Item 5. Other Events

On April 17, 2003, the Company issued the following press release:

**SECOND BANCORP
REPORTS STRONG FIRST QUARTER**

Warren, Ohio, April 17, 2003 **SECOND BANCORP INCORPORATED (Nasdaq SECD , SECDP)** reported first quarter 2003 net income of \$8,661,000, up 84.9% from the \$4,683,000 reported for the same period last year. On a diluted basis, earnings per share for the quarter were \$.89 or nearly 90% above the \$.47 reported a year ago. Earnings for the quarter were positively impacted by banking subsidiary Second National Bank's sale of two banking centers in Jefferson County, Ohio including \$88 million in deposits. That transaction, completed February 7, 2003, produced a \$5.62 million pre-tax gain. Excluding that non-recurring event, earnings for the quarter were \$5,009,000 or \$.52 per diluted share compared to a market consensus estimate of \$.49 per share.

While significantly improved on a GAAP basis, key operating performance ratios for the quarter were mixed in comparison with the same period in 2002. The Company's return on average assets (ROAA) for the quarter was 1.85% (or 1.07% on an operating basis) compared to 1.11% last year and return on average equity (ROAE) climbed to 25.61% (or 14.81% on an operating basis) from 14.39% a year ago. The Company's efficiency ratio on an operating basis was marginally improved at 58.98% compared to 59.40% for first quarter 2002 while its net interest margin for the quarter was compressed by persistent and historically low interest rates to 3.33% from 3.72% a year ago.

Excluding the gain on the Jefferson County branch sale, non-interest income for the quarter was \$8.6 million, a strong 67% ahead of results for the same period last year. That improvement was led by a nearly tripling of the Company's gains on sale of loans primarily reflecting aggressive secondary market activity in mortgages, and service charges on deposit accounts which were

15.7% higher than a year ago. Earnings attributed to the Company's mortgage lending line of business were also positively effected by continuing growth in the Company's \$1.5 billion mortgage servicing portfolio and a recognized net gain of \$700,000 for the quarter on derivative investments economically hedging fluctuations in the value of mortgage servicing rights due to interest rates.

Non-interest expenses for the quarter grew 16% over the same period last year to \$13.67 million led by increased salary and benefit costs associated largely with the Company's 2002 acquisition of Stouffer-Herzog Insurance Agency, Inc. and increased staffing in our expanding mortgage lending business. That rate of increase in non-interest expenses mirrors the Company's 13% growth in assets over the same period and is significantly less than the 67% growth in non-interest income.

Credit quality remains a focal point for Second Bancorp. Though non-performing loans continue at elevated levels, they have generally stabilized over the last three quarters in the \$19 to \$20 million range or a quarter-end 1.62% of total loans. Net charge-offs for the quarter fell by \$186,000 to \$2,012,000 but quarter-end 90 day past due and accruing loans were 16.4% higher than at the end of fourth quarter 2002. The Company's allowance for loan losses as a percentage of period-end loans was stable at 1.46% compared to 1.51% at year-end 2002.

Commenting on Second Bancorp's prospects for the remainder of the year, Treasurer David L. Kellerman indicated "We expect the local and national economies to remain sluggish and interest rates to remain at historically low levels into the second half of the year. That kind of environment makes double-digit earnings per share growth goals difficult to achieve. We continue to manage our core businesses with an eye toward minimizing risks associated with slowing economic activity and believe our core wealth management and commercial lending businesses are positioned to become strong contributors to our financial success as the economy returns to a more traditional growth pattern. We currently believe that net income for the calendar year on an operating basis will fall within the range of from \$2.08 to \$2.13 per diluted share compared to the \$1.94 we reported last year.

Second Bancorp previously announced a 5.6% increase in its quarterly dividend to \$.19 per share (an annualized \$.76) payable April 30, 2003 to shareholders of record April 15, 2003. That action maintains Second Bancorp's record of having increased its dividend in each of the seventeen years since its incorporation.

This announcement contains forward-looking statements that involve risk and uncertainties, including changes in general economic and financial market conditions and the Company's ability to execute its business plans. Although management believes the expectations reflected in such forward-looking statements are reasonable, actual results may differ materially.

Second Bancorp is a \$1.9 billion financial holding company providing a full range of commercial and consumer banking, wealth management, insurance and investment products and services to communities in an eight county area of Northeastern Ohio through subsidiaries Second National Bank and Stouffer-Herzog Insurance Agency, Inc.
