EOG RESOURCES, INC.

Item 9. Regulation FD Disclosure

I. First Quarter and Full Year 2002

-----

## Edgar Filing: EOG RESOURCES INC - Form 8-K

The forecasts for first quarter and full year 2002 set forth below for EOG Resources, Inc. ('the Company') are given as of the date of this document only and are based on current available information and expectations.

The Company does not provide guidance on other income, other expense, or gain or loss on sales of reserves and related assets unless specifically noted.

Estimates are provided in the attached table.

### II. 2002 Natural Gas Financial and Physical Contracts -----

The outstanding Natural Gas Financial Price Swaps and Natural Gas Physical Contracts for 2002 were delineated in the Company's Form 8-K filing on January 16, 2002.

### III. North America 2002 Production Target -----

As previously stated, the Company had targeted four percent 2002 production growth for North America predicated on the assumption of \$3.00 per MMBtu average annualized Henry Hub natural gas price. In view of the current price environment, the Company believes that \$3.00 per MMBtu average annualized natural gas price will most likely not be achieved during 2002. The Company's North American production forecast in the attached table uses a \$2.50 (+/- \$0.10) per MMBtu average annualized Henry Hub assumption for 2002. The midpoint of the estimated ranges in the attached table results in flat production in North America for the full year 2002 as compared to 2001.

### IV. Income Taxes -----

No guidance is given at this time for income taxes, reflecting the current forward price strip for natural gas and crude oil and the volatility in taxes caused by small movements in prices.

3

### V. Forward-Looking Statements -----

This document includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are not guarantees of performance. Although the

## Edgar Filing: EOG RESOURCES INC - Form 8-K

Company believes its expectations reflected in forward-looking statements are based on reasonable assumptions, no assurance can be given that these expectations will be achieved. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include, among others: the timing and extent of changes in commodity prices for crude oil, natural gas and related products and interest rates; the extent and effect of any hedging activities engaged in by the Company; the extent of the Company's success in discovering, developing, marketing and producing reserves and in acquiring oil and gas properties; the accuracy of reserve estimates, which by their nature involve the exercise of professional judgment and may therefore be imprecise; political developments around the world, including terrorist activities and responses to such activities; and financial market conditions. In light of these risks, uncertainties and assumptions, the events anticipated by the Company's forward-looking statements might not occur. The Company undertakes no obligations to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.
