Item 5. Other Events

On September 27, 2002, IntraBiotics Pharmaceuticals, Inc. (the Company) announced preliminary results of its 509-patient Phase III clinical trial of its lead product, iseganan hydrochloride (HCl) oral solution, to treat ulcerative oral mucositis in patients undergoing high-dose chemotherapy for the treatment of cancer. These results indicated that iseganan did not meet its primary endpoint of reducing oral mucositis. As a result, the Company will cease the pursuit of severe oral mucositis as an indication for iseganan. The press release announcing the results is filed as Exhibit 99.1 hereto.

On October 14, 2002, the Company announced the implementation of a restructuring plan intended to reduce its cash operating expenses. The plan included the reduction of approximately 70% of the Company's workforce. The press release announcing the restructuring plan and the workforce reduction is filed as Exhibit 99.2 hereto.
