HIMAX REPORTS SECOND QUARTER 2006 RESULTS

Tainan, Taiwan, August 10, 2006 - Himax Technologies, Inc. (Himax or Company) (Nasdaq: HIMX) today reported financial results for the second quarter ended June 30, 2006.

Net revenue for the second quarter of 2006 was \$171.7 million, a 53.8% increase as compared to \$111.6 million for the second quarter of 2005, and a 1.8% decrease as compared to \$174.9 million in the first quarter of 2006. Net income for the second quarter of 2006 was \$19.5 million, or \$0.10 per diluted share, representing a 49.4% increase compared to net income of \$13.1 million, or \$0.07 per diluted share in the second quarter of 2005, and an 11.0% decrease compared to \$21.9 million, or \$0.12 per diluted share in the first quarter of 2006. Share-based compensation was \$1.1 million, \$1.5 million and \$1.1 million in the second quarter of 2006, the second quarter of 2005 and the first quarter of 2006, respectively.

Gross margin in the second quarter of 2006 was 19.2%, as compared to 22.8% in the second quarter of 2005, and 21.5% in the first quarter of 2006. Operating margin was 11.0% in the second quarter of 2006, as compared to 12.8% in the second quarter of 2005, and 13.5% in the first quarter of 2006.

Excluding share-based compensation, gross margin was 19.2% in the second quarter of 2006, 22.8% in the second quarter of 2005, and 21.5% in the first quarter of 2006, with an operating margin of 11.6%, 14.1%, and 14.1%, respectively.

A reconciliation of our gross margin and operating margin excluding share-based compensation, a non-GAAP financial measure, to GAAP gross margin and GAAP operating margin, our most comparable GAAP figure, is set out in the attached reconciliation schedule.

Jordan Wu, President and Chief Executive Officer of Himax, commented, "The second quarter was a challenging one for panel and component manufacturers alike. We achieved revenues in line with prior guidance notwithstanding the negative business environment. Notably, while our revenue from related parties declined in the quarter due to short-term inventory adjustments, our revenue from non-affiliate parties increased. Overall, we think our more diversified customer mix puts us in a stronger position now than before."

Max Chan, Chief Financial Officer of Himax, said, "Our operating income for the second quarter increased 32.4% to \$18.9 million from \$14.3 million for the same period a year ago and decreased 20.0% compared to \$23.6 million in the first quarter 2006. This primarily reflects the above average price pressure facing the industry. Due to the difficult market conditions in the second quarter, our blended gross margin came in at the low-end of our historical range."

Looking forward, Mr. Wu added, "We expect the business environment in the third quarter of 2006 will be slightly better than the second quarter of 2006. Overall, we expect net revenue in the third quarter of 2006 to grow in the range of mid to high single digit rate as compared to the second

quarter of 2006. Our Non-GAAP diluted EPS, excluding share-based compensation is expected to be at a similar level as that of the second quarter. We expect diluted GAAP EPS to be in the range of \$0.03 to \$0.04. This includes a charge of share-based compensation of approximately \$12 to \$14 million, or \$0.06 to \$0.07 per diluted share. The expected increase in share-based compensation is due to new grants of restricted share units, which is expected to occur at the end of September 2006.

A reconciliation of our diluted EPS excluding share-based compensation, a non-GAAP financial measure, to diluted GAAP EPS, our most comparable GAAP figure, is set out in the attached reconciliation schedule.
