EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended March 31, 2011 of Kilroy Realty Corporation and Kilroy Realty, L.P. Unless stated otherwise or the context otherwise requires, references to Kilroy Realty Corporation or the Company mean Kilroy Realty Corporation, a Maryland corporation, and its controlled and consolidated subsidiaries, and references to Kilroy Realty, L.P. or the Operating Partnership mean Kilroy Realty, L.P., a Delaware limited partnership, and its controlled and consolidated subsidiaries. The terms the Company, we, our, and us refer to the Company or the Company and the Operating Partnership together, as the text requires.

The Company is a real estate investment trust, or REIT, and the general partner of the Operating Partnership. As of March 31, 2011, the Company owned an approximate 96.8% common general partnership interest in the Operating Partnership. The remaining approximate 3.2% common limited partnership interests are owned by non-affiliated investors and certain directors and officers of the Company. As the sole general partner of the Operating Partnership, the Company exercises exclusive and complete discretion over the Operating Partnership's day-to-day management and control and can cause it to enter into certain major transactions including acquisitions, dispositions, and refinancings and cause changes in its line of business, capital structure, and distribution policies.

There are a few differences between the Company and the Operating Partnership which are reflected in the disclosures in this Form 10-Q. We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. The Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership. As a result, the Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing certain debt of the Operating Partnership. The Company itself is not directly obligated under any indebtedness, but guarantees some of the debt of the Operating Partnership. The Operating Partnership owns substantially all the assets of the Company either directly or through its subsidiaries, conducts the operations of the Company's business and is structured as a limited partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Company, which the Company is required to contribute to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required by the Company's business through the Operating Partnership's operations, by the Operating Partnership's incurrence of indebtedness or through the issuance of partnership units.

Noncontrolling interests and stockholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The common limited partnership interests in the Operating Partnership are accounted for as partners' capital in the Operating Partnership's financial statements and as noncontrolling interests in the Company's financial statements. The Operating Partnership's financial statements reflect the noncontrolling interest in Kilroy Realty Finance Partnership, L.P. This noncontrolling interest represents the Company's 1% indirect general partnership interest in Kilroy Realty Finance Partnership, L.P., which is directly held by Kilroy Realty Finance, Inc., a wholly-owned subsidiary of the Company. The differences between stockholders' equity, partners' capital and noncontrolling interests result from the differences in the equity issued at the Company and the Operating Partnership levels and in the Company's noncontrolling interest in Kilroy Realty Finance Partnership, L.P.

We believe combining the quarterly reports on Form 10-Q of the Company and the Operating Partnership into this single report results in the following benefits:

Combined reports better reflect how management and the analyst community view the business as a single operating unit;

Edgar Filing: KILROY REALTY CORP - Form 10-Q

Combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;

Combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and

Table of Contents

Combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

consolidated financial statements;

the following notes to the consolidated financial statements:

Secured and Unsecured Debt of the Operating Partnership;

Noncontrolling Interests on the Company's Consolidated Financial Statements;

Partners' Capital of the Operating Partnership;

Net Income Available to Common Stockholders per Share of the Company; and

Net Income Available to Common Unitholders per Unit of the Operating Partnership.

This report also includes separate sections under Item 4. Controls and Procedures and separate Exhibit 31 and Exhibit 32 certifications for each of the Company and the Operating Partnership to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the Exchange Act), and 18 U.S.C. § 1350.

Kilroy Realty Corporation (the *Company*) is a self-administered real estate investment trust (*REIT*) active in premier office and industrial submarkets along the West Coast. We own, develop, acquire and manage primarily Class A real estate assets in the coastal regions of Los Angeles, Orange County, San Diego, greater Seattle and the San Francisco Bay Area, which we believe have strategic advantages and strong barriers to entry. We qualify as a REIT under the Internal Revenue Code of 1986, as amended (the *Code*). The *Company*'s common stock is publicly traded on the New York Stock Exchange (*NYSE*) under the ticker symbol *KRC*.

We own our interests in all of our real estate assets through Kilroy Realty, L.P. (the *Operating Partnership*) and Kilroy Realty Finance Partnership, L.P. (the *Finance Partnership*). We conduct substantially all of our operations through the *Operating Partnership*. Unless the context indicates otherwise, the term *Company* refers to Kilroy Realty Corporation and its consolidated subsidiaries and the term *Operating Partnership* refers to Kilroy Realty, L.P. and its consolidated subsidiaries. The terms *we*, *our*, and *us* refer to the *Company* or the *Company* and the *Operating Partnership* together, as the text requires. The descriptions of our business, employees, and properties apply to both the *Company* and the *Operating Partnership*.

The following table of office buildings (the *Office Properties*) and industrial buildings (the *Industrial Properties*) summarizes our stabilized portfolio of operating properties as of March 31, 2011. As of March 31, 2011, all of our properties and all of our business is currently conducted in the state of California with the exception of the operation of one office property located in the state of Washington.

	Number of Buildings	Rentable Square Feet	Number of Tenants	Percentage Occupied
Office Properties	101	10,485,950	374	89.0%
Industrial Properties	40	3,605,407	59	95.9%
Total Stabilized Portfolio	141	14,091,357	433	90.8%

Our stabilized portfolio excludes undeveloped land, development and redevelopment properties currently under construction, lease-up properties, and one industrial property that we are in the process of repositioning for residential use. We define lease-up properties as properties we recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. As of March 31, 2011, we had no properties that were in the lease-up phase. We are currently redeveloping one of our office properties that was previously occupied by a single tenant for over 25 years and expect to complete the redevelopment in the third quarter

of 2011. This redevelopment property encompasses approximately 300,000 rentable square feet of office space and is located in the El Segundo submarket of Los Angeles county. As of March 31, 2011, we also had one industrial property that we are currently in the process of repositioning for residential use and we are currently evaluating strategic opportunities for this property.

As of March 31, 2011, the Company owned a 96.8% general partnership interest in the Operating Partnership. The remaining 3.2% common limited partnership interest in the Operating Partnership as of March 31, 2011 was owned by non-affiliated investors and certain of our directors and officers (see Note 6). Both the general and limited common partnership interests in the Operating Partnership are denominated in common units. The number of common units held by the Company is at all times equivalent to the number of outstanding shares of the Company's common stock, and the entitlements of all the common units to quarterly distributions and payments in liquidation mirror those of the the Company's common stockholders. The common limited partners have certain redemption rights as provided in the Operating Partnership's Fifth Amended and Restated Agreement of Limited Partnership (as amended, the Partnership Agreement) (see Note 6).

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Kilroy Realty Finance, Inc., our wholly-owned subsidiary, is the sole general partner of the Finance Partnership and owns a 1.0% general partnership interest. The Operating Partnership owns the remaining 99.0% limited partnership interest. Kilroy Services, LLC (KSLLC), which is a wholly-owned subsidiary of the Operating Partnership, is the entity through which we conduct substantially all of our development activities. With the exception of the Operating Partnership, all of our subsidiaries, which include Kilroy Realty TRS, Inc., Kilroy Realty Management, L.P., Kilroy RB, LLC, Kilroy RB II, LLC, Kilroy Northside Drive, LLC, and Kilroy Realty 303, LLC, are wholly-owned.

Basis of Presentation

The consolidated financial statements of the Company include the consolidated financial position and results of operations of the Company, the Operating Partnership, the Finance Partnership, KSLLC, and all of our wholly-owned subsidiaries. The consolidated financial statements of the Operating Partnership include the consolidated financial position and results of operations of the Operating Partnership, the Finance Partnership, KSLLC, and all wholly-owned subsidiaries of the Operating Partnership. All intercompany balances and transactions have been eliminated in the consolidated financial statements.

The consolidated financial statements of the Company and the Operating Partnership also include variable interest entities (VIE) in which we are deemed to be the primary beneficiary. As of March 31, 2011 we had one bankruptcy-remote VIE, Kilroy Realty Northside Drive, LLC, which was formed in 2010 to hold three properties that secure the debt we assumed when we acquired the properties in 2010. The assets held by this entity are not available to satisfy the debts and other obligations of the Company or the Operating Partnership.

The accompanying interim financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conjunction with the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, the interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying interim financial statements reflect all adjustments of a normal and recurring nature that are considered necessary for a fair presentation of the results for the interim periods presented. However, the results of operations for the interim periods are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. The interim financial statements for the Company and the Operating Partnership should be read in conjunction with the audited consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2010.

Change in Reportable Segments

Our chief operating decision-makers internally evaluate the operating performance and financial results of our portfolio based on Net Operating Income for the following two segments of commercial real estate property: Office Properties and Industrial Properties. We define Net Operating Income as operating revenues (rental income, tenant reimbursements, and other property income) less operating expenses (property expenses, real estate taxes, provision for bad debts, and ground leases).

During the three months ended March 31, 2011, the amount of revenues and Net Operating Income generated by our Industrial Properties, in relation to our total consolidated operating portfolio revenues and Net Operating Income, had fallen below the required 10% quantitative reporting thresholds for the Industrial Properties to be considered a

reportable segment under GAAP. Therefore, for the three months ended March 31, 2011, our only reportable segment is our Office Properties segment. See Note 10 for a reconciliation of our Office Properties segment to our consolidated revenues, Net Operating Income, and net income.

5. Secured and Unsecured Debt of the Operating Partnership*Secured Debt*

In January 2011, the Company borrowed \$135.0 million under a mortgage loan that is scheduled to mature on February 1, 2018. The mortgage loan is secured by our 303 Second Street property in San Francisco, bears interest at an annual rate of 4.27%, and requires interest-only payments for the first two years with a 30-year amortization schedule thereafter. Although the new mortgage loan is secured and non-recourse to the Company, the Company provides limited customary secured debt guarantees for items such as voluntary bankruptcy, fraud, misapplication of payments, and environmental liabilities. The Company used a portion of the proceeds to repay borrowings under the Operating Partnership's unsecured line of credit (the Credit Facility).

(4) The exchange rate, exchange price, and the number of shares to be delivered upon conversion are subject to adjustment under certain circumstances including increases in our common dividends.

Capped Call Transactions

In connection with the offerings of the Exchangeable Notes, we entered into capped call option transactions (capped calls) to mitigate the dilutive impact of the potential exchange of the Exchangeable Notes. The following table summarizes our capped call option positions as of both March 31, 2011 and December 31, 2010:

	3.25% Exchangeable Notes⁽¹⁾	4.25% Exchangeable Notes⁽²⁾
Referenced shares of common stock	1,121,201	4,800,796
Exchange price including effect of capped calls	\$ 102.72	\$ 42.81

- (1) The capped calls mitigate the dilutive impact to us of the potential exchange of two-thirds of the 3.25% Exchangeable Notes into shares of common stock.
- (2) The capped calls mitigate the dilutive impact to us of the potential exchange of all of the 4.25% Exchangeable Notes into shares of common stock.

For the three months ended March 31, 2011, the per share average trading price of the Company's common stock on the New York Stock Exchange (NYSE) of \$37.96 was higher than the \$35.93 exchange price for the 4.25% Exchangeable Notes. As a result, even though there would be no dilutive economic impact to our earnings until our share price exceeded \$42.81, which is the exchange price after the impact of the capped calls, and even though the 4.25% Exchangeable Notes were not convertible as of March 31, 2011, we are required to include the dilutive impact of the 4.25% Exchangeable Notes based on the \$37.96 average share price in our diluted earnings per share calculation for the three months ended March 31, 2011 (see Notes 11 and 12). If the 4.25% Exchangeable Notes were able to be converted as of March 31, 2011, the approximate fair value of the shares upon conversion at that date would have been equal to approximately \$182.5 million, which would exceed the \$172.5 million principal amount of the 4.25% Exchangeable

Notes by approximately \$10.0 million. The 4.25% Exchangeable Notes were not included in our diluted weighted average share calculation for the three months ended March 31, 2010 and the 3.25% Exchangeable Notes were not included in our diluted weighted average share calculation for the three months ended March 31, 2011 and 2010, since the per share average trading price of the Company's common stock on the NYSE was below the respective exchange prices for these periods.

Interest Expense for the Exchangeable Notes

The unamortized discount on the Exchangeable Notes is accreted as additional interest expense from the date of issuance through the maturity date of the applicable Exchangeable Notes. The following table summarizes the total interest expense attributable to the Exchangeable Notes based on the effective interest rates set forth above, before the effect of capitalized interest, for the three months ended March 31, 2011 and 2010:

	Three Months Ended March 31,	
	2011	2010

Interest rate ⁽²⁾	2.93%	2.99%
Facility fee ⁽³⁾		0.575%
Maturity date ⁽⁴⁾		August 2013

(1)

We may elect to borrow, subject to bank approval, up to an additional \$200 million under an accordion feature under the terms of the Credit Facility.

- (2) As of March 31, 2011 and December 31, 2010, the Credit Facility interest rate included interest at an annual rate of LIBOR plus 2.675%.
- (3) The facility fee is equal to 0.575% of the total borrowing capacity and is paid on a quarterly basis. In addition to the facility fee, we also incurred debt origination and legal costs of approximately \$5 million, which will be amortized as additional interest expense from the August 2010 origination date through the August 2013 contractual maturity date.
- (4) Under the terms of the Credit Facility, we may exercise an option to extend the maturity date by one year.

The Company intends to borrow amounts under the Credit Facility from time to time for general corporate purposes, to fund potential acquisitions, to finance development and redevelopment expenditures, and to potentially repay long-term debt.

Debt Covenants and Restrictions

The Credit Facility, the unsecured senior notes, and certain other secured debt arrangements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Some of the more restrictive financial covenants include a maximum ratio of total debt to total asset value, a minimum fixed-charge coverage ratio, a minimum unsecured debt ratio, a minimum unencumbered asset pool debt service coverage ratio, and a minimum unencumbered

debt yield. Noncompliance with one or more of the covenants and restrictions could result in the full or partial principal balance of the associated debt becoming immediately due and payable. We believe we were in compliance with all of our debt covenants as of March 31, 2011.

Debt Maturities

The following table summarizes the stated debt maturities and scheduled amortization payments, excluding debt discounts, as of March 31, 2011:

Year Ending	(in thousands)
Remaining 2011	\$ 73,418
2012	304,292

Capitalized Interest and Loan Fees

The following table sets forth our gross interest expense, including debt discount and loan cost amortization, net of capitalized interest, for the three months ended March 31, 2011 and 2010. The capitalized amounts are a cost of development and redevelopment, and increase the carrying value of undeveloped land and construction in progress.

6. Noncontrolling Interests on the Company's Consolidated Financial Statements

Series A Preferred Units of the Operating Partnership

As of both March 31, 2011 and December 31, 2010, the Operating Partnership had 1,500,000 Series A Preferred Units representing preferred limited partnership interests in the Operating Partnership with a redemption value of \$50.00 per unit. There were no changes to this noncontrolling interest during the three months ended March 31, 2011 and 2010.

Common Units of the Operating Partnership

The Company owned a 96.8% common general partnership interest in the Operating Partnership as of both March 31, 2011 and December 31, 2010, and a 96.2% interest as of March 31, 2010. The remaining 3.2% and 3.8% common limited partnership interest as of both March 31, 2011 and December 31, 2010, and March 31, 2010, respectively, was owned in the form of common units by non-affiliate investors and certain of our executive officers and directors. There were 1,723,131 common units outstanding held by these investors, executive officers and directors as of both March 31, 2011 and December 31, 2010.

The noncontrolling common units may be redeemed by unitholders for cash. We, at our option, may satisfy the cash redemption obligation with shares of the Company's common stock on a one-for-one basis. Whether satisfied in cash or shares of the Company's common stock, the value for each noncontrolling common unit upon redemption is the amount

Table of Contents**KILROY REALTY CORPORATION AND KILROY REALTY, L.P.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

equal to the average of the closing quoted price per share of the Company's common stock, par value \$.01 per share, as reported on the NYSE for the ten trading days immediately preceding the applicable balance sheet date. The aggregate value upon redemption of the then-outstanding noncontrolling common units was \$65.2 million and \$61.4 million as of March 31, 2011 and December 31, 2010, respectively. This redemption value does not necessarily represent the amount that would be distributed with respect to each common unit in the event of our termination or liquidation. In the event of our termination or liquidation, it is expected in most cases that each common unit would be entitled to a liquidating distribution equal to the amount payable with respect to each share of the Company's common stock.

7. Partners Capital of the Operating Partnership*Common Units Outstanding*

The Company owned 52,419,393, 52,349,670, and 43,092,980 common units representing a 96.8%, 96.8%, and 96.2% common general partnership interest in the Operating Partnership as of March 31, 2011, December 31, 2010, and March 31, 2010, respectively. The remaining 3.2%, 3.2%, and 3.8% common limited partnership interest as of March 31, 2011, December 31, 2010, and March 31, 2010, respectively, was owned by non-affiliate investors and certain of our executive officers and directors in the form of noncontrolling common units. There were 1,723,131 common units outstanding held by these investors, executive officers and directors as of March 31, 2011, December 31, 2010, and March 31, 2010. For a further discussion of the noncontrolling common units during the three months ended March 31, 2011 and year ended December 31, 2010, please refer to Note 6.

8. Share-Based Compensation*Stockholder Approved Equity Compensation Plans*

At March 31, 2011, we had one share-based incentive compensation plan, the Kilroy Realty 2006 Incentive Award Plan as amended (the "2006 Plan"). As of March 31, 2011, 3,878,182 shares were available for grant under the 2006 Plan. The number of shares that remains available for grant is calculated using the weighted share counting provisions set forth in the 2006 Plan, which are based on the type of awards that are granted. The maximum number of shares available for grant subject to full value awards (which generally include equity awards other than options and stock appreciation rights) was 1,328,144 shares as of March 31, 2011.

Summary of Nonvested Shares

A summary of our nonvested shares activity from January 1, 2011 through March 31, 2011 is presented below:

- (1) Total fair value of RSUs vested was calculated based on the quoted closing share price of the Company's common stock on the NYSE on the day of vesting.

Compensation Cost Recorded During the Period

The total compensation cost for all share-based compensation programs was \$1.4 million and \$2.1 million for the three months ended March 31, 2011 and 2010, respectively. Of the total share-based compensation cost, \$0.3 million and \$0.4 million were capitalized as part of real estate assets for the three months ended March 31, 2011 and 2010, respectively. As of March 31, 2011, there was approximately \$8.0 million of total unrecognized compensation cost related to nonvested incentive awards granted under share-based compensation arrangements

that is expected to be recognized over a weighted-average period of 1.7 years. The remaining compensation cost related to these nonvested incentive awards had been recognized in periods prior to March 31, 2011.

9. Fair Value Measurements and Disclosures*Assets and Liabilities Reported at Fair Value*

The only assets and liabilities we record at fair value in our consolidated financial statements are the marketable securities and related deferred compensation plan liability, both of which are related to our Deferred Compensation Plan. The following table sets forth the fair value of our marketable securities and related deferred compensation plan liability as of March 31, 2011 and December 31, 2010:

Description	Fair Value (Level 1)⁽¹⁾	
	March 31, 2011	December 31, 2010
	(in thousands)	
Marketable securities ⁽²⁾	\$ 5,425	\$ 4,902
Deferred compensation plan liability ⁽³⁾	\$ 5,331	\$ 4,809

(1) Based on quoted prices in active markets for identical securities.

(2) The marketable securities are held in a limited rabbi trust.

(3) The deferred compensation liability is reported on our consolidated balance sheets in accounts payable, accrued expenses, and other liabilities.

We report the change in the fair value of the marketable securities at the end of each accounting period in interest income and other net investment gains (losses) in the consolidated statements of operations. We adjust the deferred compensation plan liability to fair value at the end of each accounting period based on the performance of the benchmark funds selected by each participant, which results in a corresponding increase or decrease to compensation cost for the period. The following table sets forth the related amounts recorded during the three months ended March 31, 2011 and 2010:

We have one reportable segment which is our Office Properties segment and we have one non-reportable segment which is our Industrial Properties segment. We also have certain corporate level activities including legal administration, accounting, finance, and management information systems, which are not considered separate operating segments.

We evaluate the performance of our segments based upon net operating income. Net Operating Income is defined as operating revenues (rental income, tenant reimbursements, and other property income) less property and related expenses (property expenses, real estate taxes, ground leases, and provisions for bad debts) and excludes other non-property related income and expenses such as interest income and interest expense, depreciation and amortization, acquisition-related expenses and corporate general and administrative expenses. There is no intersegment activity.

The following tables reconciles our reportable segment activity to our consolidated net income for the three months ended March 31, 2011 and 2010:

13. Subsequent Events

On April 15, 2011, aggregate dividends, distributions, and dividend equivalents of \$19.2 million were paid to common stockholders and common unitholders of record on March 31, 2011 and RSU holders of record on April 15, 2011.

In April 2011, we completed the acquisition of four office buildings aggregating approximately 280,000 rentable square feet in Kirkland, Washington for a purchase price of approximately \$100.1 million. The purchase price consisted of approximately \$70.1 million in cash and the assumption of approximately \$30.0 million in mortgage debt with an interest rate of 4.94% per year and a maturity date of April 15, 2015. We are currently in the process of completing the purchase price allocation for this acquisition.

In April 2011, the Company completed an underwritten public offering of 6,037,500 shares of its common stock. The net offering proceeds, after deducting underwriting discounts and commissions and offering expenses, were approximately \$221.2 million. The Company used a portion of the net proceeds from the offering to finance the property acquisition discussed above and used the remaining net proceeds for general corporate purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to our consolidated financial statements and should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. The results of operations discussion is combined for the Company and the Operating Partnership because there are no material differences in the results of operations between the two reporting entities.

Statements contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations that are not historical facts may be forward-looking statements. Such statements are subject to certain risks and uncertainties, which could cause actual results to differ materially from those projected. Some of the information presented is forward-looking in nature, including information concerning projected future occupancy rates, rental rate increases, property development and redevelopment timing and costs, and investment amounts. Numerous factors could affect our actual results, some of which are beyond our control. These include the breadth and duration of the current slowness of economic growth and its impact on our tenants, the strength of commercial and industrial real estate markets, market conditions affecting tenants, our ability to complete and successfully integrate pending and recent acquisitions, competitive market conditions, interest rate levels, volatility in the trading prices of the Company's securities, and capital market conditions. You are cautioned not to place undue reliance on this information, which speaks only as of the date of this report. We assume no obligation to update publicly any forward-looking information, whether as a result of new information, future events, or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under federal securities laws to disclose material information. For a discussion of important risks related to our business, and related to investing in our securities, including risks that could cause actual results and events to differ materially from results and events referred to in the forward-looking information, see Item 1A: Risk Factors in the Company's and the Operating Partnership's annual report on Form 10-K for the year ended December 31, 2010, and the discussion under the captions Factors That May Influence Future Results of Operations, Liquidity and Capital Resources of the Company, and Liquidity and Capital Resources of the Operating Partnership below. In light of these risks, uncertainties, and assumptions, the forward-looking events discussed in this report might not occur.

Overview and Background

We are a self-administered REIT active in premier office and industrial submarkets along the West Coast. We own, develop, acquire and manage primarily Class A real estate assets in the coastal regions of Los Angeles, Orange County, San Diego, greater Seattle and the San Francisco Bay Area, which we believe have strategic advantages and strong barriers to entry. We own our interests in all of our properties through the Operating Partnership and the Finance Partnership, and conduct substantially all of our operations through the Operating Partnership. We owned a 96.8% general partnership interest in the Operating Partnership as of both March 31, 2011 and December 31, 2010, and a 96.2% interest as of March 31, 2010. All our properties are held in fee except for the seven office buildings located at Kilroy Airport Center in Long Beach, California, which are held subject to leases for the land that expire in 2084.

Factors That May Influence Future Results of Operations

Acquisitions. As a key component of our growth strategy, we continually evaluate selected property acquisition opportunities. During 2010 we acquired ten office buildings in eight transactions for approximately \$697.8 million and in January 2011, we completed our third acquisition in San Francisco with the purchase of an office building located at 250 Brannan Street for approximately \$33.0 million. In April 2011, we also completed the acquisition of four office buildings located at 10210, 10220, and 10230 NE Points Drive and 3933 Lake Washington Boulevard NE in Kirkland, Washington, which encompass an aggregate of approximately 280,000 rentable square feet, for

approximately \$100.1 million. We generally finance our acquisitions through debt and equity offerings and borrowings on our unsecured line of credit.

We consider potential acquisitions on an ongoing basis and may have one or more potential acquisitions under consideration at any point in time, which may be at varying stages of the negotiation and due diligence review process. Costs associated with acquisitions are expensed as incurred and as a result, such costs may be incurred in

periods prior to closing. During the three months ended March 31, 2011, we incurred approximately \$0.5 million of third-party acquisition costs and we anticipate that we will incur additional third-party acquisition costs throughout 2011 as we pursue other potential acquisitions. We also expense, as applicable, non-refundable deposits in connection with uncompleted acquisitions.

Leasing Activity and Changes in Rental Rates. The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties, newly acquired properties with vacant space, and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods. The following table sets forth certain information regarding leases that commenced during the three months ended March 31, 2011.

**Lease Commencement Information
For Leases That Commenced During the Three Months Ended March 31, 2011**

	1st & 2nd Generation ⁽¹⁾				Changes in Rents ⁽³⁾	2nd Generation ⁽¹⁾		Weighted Average Lease Term (in months)

Industrial Properties	2	1	84,789	36,971	0.0%	0.0%	86.0%	87
Total portfolio	17	11	252,698	110,927	(18.6)%	(22.1)%	71.0%	72

(1) First generation leasing includes space where we have made capital expenditures that result in additional revenue generated when the space is re-leased. Second generation leasing includes space where we have made capital expenditures to maintain the current market revenue stream.

(2) Represents leasing activity for leases that commenced during the period, including first and second generation space, net of month-to-month leases.

(3) Calculated as the change between GAAP rents for new/renewed leases and the expiring GAAP rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired.

(4) Calculated as the change between stated rents for new/renewed leases and the expiring stated rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired.

(5) Calculated as the percentage of space either renewed or expanded into by existing tenants or subtenants at lease expiration.

The changes in rents and changes in cash rents reported above exclude leases of approximately 230,100 rentable square feet for the three months ended March 31, 2011, for which the space was vacant longer than one year or we are leasing the space for the first time. We exclude space vacant for more than one year in our change in rents calculations to provide a meaningful market comparison.

During the first quarter of 2011, we executed 28 leases for an aggregate of approximately 356,000 rentable square feet. The weighted average change in rents as compared to the expiring rents for the same space for these new leases was a 12.1% decrease in GAAP rents and a 17.4% decrease in cash rents, excluding leases for which the space was vacant longer than one year. As of March 31, 2011, we believe that the weighted average cash rental rates for our overall portfolio, including recently acquired properties, are approximately 10% above the current average market rental rates, although individual properties within any particular submarket presently may be leased either above, below, or at the current market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our portfolio.

In general, rental rates have stabilized in many of our submarkets over the last two quarters. Our rental rates and occupancy are impacted by general economic conditions, including the pace of regional economic growth and access to capital. Therefore, we cannot give any assurance that leases will be renewed or that available space will be re-leased at rental rates equal to or above the current market rates. Additionally, decreased demand and other negative trends or unforeseeable events that impair our ability to timely renew or re-lease space could have further negative effects on our future financial condition, results of operations, and cash flows.

(1) The information presented reflects leasing activity through March 31, 2011. For leases that have been renewed early or space that has been re-leased to a new tenant, the expiration date and annualized base rent information presented takes into consideration the renewed or re-leased lease terms. Excludes space leased under month-to-month leases and vacant space as of March 31, 2011.

- (2) Reflects annualized contractual base rent calculated on a straight-line basis in accordance with GAAP excluding the amortization of deferred revenue related to tenant-funded tenant improvements and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures including full service gross, modified gross and triple net. Amounts represent percentage of total portfolio annualized contractual base rental revenue.

In addition to the 1.3 million rentable square feet, or 9.2%, of currently available space in our stabilized portfolio, leases representing approximately 4.7% and 9.9% of the occupied square footage of our stabilized portfolio are scheduled to expire during the remainder of 2011 and in 2012, respectively. The leases scheduled to expire during the remainder of 2011 and in 2012 represent approximately 1.3 million rentable square feet of office space, or 10.7% of our total annualized base rental revenue, and 0.5 million rentable square feet of industrial space, or 1.1% of our total annualized base rental revenue, respectively. We believe that the weighted average cash rental rates are approximately 10% to 15% above the current average quoted market rates for leases scheduled to expire during the remainder of 2011 and 2012, although individual properties within any particular submarket presently may be leased either above, below, or at the current quoted market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our overall portfolio. Our ability to re-lease available space depends upon both general market conditions and the market conditions in the specific regions in which individual properties are located.

Development and Redevelopment Programs. We believe that a portion of our long-term future potential growth will continue to come from our development pipeline and redevelopment opportunities within our existing portfolio. Redevelopment opportunities are those projects in which we spend significant development and construction costs on existing buildings pursuant to a formal plan, the result of which is a higher economic return on the property. In recent periods we have delayed the timing and reduced the scope of our development program, which impacts the average development and redevelopment asset balances qualifying for interest and

Table of Contents

other carry cost capitalization. During the first quarter of 2011, we did not capitalize interest on six of our seven development pipeline properties with an aggregate cost basis of approximately \$155.1 million, as it was determined these projects did not qualify for interest and other carry cost capitalization under GAAP. As of March 31, 2011, our development pipeline included 116.7 gross acres of land with an aggregate cost basis of approximately \$269.2 million. While in recent periods we have delayed the timing and reduced the scope of our development program activity as a result of economic conditions in our submarkets, we continue to proactively evaluate development and redevelopment opportunities throughout the West Coast.

In the third quarter of 2010 we commenced the redevelopment of one of our buildings in the El Segundo submarket of Los Angeles County which encompasses approximately 300,000 rentable square feet. We are currently upgrading and modernizing the building and adjacent common areas since it was previously occupied by the Boeing Company and its predecessors for more than 25 years. The redevelopment project has a total estimated investment of approximately \$50 million and is currently expected to be completed in the third quarter of 2011.

Over the next two years, we also plan to continue to evaluate redevelopment opportunities for certain other of our properties, which have been occupied by long-term tenants and require significant capital expenditures to upgrade and modernize the buildings. In addition, we plan to continue to focus on enhancing the entitlements for our existing development land pipeline, and performing additional activities to prepare for the time when development will again be economically attractive.

Incentive Compensation. Our Executive Compensation Committee determines compensation, including equity and cash incentive programs, for our executive officers. The programs approved by the Executive Compensation Committee have historically provided for equity and cash compensation to be earned by our executive officers based on certain performance measures, including financial, operating, and development targets. Incentive compensation for our executive officers for 2011 has been structured to allow the Executive Compensation Committee to evaluate a variety of key factors and metrics at the end of the year and make a determination of incentive compensation for executive officers based on the Company and management's overall performance. As a result, accrued incentive compensation and compensation expense for future incentive compensation awards will be affected by our operating and development performance, financial results, the performance of the trading price of the Company's common stock, and market conditions. Consequently, we cannot predict the amounts that will be recorded in future periods related to such incentive compensation.

Share-Based Compensation. As of March 31, 2011, there was \$8.0 million of total unrecognized compensation cost related to outstanding nonvested shares of restricted common stock and nonvested RSUs issued under share-based compensation arrangements. That cost is expected to be recognized over a weighted-average period of 1.7 years. The \$8.0 million of unrecognized compensation cost does not reflect the future compensation cost for any potential share-based awards that may be issued based on the Company's and management's performance in 2011. Share-based compensation expense for future incentive compensation awards will be affected by our operating and development performance, financial results, the performance of the trading price of the Company's common stock, and market conditions. Consequently, we cannot predict the amounts that will be recorded in future periods for such share-based awards. See Note 8 to our consolidated financial statements included in this report for additional information regarding our share-based incentive compensation plan.

Current Regional Information

Although real estate fundamentals continue to be challenging in many of our regional submarkets, we have started to see a general increase in occupancy across our portfolio, and we have generally seen a modest decrease in vacancy rates across many of our regional submarkets as well as a stabilization in rental rates and lease concession packages.

Los Angeles and Ventura Counties. Our Los Angeles and Ventura Counties stabilized office portfolio of 3.1 million rentable square feet was 90.7% occupied with approximately 283,800 available rentable square feet as of March 31, 2011 compared to 89.3% occupied with approximately 328,800 available rentable square feet as of December 31, 2010.

As of March 31, 2011, an aggregate of approximately 424,800 and 188,500 rentable square feet are scheduled to expire in this region during the remainder of 2011 and 2012, respectively. The aggregate rentable square feet scheduled to expire in this region during the remainder of 2011 and 2012 represents approximately 4.9% of our occupied rentable square feet and 4.5% of our annualized base rental revenues in our total stabilized portfolio. Approximately 205,000 rentable square feet of the 424,800 rentable square feet that are scheduled to expire during the remainder of 2011 is related to a lease with one tenant in buildings along the 101-Corridor in Ventura County. The tenant is scheduled to vacate the properties upon expiration of the lease. Furthermore, as of the date of this report, we have leased approximately 70,000 rentable square feet in this region that was vacant at March 31, 2011. The new leases are scheduled to commence during the remainder of 2011.

San Diego County. Our San Diego County stabilized office portfolio of 5.5 million rentable square feet was 87.8% occupied with approximately 666,100 available rentable square feet as of March 31, 2011 compared to 86.4% occupied with approximately 744,300 available rentable square feet as of December 31, 2010. As of the date of this report, we have leased approximately 155,800 rentable square feet in this region that was available at March 31, 2011. The new leases are scheduled to commence during the remainder of 2011.

As of March 31, 2011, leases representing an aggregate of approximately 42,300 and 463,200 rentable square feet are scheduled to expire during the remainder of 2011 and 2012, respectively, in this region. The aggregate rentable square feet scheduled to expire in this region during the remainder of 2011 and 2012 represents approximately 4.0% of our occupied rentable square feet and 4.4% of our annualized base rental revenues in our total stabilized portfolio.

Orange County. As of March 31, 2011, our Orange County stabilized industrial portfolio was 95.6% occupied with approximately 148,800 available rentable square feet compared to 93.5% occupied with approximately 220,100 available rentable square feet as of December 31, 2010.

Our Orange County stabilized office portfolio of approximately 540,700 rentable square feet was 93.9% occupied with approximately 33,100 available rentable square feet as of March 31, 2011 compared to 93.1% occupied with approximately 37,300 available rentable square feet as of December 31, 2010.

As of March 31, 2011, leases representing an aggregate of approximately 99,100 and 510,700 rentable square feet are scheduled to expire during the remainder of 2011 and 2012, respectively, in this region. The aggregate rentable square feet scheduled to expire during the remainder of 2011 and 2012 represents approximately 4.9% of our occupied rentable square feet and 1.7% of our annualized base rental revenues in our total stabilized portfolio. Of the 609,800 rentable square feet scheduled to expire during the remainder of 2011 and 2012, approximately 531,200 rentable square feet is industrial space. As of the date of this report, we have leased approximately 133,100 rentable square feet of the 181,900 rentable square feet that was available in this region as of March 31, 2011. The new leases are expected to commence during the remainder of 2011.

San Francisco. As of March 31, 2011, our San Francisco stabilized office portfolio was 87.0% occupied with approximately 167,900 available rentable square feet as of March 31, 2011 compared to 84.3% occupied with approximately 188,900 available rentable square feet as of December 31, 2010. The increase in the San Francisco stabilized office portfolio occupancy is primarily attributable to the commencement of a lease with approximately 36,600 rentable square feet during the first quarter of 2011. Furthermore, we acquired an office building encompassing approximately 90,700 rentable square feet in this region in the first quarter of 2011, which was 76.7% occupied as of March 31, 2011.

Table of Contents

As of March 31, 2011, leases representing an aggregate of approximately 24,200 and 80,300 rentable square feet are scheduled to expire during the remainder of 2011 and 2012. As of the date of this report, we have leased approximately 101,200 rentable square feet in this region that was available at March 31, 2011. The new leases are scheduled to commence during the second and third quarters of 2011. The aggregate rentable square feet scheduled to expire in this region during the remainder of 2011 and 2012 represents approximately 0.8% of our occupied rentable square feet and less than 1.1% of our annualized base rental revenues in our total stabilized portfolio.

Greater Seattle. As of March 31, 2011, our Greater Seattle stabilized office portfolio consists of one office building in Redmond, Washington, encompassing approximately 122,100 rentable square feet. The building was 100.0% occupied as of March 31, 2011 to a single tenant and the lease expires in 2015.

Results of Operations

Management internally evaluates the operating performance and financial results of our portfolio based on Net Operating Income for the consolidated portfolio. We define Net Operating Income as operating revenues (rental income, tenant reimbursements, and other property income) less operating expenses (property expenses, real estate taxes, provision for bad debts, and ground leases). The Net Operating Income information presented within this Management's Discussion and Analysis of Financial Condition and Results of Operations is the same Net Operating Income information disclosed in our segment information in Note 10 to our consolidated financial statements.

(1) Properties owned and stabilized as of January 1, 2010 and still owned and stabilized as of March 31, 2011.

Rental Income

Rental income increased \$19.6 million, or 32.4%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily resulting from:

An increase of \$17.7 million generated by ten office buildings we acquired during 2010 and one office building we acquired in the first quarter of 2011 (the Acquisition Properties);

An increase of \$3.4 million primarily as a result of an increase in average occupancy for the properties owned and stabilized as of January 1, 2010 and still owned and stabilized as of March 31, 2011 (the Core Portfolio). Average occupancy increased 8.2%, from 82.4% for the three months ended March 31, 2010, to 90.6% for the three months ended March 31, 2011; and

An offsetting decrease of \$1.4 million generated by one office building that was moved from the stabilized portfolio to the redevelopment portfolio during the third quarter of 2010 upon the expiration of the lease for

that building (the Redevelopment Property).

Tenant Reimbursements

Tenant reimbursements increased \$0.7 million, or 12.3%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 resulting from:

An increase of \$1.0 million generated by the Acquisition Properties;

An increase of \$0.1 million as a result of an increase in the Core Portfolio's average occupancy, as discussed above under the caption Rental Income ; and

An offsetting decrease of \$0.4 million generated by the Redevelopment Property.

Table of Contents

Other Property Income

Other property income increased \$1.0 million, or 217.5%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. Other property income for both periods consisted primarily of lease termination fees and other miscellaneous income within the Core Portfolio.

Property Expenses

Property expenses increased \$5.7 million, or 47.2%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily resulting from:

An increase of \$4.3 million generated by the Acquisition Properties; and

An increase of \$1.7 million generated by the Core Portfolio primarily resulting from:

An increase of \$1.5 million attributable to an increase in legal fees and consulting costs primarily related to a dispute with a former tenant at one of our industrial buildings; and

An increase of \$0.3 million attributable to an increase in certain recurring operating costs such as utilities, property management expenses, janitorial and other service-related costs partially as a result of an increase in average occupancy, as discussed above under the caption **Rental Income**.

Real Estate Taxes

Real estate taxes increased \$2.1 million, or 35.3%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily attributable to the Acquisition Properties.

Ground Leases

Ground leases increased \$0.4 million, or 684.5%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily as a result of a ground rent expense adjustment in 2010 for our Kilroy Airport Center, Long Beach project. We were successful in negotiating a lower rental rate under the terms of the ground lease retroactive to January 1, 2006 which resulted in a lower ground rent expense for the three months ended March 31, 2010. The current period expense represents the expected ground rent expense for future periods.

Net Operating Income

Net Operating Income increased \$13.1 million, or 26.9%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 for the reasons stated above.

Other Expenses and Income

Depreciation and Amortization

Depreciation and amortization increased by \$8.4 million, or 40.0%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010, primarily related to the Acquisition Properties.

Interest Expense

The following table sets forth our gross interest expense, including debt discounts and loan cost amortization, net of capitalized interest for the three months ended March 31, 2011 and 2010:

	2011	2010	Dollar Change	Percentage Change
		(\$ in thousands)		
Gross interest expense	\$ 22,855	\$ 14,540	\$ 8,315	57.2%
Capitalized interest	(1,979)	(2,584)	605	(23.4)%
Interest expense	\$ 20,876	\$ 11,956	\$ 8,920	74.6%

Table of Contents

Gross interest expense, before the effect of capitalized interest, increased \$8.3 million, or 57.2%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 resulting from an increase in our average outstanding debt balances as a result of our acquisition activity. In addition, our weighted average effective interest rate increased from approximately 5.7% during the three months ended March 31, 2010 to approximately 6.1% during the three months ended March 31, 2011.

Capitalized interest decreased \$0.6 million, or 23.4%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily due to a decrease in our average development and redevelopment asset balances qualifying for interest capitalization.

Liquidity and Capital Resources of the Company

In this Liquidity and Capital Resources of the Company section, the term the Company refers only to Kilroy Realty Corporation on an unconsolidated basis, and excludes the Operating Partnership and all other subsidiaries.

The Company's business is operated primarily through the Operating Partnership. Distributions from the Operating Partnership are the Company's source of capital. The Company believes the Operating Partnership's sources of working capital, specifically its cash flow from operations, and borrowings available under its Credit Facility, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its preferred and common shareholders. Cash flows from operating activities generated by the Operating Partnership for the three months ended March 31, 2011 were sufficient to cover the Company's payment of cash dividends to its shareholders. However, there can be no assurance that the Operating Partnership's sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distributions to the Company. The unavailability of capital could adversely affect the Operating Partnership's ability to make distributions to the Company, which would in turn, adversely affect the Company's ability to pay cash dividends to its shareholders.

The Company is a well-known seasoned issuer with an effective shelf registration statement for the public issuance of preferred or common equity securities and guarantees of debt securities, and for the public issuance by the Operating Partnership of debt securities. As circumstances warrant, the Company may issue securities from time to time on an opportunistic basis, depending upon market conditions and available pricing. When the Company receives proceeds from preferred or common equity issuances, it is required by the Operating Partnership's partnership agreement to contribute the proceeds from its equity issuances to the Operating Partnership in exchange for preferred or common partnership units of the Operating Partnership. The Operating Partnership may use the proceeds to repay debt, including borrowings under its Credit Facility, develop new or existing properties, to make acquisitions of properties, portfolios of properties, or for general corporate purposes.

As the sole general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes, and the Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities and the revenues and expenses of the Company and the Operating Partnership are substantially the same on their respective financial statements. The section entitled Liquidity and Capital Resources of the Operating Partnership should be read in conjunction with this section to understand the liquidity and capital resources of the Company on a consolidated basis and how the Company is operated as a whole.

Distribution Requirements

The Company is required to distribute 90% of its REIT taxable income (excluding capital gains) on an annual basis to maintain qualification as a REIT for federal income tax purposes. While historically the Company has satisfied its distribution requirement by making cash distributions to its shareholders, for distributions with respect to taxable years ending on or before December 31, 2011, IRS guidance allows the Company to satisfy up to 90% of this requirement through the distribution of shares of the Company's common stock, if certain conditions are met. The Company intends to continue to make, but has not committed to make, regular quarterly cash distributions to common stockholders and common unitholders from cash flow from operating activities. All such distributions are at the discretion of the board of directors. The Company has historically distributed amounts in excess of our taxable income resulting in a return of capital to its stockholders and the Company currently believes it has the ability to maintain distributions at the 2010 levels to meet its REIT requirements for 2011. The Company considers market factors and its performance in addition to REIT requirements in determining our distribution levels. In addition, one of the covenants contained within the Credit Facility prohibits the Company from paying dividends in excess of 95% of FFO.

On February 17, 2011, the Board of Directors declared a regular quarterly cash dividend of \$0.350 per common share payable on April 15, 2011 to stockholders of record on March 31, 2011 and caused a \$0.35 per Operating Partnership unit cash distribution to be paid in respect of the Operating Partnership's common limited partnership interests, including those owned by the Company.

Table of Contents

On February 17, 2011, the Board of Directors declared a dividend of \$0.4875 per share on the Company's Series E Preferred Stock and a dividend of \$0.46875 per share on the Company's Series F Preferred Stock for the period commencing on and including February 15, 2011 and ending on and including May 14, 2011.

Capitalization

As of March 31, 2011, our total debt as a percentage of total market capitalization was 39.2% and the total debt and liquidation value of our preferred equity as a percentage of total market capitalization was 44.6%, which was calculated based on the closing price per share of the Company's common stock of \$38.83 on March 31, 2011 as shown in the table below.

Liquidity and Capital Resources of the Operating Partnership

In this Liquidity and Capital Resources of the Operating Partnership section, the terms we, our, and us refer to the Operating Partnership or the Operating Partnership and the Company together, as the text requires.

General

Our primary liquidity sources and uses are as follows:

Liquidity Sources

- Net cash flow from operations;
- Borrowings under the Credit Facility;
- Proceeds from additional secured or unsecured debt financings;
- Proceeds from public or private issuance of debt or equity securities; and
- Proceeds from the disposition of nonstrategic assets.

Liquidity Uses

- Property or undeveloped land acquisitions;
- Property operating and corporate expenses;
- Capital expenditures, tenant improvement and leasing costs;
- Debt service and principal payments, including debt maturities;
- Distributions to common and preferred security holders;
- Development and redevelopment costs; and
- Outstanding debt repurchases.

General Strategy

Our general strategy is to maintain a conservative balance sheet with a top credit profile and to maintain a capital structure that allows for financial flexibility and diversification of capital resources. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our long-term capital requirements. We believe that our current projected liquidity requirements for the next twelve month period, as set forth above under the caption Liquidity Uses, will be satisfied using a combination of the liquidity sources listed above. We believe our conservative leverage and staggered debt maturities provide us with financial flexibility and enhances our ability to obtain additional sources of liquidity if necessary, and, therefore, we are well-positioned to refinance or repay maturing debt and to pursue our strategy of seeking attractive acquisition opportunities, which we may finance, as necessary, with future public and private issuances of debt and equity securities.

2011 Financing Activities

In April 2011, the Company completed an underwritten public offering of 6,037,500 shares of our common stock. The net offering proceeds, after deducting underwriting discounts and commissions and offering expenses, of approximately \$221.2 million were contributed to the Operating Partnership.

In January 2011, the Operating Partnership obtained a \$135.0 million mortgage loan. The mortgage loan is secured by one property in San Francisco, bears interest at an annual rate of 4.27%, requires interest-only payments for the first two years with a 30-year amortization schedule thereafter, and is scheduled to mature on February 1, 2018.

Table of Contents***Liquidity Sources******Exchangeable Notes, Unsecured Senior Notes, and Secured Debt***

The aggregate principal amount of our Exchangeable Notes, unsecured senior notes, and secured debt of the Operating Partnership outstanding as of March 31, 2011 was as follows:

- (1) We may elect to borrow, subject to bank approval, up to an additional \$200 million under an accordion feature under the terms of the Credit Facility.

Table of Contents

- (2) As of March 31, 2011 and December 31, 2010, the Credit Facility interest rate included interest at an annual rate of LIBOR plus 2.675%.
- (3) The facility fee is equal to 0.575% of the total borrowing capacity and is paid on a quarterly basis. In addition to the facility fee, we also incurred debt origination and legal costs of approximately \$5 million, which will be amortized as additional interest expense from the August 2010 origination date through the August 2013 contractual maturity date.
- (4) Under the terms of the Credit Facility, we may exercise an option to extend the maturity date by one year.

Debt Maturities

The following table summarizes our scheduled principal payments as of March 31, 2011:

Year	Secured Debt ⁽¹⁾	Exchangeable Notes ⁽²⁾	Unsecured		Total
			Senior Notes ⁽³⁾ (in thousands)	Credit Facility	
Remaining 2011	\$ 73,418				\$ 73,418
2012	156,292	148,000			304,292
2013	5,311			57,000	62,311
2014	5,827	172,500	83,000		261,327
2015	6,177		325,000		331,177
Thereafter	200,028		250,000		450,028
	\$ 447,053	\$ 320,500	\$ 658,000	\$ 57,000	\$ 1,482,553

- (1) Includes the \$52.0 million gross aggregate principal amount of a loan due in April 2012 before the effect of the unamortized discount of approximately \$0.5 million as of March 31, 2011.
- (2) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$18.9 million as of March 31, 2011.
- (3) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$2.2 million as of March 31, 2011.

Debt Covenants

The Credit Facility, unsecured senior notes, and certain other secured debt arrangements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Key existing financial covenants and their covenant levels include:

	Covenant Level	Actual Performance at March 31, 2011
Credit Facility (as defined in the Credit Agreement):		
Total debt to total asset value	less than 60%	37%
Fixed charge coverage ratio	greater than 1.5x	2.5x
Unsecured debt ratio	greater than 1.67x	2.6x
Unencumbered asset pool debt service coverage	greater than 2.0x	3.9x
Unencumbered debt yield	greater than 12%	17%
Unsecured Senior Notes due 2015 and 2020 (as defined in the Indentures):		
Total debt/total asset value	less than 60%	44%
Interest coverage	greater than 1.5x	3.1x
Secured debt/total asset value	less than 40%	13%
Unencumbered asset pool value to unsecured debt	greater than 150%	254%

The Operating Partnership was in compliance with all its debt covenants as of March 31, 2011. Our current expectation is that the Operating Partnership will continue to meet the requirements of its debt covenants in both the short and long term. However, in the event of a continued economic slow down and continued volatility in the credit markets, there is no certainty that the Operating Partnership will be able to continue to satisfy all the covenant requirements.

Liquidity Uses

Contractual Obligations

There have been no material changes to our contractual obligations and capital commitments as disclosed in our annual report on Form 10-K for the year ended December 31, 2010.

Acquisition Opportunities

In 2010 we acquired ten properties for approximately \$637.6 million in cash and to date in 2011 we have acquired five properties for approximately \$103.1 million in cash, all of which we funded through various capital raising activities. We continually consider acquisition opportunities as they arise, and may have one or more potential acquisitions under consideration, at varying stages of negotiation and due diligence review, at any point in time. We continue to actively evaluate strategic opportunities to acquire additional properties that provide attractive yields, significant potential for growth in cash flow from operations, present growth opportunities in strategic markets, or demonstrate the potential for improved performance through strategic management. We expect that any material acquisitions will be funded with borrowings under our Credit Facility or the public or private issuance of new debt or equity securities.

Factors That May Influence Future Sources of Capital and Liquidity of the Company and the Operating Partnership

We continue to evaluate sources of financing for our business activities, including borrowings under the Credit Facility, issuance of public and private unsecured debt, fixed-rate secured mortgage financing, and offerings of the Company's common stock. However, the Operating Partnership's ability to obtain new financing or refinance existing borrowings on favorable terms could be impacted by various factors including the state of economic conditions, significant tenant defaults, a decline in the demand for office or industrial properties, a decrease in market rental rates or market values of real estate assets in our submarkets, and the amount of future borrowings. These events could result in the following:

Decreases in our cash flows from operations, which could create further dependence on our Credit Facility;

An increase in the proportion of variable-rate debt, which could increase our sensitivity to interest rate fluctuations in the future; and

A decrease in the value of our properties, which could have an adverse effect on the Operating Partnership's ability to incur additional debt, refinance existing debt at competitive rates, or comply with its existing debt obligations.

In addition to the factors noted above, the Operating Partnership's credit ratings are subject to ongoing evaluation by credit rating agencies and may be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. In the event that the Operating Partnership's credit ratings are downgraded, we may incur higher borrowing costs and may experience difficulty in obtaining additional financing or refinancing existing indebtedness.

Table of Contents**Consolidated Historical Cash Flow Summary**

Our historical cash flow activity for the three months ended March 31, 2011 as compared to the three months ended March 31, 2010 is as follows:

	Three Months Ended March 31,			
	2011	2010	Dollar Change	Percentage Change
			(\$ in thousands)	
Net cash provided by operating activities	\$ 43,797	\$ 33,568	\$ 10,229	30.5%
Net cash used in investing activities	(61,137)	(37,464)	(23,673)	63.2%
Net cash provided by financing activities	9,208	4,749	4,459	93.9%

Operating Activities

Our cash flows from operations depends on numerous factors including the occupancy level of our portfolio, the rental rates achieved on our leases, the collectability of rent and recoveries from our tenants, the level of operating expenses, the impact of property acquisitions and related financing activities, and other general and administrative costs. Our net cash provided by operating activities increased by \$10.2 million, or 30.5%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010 primarily as the result of an increase in Net Operating Income from 2010 to 2011 resulting from the Acquisition Properties. See additional information under the caption Rental Operations.

Investing Activities

Our net cash used in investing activities is generally used to fund property acquisitions, recurring and nonrecurring capital expenditures for our operating properties, and development and redevelopment projects. Our net cash used in investing activities increased \$23.7 million, or 63.2%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. This net increase was primarily attributable to the following:

Approximately \$17.1 million increase in cash paid for the acquisition of operating properties; and

An increase of \$2.4 million in expenditures related to the redevelopment project on which we commenced construction in the third quarter of 2010. See additional information under the caption Factors That May Influence Future Results of Operations Development and Redevelopment Programs.

Financing Activities

Our net cash provided by or used in financing activities is generally impacted by our capital raising activities net of dividends and distributions paid to common and preferred security holders. Net cash provided by financing activities increased by \$4.5 million, or 93.9%, for the three months ended March 31, 2011 compared to the three months ended March 31, 2010, and was primarily attributable to the following:

Approximately \$6.0 million increase as a result of the incurrence of debt to fund higher acquisition expenditures;

Approximately \$1.4 million increase attributable to a decrease in the value of the shares and RSUs tendered to satisfy minimum statutory tax withholding requirements related to shares and RSUs that vested under our share-based incentive compensation plan in the first quarter of 2011 as compared to the first quarter of 2010 (see Note 8 to our consolidated financial statements); and

An offsetting decrease of \$3.2 million as a result of higher dividends attributable to the issuance of 9.2 million shares in April 2010.

Consolidated Off-Balance Sheet Arrangements

As of March 31, 2011 and as of the date this report was filed, we did not have any off-balance sheet transactions, arrangements, or obligations, including contingent obligations.

Table of Contents**Non-GAAP Supplemental Financial Measure: Funds From Operations**

We calculate FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, and gains and losses from sales of depreciable operating property, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets), and after adjustment for unconsolidated partnerships and joint ventures.

We believe that FFO is a useful supplemental measure of our operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of our activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, our FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, we believe that FFO along with the required GAAP presentations provides a more complete measurement of our performance relative to our competitors and a more appropriate basis on which to make decisions involving operating, financing, and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of our operating performance since it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

The following table presents our FFO for the three months ended March 31, 2011 and 2010:

	Three Months Ended March 31, 2011 2010 (in thousands)	
Net income available to common stockholders	\$ 1,034	\$ 4,886
Adjustments:		
Net income attributable to noncontrolling common units of the Operating Partnership	34	192

ITEM 4. CONTROLS AND PROCEDURES

Kilroy Realty Corporation

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is processed, recorded, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of March 31, 2011, the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded, as of that time, that disclosure controls and procedures were effective at the reasonable assurance level.

There have been no significant changes that occurred during the quarter covered by this report in the Company's internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
