1.

World-Leading Toymaker, Australia s Moose Toys, Steps Ahead of the Herd with Magic Software s Integration Platform

#### **Press Release**

World-Leading Toymaker, Australia s Moose Toys, Steps Ahead of the Herd with Magic Software s Integration Platform

Magic xpi Integration Platform to help drive innovation and efficiency by integrating business processes across multiple Oracle systems as well as by automating EDI services

Or Yehuda, Israel, October 19, 2016 Magic Software Enterprises Ltd. (NASDAQ and TASE: MGIC), a global provider of software platforms for enterprise mobility, cloud applications, and business integration, and an Oracle Cloud Select partner and Platinum level member of Oracle PartnerNetwork (OPN), announced today that global toy leader, Moose Toys, headquartered in Australia, selected the Magic xpi Integration Platform to help drive innovation and efficiency by introducing business process automation (BPA) across multiple Oracle systems including Oracle s JD Edwards EnterpriseOne, Oracle Product Lifecycle Management (PLM) Cloud, Oracle Project Portfolio Management (PPM) Cloud, as well as by automating EDI services. Magic s Australasian representative, Integral Limited, signed the deal.

Moose Toys growth and innovation has taken the toy world by storm. By employing creative ideas and cutting-edge technology, among other accolades, Moose has become a leading manufacturer of electronic toys for youth, and its CEO, Manny Stul, was recently named the EY 2016 Entrepreneur of the World. But with the success and growth comes additional challenges. The company has to manage many complex business processes involved in taking new toys to market, have an accurate 360-degree view of its business and operate at optimum efficiency. The need for integration and automation of business processes across systems, led the company to look for an integration platform.

Moose Toys is using the Magic xpi Integration Platform to handle most of its integration needs, including complex EDI integrations with leading global retail customers in US and Australia. These integrations will provide Moose Toys with significant process efficiency and improve the visibility and timeliness of data for the company s US operations. In addition, Magic xpi will be used for integrations with various applications including Oracle Cloud applications, Oracle s JD Edwards and Oracle Demantra.

We were looking for an enterprise-grade integration platform that was cost-effective, low-maintenance, and could easily manage business processes between disparate on-premises and cloud systems. Magic xpi ticked all the boxes, said Ben Dart, COO Moose Toys. Since we had recently adopted multiple Oracle enterprise systems, Magic s Oracle Platinum and Cloud Select Partnership, Oracle Validated Integration status, and Magic and Integral s history of successful integrations sealed the deal.

Leading its industry through innovation, Moose Toys understands the critical importance of business process automation and access to real-time information to speed processes and improve decision making, said Avi François Polak, Managing Director of Distribution at Magic. With its code-free visual approach, broad connectivity and robust IMDG-based architecture, Magic xpi provides Moose Toys with a highly-productive, business-oriented integration solution that also gives them the flexibility to easily integrate more applications and services when their business requires. We re really excited that every Moose toy will come with a little more Magic.

### About Moose Toys

Moose Toys is a global toy company with a passionate mission to make children happy . The proud recipient of numerous coveted toy awards, including the rare back to back win in 2015 & 2016 of the Girls TOTY awarded by the Toy Industry Association for Shopkins. A total of 114 awards since 1993 solidifies Moose as a market leader who is consistently placed within the top 5 toy companies in the USA and Australia. Distributing to 80+ countries and supported with 200+ strong global team and offices in the US, UK, Hong Kong and Australia (Melbourne, head office), Moose has cemented itself as an innovative creator of properties that transcend from toybox to apps to entertainment.

Moose is renowned for designing, developing and distributing toy and lifestyle products across the globe for children of all ages and the young at heart. Moose has products in key toy categories including collectibles, arts and crafts, activity toys, dolls, novelty items and outdoor products, and has brought joy to kids worldwide with successful products such as Mighty Beanz, Beados, Aqua Sand, The Trash Pack , Little Live Pets and the current global collectible craze Shopkins! ### **About Magic Software Enterprises**

Magic Software Enterprises (NASDAQ: MGIC) empowers customers and partners around the globe with smarter technology that provides a multichannel user experience of enterprise logic and data.

For more information visit: www.magicsoftware.com.

**About Oracle Validated Integration** 

Oracle Validated Integration, available through the Oracle PartnerNetwork (OPN), gives customers confidence that the integration of complementary partner software products with Oracle Applications and specific Oracle Fusion Middleware solutions have been validated, and the products work together as designed. This can help customers reduce risk, improve system implementation cycles, and provide for smoother upgrades and simpler maintenance. Oracle Validated Integration applies a rigorous technical process to review partner integrations. Partners who have successfully completed the program are authorized to use the Oracle Validated Integration logo. For more information, please visit Oracle.com at http://www.oracle.com/us/partnerships/solutions/index.html.

#### About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle s products and solutions and has evolved to recognize Oracle s growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud.
