VANECK VECTORS MUNICIPAL INCOME ETFs

(unaudited)

Dear Shareholder,

*Effective May 1, 2016, Market Vectors exchange-traded funds are now known as VanEck Vectors ETFs.*

The past 12 months for municipal bonds have been impressive. Municipal bonds have provided a haven from the volatility in the general stock market. Despite their collective performance, we would like to note that the municipal bond market also offers a diverse set of individual opportunities that may appeal to investors looking for more customized exposure.

When we look at the muni space, we believe investors should expect more from their muni investments. Our suite of municipal bond ETFs was built precisely with this in mind. The image below shows the striking range of opportunities it offers—from short-duration to high-quality, and from long-duration to high yield.

Our seven municipal income ETFs offer investors the ability to exercise control over their portfolio yield, duration, and credit exposure at different points in the interest rate cycle.

**VanEck Vectors Municipal Income ETFs by Yield and Duration**

*Source: VanEck Research. As of April 30, 2016. Past performance is no guarantee of future results. Modified Duration measures a bond's sensitivity to interest rate changes that reflects the change in a bond's price given a change in yield. 30-Day SEC Yield is a standard calculation developed by the Securities and Exchange Commission that allows for fairer comparisons among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest earned during the period after deducting a Fund's expenses for the period. In the absence of expense waivers or reimbursements, the 30-Day SEC Yield for XMPT would have been 4.54%.*

*The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all*

*expenses, investment returns would have been reduced. Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Bonds and bond funds may decrease in value as interest rates rise. Performance may be lower or higher than performance data quoted. Fund returns reflect dividends and capital gains distributions.*

VANECK VECTORS MUNICIPAL INCOME ETFs

(unaudited)

**Yield Curve-Focused**

Our investment grade, VanEck Vectors AMT-free municipal ETF product offerings seek to track indices that reflect a unique segmentation of the municipal yield curve: Short (years 1-6: VanEck Vectors AMT-Free Short Municipal Index ETF, NYSE Arca: SMB); Intermediate (years 6-17: VanEck Vectors AMT-Free Intermediate Municipal Index ETF, NYSE Arca: ITM); and Long (years 17-30: VanEck Vectors AMT-Free Long Municipal Index ETF, NYSE Arca: MLN). These indices have maturity segments that are longer than those traditionally used by some asset managers. We believe this may allow investors to maximize the potential yield available in each part of the yield curve.

**Credit-Focused**

Our credit-focused municipal ETF product offerings seek to track indices that include both the highest credit quality available in the municipal asset class (pre-refunded: VanEck Vectors Pre-Refunded Municipal Bond ETF, NYSE Arca: PRB) and municipal high yield—short (years 1-12: VanEck Vectors Short High-Yield Municipal Index ETF, NYSE Arca: SHYD) and all maturity (years 1-30+: VanEck Vectors High-Yield Municipal Index ETF, NYSE Arca: HYD). The high yield indices include an investment grade component to help enhance liquidity.

**Smart Beta**

Our smart beta municipal ETF (VanEck Vectors CEF Municipal Income ETF, NYSE Arca: XMPT) seeks to track an index that includes closed-end funds that hold municipal bonds (CEFs).

We believe that, with their yield curve, credit and smart beta focuses, our suite of municipal income ETFs truly do provide investors with an opportunity to “get” more from their muni investments.

We encourage you stay in touch with us through the videos, emails, and subscriptions available on our website (<http://www.vaneck.com>).

**Management Discussion** (unaudited)

**Market Review**

During the 12-month period ended April 30, 2016, the municipal bond market (munis) sustained inflows. Continuing to build on their positive performances in the six months to October 31, 2015, all the VanEck Vectors Municipal Income ETFs performed positively for the 12-month period under review which could be partially attributed to the dynamic of demand outpacing supply. The performances of VanEck Vectors CEF Municipal Income ETF (NYSE Arca: XMPT) and VanEck Vectors AMT-Free Long Municipal Index ETF (NYSE Arca: MLN) were particularly notable.

*Source: VanEck. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment returns and ETF share values will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. ETF returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Current performance may be lower or higher than performance data quoted.*

***AMT-Free Short Municipal Index ETF/Pre-Refunded Municipal Index ETF***

Among short munis, the state general obligation sector contributed most to the total return of the AMT- Free Short Municipal Index ETF. All other sectors contributed positive performance. In terms of state/U.S. territory, New York and California contributed the most to the total return of the Fund, while some only contributed minimally, no state/U.S. territory detracted from performance.

Munis from California contributed the most to the total return of the Pre-Refunded Municipal Index ETF. Only munis from Ohio detracted from performance, and then only minimally.

***AMT-Free Intermediate Municipal Index ETF***

Munis from New York and California contributed the most to the total return of the Fund. When grouped by state/U.S. territory, none detracted from performance. The sectors with the largest and second largest average weightings in the index, state general obligation and local general obligation, were the two largest contributors to the Fund's performance. While no sector detracted from performance, some sectors contributed only minimally.

***AMT-Free Long Municipal Index ETF***

All sectors contributed positively to the Fund's total return, with the healthcare sector being by far the greatest contributor. Municipal bonds issued by California and New York contributed by far the most to performance. Only municipal bonds issued by Montana detracted from performance and then only minimally.

VANECK VECTORS MUNICIPAL INCOME ETFs

(unaudited)

***Short High-Yield Municipal Index ETF/High-Yield Municipal Index ETF***

In the Short High-Yield Municipal Index ETF, while the healthcare and the industrial development revenue/pollution control revenue (IDR/PCR) sectors contributed most to performance, the state general obligation and solid waste/resource recovery sectors were the largest detractors from performance. Every single state/U.S. territory represented in the Fund, except for Indiana, Louisiana, Puerto Rico, and Vermont, contributed positively to the Fund's total return, with bonds from Ohio and Texas contributing the most to performance. Munis from Puerto Rico detracted most from performance. As of April 30, 2016, Puerto Rican securities represented 3.8% of the Fund's net assets.\*

In the High-Yield Municipal Index ETF, the IDR/PCR and healthcare sectors contributed by far the most to total return, and the solid waste/resource recovery and local general obligation sectors detracted the most from performance. Munis from California and Ohio made the greatest contribution to performance and those from Puerto Rico detracted most from performance. As of April 30, 2016, Puerto Rican securities represented 2.1% of the Fund's net assets.\*

The Commonwealth of Puerto Rico is currently struggling with roughly \$70 billion of debt and its Governor has made clear it will not be able to make future debt payments without restructuring authority. Within the last 12 months, Puerto Rico has already defaulted on a few of its debt payments. The problem is exacerbated because unlike authorities in states, Puerto Rico's public authorities do not have access to Chapter 9 bankruptcy protections under federal law. Puerto Rico officials and others have been pressuring Congress to help the territory solve its debt and fiscal crises, but up to this point there has been no resolution.

***CEF Municipal Income ETF***

Over the 12 months under review, the average discount at which municipal closed-end funds (CEFs) traded first widened from around 6.56% to over 10% on June 9, 2015, and then narrowed right back to 2.73% at the end of the period. Since many municipal CEFs use leverage, and short-term rates remained low during the period under review, the cost of leverage also remained relatively low. This was, therefore, beneficial to the municipal closed-end fund market and the Fund returned a commendable 12.87% for the 12-month period.

\* All Fund assets referenced are Net Assets as of April 30, 2016.

## AMT-FREE INTERMEDIATE MUNICIPAL INDEX ETF

## PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

**Hypothetical Growth of \$10,000 (Since Inception)**

Total Return	Share Price <sup>1</sup>	NAV	LMT2TR <sup>2</sup>
One Year	6.15 %	6.38 %	7.12 %
Five Year	5.39 %	5.39 %	6.14 %
Life* (annualized)	5.02 %	5.00 %	5.84 %
Life* (cumulative)	50.95 %	50.74 %	61.12 %

\* since 12/4/2007

**Commencement date for the VanEck Vectors AMT-Free Intermediate Municipal Index ETF was 12/4/07.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (12/4/07) to the first day of secondary market trading in shares of the Fund (12/6/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting [vaneck.com](http://vaneck.com).**

Annual Fund Operating Expenses 0.24%

The Investment Management Agreement between VanEck Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Fund or security.

AMT-FREE INTERMEDIATE MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays AMT-Free Intermediate Continuous Municipal Index (LMT2TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, and Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated-date within the last five years, and must be at least six years but less than seventeen years from their maturity date. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

S-Network Municipal Bond Closed-End Fund Index<sup>SM</sup> is calculated and maintained by S-Network Global Indexes, LLC. S-Network does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

S-Network Municipal Bond Closed-End Fund Index<sup>SM</sup> (CEFMXTR) is composed of shares of municipal closed-end funds listed in the United States that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield.

PREMIUM/DISCOUNT INFORMATION

(unaudited)

Information regarding how often the Shares of each Fund traded on NYSE Arca, Inc. or The NASDAQ Stock Market LLC as applicable, at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund during the past four calendar quarters, as applicable, can be found at [www.vaneck.com](http://www.vaneck.com).

## HIGH-YIELD MUNICIPAL INDEX ETF

## PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

**Hypothetical Growth of \$10,000 (Since Inception)**

Total Return	Share Price <sup>1</sup>	NAV	LMEHTR <sup>2</sup>
One Year	6.73 %	6.59 %	8.00 %
Five Year	7.62 %	7.68 %	8.68 %
Life* (annualized)	9.02 %	8.99 %	10.28 %
Life* (cumulative)	86.82 %	86.41 %	102.96 %

\* since 2/4/2009

**Commencement date for the VanEck Vectors High-Yield Municipal Index ETF was 2/4/09.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/4/09) to the first day of secondary market trading in shares of the Fund (2/5/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting [vaneck.com](http://vaneck.com).**

Annual Fund Operating Expenses 0.35%

The Investment Management Agreement between VanEck Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Barclays Inc. does not sponsor, endorse, or promote the Fund and bears no liability with respect to any such Funds or security.

HIGH-YIELD MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal Custom High Yield Composite Index (LMEHTR) is made up of a 25%/75% blend of investment grade triple-B and noninvestment grade munis, and draws 75% of its holdings from bonds issued as part of transaction sizes of \$100 million or more. To be included in the Index, bonds must have an outstanding par value of at least \$3 million for non-investment grade and \$7 million for investment grade; 25% of index in investment-grade triple-B bonds issued as part of transaction sizes of at least \$100 million in value; 50% of index in non-investment grade bonds issued as part of transaction of at least \$100 million; 25% of index in non-investment grade bonds issued as part of transaction of \$20-\$100 million in size; fixed rate; nominal maturity of greater than one year; dated-date after 12/31/1990.

PRE-REFUNDED MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal Pre-Refunded—Treasury-Escrowed Index (LMPETR) is comprised of pre-refunded and/or escrowed-to-maturity municipal bonds, provided that the collateral in the escrow account is comprised strictly of obligations of, and carry the full faith and credit of, the U.S. Treasury. Bonds must have an explicit or implicit credit rating of AAA; outstanding par value of at least \$7 million; issued as part of transaction of at least \$75 million in value; fixed rate coupon and denominated in U.S. dollars. Taxable municipal bonds, floating rate bonds, derivatives, and remarketed issues are excluded from the Index.

SHORT HIGH-YIELD MUNICIPAL INDEX ETF

PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Barclays Municipal High Yield Short Duration Index (BMHYTR) is a market size weighted index composed of publicly traded municipal bonds that cover the U.S. dollar denominated high yield short-term tax-exempt bond market. The majority of the Index's constituents are from the revenue sector, with some constituents being from the general obligation sector. The revenue sector is divided into industry sectors that consist of but may not be limited to electric, health care, transportation, education, water & sewer, resource recovery, leasing and special tax.

PREMIUM/DISCOUNT INFORMATION

Information regarding how often the Shares of each Fund traded on NYSE Arca, Inc. or The NASDAQ Stock Market LLC as applicable, at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund during the past four calendar quarters, as applicable, can be found at [www.vaneck.com](http://www.vaneck.com).

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, November 1, 2015 to April 30, 2016.

**Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

**Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Beginning Ending Annualized

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

April 30, 2016

**Note 1—Fund Organization**—VanEck Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of April 30, 2016, offers fifty-seven investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: AMT-Free Intermediate Municipal Index ETF (“Intermediate”), AMT-Free Long Municipal Index ETF (“Long”), AMT-Free Short Municipal Index ETF (“Short”), CEF Municipal Income ETF (“CEF Municipal”), High-Yield Municipal Index ETF (“High-Yield”), Pre-Refunded Municipal Index ETF (“Pre-Refunded”) and Short High-Yield Municipal Index ETF (“Short High-Yield”), each a “Fund” and collectively the “Funds”. Each Fund’s investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the “Adviser”) uses quantitative analysis to select bonds and other securities that represent a sample of securities in each Fund’s respective index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in its index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds’ commencement of operations dates and their respective indices are presented below:

<b>Fund</b>	<b>Commencement of Operations</b>	<b>Index</b>
CEF Municipal	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index <sup>SM</sup>
High-Yield	February 4, 2009	Barclays Municipal Custom High Yield Composite Index
Intermediate	December 4, 2007	Barclays AMT-Free Intermediate Continuous Municipal Index
Long	January 2, 2008	Barclays AMT-Free Long Continuous Municipal Index
Pre-Refunded	February 2, 2009	Barclays Municipal Pre-Refunded-Treasury-Escrowed Index
Short High-Yield	January 13, 2014	Barclays Municipal High Yield Short Duration Index
Short	February 22, 2008	Barclays AMT-Free Short Continuous Municipal Index

**Note 2—Significant Accounting Policies**—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services—Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

**Security Valuation**—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as

131

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

determined by the Pricing Committee of the Adviser. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

**C.Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with

income tax regulations, which may differ from such amounts determined in accordance with GAAP.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund’s Schedule of Investments.

**Use of Derivative Instruments**—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree

132

of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the year ended April 30, 2016.

**Other**—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

**F.** The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gain. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gain and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements**—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The High-Yield, Intermediate, Long, Pre-Refunded, Short High-Yield and Short Funds utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, except the fee payment under the Investment Advisory Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses. For CEF Municipal, the Adviser voluntarily waived its fees and assumed certain fund expenses during this period to limit total annual operating expenses to the expense limitation listed below.

The current management fee rate, expense limitation and the amounts waived/assumed by the Adviser for the year ended April 30, 2016 are as follows:

<b>Fund</b>	<b>Expense Limitation</b>	<b>Management Fee Rate</b>	<b>Waiver of Management Fees</b>	<b>Expenses Assumed by the Adviser</b>
CEF Municipal *	0.40%	0.40%	\$84,858	\$—

The Adviser has agreed, at least until September 1, 2016, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Fund so that the Fund's total annual operating expenses do not exceed the expense limitation, excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund	Unitary Fee
High-Yield	0.35%
Intermediate	0.24
Long	0.24
Pre-Refunded	0.24
Short High-Yield	0.35
Short	0.20

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' distributor ("the Distributor"). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

**Note 4—Investments**—For the year ended April 30, 2016, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
CEF Municipal	\$5,747,465	\$5,718,017
High-Yield	601,592,392	137,052,030
Intermediate	477,230,446	21,882,314
Long	53,899,130	3,515,090
Pre-Refunded	9,073,227	8,359,087
Short High-Yield	35,029,845	16,368,330
Short	19,027,541	7,393,805

**Note 5—Income Taxes**—As of April 30, 2016, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

Fund	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
CEF Municipal	\$90,561,488	\$4,802,758	\$(22,904)	\$4,779,854
High-Yield	1,786,893,045	113,606,592	(47,950,081)	65,656,511
Intermediate	1,348,727,697	56,849,177	(466,213)	56,382,964
Long	150,045,826	6,827,650	(60,165)	6,767,485
Pre-Refunded	19,343,332	191,107	(4,837)	186,270
Short High-Yield	109,306,056	2,852,602	(2,822,264)	30,338
Short	259,240,550	2,313,182	(427,829)	1,885,353

At April 30, 2016, the components of accumulated earnings (deficit) on a tax basis, for each Fund, were as follows:

Fund	Undistributed Tax Exempt Income	Undistributed Ordinary Income	Undistributed Long-Term Capital	Accumulated Capital Losses	Qualified Late-Year Losses*	Other Temporary Difference	Unrealized Appreciation (Depreciation)	Total
------	---------------------------------	-------------------------------	---------------------------------	----------------------------	-----------------------------	----------------------------	--	-------

Qualified late-year losses comprised of post-October capital losses incurred after October 31, 2015, and certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2015 and specified losses incurred after October 31, 2015. These losses are deemed to arise on the first day of the Fund's next taxable year. For the year ended April 30, 2016, the Funds had no such deferrals.

The tax character of dividends paid to shareholders during the years ended April 30, 2016 and April 30, 2015 were as follows:

<b>Fund</b>	<b>Tax-Exempt Dividends</b>		<b>Ordinary Income</b>	
	<b>April 30, 2016</b>	<b>April 30, 2015</b>	<b>April 30, 2016</b>	<b>April 30, 2015</b>
CEF Municipal	\$ 2,976,206	\$ 2,045,719	\$ 16,904	\$ 8,846
High-Yield	77,632,113	61,785,952	723,857	573,378
Intermediate	27,852,120	18,785,927	18,910	19,663
Long	3,758,435	3,305,557	7,410	1,538
Pre-Refunded	172,440	231,520	—	—
Short High-Yield	3,309,393	2,128,715	23,297	8,575
Short	3,027,135	2,977,285	—	—

At April 30, 2016, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	Post-Effective- No Expiration Short-Term Capital Losses	Post-Effective- No Expiration Long-Term Capital Losses	Amount Expiring in the Year Ended April 30,		
			2019	2018	2017
CEF Municipal	\$ 722,878	\$ 1,023,945	\$—	\$—	\$—
High-Yield	7,094,962	31,597,237	—	—	—
Intermediate	393,076	1,378,421	—	—	—
Long	732,582	90,537	78,825	1,554,202	603,978
Pre-Refunded	226,643	273,317	—	—	—
Short High-Yield	651,627	608,317	—	—	—
Short	48,242	325,049	—	—	—

During the year ended April 30, 2016, the following Funds utilized accumulated capital loss carryforwards: Intermediate utilized \$132,147, Long utilized \$15,891 and Pre-Refunded utilized \$13,025.

During the year ended April 30, 2016, as a result of permanent book to tax differences, primarily due to the tax treatment of market discount on tax exempt instruments and in-kind share transactions, the Funds incurred differences that affected undistributed net investment income, accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Undistributed Net Investment Income (Loss)	Increase (Decrease) in Accumulated Realized Gain/(Loss)	Increase (Decrease) in Aggregate Paid in Capital
CEF Municipal	\$ (1,291 )	\$ (324,409 )	\$ 325,700
High-Yield	(194,743 )	(14,005,201 )	14,199,944
Intermediate	(3,101 )	(9,735,422 )	9,738,523
Long	(1 )	(1,414,289 )	1,414,290
Pre-Refunded	—	(29,083 )	29,083
Short High-Yield	(34,554 )	(97,866 )	132,420
Short	—	(215,946 )	215,946

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. Therefore, no provision for income tax is required in the Funds’ financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended April 30, 2016, the Funds did not incur any interest or penalties.

**Note 6—Capital Share Transactions**—As of April 30, 2016, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 100,000 shares, except for CEF Municipal, which has Creation Units consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds’ underlying index plus a small amount of cash. For the year ended April 30, 2016, the Funds had in-kind contributions and redemptions as follows:

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

<b>Fund</b>	<b>In-Kind Contributions</b>	<b>In-Kind Redemptions</b>
CEF Municipal	\$49,709,619	\$7,780,368
High-Yield	87,527,674	317,287,138
Intermediate	172,757,973	289,515,230
Long	20,647,685	28,522,777
Pre-Refunded	—	2,428,502
Short High-Yield	9,303,625	14,193,792
Short	75,674,244	92,190,357

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

**Note 7—Concentration and Other Risks**—Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices. The market for municipal bonds may be less liquid than for taxable bonds.

Pre-Refunded and Short High-Yield are classified as non-diversified funds under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

High-Yield and Short High-Yield invest in non-investment grade securities, often referred to as “junk bonds.” Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield and Short High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed

to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund's shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

High-Yield and Short High-Yield invest in Puerto Rico municipal securities that currently experience significant financial difficulties. As a result, certain securities issued by this municipality are currently considered below-investment-grade securities. A credit rating downgrade, default, insolvency or bankruptcy, of one or several municipal security issuers of this territory, could affect the market values and marketability of municipal obligations of such territory held by the Funds. The market for these investments may be limited, which may make them difficult to buy or sell.

These funds may continue to be affected by political, economic, regulatory and other developments within Puerto Rico and by the financial condition of Puerto Rico's political subdivisions, agencies, instrumentalities and public authorities. Events, including economic and political policy changes, tax base erosion, territory constitutional limits on tax increases, budget deficits and other financial difficulties and changes in the credit ratings assigned to Puerto Rico's municipal issuers, are likely to affect performance. The Puerto Rican economy is reliant on manufacturing, services and tourism, and its economy and financial operations parallel the economic cycles of the United States. Current economic difficulties in the United States are likely to have an adverse impact on the overall economy of Puerto Rico. Municipal obligations issued by Puerto Rico are subject to heightened risks that may adversely affect the value of these fund's portfolios and the repayment of such bonds may be subject to significant uncertainties. Moreover, like many other U.S. states and municipalities, Puerto Rico experienced a significant downturn during the recent recession. Puerto Rico continues to face significant fiscal challenges, including persistent government deficits, underfunded public pension benefit obligations, underfunded government retirement systems, sizable debt service obligations and a high unemployment rate. Many ratings organizations previously downgraded a number of securities issued in Puerto Rico or placed them on "negative watch." If the economic situation in Puerto Rico persists or worsens, the volatility, credit quality and performance of the Funds could be adversely affected. Puerto Rico's continued financial difficulties could

reduce its ability to access financial markets, potentially increasing the likelihood of a restructuring or default for Puerto Rico municipal bonds that may affect the Fund's investments and its performance.

**Note 8—Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

Effective September 1, 2010, High-Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds and for Short High-Yield are included in “Management fees”. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in “Due to Adviser” for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

**Note 9—Bank Line of Credit**—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended April 30, 2016, the following Funds borrowed under this Facility:

<b>Fund</b>	<b>Days Outstanding</b>	<b>Average Daily Loan Balance</b>	<b>Average Interest Rate</b>
CEF Municipal	87	\$117,924	1.77 %
High-Yield	7	2,970,056	1.53
Intermediate	14	316,391	1.53
Short High-Yield	24	256,109	1.54
Short	20	326,687	1.52

As of April 30, 2016, the Funds had no outstanding loan balances.

**Note 10—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended April 30, 2016, there were no offsets to custodian fees.

**Note 11—Subsequent Events**—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

Effective May 1, 2016, the number of shares per Creation Unit for Long, Short, Pre-Refunded and Short High-Yield changed from 100,000 to 50,000 shares.

Additionally, effective May 1, 2016, Van Eck Global and all of its businesses and investment offerings operate under the single global brand VanEck. Accordingly, the Registrant and each Fund are renamed as follows:

<b>Current Registrant Name /Current Fund Name</b>	<b>New Registrant Name /New Fund Name, effective May 1, 2016</b>

Short High-Yield	6/1/16	6/3/16	6/7/16	\$0.0666
Short	6/1/16	6/3/16	6/7/16	\$0.0168

The Adviser continues to monitor the events in Puerto Rico surrounding the \$70 billion debt crisis. The US Supreme Court heard oral arguments pertaining to the validity of the Puerto Rico Public Corporations Debt Enforcement and Recovery Act on 22 March 2016. The law, which was invalidated by the US District Court, provides a legal framework to restructure the debt of Puerto Rico's public corporations outside of federal bankruptcy court. On June 13, 2016, the US Supreme Court affirmed the US District Court decision that invalidated the law.

On April 6, 2016, the Puerto Rico legislature passed the Puerto Rico Emergency Moratorium and Financial Rehabilitation Act. Governor Alejandro García Padilla signed the bill into law. Among other provisions, the legislation authorizes the governor to suspend the payment of debt service on general obligation bonds and other constitutionally-protected debt on July 1, 2016, and other bonded debt service payments immediately. It also modifies the process for the appointment of a receiver for the Government Development Bank.

In June, 2016, the House of Representatives passed the Puerto Rico Oversight, Management and Economic Stability Act (PROMESA), a bipartisan bill that would create a federally-appointed oversight board to guide Puerto Rico's economic recovery. There is some optimism that the Senate may pass PROMESA prior to the \$2 billion debt payment on July 1st payments. On May 2, 2016, Puerto Rico defaulted on \$370 million in payments. The Funds did not have any material exposure to the May 2nd payments.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of VanEck Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments of AMT-Free Intermediate Municipal Index ETF, AMT-Free Long Municipal Index ETF, AMT-Free Short Municipal Index ETF, CEF Municipal Income ETF, High-Yield Municipal Index ETF, Pre-Refunded Municipal Index ETF and Short High-Yield Municipal Index ETF (seven of the series constituting VanEck Vectors ETF Trust) (the “Funds”) as of April 30, 2016, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds’ internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2016, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of AMT-Free Intermediate Municipal Index ETF, AMT-Free Long Municipal Index ETF, AMT-Free Short Municipal Index ETF, CEF Municipal Income ETF, High-Yield Municipal Index ETF, Pre-Refunded Municipal Index ETF and Short High-Yield Municipal Index ETF (seven of the series constituting VanEck Vectors ETF Trust) at April 30, 2016, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

## TAX INFORMATION

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2016 income tax purposes will be sent to them in early 2017. Please consult your tax advisor for proper treatment of this information.

Of the dividends and distributions paid by the Funds, the corresponding percentages represent the amount of such dividends which, for regular Federal income tax purposes, are tax exempt, from ordinary income and/or from long-term capital gains.

VANECK VECTORS INCOME ETFs

(unaudited)

Dear Shareholder:

*Effective May 1, 2016, Market Vectors exchange-traded funds are now known as VanEck Vectors ETFs.*

VanEck Vectors Fallen Angel High Yield Bond ETF (NYSE Arca: ANGL) performed impressively over the 12-month period ending April 30, 2016. As of that date, ANGL had outperformed the broad high yield bond market<sup>1</sup> by more than 4.9% over the previous 12 months and 2.8% since the Fund's commencement on April 10, 2012. Furthermore, relative to the actively managed funds in Morningstar's Open End Funds – U.S. – High Yield Bond category, ANGL's total returns ranked in the first percentile over the 1-year period (against 770 funds) and since its inception (against 567 funds), as of April 30, 2016<sup>2</sup>.

Fallen angels are high yield bonds that were originally investment grade issues, and make up approximately 15% of the broad high yield bond universe<sup>3</sup>. As detailed in our last letter, a portfolio of fallen angels captures a value proposition derived from the downgraded bonds' potential to be oversold prior to entering their index, in addition to their relatively higher average credit quality than original-issue high yield bonds.

### **Fallen Angels Outperformed Active High Yield Bond Fund Managers**

Much of ANGL's relative performance over the past 12 months can be attributed to higher average energy and basic industry positioning. This supports the thesis of targeting fallen angels, which tend to enter the index at a discount from being oversold as the bonds are downgraded. Prior to February 2016, the dismal commodities market helped drive lower the associated downgrades and new fallen angel entrants. The bounce in February initiated a healthy recovery as prices stabilized.

ANGL soared past the high yield bond competition given its bias to energy and basic industry (materials/steel) sectors, posting top percentile gains. And once again, the fallen angel index-based strategy outperformed active high yield bond managers<sup>4</sup> (see illustration below).

### **ANGL Outperformed Annualized Risk/Return since Inception (05/01/2012 – 04/30/2016)\***

**Management Discussion** (unaudited)

The VanEck Vectors Income ETFs can most accurately be divided into three groups: equity income, international bonds, and corporate bonds. Over the 12 months ended April 30, 2016, seven out of the 11 funds posted positive returns.

**May 1, 2015 through April 30, 2016

Current performance may be lower or higher than performance data quoted.*

**EQUITY INCOME**

***Business Development Companies (BDCs)***

BDCs typically lend to, and invest in, small privately held companies. An improving economy and increased lending benefit the industry, as do active buy-out and IPO markets.<sup>1</sup> Over the 12-month period, BDCs posted a performance of -2.98%, having endured downward pricing pressure from investor concern about rising interest rates until mid-February 2016, when the U.S. Federal Reserve (the "Fed") held steady. At the end of the period under review, BDCs were still trading at a discount of approximately 9% to book value, albeit not as steep a discount as prior to the mid-February rally. The industry ended the 12-month period offering a dividend yield\* of 9.55%, as measured by the MVIS US Business Development Companies Index.<sup>2</sup>

VANECK VECTORS INCOME ETFs

(unaudited)

***Mortgage REITs***

Mortgage REITs (mREITs) borrow at short-term rates and lend at long-term rates, potentially profiting from the spread. As such, they can be affected by yield curve movements. A potential Fed increase combined with a deteriorating market could result in a flattening yield curve, which would hurt mREITs. However, if rates rise and the markets strengthen, that could result in a rate increase being reflected across the yield spectrum or a steepening curve, which could bode well for mREITs. The 12-month period was challenging for mREITs, as investor concern over a rate rise weighed on returns. The Fund posted a performance of -6.66%. However, over the same 12-month period, mREITs offered a dividend yield\* of 12.22%, as measured by the MVIS Global Mortgage REITs Index.<sup>3</sup>

***Preferred Securities ex Financials***

Preferred securities are considered hybrid securities because they have features of both debt and equity securities. Historically, a company's preferred securities have offered higher yields than either its common stock or its senior debt. The Wells Fargo® Hybrid and Preferred Securities ex Financials Index excludes traditional financial companies which have been more volatile than other sectors historically. Over the 12-month period ending April 30, 2016, REITs contributed the most positively to performance, while the energy and materials sectors detracted the most from performance. This subset of preferred securities ended the 12-month period offering a current yield\*\* of 6.28%, as measured by the Wells Fargo® Hybrid and Preferred Securities ex Financials Index.<sup>4</sup>

**INTERNATIONAL BOND**

***China Onshore Bonds***

Once closed to foreign investors, China is home to the world's largest bond market among the emerging economies. The size of the market now exceeds US\$7.7 trillion.<sup>5</sup> While it has increased in sheer size, a diverse array of bond categories spanning the yield curve has also evolved. Issuers include government, central and policy banks, state-owned enterprises and listed/non-listed corporations.

Energy and government bonds contributed positively to performance over the 12-month period ending April 30, 2016. Bonds of issuers in the financial, consumer cyclical and basic materials sectors all detracted from performance.

***Emerging Markets Local Currency Bonds***

Emerging markets governments issue bonds denominated in their own currency, which can provide yield enhancement and diversification opportunities for investors. These include bonds from countries in Africa, Latin America, Eastern Europe, the Middle East, and Asia.

Over the 12-month period ending April 30, 2016, three key themes negatively impacted the emerging markets debt market: uncertainty around the timing of interest rate increases by the Fed; sluggish global economic growth; and the continued weakness of commodity prices.

Bonds denominated in Indonesian Rupiah, Turkish Lira, and Hungarian Forint contributed most to the Fund's total return. Bonds denominated in South African Rand, Colombian Peso, and Mexican Peso were the greatest detractors from performance.

***Emerging Markets Aggregate Bonds***

The diverse universe of emerging markets bonds includes sovereign and corporate bonds primarily denominated in U.S. dollar, Euros, or local emerging market currencies.

Hard currency bonds overall contributed positively to performance, with U.S. dollar-denominated government, energy and financial bonds the largest contributors. Local currency bonds overall detracted from performance. Indonesian Rupiah, Brazilian Real, and Nigerian Naira government bonds contributed to performance, but South African Rand, Colombian Peso, and Russian Ruble government and corporate bonds were the largest detractors.

### ***Emerging Markets High Yield Bonds***

Emerging markets high yield corporate bonds offer investors exposure to corporations, quasi-sovereign, and agency issuers from emerging market countries.

While bonds of Russian, Chinese, and Argentinian issuers were the greatest contributors to the Fund's total return, Colombian, Brazilian, and Mexican issuers were the greatest detractors. On a sector level, financial and government-related bonds were the greatest contributors to total return and the energy sector and industrials detracted the most from performance.

### ***International High Yield Bonds***

Non-U.S. high yield bonds have continued to provide an opportunity to diversify not only geographically, but also in terms of currency, with bonds denominated, for example, in Euros, Sterling, and Canadian dollars.

The financial sector provided the largest positive contribution to overall Fund performance, with the industrial sector detracting most from performance. Both Euro- and U.S. dollar-denominated bonds contributed positively to Fund total return, while Sterling- and Canadian dollar-denominated bonds detracted from Fund performance. Russian, German, and Chinese issuers provided the greatest contribution to performance, while Spanish, Colombian, and Brazilian issuers were the largest detractors.

## **CORPORATE BOND**

### ***Fallen Angel Bonds***

Fallen angels warrant distinction for an embedded value proposition that is not common to all of high yield: fallen angels tend to have a higher rate of ascension to investment grade than original-issue high yield bonds. The default rate in this segment has averaged 3.58% historically, below the 4.48% average for U.S. bonds originally issued as high yield bonds.<sup>6</sup>

Energy and basic industry were the two best performing sectors during the period under review, while the utility and telecommunications sectors were the largest detractors from the Fund's performance.

Southwestern Energy Company 4.1% 03/15/22 bond (1.4% of Fund net assets) and Teck Resources Limited 4.75% 01/15/22 bond (0.8% of Fund net assets) were the top two performing bonds, while Sprint Capital Corp. 8.75% 03/15/32 bond (0.9% of Fund net assets) and Sprint Capital Corp. 6.9% 05/1/19 bond (0.7% of Fund net assets) were the bottom two performing bonds.

### ***Investment Grade Floating Rate Notes***

Floating rate notes (FRNs) are investment grade-rated corporate debt issues with variable coupons that reset to current interest rates, based on a particular benchmark. The coupons on these securities fluctuate with that benchmark. The combination of low average years to maturity, typically in the 1-5 year range, and floating interest rates creates the potential for relatively low price fluctuations. In addition, as short-term interest rates rise, portfolio securities reset to higher yields.

The top two performing notes were Verizon Communications FRN 06/09/17, rated BBB+, (1.8% of Fund net assets) and Goldman Sachs FRN 09/15/20, rated A- (1.6% of Fund net assets). The bottom two performing notes were G.E. Capital FRN 05/05/26, rated AA-, (1.1% of Fund net assets) and ConocoPhillips FRN 05/15/22, rated A (0.5% of Fund net assets).<sup>7</sup>

### ***Treasury-Hedged High Yield Bonds***

The VanEck Vectors Treasury-Hedged High Yield Bond ETF tracks an index that combines the more liquid portion of the high yield universe with short positions in 5-year U.S. Treasury notes. The Fund uses futures on such notes to help hedge against the risk of rising interest rates. Together, the long high yield bond and short comparable U.S. Treasury portfolios offer a combination of income generation and protection against rising interest rates.

VANECK VECTORS INCOME ETFs

(unaudited)

The main drivers of returns in this strategy are interest rates and credit spreads. Rising interest rates and narrowing credit spreads positively contribute to performance, while declining interest rates and widening credit spreads detract from the Fund's returns. Credit spreads over Treasuries widened 165 basis points and the 5-year U.S. Treasury declined 18 basis points over the course of the 12-month period, negatively contributing to the Fund's performance.

The top performing bonds were Freeport-McMoRan 5.4% 11/14/34 (0.9% of Fund net assets)<sup>†</sup> and Neptune Finco 10.875% 10/15/25 (1.2% of Fund net assets)<sup>†</sup>. The bottom performing bonds were Chesapeake Energy Corporation 5.75% 03/15/23 (sold by Fund at the end of December 2015) and Linn Energy 8.625% 04/15/20 (0.1% of Fund net assets)<sup>†</sup>.

† All Fund assets referenced are Net Assets as of April 30, 2016, unless otherwise stated.

\* Dividend Yield is calculated by dividing the annual dividends per share of a security by the price of that security.

\*\*Current Yield is calculated by dividing the annual cash flow by the price of that security.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made.

<sup>1</sup> Investopedia: Little Known Stocks And ETFs To Buy As Interest Rates Rise, <http://www.investopedia.com/stock-analysis/040314/little-known-stocks-and-etfs-buy-interest-rates-rise-bizd-acas-htgc-hrzn.a>

VanEck Vectors BDC Income ETF seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS US Business Development Companies Index (MVBIZDTG), which includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940. As of April 30, 2016 the 30-day SEC yield

<sup>2</sup> VanEck Vectors BDC Income ETF was 9.44%. 30-Day SEC Yield is calculated as of the most recent month end, and is a standardized yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors BDC Income ETF would have been 9.03% as of April 30, 2016.

<sup>3</sup> VanEck Vectors Mortgage REIT Income ETF (MORT) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS Global Mortgage REITs Index (MVMORTTR) which is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive a

least 50% of their revenues from mortgage-related activity. As of April 30, 2016 the 30-day SEC yield for VanEck Vectors Mortgage REIT Income ETF was 11.85%. 30-Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors Mortgage REIT Income ETF would have been 11.57% as of April 30, 2016.

VanEck Vectors Preferred Securities ex Financials ETF (PFXF) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Wells Fargo<sup>®</sup> Hybrid and Preferred Securities ex Financials Index (WHPSL) which is a rules-based index designed to track the performance of convertible or exchangeable and non-convertible preferred securities, issued by U.S. or foreign issuers that are not financial services companies or banks and that are listed on U.S. national securities exchanges. As of April 30, 2016 the 30-day SEC yield for VanEck Vectors Preferred Securities ex Financials ETF was 5.90%.<sup>4</sup> Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors Preferred Securities ex Financials ETF would have been 5.75% as of April 30, 2016.

## BDC INCOME ETF

## PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV and at Share Price over the past 10 fiscal year periods or since inception (for funds lacking 10-year records). The result is compared with the Fund's benchmark.

**Hypothetical Growth of \$10,000 (Since Inception)**

Total Return	Share Price <sup>1</sup>	NAV	MVBIZDTG <sup>2</sup>
One Year	(2.98)%	(2.98)%	(3.09)%
Life* (annualized)	1.52 %	1.52 %	1.70 %
Life* (cumulative)	4.96 %	4.96 %	5.58 %

\* since 2/11/2013

**Commencement date for the VanEck Vectors BDC Income ETF was 2/11/13.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/11/13) to the first day of secondary market trading in shares of the Fund (2/12/13), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data**

**quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.**

Gross Expense Ratio 0.58% / Net Expense Ratio 0.41%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund’s average daily net assets per year until at least September 1, 2016. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

**Commencement date for the VanEck Vectors International High Yield Bond ETF was 4/2/12.**

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (4/2/12) to the first day of secondary market trading in shares of the Fund (4/3/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

**The performance data quoted represents past performance. Past performance is not a guarantee of future results.** Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

**Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data**

**quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.**

Gross Expense Ratio 0.61%/ Net Expense Ratio 0.40%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund’s average daily net assets per year until at least September 1, 2016. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

INVESTMENT GRADE FLOATING RATE ETF

PERFORMANCE COMPARISON

April 30, 2016 (unaudited)

VanEck Vectors Investment Grade Floating Rate ETF is not sponsored, issued or advised by Wells Fargo & Company, Wells Fargo Securities, LLC or their subsidiaries and affiliates (collectively, "Wells Fargo"). The MVIS US Investment Grade Floating Rate Index (MVFLTR) is the exclusive property of MV Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Wells Fargo to create and maintain and with Interactive Data Pricing and Reference Data, LLC to calculate the Index. Neither Wells Fargo nor Interactive Data Pricing and Reference Data, LLC guarantees the accuracy and/or completeness of the Index or of any data supplied by it or its agents or makes any warranty as to the results to be obtained from investing in the Fund or tracking the Index. The Index is calculated by Interactive Data Pricing and Reference, LLC, which is not an adviser for or fiduciary to the Fund, and, like Wells Fargo, is not responsible for any direct, indirect or consequential damages associated with indicative optimized portfolio values and/or indicative intraday values. The VanEck Vectors Investment Grade Floating Rate ETF is not sponsored, endorsed, sold or promoted by MV Index Solutions GmbH and MV Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

MVFLTR is comprised of U.S. dollar-denominated floating rate notes issued by corporate issuers or similar commercial entities that are public reporting companies in the U.S. and rated investment grade by at least one of three rating services: Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Rating Services ("S&P") or Fitch International Rating Agency ("Fitch"). Investment grade securities are those rated Baa3 or higher by Moody's or rated BBB- or higher by S&P or Fitch.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

**Hypothetical \$1,000 investment at beginning of period**

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, November 1, 2015 to April 30, 2016.

**Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period.”

**Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

<b>Beginning</b>	<b>Ending</b>	<b>Annualized</b>	<b>Expenses Paid</b>

Expenses are equal to the Fund's annualized expense ratio (for the six months ended April 30, 2016) multiplied by  
\* the average account value over the period, multiplied by the number of days in the most recent fiscal half year  
divided by the number of days in the fiscal year (to reflect the one-half year period).

\*\* Assumes annual return of 5% before expenses.

- (a) Coupon is based upon predetermined growth targets for the Gross Domestic Product of Ukraine. The rate shown reflects the rate in effect at the end of the reporting period.
- (c) Callable Security — the redemption date shown is when the security may be redeemed by the issuer
- (s) Step Bond — coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate in effect at the end of the reporting period
- ^ Zero Coupon Bond — the rate shown is the effective yield at purchase date
- † Security fully or partially on loan. Total market value of securities on loan is \$411,876.  
 Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.
- Reg S 144A Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$1,839,104, or 12.1% of net assets.

	100.0 %	\$244,635,349

The summary of inputs used to value the Fund's investments as of April 30, 2016 is as follows:

	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value
Corporate Bonds*	\$—	\$222,663,551	\$—	\$222,663,551
Government Obligations				
Argentina	—	7,362,674	—	7,362,674
Azerbaijan	—	2,036,698	—	2,036,698
Costa Rica	—	3,822,520	—	3,822,520
Hungary	—	1,390,742	—	1,390,742
India	—	607,604	—	607,604
Turkey	—	1,049,764	—	1,049,764
Ukraine	—	1,683,600	83,123	1,766,723
Money Market Fund	3,935,073	—	—	3,935,073
Repurchase Agreements	—	30,412,952	—	30,412,952
Total	\$3,935,073	\$271,030,105	\$83,123	\$275,048,301

\*See Schedule of Investments for security type and geographic sector breakouts.

There were no transfers between Level 1 and Level 2 during the year ended April 30, 2016.

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the year ended April 30, 2016:

	<b>Government Obligations Ukraine</b>
Balance as of April 30, 2015	\$ 0
Realized gain (loss)	—
Net change in unrealized appreciation (depreciation)	37,623
Purchases	—
Sales	—
Transfers in and/or out of level 3 ^	45,500
Balance as of April 30, 2016	\$ 83,123

^Transfer from Level 2 to Level 3 resulted from a lack of observable inputs to value the security.

	For the Year Ended April 30,			
	2016	2015	2014	2013
				For the Period March 21, 2013 (a) through April 30, 2013
Net asset value, beginning of period	\$24.38	\$25.63	\$25.34	\$25.00
Income from investment operations:				
Net investment income	1.08 (e)	1.09	0.89	0.06
Net realized and unrealized gain (loss) on investments	(1.90 )	(1.23 )	0.48	0.28
Total from investment operations	(0.82 )	(0.14 )	1.37	0.34
Less:				
Dividends from net investment income	(1.11 )	(1.11 )	(0.85 )	—
Distributions from net realized capital gains	—	—	(0.23 )	—
Total dividends and distributions	(1.11 )	(1.11 )	(1.08 )	—
Net asset value, end of period	\$22.45	\$24.38	\$25.63	\$25.34
Total return (b)	(3.33 )%	(0.56 )%	5.55 %	1.36 %(d)
Ratios/Supplemental Data				
Net assets, end of period (000's)	\$4,489	\$7,314	\$10,251	\$10,136
Ratio of gross expenses to average net assets	3.21 %	1.44 %	2.50 %	4.53 %(c)
Ratio of net expenses to average net assets	0.50 %	0.50 %	1.22 %	1.54 %(c)
Ratio of net expenses, excluding interest expense and interest on securities sold short, to average net assets	0.50 %	0.50 %	0.50 %	0.50 %(c)
Ratio of net investment income to average net assets	4.75 %	4.40 %	3.52 %	2.26 %(c)
Portfolio turnover rate	25 %	35 %	41 %	124 %(d)

## (a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a

(b) redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(c) Annualized

(d) Not Annualized

(e) Calculated bases on average shares outstanding

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

April 30, 2016

**Note 1—Fund Organization**—VanEck Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of April 30, 2016, offers fifty-seven investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: BDC Income ETF (“BDC Income”), ChinaAMC China Bond ETF (“ChinaAMC China Bond”), Emerging Markets Aggregate Bond ETF (“Emerging Markets Aggregate”), Emerging Markets High Yield Bond ETF (“Emerging Markets High Yield”), Fallen Angel High Yield Bond ETF (“Fallen Angel”), International High Yield Bond ETF (“International High Yield”), Investment Grade Floating Rate ETF (“Investment Grade”), J.P. Morgan EM Local Currency Bond ETF (“J.P. Morgan EM”) (formerly Emerging Markets Local Currency Bond ETF), Mortgage REIT Income ETF (“Mortgage REIT”), Preferred Securities ex Financials ETF (“Preferred Securities”) and Treasury-Hedged High Yield Bond ETF (“Treasury-Hedged”), each a “Fund” and collectively the “Funds”. Each Fund’s investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except BDC Income, Mortgage REIT and Preferred Securities) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the “Adviser”) uses quantitative analysis to select bonds and other securities that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) is the sub-adviser to ChinaAMC China Bond. ChinaAMC China Bond seeks to achieve its investment objective by primarily investing in bonds issued in the People’s Republic of China (“PRC”) via the Sub-Adviser. BDC Income, Mortgage REIT and Preferred Securities seek to achieve their investment objective through a portfolio of securities in substantially the same weighting as their index.

The Funds’ commencement of operations dates and their respective indices are presented below:

<b>Fund</b>	<b>Commencement of Operations</b>	<b>Index</b>
BDC Income	February 11, 2013	MVIS™ US Business Development Companies Index*

**Note 2—Significant Accounting Policies**—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification (“ASC”) 946 Financial Services—Investment Companies.

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

The following is a summary of significant accounting policies followed by the Funds.

**Security Valuation**—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

98

**Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund (except BDC Income and Mortgage REIT which are declared and paid quarterly). Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

**Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

**Repurchase Agreements**—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of April 30, 2016, are reflected in the Schedules of Investments.

**G. Use of Derivative Instruments**—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the

derivative instruments.

**Futures Contracts**—The Funds may purchase or sell futures contracts to gain exposure or to hedge against interest rate movement. Using futures contracts involves various market risks, including interest rate and equity risk as well as the risks that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the “initial margin”. Subsequent payments, known as “variation margin”, generally are made or received by the Fund each day depending on the fluctuations in the value of the underlying futures contracts, except that in the

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures. Treasury-Hedged held futures contracts for twelve months during the year ended April 30, 2016, of which the average notional amount was \$4,870,910. Futures contracts held by Treasury-Hedged at April 30, 2016 are reflected in the Schedule of Investments.

At April 30, 2016, Treasury-Hedged held the following derivative instruments:

**Liability Derivatives**  
**Interest Rate Risk**

Futures contracts<sup>1</sup> \$1,969

<sup>1</sup>Statements of Assets and Liabilities location: Variation margin on futures contracts

For Treasury-Hedged, the impact of transactions in derivative instruments during the year ended April 30, 2016, was as follows:

	<b>Interest Rate Risk</b>
Net change in unrealized appreciation (depreciation):	
Futures contracts <sup>2</sup>	\$46,981
Realized gain (loss)	
Futures contracts <sup>3</sup>	(126,086)

<sup>2</sup>Statements of Operations location: Net change in unrealized appreciation (depreciation) on futures contracts

<sup>3</sup>Statements of Operations location: Net realized gain (loss) on futures contracts

**H. Offsetting Assets and Liabilities**—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at April 30, 2016 is presented in the Schedules of Investments. Refer to related disclosure in Note 2F (Repurchase Agreements) and Note 9 (Securities Lending).

The table below presents both gross and net information about the derivative instruments subject to master netting or other similar agreements that are eligible for offset in the Statements of Assets and Liabilities, as well as financial collateral received or pledged (including cash collateral and margin) as of April 30, 2016. Collateral is disclosed up to 100% of the net amount of unrealized gain/loss or market value of the respective financial instruments. In general, collateral received or pledged exceeds the net amount of the unrealized gain/loss or market value of financial instruments. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of April 30, 2016.

<b>Fund</b>	<b>Description</b>	<b>Gross Amounts of Recognized Liabilities</b>	<b>Gross Amounts Offset in the Statements of Assets and Liabilities</b>	<b>Net Amounts of Liabilities Presented in the Statements of Assets and Liabilities</b>	<b>Financial Instruments and Cash Collateral Pledged*</b>	<b>Net Amount</b>
Treasury-Hedged	Futures Contracts	\$1,969	\$—	\$1,969	\$(1,969)	\$—

\*Gross amounts not offset in the Statements of Assets and Liabilities

**Other**—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

The Funds record distributions received in excess of income from underlying investments as a reduction of cost of

investments and/or an increase in realized gains. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gains and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements**—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Adviser has agreed, at least until September 1, 2016, to voluntarily waive or limit its fees and to assume as its own certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses do not exceed the expense limitations (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current expense limitations, management fee rates and the amounts waived/assumed by the Adviser for the year ended April 30, 2016, are as follows:

<b>Fund</b>	Expense Limitations	Management Fee Rates	Waiver of Management Fees	Expenses Assumed by the Adviser
BDC Income	0.40 %	0.40 %	\$ 139,919	\$—
ChinaAMC China Bond	0.50	0.40	88,641	47,916
Emerging Markets Aggregate	0.49	0.35	55,102	58,037
Emerging Markets High Yield	0.40	0.40	320,748	—
Fallen Angel	0.40	0.40	152,030	—
International High Yield	0.40	0.40	293,305	—
Investment Grade	0.14	0.35	291,108	—
J.P. Morgan EM	0.47	0.35	437,453	—
Mortgage REIT	0.40	0.40	159,428	—
Preferred Securities	0.40	0.40	234,655	—
Treasury-Hedged	0.50	0.45	22,094	110,907

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' distributor (the "Distributor"). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

**Note 4—Investments**—For the year ended April 30, 2016, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
BDC Income	\$ 19,182,770	\$ 17,851,209
ChinaAMC China Bond	11,649,316	18,116,824

Qualified late-year losses are comprised of post-October capital losses incurred after October 31, 2015, and certain late-year ordinary losses. Late-year ordinary losses represent ordinary losses incurred after December 31, 2015 and \*specified losses incurred after October 31, 2015. These losses are deemed to arise on the first day of the Funds' next taxable year. For the year ended April 30, 2016, the Funds intend to defer to May 1, 2016 for federal tax purposes qualified late-year losses as follows:

Fund	Late-Year Ordinary Losses
ChinaAMC China Bond	\$450,174
Emerging Markets Aggregate	69,896
J.P. Morgan EM	45,604,129

The tax character of dividends paid to shareholders during the years ended April 30, 2016 and April 30, 2015 was as follows:

Fund	Ordinary Income		Long-Term Capital Gains		Return of Capital	
	April 30, 2016	April 30, 2015	April 30, 2016	April 30, 2015	April 30, 2016	April 30, 2015

Preferred Securities	6,881,312	11,751,772
Treasury-Hedged	149,259	213,931

During the year ended April 30, 2016, ChinaAMC China Bond utilized \$3,938 of accumulated capital loss carryforwards.

During the year ended April 30, 2016, as a result of permanent book to tax differences, primarily due to the tax treatment of foreign currency gains and losses, reclassification of income from REIT securities, bond bifurcation adjustments, in-kind share transactions and deemed distributions on shareholder redemptions, the Funds incurred differences that affected undistributed (accumulated) net investment income (loss), accumulated net realized gain (loss) on investments and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Accumulated Net Investment Income/Loss	Increase (Decrease) in Accumulated Realized Gain/Loss	Increase (Decrease) in Aggregate Paid in Capital
BDC Income	\$(358,752 )	\$220,156	\$138,596
ChinaAMC China Bond	(717,099 )	717,099	—
Emerging Markets Aggregate	(449,945 )	550,947	(101,002 )
Emerging Markets High Yield	108,274	7,840,767	(7,949,041 )
Fallen Angel	—	(23,527 )	23,527

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

International High Yield	(1,598,430 )	4,174,928	(2,576,498 )
Investment Grade	—	41,969	(41,969 )
J.P. Morgan EM	(98,772,324)	128,951,924	(30,179,600)
Mortgage REIT	(1,057,537 )	1,430,177	(372,640 )
Preferred Securities	(1,204,062 )	1,253,793	(49,731 )
Treasury-Hedged	—	39,678	(39,678 )

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended April 30, 2016, the Funds did not incur any interest or penalties.

There are still some uncertainties in the Chinese tax rules governing taxation of income and gains from investments in the PRC due to the lack of formal guidance from the PRC’s tax authorities that could result in unexpected tax liabilities for the ChinaAMC China Bond. China generally imposes withholding income tax (“WHT”) at a rate of 10% (which may be reduced by the double taxation agreement/arrangement) on dividends and interest derived by nonresidents, including Qualified Foreign Institutional Investors (“QFII”) and Renminbi Qualified Foreign Institutional Investors (“RQFIIs”), from issuers resident in China. Under the PRC Corporate Income Tax regime, China also imposes WHT at a rate of 10% (subject to treaty relief) on PRC-sourced capital gains derived by nonresident enterprises, provided that the nonresident enterprises (i) do not have places of business, establishments or permanent establishments in the PRC; and (ii) are not PRC tax resident enterprises. ChinaAMC China Bond currently considers capital gains derived from Chinese bonds to be non PRC-sourced and not subject to WHT.

## VANECK VECTORS ETF TRUST

## NOTES TO FINANCIAL STATEMENTS

(continued)

PRC rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Fund and their shareholders.

If the PRC tax authorities were to issue differing formal guidance or tax rules regarding the taxation of capital gains from Chinese Bonds to RQFIIs, such as the Sub-Adviser, and/or begin collecting WHT on gains from such investments, ChinaAMC China Bond could be subject to WHT liability. The impact of any such tax liability on the Fund's return could be substantial. The Fund may also be liable to the Sub-Adviser for any tax that is imposed on the Sub-Adviser by the PRC with respect to the Fund's investments.

**Note 6—Capital Share Transactions**—As of April 30, 2016, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, or multiples thereof, as follows:

<b>Fund</b>	<b>Creation Units</b>
BDC Income	50,000
ChinaAMC China Bond	100,000
Emerging Markets Aggregate	50,000
Emerging Markets High Yield	200,000
Fallen Angel	50,000
International High Yield	200,000
Investment Grade	100,000
J.P. Morgan EM	200,000
Mortgage REIT	50,000
Preferred Securities	50,000
Treasury-Hedged	100,000

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the year ended April 30, 2016, the Funds had in-kind contributions and redemptions as follows:

<b>Fund</b>	<b>In-Kind Contributions</b>	<b>In-Kind Redemptions</b>
BDC Income	\$26,470,431	\$6,979,398

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

ChinaAMC China Bond	—	—
Emerging Markets Aggregate	—	1,890,601
Emerging Markets High Yield	37,854,606	144,361,724
Fallen Angel	3,546,529	—
International High Yield	18,294,036	35,711,041
Investment Grade	—	19,889,810
J.P. Morgan EM	333,717,356	192,234,228
Mortgage REIT	26,036,165	16,723,210
Preferred Securities	76,523,391	42,720,859
Treasury-Hedged	45,417	2,253,561

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund’s daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

**Note 7—Concentration and Other Risks**—Each Fund is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. Investments in the Funds involve risks similar to those of investing in any bond fund, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

The Funds (except ChinaAMC China Bond, Investment Grade, Mortgage REIT and Preferred Securities) may directly or indirectly invest in non-investment grade securities, often referred to as “junk bonds.” Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may

involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. These Funds may not be able to sell bonds at desired prices and large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

BDC Income invests in business development companies which generally invest in less mature private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies.

ChinaAMC China Bond, Emerging Markets Aggregate, Emerging Markets High Yield, Fallen Angel, International High Yield, Investment Grade and J.P. Morgan EM invest in foreign securities. Investments in foreign securities may involve a greater degree of risk than investments in domestic securities due to political, economic or social instability. Foreign investments may also be subject to foreign taxes and settlement delays. Since the Funds may have significant investments in foreign debt securities, they may be subject to greater credit and interest risks and greater currency fluctuations than portfolios with significant investments in domestic debt securities.

Mortgage REIT invests directly in mortgage real estate investment trusts (“mortgage REITs”) and is exposed to the risks specific to the real estate market as well as the risks that relate specifically to the way in which mortgage REITs are organized and operated. Mortgage REITs receive principal and interest payments from the owners of the mortgaged properties. Accordingly, mortgage REITs are subject to the credit risk of the borrowers to whom they extend credit. To the extent that a mortgage REIT invests in mortgage-backed securities, it may be subject to default risk or interest rate risk.

Mortgage REIT may invest in mortgage REITs that may trade at a discount or premium to their net asset value.

Preferred Securities invests in preferred securities which are essentially contractual obligations that declare distributions but permit the issuer to defer or suspend distributions. This may require the Fund to account for the distribution that has been deferred or suspended for tax purposes, even though it may not have received this income. Preferred securities are also subject to credit risk. Credit risk refers to the possibility that the issuer of a security will be unable and/or unwilling to make timely distributions of dividends. In addition, preferred securities are subject to interest rate risk. Preferred securities interest rates may move in an inverse direction to that of general interest rates.

Preferred Securities may invest directly in real estate investment trusts (“REITs”) and is exposed to the risk of owning real estate directly, as well as to risks that relate specifically to the way in which REITs are organized and operated.

REITs generally invest directly in real estate, in mortgages or in some combination of the two. The Fund indirectly bears management expenses along with the direct expenses of the Fund. Individual REITs may own a limited number of properties and may concentrate in a particular region or property type. REITs may also be subject to heavy cash flow dependency, default by borrowers and self-liquidation.

Treasury-Hedged invests directly in futures contracts and may invest in securities sold short which are designed to hedge against the price sensitivity of below investment grade corporate bonds. A risk of hedging is the imperfect correlation between price movement of the securities sold short and the price movement of the Fund's investments.

Certain Funds may invest directly in the Russian local market. As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact any of the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held, if any, by the Funds.

Should the Chinese government impose restrictions on the ability of ChinaAMC China Bond to repatriate funds associated with direct investment in bonds issued in the PRC, the Fund may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and the Fund may therefore be subject to Fund-level U.S. federal taxes.

At April 30, 2016, the Adviser owned approximately 57% of Emerging Markets Aggregate.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(continued)

**Note 8—Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

For each Fund, the expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

**Note 9—Securities Lending**—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and collateral interest earned are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders’, administrative and custodial fees in connection with a loan of its securities. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds’ behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at April 30, 2016, are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Effective May 1, 2015, the Funds adopted new accounting guidance under Accounting Standards Update No. 2014-11, Transfers and Servicing (Topic 860) *Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosure* which requires expanded disclosures related to financial assets pledged in secured financing transactions, such as securities lending, and the related contractual maturity terms of these secured transactions. Accordingly, the following table presents repurchase agreements held as collateral by type of security on loan pledged as of April 30, 2016:

Fund	Foreign			Gross Amount of Recognized Liabilities for Securities Loaned in the Statements of Assets and Liabilities*
	Corporate Bonds	Equity Securities	Government Obligations	
BDC Income	\$—	\$19,895,702	\$—	\$19,895,702
Emerging Markets Aggregate	423,713	—	—	423,713
Emerging Markets High Yield	30,412,952	—	—	30,412,952
Fallen Angel	14,343,680	—	—	14,343,680
International High Yield	8,363,471	—	—	8,363,471
Investment Grade	1,044,346	—	—	1,044,346
J.P. Morgan EM	—	—	2,929,014	2,929,014
Mortgage REIT	—	7,964,425	—	7,964,425
Preferred Securities	—	12,267,492	—	12,267,492
Treasury-Hedged	255,411	—	—	255,411

\*Remaining contractual maturity of the agreements: overnight and continuous

**Note 10—Bank Line of Credit**—The Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended April 30, 2016, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of April 30, 2016
BDC Income	281	\$429,299	1.61 %	\$211,362
Emerging Markets High Yield	3	1,264,317	1.54	—
Fallen Angel	4	1,542,498	1.53	—
Investment Grade	1	1,173,085	1.55	—
J.P. Morgan EM	78	2,742,883	1.66	—
Mortgage REIT	306	1,005,837	1.61	201,998
Preferred Securities	234	1,299,877	1.58	—

**Note 11—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the year ended April 30, 2016, there were no offsets to custodian fees.

**Note 12—Subsequent Events**—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

Effective May 1, 2016, Van Eck Global and all of its businesses and investment offerings operate under the single global brand VanEck. Accordingly, the Registrant and each Fund are renamed as follows:

Effective June 20, 2016, the expense limitation for Fallen Angel was reduced from 0.40% to 0.35% of the Fund's average daily net assets per year until at least September 1, 2017.

VANECK VECTORS ETF TRUST

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Trustees and Shareholders of VanEck Vectors ETF Trust

We have audited the accompanying statements of assets and liabilities, including the schedules of investments of BDC Income ETF, ChinaAMC China Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Fallen Angel High Yield Bond ETF, International High Yield Bond ETF, Investment Grade Floating Rate ETF, J.P. Morgan EM Local Currency Bond ETF, Mortgage REIT Income ETF, Preferred Securities ex Financials ETF and Treasury-Hedged High Yield Bond ETF (eleven of the series constituting VanEck Vectors ETF Trust) (the “Funds”) as of April 30, 2016, and the related statements of operations, the statements of changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds’ internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of April 30, 2016, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of BDC Income ETF, ChinaAMC China Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets High Yield Bond ETF, Fallen Angel High Yield Bond ETF, International High Yield Bond ETF, Investment Grade Floating Rate ETF, J.P. Morgan EM Local Currency Bond ETF, Mortgage REIT Income ETF, Preferred Securities ex Financials ETF and Treasury-Hedged High Yield Bond ETF (eleven of the series constituting VanEck Vectors ETF Trust) at April 30, 2016, the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

New York, New York

## TAX INFORMATION

(unaudited)

The information set forth below is for each Fund's fiscal year as required by federal laws. Shareholders, however, must report dividends on a calendar year basis for income tax purposes, which may include dividends for portions of two fiscal years of a Fund.

Accordingly, the information needed by shareholders for calendar year 2016 income tax purposes will be sent to them in early 2017. Please consult your tax advisor for proper treatment of this information.

The Funds listed below intend to pass through foreign tax credits in the maximum amounts as shown. The gross foreign source income earned during the fiscal year ended April 30, 2016 by the Funds is as shown below.

Fund	Foreign Tax Credits	Gross Foreign Source Income
ChinaAMC China Bond	\$82,166	\$1,009,243
J.P. Morgan EM	1,587,828	77,538,712

**Corporate Dividends Received Deduction**

The Funds listed below had the following percentage of ordinary income dividends paid that qualified for the Corporate Dividends Received Deduction for the fiscal year ended April 30, 2016.

BDC Income	2.03 %
Preferred Securities	16.59 %

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

April 30, 2016 (unaudited)

At a meeting held on June 9, 2015 (the “Meeting”), the Board of Trustees (the “Board”) of VanEck Vectors ETF Trust (formerly Market Vectors ETF Trust) (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), considered and approved an investment management agreement between the Trust and Van Eck Absolute Return Advisers Corporation (the “Adviser”) (the “Investment Management Agreement”) with respect to the VanEck Vectors Dynamic Put Write ETF (formerly Market Vectors Dynamic Put Write ETF) and VanEck Vectors Long/Flat Commodity ETF (formerly Market Vectors Low Volatility Commodity ETF) (each, a “Fund” and together, the “Funds”).

The Board’s approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser and/or Van Eck Associates Corporation (collectively, “Van Eck”), including expense information for other funds. Van Eck provided the Trustees with information regarding, among other things, the various aspects of each Fund’s proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees’ consideration of the Investment Management Agreement was based, in part, on information obtained through discussions with Van Eck at the Meeting regarding the management of the Funds, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by Van Eck, including the background and experience of the portfolio managers and others proposed to be involved in the management and administration of the Funds. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser’s commitment to waive certain fees and/or pay expenses of each Fund to the extent necessary to prevent the operating expenses of each Fund from exceeding agreed upon limits for a period of at least one year following the effective date of the Fund’s respective registration statement.

The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to each Fund, including any benefits it may receive from serving as administrator to each Fund and from an affiliate of the Adviser serving as distributor to each Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of each of the Funds to the Adviser because the Funds had not yet commenced operations. In addition, because the Funds had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to each of the Funds by the Adviser, although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees’ knowledge of Van Eck and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

At a meeting held on February 29, 2016 (the “Meeting”), the Board of Trustees (the “Board”) of VanEck Vectors ETF Trust (formerly Market Vectors ETF Trust) (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), considered and approved an investment management agreement between the Trust and Van Eck Associates Corporation (the “Adviser”) (the “Investment Management Agreement”) with respect to the VanEck Vectors EM Investment Grade + BB Rated USD Sovereign Bond ETF (formerly Market Vectors EM Investment Grade + BB Rated USD Sovereign Bond ETF) (the “Fund”).

The Board’s approval of the Investment Management Agreement was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In advance of the Meeting, the Trustees received materials from the Adviser, including expense information for other funds. The Adviser provided the Trustees with information regarding, among other things, the various aspects of the Fund’s proposed investment program, fee arrangements and service provider arrangements. The Independent Trustees’ consideration of the Investment Management Agreement was based, in part, on information obtained through discussions with the Adviser at the Meeting regarding the management of the Fund, information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser, including the background and experience of the portfolio managers and others proposed to be involved in the management and administration of the Fund. The Trustees also considered the terms and scope of services that the Adviser would provide under the Investment Management Agreement, including the Adviser’s commitment to waive certain fees and/or pay expenses of the Fund to the extent necessary to prevent the operating expenses of the Fund from exceeding agreed upon limits for a period of at least one year following the effective date of the Fund’s registration statement.

The Trustees considered the benefits, other than the fees under the Investment Management Agreement, that the Adviser would receive from serving as adviser to the Fund. The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability of the Fund to the Adviser because the Fund had not yet commenced operations. In addition, because the Fund had not yet commenced operations, the Trustees could not consider the historical performance or the quality of services previously provided to the Fund by the Adviser, although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees’ knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Meeting as part of their consideration of the Investment Management Agreement.

In voting to approve the Investment Management Agreement, the Trustees, including the Independent Trustees, concluded that the terms of the Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that the Investment Management Agreement is in the best interest of the Fund and the Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting [vaneck.com](http://vaneck.com), or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting [vaneck.com](http://vaneck.com).

## Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

### Item 2. CODE OF ETHICS.

- (a) The Registrant has adopted a code of ethics (the "Code of Ethics") that applies to the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.
- (b) Not applicable.
- (c) The Registrant has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (e) Not applicable.
- (f) The Registrant's Code of Ethics is attached as an Exhibit hereto.

### Item 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that David Chow, R. Alastair Short and Richard Stamberger, members of the Audit and Governance Committees, are "audit committee financial experts" and "independent" as such terms are defined in the instructions to Form N-CSR Item 3(a)(2).

### Item 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The principal accountant fees disclosed in Item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the Funds of the Registrant for which the fiscal year end is April 30.

- (a) Audit Fees. The aggregate Audit Fees of Ernst & Young for professional services billed for the audits of the financial statements, or services that are normally provided in connection with statutory and regulatory filings or engagements for the fiscal years ended April 30, 2016 and April 30, 2015, were \$464,920 and \$452,020, respectively.
- (b) Audit-Related Fees. Not applicable.
- (c) Tax Fees. The aggregate Tax Fees of Ernst & Young for professional services billed for the review of Federal, state and excise tax returns and other tax compliance consultations for the fiscal years ended April 30, 2016 and April 30, 2015, were \$285,415 and \$294,220, respectively.
- (d) All Other Fees  
  
None.
- (e) The Audit Committee will pre-approve all audit and non-audit services, to be provided to the Funds, by the independent accountants as required by Section 10A of the Securities Exchange Act of 1934. The Audit Committee has authorized the Chairman of the Audit Committee to approve, between meeting dates, appropriate non-audit services.

The Audit Committee after considering all factors, including a review of independence issues, will recommend to the Board of Trustees the

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSR

independent auditors to be selected to audit the financial statements of the Funds.

(f) Not applicable. (g) Not applicable. (h) Not applicable. Item 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. The Registrant's Board has an Audit Committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)) consisting of four Independent Trustees. Messrs. Chow, Short, Sidebottom and Stamberger currently serve as members of the Audit Committee. Mr. Short is the Chairman of the Audit Committee. Item 6. SCHEDULE OF INVESTMENTS. Information included in Item 1. Item 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 8. PORTFOLIO MANAGER OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. Not applicable. Item 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. Not applicable. Item 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. None. Item 11. CONTROLS AND PROCEDURES. (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3 (c)) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15 (b)). (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting. Item 12. EXHIBITS. (a)(1) The code of ethics is attached as EX-99.CODE ETH (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached as Exhibit 99.CERT. (b) Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is furnished as Exhibit 99.906CERT.

SIGNATURES Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
