
 - (b) Value-added services, including caller identity, telephone information services; and
 - (c) Interconnection services provided to other domestic telecommunications operators including the fellow subsidiary owned by China Netcom Group operating outside the ten service regions;
- Broadband services and other Internet-related services;
- Information Communications Technology Services, including system integration, software services, outsourcing services, professional consulting services, professional services related with network information and disaster recovery, and other integrated solutions to client based on information and communications industry;
- Business and data communications services, including managed data services and leased line services; and
- Advertising and media services.

2. Basis of presentation

- (a) These unaudited consolidated condensed financial statements (the "interim financial statements") have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34, "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The interim financial statements include the financial information of the Company and its subsidiaries and have been prepared in accordance with the same accounting policies adopted in the 2007 financial statements and the new accounting policies as set out in Note 3 below. These interim financial statements should be read in conjunction with the Group's 2007 financial statements.

- (b) A significant percentage of the Group's funding requirements is achieved through short term borrowings. Consequently, the balance sheet indicates a significant working capital deficit. In the past, a substantial portion of the Group's short term borrowings have been rolled over upon maturity. Based on the Group's history of obtaining financing, its relationships with its bankers and its operating performance, the directors consider that the Group will continue to be able to roll over such short term financing, or will be able to obtain sufficient alternative sources of financing to enable it to operate and meet its liabilities as and when they fall due.
- (c) On January 15, 2007, CNC China entered into an assets transfer agreement with China Netcom Group to dispose of its assets and liabilities relating to its telecommunications operations in Guangdong and Shanghai branches in the PRC and the disposal was completed on February 28, 2007. In accordance with Hong Kong Financial Reporting Standard ("HKFRS") 5 "Non-current assets held for sales and discontinued operations" issued by the HKICPA, the results and cash flows of the operations of Guangdong and Shanghai branches for the six months ended June 30, 2007 have been presented as discontinued operations.
- (d) On December 5, 2007, System Integration Corporation entered into an Equity Interest Transfer Agreement with China Netcom Group Beijing Communications Corporation, pursuant to which System Integration Corporation agreed to acquire the entire equity interest of Beijing Telecom P&D Institute from China Netcom Group Beijing Communications Corporation. Before the acquisition, Beijing Telecom P&D Institute was a wholly owned subsidiary of China Netcom Group Beijing Communications Corporation, which is a wholly owned subsidiary of China Netcom Group. Since China Netcom Group is the ultimate holding company of the Group, the acquisition is a business combination under common control. Therefore, the Group accounted for this acquisition using the pooling of interest method according to Accounting Guideline No. 5 - Merger Accounting for Common Control Transactions ("AG 5"). The acquired businesses and assets are recorded at book value under HKFRS as if the businesses and assets of Beijing Telecom P&D Institute have been owned by the Group from the earliest comparative period presented. Accordingly, the financial information for the six months ended June 30, 2007 has been restated.

3. Accounting policies

Except as described below, the accounting policies adopted for six months ended 30 June, 2008 are consistent with those of the annual financial statements for the year ended December 31, 2007 as described in the 2007 annual financial statements.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The following standards, amendments and interpretations to published standards are mandatory for accounting periods beginning on or after January 1, 2008. The Group adopted them in the six months ended June 30, 2008, but they do not have any significant impact on the financial statements of the Group.

- HK(IFRIC) - Int 11, 'HKFRS 2 – Group and treasury share transactions'
- HK(IFRIC) - Int 12, 'Service concession arrangements'
- HK(IFRIC) - Int 14, 'HKAS 19 – the limit on a defined benefit asset, minimum funding requirements and their interaction'

The following new standards, amendments to standards and interpretations have been issued but are not effective for the financial year beginning January 1, 2008 and have not been early adopted. If they are adopted, they will not have significant impact on the financial statements of the Group:

- HKFRS 8, 'Operating segments'
- HKAS 23 (amendment), 'Borrowing costs'
- HKFRS 2 (amendment), 'Share-based payment'
- HKFRS 3 (amendment), 'Business combinations' and consequential amendments to HKAS 27, 'Consolidated and separate financial statements', HKAS 28, 'Investments in associates' and HKAS 31, 'Interests in joint ventures'
- HKAS 1 (amendment), 'Presentation of financial'
- HKAS 32 (amendment), 'Financial instruments: presentation', and consequential amendments to HKAS 1, 'Presentation of financial statements'

4. Revenues

Revenues represent the turnover of the Group and are derived from the provision of fixed line telecommunications and related services, net of the PRC business taxes and government levies amounting to RMB 1,171million (For the six months ended June 30, 2007: RMB 1,165 million). The Group's revenues by business nature can be summarized as follows:

7. Taxation

	Six months ended June 30	
	2008 RMB million Unaudited	2007 RMB million Unaudited Restated Note 2(d)
PRC enterprise income tax ("EIT")	1,971	2,589
Overseas profit tax	9	11
Deferred taxation-continuing operations	(201)	(194)
Deferred taxation- change in statutory taxation rate	—	(51)
Taxation charges	1,779	2,355

The provision for EIT is calculated based on the statutory income tax rate of 25% (For the six months ended June 30, 2007: 33%) on the assessable profit of each of the entities now comprising the Group in the PRC as determined in accordance with the relevant income tax rules and regulations in the PRC.

Taxation on profits derived from certain subsidiaries outside the PRC, including Hong Kong, has been calculated on the estimated assessable profit at the rates of taxation ranging from 17.50% to 34.00%, prevailing in the countries in which those entities operate.

On March 16, 2007, the National People's Congress approved the Enterprise Income Tax Law of the People's Republic of China (the "New EIT Law"). This New EIT Law reduces the enterprise income tax rate for domestic enterprises from 33% to 25% with effect from January 1, 2008.

On December 6, 2007, the State Council promulgated the Detailed Implementation Regulations for the implementation of the Enterprise Income Tax Law of the People's Republic of China (the "New EIT Implementation Regulations"), with effect from January 1, 2008. Per a bilateral tax affairs agreement, enterprises incorporated in Hong Kong are required to pay a 5 percent corporate income tax on profits distributed from its subsidiaries incorporated in the PRC. On February 22, 2008, the Ministry of Finance and the State Administration of Taxation jointly issued Circular on Preferential Policies of Enterprise Income Tax ("CaiShui [2008] Circular No. 1"). In accordance with the CaiShui [2008] Circular No. 1, earnings of foreign investment enterprises generated in or after 2008 and distributed to foreign investors should pay the withholding tax. As stipulated in New EIT Law, if earnings of tax resident enterprise are distributed to another tax resident enterprise, the withholding tax could be exempted. According to New EIT Law and New EIT Implementation Regulations, a tax resident enterprise is an entity incorporated in PRC, or incorporated outside PRC but its "place of effective management" is in the PRC. At present, the tax authority has not yet announced the formal guideline on the certification procedures of tax resident enterprise. The Company preliminarily assessed and concluded that it satisfied the definition of tax resident enterprise. Therefore, as of June 30, 2008, there is no deferred tax liability accrued in the Group's interim financial statements for the CNC China's undistributed profit generated in the six months ended June 30, 2008. The Group will continue to assess the impact to financial statements when further guideline is issued.

7. Taxation (continued)

The reconciliation between the Group's actual tax charge and the amount which is calculated based on the weighted average statutory tax rate is as follows:

	Six months ended June 30	
	2008 RMB million Unaudited	2007 RMB million Unaudited Restated Note 2(d)
Profit before taxation	8,161	8,461

Note:

(i) Pursuant to the shareholder's approval at the Annual General Meeting held on May 22, 2008, a final dividend of HK\$0.592 per share totaling RMB 3,499 million in respect of the year ended December 31, 2007 was declared and was paid on June 12, 2008, which has been reflected as a reduction of retained earnings for the six months ended June 30, 2008.

(ii) No interim dividend has been proposed by the directors for the period ended June 30, 2008. The payment of any future dividends will be determined by the Board of Directors.

(iii) Appropriation to statutory reserve

According to a PRC tax approval document issued by the Ministry of Finance and State Administration of Taxation to the Group, the Group's upfront connection fees are not subject to EIT and an amount equal to the upfront connection fees recognised in the retained earnings should be transferred from retained earnings to a statutory reserve. At June 30, 2008, the Company has made an aggregated appropriation of RMB11,211 million to the statutory reserve (At June 30, 2007: RMB 10,044 million). For the six months ended June 30, 2008, the Company made an appropriation of RMB 505 million (For the six months period ended June 30, 2007: RMB 855 million).

9. Earnings per share

Basic earnings per share are computed using the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share are computed using the weighted average number of ordinary shares and potential ordinary shares outstanding during the period.

The following table sets forth the computation of basic and diluted earnings per share:

	Six months ended June 30

10. Cash and bank deposits

	As at June 30 2008 RMB million Unaudited	As at December 31 2007 RMB million Audited
Cash and cash equivalents	4,602	5,304
Time deposits with original maturities over three months	84	91
Total cash and bank deposits	4,686	5,395
Effective interest rate of time deposits with original maturities over three months (%)	1.71-4.14	0.72

Included in cash and bank deposits as at June 30, 2008 and December 31, 2007 were Renminbi-denominated balances kept in the PRC amounting to RMB 4,176 million and RMB 5,054 million respectively. The conversion of Renminbi-denominated balances into foreign currencies and the remittance of bank balances and cash out of the PRC are subject to the rules and regulations of foreign exchange control promulgated by the PRC government.

Included in the bank deposits were deposits in state-owned banks amounting to RMB 4,024 million at June 30, 2008 (December 31, 2007: RMB 4,958 million). For the six months ended June 30, 2008, interest income earned from these state-owned banks deposits amounted to RMB 29 million (For the six months ended June 30, 2007: RMB 61 million).

11. Accounts receivable

Amounts due from the provision of fixed line telecommunications services to residential and business customers are due within 30 days from the date of billing. Residential customers who have accounts overdue by more than 90 days will in normal circumstances have their services disconnected. Accounts receivable from other telecommunications operators and customers are due generally between 30 to 90 days from the billing date.

The ageing analysis of accounts receivable based on the billing date is as follows:

	As at June 30 2008 RMB million Unaudited	As at December 31 2007 RMB million Audited
0-30 days	5,236	5,682
31-90 days	1,758	1,866

Total	10,110	9,856
Less: Allowance for doubtful debts	(1,858)	(1,398)
Net carrying amounts	8,252	8,458

The carrying value of accounts receivable approximates their fair values based on cash flows discounted using a market rate of 7.47% (December 31, 2007: 7.47%).

Included in accounts receivable are amounts due from other state-owned telecommunication operators amounting to RMB 757 million as at June 30, 2008 (December 31, 2007: RMB 833 million).

As at June 30, 2008	6,699,197,200	267,967,888	2,213

Note: The Group issued new shares for the options exercised during this period. For the six months ended June 30, 2008, the Company issued 24,868,800 shares (2007: 23,684,900 shares) upon the exercise of options by participants in the Share Option Scheme. The total consideration received amounted to RMB 234 million and the portion that exceeds the nominal value of the shares issued was recorded as share premium of the Company.

22. Share option scheme

A share option scheme was approved pursuant to a shareholders' resolution on September 30, 2004 ("Share option scheme"). Share options are granted to directors of the Company and to certain employees of the Group at the directors' discretion. Share options can be exercised at least 18 months from the later of the date of grant or the date of the listing of the shares of the Company on the Hong Kong Stock Exchange and subject to certain vesting restrictions on timing.

On October 22, 2004, 158,640,000 share options with an exercise price of HK\$8.40 each were granted to the directors of the Company and certain employees of the Group (the "First Grant").

Pursuant to the Company's share option scheme, the Company granted 158,640,000 options to certain of its directors and employees, immediately prior to the closing of its global offering, to subscribe for its ordinary shares at the initial public offering price under the Hong Kong public offering, excluding brokerage and trading fees, and transaction and investor compensation levies. The First Grant has an exercise period of six years from the date of grant. The grantees can exercise 40 percent of the options granted from May 17, 2006, a further 20 percent of the options granted from May 17, 2007, and a further 20 percent of the options granted from May 17, 2008. All unexercised share options will expire on November 16, 2010.

On December 6, 2005, the board of directors approved the grant of 79,320,000 shares of share options to certain management personnel and other professional personnel designated by the Compensation Committee of the newly acquired four northern provinces/autonomous region ("Second Grant"). The grantees can exercise 40% of the option granted from December 6, 2007, and all unexercised share options will expire on December 5, 2011.

The grant date fair value of the share options granted in the First Grant is determined by the Black-Scholes model based on the following assumptions: expected dividend pay-out ratio of 35%, expected vesting period of 5 years, expected volatility rate of 23.6% and risk-free interest rate of 4.3%. The weighted average fair value of the share options on grant date was determined as HK\$ 1.22 per share (RMB1.28 per share). The grant date fair value of the share options granted in the Second Grant is determined by the Black-Scholes model based on the following assumptions: expected dividend pay-out ratio of 35%, expected vesting period of 4 years, expected volatility rate of 21.46% and risk-free interest rate of 4.3%. The weighted average fair value of the share option on grant date was determined as HK\$1.28 per share (RMB1.34 per share). The model that decided the weighted average fair value of the share options and the assumptions mentioned above are subjective, and the changes of these subjective assumptions could affect the weighted average fair value of the share option. Therefore, Black-Scholes model may not reliably calculate the weighted average fair value of the share options.

Modifications to certain clauses of the share options schemes already granted were approved on May 16, 2006, pursuant to a resolution of the Extraordinary General Meeting. The modifications were mainly related to eligibility of the participants, number of options and exercise vesting schedules, rights upon cessation of employment, death and loss of capacity, performance targets, and cancellation of options. The modifications did not have significant impact to the interim financial statements.

22. Share option scheme (continued)

The movement of the share options during the period/year is summarised as follows:

No. of share options						Exercise price (HK\$)	Weighted average closing price per share at respective days immediately before the exercisable of options (HK\$)	No. of share options as at December 31, 2007
As at January 1, 2007	Granted	Exercised	Lapsed and forfeited	As at December 31, 2007

Total	176,646,900	—	23,684,900	2,117,440	150,844,560			45,218,610

No. of share options						Exercise price (HK\$)	Weighted average closing price per share at respective days immediately before the exercisable of options (HK\$)	No. of share options as at June 30, 2008
As at January 1, 2008	Granted	Exercised	Lapsed and forfeited	As at June 30, 2008				
First Grant	79,263,860	-12,299,600	99,900	66,864,360	8.40	26.17	39,532,240

Total	150,844,560	-24,868,800	139,500	125,836,260			53,317,100	

The company uses historical data to estimate pre-vesting option forfeitures and records share-based compensation cost only for those awards that are expected to vest.

The compensation cost recognised in staff cost during six months ended June 30, 2008 was RMB 16 million (For six months ended June 30, 2007: RMB 32 million). As at June 30, 2008, there was RMB 31 million (December 31, 2007: RMB 47 million) of unrecognised compensation cost, adjusted for estimated forfeitures, related to non-vested share-based awards granted to the Company's employees. This cost is expected to be recognised over a weighted-average period of 1.2 years. Total unrecognised compensation cost may be adjusted for future changes in estimated forfeitures.

There was no capitalised share-based compensation cost during the six months ended June 30, 2008 and 2007.

22. Share option scheme (continued)

The intrinsic value for the options exercised amounted to HK\$ 1,038 million and was calculated as the difference between the market value on the date of exercise and the exercise price of the shares. The intrinsic value of options outstanding as of June 30, 2008 amounted to HK\$ 1,378 million (December 31, 2007: HK\$ 1,980 million), which was calculated as the difference between the closing stock price as of June 30, 2008 and the exercise price of the share options.

The weighted average remaining contractual life for outstanding options and exercisable options as of June 30, 2008 was 2.87 years and 2.65 years (December 31, 2007 was 3.38 years and 3.45 years), respectively.

23. Other operating income

Other operating income mainly included a pre-tax gain on the non-monetary asset exchanges of RMB 610 million (For the six months ended June 30, 2007, there is no such transaction). For the six months ended June 30, 2008, the Group replaced copper cables in some network infrastructure with optical fibers and related equipments. Most of this replacement was done through non-monetary asset exchanges with suppliers, whereby optical fibers and related equipments were exchanged for the Group's own copper cables. The assets received was recorded at the fair value of the assets surrendered. The difference between fair value and net book value of the assets surrendered was recorded in current period's income statement. For the six months ended June 30, 2008, the net book value and fair value of copper cables surrendered were RMB 324 million and RMB 934 million respectively. A pre-tax gain on the non-monetary asset exchanges of RMB 610 million is recognized in the income statement for the current period.

26. Related party transactions

All state-owned enterprises, their subsidiaries, their key management and their close family, and their employees represent related parties of the Group as defined by HKAS 24. China Netcom Group, the Group's parent company, is a state-owned enterprise directly controlled by the PRC government which controls different state-owned enterprises driving the economy of the PRC. The Group is the dominant fixed line telecommunications operators in northern China by virtue of its historical monopoly over these services. As a result, the Group has extensive transactions including sales to, purchases of services, goods and fixed assets from, leasing of assets from and banking transactions with other state-owned parties in its ordinary course of business. These transactions are carried out at terms similar to those obtained by other non-state-owned parties and have been reflected in the financial statements.

The Group's operations are subject to the supervision of and regulation by the PRC Government. The MIIT and the original Ministry of Information Industry, pursuant to the authority delegated by the PRC's State Council, is responsible for formulating the policies and regulations for the telecommunications industry in China, including granting licenses, allocating frequency spectrum, formulating interconnection and settlement arrangements between telecommunications operators, enforcing industry regulations and reviewing tariffs for domestic services. Other PRC governmental authorities also regulate tariff policies, capital investment and foreign investment in the telecommunications industry.

As a state-owned telecommunications operator, the Group has extensive transactions with other state-owned telecommunications operators in its ordinary course of business. These transactions are carried out in accordance with the rules and regulations stipulated by the MIIT and the original Ministry of Information Industry of the PRC Government and disclosed below.

The Group has extensive transactions with other members of the China Netcom Group. It is possible that the terms of the transactions between the Group and other members of the China Netcom Group are not the same as those that would result from transactions with other related parties or wholly unrelated parties.

Management believes that meaningful information relative to related party disclosures has been adequately disclosed.
