ALCAN INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2003

(Unaudited)

(in millions of US\$, except per share amounts)

1. ACCOUNTING POLICIES

The unaudited interim consolidated financial statements are based upon accounting policies and methods of their application consistent with those used and described in the Company's annual financial statements, except for the recently adopted accounting policies described below. The interim financial statements do not include all of the financial statement disclosures included in the annual financial statements prepared in accordance with Canadian generally accepted accounting principles (GAAP) and therefore should be read in conjunction with the most recent annual financial statements.

Recently Adopted Accounting Policies

Impairment of Long-lived Assets

On January 1, 2003, the Company elected to early adopt the Canadian Institute of Chartered Accountants (CICA) section 3063, Impairment of Long-lived Assets. Under this standard, an impairment loss is recognized when the carrying amount of a long-lived asset held for use is not recoverable and exceeds its fair value. An impairment loss of \$8 relating to the packaging operations was recorded in the second quarter of 2003.

Disposal of Long-lived Assets and Discontinued Operations

On January 1, 2003, the Company elected to early adopt the CICA section 3475, Disposal of Long-lived Assets and Discontinued Operations. Under this standard, a long-lived asset to be disposed of by sale is measured at the lower of its carrying amount or fair value less cost to sell, and is not amortized while classified as held for sale. Assets and liabilities classified as held for sale are reported as assets held for sale and liabilities of operations held for sale on the balance sheet. A long-lived asset to be disposed of other than by sale, such as by abandonment, before the end of its previously estimated useful life, is classified as held for use until it is disposed of and depreciation estimates revised to reflect the use of the asset over its shortened useful life. Also, the standard requires that the results of operations of a component of an enterprise, that has been disposed of either by sale or abandonment or is classified as held for sale, be reported as discontinued operations if the operations and cash flows of the component have been, or will be, eliminated from the ongoing operations as a result of the disposal transaction and the Company will not have any significant continuing involvement in the operations of the component after the disposal transaction. A component of an enterprise comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the enterprise. Disposal activities relating to long-lived assets initiated by the Company in the second quarter of 2003 are described in note 3 - Discontinued Operations and Assets Held for Sale.

1. ACCOUNTING POLICIES (cont'd)

Recently Issued Accounting Policies

Guarantees

Asset Retirement Obligations

The CICA issued section 3110, Asset Retirement Obligations, which will be effective for the Company's fiscal year beginning on January 1, 2004. This standard established the CICA accounting standard for the recognition, measurement, and disclosure of liabilities associated with a guarantor or cost for a legal obligation. According to the commitments and tangibles of the asset. Under this standard, a liability would generally be recognized for such an obligation at its fair value when incurred and a corresponding asset retirement cost would be added to the carrying amount of the related asset.

The CICA issued accounting guideline AcG-15, Consolidation of variable interest entities, which will be effective for the Company's fiscal year beginning on January 1, 2004. The Guideline provides guidance as to when to apply consolidation principles to certain entities that are subject to control on a basis other than ownership of voting shares and thus determining when an enterprise includes the assets, liabilities and results of activities of such an entity (a variable interest entity) in its consolidated financial statements.

2.

ACCOUNTING CHANGE

Goodwill and Other Intangible Assets

On January 1, 2002, the Company adopted the CICA standard concerning goodwill and other intangible assets. Under this standard, goodwill and other intangible assets with an indefinite life are no longer amortized but are carried at the lower of carrying value and fair value. Goodwill and other intangible assets with an indefinite life are tested for impairment on an annual basis. An impairment of \$748 was identified in the goodwill balance as at January 1, 2002, and was charged to opening retained earnings in 2002 upon adoption of the accounting standard. Any further impairment arising subsequent to January 1, 2002, will be taken as a charge against income. As a result of the new standard, the Company no longer amortizes goodwill.

3.

DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

In the second quarter of 2003, the Company committed to a plan to sell certain non-strategic Packaging operations. These businesses are classified as held for sale and are included in discontinued operations. An impairment charge of \$113, after tax, was recorded in discontinued operations to reduce the carrying values of these businesses to estimated fair values less costs to sell. Accepted valuation techniques were used to estimate fair values. Certain financial information has been reclassified in the prior periods to present these businesses as discontinued operations on the income statement, as assets held for sale and liabilities of operations held for sale on the balance sheet and as cash flows from (used for) discontinued operations on the statement of cash flows. All of these divestments are expected to

be completed within one year.

3. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE (cont'd)

Selected financial information for the businesses included in discontinued operations is reported below:

		Second Quarter				Six Months		
	Periods ended June 30	2003		2002		2003		2002
	Sales	62		53		122		102
	Loss from operations	-		(1)		-		(3)
	Loss from impairment	(136)		-		(136)		-
	Pre-tax loss	(136)		(1)		(136)		(3)
	Income taxes	23		-		23		1
	Loss from discontinued operations	(113)		(1)		(113)		(2)

The major classes of Assets held for sale and Liabilities of operations held for sale are as follows:

		June 30, 2003	December 31, 2002
	Current assets held for sale:		
	Cash and time deposits	1	1
	Trade receivables	41	36
	Other receivables	9	11
	Inventories	32	28
		83	76
	Long-term assets held for sale:		
	Deferred charges and other assets	1	1
	Property, plant and equipment, net	5	140
	Intangible assets, net	10	14
	Goodwill, net	56	53
		72	208
	Current liabilities of operations held for sale:		
	Payables and accrued liabilities	41	43
	Short-term borrowings	-	4
		41	47

	Long-term liabilities of operations held for sale:		
	Debt not maturing within one year	-	1
	Deferred credits and other liabilities	1	1
	Deferred income taxes	7	20
		8	22

10

4. NET INCOME PER COMMON SHARE - BASIC AND DILUTED

Basic and diluted net income per common share are based on the weighted average number of shares outstanding during the period. The treasury stock method for calculating the dilutive impact of stock options is used. The following table outlines the calculation of basic and diluted net income per common share.

Periods ended June 30	Second Quarter		Six Months	
	2003	2002	2003	2002
Numerator for basic and diluted net income per common share:				
Net income (Loss) attributable to common shareholders	(90)	70	(79)	155
Denominator (number of common shares in millions):				
Denominator for basic net income (loss) per common share - weighted average of outstanding shares	322	321	322	321
Effect of dilutive stock options	-	2	-	2
Denominator for diluted net income (loss) per common share - adjusted weighted average of outstanding shares	322	323	322	323
Net income (Loss) per common share - basic and diluted	(0.28)	0.22	(0.25)	0.48

In the second quarter and six months of 2003, options to purchase 6,242,883 and 6,222,883 common shares, respectively (2002: 932,000 and 353,000) at a weighted average price of CAN\$48.78 and CAN\$48.79 per share, respectively (2002: CAN\$61.21 and CAN\$64.25) were outstanding during the periods but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average price of the common shares.

As at June 30, 2003, there were 321,739,502 (2002: 321,256,890) common shares outstanding.

5. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY ACCEPTED ACCOUNTING PRINCIPLES

Significant differences between Canadian and United States GAAP are described below. Beginning in 2001, the Company adopted U.S. GAAP as described below. of the FASB Statements Nos. 133 and 138, Accounting for Derivative Instruments and Hedging Activities. Accordingly, for U.S. GAAP Derivatives purposes only, beginning in 2001, unrealized gains and losses resulting from the valuation of derivatives at fair value are recognized in net income as the gains and losses arise and not concurrently with the recognition of the transactions being hedged. On January 1, 2003, the Company adopted, for certain transactions, the optional hedge accounting provisions; see "Recently Adopted Accounting Standards" below. In its primary Canadian GAAP financial statements, the Company continues to recognize the gains and losses on derivative contracts in income concurrently with the recognition of the transactions being hedged, except for certain foreign currency forward

contracts and swaps that are used to hedge certain foreign currency denominated debt and foreign currency denominated loans and oil put options, which are recorded at fair value.

For the period ended	<u>June 30, 2003</u>	(pro forma) <u>December 31, 2002</u>
Balance - beginning of period	389	363
Liabilities incurred	6	12
Liabilities settled	(13)	(12)
Accretion expense	10	17
Exchange	67	9
Balance - end of period	459	389

On January 1, 2003, the Company prospectively adopted the FASB Statement No. 146, Accounting for Costs Associated with Exit or Disposal Activities. This standard requires that a liability associated with an exit or disposal activity be recognized when the liability is incurred rather than at the date of the Company's commitment to an exit plan.

On January 1, 2003, the Company adopted the recognition and measurement provisions of the FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. The provisions are applied on a prospective basis to guarantees issued or modified after December 31, 2002. There were no significant guarantees issued or modified after December 31, 2002. See note 11 - Commitments and Contingencies.

Recently Issued Accounting Standards

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, which applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which the Company holds a variable interest that it acquired before February 1, 2003. This Interpretation requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among parties involved. An entity that holds a significant variable interest but is not the primary beneficiary is subject to specific disclosure requirements. The Company is studying the accounting requirements of this Interpretation and is preparing for its implementation.

6. RESTRUCTURING, IMPAIRMENT AND OTHER SPECIAL CHARGES

In 2001, the Company implemented a restructuring program aimed at safeguarding its competitiveness, resulting in a series of plant sales, closures and divestments throughout the organization.

Restructuring and asset impairment charges

A schedule is provided below showing details of the provision balances and related cash payments for the restructuring and asset impairment charges relating to the 2001 restructuring program:

	Severance	Asset Impairment		
	Costs	Provisions	Other	Total
2001				
Charges	112	269	30	411
Cash payments - net	(7)	-	(7)	(14)
Non-cash charges	-	(269)	-	(269)
Provision balance as at December 31	105	-	23	128

18

6. RESTRUCTURING, IMPAIRMENT AND OTHER SPECIAL CHARGES (cont'd)

In the second quarter of 2003, the Company recorded a net gain of \$16 pre-tax principally for the sale of the Borgofranco power facilities in Italy (Rolled Products Europe) partly offset by other costs of \$2 pre-tax (Packaging). In the first quarter of 2003, the Company recorded charges of \$1 pre-tax for asset writedowns (Engineered Products) and \$1 pre-tax for other costs (Packaging).

In 2002, the Company recorded charges of \$89 pre-tax related to the restructuring program, which consisted of severance costs of \$36 related to workforce reductions of approximately 960 employees (Q1: nil, Q2: 300 employees, Q3: 320 employees, Q4: 340 employees), impairment of long-lived assets of \$26 and other exit costs related to the shutdown of facilities of \$27. Severance charges of \$36 (Q1: nil, Q2: 14, Q3: 6, Q4: 16) related primarily to the closure of the Burntisland facility, U.K. (Bauxite, Alumina and Specialty Chemicals), certain cable operations in North America (Engineered Products) and extrusion operations in Malaysia and light-gauge operations in Fairmont, West Virginia (Rolled Products Americas and Asia). Asset impairment charges of \$26 (Q1: 9, Q2: nil, Q3: 13, Q4: 4) related primarily to the extrusion operations in Pieve, Italy (Engineered Products) and the Borgofranco plant in Italy (Rolled Products Europe). Other exit costs of \$27 (Q1: 5, Q2: (3), Q3: (4), Q4: 29) consisted principally of closure costs of \$19 for the Burntisland facility, U.K., a loss of \$5 on the sale of the extrusion operations in Thailand that arose from the realization of deferred translation losses (Rolled Products Americas and Asia), a loss of \$4 on the sale of the rolled products circles production unit at Pieve, Italy (Rolled Products Europe), other costs of \$3 and was offset in part by income of \$4 from the write-back of excess contract loss provisions upon settlement with a customer (Engineered Products).

19

6. RESTRUCTURING, IMPAIRMENT AND OTHER SPECIAL CHARGES (cont'd)

In 2001, Restructuring, impairment and other special charges of \$657 pre-tax were recorded, which included restructuring and asset impairment charges of \$411 and other special charges of \$246. The charges of \$411 included severance costs of \$112, which related to workforce reductions of approximately 2,200 employees, impairment of long-lived assets of \$269 and other exit costs related to the shutdown facilities of \$30. Other special charges of \$246 related to environmental provisions for treatment costs of \$150 for stored spent potlining in Canada as well as remediation costs of \$96 for bauxite residue disposal sites in Canada and the U.K.

Workforce reductions relating to the 2001 restructuring program and subsequent terminations are as follows:

	2001	2002	Six Months 2003	Total
Bauxite, Alumina and Specialty Chemicals	-	380	-	380
Primary Metal	500	-	-	500
Rolled Products Americas and Asia	200	250	-	450
Rolled Products Europe	400	-	-	400
Engineered Products	-	200	-	200
Packaging	800	130	-	930
Other	300	-	-	300
Planned workforce reductions	2,200	960	-	3,160
Terminations in period	400	2,500	210	3,110

Total remaining employees

50

In the context of the Company's objective of value maximization, a detailed business portfolio review was undertaken in 2001 to identify high cost operations, excess capacity and non-core products. Impairment charges arose as a result of negative projected cash flows and recurring losses, and related principally to buildings, machinery and equipment and some previously capitalized project costs.

In 2002, the Company completed the sale of certain glass packaging operations located in Park Hills, Missouri, and Mays Landing, Williamstown and Millville, New Jersey for proceeds of \$15 equal to book value. As well, the Company sold its rolled product circles production unit at its Pieve plant in Italy for proceeds of \$14 and its two Pharmatech rubber stopper and aluminum seals operations located in Salisbury, Maryland, U.S. for proceeds of \$9 equal to book value.

The restructuring program was completed in 2002, with the exception of the closure of facilities at Glasgow, U.K. and the sales of the extrusion operations in Malaysia and the recycling operations at the Borgofranco plant in Italy, all of which are planned to be completed in 2003, as scheduled per the Company's plans. The closure plans include the orderly shutdown of facilities after existing customer requirements have been satisfied and in some situations, the transfer of production operations to other facilities. The provision balance of \$76 at June 30, 2003 is expected to be largely paid out in 2003.

7. INFORMATION BY OPERATING SEGMENT

The following presents selected information by operating segment, viewed on a stand-alone basis. The operating management structure is comprised of six operating segments; Bauxite, Alumina and Specialty Chemicals; Primary Metal; Rolled Products Americas and Asia; Rolled Products Europe; Engineered Products; and Packaging. The Company's measure of the profitability of its operating segments is referred to as business group profit (BGP). BGP comprises earnings before interest, income taxes, minority interests, depreciation and amortization and excludes certain items, such as corporate costs, restructuring, impairment and other special charges, and pension actuarial gains, losses and other adjustments, that are not under the control of the business groups or are not considered in the measurement of their profitability. These items are generally managed by the Company's corporate head office, which focuses on strategy development and oversees governance, policy, legal, compliance, human resources and finance matters. Transactions between operating segments are conducted on an arm's-length basis and reflect market prices. Thus, earnings from the Primary Metal group represent mainly profit on metal produced by the Company, whether sold to third parties or used in the Company's Rolled Products, Engineered Products and Packaging groups. Earnings from the Rolled Products, Engineered Products and Packaging groups represent only the fabricating profit on their

respective products. The accounting principles used to prepare the information by operating segment are the same as those used to prepare the consolidated financial statements of the Company. The operating segments are described below.

Bauxite, Alumina and Specialty Chemicals

Headquartered in Montreal, Canada comprising the Company's worldwide activities related to bauxite mining, alumina refining and the production of specialty chemicals. The Bauxite, Alumina and Specialty Chemicals Business Group owns, or has an interest in, seven bauxite mines and deposits in five countries and five alumina plants in three countries.

Primary Metal

Also headquartered in Montreal, comprising smelting operations, power generation and production of primary value-added ingot in the form of sheet ingot, extrusion billet, rod and foundry ingot, as well as engineering services and trading operations for alumina and aluminum, operating or having interests in 16 smelters in seven countries.

Rolled Products Americas and Asia

Headquartered in Cleveland, U.S.A. encompassing aluminum sheet and light gauge products, operating 16 plants in six countries.

Rolled Products Europe

Headquartered in Zurich, Switzerland comprising aluminum sheet, including automotive, can and lithographic sheet, plate and foil stock operating 11 plants in four countries.

Engineered Products

Headquartered in Neuhausen, Switzerland producing fabricated aluminum products, including wire and cable, components for the mass transportation, automotive, building, display, electromechanical and other industrial markets, as well as sales and service centres throughout Europe, operating 47 plants in 17 countries.

23

7. INFORMATION BY OPERATING SEGMENT (cont'd)

Packaging

Headquartered in Zurich, consisting of the Company's worldwide food flexible, foil, specialty, pharmaceutical and cosmetics packaging businesses, operating 90 plants in 18 countries.

Intersegment, corporate offices and other

This classification includes the deferral or realization of profits on intersegment sales of aluminum and alumina, corporate office costs as well as other non-operating items.

8. STOCK OPTIONS AND OTHER STOCK-BASED COMPENSATION

The Company does not recognize compensation expense in earnings for options granted under the share option plan for employees as stock options are granted at an exercise price equal to the market price of the underlying

Edgar Filing: ALCAN INC - Form 10-Q

stock on the grant date. For pro forma income purposes, the fair value of options granted is being amortized over their respective vesting periods. The Black-Scholes valuation model is used to determine the fair value of the options granted. Pro forma net income and net income per common share - basic and diluted, as if the Company had elected to recognize compensation expense using the fair value method for all stock options, is presented below:

Periods ended June 30	Second Quarter		Six Months	
	2003	2002	2003	2002
Net income (Loss) as reported	(89)	71	(76)	157
Compensation expense if the fair value method was used	2	1	4	7
Pro forma net income	(91)	70	(80)	150
Net income per common share - basic and diluted - as reported	(0.28)	0.22	(0.25)	0.48
Pro forma net income per common share - basic and diluted	(0.28)	0.22	(0.26)	0.45

For stock-based employee compensation awards that can be settled in cash, the compensation cost, which is based on the change in the share price during the period, is recognized in income. For the second quarter and six months of 2003, total compensation cost (income) for such awards was \$3 and \$5, respectively (2002: \$(1) and \$2).

Current	107	86	223	161
Deferred	44	36	69	40
	151	122	292	201

The composite of the applicable statutory corporate income tax rates in Canada is 39.1% (39.4% for 2002). In 2003, the difference between income taxes calculated at the Canadian composite rate and the amounts reported is primarily attributable to exchange, partly offset by lower tax rates in foreign jurisdictions. In 2002, the difference is primarily attributable to exchange.

26

10. COMMITMENTS AND CONTINGENCIES

In 1997, as part of the claim settlement arrangements related to the British Columbia Government's cancellation of the Kemano Completion Project, the Company obtained the right to transfer a portion of a power supply contract with BC Hydro to a third party. The Company sold the right to supply this portion to Enron Power Marketing Inc. (EPMI), a subsidiary of Enron Corporation (Enron) for cash consideration. In order to obtain the consent of BC Hydro to this sale, the Company was required to retain residual liability for EPMI's obligation arising from the supply contract, including in the event that EPMI became unable to perform. This contingent liability is subject to a maximum aggregate amount of \$100, with mitigation and subrogation rights. On December 2, 2001, EPMI and Enron filed for protection under Chapter 11 of the U.S. Bankruptcy Code. Powerex, the BC Hydro affiliate which now holds the rights to the power supply contract, maintains that it has terminated the power supply contract and as a result filed a claim for \$100 against Enron on March 15, 2002 as a necessary step prior to making the same claim against the Company. Enron did not respond to that claim and the Company received, on March 22, 2002, a demand for payment in the amount of \$100 from Powerex. On January 17, 2003, the Company received a decision following arbitration hearings held in December 2002, on a contractual dispute between Powerex and Alcan. The arbitrator confirmed Powerex's claim for \$100. A standstill agreement, which had been in effect, has now expired. The parties remain in discussions while taking steps to preserve their respective rights.

To this end, Alcan is pursuing an application before the U.S. Federal Court in the State of Oregon for judicial review of the arbitrator's decision. Powerex filed a petition in the British Columbia Supreme Court in which Powerex asks the Court to, among other things, recognize and enforce the January 17, 2003 arbitration decision by granting judgement to Powerex and declaring that the award is enforceable in the same manner as a judgement or order of the Court. On July 10, 2003, the B.C. Supreme Court adjourned the hearing of the Powerex petition pending a decision of the U.S. Federal Court in Oregon regarding Alcan's application for judicial review. The U.S. Federal Court hearing will occur on August 12, 2003 and a decision will likely be issued at a later date. A provision of \$100 pre tax was recorded in the fourth quarter of 2002.

The Company has guaranteed the repayment of approximately \$6 of indebtedness by third parties. Alcan believes that none of these guarantees is likely to be invoked. These guarantees are primarily for employee housing loans and potential environmental remediation at former Alcan sites.

Alcan, in the course of its operations, is subject to environmental and other claims, lawsuits and contingencies. The Company has environmental contingencies relating to approximately 29 existing and former Alcan sites and third-party sites. Accruals have been made in specific instances where it is probable that liabilities will be incurred and where such liabilities can be reasonably estimated.

Although it is possible that liabilities may arise in other instances for which no accruals have been made, the Company does not believe that such an outcome will significantly impair its operations or have a material adverse effect on its financial condition or liquidity in any particular reporting period. The Company does not believe that additional material losses, in excess of amounts accrued, are reasonably possible.

12. CAPITALIZATION OF INTEREST COSTS

Total interest costs in continuing operations in the second quarter and six months of 2003 were \$57 and \$106 respectively (2002: \$49 and \$99) of which \$1 and \$2 (2002: nil) were capitalized.

13. LONG TERM DEBT

On May 1, 2003, the Company issued \$500 4.5% global notes due May 15, 2013.

27

14. VAW FLEXIBLE PACKAGING

On April 30, 2003, the Company completed the acquisition of VAW Flexible Packaging from Norsk Hydro for a cost of \$339, subject to post-closing adjustments. The business combination is accounted for using the purchase method of accounting and the results of operations are included in the Consolidated Financial Statements since acquisition.

As part of the acquisition of VAW Flexible Packaging in the second quarter of 2003, the Company acquired, directly and indirectly, 63% of the total issued share capital of Strongpack Plc in Thailand. Strongpack is engaged in packaging businesses, providing production and processing services on all types of flexible packaging materials. On June 20, 2003, the Company acquired an additional 11% of Strongpack at a price of \$4.

Assets acquired and liabilities assumed are:

Current assets	321
Deferred charges and other assets	2
Property, plant and equipment	258
Excess of purchase price over book value of net assets acquired	59
	640
Current liabilities	179
Debt not maturing within one year	15
Deferred credits and other liabilities	59
Minority interests	44
Fair value of net assets	343

The Company is in the process of determining the allocation of the excess of the purchase price over book value of net assets acquired to the fair values of the assets acquired and liabilities assumed. For financial statements reporting purposes, the excess of purchase price over book value acquired is included in Property, plant and equipment as at June 30, 2003.

15.

In the opinion of management, all adjustments necessary for a fair presentation of interim period results have been included in the financial statements. These interim results are not necessarily indicative of results for the full year.

28

Item 2. Management's discussion and analysis of financial conditions and results of operations.

The Company reported net income from continuing operations of US\$0.07 per share in the second quarter of 2003 compared to US\$0.22 per share a year earlier and US\$0.04 per share in the first quarter of 2003.

Net income from continuing operations for the second quarter of 2003 included a non-cash, after-tax charge of US\$146 million (US\$0.45 per share) for the effects of foreign currency balance sheet translation, as well as an after-tax net gain of US\$26 million (US\$0.08 per share) from Other Specified Items. Other Specified Items, as described in the table below, comprised mainly after-tax gains of US\$41 million on the sale of non-core assets in Italy and the remaining portfolio investment in Nippon Light Metal Company, Ltd., partially offset by US\$8 million of after-tax charges for plant closures. Foreign currency balance sheet translation effects and Other Specified Items, after-tax, reduced earnings by US\$78 million (US\$0.24 per share) in the second quarter a year ago, and by US\$109 million (US\$0.34 per share) in the first quarter of 2003. Foreign currency balance sheet translation and Other Specified Items are reported separately in order to provide investors a meaningful basis for evaluating underlying earning trends. Foreign currency balance sheet translation effects, which are non-cash, result from movements in exchange rates that can be pronounced from quarter to quarter, but often average out over time.

The terms "foreign currency balance sheet translation" and "Other Specified Items" are defined under "Definitions" below.

After including results from discontinued operations, the Company reported a second quarter loss of US\$89 million (US\$0.28 per share), compared to net income of US\$71 million (US\$0.22 per share) in the year-ago quarter and net income of US\$13 million (US\$0.04 per share) in the first quarter of 2003.

Continuing operations

Record sales and operating revenues were achieved for the quarter and six month period. Sales and operating revenues for the quarter were higher relative to both comparable periods largely as a result of the stronger Euro and the FlexPac acquisition on April 30, 2003. Increased aluminum shipments and better pricing, primarily in rolled and engineered products, also contributed to the improvement. In addition, higher ingot product

realizations contributed to the better performance relative to the year-ago quarter.

Total aluminum volume of 1,155 thousand tonnes (kt) was 2% higher than a year earlier and 5% higher than the preceding quarter. The year-over-year increase reflects the second 20% tranche of the Alouette smelter acquisition in Quebec; production restarts in Kitimat, British Columbia and improved rolled product shipments in Asia. Compared to the previous quarter, volume increased as a result of seasonally higher smelter production and North American rolled product shipments.

Ingot product realizations of US\$1,570 per tonne increased by US\$34 per tonne from the year-ago quarter mainly reflecting higher market premiums. Compared to the previous quarter, realizations decreased slightly in line with LME prices.

For the quarter, net income from continuing operations of US\$24 million compared to US\$72 million in the year-ago quarter and US\$13 million in the previous quarter. Compared to the year-ago quarter, the difference was largely due to the acquisition of FlexPac and the benefits from the Company's ongoing cost improvement initiatives, higher overall volumes, stronger pricing and favourable variances in Other Specified Items, more than offset by higher energy and recycled metal costs, the negative impact of strengthening European currencies (other than the Euro), higher depreciation expense, higher pension expenses and the unfavourable effects of foreign currency balance sheet translation. On a quarter-over-quarter basis, the difference was largely due to the benefits from increased sales, the FlexPac acquisition and favourable variances in Other Specified Items, partly offset by the negative effects of currency fluctuations, largely the Canadian dollar, and the favourable effects of foreign currency sheet translation.

Discontinued operations

The Company's continuing Value Based Management led to a decision to sell non-strategic Packaging operations to release cash for higher value-adding opportunities. The difference between the expected proceeds on sale and the book value of these assets resulted in a non-cash, after-tax impairment charge of US\$113 million. Even though these operations are not major business units within the Packaging group, the businesses are classified as held for sale and are included in discontinued operations because the operations and cash flows will be eliminated as a result of the disposal and the Company will not have any significant continuing involvement in the operations after the disposal. New accounting standards require that the impairment charge along with the operating results be disclosed separately as discontinued operations. Certain financial information has been reclassified in the prior periods to present these businesses as discontinued operations on the income statement, as assets held for sale and liabilities of operations held for sale on the balance sheet and as cash flows from (used for) discontinued operations on the statement of cash flows.

Segments					

Starting this quarter, for external reporting purposes the Company has changed the name of the profitability metric by which its business groups are measured. This change is in response to guidance recently issued by the Securities and Exchange Commission. Current and prior period results have been calculated in exactly the same manner. However, the name has changed from operating segment EBITDA to business group profit (BGP). BGP comprises earnings before interest, income taxes, minority interests, depreciation and amortization and excludes certain items, such as corporate costs, restructuring, impairment and other special charges, and pension actuarial gains, losses and other adjustments, that are not under the control of the business groups or are not considered in the measurement of their profitability. These items are generally managed by the Company's corporate head office, which focuses on strategy development and oversees governance, policy, legal, compliance, human resources and finance matters.

Interest Rates

The impact of a 10% increase in interest rates on the Company's variable rate debt outstanding at June 30, 2003 net of its invested surplus cash and time deposits at June 30, 2003 would be to reduce net income for 2003 by \$1 million. Transactions in interest rate financial instruments for which there is no underlying interest rate exposure to the Company is prohibited. For accounting policies for interest rate swaps used to hedge interest costs on certain debt, see page 45 of the Annual Report to Shareholders for the year ended December 31, 2002 "Annual Report".

Currency Derivatives

The schedule below presents fair value information and contract terms relevant to determining future cash flows categorized by expected maturity dates of the Company's currency derivatives (principally forward and option contracts) outstanding at June 30, 2003.

The Company changed the disclosure alternative for reporting currency derivatives in the second quarter of 2003 from sensitivity analysis to fair value presentation. Information for the Company's currency derivatives outstanding as at December 31, 2002 is presented below for comparative purposes. The reason for the change is that the fair value presentation provides greater detail regarding the Company's currency derivatives.

The Company's U.S. subsidiary, Alcan Aluminum Corporation ("Alcancorp") was named in a law suit brought by the U.S. Environmental Protection Agency ("EPA") in April 2003, which seeks to recover clean-up costs relating to the

disposal of approximately 3 million gallons of rolling oil emulsion at the Quanta Resources site during 1978 and 1979. The rolling oil emulsion was generated at AlcanCorp's rolled products facility in Oswego, New York. This case involves the same material involved in the previously disclosed case in the Annual Report on Form 10-K for the year ended December 31, 2002 regarding the Pollution Abatement Services site, a third-party site, in Oswego, New York, which is currently under appeal. AlcanCorp has established a reserve of \$1.3 million for this matter.

Items 2. and 3.

The registrant has nothing to report under these items.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of Shareholders of Alcan held on April 24, 2003, the shareholders:

- elected Messrs. Roland Berger, Clarence J. Chandran, L. Denis Desautels, Travis Engen, L. Yves Fortier, William R. Loomis, Jr., J. E. Newall, Guy Saint-Pierre, Gerhard Schulmeyer, Paul M. Tellier and Milton K. Wong as directors of Alcan to serve until the close of the next annual meeting or until they cease to hold office as such, by show of hands; and
- appointed PricewaterhouseCoopers LLP as auditors to serve until the close of the next annual meeting, by show of hands.

Item 5. Other information

The registrant has nothing to report under this item.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits (10)

Alcan Inc. Deferred Share Unit Plan, amended and Restated as of April 23, 2003.

(31.1)

Certification of Chief Executive Officer pursuant to Rule 13a-14(a) under Securities Exchange Act of 1934.

(31.2)

Certification of Chief Financial Officer pursuant to Rule 13a-14(a) under Securities Exchange Act of 1934.

(32.1)

Certification of Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(32.2)

Certification of Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K i)

a report on Form 8-K was furnished on April 16, 2002 in connection with the earnings release reporting the Company's financial results for the three months ended March 31, 2003.

ii)

A report on Form 8-K was filed on May 2, 2003 under Item 5 thereof, reporting that Alcan closed the sale of USD 500,000,000 principal amount of its 4.50% notes due 2013 pursuant to an underwritten offering under Registration Statement No. 333-85998 on Form S-3 filed under the Securities Act of 1933, as amended.
