SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
December 28, 2013

1. Unaudited Condensed Consolidated Financial Statements

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, which are normal and recurring in nature, necessary to present fairly the financial position of Seneca Foods Corporation (the “Company”) as of December 28, 2013 and results of its operations and its cash flows for the interim periods presented. All significant intercompany transactions and accounts have been eliminated in consolidation. The March 31, 2013 balance sheet was derived from the audited consolidated financial statements.

The results of operations for the three and nine month periods ended December 28, 2013 are not necessarily indicative of the results to be expected for the full year.

In the nine months ended December 28, 2013, the Company sold \$150,345,000 of Green Giant finished goods inventory to General Mills Operations, LLC (“GMOL”) for cash, on a bill and hold basis, as compared to \$151,240,000 for the nine months ended December 29, 2012. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the criteria required for bill and hold treatment.

The accounting policies followed by the Company are set forth in Note 1 to the Company's Consolidated Financial Statements in the Company's 2013 Annual Report on Form 10-K.

Other footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and notes included in the Company's 2013 Annual Report on Form 10-K.

All references to years are fiscal years ended or ending March 31 unless otherwise indicated. Certain percentage tables may not foot due to rounding.

Potential Acquisition-- On December 16, 2013 the Company signed an Asset Purchase Agreement to serve as the stalking horse bidder related to the potential acquisition of certain canning operations assets and assumption of certain liabilities of Allens, Inc. for a purchase price of approximately \$148.0 million, subject to a working capital adjustment, plus the assumption of certain liabilities. Allens, Inc. filed a petition for bankruptcy on October 28, 2013 in the United States Bankruptcy Court for the Western District of Arkansas (the “Court”) and the bankruptcy case is currently pending. On January 7, 2014 the Court approved bid procedures for the auction that allows other qualified bidders to submit higher or otherwise better offers, as required under Section 363 of the U.S. Bankruptcy Code. The auction is scheduled to be held on February 3, 2014 and if the Company is ultimately successful in its acquisition of these assets the closing of the acquisition is expected to occur in the fourth quarter of fiscal 2014. If Allens, Inc. accepts an offer other than the Company's Asset Purchase Agreement, the Company will be entitled to be paid a break-up fee and a reimbursement of its transaction expenses up to a specified maximum amount. The business, with plants located in Arkansas, North Carolina, and Wisconsin, is a processor of canned vegetables including southern vegetables in the United States. The Company deposited \$7,500,000 into an escrow fund upon signing the Asset Purchase Agreement and the remainder of the purchase price is expected to be funded with a combination of available cash and borrowings from the Company's Revolver.

2. On January 15, 2013, the Company completed its acquisition of 100% of the membership interest in Independent Foods, LLC ("Sunnyside"). The business, based in Sunnyside, Washington, is a processor of canned pears, apples and cherries in the United States. The rationale for the acquisition was twofold: (1) the business is a complementary fit with the Company's existing business and (2) it provides an extension of the Company's product offerings. The purchase price totalled \$5,017,000 plus the assumption of certain liabilities. In conjunction with the closing, the Company paid \$19,517,000 of liabilities acquired. This acquisition was financed with proceeds from the Company's revolving credit facility. The purchase price to acquire Sunnyside was allocated based on the internally developed fair value of the assets acquired and liabilities assumed and the independent valuation of property, plant, and equipment. The purchase price of \$5,017,000 has been allocated as follows (in millions):

Purchase Price (net of cash received)	\$ 5.0
Allocated as follows:	
Current assets	\$ 32.7
Property, plant and equipment	7.5
Bargain purchase gain	(2.0)
Current liabilities	(33.2)
Total	\$ 5.0

In 2013, the Company recorded a \$1,971,000 gain as a result of the estimated fair market value of the net assets acquired exceeding the purchase price for Sunnyside. During the first nine months of 2014, the Company determined an adjustment to the net assets acquired was required and, as a result, recorded an increase in the gain on the bargain purchase by \$75,000 to \$2,046,000. This gain and subsequent increase is included in other operating income on the Consolidated Statements of Net Earnings.

3. First-In, First-Out ("FIFO") based inventory costs exceeded LIFO based inventory costs by \$155,126,000 as of the end of the third quarter of fiscal 2014 as compared to \$136,051,000 as of the end of the third quarter of fiscal 2013. The change in the LIFO Reserve for the three months ended December 28, 2013 was an increase of \$7,676,000 as compared to an increase of \$1,268,000 for the three months ended December 29, 2012. The change in the LIFO Reserve for the nine months ended December 28, 2013 was an increase of \$22,111,000 as compared to a decrease of \$1,176,000 for the nine months ended December 29, 2012. This reflects the projected impact of greater inflationary cost increases expected in fiscal 2014 versus fiscal 2013.

4. The Company completed the closing of a new five year revolving credit facility ("Revolver") on July 20, 2011. Available borrowings under the Revolver total \$300,000,000 from April through July and \$400,000,000 from August through March. The Revolver balance as of December 28, 2013 was \$226,000,000 and is included in Long-Term Debt in the accompanying Condensed Consolidated Balance Sheet due to its five year term. The Company utilizes its Revolver for general corporate purposes, including seasonal working capital needs, to pay debt principal and interest obligations, and to fund capital expenditures and acquisitions. Seasonal working capital needs are affected by the growing cycles of the vegetables and fruits the Company processes. The majority of vegetable and fruit inventories are produced during the months of June through November and are then sold over the following year. Payment terms for vegetable and fruit produce are generally three months but can vary from a few days to seven months. Accordingly, the Company's need to draw on the Revolver may fluctuate significantly throughout the year. The Revolver contains an accordion feature that allows the Company to request an increase in the aggregate commitments thereunder in an amount up to \$150,000,000. In contemplation of the Allens, Inc. Asset Purchase Agreement, the Company received commitment letters from the lenders to increase the available borrowings under the Revolver. If the Company is the successful bidder in the Allens' bankruptcy case, the accordion feature will be exercised on or prior to closing of that transaction.

The increase in average amount of Revolver borrowings during the first nine months of fiscal 2014 compared to the first nine months of fiscal 2013 was attributable to the payoff of the note payable to an insurance company of \$36,742,000, the Sunnyside acquisition in the fourth quarter of fiscal 2013, the deposit of \$7,500,000 related to the potential acquisition of Allens, Inc. partially offset by an increase in net cash provided by operations.

General terms of the Revolver include payment of interest at LIBOR plus a defined spread.

The following table documents the quantitative data for Revolver borrowings during the third quarter and year-to-date periods of fiscal 2014 and fiscal 2013:

	Third Quarter		Year-to-Date

Weighted average interest rate	1.53 %	1.47 %	1.64 %	1.51 %

5. During the nine month period ended December 28, 2013, there were 41,579 shares, or \$10,000, of Class B Common Stock (at Par), converted to Class A Common Stock and there were 1,061 shares, or \$13,000 of Participating Preferred Stock, also converted to Class A Common Stock. During the nine month period ended December 28, 2013, the Company repurchased 20,186 shares or \$674,000 of its Class A Common Stock as Treasury Stock. As of December 28, 2013, there are 1,081,800 shares or \$31,878,000 of repurchased stock. These shares are not considered outstanding. During the three month period ended June 29, 2013, there were 108 shares, or \$4,000 of Class B Common Stock issued in lieu of cash compensation under the Company's Profit Sharing Bonus Plan.

During the third quarter of fiscal 2013, the Company implemented a product rationalization program and recorded a restructuring charge of \$2,510,000 for related equipment costs, lease impairment costs (net of realizable value), and certain inventory costs. During the first quarter of fiscal 2014, the Company recorded an additional restructuring charge of \$154,000 related to this matter. During the second quarter of fiscal 2014, the Company recorded an additional restructuring charge of \$347,000 related to this matter of which \$341,000 was related to equipment costs (contra fixed assets). There were no adjustments to this charge during the third quarter of fiscal 2014.

8.

Edgar Filing: Seneca Foods Corp - Form 10-Q

During the nine months ended December 28, 2013 and December 29, 2012, the Company sold some unused fixed assets which resulted in a gain of \$423,000 and \$330,000, respectively. These gains are included in other operating income in the Unaudited Condensed Consolidated Statements of Net Earnings.

9. Recently Issued and Adopted Accounting Standards - There were no recently issued accounting pronouncements that impacted the Company's condensed consolidated financial statements. In addition, the Company did not adopt any new accounting pronouncements during the quarter ended December 28, 2013.

11. As required by Accounting Standards Codification ("ASC") 825, "Financial Instruments," the Company estimates the fair values of financial instruments on a quarterly basis. The estimated fair value for long-term debt (classified as Level 2 in the fair value hierarchy) is determined by the quoted market prices for similar debt (comparable to the Company's financial strength) or current rates offered to the Company for debt with the same maturities. Long-term debt, including current portion had a carrying amount of \$268,552,000 and an estimated fair value of \$269,742,000 as of December 28, 2013. As of March 31, 2013, the carrying amount was \$270,186,000 and the estimated fair value was \$273,567,000. The fair values of all the other financial instruments approximate their carrying value due to their short-term nature.
12. In June 2010, the Company received a Notice of Violation of the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65, from the Environmental Law Foundation ("ELF"). This notice was made to the California Attorney General and various other government officials, and to 49 companies including Seneca Foods Corporation whom ELF alleges manufactured, distributed or sold packaged peaches, pears, fruit cocktail and fruit juice that contain lead without providing a clear and reasonable warning to consumers. Under California law, proper notice must be made to the State and involved firms at least 60 days before any suit under Proposition 65 may be filed by private litigants like ELF. That 60-day period has expired and to date neither the California Attorney General nor any appropriate district attorney or city attorney has initiated an action against the Company. However, private litigant ELF filed an action against the Company and 27 other named companies on September 28, 2011, in Superior Court of Alameda County, California, alleging violations of Proposition 65 and seeking various measures of relief, including injunctive and declaratory relief and civil penalties. The Company, along with the other named companies, vigorously defended the claim. A responsive answer was filed, the discovery process was completed and a trial on liability was held beginning in April of 2013 in accordance with court schedules. The trial was completed on May 16, 2013 and, on July 15, 2013 the judge issued a tentative and proposed statement of decision agreeing with the Company, and the other defendants, that the "safe harbor" defense had been met under the regulations relating to Proposition 65 and the Company will not be required to place a Proposition 65 warning label on the products at issue in the case. The trial decision was finalized and the decision was appealed by ELF with a filing dated October 3, 2013. The appeal is progressing in accordance with the schedule set by the California Court of Appeal, First Appellate District, Division One. The Company is unable to determine the scope or the likelihood of success of the appeal. The Company, along with other defendants are planning on vigorously defending the appeal filed by ELF. With the successful defense of the case, the remedies portion of the case was not litigated. So far, our portion of legal fees in defense of this action have been sizable, as would be expected with litigation resulting in trial, and the appeal, but have not had a material adverse impact on the Company's financial position, results of operations, or cash flows. Additionally, in the ordinary course of its business, the Company is made party to certain legal proceedings seeking monetary damages, including proceedings invoking product liability claims, either directly or through indemnification obligations, and we are not able to predict the probability of the outcome or estimate of loss, if any, related to any such matter.

SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
December 28, 2013

13. During the second quarter of fiscal 2014, the Company entered into some interim lease notes which financed down payments for various equipment orders at market rates. As of December 28, 2013, these interim notes had not been converted into operating leases since the equipment was not delivered. These notes, which total \$4,392,000 as of December 28, 2013, are included in notes payable in the accompanying Condensed Consolidated Balance Sheets. These notes are expected to be converted into operating leases within the next twelve months.

**ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**
December 28, 2013

Seneca Foods Corporation (the “Company”) is a leading low cost producer and distributor of high quality processed fruits and vegetables. The Company’s product offerings include canned, frozen and bottled produce and snack chips. Its products are sold under private label as well as national and regional brands that the Company owns or licenses, including Seneca®, Libby’s®, Aunt Nellie’s Farm Kitchen®, Stokely’s®, Read® Taste of the West®, Cimarron® and Tendersweet®. The Company’s canned fruits and vegetables are sold nationwide by major grocery outlets, including supermarkets, mass merchandisers, limited assortment stores, club stores and dollar stores. The Company also sells its products to foodservice distributors, industrial markets, other food processors, export customers in over 80 countries and federal, state and local governments for school and other food programs. In addition, the Company packs Green Giant®, Le Sueur® and other brands of canned vegetables as well as select Green Giant® frozen vegetables for General Mills Operations, LLC (“GMOL”) under a long-term Alliance Agreement.

The Company’s raw product is harvested mainly between June through November. The Company experienced unfavorable growing conditions related to our pea harvest this summer reflecting a combination of high temperatures and uneven moisture. These difficult growing conditions unfavorably impacted pea crop yields and plant recovery rates which resulted in unfavorable manufacturing variances.

Potential Acquisition-- On December 16, 2013 the Company signed an Asset Purchase Agreement to serve as the stalking horse bidder related to the potential acquisition of certain canning operations assets and assumption of certain liabilities of Allens, Inc. for a purchase price of approximately \$148.0 million, subject to a working capital adjustment, plus the assumption of certain liabilities. Allens, Inc. filed a petition for bankruptcy on October 28, 2013 in the United States Bankruptcy Court for the Western District of Arkansas (the “Court”) and the bankruptcy case is currently pending. On January 7, 2014 the Court approved bid procedures for the auction that allows other qualified bidders to submit higher or otherwise better offers, as required under Section 363 of the U.S. Bankruptcy Code. The auction is scheduled to be held on February 3, 2014 and if the Company is ultimately successful in its acquisition of these assets the closing of the acquisition is expected to occur in the fourth quarter of fiscal 2014. If Allens, Inc. accepts an offer other than the Company’s Asset Purchase Agreement, the Company will be entitled to be paid a break-up fee and a reimbursement of its transaction expenses up to a specified maximum amount. The business, with plants located in Arkansas, North Carolina, and Wisconsin, is a processor of canned vegetables including southern vegetables in the United States. The rationale for the potential acquisition is twofold: (1) the business is a complementary fit with our existing business and (2) it provides an extension of our product offerings. The Company deposited \$7,500,000 into an escrow fund upon signing the Asset Purchase Agreement and the remainder of the purchase price is expected to be funded with a combination of available cash and borrowings from the Company's Revolver.

Acquisition--On January 15, 2013, the Company completed the acquisition of 100% of the membership interest of Independent Foods, LLC. The business, based in Sunnyside, Washington, is a processor of canned pears, apples and cherries in the United States. The rationale for the acquisition was twofold: (1) the business is a complementary fit with the Company's existing business and (2) it provides an extension of the Company's product offerings. The purchase price was approximately \$5,017,000 plus the assumption of certain liabilities. In conjunction with the

closing, the Company paid \$19,517,000 of liabilities acquired.

Sales:

12

Edgar Filing: Seneca Foods Corp - Form 10-Q

Third fiscal quarter 2014 results include net sales of \$477,694,000, which represents a 5.5% increase, or \$24,963,000, from the third quarter of fiscal 2013. The increase in sales is attributable to higher selling prices/sales mix of \$18,324,000 and a sales volume increase of \$6,639,000. The increase in sales is primarily from a \$17,762,000 increase in Canned Fruit sales (including the results from the Sunnyside operations which was acquired on January 15, 2013), \$10,061,000 increase in Canned Vegetable sales, and a \$6,862,000 increase in Frozen sales partially offset by an \$11,080,000 decrease in GMOL sales and a \$125,000 decrease in Snack sales. The GMOL sales decrease primarily reflects the acceleration of sales in the second quarter under the Green Giant Alliance resulting from earlier maturities of certain commodities in the current year.

Nine months ended December 28, 2013 include net sales of \$1,046,449,000, which represents a 4.5% increase, or \$45,074,000, from the first nine months of fiscal 2013. The increase in sales is attributable to a sales volume increase of \$46,032,000, partially offset by lower selling prices/sales mix of \$958,000. The increase in sales is primarily from a \$25,672,000 increase in Canned Fruit sales (including the results from the Sunnyside operations which was acquired on January 15, 2013), a \$16,436,000 increase in Frozen sales, and an \$11,836,000 increase in GMOL sales, partially offset by a \$10,780,000 decrease in Canned Vegetable sales and a \$222,000 decrease in Snack sales.

The following table presents sales by product category (in millions):

	Three Months Ended		Nine Months Ended	
	December 28, 2013	December 29, 2012	December 28, 2013	December 29, 2012
Canned Vegetables	\$253.5	\$243.4	\$571.8	\$582.6
Green Giant Alliance	102.0	113.1	176.4	164.6
Frozen	28.4	21.5	77.6	61.2
Fruit Products	84.3	66.5	195.7	170.0
Snack	2.7	2.8	8.5	8.7
Other	6.8	5.4	16.4	14.3
	\$477.7	\$452.7	\$1,046.4	\$1,001.4

Operating Income:

The following table presents components of operating income as a percentage of net sales:

	Three Months Ended		Nine Months Ended	
	December 28, 2013	December 29, 2012	December 28, 2013	December 29, 2012
Gross Margin	6.5	%	9.9	%
Selling	2.4	%	2.4	%
Administrative	1.8	%	1.7	%
Restructuring	-	%	0.6	%
Other Operating Income	0.1	%	-	%
Operating Income	2.2	%	5.2	%
Interest Expense, Net	0.3	%	0.4	%
	0.5	%	0.5	%

For the three month period ended December 28, 2013, the gross margin decreased from the prior year quarter from 9.9% to 6.5% due primarily to a higher LIFO charge in the current year as compared to the prior year. The LIFO charge for the third quarter ended December 28, 2013 was \$7,676,000 as compared to \$1,268,000 for the third quarter ended December 29, 2012 and reflects the impact on the current quarter of the current inflationary cost increases expected in fiscal 2014, compared to fiscal 2013. On an after-tax basis, LIFO reduced net earnings by \$4,989,000 for the quarter ended December 28, 2013 and \$824,000 for the quarter ended December 29, 2012, based on the statutory federal income tax rate.

For the nine month period ended December 28, 2013, the gross margin decreased from the prior year period from 11.5% to 7.0% due primarily to a LIFO charge in the current year as compared to a credit in prior year and lower net selling prices (after considering promotions) compared to the prior year end. The LIFO charge for the nine months ended December 28, 2013 was \$22,111,000 as compared to a credit of \$1,176,000 for the nine months ended December 29, 2012 and reflects the impact on the nine months of increased inflationary cost increases expected in fiscal 2014, compared to fiscal 2013. On an after-tax basis, LIFO decreased net earnings by \$14,372,000 for the nine months ended December 28, 2013 and increased net earnings by \$764,000 for the nine months ended December 29, 2012, based on the statutory federal income tax rate.

For the three month period ended December 28, 2013, selling costs as a percentage of sales remained unchanged at 2.4% from the same period in the prior year. For the nine month period ended December 28, 2013, selling costs as a percentage of sales remained unchanged at 2.7% from the same period in the prior year.

For the three month period ended December 28, 2013, administrative expense as a percentage of sales increased from 1.7% to 1.8% from the same period in the prior year. For the nine month period ended December 28, 2013, administrative expense as a percentage of sales was unchanged at 2.2% from the third quarter ended December 29, 2012. Administrative expense increased for the three month period ended December 28, 2013 due primarily to higher employment costs in the current period.

During the third quarter of fiscal 2013, the Company implemented a product rationalization program and recorded a restructuring charge of \$2,510,000 for related equipment costs, lease impairment costs (net of realizable value), and certain inventory costs. This charge is included in restructuring in the Unaudited Condensed Consolidated Statements of Net Earnings.

During the nine months ended December 28, 2013, the Company sold some unused fixed assets which resulted in a gain of \$423,000. During the nine months ended December 29, 2012, the Company sold some unused fixed assets which resulted in a gain of \$330,000. These gains are included in other operating income in the Unaudited Condensed Consolidated Statements of Net Earnings.

Interest expense for the third quarter ended December 28, 2013, as a percentage of sales, decreased from 0.4% to 0.3% from the third quarter ended December 29, 2012. This decrease was due to lower interest expense related to the Company's Revolver and decreased long-term debt interest attributable to scheduled debt payments. Interest expense for the nine months ended December 28, 2013, as a percentage of sales, remained unchanged at 0.5% from the nine months ended December 29, 2012.

Income Taxes:

The effective tax rate was 9.3% and 35.2% for the nine month periods ended December 28, 2013 and December 29, 2012, respectively. Of the 25.9 percentage point decrease in the effective tax rate for this period, the major contributors to this decrease are the following items, 1) with lower pre-tax earnings in the current year due to a large LIFO charge in the current year vs. a credit in the prior year, therefore permanent items have a larger impact on the effective rate, 2) the manufacturers deduction is a higher percentage of current year earnings than the prior year, 3) the reversal of certain tax reserves related to New York State Investment Tax Credit and 4) research and experimentation credit, fuel tax credit and other miscellaneous permanent items.

Earnings per Share:

Basic earnings per share was \$0.62 and \$1.32 for the three months ended December 28, 2013 and December 29, 2012, respectively. Diluted earnings per share was \$0.61 and \$1.32 for the three months ended December 28, 2013 and December 29, 2012, respectively. Basic earnings per share was \$1.33 and \$3.21 for the nine months ended December 28, 2013 and December 29, 2012, respectively. Diluted earnings per share was \$1.32 and \$3.19 for the nine months ended December 28, 2013 and December 29, 2012, respectively. For details of the calculation of these amounts, refer to footnote 10 of the Notes to Condensed Consolidated Financial Statements.

Liquidity and Capital Resources:

The financial condition of the Company is summarized in the following table and explanatory review:

	December 28, 2013	December 29, 2012	March 31, 2013	March 31, 2012
Working capital:				
Balance	\$502,661	\$443,332	\$446,899	\$425,082
Change during quarter	(48,688)	(32,507)		
Long-term debt, less current portion	266,416	228,412	226,873	226,873
Total stockholders' equity per equivalent common share (see Note)	34.16	32.41	32.83	29.15
Stockholders' equity per common share	35.00	33.18	33.62	29.81
Current ratio	3.89	3.33	3.72	4.60

Note: Equivalent common shares are either common shares or, for convertible preferred shares, the number of common shares that the preferred shares are convertible into. See Note 8 of the Notes to Consolidated Financial Statements of the Company's 2013 Annual Report on Form 10-K for conversion details.

As shown in the Condensed Consolidated Statements of Cash Flows, net cash provided by operating activities was \$12,559,000 in the first nine months of fiscal 2014, compared to net cash used in operating activities of \$614,000 in the first nine months of fiscal 2013. The \$13,173,000 increase in cash provided is primarily attributable to a \$24,020,000 lower increase in inventory in the first nine months of fiscal 2014 as compared to the first nine months of fiscal 2013, a \$2,802,000 increase in cash provided by accounts receivable, a \$4,541,000 decrease in cash used by other current assets, , partially offset by decreased net earnings of \$22,706,000 as previously discussed, a \$13,983,000 increase in the cash provided by Accounts Payable, Accrued Expenses and Other Liabilities and a \$8,757,000 increase in cash used by income taxes.

As compared to December 29, 2012, inventory increased \$23,117,000 to \$550,723,000 at December 28, 2013. The components of the inventory increase reflect a \$1,135,000 increase in finished goods, a \$4,114,000 increase in work in process and a \$17,868,000 increase in raw materials and supplies. The finished goods increase reflects slightly higher inventory quantities partially offset by increased sales volume as compared to the prior year. The raw materials and supplies increase is primarily due to an increase in cans and raw steel quantities compared to the prior year. FIFO based inventory costs exceeded LIFO based inventory costs by \$155,126,000 as of the end of the third quarter of 2014 as compared to \$136,051,000 as of the end of the third quarter of 2013.

Cash used in investing activities was \$11,062,000 in the first nine months of fiscal 2014 compared to cash used in investing activities of \$3,753,000 in the first nine months of fiscal 2013. Additions to property, plant and equipment were \$12,058,000 in the first nine months of fiscal 2014 as compared to \$14,103,000 in the first nine months of fiscal 2013. Last year in the first nine months of fiscal 2013, the Loan Receivable of \$10,000,000 was collected.

Cash provided by financing activities was \$2,279,000 in the first nine months of fiscal 2014, which included borrowings of \$362,048,000 and the repayment of \$363,682,000 of long-term debt, principally consisting of borrowing and repayment on the revolving credit facility (“Revolver”). On August 1, 2013, the Company paid the final \$36,742,000 principal payment due on a secured note payable to John Hancock Life Insurance Company. The Company used borrowings under the Revolver to pay off the note. Other than borrowings under the Revolver, there was no new long-term debt during the first nine months of fiscal 2014. During the nine months ended December 29, 2012, the Company repurchased \$28,448,000 of its Class A Common Stock as treasury stock.

Available borrowings on the Revolver total \$300,000,000 from April through July and \$400,000,000 from August through March with a maturity date of July 20, 2016. The interest rate on the Revolver is based on LIBOR plus an applicable margin based on excess availability and the Company's fixed charge coverage ratio. As of December 28, 2013, the interest rate was approximately 1.42% on a balance of \$226,000,000. We believe that cash flows from operations, availability under our Revolver and other financing sources will provide adequate funds for our working capital needs, planned capital expenditures, and debt obligations for at least the next 12 months. The Revolver contains an accordion feature that allows the Company to request an increase in the aggregate commitments thereunder in an amount up to \$150,000,000. In contemplation of the Allens, Inc. Asset Purchase Agreement, the Company received commitment letters from the lenders to increase the available borrowings under the Revolver. If the Company is the successful bidder in the Allens' bankruptcy case, the accordion feature will be exercised on or prior to closing of that transaction.

The Company's credit facilities contain standard representations and warranties, events of default, and certain affirmative and negative covenants, including various financial covenants. At December 28, 2013, the Company was in compliance with all such financial covenants.

New Accounting Standards

Refer to footnote 9 of the Notes to Condensed Consolidated Financial Statements.

Seasonality

The Company's revenues are typically higher in the second and third fiscal quarters. This is due in part because the Company sells, on a bill and hold basis, Green Giant canned and frozen vegetables to GMOL at the end of each pack cycle, which typically occurs during these quarters. GMOL buys the product from the Company at cost plus a specified fee for each equivalent case. See the Critical Accounting Policies section below for further details. The Company's non-Green Giant sales also exhibit seasonality with the third fiscal quarter generating the highest retail sales due to holidays that occur during that quarter.

Forward-Looking Information

The information contained in this report contains, or may contain, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this report and include statements regarding the intent, belief or current expectations of the Company or its officers (including statements preceded by, followed by or that include the words "believes," "expects," "anticipates" or similar expressions) with respect to various matters, including (i) the Company's anticipated needs for, and the availability of, cash, (ii) the Company's liquidity and financing plans, (iii) the Company's ability to successfully integrate acquisitions into its operations, (iv) trends affecting the Company's financial condition or results of operations, including anticipated sales price levels and anticipated expense levels, in particular higher production, fuel and transportation costs, (v) the Company's plans for expansion of its business (including through acquisitions) and cost savings, and (vi) the impact of competition.

Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Investors are cautioned not to place undue reliance on such statements, which speak only as of the date the statements were made. Among the factors that could cause actual results to differ materially are:

- general economic and business conditions;
- cost and availability of commodities and other raw materials such as vegetables, steel and packaging materials;
 - transportation costs;
- climate and weather affecting growing conditions and crop yields;
 - the availability of financing;
- leverage and the Company's ability to service and reduce its debt;
 - foreign currency exchange and interest rate fluctuations;
- effectiveness of the Company's marketing and trade promotion programs;
 - changing consumer preferences;
 - competition;
 - product liability claims;
- the loss of significant customers or a substantial reduction in orders from these customers;
- changes in, or the failure or inability to comply with, U.S., foreign and local governmental regulations, including environmental and health and safety regulations; and
 - other risks detailed from time to time in the reports filed by the Company with the SEC.

Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company does not undertake any obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of the filing of this report or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

During the nine months ended December 28, 2013, the Company sold \$150,345,000 of Green Giant finished goods inventory to General Mills Operations, LLC (“GMOL”) for cash, on a bill and hold basis, as compared to \$151,240,000 for the nine months ended December 29, 2012. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the revenue recognition criteria required for bill and hold treatment.

Trade promotions are an important component of the sales and marketing of the Company’s branded products, and are critical to the support of the business. Trade promotion costs, which are recorded as a reduction of net sales, include amounts paid to encourage retailers to offer temporary price reductions for the sale of our products to consumers, amounts paid to obtain favorable display positions in retailers’ stores, and amounts paid to retailers for shelf space in retail stores. Accruals for trade promotions are recorded primarily at the time of sale of product to the retailer based on expected levels of performance. Settlement of these liabilities typically occurs in subsequent periods primarily through an authorized process for deductions taken by a retailer from amounts otherwise due to us. As a result, the ultimate cost of a trade promotion program is dependent on the relative success of the events and the actions and level of deductions taken by retailers for amounts they consider due to them. Final determination of the permissible deductions may take extended periods of time.

The Company assesses its long-lived assets for impairment whenever there is an indicator of impairment. Property, plant, and equipment are depreciated over their assigned lives. The assigned lives and the projected cash flows used to test impairment are subjective. If actual lives are shorter than anticipated or if future cash flows are less than anticipated, a future impairment charge or a loss on disposal of the assets could be incurred. Impairment losses are evaluated if the estimated undiscounted value of the cash flows is less than the carrying value. If such is the case, a loss is recognized when the carrying value of an asset exceeds its fair value.

ITEM 3 Quantitative and Qualitative Disclosures About Market Risk

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition and raw material pricing and availability. In addition, the Company is exposed to fluctuations in interest rates, primarily related to its revolving credit facility. To manage interest rate risk, the Company uses both fixed and variable interest rate debt. There have been no material changes to the Company's exposure to market risk since March 31, 2013.

ITEM 4 Controls and Procedures

The Company maintains a system of internal and disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported on a timely basis. The Company's Board of Directors, operating through its Audit Committee, which is composed entirely of independent outside directors, provides oversight to the financial reporting process.

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of December 28, 2013, our disclosure controls and procedures were effective. The Company continues to examine, refine and formalize its disclosure controls and procedures and to monitor ongoing developments in this area.

There have been no changes during the period covered by this report to the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
