Chairman's

LETTER TO SHAREHOLDERS

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with tax-free monthly income and an attractive total return. For more specific information about the performance of your Fund, please see the Portfolio Managers' Perspectives and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder whether interest rates will rise, and whether that possibility should cause them to adjust their holdings of fixed-income investments. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio

NO ONE KNOWS WHAT THE FUTURE WILL BRING, WHICH IS WHY WE THINK A WELL-BALANCED PORTFOLIO IS AN IMPORTANT COMPONENT IN ACHIEVING YOUR LONG-TERM FINANCIAL GOALS.

may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Nuveen Arizona and Texas Municipal Closed-End Exchange-Traded Funds
(NAZ, NFZ, NKR, NXE, NTX)

Portfolio Managers'
PERSPECTIVE

Portfolio managers Scott Romans, Dan Solender, and Cathryn Steeves discuss the market environment, key investment strategies and the performance of the five Funds. Scott, who joined Nuveen in 2000, has managed the Arizona Funds (NAZ, NFZ, NKR and NXE) since November 2003. With 12 years of investment experience, Dan assumed portfolio management responsibility for NTX in November 2003. After the end of this reporting period, in August 2004, he turned over responsibility for NTX to Cathryn, who has been a research analyst and portfolio manager with Nuveen since 1996.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE FISCAL YEAR ENDED JULY 31, 2004?

During much of this reporting period, the U.S. economy demonstrated signs of improvement, as increased capital spending and a rise in consumer confidence helped fuel strong growth in the overall gross domestic product. However, toward the end of the 12-month period, higher energy costs and the improving employment picture began to raise fears of a potential pick-up in inflation. This combination of inflation concerns and general economic momentum--plus continued geopolitical uncertainty--served as a catalyst for heightened volatility in the fixed-income markets. Although interest rates remained at or near historical lows through much of this 12-month period, yields in the long-term bond markets, including the municipal market, were increasingly driven by expectations that the Federal Reserve would raise short-term interest rates and by speculation over the timing and extent of those rate hikes.

As an example of this interest rate volatility, the Bond Buyer 25 Revenue Bond Index, a widely followed municipal market benchmark, began this 12-month reporting period with a yield of 5.41%. After briefly touching 5.50%, the yield fell steadily to 4.73% by mid-March 2004. From there, the Index's yield rose back to 5.31% by July 31, 2004.

On June 30, 2004, the Fed moved to increase the fed funds rate by 25 basis points to 1.25%, the first increase in four years, noting that it anticipated taking a "measured" approach to further tightening to avoid potential derailment of the economic recovery. (On August 10, 2004, following the close of this reporting period, the Fed added another 25 basis points, bringing the target rate to 1.50%.)

In general, municipal supply nationwide remained relatively strong over the entire 12-month reporting period. About \$366.5 billion in new bonds came to market during this

period, down 7% from the preceding 12 months. The decrease in issuance was more evident late in the period, with \$214 billion in new municipal supply for the first seven months of 2004 compared with \$239 billion for January-July 2003.

HOW ABOUT ECONOMIC AND MARKET CONDITIONS IN ARIZONA AND TEXAS?

During this 12-month reporting period, Arizona's economy continued its rapid recovery, benefiting from positive demographic trends and low business costs which have attracted companies to the state. Construction, particularly in urban areas, was booming, and the outlook for tourism steadily improved. In addition, Arizona's five military bases brought more than \$6 billion into the state. As of July 2004, unemployment in Arizona was 4.4%, down from 5.8% in July 2003 and below the national average of 5.5%. Partially offsetting this expansion were a loss of jobs in the semiconductor sector and the trend toward outsourcing the state's high-tech manufacturing and business services jobs to foreign countries.

In fiscal 2004, Arizona's revenue collection showed marked improvement, with state tax collections up almost 9%. However, due to above-average population growth and new policy initiatives, Arizona continues to face education, healthcare, social services and corrections expenditures that could act as a constraint on state finances over the next few years. The fiscal 2005 \$7.2 billion budget was balanced through the use of recurring revenues and one-time measures. During the 12-month reporting period ended July 2004, issuers in Arizona sold \$7.4 billion in new municipal bonds, an increase of 1% from the previous 12-month period. Much of this increase was due to Arizona's population growth, which translated to a need for new infrastructure, such as schools and roads. As of July 31, 2004, Arizona debt was rated A1 with a stable outlook by Moody's and AA- with a negative outlook by Standard & Poor's. This reflects Moody's revised outlook as of February 2004, based on the state's improving economy and operating fund liquidity.

The Texas economy continued to emerge from recession over the fiscal year, as both jobs and payrolls showed modest gains. The services sector is now a major driver of growth in Texas, and the state's industrial base has diversified substantially from the volatile oil-driven days so much that increases in energy prices had only a minor impact on the Texas recovery. High-tech capital Austin, which boasts new research centers and upgraded production facilities, and San Antonio and Fort Worth, the beneficiaries of new investments in auto plants, were returning to healthy growth. Dallas stood to benefit from the recovery

of industrial activity along the U.S.-Mexico border following the NAFTA ruling removing restrictions on Mexican trucks. The jobless rate in Texas, which dropped over the 12 month period, to 5.7% in July 2004 from 6.8% in July 2003, remained above the July 2004 national average of 5.5%. Like Arizona, Texas had positive demographic trends, which exerted the usual budgetary pressures from growing expenditures for essential services. With no rainy day reserves, the \$117 billion state budget for fiscal 2004/2005 closed a \$10 billion gap--the result of weaker state sales tax revenues--with cuts in children's healthcare, teacher pension programs, Medicaid and other healthcare programs for low-income families. During the 12 months ended July 31, 2004, issuers in Texas sold \$27.7 billion in new municipal bonds, about equal to the issuance of the previous 12 months. As of July 31, 2004, Texas general obligation debt continued to be rated Aa1/AA, with stable outlooks, by Moody's and Standard & Poor's, respectively.

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

IN THIS ENVIRONMENT, WHAT KEY STRATEGIES WERE USED TO MANAGE THE ARIZONA AND TEXAS FUNDS DURING THE 12 MONTHS ENDED JULY 31, 2004?

As the market continued to anticipate rising interest rates, we remained focused on efforts to mitigate some of the interest rate risk inherent in each Fund's portfolio. Interest rate risk is the risk that the value of a Fund's portfolio will decline if market interest rates rise (since bond prices move in the opposite direction of interest rates). Because longer-term bonds often carry more interest rate risk than those with short or intermediate terms, we tried to focus our purchase activity on attractive securities with defensive structures in the long-intermediate part of the yield curve (i.e., bonds that mature in 15 to 20 years). In many cases, bonds in this part of the curve offered yields similar to those of longer-term bonds with less inherent interest rate risk and, we believed, greater total return prospects. We also added some bonds in the 10-year maturity range when we found what we believed were attractive opportunities. We think this yield curve positioning should also help the Funds produce more consistent returns over time as interest rates rise and fall.

In keeping with this strategy, some of the bonds we purchased carried coupons that were higher than current market rates. These "premium" bonds have the potential to help cushion the impact on the value of the Funds' portfolios if interest rates continue rise. Some of these additions were financed through the sale of lower-coupon bonds with longer maturities (i.e., beyond 20 years).

6

Much of the issuance in Arizona during this period came from the limited tax obligation sector, and we increased our allocations to this sector in all four of the Arizona Funds. We also worked to reduce our positions in pre-refunded bonds. In NAZ, for example, we cut our holdings of U.S. Guaranteed and escrowed bonds to 12% from 17% over the 12 months.

In addition, we worked to moderate the credit risk in NAZ, NFZ and NKR by reducing our positions in BBB rated holdings. Because lower-rated bonds were relatively scarce, especially in Arizona, and because these bonds performed well over the past 12 months, we believed it was a good time to take advantage of opportunities to sell selected bonds at attractive prices. However, we were careful to balance the desire for improved quality with the need to generate income. We continued to add new BBB rated and sub-investment grade rated bonds to some of the portfolios to better diversify their lower credit quality holdings.

HOW DID THE FUNDS PERFORM?

Individual results for the Nuveen Arizona and Texas Funds, as well as for relevant benchmarks, are presented in the accompanying table.

For additional information, see the individual Performance Overview for your Fund in this report.

- 1 The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman indexes do not reflect any expenses.
- 2 The Lipper Other States Municipal Debt Funds category average is calculated using the returns of all leveraged and unleveraged closed-end exchange-traded funds in this category for each period as follows: 1 year, 44 funds; 5 years, 19 funds; and 10 years, 17 funds. Fund and Lipper returns assume reinvestment of dividends. It should be noted that the performance of the Lipper Other States category represents the overall average of annual returns for funds from 10 different states with a wide variety of economic and municipal market conditions and investment guidelines, making direct comparisons less applicable.

7

For the 12 months ended July 31, 2004, the annual returns on net asset value (NAV) for all five Funds in this report exceeded the return on the Lehman Brothers index. The Funds also outperformed or were in line with the average return for the Lipper Other States peer group over this period.

One of the primary factors benefiting the performance of each of these Funds relative to that of the unleveraged Lehman index was the Funds' use of leverage. While leveraging can add volatility to the Funds' NAVs and share prices, especially when there are substantial shifts in interest rates, this strategy can also provide opportunities for additional income and total returns for common shareholders when short-term interest rates are low and long-term rates are relatively steady or falling.

Another of our strategies that influenced the performance of the Funds, especially when compared with each other, was their yield curve positioning. For example, NFZ was more heavily weighted toward the longer end of the yield curve during this period, while NAZ was more heavily weighted toward the intermediate segment. This is one reason for the differences in their total returns over the 12 months.

All of these Funds also benefited from their allocations of lower quality bonds, which tended to outperform higher quality securities as the economy improved. This also was a reason for some of the differences between Funds' returns. As of

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

July 31, 2004, NTX and NFZ had the highest allocations (14% and 11%, respectively) of bonds rated BBB, while NKR had the lowest (6%). In addition, NTX's total return was boosted by the strong rebound in the performance of its position in sub-investment grade American Airlines bonds. In NAZ and NFZ, B-rated bonds issued by Coconino County for Nevada Power were among the best performing credits.

Holdings in the healthcare sector, particularly those with lower ratings, also were strong performers over the 12 month period. All of these Funds had sizeable allocations to this sector, ranging from 15% in NTX to 11% in both NAZ and NXE, 9% in NKR and 6% in NFZ. The top performing holdings in NAZ, NKR and NXE were Ba2 rated bonds issued for Phoenix Children's Hospital, which returned 26% for the 12-month period, and non-rated Winslow Memorial Hospital bonds held by NAZ which returned 23.5%.

8

The Arizona Funds also benefited from credit upgrades of two of their holdings during this period, which enhanced the bonds' prices as well as the Funds' credit quality. The first of these was Catholic Healthcare West, which was held by all four of the Arizona Funds. In October 2003, Moody's upgraded these bonds to Baa1 from Baa2, and S&P revised its rating to BBB+ from BBB in March 2004, based on the system's continued positive operating results, improved cashflow, and strategies that targeted investment in high-growth areas. The second upgrade was for bonds issued by Glendale Industrial Development Authority for Midwestern University, an osteopathic college, which were held by NAZ, NKR, and NXE. These bonds were upgraded by S&P to A- from BBB+ in June 2004. In NTX, bonds issued by the Houston Water and Sewer System (maturing in 2030) were pre-refunded during this period, positively impacting the Fund's annual performance.

Also making a positive contribution to the total returns of NAZ, NXE and NTX during this period were tobacco bonds issued by Puerto Rico and backed by revenues from the 1998 master tobacco settlement agreement.

Among the Funds' holdings that did not perform as well during this period were pre-refunded bonds, which underperformed the market as a whole as measured by the Lehman index. Revenue bonds, insured bonds and general obligation bonds also did not perform as well as some other sectors, and we worked to reduce our positions in these bonds over the past 12 months, particularly in NAZ.

HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining at historically low levels during this reporting period, the leveraged structures of these five Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, the Funds generally pay relatively lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. During this reporting period, this strategy enabled us to increase the dividend of NFZ, while helping to maintain the dividends of NAZ, NKR, NXE and NTX.

9

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods,

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of July 31, 2004, all five of the Funds in this report had positive UNII balances.

As of the end of this reporting period, NAZ was trading at a premium to its NAV, but less than its average premium over the course of the entire 12 months. NFZ was trading at a premium greater than its 12-month average. NKR was trading at a discount to NAV that was smaller than its average discount for the period, while NXE was trading at a greater discount than its 12-month average. NTX was trading at a slightly smaller discount than its full-period average.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF JULY 31, 2004?

Given the current geopolitical and economic climate, we continued to believe that maintaining strong credit quality was an important requirement. As of the end of July 2004, these five Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 84% in NKR to 83% in NXE, 82% in NAZ, 77% in NFZ and 76% in NTX.

As of the end of July 2004, potential call exposure for these Funds during 2004-2005 ranged from zero in NKR and NXE and 1% in NFZ to 8% in NAZ and NTX. The number of actual bond calls in all of the Funds will depend largely on market interest rates.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state Funds (the "Funds") covered in this report and their corresponding common share stock exchange symbols are Nuveen Arizona Premium Income Municipal Fund, Inc. (NAZ), Nuveen Arizona Dividend Advantage Municipal Fund (NFZ), Nuveen Arizona Dividend Advantage Municipal Fund 2 (NKR), Nuveen Arizona Dividend Advantage Municipal Fund 3 (NXE) and Nuveen Texas Quality Income Municipal Fund (NTX). Common shares of Arizona Premium Income (NAZ) and Texas Quality Income

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

(NTX) are traded on the New York Stock Exchange while Common shares of Arizona Dividend Advantage (NFZ), Arizona Dividend Advantage 2 (NKR) and Arizona Dividend Advantage 3 (NXE) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Prior to the commencement of operations of Arizona Dividend Advantage 3 (NXE), the Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$11,500) and its reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes, where applicable, by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Funds' Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At July 31, 2004, there were no such outstanding purchase commitments in any of the Funds.

37

Notes to
FINANCIAL STATEMENTS (continued)

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all income and capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, where applicable, to retain such tax-exempt status when distributed to shareholders of the Funds. All monthly tax-exempt income dividends paid during the fiscal year ended July 31, 2004, have been designated Exempt Interest Dividends. Net realized capital gains and ordinary income distributions made by the Funds are subject to federal taxation.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding \$25,000 stated value Preferred shares as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

	ARIZONA PREMIUM INCOME (NAZ)	ARIZONA DIVIDEND ADVANTAGE (NFZ)	ARIZONA DIVIDEND ADVANTAGE 2 (NKR)	ARIZONA DIVIDEND ADVANTAGE 3 (NXE)

Number of shares:				
Series M	--	--	--	880
Series T	--	480	--	--
Series W	--	--	740	--
Series TH	1,200	--	--	--

Total	1,200	480	740	880
=====				

Arizona Dividend Advantage 3 (NXE) issued the Preferred shares listed above on November 15, 2002.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Offering Costs

Nuveen Investments, LLC has agreed to pay all common share offering costs (other than the sales load) that exceed \$.03 per Common share for Arizona Dividend Advantage 2 (NKR) and Arizona Dividend Advantage 3 (NXE). Arizona Dividend Advantage 2's (NKR) and Arizona Dividend Advantage 3's (NXE) share of common share offering costs (\$72,150 and \$91,800, respectively) were recorded as a reduction of the proceeds from the sale of common shares.

Costs incurred by Arizona Dividend Advantage 2 (NKR) and Arizona Dividend Advantage 3 (NXE) in connection with their offering of Preferred shares (\$305,577 and \$574,272, respectively) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

("post-October losses") in accordance with Federal income tax regulations. Post-October losses are treated as having arisen on the first day of the following fiscal year.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Funds' investment management agreements with the Adviser, each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET ASSETS ATTRIBUTABLE TO PREFERRED SHARES)	ARIZONA PREMIUM INCO TEXAS QUALITY INCO MANAGEMENT

For the first \$125 million	
For the next \$125 million	
For the next \$250 million

For the next \$125 million	
For the next \$250 million	
For the next \$500 million	
For the next \$1 billion	
For net assets over \$2 billion	
=====	

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

As approved by the Board of Directors/Trustees, a complex-wide management fee structure has been adopted by all funds sponsored by the Adviser and its

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

affiliates effective August 1, 2004. This structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets managed within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .004% starting August 1, 2004.

The complex-level fee schedule for all funds in the Nuveen fund complex is as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets (which includes assets attributable to leverage used in the Nuveen fund complex) of all funds sponsored by the Adviser or by its affiliates.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the funds (via their Board of Directors/Trustees) and the Adviser intend that the parties will meet, prior to the time when complex-wide Managed Assets reach that level, to consider and negotiate the fee rate or rates that will apply to such assets. The parties agree that, in the unlikely event that complex-wide Managed Assets reach \$91 billion prior to the parties reaching an agreement as to the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as the parties agree to a different rate or rates.

Notes to
FINANCIAL STATEMENTS (continued)

For each of the Funds, the fund-level fee, which is additive to the complex-level fee, is based upon the average daily Managed Assets of each Fund as follows:

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS
DIVIDEND REINVESTMENT PLAN

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors determined that the registrant had at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert was William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR.

Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Since that time, the Audit Committee determined that Jack B. Evans, the Chairman of the Audit Committee, qualifies as an audit committee financial expert and recommended to the full Board that he be designated as such. On July

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

26, 2004, the full Board voted to so designate Mr. Evans. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from April 30, 2004 to July 26, 2004. Mr. Evans, who is independent for purposes of Item 3 of Form N-CSR, served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on July 31, 2004.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND, INC.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

July 31, 2003	\$ 6,786	\$ 0	\$
Percentage approved pursuant to pre-approval exception	N/A	0%	

The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Advisory Corp. ("NAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

July 31, 2003	\$ 0	\$ 0
Percentage approved pursuant to pre-approval exception	N/A	N/A

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

FISCAL YEAR ENDED	TOTAL NON-AUDIT FEES BILLED TO FUND	TOTAL NON-AUDIT FEES BILLED TO ADVISER AND AFFILIATED FUND SERVICE PROVIDERS (ENGAGEMENTS RELATED DIRECTLY TO THE OPERATIONS AND FINANCIAL REPORTING OF THE FUND)	TOTAL BILLED TO AFFILIATED FUND SERVICE PROVIDERS

July 31, 2003	\$ 2,653	\$ 0	

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

Edgar Filing: NUVEEN ARIZONA PREMIUM INCOME MUNICIPAL FUND INC - Form N-CSR/A

ITEM 6. SCHEDULE OF INVESTMENTS.

See Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c) (2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c) (2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors and reserves the right to interview all candidates and to make the final selection of any new directors.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website at www.nuveen.com/etf.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
