Exhibit 99.1

AMERISERV FINANCIAL REPORTS EARNINGS FOR THE SECOND QUARTER AND FIRST SIX MONTHS OF 2010

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) returned to profitability in the second quarter of 2010 by reporting net income of \$477,000 or \$0.01 per diluted common share. This represents an increase of \$1.4 million from the second quarter 2009 net loss of \$939,000 or \$0.06 per diluted common share. For the six month period ended June 30, 2010, the Company reported a net loss of \$441,000 or \$0.05 per diluted share which is comparable with the net loss of \$406,000 reported for the same six month period in 2009. The following table highlights the Company's financial performance for both the three and six month periods ended June 30, 2010 and 2009:

	Second Quarter 2010	Second Quarter 2009	Six Months Ended June 30, 2010	Six Months Ended June 30, 2009
Net income (loss)	\$477,000	(\$939,000)	(\$441,000)	(\$406,000)
Diluted earnings per share	\$ 0.01	(\$ 0.06)	(\$ 0.05)	(\$0.04)

Glenn L. Wilson, President and Chief Executive Officer, commented on the 2010 second quarter financial results, "Stabilization in our asset quality allowed us to record a lower provision for loan losses which was an important factor in our return to profitability in the second quarter of 2010. The benefits of our ongoing disciplined approach to monitoring our loan portfolio were evident this quarter as AmeriServ continued to maintain strong reserve coverage ratios even with the reduced loan loss provision. Specifically, the allowance for loan losses provided 108% coverage of non-performing loans at June 30, 2010 and represented 2.99% of total loans outstanding. I was also pleased with our capital strength and the revenue contribution of our retail bank during this difficult economic period. The continued growth of deposits throughout our community bank network was a positive factor contributing to our strong balance sheet liquidity and good net interest margin performance."

The Company's net interest income has been relatively consistent in 2010 increasing by \$37,000 in the second quarter and \$17,000 for the first six months of 2010 compared to the same periods in 2009. Careful management of funding costs during a period when interest revenues are declining has allowed the Company to increase its net interest margin by 12 basis points to average 3.81% for the first half of 2010. This continued stability in net interest income and improved margin performance is reflective of the Company's strong liquidity position and its ability to reduce its funding costs during a period of deposit growth. Specifically, total deposits averaged \$795 million in the first six months of 2010, an increase of \$53 million or 7.1% over the first half of 2009. The Company believes that uncertainties in the economy have contributed to growth in money market accounts, certificates of deposit and demand deposits as consumers and businesses have looked for safety in well capitalized community banks like AmeriServ Financial. The net interest margin also benefitted from approximately \$150,000 in loan prepayment

penalties in 2010 as the Company has focused on reducing its commercial real estate exposure during this period of economic weaknesses. Overall, total loans outstanding have dropped by \$29 million or 4.0% since December 31, 2009.

The Company has appropriately strengthened its allowance for loan losses over the past year in response to ongoing careful monitoring of the commercial loan and commercial real estate portfolios in this weak economic environment.

When determining the provision for loan losses, the Company considers a number of factors some of which include periodic credit reviews, non-performing, delinquency and charge-off trends, concentrations of credit, loan volume trends and broader local and national economic trends. Overall, the Company recorded a \$1.2 million provision for loan losses in the second quarter of 2010 compared to a \$3.3 million provision in the second quarter of 2009, or a decrease of \$2.1 million. For the six month period ended June 30, 2010, the Company recorded a \$4.3 million provision for loan losses compared to a \$5.1 million provision for the first half of 2009, or a decrease of \$850,000.

Actual credit losses realized through charge-offs in 2010, however, are running below the provision level but are higher than the prior year. For the first six months of 2010, net charge-offs amounted to \$3.2 million or 0.91% of total loans compared to net charge-offs of \$404,000 or 0.11% of total loans for the first half of 2009. The higher charge-offs in 2010 primarily relate to two non-performing commercial real-estate loans, one of which was completely resolved in the first quarter and the second of which relates to a student housing project which the Company currently expects to resolve through a note sale during the second half of 2010. During the second quarter, total non-performing assets declined modestly to \$19.8 million or 2.85% of total loans. In summary, the allowance for loan losses provided 108% coverage of non-performing loans and was 2.99% of total loans at June 30, 2010, compared to 115% of non-performing loans and 2.72% of total loans at December 31, 2009.

The Company's non-interest income in the second quarter of 2010 decreased by \$103,000 from the prior year's second quarter and for the first six months of 2010 decreased by \$364,000 when compared to the first six months of 2009.

The largest item responsible for the decline in both periods was a reduced level of deposit service charges which were down \$99,000 in the second quarter and \$200,000 for the first six months of 2010. Customers have maintained higher balances in their checking accounts which has resulted in fewer overdraft fees in 2010. Non-interest income has also been negatively impacted by a decrease in trust fees as a result of reductions in the market value of certain real estate assets we manage in our specialty real estate funds in 2010. Trust fees were \$65,000 lower in the second quarter and \$170,000 lower for the six month period. These negative items were partially offset by an increase in investment advisory fees due to overall improved equity values in 2010 and a continued strong level of revenue generated on residential mortgage loan sales into the secondary market.

Total non-interest expense in the second quarter of 2010 increased by \$150,000 or 1.6% from the prior year's second quarter and for the first six months of 2010 increased by \$752,000 or 4.0% when compared to the first six months of 2009. Professional fees increased by \$241,000 in the second quarter and \$423,000 for the six month period due to increased consulting expenses and recruitment costs in the Trust company and higher legal fees and workout costs at the Bank in 2010. Total salaries and benefits were up by \$253,000 for the second quarter and \$360,000 for the six month period as a result of higher medical insurance costs and increased pension expense in 2010. These negative items were partially offset by a \$350,000 FDIC deposit insurance expense decline in the second quarter and a \$51,000 drop for the six month period due to the recognition of a special five basis point or \$435,000 assessment in the 2009 second quarter.

ASRV had total assets of \$962 million and shareholders' equity of \$108 million or a book value of \$4.11 per common share at June 30, 2010. The Company continued to maintain strong capital ratios that exceed the regulatory defined well capitalized status with a risk based capital ratio of 15.90%, an asset leverage ratio of 11.08% and a tangible common equity to tangible assets ratio of 7.83% at June 30, 2010.

This news release may contain forward-looking statements that involve risks and uncertainties, as defined in the Private Securities Litigation Reform Act of 1995, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission. Actual results may differ materially.

Nasdaq: ASRV
